## Introduction

*The State University System of Florida has developed three tools that aid in guiding the System's future.*

- 1) The Board of Governors' **2025 System Strategic Plan** is driven by goals and associated metrics that stake out where the System is headed;*
- 2) The Board's **Annual Accountability Report** provides yearly tracking for how the System is progressing toward its goals;*
- 3) Institutional **Work Plans** connect the two and create an opportunity for greater dialogue relative to how each institution contributes to the System's overall vision.*

*These three documents assist the Board with strategic planning and with setting short-, mid- and long-term goals. The Board will use these documents to help advocate for all System institutions and foster even greater coordination with the institutions and their Boards of Trustees.*

*Once a Work Plan is approved by each institution's respective Board of Trustees, the Board of Governors will review and consider the plan for potential acceptance. Longer-term components will inform future agendas of the Board's Strategic Planning Committee. The Board's acceptance of a Work Plan does not constitute approval of any particular component, nor does it supersede any necessary approval processes that may be required for each component.*

This table reports the annualized Unemployment Insurance (UI) wage data (rounded to the nearest hundred) by cohort years from the fourth fiscal quarter after graduation for bachelor's recipients. The cohort year refers to the year of the graduating class, and the data is their median wage a year after graduation. This UI wage data does not include individuals who are self-employed, employed out of state, employed by the military or federal government, those without a valid social security number. Annual undergraduate direct and indirect expenditures were divided by the undergraduate fundable student credit hours to create a cost per credit hour for each year. This annual cost per credit hour was multiplied by 30 credit hours to derive an average annual cost. The average annual cost for each of the four years was summed to provide an average cost per degree for a baccalaureate degree. The national average benchmarks include public and private institutions. The ten exams include: Nursing, Law, Medicine (3 subtests), Veterinary, Pharmacy, Dental (2 subtests), and Physical Therapy – see Accountability reports for actual pass rates. Actual data are shown in the highlighted rows, and planned/projected goals are not highlighted. The System out-year goals are mathematically derived from the university goals.

These tables report the counts of distinct baccalaureate and graduate degrees. In those cases where baccalaureate degrees are awarded under two different degree CIPs, a distinction is made between "dual degrees" and "dual majors." Dual degrees are counted as separate degrees (i.e., counted twice), and include those cases where the second major differs substantially from the first because either the college is different, the degree designation is different (e.g., BA, BS, BBA, BFA, etc.), or the degree CIP is in a different 2-digit range (e.g., 51\* vs. 52\*); in these cases, the second degree CIP receives a "degree fraction" of 1.0. If these conditions do not apply, the second major is considered a dual major, and the degree associated with it is not counted a second time; in these cases, each dual major degree CIP receives a degree fraction of .5 apiece. The calculation of degree fractions is made according to each institution's criteria. Actual data are shown in the highlighted rows, and planned/projected goals are not highlighted. The System out-year goals are mathematically derived from the university goals.

This table reports the actual and planned Full-time Equivalent (FTE) enrollment by Academic Year. Full-time Equivalent (FTE) student is a measure of instructional activity that is based on the number of credit hours that students enroll. This FTE data is based on the US definition, which divides undergraduate credit hours by 30 and graduate credit hours by 24. The planned annual percent change is based on the growth rate from 2016-17 to 2021-22. Actual data are shown in the highlighted rows, and planned/projected goals are rounded to the nearest tens digit and are not highlighted. The System out-year goals are mathematically derived from the university goals.

These tables report Fall and Spring financial aid data that are accurate as of March 31, 2016. Please note that small changes to Spring 2016 awards are possible before the data is finalized. **Family Income Groups** are based on the Total Family Income (including untaxed income) as reported on student FAFSA records. Full-time Students is a headcount based on at least 24 credit hours during Fall and Spring terms. **Net Tuition & Fees** is the actual average of the total costs of tuition and fees (which will vary by income group due to the amount of credit hours students are enrolled) minus the average Gift Aid amount. **Average Gift Aid** includes all grants and scholarships from Federal, State, University and other private sources administered by the Financial Aid Office. Student waivers are also included in the Gift Aid amount. Gift Aid does not include the parental contribution towards EFC. The bottom-line Average represents the average of all full-time undergraduate Florida residents. "Not Reported" represents students who did not file a Free Application for Federal Student Aid (FAFSA).
