**BACKGROUND INFORMATION**

During its February 24, 2021, meeting, the Committee approved the development of a plan for a post-COVID world in the State University System. The Steering Committee that guides the implementation of the 2025 Strategic Plan for Online Education will assist the Innovation and Online Committee in its discussions, inviting other institutional leaders to participate in related meetings, as needed.

On March 23, 2021, USF Provost Ralph Wilcox, the chair of the Steering Committee, presented to the Innovation and Online Committee a summary of a discussion held with academic and academic support leaders; the discussion focused on lessons learned, challenges, opportunities, best practices, new activities promoting student and faculty success, and mission-critical collaborations during the pandemic.

At its meeting today, Provost Wilcox will provide the Committee with a summary of the discussion that the Steering Committee held with student affairs leaders on May 14, 2021.
