

ThinkFlorida

A Higher Degree for Business.

State University System researchers receive national recognition for inventions, advances in technology

THINK INNOVATION...From advances in anticancer drugs to innovations in solar energy, Florida's 12 public universities are home to a variety of groundbreaking inventions and research.

THINK CREATIVITY...That's why 11 State University System inventors were recently elected as 2015 fellows by the National Academy of Inventors, a group that recognizes remarkable research and discovery in addition to success in patents, licensing and commercialization.

THINK WORKFORCE...Academic research is one of many ways in which the State University System contributes to Florida's economy, bringing \$1.1 billion into the state annually in the form of external research funding and turning new technologies and inventions into marketable products. Robust research programs also enable students to expand their training and knowledge.

Think Florida...A Higher Degree for Business.

Think Florida: A Higher Degree for Business is a unified State University System campaign designed to build synergies between Florida's 12 public universities and the business community. The campaign's primary focuses are talent, research and partnerships.
