

Strategic Planning/Educational Policy Committee

At its December 3, 2003, meeting, the Strategic Planning/Educational Policy Committee discussed the development of a “Y-axis” to articulate system and constituent university goals. The draft Y-axis presented by staff at that meeting was edited to reflect suggestions made by members and to provide more detail related to the goal of meeting statewide professional and workforce needs.

In this agenda packet are the following five documents:

1. A revised Y-axis
2. Degrees granted by level for groupings in I-B of the Y-axis
3. List of targeted programs in II-B of the Y-axis
4. An explanation of the methodology for determining the broad program groupings used in I-B and II-B
5. A request from Mr. Dasburg for thoughts related to the role of the Board of Governors regarding certain situations
