## **Timeline of the SGF initiative**

*Do you support the implementation of a 50 cent per credit hour Student Green Fund that would be used to fund campus sustainability initiatives designed to reduce the carbon emissions of this university that will enable the Florida State University to become a more green campus?*

Spring 2008 SGA election – First referendum on student ballot; passed

Spring 2010 SGA election – Second referendum on student ballot; passed

2010 Florida Legislative Session – Transfer of student fee approval from Florida Legislature to Florida Board of Governors

January 2011 Board of Governors meeting – USF & New College green fees approved for Fall 2011 implementation

Spring 2011 SGA election – Third referendum on student ballot; passed

February 2012 Board of Governors meeting – UWF green fee approved for Fall 2012 implementation

February 2012 – 64<sup>th</sup> Student Senate unanimously passed referendum in support of the SGF

Spring 2012 SGA election – Fourth referendum on student ballot; passed

March 2012 – FSU Board of Trustees request for consideration; approved unanimously

June 2013 – FSU & FAMU request sent to Board of Governors for consideration

Fall 2013 (projected) – FSU green fee implementation

The Sixty-Fourth Student Senate

Resolution 14

Sponsors: Guerrier, Rosenthal

**WHEREAS:** The student body of Florida State University has supported a 50 cent per credit hour fee that would fund sustainability efforts for the past three years; and

**WHEREAS:** Students supported the Green Fund in the previous election by an overwhelming majority; and

**WHEREAS:** A Student Green Fund is in line with both the University's strategic plans and sustainability goals; and

**WHEREAS:** A Student Green Fund would be supervised by 50% students and 50% staff to support the ongoing efforts of our Campus Sustainability Initiative; and

**WHEREAS:** Monies generated by this fund would be used to reduce the impact of the university's greenhouse gas emissions, increase efficiency with our waste disposal, and reduce our energy consumption; and

**WHEREAS:** This fund would allow the Florida State University to become a leader in student empowerment with regards to the responsible use of university funds,

**THEREFORE, BE IT RESOLVED BY THE SIXTY-FOURTH STUDENT SENATE** that the Legislative Branch of the Student Government Association also supports this initiative, and requests that the FSU Board of Trustees approves the implementation of the Student Green Fund for the benefit of our student body and overall university.

**BE IT RESOLVED BY THE SIXTY-FOURTH STUDENT SENATE** that a copy of this resolution be sent to the Florida State University President, Dr. Eric Barron, Vice-President for Student Affairs, Dr. Mary Coburn, Vice-President for Finance and Administration, Dr. John Carnaghi, Associate Vice President for Facilities, Dennis Bailey, and the Student Government Association President, Avi Assidon.

### Endorsement Letter for the Student Green Energy Fund

To Whom It May Concern,

I, Rosalia Contreras, Student Body President for 2013-2014 at Florida State University, am calling for leadership from the Florida Board of Governors to approve the Student Green Energy Fund for Florida State's campus.

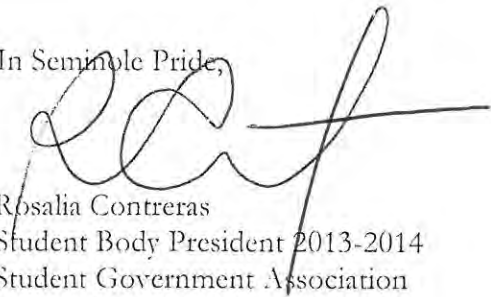

The Student Green Energy Fund will drive investment in cost-lowering and energy-saving technologies for Florida's public universities and will allow money to be reinvested into academics.

The Student Green Energy Fund will ensure Florida's public universities a clean energy technological edge over other states' university systems.

To make sure my voice is heard, I am writing to join students at Florida State University who voted to approve the Student Green Energy Fund. The fund will reduce university energy bills, fund clean energy projects, reduce greenhouse gas emissions produced by the university, and provide leadership opportunities for students.

I am certain the students of Florida State are in support of the Student Green Energy Fund, as a referendum question in a campus wide election proved. As a voice supporting and representing our students, I highly support the fund.

