8:00 Welcome: Gene Kovacs

8:30 Keynote: Chancellor Frank Brogan

Reports from Breakout Sessions from Session Facilitators:

- Introduction to SUS Data Reporting: Terricka Washington, Sarah Graham
- FAMU is requesting a new detail report on the EMPLOYEE file data that is similar to a report on the SCD submission
- Birds of a Feather – Peoplesoft: Ronica Mathis
- Birds of a Feather – Banner: Ali Penton
- Birds of a Feather – Annual Report: Elaine Lavender - Universities would like more sharing of code by the Board office.
- Budget Directors/Workshop: Kristie Harris
  - Beginning with the estimated year portion of the August 2011 Operating Budget submission, a few of the universities will begin using recently adopted “Board Approved Fees” in their Local Funds reporting.
    - Coding instructions will be sent to the affected Data Administrators in the near future.
- Facilities and Space: Kenneth Ogletree
  - The size of site number will not be increased
  - The size of the building NAME column on the BUILDINGS table will be increased to 50 characters.
  - SPAR1 will be split into multiple reports
- Residency: Janice Finney
  - Data from DMV – Dave System
    - There will be a webinar on this at a later date.
  - One residency form between FCS and SUS
- Campus Sharing/Admissions and Registrars/Admissions Deep Dive: Lynda Page
  - Transient students implementation timing
  - Equity access SUS and FCS
  - Excess hours – codifying exemptions
    - 2nd cohort, criteria, equity
  - Admissions Tour
- Institutional Research: Dan Cohen-Vogel
  - Consolidation of the grade codes
  - The reporting of AP, IB, etc. exam codes need to be revisited
  - Continuing Education – Market Rate
    - Auxiliary budget entity
  - Course budget entity-the auxiliary budget entity code needs to be valid
- Academic Contacts: Jon Rogers
- Strategic Plan, Annual Report & Workplans: Jason Jones, Dan Cohen-Vogel
  - Faculty Plans Distance Learning Enrollment
  - DPT and pass notes
  - Space Utilization report
  - Retention Rate - exclusions
- Council of Equal Opportunity and Diversity: Monoka Venters
- Data Administrators: Gene Kovacs
  - Reporting the University ID (UID) instead of the SSN
    - Has been discussed with the CIOs
- Sometimes the UID is re-issued for various reasons but it doesn’t happen often
- The UID would be displayed in reports
- Students and teaching assistants
  - Do they have the same UID?
    - At FIU, about 99% have the same. Mostly international students make up the 1% that doesn’t
- A discussion with the registrars, HR, and admissions is needed
- One dump of SSN/UID matches
- Estimated implementation date of next year
  - Additional DA meetings (webinar, face-to-face, etc.)
    - Prior to legislative session
    - Workshop
    - Mid-year
  - New SUDS Role
    - Use the RESEARCHER role with no explain status
  - Retention –Reporting completers for FTIC’s not seeking a bachelor's degree
    - Run the 2004 cohort using student classification level of A or B (Completers of 2 or less than 4 programs)
  - Data cleansing in the reporting instance
    - Webinar later to re-evaluate existing edits that can be tightened
  - Retention IPEDS exclusions
    - In SUSRI, leave the exclusions in but don’t identify the type of exclusions
    - It’s not required for the universities to send additional cohort changes for exclusions but the universities can send them if they choose to.
  - There will be no more SUDS extensions
  - Proposed Changes to FERPA Regulations
    - An agreement will need to be drafted to all the universities to allow full access to all SUSRI data
  - The Board Governors will be doing a system upgrade
    - Physical Infrastructure
    - Data Cleansing ETL tool
    - Reporting Data Marts
IPEDS - 2011-2012 Due Dates

**Figure 1. SFA Student Reporting Groups**

Group 1. All undergraduate students

Group 2. Of the students in Group 1, those who are full-time, first-time degree/certificate-seeking students

Group 3. Of the students in Group 2, those who received grant or scholarship aid from the federal government, state/local government, or the institution

Group 4. Of the students in Group 2, those who received Title IV federal student aid
IPEDS - 2012-2013 Brief Summary of Proposed Changes

Description:
Topic ID: 10-18
Initiator: IPEDS
Affects: Multiple

These are schedule to be posted to the IPEDS site when the 2011-2012 collection opens in order to allow for as much discussion as possible. Here are the highlights of the proposed changes.

Institutional Characteristics
An item will be added to collect whether distance education opportunities are offered and at what student level (undergraduate or graduate)

Completions
Items will be added to collect the number of students who earned degrees or certificates by gender, race/ethnicity, and age for 6 award categories (i.e., bachelors, masters, etc.).
An item will also be added for institutions to indicate, by CIP code and award level, if the program is available to be completed completely online.

12-month Enrollment (4-year institutions)
The doctor’s professional practice instructional activity, which is now included with the graduate activity, will be eliminated from this survey and an item to collect full-time equivalent enrollment for doctor’s-professional practice students will be added.

Fall Enrollment (all institutions)
A new part will be added to collect data on the number of students enrolled in any distance education and the number of students enrolled exclusively in distance education by student level and student location. Paige asked if Distance Learning is identified as Out-of-State, etc. Terricka will follow up.

Human Resources (all degree-granting institutions)
The primary function/occupational activity categories will be revised. The graduate assistant column will be removed from the part-time section and a new screen in the EAP section (Part B) for graduate assistants will be added.

An additional column will be added to the Salaries section (Part E) after the salary outlays column to collect the number of months covered by those salary outlays and the contract length differentiation will be removed from the survey screens. Also, added to this section will be a screen to collect salary outlays for full-time staff in 6 different categories.

