Digital SAT Suite

What's staying the same

- ✓ The digital SAT Suite will continue to measure the knowledge and skills that **matter most for college and career readiness**
- ✓ **The digital SAT will still be scored on a 1600 scale**, and no concordance is required with the current paper and pencil exam.
- ✓ The digital SAT will still be **administered in a school or in a test center** with a proctor present (not at home)
- ✓ Students will still have **free, world-class practice resources on Khan Academy®**.
- ✓ **We'll continue to support all students**, including those who need accommodations on test day

What's changing

- ✓ **Students will take the SAT Suite assessments on a laptop or tablet.**
- ✓ The SAT will be shorter – **about two hours instead of three.**
- ✓ Students and educators will receive scores faster – **in days, not weeks.**
- ✓ **Calculators will be allowed** on the entire math section.
- ✓ **The digital SAT will be more secure and flexible.** Each student will get a unique test form, and states, schools, and districts will have much more flexibility for when they administer the digital SAT.
