CONFIDENTIAL – TRADE SECRET INFORMATION

ITEM: FP-1

University of Central Florida
Board of Trustees

SUBJECT: 2010-11 Capital Outlay Budget

DATE: May 20, 2010

PROPOSED BOARD ACTION

1) Approval of the university's 2010-11 capital outlay budget

2) Authorization for the president to make necessary adjustments to the 2010-11 capital outlay budget

BACKGROUND INFORMATION

Pursuant to 1013.61, Florida Statutes, each university board of trustees must adopt an annual capital outlay budget that designates proposed expenditures by project. The attachment lists the projects approved during the legislative session and is subject to final approval by the governor. We request approval of the attached budget and authorization for the president to make changes to this budget as necessary during the year.

Minutes
Board of Trustees Teleconference Meeting
University of Central Florida
July 22, 2010

Chair Rick Walsh called the meeting of the Board of Trustees to order at 12:47 p.m. in the President's Board Room, Millican Hall, on the UCF Orlando campus.

The following members attended the meeting: Trustee Klock and Vice Chair and Trustee Yochum.

The following members attended the meeting via teleconferencing: Trustees Atchison, Calvet, Cook, Gilley, Grindstaff, Kilbride, Mantilla, and Rosen.

WELCOME

Chair Walsh welcomed the board members and called on Dr. Rick Schell, Vice President and Chief of Staff, to call roll. Schell determined that a quorum was present.

Chair Walsh called for approval of the May 20, 2010, and June 23, 2010, board meeting minutes, which were approved as written.

Chair Walsh called on President John Hitt for remarks and introductions.

REMARKS

President Hitt announced that final registration numbers for the summer term showed a 5.5 percent increase in headcount to 34,434. Credit hours for summer increased by 6.61 percent to 218,454. The fall enrollment headcount increased by 5.83 percent, and credit hours increased by 6.29 percent.

Hitt reported that contracts and grants for 2009-10 exceeded all expectations. M.J. Soileau, Vice President for Research and Commercialization, reported that the unaudited bookings were $133.3 million compared to $121.9 million last year, an increase of approximately 9.1 percent. Leading the way is the Florida Solar Energy Center with more than $21 million in contract and grant activity.

Hitt noted that the NCAA Academic Progress Rates were released last month. UCF's football program ranked second in the state behind the University of Miami.

Hitt noted that the Council for Advancement and Support of Education had awarded UCF News & Information a first-place national award in the "Issues and Crisis Management" category for communications about state-mandated budget cuts during 2009-10.

Finally, Hitt announced that notice had been received from the Board of Governors to prepare for a budget cut of five percent in January. He reported that for the next fiscal year, the university will model a 15 percent cut.

CONSENT AGENDA

A motion was made to accept the consent agenda, and members of the board approved or concurred with the following actions.

- **COMP-1 Compensation and Labor Committee Report and Recommendations –** Approval of the Compensation and Labor Committee's report on the Performance Unit Plan and the recommendation to pay the balance owed to participants for the 2006-09 cycle.

- **EP-1 Conferral of Degrees –** Concurrence with the conferral of degrees at the Summer 2010 commencement ceremonies:

  2,394 baccalaureate degrees
  515 master's degrees
  145 doctoral and specialist degrees
  3,054 Total

- **EP-2 New Degree Program Proposals –** Approval of the following new program degree proposals:
  a. Conservation Biology, P.S.M.
  b. Urban and Regional Planning, M.S.

- **FIN-1 Revision to UCF-9.002 Tuition Remission for Graduate Assistants and Fellows –** Approval to revise UCF-9.002 Tuition Remission for Graduate Assistants and Fellows with a provision to award Peace Corps Fellowships with an out-of-state fee of $0.00.

- **FIN-2** and **FP-2 Five-year Capital Improvement Plan –** Approval of the Five-year Capital Improvement Plan for 2011-12 through 2015-16.

- **FIN-4 Direct Support Organizations' 2010-11 Budgets –** Approval of the proposed 2010-11 budgets of the direct support organizations.

- **FP-1 Rename the Campus Police Building the Emergency Operations Center –** Approval to rename the Campus Police Building the Emergency Operations Center.

- **FP-3 – Minor Amendment to 2010 Campus Master Plan –** Approval of a minor amendment to the University of Central Florida Campus Master Plan to add a new heat and power facility.

ADVANCEMENT COMMITTEE REPORT

There was no report for the Advancement Committee.

AUDIT AND OPERATIONS REVIEW COMMITTEE REPORT

There was no report for the Audit and Operations Review Committee.

004

COMPENSATION AND LABOR AD HOC COMMITTEE REPORT

There was no report for the Compensation and Labor Ad Hoc Committee.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Trustee Ida Cook, Vice Chair of the Educational Programs Committee, reported the highlights from the committee meeting earlier in the day.

- The board approved two new degree proposals, the Professional Science Master's in Conservation Biology degree and the Master of Science in Urban and Regional Planning degree.
- The board concurred with the conferral of degrees at the Summer 2010 commencement ceremonies.
- Effective July 1, 2010, the Department of Criminal Justice and Legal Studies in the College of Health and Public Affairs will be two departments. The Department of Criminal Justice will be chaired by Dr. Robert Langworthy. Dr. Pamela Kirby will be interim chair of the Department of Legal Studies.

FACILITIES PLANNING COMMITTEE REPORT

Trustee Micky Grindstaff, Chair of the Facilities Planning Committee, reported the highlights from the committee meeting earlier in the day.

- The committee approved the renaming of the Campus Police Building the Emergency Operations Center.
- The Five-year Capital Improvement Plan was approved for 2011-12 through 2015-16.
- A minor amendment to the 2010 University of Central Florida Campus Master Plan was approved to add a new heat and power facility.

FINANCE COMMITTEE REPORT

William Merck, Vice President for Administration and Finance, reported the highlights from the Finance Committee meeting of June 23, 2010.

- Approval of the Five-year Capital Improvement Plan for 2011-12 through 2015-16.
- Terry Hickey, Provost and Executive Vice President, reported on the technology fee allocations.

