INTRODUCTION

The Accountability Plan is an annual report that is closely aligned with the Board of Governors' 2030 System Strategic Plan. In January 2025, the Board approved a new strategic plan, SUS 30. Goals and metrics from SUS 30 will be incorporated into the 2026 Accountability Plan. This report enhances the System's commitment to accountability and strategic planning by fostering greater coordination between University Boards of Trustees and the Board of Governors regarding each institution's direction and priorities as well as performance expectations and outcomes on institutional and System-wide goals.

Once an Accountability Plan is approved by each institution's respective Boards of Trustees, the Board of Governors reviews and considers the plan for approval, excluding those sections of the plans that require additional regulatory or procedural approval pursuant to law or Board regulations.

This System Accountability Plan summarizes the data from each university's Accountability Plan. Interested stakeholders are encouraged to also review each university's Accountability Plan for important narrative information detailing key opportunities and initiatives in the coming years.

Note: The 'System Same' rate does not include the students who transfer between SUS institutions and still graduate within four years – the 'System Any' includes these system transfers. An asterisk (*) is used to note that the Strategic Plan goal for this metric is for 70% of students to graduate from the same institution. The annual System goals are mathematically derived from the institutions' goals. A dot (.) indicates that there is no data.

Note: In alignment with institutional and board strategy, Florida Atlantic is intentionally drawing down carryforward reserves to levels more consistent with peer institutions across the state university system. These funds have been reinvested in deferred maintenance, facilities, and student success initiatives, all of which are mission-critical priorities. While certain key financial performance indicators reflect the short-term impact of these strategic investments, they are expected to normalize as reserves reach their optimal balance.

ACADEMIC PROGRAM REVIEWS

The Board of Governors is required by section 1004.03(1), Florida Statutes, to submit an annual report to the Florida Governor, President of the Florida Senate, and Speaker of the Florida House of Representatives listing new degree program proposals submitted and the results of each review.

As shown in Table 1, during July 1, 2025, and June 1, 2026, 25 new program proposals were submitted for review, and 25 programs were approved. In addition, 15 existing programs were terminated, and new enrollments in 12 existing programs were temporarily suspended.

Note: Full-time Equivalent (FTE) student is a measure of all instructional activity (regardless of fundability) that is based on the number of credit hours for all students during an academic (summer, fall, spring) year. FTE is based on the standard national definition, which divides undergraduate credit hours by 30 and graduate credit hours by 24. Pursuant to section 1013.31, Florida Statutes, Board facilities staff use this data as a key factor in the calculation of facility space needs for university educational plant surveys. The annual System goals are mathematically derived from the institutions' goals and rounded to the nearest ten.

DEFINITIONS

Performance Based Funding (PBF)

PBF-1. Percent of Bachelor's Graduates Enrolled or Employed (\$40,000+) One Year After Graduation:

This metric is based on the percentage of a graduating class of bachelor's degree recipients who are enrolled or employed (earning at least \$40,000) somewhere in the United States. This data includes non-Florida data from all states and districts, including the District of Columbia and Puerto Rico; and military enlistment as reported by the institutions. Students who do not have valid social security numbers and are not found enrolled are excluded. Students not found enrolled following graduation and/or employed are also excluded. Sources: State University Database System (SUDS), Florida Department of Economic Opportunity (DEO) analysis of State Wage Interchange System (SWIS), and National Student Clearinghouse (NSC).

PBF-2. Median Wages of Bachelor's Graduates Employed Full-Time One Year After Graduation: This metric is based on annualized Unemployment Insurance (UI) wage data from the fourth fiscal quarter after graduation for bachelor's recipients. This data does not include individuals who are self-employed, employed by the military, those without a valid social security number, or making less than minimum wage. This data now includes non-Florida data from all states and districts, including the District of Columbia and Puerto Rico. Sources: State University Database System (SUDS) and Florida Department of Economic Opportunity (DEO) analysis of State Wage Interchange System (SWIS).

PBF-3. Cost to the Student Net Tuition & Fees for Resident Undergraduates per 120 Credit Hours:

This metric compares the average sticker price and the average gift aid amount. The sticker price includes: (1) tuition and fees for resident undergraduates; (2) books and supplies (we use a proxy as calculated by the College Board); and (3) the average number of credit hours attempted by students who were admitted as an FTIC student who graduated with a bachelor's degree from a program that requires only 120 credit hours. The gift aid amount includes: (1) financial aid (grants, scholarships, waivers and third-party payments) provided to resident undergraduate students during the most recent academic year; (2) the total number of credit hours for those resident undergraduates. The average gift aid award per credit hour was multiplied by 120 and compared to the sticker price. Sources: State University Database System (SUDS), the Legislature's annual General Appropriations Act, and university required fees as approved by the Florida Board of Governors.

PBF-4. Four Year FTIC Graduation Rate: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-time in their first semester and had graduated from the same institution by the summer term of their fourth year. FTIC includes 'early admit' students who were admitted as a degree-seeking student prior to high school graduation. Students who were enrolled in advanced graduate programs during their 4th year were excluded. Source: State University Database System (SUDS).

PBF-5. Academic Progress Rate [2nd Year Retention with 2.0 GPA or Above]: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-time in their first semester and were still enrolled in the same institution during the next fall term with a grade point average (GPA) of at least 2.0 at the end of their first year (fall, spring, summer). Source: State University Database System (SUDS).

