

**STATE UNIVERSITY SYSTEM OF FLORIDA
BOARD OF GOVERNORS**

March 24, 2011

SUBJECT: Limited Access Request for Bachelor of Health Science Concentration in Exercise Science at the University of North Florida

PROPOSED ACTION

Consider Approval of the Limited Access Request for the Bachelor of Health Science Concentration in Exercise Science at the University of North Florida (CIP 51.0000)

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Article IX, Section 7, Florida Constitution; Board of Governors Regulation 8.013

BACKGROUND INFORMATION

Regulation 8.013 requires that Limited Access status for baccalaureate programs be approved by the Board of Governors. A program may be considered for Limited Access status if (1) the number of students who have met all the requirements for admission to the university and to the program exceeds available resources such as space, equipment, other instructional facilities, clinical facilities, or adequate faculty; (2) the program is of such a nature (normally in the fine or performing arts) that applicants must demonstrate that they already have the minimum skills necessary to benefit from the program; or (3) the program is of such a nature that, in order to be successful, applicants must demonstrate higher academic preparation than is required for admission to the university offering the program.

The University of North Florida's (UNF) Board of Trustees approved Limited Access status for the Bachelor of Science in Dietetics at its meeting on January 18, 2011. This action is requested because of limited faculty resources. Proposed minimum admission standards into the program include a 2.75 GPA, a B grade in prerequisites, and passing the Test of Essential Academic Skills (TEAS). If the proposal is approved, UNF plans to implement Limited Access Status, effective Fall 2011.