Vice President Merck presented the following item for board approval.

- **FIN-3 2010-11 Golden Knights Corporation Release of Reserves for FY 2010-11 to UCFAA –** A motion was made and passed by the board approving the release of revenues above budgeted obligations from the Golden Knights Corporation to the UCF Athletics Association for FY 2010-11. The 2010-11 Golden Knights Corporation budget reflects projected unrestricted excess revenues of $2,347,891 to be available for transfer to UCFAA as they become available.

005

Merck also reported that the Finance Committee met on July 7, 2010, to approve all of the proposed direct support organizations' 2010-11 operating budgets.

GOVERNANCE COMMITTEE REPORT

There was no report for the Governance Committee.

STRATEGIC PLANNING COMMITTEE REPORT

There was no report for the Strategic Planning Committee.

NEW BUSINESS

Trustee Michael Kilbride reported that the Board of Governors held a workgroup meeting to discuss new fees. The Board of Governors workgroup suggested that new fee recommendations should include substantial student involvement. Merck indicated that UCF has a well-developed fee committee process whereby students make up half of the fee committee membership.

ANNOUNCEMENTS AND ADJOURNMENT

Chair Walsh made the following announcements.

The next Board of Governors meeting is scheduled for September 15-16 at the University of North Florida, Jacksonville.

The next Board of Trustees meeting will be September 23 in the Live Oak Center on the UCF Orlando campus.

Chair Walsh adjourned the board meeting at 1:07 p.m.

Respectfully submitted: _____Date: _____
John C. Hitt
Corporate Secretary

MEMORANDUM OF UNDERSTANDING
USE OF FUNDS

The following memorandum ("MOU") sets forth the understanding between the University President at the University of Central Florida ("President") and the Vice President for Administration and Finance and Chief Financial Officer at the University of Central Florida ("VP Administration") regarding the use of funds to be made in support of the University of Central Florida purchase of a Combined Heat & Power (CHP) Plant System from Mitsubishi.

1. **Use of Funds:** The Administration hereby expresses its intent to make available for the University's President's use, in connection with the purchase of a Combined Heat & Power (CHP) Plant System from Mitsubishi, the amount of Six Million Eight Hundred thousand dollars ($6,800,000.00).

2. **Repayment:** The Division of Administration and Finance will repay the funds from savings generated from its energy account in the amount of Six Million Eight Hundred thousand dollars ($6,800,000.00) plus interest which shall accrue at a fixed rate of two percent (2.00%) per annum for each separate release of funds provided the project. Payments shall be made in annual installments of principal and interest with the first payment due on December 31, 2012, and each additional payment due December 31, of each consecutive year. The maturity of the outstanding principal and additional accrued interest is payable in full December 31, 2016. The outstanding balance may be prepaid in whole or at any time without penalty. Administration, in its sole discretion, may accept a lesser amount of interest as full satisfaction for the use of funds.

3. **Purpose:** The use of funds will assist with the completion of a CHP Plant System and will benefit the University of Central Florida allowing the generation of electricity at a lower cost and with less greenhouse gas emissions.

4. **Applicable Law:** This MOU will be construed in accordance with, and the administration of the contribution received herein shall be pursuant to the laws of the State of Florida.

IN WITNESS WHEREOF, each of the undersigned as duly authorized and validly existing representatives of the University of Central Florida have executed this MOU on the date as indicated below.

[1] The university's 2012-13 statutory reserve requirement is approximately $21 million. The recurring reserve for 2013-14 is estimated to be $46.5 million. This estimate consists of the available recurring reserve of $11.2 million, plus $35.3 million of recurring funds allocated on a non recurring basis to offset the budget reduction. This estimate includes $8.3 million based on projected enrollment growth of 3%. Actual enrollment growth may differ from this estimate.

Importance:	High

Budget Directors,

In preparation for the upcoming Legislative session, our office will begin collecting unexpended E&G carryforward balance information beginning with the September 30, 2012, amounts.

For the first two quarters of the fiscal year, unexpended balance reports will be collected as follows :

1. As of September 30, 2012 : Unexpended E&G carryforward amount at the end of 2012-2013 quarter one, report will be due on October 5, 2012.

2. As of December 31, 2012 : Unexpended E&G carryforward amount at the end of 2012-2013 quarter two, report will be due on January 7, 2013.

Then, for the balance of fiscal year 2012-2013 :

3. Subsequent reports will be requested for each month end, for the periods January 31, 2013 through June 30, 2013.

We will ask that you submit this information to SUS-Submissions@flbog.edu no later than five (5) business days after the last day of the reporting month. A draft version of the report template is attached for your review and comments.

No information is due at this time. This correspondence is only intended to put you on alert and to give you the opportunity to ask questions or provide any feedback that you may have. In a few weeks, there will be a memorandum forthcoming from Tim Jones through Gene Kovacs that will officially request this information. In the meantime, if you have any questions or comments, please contact us by September 21, 2012.

***Important note** : The unexpended carryforward balance at the end of the reporting period should be calculated as the beginning E&G fund balance amount (as of July 1, 2012) provided by your university as a component of your annual operating budget submission, less any expenditures from university carryforward (only) funds through the reporting date. Do not include any effect of the current year's (2012-2013) appropriations on the balance, such as anticipated additions to your E&G carryforward balance at June 30, 2013.

Thank you, and please contact me or Dale Bradley (dale.bradley@flbog.edu, 850-245-9392) if you have any questions regarding this data request.

The Carryforward dept's to use for these budget transfers are 02500710 for $375,000 and 02800703 for $10,853,000 for the Combined Heat and Power Plant. Glen will give you the back-up for the $10,853,000, which includes the final costs expected to complete to project, as well as the current outstanding amounts.

Thanks.