PBF-6: Bachelor's Degrees within Programs of Strategic Emphasis: This metric is based on the number of baccalaureate degrees awarded within the programs designated by the Board of Governors as 'Programs of Strategic Emphasis.' Source: State University Database System (SUDS).

PBF-7: University Access Rate Percent of Undergraduates with a Pell Grant: This metric is based the number of undergraduates enrolled during the fall term who received a Pell Grant during the fall term. Students who were not eligible for Pell Grants (e.g., unclassified, non-resident aliens, post-baccalaureate students) were excluded from the denominator for this metric. Source: State University Database System (SUDS).

PBF-8a: Graduate Degrees within Programs of Strategic Emphasis: This metric is based on the number of graduate degrees awarded within the programs designated by the Board of Governors as 'Programs of Strategic Emphasis.' A student who has multiple majors in the subset of targeted Classification of Instruction Program codes will be counted twice (i.e., double majors are included). Source: State University Database System (SUDS).

Source: State University Database System (SUDS).

PBF-9a: FCS AA Transfer Three-Year Graduation Rate [Full- and part-time students]: This transfer cohort is defined as undergraduates entering in fall term (or summer continuing to fall) from the Florida College System with an Associate in Arts (AA) degree. The rate is the percentage of the initial cohort that has either graduated from the same institution by the summer term of their third academic year. Both full-time and part-time students are used in the calculation. Students who were flagged as enrolled in advanced graduate programs that would not earn a bachelor's degree are excluded. Source: State University Database System (SUDS).

PBF-9b: FTIC Pell Recipient Six-Year Graduation Rate [Full- and Part-time students]: This metric is based on the percentage of first-time-in-college (FTIC) students who started in the fall (or summer continuing to fall) term and were enrolled full-or part-time in their first semester and who received a Pell Grant during their first year (summer to spring) and who graduated from the same institution by the summer term of their sixth year. Cash to Debt: This metric provides an indication of the financial health of the university by showing the base of cash and investments available to respond to unforeseen impacts on pledged revenues. The ratio is calculated by dividing all cash and investments by the total of bonds, leases, SPITA, and loans/notes.

Days Cash on Hand: This metric is a primary indicator of liquidity, measuring how long the university could continue operations if no additional revenues or cash inflows occurred. It is calculated by dividing unrestricted cash and investments by cash operating expenses (excluding non-cash pension expense), then multiplying by 365.

Net Operating Revenues Ratio: This metric reflects the university's operating margin in a given year by dividing adjusted operating surplus by adjusted operating revenues.

Age of Plant Ratio: This metric measures the average age of the university's capital assets, including buildings, infrastructure, and capital equipment. It is calculated by dividing accumulated depreciation by annual depreciation expense.

Return on Net Assets (RONA) Ratio: This metric indicates whether the university is better off financially than it was in the prior year by measuring the percentage increase in total net assets. It is calculated by dividing the change in net assets plus non-cash pension expense by adjusted beginning net assets.

Shared Initiatives Savings: This metric tracks cost savings achieved through coordinated university efforts to maximize efficiencies in the purchase of goods and services.

Percent of Employees in Instruction/Research & Administration: This metric is based on employee FTE, which represents the portion of full-time effort assigned for the length of the contract. It only includes state-funded employees. Percentages are calculated using all state-funded FTE as the denominator, with activity categories including Instruction/Research and Administration. Other categories not shown include Student Support, Services, and Operational Support.

Bond Program Ratings: This metric reflects ratings assigned to a university's bond or debt issuances by nationally recognized credit rating agencies, including S&P Global Ratings, Moody's Investors Service, and Fitch Ratings.

Bond Program Ratings:

Full-Time Equivalent Enrollment by Course Level: This table reports full-time Equivalent (FTE) enrollment, which is a measure of all instructional activity, regardless of fundability, that is based on the number of credit hours that students enroll. This FTE calculation is based on the Integrated Postsecondary Education Data System (IPEDS) definition, which divides undergraduate credit hours by 30 and graduate credit hours by 24. Pursuant to Section 1013.31, Florida Statutes, Board facilities staff use this data as a key factor in the calculation of facility space needs for institution educational plant surveys. Percent FTE Enrollment by Method of Instruction: This table reports the percentages of FTE enrollment that is classified as Distance Learning for all students at all campuses regardless of funding source. Distance Learning is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both per Section 1009.24(17), Florida Statutes). Effective for the fall 2020 term, Board staff added a new FLEX value to capture the course sections in which there is a mix of modalities within the same course section that allows students the option to switch between the modalities during the term. Course sections with mixed modalities that are predetermined/scheduled by the instructor at the start of the term to accommodate classroom capacity constraints and result in all students in the section having the same percentages of remote work is not a FLEX section and are considered one of the traditional non-FLEX designations. These designations account for planned adjustments to academic calendars (like being remote after thanksgiving or spring break) that are known at the beginning of the term. Unexpected adjustments to the academic calendar are not captured by these designations. FLEX courses start the term as FLEX. No academic calendar adjustment can change a non-FLEX into a FLEX. Non-Resident Undergraduate Enrollment Rate: This table reports the percentage of undergraduates enrolled who are considered non-residents pursuant to Board Regulation 7.006. Source: State University Database System (SUDS).
