Executive Summary

In January 2014, the Board of Governors (Board) adopted the Performance-Based Funding Model (PBF). Proviso language in the General Appropriations Act directed the Board to allocate performance funds based on certain metrics. In 2015, section 1001.92 of the Florida Statutes, which relates to State University System Performance-Based Incentives, was created. The Board then created Regulation 5.001, Performance-Based Funding. After the model's implementation 13 years ago, funding increased significantly during the initial years and has remained stable for the last four years.

Fiscal Year	State Investment	Institutional Investment	Total
2014-15	\$100,000,000	\$100,000,000	\$200,000,000
2015-16	\$150,000,000	\$250,000,000	\$400,000,000
2016-17	\$225,000,000	\$275,000,000	\$500,000,000
2017-18	\$245,000,000	\$275,000,000	\$520,000,000
2018-19 – 2022-23	\$265,000,000	\$295,000,000	\$560,000,000
2023-24 – 2026-27	\$350,000,000	\$295,000,000	\$645,000,000

Improvements

In the 13 years since the Performance-Based Funding Model was implemented, universities have made significant improvements in most metrics. While metric 7 scores remain consistent with Florida's population, all other metrics continue to show year-over-year improvements.

- **Metric 3 (Average Cost to the Student/Net Tuition and Fees per 120 Credit Hours)** has seen over a 100% decrease since 2013-14. Currently, the SUS Average Cost to the Student is negative \$1,690 after financial aid is applied. This implies that, on average, students in the System receive a refund each term rather than paying out of pocket.
- **Metric 5 (Academic Progress Rate, 2nd Year Retention with a GPA above 2.0)** continues to improve. The SUS average for this metric is nearly 91%.
- **Metrics 9a (Three-Year Graduation Rate for Associate in Arts Degree Transfer Students) and 9b (Six-Year Graduation Rate for Students who are Awarded a Pell Grant in their First Year)** are also showing improvements. Metric 9a is up by almost 3% year-over-year with an SUS average of 66.0%, and Metric 9b is up 1% with an SUS average of 72.3%.

Metric 1 (Percent of Bachelor’s Graduates Employed (\$40,000+) and/or Continuing their Education Further One Year after Graduation) has increased 9% since 2019-20, when the wage threshold was increased to \$40,000. Metric 1 is an original metric from the first year PBF existed and remains a top priority for the Board. The 2030 Strategic Plan has set the goal for this metric at 85%.

Metric 2 (Median Wages of Bachelor’s Graduates Employed Full-Time One Year after Graduation) has also seen significant increases. In four years, the system has seen an average wage increase of over \$10,000. Metric 2 is also one of the original metrics from the first year PBF existed and continues to be a top priority of the Board today. The 2030 Strategic Plan has set a goal of \$60,000 for this metric.

Metric 4 (Four-Year Graduation Rate, Full-time First Time in College) continues to show improvement. The Board and the institutions have prioritized improving graduation rates for over a decade. Over 66% of all SUS students graduate in 4 years or less. This metric had previously surpassed the 2025 Strategic Plan goal of 60%. The 2030 Strategic Plan has set a 70% goal for this metric.

Changes to the Model

An updated Programs of Strategic Emphasis (PSE) list was approved by the Board of Governors on November 9, 2023, and went into effect for the 2024-25 Academic Year. The number of programs on the PSE list was dramatically reduced compared to prior years, and the changes generally resulted in lower PBF metric 6 and 8a scores. This is the first year those changes have affected Performance-Funding Model outcomes. Metrics 6 & 8a benchmarks were adjusted in November 2025, and final scores for this year, as with prior modifications impacting the model, have been normalized to hold institutions harmless as the System adjusts to the new list of target programs. The PSE list must be reviewed every 3 years per statute, and the next review is taking place this year.

Normalization

When significant changes are made to the Performance-Based Funding model, its scoring methods, or its inputs, affected metrics are normalized to prevent institutions from being unfairly penalized during the transition. For each affected metric, scores are calculated twice - once using the previous methodology and once using the revised methodology. The higher of the two scores is used as the institution's final score for that metric.