Human Resources (degree-granting institutions with 15+ FT staff)
The reporting of non-instructional research and public service full-time staff will be removed from Part G and added to Part I of the Fall Staff section. Non-tenure track contract faculty categories will be added to the Fall Staff section of Part G and a screening question will be added to determine if the institution has a tenure system.
IPEDS - Graduation Rate Survey Completions

Description: Completers of less than 4-year programs
Topic ID: 10-20
Initiator: Board-IRM
Affects: RET

We have a number of institutions whose degree level sought at time of admission is not a baccalaureate for FTICs (Student Type B=beginners and E=early admit). According to IPEDS all first-time full-time undergraduates seeking a degree are considered part of the FTIC cohort tracked in the Graduation Rate Survey regardless of what level of degree is being sought. This has been our policy. However, when I asked specifically about an entering FTIC seeking a Master's degree, IPEDS indicated that 'students who complete the undergraduate portion within 150% of normal time should be counted in the other degree/certificate seeking subcohort (Section III) as completers of a "2- but less than 4-year program". You would not track their progress any further towards a Master's degree since this is at the Graduate level and thus is not a part of the Graduation Rates survey.'

We have been including these students but tracking them all the way through the 6th (or 8th) year and counting them as completers of a bachelor's degree if they earn the higher level degree. If they do not earn the higher level degree within 150% (or 200%) then they are not completers. For PharmD students, if the student was still seeking a PharmD at in the 6th year, we were removing them from the cohort completely. This practice seems to be incorrect according to IPEDS.

So the questions are: 1) do we change our methodology; 2) if we change our methodology how do we know whether or not the student has completed the "undergraduate portion" of their program? Is the following statement true? For purposes of the GRS Survey, a student is a completer of a 2 to less than 4-year program in the current term if:
- Type of Student at Date of Most Recent Admission equals B or E and
- Highest Degree Level Held is less than a bachelors and
- Degree Level Sought <> ‘B’
- Student Classification Level is A or B

Here is a count of the 2004-2005 IPEDS FTIC full-time cohort that would probably have been reported as completers of a 2 to less than 4-yr program.

IPEDS - Graduation Rate Survey - Students in more than one cohort

Description: Early Admit readmitted as Beginner
Topic ID:  10-30
Initiator:  UCF
Affects:  SIF, RET

If a student enters an institution as an Early Admit and then is readmitted as a Beginner in a subsequent cohort year, we have been reporting that student as an FTIC in both years. The triggering event for this happening is the change in Type of Student at Most Recent Admission from 'E' to 'B' and of the Date of Most Recent Admission equal to the Reporting Time Frame. The number of students is small but we should resolve this issue one way or another.

**NEEDS FOLLOW-UP:**
Paige is working with UCF’s admissions office to alleviate this issue
IPEDS - Fall Enrollment Survey

Description: Exclusions for study abroad
Topic ID: 10-100
Initiator: FSU
Affects: SIF, SPA

The IPEDS Fall Enrollment Survey (generated from Fall SIFP) excludes "Any student studying abroad (e.g., at a foreign university) if their enrollment at the 'home' institution is only an administrative record and the fee is nominal". The current IPEDS fall enrollment program has been excluding campus codes 0005 and 0006 for all institutions. For FSU campus code 0098 and campus/site 0036/0015 are being programmatically excluded.

Based on some of the site descriptions sent in the latest Space submission, there are other combinations of campus code and site number that should be included. Hard coding these in the program is problematic.

On SIFP, Campus/Site rows are not sent and crs_sectn_loc_cnty on the Courses_Taken table is programmatically set to dot on load. Can we add crs_sectn_loc_cnty to the SITE table to identify the campus/site combinations that would qualify a student for this exclusion? We would then require a consistency edit (level 5, level 8, level 9) on the campus/site/crs_sectn_loc_cnty submitted with SIF on the Courses_Taken table. Is this something that can be implemented with the Space submission due July 2011 or do we need to wait until July 2012?

The following is a list of campus/site numbers that were coded in at least one courses_taken row in Fall 2010 SIF Final submission with crs_sectn_loc_cnty = 'NUSA'

**FINAL DISPOSITION:**
If a student has all courses coded as NUSA then they will be considered as Study Abroad and removed from fall enrollment.

County code will be added to the Sites table for the 2011 SPA submission that is due in July.

SREB - SREB Survey Benefits (Part 11)

Description: New Routine Data Request
Topic ID: 20-10
Initiator: Board-IRM
Affects: N/A

We complete the Southern Regional Education Board (SREB) Data Exchange Survey every year. Every year, we send out an e-mail to the Data Administrators requesting an update to Part 11 which is descriptive information regarding benefits. We would like to make this a formal data request next year. We usually receive the data request in late February and the information is due back to SREB the first week of April. Approved

</table>
General - Requests for due date extensions

Description: Beginning 9/2010, requesting SUDS extensions became more difficult.
Topic ID: 50-5
Initiator: Board-IRM
Affects: N/A

State reporting moved from the mainframe in Summer 2008. Getting an extension on submission due dates had been fairly easy to get since the process was so new to everyone. Now that the system is a bit more mature we have returned to the previous policy of granting extensions only under extreme circumstances.

