

Spring 2020 Proposed Doctoral Programs

Dr. Traki L. Taylor

Assistant Vice Chancellor for Academic Affairs

July 21, 2020

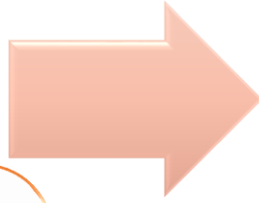

www.flbog.edu

Program Approval Criteria

Accountability

- Strategic plan alignment
- Workforce demand
- Academic Program Coordination
- Fiscal responsibility
- Benefit of the Program to the University, Local Community, and State

Readiness

- Program Quality Indicators
- Appropriate Curriculum for the Discipline and Program Level
- Sufficient Availability of Qualified Faculty
- Sufficient Availability of Institutional Resources

**Ph.D. in Transportation and
Environmental Engineering
CIP 14.9999, Fall 2020**

Florida Atlantic University

Purpose & Need

Purpose: Meet critical emerging workforce need for engineers trained in both transportation and environmental systems, specializing in the nexus of mobility and environmental sustainability, first of its kind in the country

Program of Strategic Emphasis: STEM

Workforce Need: Senior engineers in regulatory agencies, research laboratories, academia, and specialized job functions in engineering, management, government, and consulting

Program Resources: The university has sufficient faculty resources and facilities to implement the program

Program Budget Overview: The total program cost to the institution in year one is \$293,916 and will be funded through E&G and C&G

Tuition: FAU will charge the standard graduate tuition & fees

- \$396 per credit hour for resident students
- \$1,024 per credit hour for nonresident students

Doctor of Design
CIP 04.0902, Spring 2021

Florida International University

Purpose: Train candidates for key leadership positions in design investigation and in the growing related technology fields

Program of Strategic Emphasis: STEM

Workforce Need: Architecture careers in design, industry, applied research, teaching, and leadership positions in public agencies and municipalities

Program Resources: The university has sufficient faculty resources and facilities to implement the program

Program Budget Overview: The total program cost to the institution in year one is \$58,610 and will be funded through E&G and P&E

Tuition: FIU will charge the standard graduate tuition & fees

- \$456 per credit hour for resident students
- \$1,002 per credit hour for nonresident students

Doctor of Nurse Anesthesia Practice

CIP 51.3804, Summer 2021

Florida State University

Program Purpose: Provide students with the skills necessary to be successful Certified Registered Nurse Anesthetists (CRNA)

Program of Strategic Emphasis: Critical Workforce-Health

Workforce Need: Certified Registered Nurse Anesthetist

Program Resource: The university has sufficient faculty resources and facilities to implement the program

Program Budget Overview: The total program cost to the institution in year one is \$1,164,000 and will be funded through E&G, reallocated from the current Master of Science in Nursing Anesthesia

Tuition: FSU will charge a flat rate of \$9,500 per semester, including fees, for both resident and nonresident students

Ed.D. in Curriculum and Instruction

CIP 13.0301, Spring 2021

University of North Florida

Program Purpose: Prepare scholarly practitioners who possess the advanced curriculum and instructional knowledge, skills, and dispositions needed to work and lead in today's PK-12 school systems

Program of Strategic Emphasis: Critical Workforce-Education

Workforce Need: PK-12 and district administrators, teacher leaders, instructional coaches, curriculum specialists, curriculum designers, and consultants for companies that design curriculum materials

Program Resources: The university has sufficient faculty resources and facilities to implement the program

Program Budget Overview: The total program cost to the institution in year one is \$121,933 and will be funded through E&G

Tuition: UNF will charge the standard graduate tuition & fees

- \$493 per credit hour for resident students
- \$1,044 per credit hour for nonresident students
