

**STATE UNIVERSITY SYSTEM OF FLORIDA  
BOARD OF GOVERNORS  
Facilities Committee  
January 20, 2016**

**SUBJECT:** Energy Conservation Report Update

---

**PROPOSED COMMITTEE ACTION**

For Information

**AUTHORITY FOR BOARD OF GOVERNORS ACTION**

Article IX, Section 7, Florida Constitution

**BACKGROUND INFORMATION**

Legislation passed in 2010 (House Bill 5201, Section 30), required that:

*“Each Florida college and state university shall strive to reduce its campus-wide energy consumption by 10 percent. While savings may be accrued by any means, the goal shall be to implement energy use policies or procedures or both and any equipment retrofits that are necessary to carry out this reduction. The reduction may be obtained by either reducing the cost of the energy consumed or by reducing total energy usage, or a combination of both...”*

This requirement was for one year only. However, the Facilities Committee’s Annual Work Plan calls for this information to be collected and presented to the Committee for comparison purposes.

The original report included fiscal years 2007-2008; 2008-2009; and 2009-2010. Universities provided an update to include 2010-2011 through 2013-2014 data. This year’s report includes 2014-2015 data.