**FINAL DISPOSITION:**

There will be No extensions!
General - Person_IDs

Description: University ID instead of SSN
Topic ID: 50-7
Initiator: Board-IRM
Affects: All submissions that include Person_Demo table

The current PERSON_ID field contains SSN when available. The same Person_ID is required on all tables. Beginning with the July 2012 submissions and pending additional discussion with data administrators and university CIOs, we would add University_ID to the PERSON_DEMO table and all child tables should contain University_ID instead of Person_ID. What should the characteristics of this new field be? Is VARCHAR2(9) sufficient?

NEEDS FOLLOW-UP:

This may possibly eliminate person_id_chgs but we will need a way for the universities to submit university id changes.
Needs further discussion and planning for possible implementation 2012-2013
General - SSN Randomization

Description: SSN Randomization beginning 6/25/2011
Topic ID: 50-10
Initiator: Board-IRM
Affects: All submissions that include Person_Demo table

Effective 6/25/2011: SSN randomization will affect the SSN assignment process in the following ways:

1-It will eliminate the geographical significance of the first three digits of the SSN, currently referred to as the area number, by no longer allocating the area numbers for assignment to individuals in specific states.

2-It will eliminate the significance of the highest group number and, as a result, the High Group List will be frozen in time and can be used for validation of SSNs issued prior to the randomization implementation date.

3-Previously unassigned area numbers will be introduced for assignment excluding area numbers 000, 666 and 900-

http://www.socialsecurity.gov/employer/randomization.html

As a result the edit for a valid SSN (1005-Person_ID must contain a valid SSN if PID_Valid_SSN is Y) will begin to trigger on more and more students. Is there any reason to continue this edit? Is there anything we can do to edit this field for validity?

FINAL DISPOSITION:
Remove ssn edit.
General - U_RESV fields

Description: Show value of U_RESV fields on SUDS
Topic ID: 50-15
Initiator: FAMU
Affects: All submissions

We have been suppressing values contained in the U_RESV fields because there were instances where the field contained Person_ID. Last year we instituted editing all U_RESV fields for numbers that match the person_id in sequence regardless of characters inserted between the numbers. We have found that this is no longer happening. Therefore, beginning with July 2011 submissions, we will begin displaying these columns in the interface.

FINAL DISPOSITION:

Yes, we will begin showing u_resv fields in SUDS in the edit detail summary, no need for u_resv in SUSRI.
General - Multiple dots in input columns

Description: At load time, trimming/converting multiple dots to a single dot
Topic ID: 50-20
Initiator: Board-IRM
Affects: All submissions

Though this situation does not occur very often, it does happen. We will convert any field that contains a string of dots to a single dot.

**FINAL DISPOSITION:**
Approved
General - Site Number

Description: Increase Site number (10062) from 4 to 5 characters
Topic ID: 50-30
Initiator: FAU
Affects: SIF, SPA

Justification from FAU:

In order to more clearly identify the site numbers we are using to identify off campus course locations, we are planning for 2010-2011 to begin reporting site number as a combination of off campus code + site number. We currently have 70+ off-campus site numbers, and we estimate that by 2011-2012 it is highly likely that we would require an additional character for this data element.

If increasing the number of characters is a problem, then could a change from numeric to alphanumeric be considered?

There are plenty of available numerical characters left in both site and campus code fields. We are very interested in this as a discussion topic, as we need to find a way to accommodate what FAU is doing without compromising the ability to roll everything up system-wide. How are other universities handling similar issues (if anyone has a similar issue).

We will probably need to make changes of some sort to include county, zip, etc in one or both of those tables next year. It will be something we discuss over the course of the next year to give universities time to implement before the next space file is due. This is to accommodate both legislation (SB 1516) and the Education Site Regulation.

**FINAL DISPOSITION:**
No increase to Site number.

Facilities meeting discussed the need for an increase in the size of building name (10011) to varchar(50) to be implemented for 2011 SPA submission due in July.
General - Continuing Education Regulation

Description: New reporting requirements to be determined
Topic ID: 50-35
Initiator: Board-ASA
Affects: Multiple Submissions

New reporting requirements in the proposed Continuing Ed regulation will be on the agenda for the June Board meeting. The new requirements will go into effect July, 2012, but data elements will need to be determined during the upcoming year in order for the reporting to begin in 2012. The requirements will be of interest to different groups, because they cover a lot of areas (revenues, expenditures, FTE, degrees earned, out-of-state locations, etc.). The regulation will be posted at http://www.flbog.org/about/regulations/proposed.php in the near future.

FYI
General - Senate Bill 0084

Description: Relating to Linkage Institutes
Topic ID: 50-50
Initiator: Legislature
Affects: No real impact

This bill (which has not passed as of 6/1) modifies the names of some of the Florida College System institutions

00149000 - Gulf Coast State Community College
00151300 - Pensacola State Junior College
00152300 - St. Johns River State Community College
00675000 - Valencia Community College

**FINAL DISPOSITION:**
Correct wording in data dictionary.
General - SUDS Security

Description: New Role for Read Only
Topic ID: 50-100
Initiator: USF
Affects: User Interface

VALIDATOR role gives authorization to add explanations and comments. Would read only include seeing the error summary and the record details underlying the error messages? Should we just use the existing RESEARCHER role for this.

FINAL DISPOSITION:
RESEARCHER role will be modified to allow read-only access to any file that the DA selects that the user may have access to. If the DA does not specify any files the user will not be able to see anything. This role is the same as the VALIDATOR without the EXPLAIN capability.
Admissions - Definition of Provisional Admits

Description: Provisionally Admitted needs to be defined.
Topic ID: 100-10
Initiator: Board-ASA
Affects: ADM

This is a discussion for the A&R session with results coming back to the Thursday full attendee session if anything needs to be changed or clarified in the data dictionary.

