2. *Summary:

Section 7(c) Article IX of the Florida Constitution provides that the Board of Governors shall establish the powers and duties of the university boards of trustees. At the Board’s initial meeting on January 7, 2003, the Board adopted a resolution establishing the powers and duties of the boards of trustees. Since the initial meeting, the Board adopted a Regulation Development Procedure for promulgating regulations to establish and implement systemwide policy. Board of Governors’ Regulation 1.001 codifies the powers and duties of the boards of trustees that were previously established by resolution into a regulation and clarifies additional powers and duties.

This sub-section authorizes UBOTs to establish policies and procedures for an internal audit unit to perform internal audits of university operations. Internal Audit reports will be submitted annually to the Board of Governors after review and acceptance by the UBOT or its designee.
