Article IX, Section 7, Florida Constitution; Sections 1003.25 and 1006.601, Florida Statutes

BACKGROUND INFORMATION

During the 2026 session, the Florida Legislature passed postsecondary campus safety legislation, HB 757, which the Governor approved on May 15, 2026. The legislation establishes several provisions intended to equip postsecondary institutions with the tools and resources needed to enhance campus safety for students, faculty, and staff at Florida's public postsecondary institutions.

The Board of Governors is required to adopt a regulation to implement the provisions of HB 757. Board staff propose a new regulation, Regulation 3.0015, Campus Safety and Security. The proposed regulation establishes operational definitions of key terms and provides additional detail for consistent implementation Systemwide. The proposed regulation outlines implementation requirements for suspicious activity reporting tools, response plans, student mental health, and security risk assessments. The proposed regulation establishes a framework for behavioral threat assessment and a process to facilitate the transfer of educational records between public institutions in the State of Florida.

If approved by the Campus Safety and Student Success Committee and the Board of Governors, the proposed regulation will be available for public comment for 14 days. If no concerns are raised during this time, the regulation will come before the Board of Governors for final approval at the next meeting.
