BOARD OF GOVERNORS
Budget and Finance Committee
February 10, 2011

SUBJECT: University Fee and Market Tuition Proposals

PROPOSED COMMITTEE ACTION

The Committee will consider university fee and market tuition proposals.

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Article IX, Subsection 7, Florida Constitution; Board Regulations 7.001 and 7.003

BACKGROUND INFORMATION

The Board and the universities worked during the summer and fall of 2010 to develop regulations for the review and implementation of university fee and flexible tuition proposals. The Boards work cumulated in the revision of Regulations 7.001 and 7.003.

University proposals were submitted on January 12. Seven universities are requesting a new fee and one university is requesting an increase to an existing fee that has a statutory cap. In addition, four universities have requested market tuition for a total of 18 degree programs.

Each university proposal is included in this packet. In addition, every university was requested to provide tuition and fee projection estimates for the next four years. These projections are not binding, but they provide a snapshot of potential increases a university may be considering at this time.

Supporting Documentation Included:	<ol style="list-style-type: none">1. Summary of fee and market tuition proposals2. Excerpt of Regulations 7.001 and 7.0033. University fee and market tuition proposals, including tuition and fee projections
