

Academic Program Pre-proposal Recognition System (APPRiSe)

Dr. Julie Alexander, Florida College System
Dr. Jan Ignash, Florida Board of Governors

March 18, 2015

Challenge

- Public colleges and universities need a systematic way to share early plans for future academic degree programs.

Purpose

- The APPRiSe web tool was developed to serve as a method to allow state colleges and universities to share information regarding new bachelor's degrees in order to:
 - Provide notice early in the development process, and
 - Avoid unnecessary duplication of other college and university academic degree programs.

APPRiSe Users

- Each institution will have two users.
 - Users are administrators at each institution who play a major role in program approval.
- Appropriate staff at the Board of Governors and Florida College System will also have access.

THE COMMUNICATION PROCESS

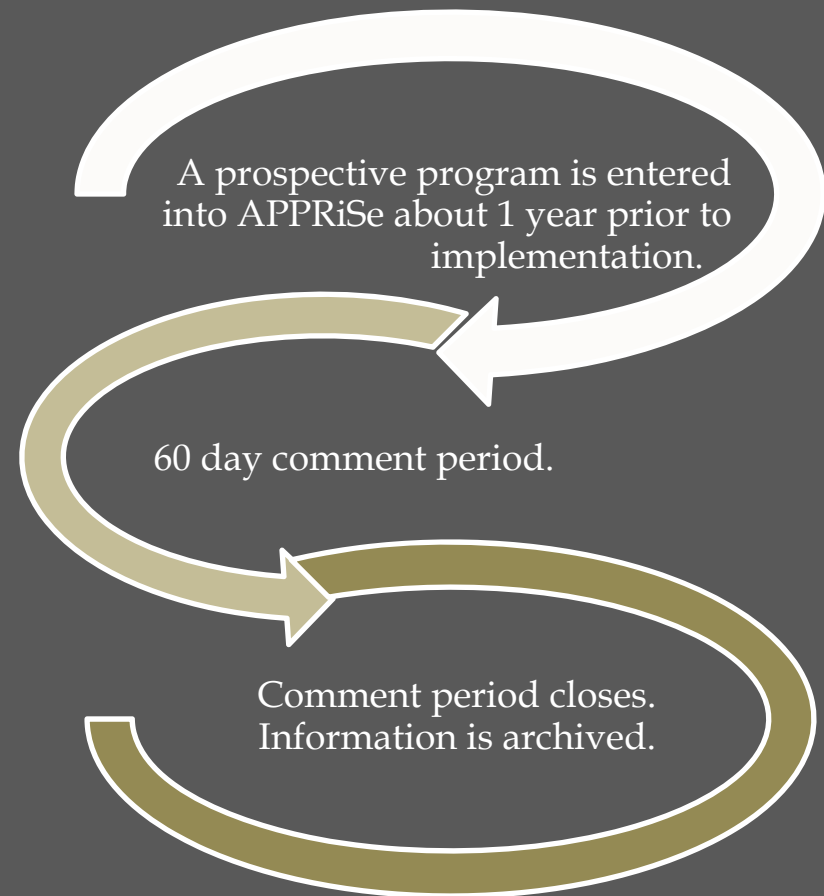

A Place for APPRiSe in the Academic Program Development Process

Florida College System

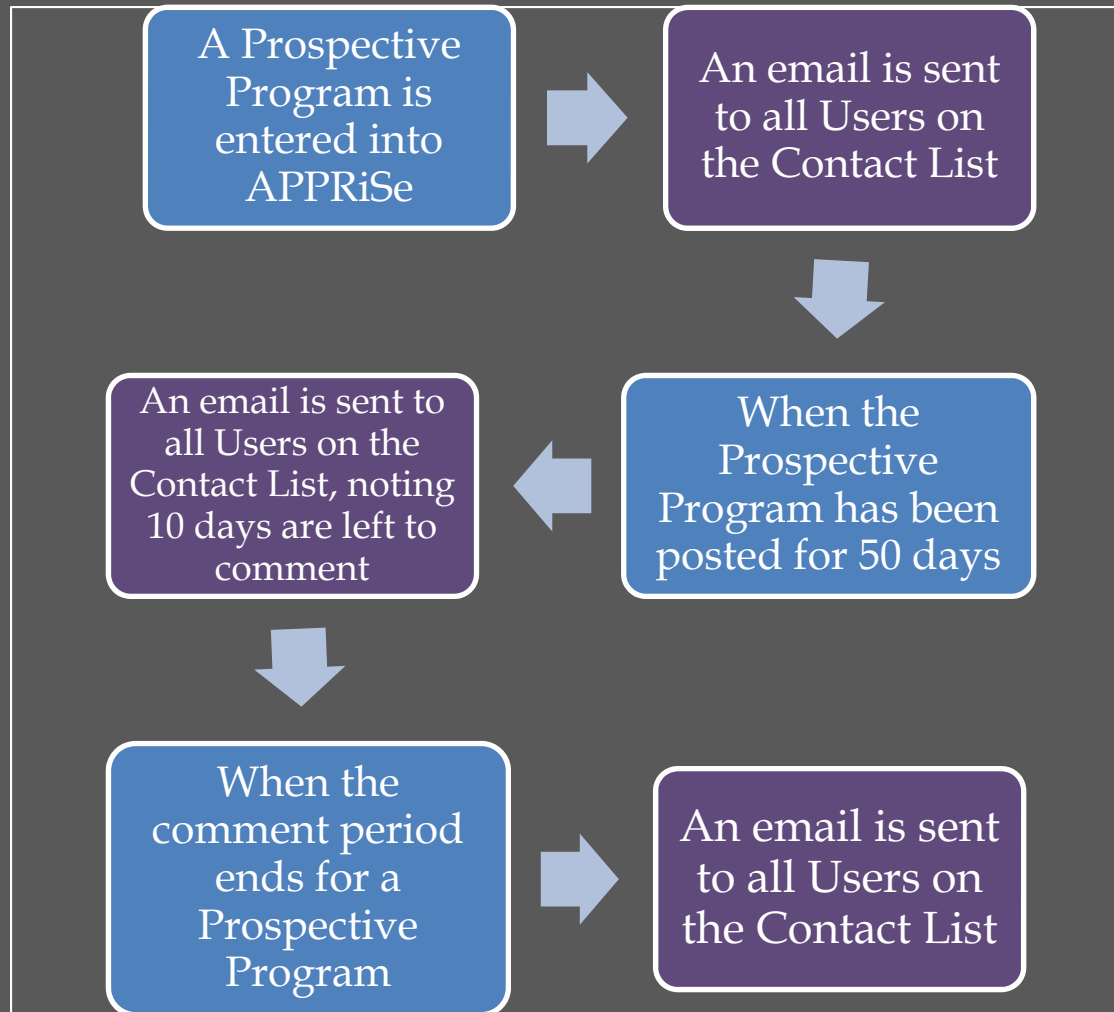

- Colleges enter a “Prospective Program” 1 Year prior to the Letter of Intent.

State University System

- Universities enter a “Prospective Program” 1 Year prior to a proposal going to the University Board of Trustees.

