PROPOSED BOARD ACTION

Consider approval of Public Notice of Approval of Amendment to Board of Governors' Regulation 1.001, University Board of Trustees Power and Duties.

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Article IX, Section 7, Florida Constitution

BACKGROUND INFORMATION

Board of Governors' Regulation 1.001, University Board of Trustees Powers and Duties, establishes the composition, organization, and authority of a university board of trustees and requires each board to establish a personnel program for all university employees, including the president.

Board staff propose an amendment to Regulation 1.001 to require university boards of trustees to adopt policies that maintain institutional neutrality when addressing contentious political and social issues. The proposed amendment also requires university boards of trustees to establish policies requiring all course syllabi to include a disclosure of faculty use and permitted student use of artificial intelligence.

The Board approved the public notice of intent to amend this regulation on September 3, 2026. Public comments were received; however, no changes were made to the proposed amendment. The amended regulation is ready for final approval.
