Facilities Committee
June 29, 2022**

SUBJECT: Educational Plant Survey of University of West Florida

PROPOSED COMMITTEE ACTION

Validate the completed Educational Plant Survey (EPS) of University of West Florida (UWF).

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Article IX, Section 7, Florida Constitution; Sections 1013.03 and 1013.31, Florida Statutes.

BACKGROUND INFORMATION

An EPS (or “Survey”) is required at least once every five (5) years for all public educational entities, including universities, per ss. 1013.03 and 1013.31, F.S. At the request of UWF, Board staff helped coordinate and facilitate the EPS two-phase process; initial validation of existing space and assessment of future space needs, as well as help ensure statutory requirements were satisfied.

Board staff involvement included participating on the Survey Team, which was also comprised of volunteer staff from Florida State University and University of Central Florida.

The UWF Survey covers the period July 1, 2022, through June 30, 2027. The Survey validates the inventory of education & general (E&G) space, such as new facilities, and proposed renovation, remodel, and demolition projects, as well as provides an assessment of the university’s planned capital projects compared to its estimated future space needs based on a 5-year projection of full-time equivalent (FTE) student enrollment. An overview of UWF’s projected total space needs is reflected below.

University of West Florida
Summary Comparison of Total Space Need; Current and Prior¹

Survey Year	5-year Projection			EPS-Recommended New/Added Space
	FTE Enrollment	Total Space Needed	Current Inventory ²	
2016-17	7,877	830,905	683,480	147,425
2021-22 ³	10,740	844,918	645,967	198,951

¹ All space represented as Net Assignable Square Feet (NASF).

² Current inventory includes incomplete projects (in terms of funding or construction), excludes both space to be demolished, and space that is ineligible for the space needs calculation.

³ Includes eligible E&G space for all Sites.

In addition to various remodeling, renovation and demolition projects, the Survey Team recommended the following university-proposed new construction projects totaling

84,250 NASF, combined:

- Student Engagement and Research Center (37,550 NASF)
- Science and engineering Research Wing (46,700 NASF).

The completed Survey results were approved by the UWF Board of Trustees on June 16, 2022, and are provided as an attachment.