Subject: Carry forward expenditures and allocations from reserve
Importance: High

Tony, Lynn:

During one of our budget meetings several weeks ago, we discussed using carry forward funds for the following items:

- The Combined Heat and Power Plant (CHP)
- E&G salaries in F&A that are currently funded by late fees

Bill and I discussed these items this morning and would like to move forward with recording these expenditures so they will be reflected in the September 30 carry forward balance we must report to the BOG in early October. Tracy will send an email requesting authorization to move budget for these expenditures. She will provide the exact amounts involved, but the CHP is approximately $9.7 million and the F&A salaries for the first quarter are around $377K. The CHP expenditures will be replenished with energy savings over several years. The late fees that would have been used for the E&G salaries in F&A will be recorded as part of university resources available for future use.

Please let me know if you have any questions.

Thanks.

Vanessa

Dr. Waldrop,

Please approve the transfer of $10,853,000 from the central carry forward (department 00010107) to A&F (department 02800703). This amount relates to the Combined Heat and Power Plant (CHP).

This will be recorded as a temporary increase to A&F's base budget.

Thank you,

MITSUBISHI HITACHI POWER SYSTEMS

OSC-F900-FS Rev 8.0

EXTRA WORK AUTHORIZATION FORM

CUSTOMER: University of Central Florida

CHANGE NOTICE #: 0

SITE: CHP Plant

UNIT: Gas Engine

DATE: 5/29/2015

PO #:

PROJECT # TBD

Total Firm Billing Amount $ [redacted]

EXTRA-WORK OR DELAY DESCRIPTION:

EW DESCRIPTION: MPSA-QTO-11430-rev 4 Contract Extension

WORK-SCOPE:

This serves as a one (1) time contract extension to MPSA-QTO-11430-rev4 to provide parts, service and RMC support to the UCF CHP Plant Gas Engine. This extension shall commence June 1, 2015 and expire on the earlier of either the execution of the 24,000 hour service or May 31st, 2016. The terms and conditions shall remain the same as outlined in MPSA-QTO-11420-rev4. This extension is to include four (4) quarterly payments [redacted] (shown in 2015 dollars for estimating purposesd, to be escalated per MPSA-QTO-11430-rev4).

Combined Heat & Power Plant
Contract #MPSA-QTO-11420-rev4
March 22, 2016

Background:
The department of Sustainability and Energy Management (now Utilities & Energy Services) entered into an agreement with Mitsubishi Power Systems Americas (MPSA), *contract #MPSA_QTO-11430-rev 4,* in 2012 to cover a proprietary parts and service maintenance to UCF's cogeneration plant. The 56-page contract covers T&C's, schedules, parts and labor for both planned and unplanned maintenance. The term of the contract is three years, or 24,000 run hours of scheduled service, whichever occurs first.

Since execution of the contract in May 2012, the plant suffered a catastrophic generator failure (September 2012) during functional testing. This event occurred while still under construction and contract direction with our installation and supply contractor, MPSA. As a result, this failure delayed turnover of the plant to UCF until January 18, 2013, causing a seven-month delay from our service contract start.

Furthermore, the plant suffered two more catastrophic failures since turnover (January 18, 2013) including failure of the engine's turbo charger in December of 2014. As a result, the plant was down for two (2) months; followed by a second catastrophic generator failure (June 26, 2015) which took the plant down for four (4) additional months. While the OEM honored the generator failure with a new stator, at no cost to UCF with the June 26th 2015 incident; UCF lost "time" on the contract with the plant not running. UCF also lost generation revenue during the plant's downtime.

The department also lost significant recovery opportunity with the Traveler's Insurance claim to the turbo charger failure in 2014. The department paid in excess of $590K from our auxiliary utility account (revenue) to restore the unit back to service with no re-imbursement coverage from the insurance, or funding request support from administration.

Today, the engine has 20,500 run hours on the plant. Since parts and supply chain are produced and shipped from Yokohama, Japan, MHPSA keeps an inventory of emergent and long lead time capital spares, and scheduled outage replacements parts on hand to cover up to the 24,000-hour plant outage. In order to move forward with the remainder of the contract items set forth in the original contract, Mitsubishi Hitachi Power Systems America (MHPSA), formally MPSA, issued an Extra Work Order in September 2015, to amend the remainder of the contract outage term (24,000 run hours) with the same terms and conditions of MPSA-QTO-11430-rev 4, with the understanding we were going to be down for a period of time with the latest generator failure. By doing so, allowed the department to keep the outage installations moving forward until the new contract could be written for the next 24,000-hour contract interval. *This contract is currently in underwriting by Mitsubishi Hitachi Power Systems America (MHPSA) and will be provided to purchasing in the next 30-45 days for review and comment.*

Per the MPSA contract pg. 13/56

Outage Assumptions and Delays:

> *"The pricing included in this proposal assumes a minimum of 8000 hours of operation per year, and the completion of 4 scheduled outages per year. In the event of limited operation to the CHP plant, that results in a delay to the scheduled inspections beyond the assumptions above, MPSA reserves the right to invoice for any Planned Engine Parts delivered to the MPSA facility for the upcoming scheduled inspections."*

The generator is excluded from the scope of contract service and therefore delays were not a result of MHPSA this past fall.

To illustrate further, each FY the department of UES opens two blanket PO's to cover MHPSA's scheduled and unscheduled maintenance (UCF01-000031678) with a beginning balance of $1000 respectively. This is large in part due to the monthly cash flows supported by the auxiliary, as this account was also used to pay all of UCF's campuses' electric and gas bills. All campus utilities overseen by UES, including the CHP, are operated as a campus auxiliary. All associated costs are debited and credited from this same account. Up until late 2015, F&A had allowed each utility auxiliary account to open the FY with a balance and budget tolerance based on the previous year's revenue at FY end.

In addition, UES had also entered a MOU with Mr. Merck's office to payback the plant loan with annual installments of $1MM+. This transfer is completed in August each year. To date, UES has paid back $2.3MM on the loan.

Encumbering the entire scheduled value of $433,785.32 up front in July of 2015, would have restricted the cash flow available to have successful operations and paying utility bills on time in the beginning of the FY; until a month of generation revenue was available in the new FY. This was not possible as the CHP generator failed on 6/26/15 and was down for four months without a revenue generation source.

