**BACKGROUND INFORMATION**

The purpose of this presentation is to provide a short history of several academic affairs policies and procedures that are to be codified as Board of Governors Regulations, how they have evolved over time, and why they are important to governance and management of the State University System. Board of Governors staff, working in concert with university representatives, have endeavored to draft academic affairs regulations for Board consideration that take advantage of the constitutional joint governance and administrative structure established by Floridians for their system of public universities. Each of the proposed regulations brought forward for consideration at this meeting has been developed within the context of this model.
