This subsection does not prohibit a university from increasing or assessing optional fees related to specific activities if payment of such fees is not required as a part of registration for courses.

Each university board of trustees may establish a tuition differential for undergraduate courses upon receipt of approval from the Board of Governors. However, beginning July 1, 2014, the Board of Governors may only approve the establishment of or an increase in tuition differential for a state research university designated as a preeminent state research university pursuant to s. 1001.7065(3). The tuition differential shall promote improvements in the quality of undergraduate education and shall provide financial aid to undergraduate students who exhibit financial need.

(a) Seventy percent of the revenues from the tuition differential shall be expended for purposes of undergraduate education. Such expenditures may include, but are not limited to, increasing course offerings, improving graduation rates, increasing the percentage of undergraduate students who are taught by faculty, decreasing student-faculty ratios, providing salary increases for faculty who have a history of excellent teaching in undergraduate courses, improving the efficiency of the delivery of undergraduate education through academic advisement and counseling, and reducing the percentage of students who graduate with excess hours. This expenditure for undergraduate education may not be used to pay the salaries of graduate teaching assistants. Except as otherwise provided in this subsection, the remaining 30 percent of the revenues from the tuition differential, or the equivalent amount of revenue from private sources, shall be expended to provide financial aid to undergraduate students who exhibit financial need, including students who are scholarship recipients under s. 1009.984, to meet the cost of university attendance. This expenditure for need-based financial aid shall not supplant the amount of need-based aid provided to undergraduate students in the preceding fiscal year from financial aid fee revenues, the direct appropriation for financial assistance provided to state universities in the General Appropriations Act, or from private sources. The total amount of tuition differential waived under subparagraph (b)(8) may be included in calculating the expenditures for need-based financial aid to undergraduate students required by this subsection. If the university has excess funds remaining from the 30 percent of the revenues from the tuition differential required to be used to assist students who exhibit financial need, the university may expend the excess portion in the same manner as required for the other 70 percent of the tuition differential revenues.

(b) Each tuition differential is subject to the following conditions:

1. The tuition differential may be assessed on one or more undergraduate courses or on all undergraduate courses at a state university.

2. The tuition differential may vary by course or courses, by campus or center location, and by institution. Each university board of trustees shall
strive to maintain and increase enrollment in degree programs related to math, science, high technology, and other state or regional high-need fields when establishing tuition differentials by course.

3. For each state university that is designated as a preeminent state research university by the Board of Governors, pursuant to s. 1001.7065 has total research and development expenditures for all fields of at least $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition differential may not be increased by more than 6.15 percent of the total charged for the aggregate sum of these fees in the preceding fiscal year. The tuition differential may be increased if the university meets or exceeds performance standard targets for that university established annually by the Board of Governors for the following performance standards, amounting to no more than a 2-percent increase in the tuition differential for each performance standard:

   a. An increase in the 6-year graduation rate for full-time, first-time-in-college students, as reported annually to the Integrated Postsecondary Education Data System.

   b. An increase in the total annual research expenditures.

   c. An increase in the total patents awarded by the United States Patent and Trademark Office for the most recent years. For each state university that has total research and development expenditures for all fields of less than $100 million per year as reported annually to the National Science Foundation, the aggregate sum of tuition and the tuition differential may not be increased by more than 15 percent of the total charged for the aggregate sum of these fees in the preceding fiscal year.

4. The aggregate sum of undergraduate tuition and fees per credit hour, including the tuition differential, may not exceed the national average of undergraduate tuition and fees at 4-year degree-granting public postsecondary educational institutions.

5. The tuition differential shall not be included in any award under the Florida Bright Futures Scholarship Program established pursuant to ss. 1009.53-1009.538.

6. Beneficiaries having prepaid tuition contracts pursuant to s. 1009.98(2)(b) which were in effect on July 1, 2007, and which remain in effect, are exempt from the payment of the tuition differential.

