Proviso language from SPB 8002A states in part:

"Each university board of trustees may allocate their institution's reductions across their institution's Educational and General Activities category and their medical program category. Each board of trustees shall provide to the Board of Governors the allocation of reductions by category prior to March 1, 2009."

"Each university board of trustees is given flexibility to make necessary reductions to its operating budget. Each board shall develop and implement a reduction plan that minimizes reductions to classroom instruction. If any board plan reduces individual programs or projects with the university by more than 10 percent, written notification shall be provided to the Executive Office of the Governor, the President of the Senate, and the Speaker of the House of Representatives. "
