UF Innovation Station expands STEM pipeline in Southwest Florida

THINK PARTNERSHIP...The University of Florida's Herbert Wertheim College of Engineering is establishing an Extension Office in Southwest Florida to give businesses and entrepreneurs unprecedented access to first-class tech workforce talent, applied research, faculty and intellectual property.

THINK INNOVATION...UF Innovation Station Sarasota County, funded both publicly and privately, also will support and direct students into the right classes and internships to graduate with a valuable UF engineering degree. The program will allow select students to attend State College of Florida for up to two years of foundational coursework and then matriculate to the UF Herbert Wertheim College of Engineering.

THINK WORKFORCE...Taking innovation to local business communities will accelerate growth and prepare students with the skills that will lead to success in the workforce.

THINK FLORIDA...A Higher Degree for Business.

Think Florida: A Higher Degree for Business is a unified State University System campaign designed to build synergies between Florida's 12 public universities and the business community. The campaign's primary focuses are talent, research and partnerships.
