INNOVATION

ROARY

What are the structures of a typical neuron?

STUDENT

Neurons are basic building blocks of the nervous system. A neuron consists of dendrites and a cell body called soma.

ROARY

Very close! Would you like to explain the neural transmitter?

STRATEGIES

AI and Adaptive

Data for Success

Student Success

STUDENT SUCCESS WITH ONE-ON-ONE PREP

The Success Team is ready to help!

How to succeed online:

- School/Life Balance
- Critical Course Guidance
- Organizational / Study skills
- Obstacles to success

College Readiness:

- Identify at-risk cases
- Monitor GPA
- Stop-out History

GRADUATE

Master of Science in Information Technology	CEC
Master of Public Health	CPHSW
Master of Science in Logistics Engineering	CEC
Master of Arts in Global Affairs	SIPA

Shaista Kramer
Master of
International Business

I'm a full-time mom, I work full-time, and my schedule is very busy. I needed to enter a program that was flexible for my personal life, as well as for my career. The curriculum was a world-class curriculum for the Master of International Business. The classes built off one another, and the professors were top-notch. **What gives me the confidence in obtaining my degree through FIU is the fact that they have equipped me with all the tools necessary to embrace the workforce that is out there right now.** What I got from FIU...flexibility, accessibility, ability to connect through modern technology, and the ability to still have freedom.
