SOURCE: Board of Governors staff analysis of FETPIP data in accordance with 1001.706(5)(d), Florida Statutes. NOTES: Programs are ranked on their performance (median salaries) relative to the system average for all bachelor's degree completers. Programs with fewer than 30 graduates or less than 10 employed with full-time wages are not included in this report. Employment and earnings data are based on FETPIP's published reports for 4th quarter (Oct-Dec) of 2016 wages within Florida. This report does not include students employed outside of Florida, those who entered the military, or were self-employed. Cells with † are shown to indicate programs where median salaries are high, but employment rates are low due to job placements outside of Florida, according to Board staff analysis of U.S. Bureau of Labor Statistics data. Full-Time Threshold is the minimum wage (\$8.05) multiplied by 40 hours per week multiplied by 13 weeks (this is a quarterly threshold). Full-Time Annualized Wages are calculated by multiplying the Full-Time Threshold by 4. Cells filled with \*\*\*\* are masked where there are fewer than 10 students present within a group that is continuing education. Continuing education outcomes are based on enrollment data for the fall semester of 2016 and preliminary winter/spring semester of 2017 and include enrollments in Florida public and private colleges and universities. High school diploma includes employment data for standard high school diploma completers from Florida public schools who did not continue their education. Students may be in multiple settings which may exceed total unduplicated count.
