All other revisions shall be approved by the Board of Governors.

### **AUTHORITY FOR BOARD OF GOVERNORS ACTION**

Subsection (d) of Section 7 of Article IX, Education, of the Constitution of Florida as amended.

## **BACKGROUND INFORMATION**

The requested budget provides the State University System continued capital outlay support and has been prepared in accordance with statutory requirements. The Chancellor solicited and received a fixed capital outlay legislative budget request, including a five-year capital improvement plan, from each university. All university fixed capital outlay budget requests were approved by the institutional boards of trustees. The Commissioner of Education has provided a PECO allocation for the State University System. The Board of Governors Office staff has evaluated the projects proposed by the universities for consistency with the Board of Governors Strategic Plan, institutional mission, campus master plan, academic program approval status and plant survey recommendations. Also, reasonableness of cost estimates and project schedules and relative need considering formula space needs have been examined. A proposed budget request that considers all elements of review and balances systemwide new construction requirements with other systemwide needs related to remodeling/renovation of older buildings, utilities/infrastructure, roadways, land acquisition, and changes in institutional mission and programs has been prepared. The proposed budget request addresses in priority order:

- Continuation of projects funded by prior appropriations.
- Utilities Infrastructure/Capital Renewal/Roofs needs.
- Renovation and remodeling projects to meet current space needs, structural/mechanical repairs, and technology upgrades.
- Instructional, then research, followed by support space needs to include projects that will bring each university to the system average percentage of formula need.
- Projects to provide specialized space for a newly approved academic program.
- Special projects for land acquisition and for matching external funds from non-private sources.
- Requests to increase the amount of initial construction funding for an existing project.

Approval is recommended by the Chancellor.