In Seminole Pride,

Rosalia Contreras  
Student Body President 2013-2014  
Student Government Association  
Florida State University

THE FLORIDA STATE UNIVERSITY  
STUDENT GOVERNMENT ASSOCIATION

**Endorsement Letter for the Student Green Energy Fund**

To Whom It May Concern,

We, Rueben Stokes and Kathryn Porwoll, Student Body President and Vice President of 2012-2013 at Florida State University are calling for leadership from the Florida Board of Governors to approve the Student Green Energy Fund for Florida State's campus.

The Student Green Energy Fund will drive investment in cost-lowering and energy-saving technologies for Florida's public universities, and will allow money to be reinvested into academics.

The Student Green Energy Fund will ensure Florida's public universities a clean energy technological edge over other states' university systems.

To make sure our voice is heard, we are writing to join students at Florida State University who referendum to approve the Student Green Energy Fund. The fund will reduce university energy bills, fund clean energy projects, reduce greenhouse gas emissions produced by the university, and provide leadership opportunities for students.

We are certain the students of Florida State are in support of the Student Green Energy Fund, as a referendum question in a campus wide election proved. As voices supporting our students, we highly support the fund.

In Seminole Pride,

Rueben Stokes  
Student Body President 2012-2013  
Student Government Association  
Florida State University

Kathryn Porwoll

March 22, 2013

To the Florida Board of Governors:

Green Initiatives should be a priority at Florida State University. Throughout my term as SGA Student Senate President, I have seen the interest and drive of students protecting the environment. The Senate has also been vocal about passing legislation in support of green initiatives; such as, the Campus Garden, going paperless and improving recycling programs.

For the past three years, the student body of Florida State University has supported a 50-cent per credit hour fee that would fund sustainability efforts. Students supported the Green Fund by an overwhelming majority; the Student Green Fund is in line with both the University's strategic plans and sustainability goals. Monies generated by this fund would be used to reduce the impact of the university's greenhouse gas emissions, increase efficiency with our waste disposal, and reduce our energy consumption. This fund would allow the Florida State University to become a leader in student empowerment with regards to the responsible use of university funds.

I would like to voice my wholehearted support for the fee; while my opinion is not officially the stance of the senate, I can say that many student government officials are also in favor of this initiative. I humbly request that the Florida Board of Governors approves the implementation of the Student Green Fund for the benefit of our student body and the future of our university.

Sincerely,

Brandon Eisaman  
*65<sup>th</sup> SGA Senate President*

To the Florida Board of Governors,

As the Director of the Student Sustainability Initiative I would like to express my full support for the implementation of the Student Green Fund at Florida State University.

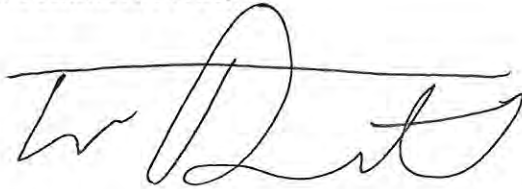

Students at FSU have long supported this 50 cent per credit hour fee. The Student Green Fund has been approved by the referendum 3 times and has seen the support of the 64<sup>th</sup> and 65<sup>th</sup> Student Senates.

The proposed structure for administrating the green fund, a committee of half students and half staff, directly engages university students and provides ample opportunity for student-led projects and research in sustainability. This direct engagement aligns with Florida State's goal of becoming the most student-centered university in our state.

The creation of the Student Green Fund is paramount to the continued momentum of FSU's sustainability movement. The Fund provides resources for projects that will reduce the universities greenhouse gas emissions and waste production, while increasing efficiency. Overtime these projects will reduce consumption, saving money and helping FSU to become a more responsible member of the community.

The Student Green Fund is an investment in our institution and the overwhelming support this initiative has received shows it to be an investment demanded by the students of Florida State. I encourage the Florida Board of Governors to approve the creation of this fee without delay.

In Seminole Pride,

A handwritten signature in black ink, appearing to read 'T. Durrant', written over a horizontal line.

Thomas Durrant

Director of the Student Sustainability Initiative

Florida State University
