

State University System Florida Board of Governors 2012-13 Legislative Budget Request Development Policy Guidelines

Pursuant to Section 7, Article 9 of the Florida Constitution, the Board "...shall operate, regulate, control, and be fully responsible for the management of the whole university system." Included within this responsibility is the development of a Legislative Budget Request (LBR). In addition, Section 216.023(1), Florida Statutes, requires the submission of a LBR to the Legislature and Governor based on an independent judgment of needs.

The 2012-2013 LBR shall be need-based and will provide flexibility for the Board of Governors (Board) and universities' boards of trustees to jointly manage the system to meet the critical needs of the state, achieve the statewide goals and objectives of the State University System (SUS) Strategic Plan, address specific institutional issues as outlined in the university work plans, and demonstrate accountability/ justification. The following goals and objectives of the SUS Strategic Plan will be addressed in the request:

1. Access to and production of degrees
2. Meeting statewide professional and workforce needs
3. Building world-class academic programs and research capacity
4. Meeting community needs and fulfilling unique institutional missions

These System goals and objectives, as well as institutional goals and initiatives outlined in university work plans, should be incorporated into the following priorities, which will be reflected in the LBR:

Operating and Specialized Program Funds:

1. Continuing costs associated with existing programs – This policy addresses the funds needed to continue existing programs.
 - a. Administered Funds – Funds will be requested for the annualization associated with the 2011-2012 change in employee salary and benefits, if appropriated by the 2011 legislature.
 - b. Major Gift Program – Funds will be requested to continue support at 100% for the major gift matching program.

- c. Plant operations and maintenance for new and existing buildings –

 - ii. Funds will be requested for the operating costs for new buildings to be completed and occupied in 2012-2013.
 - iii. Funds will be requested for the increased utilities and operating costs of existing buildings.
 - d. Faculty and Staff Retention – Keeping qualified faculty and staff is paramount to student success, and ensuring that the universities continue to be included in administered funds will be closely monitored .
 - e. Medical Education – Funding will be requested for continued implementation of the FIU and UCF medical schools and for Board approved issues at existing medical schools.
2. SUS Strategic Plan Goals – Program and funding requests will be considered to increase access, address shortages in critical state workforce areas, and for the development and maintenance of nationally and internationally preeminent academic programs and research centers.
 3. New Florida – The ability to build the knowledge and innovation economy requires high-technology, high-wage jobs in the fields of science, technology, engineering and mathematics (STEM), as well as medicine and health care, finance, insurance, professional services, and education. The SUS can and should be the driver of Florida’s new economy. Funding will be requested for this initiative.

Utilizing university work plans and the accountability metrics in the annual report, New Florida funding will focus on increased targeted degrees, workload increases; attracting top-level students, researchers, and industry; creating a strategic research agenda; and focusing each university on fulfilling its distinctive mission.

4. Task Force Reports and Studies – Consideration will be given to initiatives recommended in any task force reports or studies and endorsed by the Board.
5. Shared System Resources – Consideration will be given to initiatives that allow for greater efficiencies through shared system resources.

6. If a university received non-recurring funds for an initiative and that initiative is a priority for continued funding, then the university should submit that issue for consideration by the Board.