This has since been addressed by UES in conjunction with the F&S BO. For this reason, the blanket PO for scheduled and unscheduled work was created for diversified billing purposes.

Additionally, changes were made within the UES utility budget:

1. F&A is now going to issue all utility budgets for the 04' account up front at the beginning of each FY, starting FY 16-17' – cash flow will no longer be a constraint in the first operating month, as we can now encumber the entire year up front for planned maintenance intervals.
2. F&A provided the remainder of the FY 15-16' utility budget in late 2015. This enabled the department (without generation) a vehicle to process plant maintenance cost.

3. UES and F&S BO supported justification to F&A to provide a natural gas utility account to reduce cash flow constraints, as each utility bill rendered had different billing cycles between natural gas and electric. This was also granted this FY. The utility gas account number is 02830325.

Under the circumstances listed above, it was our department's understanding that by having an approved contract by UCF's General Counsel and Purchasing Department in conjunction with an open blanket PO, and the department was complying with purchasing guidelines. We had a PO in place prior to the work being executed (in our case scheduled draws) and work was conducted within guidelines of the contract. The change ordered amount requested in REQ 000375079 in the amount of $325,338.99 was greater then the value of $1,000 on the FY blanket PO. However, the verbiage from the PO states:

> *"Exempt from competition due to proprietary equipment, service and labor (FY15-16). This blanket PO will be used for scheduled preventive maintenance of the Combined Heat and Power Plant (CHP). Reference MPS-UCF contract MPSA-QTO-11430-rev 4 (attached). The Utilities and Energy Services Department will submit change orders as required for the proprietary labor and materials to maintain the purchased equipment. See attached Contract dated 5/29/2015 for further justification."*

Our position stands that we disagree this work was conducted "after the fact," which implies wrong-doing, negligence, and / or malicious intent without a purchasing mechanism. None of which occurred. The issue was related to an internal process and business paradigm that did not match the cash flow at the beginning of the FY required to support the operation; coupled with a plant generator catastrophic failure. There is no question, the utility business model here at UCF is very dynamic with many variables, that are subject to change. The utility was established in 2013 and together, with BO and F&A, we have made great strides and improvements for operational efficiency and sustainable operations.

Contract Extension:

Due to the fact the contract expired in May of 2015, and the engine had not achieved the run hours outlined in the original contract of 24,000 run hours, combined with yet another generator failure; we could not meet the outage requirements of the contract term. UCF's plant had ~17,000 run hours at this point in May 2015, coupled with the generator failure of 6/26/15, the department submitted a blanket PO requisition in the amount of $1000 with an unsigned contract extension in September of 2015 to purchasing, to cover the draw amounts per the contract T&C's up to 24,000 run hours or May 31st, 2016, whichever occurred first. Since the agreement did not change the T&C's and referenced the existing contract, the department was under the impression this was a valid approach until a new contract would be executed for the next 24,000 run-hour cycle. Purchasing stated since this was not reviewed by legal and did not have proper signature authority that this is now an unauthorized purchase.

Moving Forward:
As a reminder, any time the plant is off line or generating below 5.5megawatts, the university pays a significant premium in penalty to the utility for standby energy and demand charges, in addition to the loss of revenue. UES needs to be able to carry out work 24/7 – 365 days a year. Each day the plant is down cost UCF $14-20K.

Conversely, UES is also seeking to partner with UCF's Purchasing department to comply with same day turn around on all related change order requests. This will prevent delays in work execution for unscheduled work.

Consequently, the university will incur additional penalties and lost revenue if this will not be a service provided to UES, if only offered on university working days.

As a final point, the director is seeking signature authority for all of the MHPSA EWA's. Reason for this request is to allow work to commence after hours, weekends and holidays when pertinent staff, decision makers or administration are not here to process requests. We are minimally requesting this authority to be the department director level. All domestic and travel rates for labor, material, holiday schedules are provided in the contract and further outlined in **Appendix F.** In addition, this is a proprietary contract and exempt from competition.

In summary, the amount we are seeking to change order to PO #31658 is $325,338.99 of the remaining FY contract term. Funding is available to support the request. A new contract and proposed term is forthcoming.

Introduction

Mitsubishi Heavy Industries has been providing integrated power generation design and manufacturing for over 120 years. A world leader in energy systems, aerospace, and industrial equipment, Mitsubishi has designed, manufactured, delivered, installed, commissioned and serviced power generating equipment (fossil and nuclear) throughout the world. Mitsubishi gas and steam turbines have continued to operate and perform at the highest industry levels for reliability and efficiency.

Mitsubishi Power Systems Americas (MPSA, MPS) is a wholly owned subsidiary of Mitsubishi Heavy Industries with corporate headquarters located in Lake Mary, Florida. In 2002, MPSA established a large turbine service and component manufacturing center located in Orlando, Florida, just 10 miles west of the Orlando International Airport. The Orlando Service Center (OSC) is dedicated to servicing the Americas turbine and generator market. The OSC is the newest, most modern facility of its kind in the Americas. It is equipped with all new "state-of-the-art" manufacturing equipment and a broad array of advanced turbine repair and maintenance services. The Orlando Service Center offers a high level of outage support services and selected component manufacturing. In June 2008, MPSA opened an additional 100,000 square feet facility for manufacturing and office space, effectively doubling the size of the facility. It includes more new manufacturing and a separate repair facility for gas turbines. There is also a remote monitoring center at OSC that continuously monitors the operation of approximately eighteen (18) combined cycle power plants around the world and generates indicative trending feedback to the plant operators on a 24/7 basis.

MPSA also provides a full spectrum of field services from the Orlando Service Center, as well as from the Houston Service Operations facility, to assist our customers in maintaining their power generating equipment. MPSA's field service operation maintains personnel with a broad knowledge base of turbine technologies to provide world-class field maintenance and inspection services. In addition, we can tap into the design knowledge and operating experience of Mitsubishi Heavy Industries for overnight analysis and evaluation of engineering issues. As a licensee of the former Westinghouse Electric since the 1970's, Mitsubishi has extensive design and engineering knowledge on Westinghouse steam and gas turbine designs, we have provided replacement components and performed retrofits on several units worldwide.

