

**State University System
2007-2008 Legislative Budget Request Guidelines**

The attached guidelines were adopted by the Board on March 23, 2006. The most significant change to the guidelines from previous years included a fiscal limitation of 8% on the total amount of issues that each university could submit to the Board for consideration. These guidelines were transmitted to the University Board of Trustee Chairs and Presidents on March 29. All issues submitted by the universities were approved by their boards of trustees.