Some Background info from FAU:

I think that perhaps the confusion with the FAU data on provisional admits is that we did not submit any exception records coded with 'N' for provisionally admitted students who are non-exceptions to Admissions Policy 6C, Florida Administrative Code (FAC).

Their status was coded as provisional based on the BOG definition for Final Admission Action: 'P' - applicants whose current credentials indicate admissibility subject to the receipt of some final documents and who are offered admission subject to the receipt and review of these credentials shall be coded as provisional admits.

In other words, they were provisionally admitted because at that point we did not have the final transcript.

Some more background from FSU:

We only use the Provisionally Admitted code at the Graduate level. Typically it is used because a graduate program wants additional/updated information that is not available at the time of the admission decision or they may wish the student to perform at a certain level in coursework taken at the University before granting full admission. In our process, Provisional Admits are allowed to enroll for one term and at the end of the term, their provisions are checked and if successful, they are admitted for the next term as regular graduate students.

NEEDS FOLLOW-UP:
Did not have time to discuss in A&R. Needs more discussion before we can clarify it in the data dictionary.
Admissions - Student Type

Description: Edit against Last Institution Code as is already being done in SIF
Topic ID:  100-25
Initiator:  Board-IRM
Affects:  ADM

In the SIF submission student type at most recent admission is edited against LAST_INST_code. Because of this edit some institutions were able to identify students that should have been reported as type J (Transfer from Florida College System). But these same students had already been reported in the admissions file as type B (Beginners). Since ADM file is submitted before SIF file and no edit is in ADM to check consistency between student type and LAST_INST_code, we either struggle to pass the SIF edit or struggle to maintain consistency between SIF and ADM. To make it easier, can we add the same edits to the ADM file. Specific edits relative to type of student versus last institution code in SIF are:

0130 - If the student is a Florida community college transfer (STU_RECENT_ADM_TYP = J), the last institution code cannot equal 01000000 (No previous institution of higher learning) **Add to ADM**

0131 - The last institution code must be a Florida Public Community College if the STU_RECENT_ADM_TYP = J **Add to ADM.** Should this be a level 9? **No, because dual enrollment kids will have a CC as last_inst but they are not a J**

0753 - CC TRANSFER STUDENT (Stu_Typ = 'J') AND LAST INST CODE NOT A FLA PUBLIC CC. Stu_Typ for ADM; Stu_Recent_Adm_Typ for SIF. **Already on ADM**

0755 - If Last Inst Code is a FLA Public CC and Student Classification Level is Lower/Upper Undergrad (stu_class_level L or U) and Deg_Highest_Held H,U,A,C,Z,N or O, then Stu_Recent_Adm_Typ must equal J **Add to ADM**

**FINAL DISPOSITION:**
Above on Bold
Admissions - Final Admission Action

Description: Should Final Admission Action = 'X' be added to Edit 5340
Topic ID: 100-30
Initiator: Board-ASA
Affects: ADM

Edit 5340: For provisionally admitted (Final Admission Action=P) beginning students (Type of Student at Time of Application=B,E), all 3 minimum admission requirements (AS, FL, HS) must be reported as either Y or N

Code P = Provisionally Admitted, not an Exception to Policy or not admitted on the basis of a profile assessment

Code X = Provisionally Admitted, is an Exception to Policy or was admitted on the basis of a profile assessment

**FINAL DISPOSITION:**
Edit to remain the same
Admissions - Admission Exceptions

Description: Edits 5324 and 5326
Topic ID: 100-36
Initiator: Board-IRM
Affects: ADM

5326 produces an error when the SAT/ACT requirement is not met and there is no exception record.
5324 produces an error when the FTIC requirements (FL, HS, AS) are met and an exception record exists.
When universities enter an exception to handle 5326, it causes 5324 to error.

5324 (on EXCEPTION_TYP) - For beginning students (type = B,E), if all minimum admissions requirements (AS, FL, HS) are met then the student cannot be reported as a profile admit

5326 (on FINAL_ADM_ACTION) - If Final_Adm_Action A and Stu_type B,E and Fee_class_res F, T or N and GPA_high_school >= 2 or GPA_high_school < 3 and Stu_Class_level = L and GPA/Admission Test scores < acceptable ADMISSION SCALE then exception_typ F must exist

Under what circumstances is this a problem?

FINAL DISPOSITION:
No changes
Admissions - GRE Revised Test

Description: New code needed
Topic ID: 100-40
Initiator: Board-ASA
Affects: ADM

Currently the Verbal Reasoning and Quantitative Reasoning sections have a score scale of 200 – 800, reported in 10-point increments.

However, scores will look much different on the new score scale for the Verbal Reasoning and Quantitative Reasoning sections of the GRE revised General Test. The Analytical Writing section score scale will remain the same.
What you need to know about the new score scale:

- Verbal Reasoning scores will be reported on a new 130 – 170 score scale, in 1-point increments (versus 200 – 800 in 10-point increments).

- Quantitative Reasoning scores will be reported on a new 130 – 170 score scale, in 1-point increments (versus 200 – 800 in 10-point increments).

