BACKGROUND INFORMATION

The Florida International University has reviewed a proposal for entry into a sublease for the construction of a student residence facility (“the Project”) utilizing a Public-Private Partnership arrangement. The proposed project is to be located on the Biscayne Bay Campus (BBC), approximately 26 miles from the main campus of the Florida
International University. The Project will be funded by bonds issued through the Miami-Dade Industrial Development Authority and secured by gross Project revenues, with no other debt outstanding, with a lien on the Project. Bonds issued to fund the Project will mature thirty-four (34) years after issuance and debt service is ascending in the first five years. The duration of the debt and the debt service repayment structure are both inconsistent with the Debt Management Guidelines, as previously expressed. The Project will be a 410 bed, 200,682 gross square foot, nine-story building with amenities such as an outdoor pool and approximately 205 parking spaces.

The University Board of Trustees has requested approval from the Board of Governors to enter into a sublease for the housing. FIU is not legally obligated to pay debt service or maintain the Project. In the event actual rental revenue is insufficient to operate the Project and pay debt service, FIU could exercise its option to purchase the Project at fair market value or may feel obligated to cover these expenses given the location of the Project on the BBC.

The Florida International University Board of Trustees, at its December 10, 2014 meeting, approved the Project and the sublease.
