

Florida A&M University Energy Efficiency Measures

The following are the energy efficiency measures FAMU has implemented or is in the process of implementing:

- Lighting retrofit
- Water Conservation
- Dorm Occupancy Controls
- Energy Management System Upgrades
- Boiler Equipment and Control Replacements
- Steam trap improvements
- Pipe insulation
- Steam distribution improvements
- Addition of buildings to central chiller loop
- Fume hood controls
- Building to LEED certification levels
- Establishment of faculty, staff, and student governed Environment and Sustainability Council to promote energy efficiency and conservation.
