

Florida ExpertNet

A Presentation to the Board of Governors

Rebecca Augustyniak & John Moerlins
Center for Applied Research & Public Service

March 25, 2009

Introduction

Helping to transform our intellectual capital
into Florida's economic future

Purpose & Benefits

- Assist business, industry, & government in identifying expertise & resources across Florida universities
- Provide a unified knowledge base of SUS applied research
- Showcase leading edge research capabilities
- Encourage collaboration among universities, government, & industry
- Promote licensing, commercialization, & contracting

Similar Systems

- ExpertiseIreland

Stats

Statistics Since July 1, 2008

ExpertNet Content

- 12 universities
- 1,800 new faculty members
- 9,200 new funded projects
- 542 centers & institutes

ExpertNet Usage

- 4,694 new visitors
- 554 returning visitors
- 24,694 page views
- 97 countries & territories

Experts

Finding expertise just got easier! This interface helps you search for active experts (principal investigators) using a variety of search methods and criteria. You can quickly find the expert you are looking for by university, keywords, research descriptors, and other parameters.

Centers/Institutes Overview

Name: Clean Energy Research Center

University: University of South Florida

Director: Elias K Stefanakos

Address: Electrical Engineering Department, ENB-118,
4202 E. Fowler Ave.
Tampa, FL 33620

Phone: (813) 974-2011

E-mail: stefanak@eng.usf.edu

URL: http://cerc.eng.usf.edu/

Type: University Institute or Center

Mission: The mission of CERC is to develop, evaluate and promote commercialization of new environmentally clean energy sources and systems, such as hydrogen production and storage, fuel cells, solar energy conversion, and biomass utilization that meet the needs of both the electric power and transportation sectors through multi-disciplinary research, technical and infrastructure development and information transfer.

Center/Institute Name	University
Center for Environmental Policy	University of Florida
Center for Plasma Science and Technology (CePaST)	Florida A&M University
Clean Energy Research Center	University of South Florida
FIU Applied Research Center	Florida International University
Florida Center for Renewable Chemicals and Fuels (FCRC)	University of Florida

Technology Licensing Opportunities

Florida ExpertNet provides a one-stop shop for identifying university-based technology licensing opportunities. The ability to search across all available information, simultaneously, provides quick and effective access to technology information and associated patents.

Each record contains core intellectual property information and, if available, information related to associated patents. Records indicate patent status, where available, and provide a link to either the technology or the patent record.

Due to differences in data entry across universities, record information may vary.

Speakers Bureau

The Speakers Bureau is a directory of speakers and their presentations covering a wide variety of topics available to organizations and businesses either for a fee or at no charge.

Each presentation overview includes a description, subject areas, keywords, length of the presentation, fee, comments, and a suggested target audience.

Use a [Basic](#) or [Advanced Search](#), or even [Browse](#), to find speakers and presentations that meet your needs.