MPSA's newest expansion effort in Savannah, Georgia serves as the company's next step in providing world class power generation services and products for the gas and steam turbine market. This state of the art facility, which broke ground in 2009, has been designed to support combustor component manufacturing, rotor servicing/balancing, valve repair, and other large component repairs and upgrades for both North and South America and new manufactured gas and steam turbines worldwide.

Quality Statement

Through Mitsubishi's pursuit to improve customer satisfaction with dependable products and superior field service, Mitsubishi has obtained and maintains ISO 9001:2000 certification. MPSA also maintains the environmental certification ISO 14001:2004.

October 16th, 2012

Subject: Modification to Payment Terms to MPSA-QTO-11,430 Rev 4)

Dear Mr. Curt Wade,

Mitsubishi Power Systems Americas (MPSA) is pleased to provide the above reference proposal to modify the payment terms from the existing Parts and Service agreement between MPSA and UCF for the Combined Heat and Power (CHP) Plant. Except as expressly amended by this letter, all other terms and conditions in the agreement between Mitsubishi Power Services Americas, Inc., and the University of Central Florida dated May 9th, 2012 shall remain unchanged.

Thank you for the opportunity to provide this quotation. If you have any further questions regarding this proposal, or require further information, please do not hesitate to contact us.

Best Regards,

Memorandum of Understanding
Use of Funds

The following memorandum ("MOU") sets forth the understanding between the Interim Provost and Vice President of Academic Affairs at the University of Central Florida ("Interim Provost") and the Vice President for Administration and Finance and Chief Financial Officer at the University of Central Florida ("VP Administration") regarding the use of funds provided to support the purchase of a Combined Heat & Power (CHP) Plant System from Mitsubishi for the University of Central Florida.

1. **Use of Funds:** The Administration hereby expresses its intent to make available for the University's use, in connection with the purchase of a Combined Heat and Power (CHP) Plant System from Mitsubishi, the amount of Ten Million, Two Hundred Thirty-One Thousand, Three Hundred Fifty-Nine dollars ($10,231,359.00).

2. **Repayment:** The Division of Administration and Finance will repay the funds from savings generated from its energy account in the amount of Ten Million, Two Hundred Thirty-One Thousand, Three Hundred Fifty-Nine dollars ($10,231,359.00) plus interest which shall accrue at a fixed rate of two percent (2.00%) per annum. Payments shall be made in annual installments of principal and interest with the first payment due on August 31, 2014, and each additional payment due August 31, of each consecutive year. The maturity of the outstanding principal and interest is payable in full August 31, 2025. The outstanding balance may be repaid in whole at any time without penalty. The Provost's office, in its sole discretion, may accept a lesser amount of interest as full satisfaction for the use of funds.

3. **Purpose:** The use of funds assisted with the establishment of a CHP Plant System and benefits the University of Central Florida allowing the generation of electricity at a lower cost and with less greenhouse gas emissions.

4. **Applicable Law:** This MOU will be construed in accordance with, and the administration of the contribution received herein shall be pursuant to the laws of the State of Florida.

IN WITNESS WHEREOF, each of the undersigned as duly authorized and validly existing representatives of the University of Central Florida have executed this MOU on the date as indicated below.

Board of Trustees
Finance Committee Meeting Minutes
September 20, 2007

Trustee Conrad Santiago, chair of the Finance Committee, called the meeting to order in the Live Oak Room, in Ferrell Commons at 10:15 a.m. The following committee members were present:

The Honorable Manoj Chopra	The Honorable Phyllis Klock
The Honorable Richard Nunis	The Honorable Tom Yochum

MEETING MINUTES APPROVAL
The minutes of the July 26, 2007, meeting were approved as submitted.

FINANCE
Budgets:
Operating Budget Status
William F. Merck II, Vice President, Administration and Finance, reported that both revenue and expenditures are within the expected ranges for this point in the budget year. Regarding the proposed budget reduction, once the state makes a decision on budget reductions, the budget will be revised and brought to the committee for review.

There was a brief discussion about budget reduction activities and Merck reported that we are working on energy savings opportunities and looking at the staffing and reorganization of some departmental budgets for more efficiency. Terry Hickey, Provost and Executive Vice President, briefly reported that the hiring freeze, which includes an exemption process, is the primary cost savings measure at the university. Hickey added that Information Technologies and Resources will be implementing programs that put various computers in sleep mode when they are not being used.

Greek Housing
Maribeth Ehasz, Vice President, Student Development and Enrollment Services, reported that a master plan for student housing is currently being developed. The plan will explore all aspects of current and future housing needs and how they fit with the mission of the university.

Currently, there are twenty thousand student beds in a two-mile radius of campus with approximately ten thousand of those being UCF beds. Ehasz pointed out that the student success measures for retention and graduation are much higher for students who live on campus in their first year. There are unmet housing demands from special interest groups such as second year sophomores, transfer students, graduate students, and international students. Trustee Hollinger briefly added that she gets requests from graduate students for housing help and has hired a graduate coordinator to assess graduate student needs.

Chair Santiago confirmed that there will be a workshop scheduled to review the specifics and the process for developing a strategic plan for housing, which will include the possibility of two Greek housing purchases within the context of the entire campus housing plan to meet the overall needs of our students.

Other:

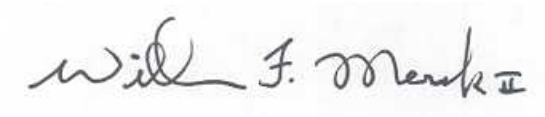
Support Agreement Fund Balances Report

William Merck reported that the support agreement fund balances are in good shape. Trustee Christiansen had pointed out that approximately $11 million in internal debt was not reflected in the report. Merck commented that this will be adjusted in the next report. Merck added that taking into consideration this adjustment, the coverage ratio required is still very healthy. The bond insurers require that we keep two times the amount of legally available funds to replenish the debt service reserve if needed for projects. This report shows that we have 7.3 times rather than the 2 times required.

