Florida State University

A Healthy Campus Environment

- **Social distancing guidelines are in place and face masks will be required for all members of the university community as well as visitors.**
- **All FSU buildings will be cleaned, sanitized and disinfected according to CDC recommendations using EPA-registered cleaning agents.**
- **University Athletics will adhere to guidance provided by the NCAA and ACC. All student-athletes will be tested for COVID-19 before returning to Athletics facilities and daily screenings will take place at specific entrances.**

- **Vendors, visitors and others will be fully briefed on necessary campus health and safety precautions.**
- **FSU will continue to work closely with the Florida Department of Health, local hospitals and others on its plan for contact tracing.**
- **Noncompliance of requirements to wear face masks and practice social distancing may result in employee suspension or a referral to student behavior and/or academic review boards.**
- **FSU strongly encourages every member of the campus community to get the influenza shot.**

- **All employees must be tested before they will be allowed to return to campus; they will be offered a test at an FSU drive-through facility.**
- **FSU has set forth the aspirational goal of initial baseline return-to-campus COVID-19 testing of all faculty, staff, and students.**
- **All individuals who intend to be physically present on campus will be strongly encouraged to undergo clinical testing for COVID-19 through a recognized testing procedure of their choice before returning to campus.**
- **Students may be asked to take a COVID-19 test as part of FSU's Sentinel Surveillance program, which aims to test a percentage of students monthly to detect when community spread may be increasing.**

- **FSU is partnering with the Florida Department of Health to establish the FSU Contact Tracing Initiative.**
- **Students, faculty and staff who are identified through contact tracing will be notified and required to isolate for 14 days.**
- **An 80-bed, on-campus residence hall (Rogers Hall), and several other smaller facilities, will be used only for the 14-day quarantining of residential students who have tested positive for the virus. Off-campus students will isolate in their off-campus apartments/houses.**

- **Fall Semester will begin Aug. 24, 2020 and end Dec. 11, 2020 as previously scheduled; however, no face-to-face classes will be held after the Thanksgiving break.**
- **FSU will offer face-to-face classes for selected lab, experiential, and other selected courses; both synchronous and asynchronous distance learning courses; and hybrid classes that are a mix of both face-to-face instruction and remote learning.**
- **FSU's award-winning International Programs will not offer courses at our Study Centers in London, Florence or Valencia this fall.**
- **The FSU Center for the Advancement of Teaching is working with many faculty to help them learn to teach more effectively through remote means.**
- **Only 25-50% of classroom space will be used at any given time in order to limit the number of students, faculty and assistants who may be in the room at any given time.**
