Article IX, Section 7, Florida Constitution; Subsection 1007.25(8), Florida Statutes; Board of Governors Regulation 2.002

BACKGROUND INFORMATION

Board Regulation 2.002 requires the development of University Work Plans. Work Plans, in conjunction with annual accountability reporting, are designed to inform strategic planning, budgeting, and other policy decisions for the State University System. Each University Work Plan is intended to reflect the institution's distinctive mission and focus on core institutional strengths within the context of State University System goals and regional and statewide needs. The Work Plan outlines the university's top priorities, strategic directions, and specific actions and financial plans for achieving those priorities, as well as performance expectations and outcomes on institutional and System-wide goals.

The University Work Plan's "Strategy" section includes institutional mission and vision statements, identification of strengths and opportunities, and key initiatives and investments. The "Key Performance Indicators" section provides metrics common to all universities, as well as metrics specific to research universities and institution-specific indicators. The "Operations" section provides fiscal and other information, including enrollment planning and intentions to implement new academic programs in 2013-14 as well as in out-years.

Universities made brief presentations on their Work Plans to the Strategic Planning Committee, after which Committee members had the opportunity to engage in discussion and questioning. The Committee considered for approval those portions of 2013-14 University Work Plans associated with the 2013-14 academic year. The

Strategic Planning Committee Chair will report the Committee's action to the full Board of Governors for consideration.