Draft Investment Policy and statutes

Merck explained that the draft investment policy and the two governing statutes were provided for the board members review and comment. With devolution, we have the opportunity to invest our cash. In the past, the state managed our investments. In the absence of a board approved policy, we are restricted to SPIA and SBA to earn interest on our cash balances. A board approved policy will give us an opportunity to continue to use those but to expand beyond that should we decide to do so. Merck will work with Chair Santiago to further develop the policy and then provide it to the board members for their review.

FACILITIES



UCF construction projects

William Merck reported that in the Finance Committee materials there was a status report on all projects and pointed out that the first item listed mentioned a five-acre reduction in the Lake Nona property. He explained that this did not happen, so therefore the item is to be deleted.

Merck then gave a presentation of campus projects specifically highlighting the successful grand openings for the new UCF Arena and the Bright House Networks Stadium, along with the unveiling of the Knight statue, compliments of our Board of Trustees' Chair, Rick Walsh.

CLOSING COMMENTS

Since there were no further items for discussion, Chair Santiago adjourned the Finance Committee meeting at 11:25 a.m.

Respectfully submitted: 10/30/2007

William F. Merck II
Vice President
Administration and Finance

Date

Minutes
Board of Trustees Meeting
University of Central Florida
May 22, 2008

In the absence of Chair Richard Walsh and Vice Chair Tom Yochum, Corporate Secretary John Hitt called the meeting of the Board of Trustees to order in the Live Oak Center on the University of Central Florida campus at 1:26 p.m. The following members attended the meeting:

The Honorable Judith A. Albertson
The Honorable Logan Berkowitz
The Honorable Olga M. Calvet
The Honorable Manoj Chopra
The Honorable Patrick Christiansen
The Honorable Alan Florez
The Honorable Micky Grindstaff
The Honorable Phyllis Klock
The Honorable Harris Rosen
The Honorable Conrad Santiago

WELCOME

Corporate Secretary Hitt welcomed the board members and called for approval of the minutes of the March 18, 2008, board meeting. The minutes were approved as written.

Hitt called on Dan Holsenbeck, Vice President for University Relations, to introduce Dan Webster, State Senate Majority Leader, and the 2008 UCF Legislative Scholar interns: DeOnte Brown, Justin Collins, Jamie Moellentine, Victoria Paterson, Robert Putnam, Raymond Stephens, and Jillian Strong.

Hitt welcomed new trustee, Logan Berkowitz, and presented him with a gold Pegasus pin. Berkowitz replaces Trustee Brandie Hollinger on the board and serves by virtue of his office as the president of the Student Government Association.

REMARKS AND INTRODUCTIONS

Corporate Secretary Hitt announced the Pegasus Professors for 2008: Dr. Eduardo Salas and Dr. Mary Lou Sole. The Pegasus Professor Award is the highest honor UCF bestows upon a faculty member. It recognizes those who consistently demonstrate excellence in teaching, research, and service to the students, the community, and to the profession. Dr. Salas is a member of the UCF Psychology Department, the Institute for Simulation and Training, and holder of a trustee chair in industrial and organizational psychology. He helps organizations improve teamwork and develop procedures for making effective decisions in stressful environments. He designs tools and strategies to minimize human errors in aviation, law enforcement, and medical environments, including the UCF College of Medicine. Salas is known as a leader within national and international research communities and, since 1999, has earned about $20 million in external grants and contracts. In 2002, he was named UCF Researcher of the Year.

Dr. Sole, a professor in the UCF College of Nursing since 1991, specializes in critical care. Her research contributions include studies of ventilator-associated pneumonia, airway management, and mechanical ventilation. Sole was influential in establishing the master's and doctoral programs in the UCF College of Nursing. Today, she coordinates the Clinical Nurse Specialist graduate program, and she recently helped found the Clinical Nurse Leader graduate program. Sole has received numerous UCF honors, including the Excellence in Undergraduate Teaching Award, the Excellence in Professional Service Award, and the Excellence in Research Award, which she has won twice. Hitt congratulated these two Pegasus Professors for 2008.

Hitt also announced that Dr. Michael Leuenberger, assistant professor of theoretical physics in the UCF NanoScience Technology Center, has received the prestigious Young Faculty Award from the Defense Advanced Research Projects Agency, the central research and development organization for the Department of Defense. Hitt congratulated Dr. Leuenberger on this achievement and wished him success in this new endeavor.

Hitt introduced the following outstanding students: Paul Stokes, a graduate research assistant with the NanoScience Technology Center and the Physics Department, who was selected as one of 60 participants from the U.S. who will attend the 58th meeting of Nobel Prize winners in physics at the Lindau Nobel Laureate meeting in Lindau, Germany, June 29-July 4, 2008; James Martin, a junior majoring in physics and a member of the Research Experiences for Undergraduates program, who will receive a gold Congressional Award medal in June at the Capitol Building in Washington, D.C.; Ashley Ewh, a junior mechanical engineering major who maintains a 3.88 G.P.A., who works in the lab of Dr. Yongho Sohn, plans to pursue a Ph.D. in materials science and engineering, and was recognized as a 2008 Goldwater Scholar; and Christopher Estoch, a junior majoring in political science, who was recently awarded a Pickering Undergraduate Foreign Affairs Fellowship. Estoch is a member of the Burnett Honors College and an Honors in the Major student working with Dr. Houman Sadri on a research project investigating strategic weapons in the 21st century. He is also an intern in the Global Perspectives office.

Hitt recognized the UCF women's softball team for its winning season and great performance at the recent NCAA Gainesville Regional softball tournament. Although the team lost the second of two games to number one-ranked University of Florida, it broke the Gators' long winning streak, upsetting them 1-0 in the first game of the tournament. The Knights finished the 2008 season with 49 wins, a program record. He extended his sincere congratulations to the team and to its coaches, Renee Gillespie, Beth Watson, and Tracy Coffman.