- Analytical Writing scores will continue to be reported on the same 0 – 6 score level, in half-point increments.

http://www.ets.org/gre/revised_general/scores

New Code for Test or Requirement Type Code - 02008
GR = GRE Revised with appropriate ranges for Test Score Types V, Q and WR

FINAL DISPOSITION:
Just an FYI that this is changing. New codes will be added to data element
Admissions - ACT Test

Description: Beginning Summer 2012, ACT score calculation will change.
Topic ID: 100-41
Initiator: Board-ASA
Affects: ADM

E-mail between Lynda and Elsa

• [Elsa] The way we currently calculate the composite ACT for reporting with the university submissions of ADM is fine the way it is and does not need to change until Summer 2012. [Lynda] Right – except we still may want the ability to have a composite since this is used nationally in data (so we still may want to collect the Science score).

• [Elsa] For the SAT and ACT Factbooks, you are going to get with Dan and Jianzhong to see if there needs to be a change from including only the Reading and Math or if a different combination is now needed  [Lynda] Right.

• [Elsa] The Writing subscore is currently not required but will be required starting Summer 2012. The types of reporting we do with that still needs to be discussed   [Lynda] Technically it is required by regulation but universities did not penalize ACT students for not presenting the writing score. In my opinion, we won’t need it to be a required data element until summer 2012 due to this fact.

• [Elsa] For 2011 submissions (summer, fall, spring) no change in requirements to what the universities must report but perhaps a new informative report (or edit) that counts the number of times the Writing score is not submitted? [Lynda] This is a good idea.

• [Elsa] We require the universities to send us either ACT or SAT, not both. But we also tell them to send us the scores they used for admissions purposes. If they are allowed to mix and match between ACT and SAT then we have a disconnect and we need to rethink our instructions.  [Lynda] According to the matrix, the mix within the same test. I think we are okay.
Admissions - SAT/ACT

Description: Calculation of SAT and ACT scores with respect to Edit 5326
Topic ID: 100-42
Initiator: Board-ASA
Affects: ADM

This is to be discussed in detail in the A&R session with results coming back to the IRM session.

Edit 5326 that calculates the ACT and SAT scores needs to be modified since according to regulation 6.002 it is currently incorrect.

See Regulation at [http://www.flbog.edu/documents_regulations/regulations/6 002 Admission of Undergraduate FTIC Frehmen %28mv edits%29.pdf](http://www.flbog.edu/documents_regulations/regulations/6 002 Admission of Undergraduate FTIC Frehmen %28mv edits%29.pdf)

See new ACT calculation for combined scores here: [http://www.act.org/aap/writing/sample/combined.html](http://www.act.org/aap/writing/sample/combined.html)

**FINAL DISPOSITION:**
BOG will continue to calculate the composite score for ACT and we can start returning the composite back to the universities so that they can check it.
Admissions - Student Classification Level

Description: Graduate student coding
Topic ID: 100-45
Initiator: Board-ASA
Affects: ADM

To be discussed in detail at the Institutional Research Session with results being brought back to the Thursday IRM Session:

1. Coding of graduate student level (beginning and advanced) in Admissions
   a. In answering questions related to graduate program approval and program approval regulations recently, we found that some institutions/programs are not distinguishing between beginning/advanced graduate when they have both master’s and doctoral programs, and also in some cases institutions are not populating this field at all. It has led to questions about what information about graduate program level is useful in admissions data analysis.
   b. How, if at all, do institutions use this beginning/advanced graduate distinction on the Admissions file.
   c. We believe it would be more useful to have the degree level of the program to which the student applies, but not this beginning/advanced distinction. What would be the implications of changing to degree level rather than this student level coding?
   d. If there’s value to keeping these as they are, then what kind of clean-up/edits need to be in place for these to be meaningful and consistent among universities?

NEEDS FOLLOW-UP:
Need to discuss further but possibly remove the stu_class and add deg_level_sought for 2012
Employee/OPS - Person Years

Description: Why do we have an edit that says an individual cannot be reported such that their person_years are greater than 1

Topic ID: 110-10
Initiator: NCF
Affects: EMPL

The reason we edit the total FTE is that when we send the records to LAS/PBS and the Governor’s office will not accept any record with an FTE greater than “1”, they say that a person cannot work more than full time.

NEEDS FOLLOW-UP:
Several universities only report the Full-time appointment and report the overload as an OPS in payplan 01 with no FTE associated with it. Over universities do not report the overload at all. May need to clarify what we expect the universities to submit.
Hours to Degree - Report Title

Description: Titling problem on HTD reports with duplicate CIP names
Topic ID: 120-10
Initiator: Board-IRM
Affects: HTD

The HTD report, Annual Student Excess Hours Degree Report, has duplicate lines for the same CIP, whether two-digit or six-digit. This occurs when one CIP has two different names. For example, 05 is both Area & Ethnic Studies and Area, Ethnic, Cultural, Gender, and Group Studies. With two different names, two lines show up on the report that are duplicates. The duplicate rows will be corrected.

FINAL DISPOSITION:
Fix Report
Instruction and Research - Race Codes

Description: Required if not Non-SUS compensated
Topic ID: 130-20
Initiator: Board-IRM
Affects: IRD

New edit. NO_RACE_REPORTED_FLG must NOT = ‘Y’ when PAY_PLAN is not ‘98’ or ‘99’

FINAL DISPOSITION:
Approved, update edit.
Instruction and Research - Birthdate

Description: Required if not Non-SUS compensated
Topic ID: 130-20
Initiator: Board-IRM
Affects: IRD

Add Pay Plan 98 to diagnostic 5314.

5314: Missing date of birth and pay plan not equal '99'

**FINAL DISPOSITION:**
Approved, update edit.
Instruction and Research - College Subcomponent Required

Description: Required for Medical
Topic ID: 130-30
Initiator: Board-IRM
Affects: IRD

New edit: College subcomponent (01507) must not be missing or '00' if budget entity is coded medical. This new edit applies to BE_CD_EMPL and BE_CD_ACT.

