~~(11e) Pursuant to Section 240.124, F.S., each~~ Each student enrolled in the same undergraduate college-credit course more than twice shall pay tuition at 100 percent of the full cost of instruction and shall not be included in calculations of full-time equivalent enrollments for state funding purposes. Students who withdraw or fail a class due to extenuating circumstances may be granted an exception only once for each class pursuant to established university regulations. The university may review and reduce these fees paid by students due to continued enrollment in a college-credit class on an individual basis contingent upon the student's financial hardship. For purposes of this paragraph, first-time enrollment in a class shall mean enrollment in a class fall semester 1997 or thereafter. Calculations of the full cost of instruction shall be based on the system-wide average of the prior year's cost of undergraduate programs in the state university system using the expenditure analysis. ~~be assessed an additional \$185.34 per credit hour charge in addition to the fees outlined above in Rule 6C-7.001(4)(a) for each such course.~~

~~(12d) Pursuant to Section 240.117, F.S., each~~ Each FAMU student enrolled in the same college-preparatory class more than twice shall pay 100 percent of the full cost of instruction to support continuous enrollment of that student in the

same class, and shall not be included in calculations of full-time equivalent enrollments for state funding purposes. Students who withdraw or fail a class due to extenuating circumstances may be granted an exception only once for each class pursuant to established university regulations. Calculations of the full cost of instruction shall be based on FAMU's average of the prior year's cost of remedial undergraduate programs using the expenditure analysis and adjusted by the percentage budget increase in the current year appropriation. ~~be assessed an additional \$191.55 per credit hour charge in addition to the fees outlined above in Rule 6C-7.001(4)(a) for each such class.~~

~~(e) Pursuant to CS/CS/HB 1567, 2000 Legislature, A university may use a plan, approved by the Board, for a differential out-of-state tuition fee for students who are residents of another state that borders the university's service area.~~

~~(5) Pursuant to Section 240.209(3)(e), Florida Statutes, The following process shall be used to determine the percentage of cost paid by students for setting the matriculation and non-resident fees.~~

~~(a) The most recent expenditure analysis, developed in compliance with Chapter 240.271(4), Florida Statutes, will be used as the base for the full expenditure by level of instruction. Fundable credit hours estimated by the Board of Regents, for the year prior to the effective date of the fees, will be used for the enrollment base for each level. Expenditures for each level of instruction will be adjusted by using the percentage change in the total expenditures reported in the expenditure analysis as compared to the estimated total expenditures for the year prior to the effective date of the fees.~~

~~(b) The adjusted expenditures for each level of instruction will be divided by the credit hours to obtain the full expenditure per credit hour. The percentage of cost paid by students will be determined by finding the percentage the Matriculation Fee is of the full expenditure per credit hour, by level, for resident students; and by finding the percentage the sum of the Matriculation Fee and the Non-Resident Fee is of the full expenditure per credit hour, by level, for non-resident students.~~

(13) The university board of trustees may establish an undergraduate differential tuition under the following criteria:

\_\_\_\_\_ (a) A university that meets the Funding Level I definition outlined in section 1004.635(3), Florida Statutes may implement an undergraduate differential tuition that does not exceed 40 percent of the undergraduate tuition.

\_\_\_\_\_ (b) A university with at least \$100 million in total research and development expenditures as reported annually to the National Science Foundation may implement an undergraduate differential tuition that does not exceed 30 percent of the undergraduate tuition. This subsection does not apply to Funding Level I universities.

\_\_\_\_\_ (c) The combination of the undergraduate tuition increase and the differential tuition increase may not be increased by more than 15 percent annually.

\_\_\_\_\_ (d) The following categories of students are exempt from undergraduate differential tuition: students who were in attendance at a university before July 1, 2007 and who have maintained continuous enrollment, and students who are beneficiaries of prepaid tuition contracts that were in effect on July 1, 2007.

\_\_\_\_\_ (e) Each university establishing an undergraduate differential tuition shall annually report in the operating budget the revenue and detailed expenditures for improving direct undergraduate instruction and support services, as prescribed by the Board of Governors' General Office. The revenue generated from the differential tuition must be spent on direct undergraduate instruction and support services.