60 Day Comment Period

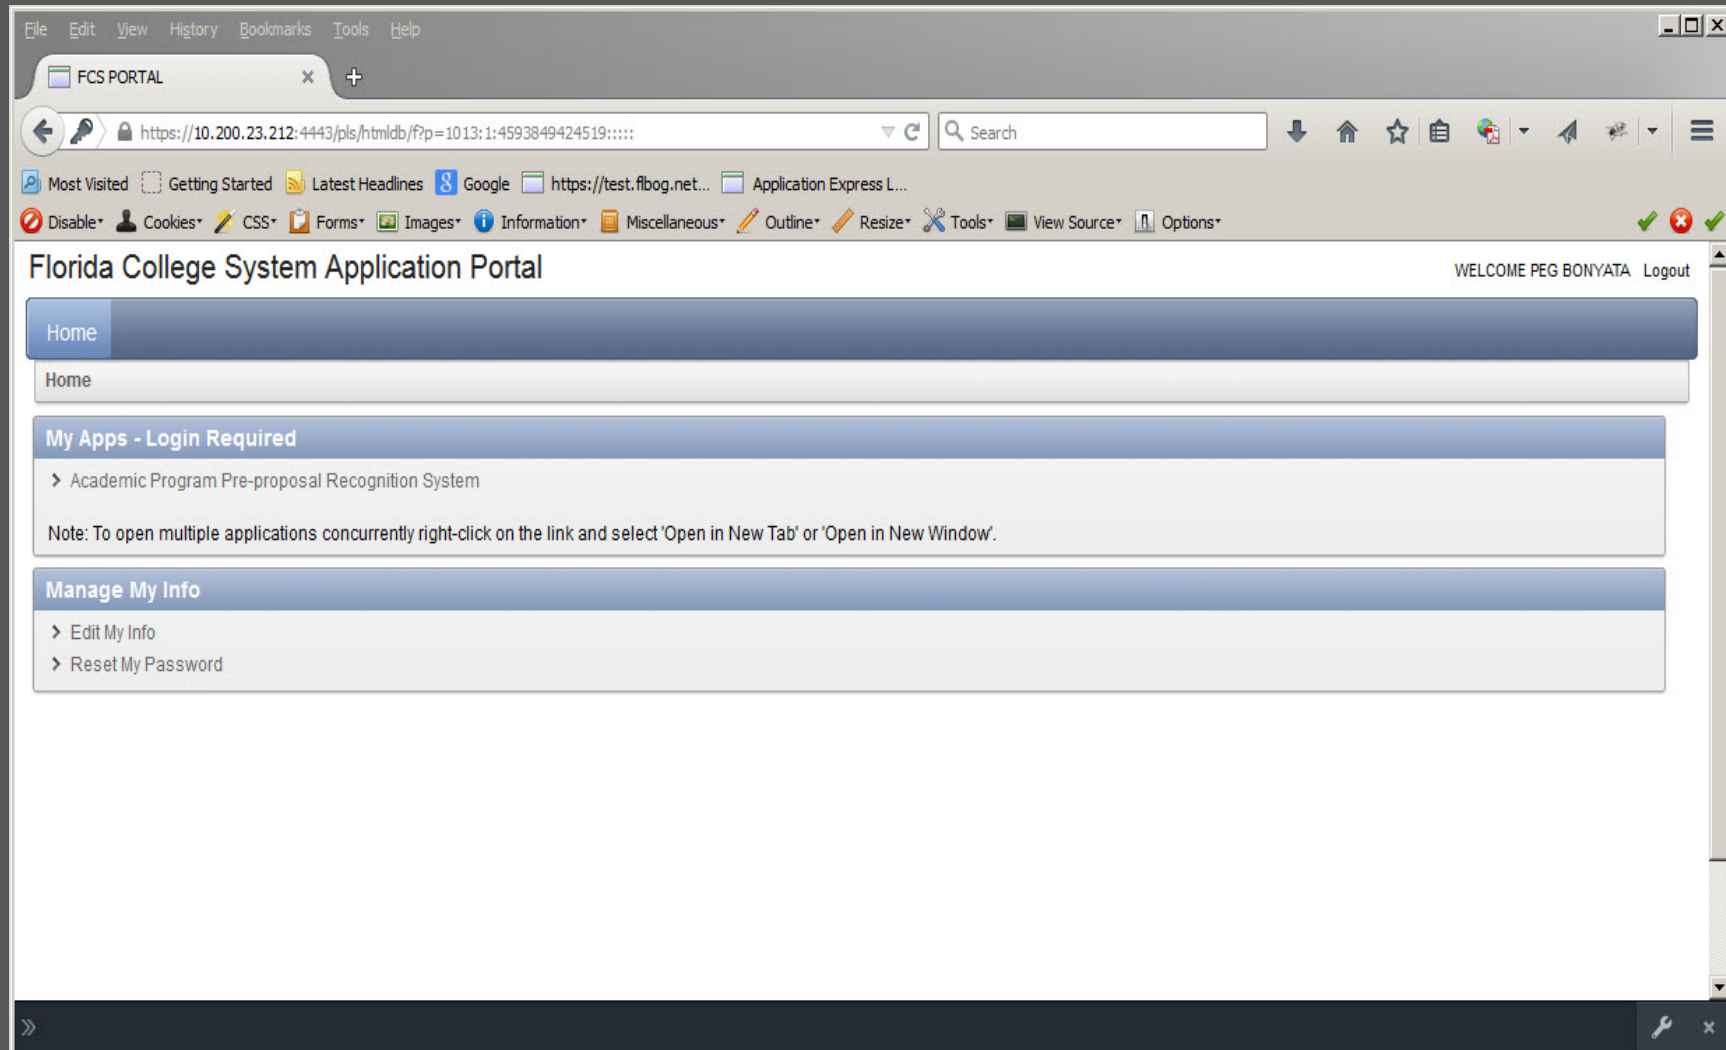

Any time a comment is written about a Prospective Program

An email is sent to all users on the Contact List

Program Description
In the first week of July, 2014 there were 120 Florida-based jobs in Arts Administration listed on HigherEdJobs.com. Last year colleges and universities in Florida graduated 103 students with a degree in Arts Administration. We believe our institution's history and sustained quality in the fine arts can be leveraged to provide a program that meets the unfilled need for Arts Administration graduates.

ELIZABETH ADEJOKUN_OJO	BOG	17-FEB-15	We started a similar program two years ago and have found there are barriers to entry to the jobs for students with just a bachelor's degree. I would be happy to discuss my understanding in greater detail with you.
PEG BONYATA	BOG	16-FEB-15	It is my understanding your program can expand to further meet the need. As you move forward I think it would be helpful to know if the number of openings has been sustained or if the need is temporary.