**FINAL DISPOSITION:**
Approved

USF has a new pharmacy dept on their Lakeland campus – Will college subcomponent be required for them? YES, they need to get with Budget dept. We may need to add new values for this element.
Instruction and Research - College Subcomponent Valid Values

Description: Housekeeping
Topic ID: 130-31
Initiator: Board-IRM
Affects: IRD

Remove code 11 (Life Sciences Teaching Center: FSU only) from valid values list for College Subcomponent (01507).

Modify edit 0880 (College between 12 and 20 is invalid) to disallow codes 09 and 11.

FINAL DISPOSITION:
Update element description and coding instructions relative to codes 09 and 11. Approved, update edit.
Financial Aid - Enrollment Data

Description: Why do we need to create an enrollment record for students that were not actually enrolled

Topic ID: 140-10
Initiator: Board-IR
Affects: SFA

In the SFA legacy system we had four fields that were pulled from the SIF enrollments data: Fee_Class_Res (01106), Stu_Entry_Typ (01068), Stu_Class_Level (01060) and CIP_Student (01062).

In the first release of SUDS SFA, 2007-2008 data year, we had universities submit these data on the Financial_Aid_Demo table exactly as it had been in legacy. However, since these fields can change from term to term, it was really not accurate for reporting purposes.

For the 2008-2009 data year we decided that we could get more accurate data by joining to the SIF enrollment record for each term the student received an award. If there was no SIF enrollment record we required that an enrollment record be sent with the SFA submission to prevent having missing data.

We now believe that the extra work required to submit, edit and resolve inconsistencies far out weighs the problem of missing data. We, therefore, propose the elimination of the enrollments table from the SFA submission. The 4 fields mentioned above will show as missing in term-based reports if there is no matching SIF enrollment record. In year-based reports the non-missing data from the most recent term within the year will be reported and if there is not a match within the year then the data will show as missing.

Here is a count of financial_aid_award records for which we had no matching SIF enrollment record for the past 2 years.

</table>

**FINAL DISPOSITION:**
Remove Enrollment from SFA submission
Financial Aid - Missing Financial Aid Demo Rows - Edit

Description: Are universities sending ISIR data for students not receiving an award
Topic ID: 140-20
Initiator: Board-IRM
Affects: SFA

To ensure that universities have not inadvertently excluded ISIR information for students that did not receive an award we will create a new Level 9 edit that counts the number of FINANCIAL_AID_DEMO records with no matching FINANCIAL_AID_AWARD record(s). An explanation will be required if the count is zero.

FINAL DISPOSITION:
Approved, add new edit
Financial Aid - Missing Financial Aid Demo Rows - Frequency

Description: New frequency count for number of students with no award
Topic ID: 140-30
Initiator: Board-IRM
Affects: SFA

Add this frequency count in order to help determine that the university is sending all ISIR data.

**FINAL DISPOSITION:**
Approved
Financial Aid - Maximum Pell Amount

Description: Update maximum pell awards for 2007-2008 forward

Topic ID: 140-50
Initiator: Board-IRM
Affects: SFA

Update maximum pell awards for 2007-2008 forward.

2007-2008 = $4,310
2008-2009 = $4,731
2009-2010 = $5,350
2010-2011 = $5,550
2011-2012 = $5,550

**FINAL DISPOSITION:**
Try to make this a table look-up (data dictionary) rather than hard-coded
Teacher Education Information – Data, Edits and Reports

Description: Status Update
Topic ID: 145-10
Initiator: Board-IRM
Affects: TEI

We have been working hard to populate the TEI tables from legacy and to get the edits and reports out to you for review. Last week we released the software in Beta. Additional discussion regarding next steps will be provided.

**NEEDS FOLLOW-UP:**
Internships are not a problem to report. Course completion is the main problem, depending on the definition and it’s not easily available for everyone.
Student Instruction File - Person IDs

Description: Edit 5337 needs tweaking
Topic ID: 150-125
Initiator: UCF
Affects: SIF

Edit 5337: Student was reported on SIFP but not reported on SIF

Many of these records are the result of SSN changes. Some changes are on the file that has been uploaded with the SIF, others are those the system has already identified so they are not allowed to be uploaded again. Of the records that the edit identifies, only a few students are truly in this situation yet all must be researched.

Is there a way to improve the edit so we no longer have to research the students who have SSN changes already reported or found in the system? That would really help with the investigation.

Perhaps this is another error that can be considered a level 8, or have a tolerance level.

**FINAL DISPOSITION:**
Edit 5337 will be corrected to check for SSN changes.
Student Instruction File – Profile Admit

Description: Edit 5338 creates much duplicative work
Topic ID: 150-130
Initiator: UCF
Affects: SIF

Edit 5338: Student reported as a Profile Admit on SIF but was not a Profile Admit on the Admissions submission identified in the Date of Most Recent Admission

Many of these are a readmit who have a profile admit code on the initial entry term admission record. It appears to be looking at the term of readmission. Others have been confirmed in past terms, but are asked to be re-confirmed each term the student is enrolled. Is there any way to stop asking about that student once it is confirmed? Or perhaps make this a level 8 error?

