Regulation 3.0075 Security of Data & Related Information Technology Resources

Purpose
**Better protect Florida's
digital resources**

Impetus for Action

Governors at the January 2023 Board meeting expressed concern about cyber security

Proposed Amendment

- Use a state-approved cyber threat prohibited technologies list
- For identified threats
 - Prevent use on university networks & prevent installation on university-owned devices
 - Remove from university devices
 - Prevent hardware installation within the university infrastructure
- Outlines process for exceptions

Impact on Institutions

- Universities must remove identified technologies from university network access & all university-owned devices