This year, Metrics 6 and 8a were affected by the changes to the PSE list described previously. Therefore, normalized scores were used in the final scoring for both metrics.

Student Success Plan(s)

No universities are required to present or complete a student success plan this year since no institution scored below 70 points.

Watch List

Any institution with a score lower than the previous year's score **for two consecutive years** must submit a student success plan to the Board to be eligible for its proportional amount of the state investment. **There are no institutions that meet this condition this year.** Procedurally, if any schools fell into this category, the institution would not lose any funds; however, the Board would hold the funds in reserve until a plan was submitted to the Board at the September meeting. Such a plan should specify activities and strategies for improving the institution's performance. If the plan were approved, the institution would receive up to 50% of its portion of the state investment at the time of approval. A monitoring report for the institution would then be considered by the Board at the March meeting. If it were determined that the institution was making satisfactory progress in implementing the plan, the institution would receive the remaining balance of its state's investment.

Florida Agricultural and Mechanical University and New College of Florida are on the watch list this year, as their scores are lower than last year's. **If their scores drop again next year**, they will be required to submit a student success plan as described above.

For the 2025-26 Fiscal Year, FAU was the only institution on the watchlist. FAU's scores increased in the current year.

Allocation Methodology

- ❖ Top 3 (including ties) receive 100% of their allocation of state investment.
- ❖ Universities with a score the same or higher as the previous year receive 100% of their allocation of the state investment.
- ❖ If a university's score decreases for 2 consecutive years, the university may receive up to 100% of its allocation of the state investment after presenting/completing a student success plan:
 - The university must present a student success plan to the Board; if the plan is accepted by the Board, the university may receive up to 50% of its allocation in August.
 - If goals are met, the university may receive up to the balance of its allocation of the state investment 6 months after the student success plan is presented (March).
- ❖ Universities scoring below 70 points could receive up to 50% of the state investment after presenting/completing a student success plan:
 - The university must present a student success plan to the Board; if the plan is accepted by the Board, the university may receive up to half of its allocation of the state investment 6 months after the student success plan is presented (March).
 - Any institution that fails to make satisfactory progress shall not have its 50% of the state's investment restored, and any state investment funds remaining shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.
- ❖ The remaining 50% of each institution's state's investment shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.

Score Status

	2024 Score	2025 Score	2026 Score*	Status
FAMU	72	83	72/80	Watchlist
FAU	84	76	77/80	Increase
FGCU	63	67	69/73	Increase
FIU	96	96	91/97	Top 3

FSU	89	91	89/93	Increase
NCF	71	80	75/75	Watchlist
UCF	85	87	89/91	Increase
UF	92	94	88/96	Top 3
UNF	76	81	83/86	Increase
USF	89	89	95/95	Top 3
UWF	84	91	92/93	Increase

*Actual Score / Normalized Score

Drop (2 years): None

If a university's score decreases for two consecutive years, the university may receive up to 100% of its allocation of the state investment after presenting/completing a student success plan. For the current year, no scores have dropped for two consecutive years.

Score below 70: None

If a university's score is lower than 70 points, the university may receive up to 50% of its allocation of the state investment after presenting/completing a student success plan.

Watch list: FAMU and NCF

If either of these institutions' scores decrease again next year, the university may receive up to 100% of its state investment allocation after presenting/completing a student success plan. Both universities on the watch list this year have a 1-year drop in score.

Top 3: FIU, UF, and USF

The remaining funds, if any, of each institution's state investment shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.

2026-2027 Performance-Based Funding Model Allocations

	July 2026 Allocation				
	2025 Score	2026 Score	Institutional Investment Allocation	State Investment Allocation	Final Total Allocation
FAMU	83	80	\$12,776,335	\$15,158,364	\$27,934,699
FAU	76	80	\$19,703,545	\$23,377,088	\$43,080,633