This edit will only trigger when date of most recent admission equals the reporting time frame so that a student only gets reported in the first term of enrollment.
Modify edit to only error when date_recent_adm = rept_time_frame

**FINAL DISPOSITION:**
Add to 01413 in Data Dictionary “If the student has not been readmitted the stu_recent_adm_typ DOES NOT change”
Student Instruction File - Standard Withdrawal Codes

Description: Standardization of Withdrawal Codes on Grade_awarded element from the Courses_Taken table
Topic ID: 150-135
Initiator: Board-IRM
Affects: SIF/SIFP

A detailed discussion of this will occur in the Institutional Research session with results coming back to the IRM Thursday full attendee session

NEEDS FOLLOW-UP:
Create crosswalk to send out to the universities in the next week or so to verify that we are doing the crosswalk correctly.
Student Instruction File - Visa Type

Description: New code for undocumented aliens
Topic ID: 150-139
Initiator: FIU
Affects: SIF/SIFP

After a good bit of research by BOG staff we have determined that the inclusion of Visa Type in our collection may have been premature. It appears this was an attempt to respond to House Bill 205 sponsored by Kravitz in 2006. That bill did not pass. We propose to delete this data element from SIF and SIFP beginning with the Summer 2011 submission.

**FINAL DISPOSITION:**
Remove from SIF starting summer 2011. Universities should send a dot.
Student Instruction File - Full-/Part-Time calculation

Description: Clarification to data element 01433 Full-Time/Part-Time Indicator
Topic ID: 150-170
Initiator: UCF
Affects: SIF/SIFP

Add clarification to data element 01433 Full-Time/Part-Time Indicator: If the student is in one of the following CIPs, 51.0401 (Dentistry), 51.1201 (Medicine), or 51.2401 (Vet Medicine) and has a student budget entity of ‘4’, they are considered full time regardless of the value of current term course load.

**FINAL DISPOSITION:**
Data element will be updated to clarify.
Student Instruction File – Military Status

Description: New codes needed for Veterans Benefits and Military Status
Topic ID: 150-200
Initiator: NCF
Affects: ADM, SIF, SIFP

What Is the Montgomery GI Bill (Chapter 1606) - Selected Reserve?
The Montgomery GI Bill - Selected Reserve is an education program that provides up to 36 months of education benefits to members of the Selected Reserve. This includes the Army, Navy, Air Force, Marine Corps, and Coast Guard Reserves, as well as the Army National Guard and the Air National Guard. It is the first program that doesn't require a person to serve on active duty in the regular Armed Forces to qualify.

NCF:
Under chapter 1606 reservists receive benefits without having been on active duty. Should the universities report these students with a Veteran Benefit of ‘Other’? If so, an appropriate code for Military Status does not currently exist so NCF should probably send a status of ‘None’ which would generate an error that would have to be explained.

Hui Min: We report them as follows:
Military Status = E (service dates unknown)
Veterans Benefits = 00 (Other)

Data Element: Veteran's Benefits Chapter – 02060 – Stays the same
Data Element: Military Status – 02059 – add the new codes below to the data element

FINAL DISPOSITION:
Continue to report the Veterans Benefit as Other. We will add two new codes for Military Status
R = Reservist
N = National Guard
Student Instruction File - Institutional Classification Level

Description: New cross-check edit between Institutional Classification Level and Student CIP

Topic ID: 150-210
Initiator: UF
Affects: SIF/SIFP

In 200908, we had 5 graduate students seeking professional degrees (512401) which should be type 9 errors. Would you add an edit to kick them out. That is, for students seeking professional degrees in CIP's 512001, 512401, or 510401, the student's institutional classification should be '7' not '5'.

Create new SIF edit to not allow INST_CLASS_LVL_STU (01267) to be coded as Graduate (5) when degree CIP is 510401 - Dentistry 511201 - Medicine 512001 - Pharmacy (Doctorate of Pharmacy) 512401 - Veterinary Medicine 220101 - Law

FINAL DISPOSITION:
YES, new edit
Student Instruction File - Term Credit Hours Earned

Description: Inclusion of non-instructional credit optional?
Topic ID: 150-230
Initiator: FSU
Affects: SIF/SIFP

IRM was doing some analysis that required credits earned in fall and spring 2007-2008. The table below shows credits for the cohort of undergraduate students entering in 200708 (date of most recent admission = 200708 and rept_time_frame = 200708) seeking a bachelor’s degree. Under what circumstances would column 3 be larger than column 2?

<table>

</tbody>
</table>

This issue came up years ago and the reporting of test score credit was optional.

We need to formalize the mechanism because people will want to know how much credit we are granting via exemption (presumably at a cost savings to the State).

**NEEDS FOLLOW-UP:**
No immediate change, needs follow-up
Student Instruction File - Room Use Code

Description: Inappropriate assignment of classes
Topic ID: 150-500
Initiator: FAMU
Affects: SIF

Edit 0345: If Room Budget Entity POM is E&G (value=1), Rooms Use_Cd cannot be greater than 799 and less than 900.

Does this edit need to include use codes through 970 and the non-numerics? Are some of the codes less than 800 also inappropriate.

This edit will stay the same.

NEEDS FOLLOW-UP:
Create new edit to not allow classes to be assigned to rooms with out-of-use codes. List all the codes that we think should not be allowed and send out to universities for approval by 6-24
Student Instruction File - Senate Bill 2150

Description: Fee Waivers: Purple Heart
Topic ID: 150-510
Initiator: Legislature
Affects: SIF

This bill (which has not passed as of 6/1) has added the following text to 1009.26(c): "If the DD-214 is not available, other documentation may be acceptable if recognized by the United States Department of Defense or the United States Department of Veterans Affairs as documenting the award."

