

**STATE UNIVERSITY SYSTEM OF FLORIDA
BOARD OF GOVERNORS**
March 29, 2023

SUBJECT: Public Notice of Intent to Amend Board of Governors Regulation 3.0075,
Security of Data and Related Information Technology Resources

PROPOSED BOARD ACTION

Consider approval of Public Notice of Intent to Amend Board of Governors Regulation 3.0075, Security of Data and Related Information Technology Resources.

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Article IX, Section 7, Florida Constitution

BACKGROUND INFORMATION

Board of Governors Regulation 3.0075, Security of Data and Related Information Technology Resources, outlines the requirements for information security for the State University System. At the January 24, 2023, committee meeting, Governor Levine directed Board staff to enhance State University System data security by developing a regulation prohibiting the use of Tik Tok and other cyber threats of concern on State University System devices and wireless infrastructure.

The proposed amendment to Regulation 3.0075 directs universities to create and maintain a cyber threat list informed by the Federal Department of Homeland Security, the Federal Bureau of Investigation, and the Florida Fusion Center. The proposed amendment outlines the restrictions of identified cyber threats of concern on university-issued devices and infrastructure.

If approved by the Strategic Planning Committee and the Board of Governors, the amended regulation will be available for public comment for 14 days. If no concerns are raised, the regulation will come before the Board of Governors for final approval at the next meeting.
