BACKGROUND INFORMATION

Regulation 6C-9.017 establishes the basic policy and criteria for the establishment and operation of Faculty Practice Plans for the J. Hillis Miller Health Center at the University of Florida and the Health Sciences Center at the University of South Florida. A proposed amendment to the regulation was considered by the Board at its June 22, 2006 meeting to provide for the establishment and operation of a Faculty Practice Plan for the Florida State University College of Medicine. The proposed amendment also deletes prior references to the Board of Regents and reflects the appropriate oversight authority of the Board of Governors.

Pursuant to the Regulation Development Procedure, the amendment to Regulation 6C-9.017 was posted on the Board's website for public comment after initial consideration of the amendment by the Board. The comment period has since expired and the amendment to Regulation 6C-9.017 is submitted to the Board for approval.