**FINAL DISPOSITION:**
Add new text to data dictionary.
Degrees - Criteria for Awarding Baccalaureate Degrees

Description: Edit 5258: Degree Level Granted cannot equal B when CLAS is not P
Topic ID: 160-10
Initiator: Board-IRM
Affects: Policy, SIF

POLICY CHANGE - Criteria for Awarding Baccalaureate Degrees

There is a proposed change to Regulation 6.017 that will be noticed and perhaps approved at the June Board meeting.
http://www.flbog.org/documents_meetings/0149_0522_4143_03b_Noticing_6017_ai.pdf

The proposal removes the CLAS requirement. If approved, edit 5258 will be removed beginning with the first term following the effective date.

FINAL DISPOSITION:
Remove reference to CLAS in data dictionary (01060)
Degrees - Degree Highest Held vs Degree Granted

Description: Edit 5265: Remove or change to a tolerance
Topic ID: 160-20
Initiator: UWF
Affects: SIFD

Edit 5265: DEG_LEVEL_GRANTED on the DEGREES_AWARDED table equals DEG_HIGHEST_HELD on the ENROLLMENTS table. Discuss whether or not this edit can either be removed or changed to a tolerance edit.

Highest Degree Level Held plays a very big part in undergraduate retention reporting. If the degree held is bachelor's or higher then the student is not considered in retention reporting as being in attendance.

**FINAL DISPOSITION:**
No change
Degrees - CIP Fraction

Description: New edit, If cip_frac_deg >= 1 then major_ind must equal 1
Topic ID: 160-30
Initiator: Board-IRM
Affects: SIFD

New edit, If cip_frac_deg >= 1 then major_ind must equal 1

FINAL DISPOSITION:
Yes, new edit
Degrees - CIP 2010 Report

Description: Update the IPEDSDEGS_CIP2010 report to show the new race codes instead of the old ones.
Topic ID: 160-50
Initiator: Board-IRM
Affects: SIFD

Update the IPEDSDEGS_CIP2010 report to show the new race codes instead of the old ones.

**FINAL DISPOSITION:**
Yes, update report
Space - Reports to be broken out into smaller sections

Description: Split SPAR1 into smaller more manageable reports
Topic ID: 170-40
Initiator: USF
Affects: SPA

This has to do with the Space reports that we get from SUDS. When you get the Submission Specifics page on SUDS for the space file, it has the blue SPA Reports button. Clicking that button gets me to the list of Automatically Generated Reports (used by BOG during Submission Acceptance). I want to print the reports for SPAR1: Space Survey/FCO/SqFt, which is a giant.

I have tried to print this to Adobe PDF using the printer commands and sometimes that works—but not lately. Mainly it just seems to take me through the printer commands and then nothing happens. Am I missing something, not doing something that I should do to be able to get a usable hard copy of some of the reports?

Using the conversion in Internet Explorer (IE) yields a copy that has the page breaks in all of the wrong places, or shuts down IE itself.

**FINAL DISPOSITION:**
Yes, update report
Space - SPAR1 Report

Description: Need Zip Code added
Topic ID: 170-70
Initiator: BOG-Facilities
Affects: SPA

In order to be able to identify sites by county, add Zip Code to Site Inventory Report - Report I

**FINAL DISPOSITION:**
Yes, add ZIP to site inventory report
Retention - RETRP1SUDS Report

Description: Should this report exclude students that have been identified as authorized IPEDS exclusions

Topic ID: 200-10
Initiator: Board-IRM
Affects: RET

The IPEDS Graduation Rate Survey for Full-time FTICs allows exclusions for
• students who died or became permanently disabled
• students who left school to serve in the armed forces (or have been called up to active duty)
• students who left school to serve with a foreign aid service of the Federal Government
• students who left school to serve on an official church mission

Furthermore, when the data is presented in College Navigator the graduation rate does not include these students.

Currently you see this effect in the RETGRSSUDS report but not in the RETRP1SUDS report which shows the number of graduates in years 1, 2 and 3 as well as 4, 5, and 6.

Should this report default to removing the excluded students from the cohort so that the number match what is available in IPEDS?

FINAL DISPOSITION:
YES, remove exclusions from the cohort based on the IPEDS definition
Retention - Cohort Changes

Description: Submit data for all cohort types not just the FTIC GRS cohort
Topic ID: 200-20
Initiator: Board-ASA
Affects: RET

Most institutions are not submitting cohort corrections for cohorts other than the IPEDS GRS cohort. The Board uses the retention file data for many analyses and therefore requests that these changes be submitted.

**FINAL DISPOSITION:**
Universities did not seem to have any issues with this.
Retention - Reporting Instance

Description: Race/Gender codes over time and Military Exclusions
Topic ID: 200-30
Initiator: Board-ASA
Affects: RET

Race/Gender: Prior to this year we have used the values submitted with SIF when the student entered the cohort and only changed it if the university indicated a change was needed in conjunction with GRS reporting (6 years later). With the db, we potentially have the updated info sooner. We would like to standardize reporting such that the latest race/gender information is used in all Retention reports.

Military Exclusions: Our agreement with Dept of Defense does not allow us to identify the individual students...only for purposes of IPEDS GRS reporting and in summary. Since the Reporting Instance contains unit level data we must be certain to comply with this agreement. We see two options
- completely remove unit level record for excluded students
- convert the type of exclusion from specific codes to just a Yes/No value
- other options?

**FINAL DISPOSITION:**
Remove the exclusions from SUSRI
NEEDS FOLLOW-UP:
Discussed the possible increase of size for Session_flg (01405). Probably not needed.
