Textbook and Instructional Materials Selection Process

Report the textbook and instructional materials selection process used for general education courses with high enrollment. Include the course prefix(es) and number(s), the course title(s), and the total number of courses (*n*=). In column "F," use the drop-down arrow in each cell to select the appropriate selection process. The methodology for determining high enrollment courses is as follows: Order courses (course prefix/number) by headcount enrollment, excluding honors courses. The top 10% of courses are determined as high enrollment.

General Educa	ation Courses with High Enrollment	Total Number of Courses (n =)	Selection Process	If "other," describe
Course Prefix & Number	Course Title

ECO2023	Principles of Micro Economics	18	Combination of the Above	
LIT2000	Introduction to Literature	30	Individual Faculty	

Following the methodology provided by the Board of Governors, all general education courses (course prefix/number) offered in Fall 2020 or Spring 2021 were ordered by headcount enrollment (excluding Honor courses). A total of 124 courses (course prefix/number) were identified. Report selects top 10% (n=13) courses based on headcount enrollment and total number of sections offered during Fall 2020 and Spring 2021.

Courses with No Cost for Textbooks/Instructional Materials

Report all institution's course title(s) and number of section(s) (*n*=) that did not require or recommend the purchase of a textbook(s)/ instructional materials and/or utilized open educational resources. These may include general education courses, upper level courses, and courses for directed independent study, internships, thesis/dissertation, etc.

Board Action Plan - Low Cost Course Materials

- Analysis includes all course sections delivered during Fall 2020 and Spring 2021. The list represents only course sections that completed adoptions through Barnes & Noble College - Adoption and Insights Portal.

- Although textbooks are available at different price ranges, the new textbook price for the most recent edition was used in the calculations. Report reflects cost at the **highest** textbook price (new).

- For variable course sections, average course credits per secton are used for calculation. Minimum credit per section used was one (1).

Textbook & Instructional Materials Affordability Initiatives

Describe specific initiatives of the institution designed to reduce the costs of textbooks and

Lending libraries.

Reserved copies in the library.

University investment in eBook/textbook purchases with multiple users.

Expansion of Open Educational Resources and Open Access resources in Digital FGCU.

Faculty and students are apprised of any cost savings obtainable through choosing digital versus print.

Expanded training on use and adoption of free course materials, library E-books and OER. Recent agreement to contract with Barnes and Nobles for Bookstore operations.

Bookstore personnel provides a list of all available options to faculty.

Bookstore personnel attend college and department meetings to explore and discuss cost-saving measures.

Course coordinator in general education examines and monitors materials/textbooks being used as well as associated cost.

Purchase of Leganto license to embed library resources and Open Educational Resources (OER) into LMS.

Implementation of a copyright-friendly Controlled Digital Lending (CDL) protocol for textbook chapters and the print textbook reserve collection.

Textbook affordability policy and regulation revision(s).

Frequent reminders about on-time adoptions which allows more time for students to decide on available options.

Adoption of Barnes and Noble College - Adoption and Insights Portal.

Has the *opt-in* provision been implemented by your institution for the purchase of student materials? If yes, describe the impact this has this had on student savings, if any.

The University has not fully embraced the opt-in provision although a pilot was done for one course with a prior vendor. Based on the limited set of data, the University cannot make a widespread claim of having an impact on student cost savings as related to the opt-in provision. Furthermore, opt-in appears to restrict students' ability to shop around for more affordable options. The University is currently holding off on the Opt-in/Opt-Out programs offered by Barnes and Noble until we hear more about program outcomes at peer SUS institutions.

Has the *opt-out* provision been implemented by your institution for the purchase of student materials? If yes, describe the impact this has this had on student savings, if any.

The University has not adopted the opt-out provision. The University is currently holding off on the Opt-in/Opt-Out programs offered by Barnes and Noble until we hear more about the program outcome at peer SUS institutions.

University Policies for the Posting of Textbooks and Instructional Materials & Compliance with the Posting Deadline

Describe policies implemented to ensure the posting of textbooks and instructional materials for at least 95% of all courses and course sections 45 days before the first day of class.

It is ultimately the responsibility of the respective unit's dean to make certain that all textbook adoptions occur within the timeframe(s) stipulated in legislative mandates. This responsibility is stipulated in the University's textbook adoption and affordability policy and regulation which state:

1. The University shall publish the textbook ordering and textbook adoption dates for the fall, spring and summer terms of each academic year in the University Academic Calendar or other University approved publication(s).

2. Course assignments will be made by Chairs/Directors in accordance with the Collective Bargaining Agreement and submitted to the Office of the Registrar.

3. No later than the published textbook ordering date for each term, each faculty member, or the department where applicable, shall identify the textbook and other course related materials required for the course by completing the Course Textbook Adoption request page on the University Bookstore website or other University determined location(s). *

4. The Bookstore provides real time dashboard data information in regards to the progress of adoptions for any given semester.

5. The dean or designee of each college and/or unit will monitor the completion of the course textbook ordering application to ensure that each faculty member with an instructional assignment complies with the requirements for timely submission of the information required by the textbook adoption process.

Each college/unit dean will exercise the necessary administrative and corrective actions in order to ensure compliance.
 *There is an exception to the above protocol when a new course is added after the textbook adoption deadline.

Are the policies effective in meeting the reporting requirement? If not, what measures will be taken by the university to increase faculty and staff compliance for meeting the reporting requirement?

The migration of Booskstore operations to Barnes and Noble College and measurements implemented helped increase the timely adoption rate last year. Fall adoption continued to be lower than Spring adoption, but showed improvement increasing from 77.08% in Fall 2019 to 84.5% in Fall 2020. The change in Booskstore operations starting Summer 2020 and the onset of COVID posed challenges for course Planning and meeting textbook adoption rates in Fall 2020. However, timely adoption in Spring 2021 rose to 98.5%.

**Note: Per Board Regulation 8.003 (1) (h), a course or course section added after the posting requirement is considered an exception and should be reported on the "Exceptions" tab. A request for any other exception to the compliance deadline shall be submitted in writing to the designated university official and shall provide a reasonable justification for an exception. A course or section added after the notification deadline is exempt from this notification requirement.

Changes completed after 45 days do not necessarily create additional costs or new materials for the course. Bookstore indicates they often initiate changes after 45 days to procure the addition of alternative options or textbook versions due to the availability of some materials.