7. The tuition differential may not be charged to any student who was in attendance at the university before July 1, 2007, and who maintains continuous enrollment.

8. The tuition differential may be waived by the university for students who meet the eligibility requirements for the Florida public student assistance grant established in s. 1009.50.

CODING: Words stricken are deletions; words underlined are additions.
9. Subject to approval by the Board of Governors, the tuition differential authorized pursuant to this subsection may take effect with the 2009 fall term.

(c) A university board of trustees may submit a proposal to the Board of Governors to implement a tuition differential for one or more undergraduate courses. At a minimum, the proposal shall:

1. Identify the course or courses for which the tuition differential will be assessed.
2. Indicate the amount that will be assessed for each tuition differential proposed.
3. Indicate the purpose of the tuition differential.
4. Indicate how the revenues from the tuition differential will be used.
5. Indicate how the university will monitor the success of the tuition differential in achieving the purpose for which the tuition differential is being assessed.

(d) The Board of Governors shall review each proposal and advise the university board of trustees of approval of the proposal, the need for additional information or revision to the proposal, or denial of the proposal. The Board of Governors shall establish a process for any university to revise a proposal or appeal a decision of the board.

(e) The Board of Governors shall submit a report to the President of the Senate, the Speaker of the House of Representatives, and the Governor describing the implementation of the provisions of this subsection no later than February 1 of each year. The report shall summarize proposals received by the board during the preceding fiscal year and actions taken by the board in response to such proposals. In addition, the report shall provide the following information for each university that has been approved by the board to assess a tuition differential:

1. The course or courses for which the tuition differential was assessed and the amount assessed.
2. The total revenues generated by the tuition differential.
3. With respect to waivers authorized under subparagraph (b)8., the number of students eligible for a waiver, the number of students receiving a waiver, and the value of waivers provided.
4. Detailed expenditures of the revenues generated by the tuition differential.
5. Changes in retention rates, graduation rates, the percentage of students graduating with more than 110 percent of the hours required for...
graduation, pass rates on licensure examinations, the number of undergraduate course offerings, the percentage of undergraduate students who are taught by faculty, student-faculty ratios, and the average salaries of faculty who teach undergraduate courses.

(f) No state university shall be required to lower any tuition differential that was approved by the Board of Governors and in effect prior to January 1, 2009, in order to comply with the provisions of this subsection.

Section 5. Subsection (8) of section 1009.26, Florida Statutes, is amended, and subsection (12) is added to that section, to read:

1009.26 Fee waivers.—

(8) A state university, a Florida College System institution, a career center operated by a school district under s. 1001.44, or a charter technical career center shall waive tuition for undergraduate college credit programs and career certificate programs tuition for each recipient of a Purple Heart or another combat decoration superior in precedence who:

(a) Is enrolled as a full-time, part-time, or summer-school student in an undergraduate program that terminates in an associate or a baccalaureate degree, a college credit or certificate, or a career certificate;

(b) Is currently, and was at the time of the military action that resulted in the awarding of the Purple Heart or other combat decoration superior in precedence, a resident of this state; and

(c) Submits to the state university, the Florida College System institution, the career center operated by a school district under s. 1001.44, or the charter technical career center the DD-214 form issued at the time of separation from service as documentation that the student has received a Purple Heart or another combat decoration superior in precedence. If the DD-214 is not available, other documentation may be acceptable if recognized by the United States Department of Defense or the United States Department of Veterans Affairs as documenting the award.

Such a waiver for a Purple Heart recipient or recipient of another combat decoration superior in precedence shall be applicable for 110 percent of the number of required credit hours of the degree or certificate program for which the student is enrolled.

(12)(a) A state university, a Florida College System institution, a career center operated by a school district under s. 1001.44, or a charter technical career center shall waive out-of-state fees for students, including, but not limited to, students who are undocumented for federal immigration purposes, who meet the following conditions:

1. Attended a secondary school in this state for 3 consecutive years immediately before graduating from a high school in this state;
