FIU

Do you accept transcripts from SCOIR?

Public high schools should use FASTER or
SPEEDE

All schools except UNF & UWF accept SCOIR

Can we get more copies of the matrix?

Electronic copies are available in the resources for high school counselors' section of the BOG website

flbog.edu

Do you accept industry certification as meeting mathematics or natural science core requirements?

- No. While industry certifications will certainly add to a student's portfolio, it does not take the place of a designated mathematics or natural science core course as required within our college preparatory expectations.
- **Students must still take a minimum of 4 math courses and 3 natural science (2 or more with labs).**

Do you accept a computer science course as meeting math or natural science core?

- No. Students must take 4 math courses of Algebra I level or higher and at least 3 natural science courses, including at least 2 with laboratory experiences.

Do you have other ways for students to be admitted to your institution?

- Yes. Students may want to consider one of the 81 2+2 Enhancement Programs established with Florida College System institutions.
- Talk to the admission director for the institution of interest about programs specifically tied to that institution.

What are the types of Florida residency waivers

- DACA/Non-Resident who attends FL HS for at least three years and graduates from FL HS; must complete waiver forms at enrolling institution
- Grandparent Waiver
 - Be admitted as FTIC, undergraduate, degree-seeking
 - Have a grandparent living in FL defined by Statute 1009.21(1)
 - Earn HS diploma comparable to FL standard high school diploma or equivalent, or completes home education program
 - Has an SAT score no lower than 89th percentile or ACT in concordance
 - Must submit required documentation to institution; these are first-come-first-served and not guaranteed
