	Years	5.02	3.01	4.39
USF-T	N	247	171	109
	Years	5.57	3.75	4.05
SUS	N	1,918	1,130	625
	Years	5.09	3.33	3.98

*Note: Because of the relatively small cohort sizes of some programs, we have chosen to aggregate six academic years (2007-08 to 2012-13) of data to compute an average Time to Degree. It is important to also note that TTD is based on students' entry date to the institution from which they earned the degree. This leads to differences in time-to-degree between FTIC and transfer students since transfers earned credit toward the baccalaureate degree at a prior institution.

**Note: Hours to degree data are not captured for students who earn a second bachelor's degree.

***Note: Other Transfers are those that transferred to the institution without completing the AA.

****Note: An average Time to Degree calculation was not computed for universities that produced fewer than 10 graduates over the six-year period.