Hitt introduced the Employee of the Month for March, Carmen Afonso, an executive secretary in the Office of Diversity Initiatives, and the Employee of the Month for April, Valda Ramdial, a recruiting coordinator with Career Services. He asked the audience to join him in congratulating all of these outstanding members of the UCF family.

004

And finally, Hitt announced that after 40 years with the university, and 15 years working with him, Beth Barnes, Vice President and Chief of Staff, will be retiring on December 18. Hitt thanked Barnes for her dedicated and excellent service to the university, the board, and to his office and told her she would truly be missed. He also announced that her replacement will be Dr. John Schell (not present), who is currently vice provost for academic affairs. Schell received his Ph.D. from Vanderbilt University and came to the university in 1987 from the University of Arkansas to serve as the chair of the English Department. More recently, he served as dean of undergraduate studies and was instrumental in developing the UCF undergraduate research initiative.

BUSINESS MEETING

Members of the board of trustees voted Trustee Patrick Christiansen acting chair to serve in the absence of Chair Rick Walsh.

CONSENT AGENDA

Acting Chair Pat Christiansen called for approval of the consent agenda. A motion was made by Trustee Logan Berkowitz and members of the board concurred. The approved consent agenda included the following items:

- **BOT-2 2009 BOT Meeting Dates –** The 2009 Board of Trustees' meetings are scheduled as follows, but are subject to change pending revisions of the Board of Governors' meeting schedule:

  January 22, 2009 – Thursday
  March 19, 2009 – Tuesday [correction—Thursday]
  May 21, 2009 – Thursday
  July 23, 2009 – Thursday
  September 17, 2009 – Thursday
  November 19, 2009 - Thursday

- **BOT-3 Equity Accountability Program –** Approval of the Equity Accountability Plan Narrative Progress Report and Update 2006-2007. The Office of Equal Opportunity/Affirmative Action Programs submitted a report on the progress made toward improving diversity during 2006-07 and the steps taken to achieve 2007-08 employment goals.

- **BOT-4 Revision in University of Central Florida Parking Rules –** Approval of amendments to existing university rules regarding campus parking, including a 5% increase in parking fees and an increase in the campus transportation access fee to $7.59 per credit hour.

005

- **EP-1 2009-2010 Proposed Academic Calendar –** Approval of UCF's 2009-2010 proposed academic calendar. Calendars are reviewed and approved by the Board of Governors' staff to ensure that the university has followed the guidelines established in Rule 6C-8.001. The provost approved the 2009-2010 calendar developed by the UCF Academic Calendar Committee and the board of trustees granted final approval.

- **EP-2 Educational Programs Committee Charter –** Approval of the charter for the Educational Programs Committee of the board of trustees.

- **EP-3 Tenure Recommendations –** Approval of the 2008 faculty tenure nominations.

- **FIN-1 Tuition Waiver and Rate Policy for Graduate Assistants and Fellows–** Approval to replace the tuition policy approved May 25, 2006, for graduate assistants and graduate fellows with a new policy to be effective Fall 2009. The proposed policy changes will apply to all graduate assistants and graduate fellows who are enrolled full-time in graduate study and receiving competitive stipends.

- **NOM-1 *Trustee Emeritus* Policy –** Approval of a policy to confer *trustee emeritus* status on selected former trustees of the University of Central Florida in recognition of their distinguished service to the university.

GENERAL BUSINESS

- **BOT-1 University of Central Florida Board of Trustees' Committee Appointments –** The board may establish committees to assist in carrying out its responsibilities. The board chair has determined the membership of the committees and their chairs. For information only, the board received a list of 2008 committee assignments.

ADVANCEMENT COMMITTEE REPORT

Trustee Alan Florez, chair of the Advancement Committee, reported that the committee had no action items to consider and reported the following:

- Philanthropy year-end projections were presented by Robert Holmes, Vice President for Alumni Relations & Development.
- The UCF Foundation reported $42 million in booked gifts from 14,000 donors, approximately $1 million behind the total this same time last year.
- Holmes anticipated reaching $45 to $46 million in gift-giving and 16,000 donors by year-end.
- The Foundation retained the firm of Marts & Lundy to assess its alumni relations and development operations.

- Alumni support was up over last year for the academic annual fund.
- Alumni Association membership is increasing because of a new program involving graduation regalia. When students rent their caps and gowns, their rental automatically includes a one-year Alumni Association membership.
- Annual support for Athletics is $300,000 ahead of this time last year.
- Holmes reported that the number of donors continues to track on a par with last year and that the state of the economy has yet to show an overall negative impact on broad-based giving.
- Dan Holsenbeck, Vice President for University Relations, reported that the differential tuition bill was passed in the House and Senate and was in the hands of the governor. UCF qualified for differential tuition.
- UCF Centers for Excellence were not funded by the legislature; instead, energy efficiency centers were funded for five state universities.
- Holsenbeck reported that a strong case was made to the legislature for the Partnership III Building, which is on the UCF 2008-2009 PECO project list.
- Trustee Florez thanked Holsenbeck for his outstanding work with the legislature.

AUDIT AND OPERATIONS REVIEW COMMITTEE REPORT

Trustee Olga Calvet, chair of the Audit and Operations Review Committee, reported on the discussions in the April 17, 2008, committee meeting:

- Following a request from Trustee Pat Christiansen, a copy of the university's operational audit report from the Auditor General was given to the UCFAA, Inc., board members prior to its April 22 meeting.
- Fraud prevention training for college budget staff has begun and will be ongoing.
- A management self-assessment tool is being developed in accordance with the Sarbanes Oxley Act, which outlines control requirements for public companies. The tool will be used to understand the controls in place across campus and help ensure that all staff and departments are following appropriate procedures and guidelines.
- Amy Voelker, Director of Audit, gave a brief report on the Auditor General's operational, federal financial, financial, and Bright Futures audits. Trustees will receive copies of each audit report directly from the Auditor General.
- Voelker discussed the various management assessment activities and the internal audit plan. The five-year plan will be presented to the committee members for comments in May.
- Trustee Pat Christiansen informed the committee of a new filing requirement for the IRS 990 form. This includes Form 990T that is prepared by the university. Either the Finance or the Audit Committee should review the form before being presented to the full board. The board will also be responsible for reviewing the 990 forms for the university's direct support organizations. These forms do not have to be filed until 2009.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Trustee Judy Albertson, chair of the Educational Programs Committee, reported on the discussions in the committee meeting:

- The Board of Governors is expected to devolve graduate admissions criteria to the university boards of trustees.
- One proposed exception to the admission policy would be removing the GRE and GMAT requirements from master's degree programs. Doctoral programs would also be able to waive the GRE or GMAT requirements for students with a master's degree.
- These exceptions would allow UCF to recruit and retain more high-quality graduate students by offering them competitive financial support packages to include full tuition coverage for all graduate fellows and graduate assistants who have individual appointments of at least 20 hours per week. In addition, the university plans to provide a health insurance subsidy for all graduate assistants.

FACILITIES PLANNING COMMITTEE REPORT

Trustee Pat Christiansen, chair of the Facilities Planning Committee, presented the following item for board approval and reported on the discussions in the committee meeting:

- **FP-1 & FIN-5 2008-2009 Capital Outlay Budget –** A motion was made by Trustee Santiago and passed by the board to approve the university's 2008-2009 capital outlay budget and to authorize the president to make adjustments as necessary during the year to the 2008-2009 capital outlay budget.
- The former Pi Kappa Alpha fraternity house on campus has been demolished. Plans include building one or more Greek houses in its place.
- William Merck, Vice President for Administration and Finance, and Lee Kernek, Associate Vice President for Administration and Finance, gave a master plan process update. The revised master plan for 2010 will be brought before the board in 2009 for approval.
- The Burnett Building for Biomedical Sciences at the College of Medicine's Lake Nona campus is proceeding on time and under budget.
- Foundation excavation is expected to begin on the College of Medicine building in the next few weeks. Students will move into that building in 2010. Both buildings are designed to meet Leadership in Energy and Environmental Design standards.
- The committee approved its Facilities Planning Committee Charter with revisions. The revised charter will be brought back to the board for approval at the next meeting.

008

FINANCE COMMITTEE REPORT

Trustee Conrad Santiago, chair of the Finance Committee, reported on the discussions in the committee meeting and presented the following items for board approval:

- Vanessa Fortier, Associate Vice President for Administration and Finance, gave a budget and tuition update and an overview of comparative tuition information with peer universities.
- Merck also gave a support agreement fund balances report, stating that the fund balances are in good shape, with a coverage ratio of 7.5 times coverage compared to the required 2.5 times coverage.
- Merck also reviewed all outstanding debt for the university. Trustee Santiago requested that John Pittman, Director of Financial Services, review UCF's revenue bonds to determine if there are any favorable options for refinancing.
- Trustee Christiansen suggested adding a column in the debt report to show an amount available for draws under any lines of credit, and the committee requested that this addition become a part of the quarterly report, as well.

- **FIN-2 Investment Policy –** A motion was made by Trustee Santiago and passed by the board to approve an investment policy for the university and for university direct support organizations that do not have an investment policy. With devolution, the state universities were given the responsibility of investing funds that are being held to meet current expenses, as well as the excess funds required to meet current expenses. Florida statutes limit the universities' options for investing funds in the absence of a board of trustee-approved investment policy. This policy will allow the university greater flexibility in investing its funds.

- **FIN-3 College of Medicine Faculty Practice Plan –** A motion was made by Trustee Santiago and passed by the board to approve the implementation of the College of Medicine Faculty Practice Plan and to authorize allocation of funds to support that activity. The estimated external funding needed to supplement the plan over the next seven years is $7 million. The university plans to use funds that will be available from the lease of university-held broadband rights to fund this program.

- **FIN-4 College of Medicine Faculty Practice Plan Self-Insurance Plan –** A motion was made by Trustee Santiago and passed by the board to establish and fund a self-insurance program to cover the risks of professional liability that arise in operating a faculty practice plan. Approximately $3 million will be needed over the next three years to establish capital reserves for the self-insurance program.

- **FIN-6 Fall 2008 Tuition, Out-of-State Fees & Financial Aid Fees –** The Board of Governors and the legislature have established a 6% tuition increase for undergraduate resident students, effective Fall 2008. In addition, differential tuition of up to $6.96 per credit hour may be charged to undergraduate students. Tuition and out-of-state fees for graduate and non-resident students may be set by each university board of trustees as delegated by the Board of Governors.

  A motion was made by Trustee Santiago and passed by the board to approve the following tuition, differential tuition, non-resident fees, and financial aid fees for undergraduate and graduate students for Fall 2008:

	Current	Fall 2008 (Proposed)	Dollar Increase	Percent Increase
Undergraduate tuition	$ 77.39	$ 82.03	$ 4.64	6.0%
Undergraduate differential tuition	-	2.32	2.32	-
Undergraduate out-of-state fee	450.84	491.41	40.57	9.0%
Graduate tuition	217.95	237.56	19.61	9.0%
Doctor of Physical Therapy tuition	374.00	407.66	33.66	9.0%
Graduate out-of-state fee	692.63	754.96	62.33	9.0%
Undergraduate resident financial aid fee	3.86	4.10	0.24	6.2%
Undergraduate non-resident financial aid fee	22.54	24.57	2.03	9.0%
Graduate resident financial aid fee	10.89	11.87	0.98	9.0%
Doctor of Physical Therapy financial aid fee	10.89	20.38	9.49	87.1%
Graduate non-resident financial aid fee	34.63	37.74	3.11	9.0%

  These increases are subject to approval of the appropriate legislation by the governor and adoption of revised differential tuition language by the Board of Governors.

  FIN-7 Distance Learning Course Fee – A motion was made by Trustee Santiago and passed by the board to approve establishing a distance learning course fee. During the 2008 legislative session, the legislature amended Section 1009.24, F.S., providing explicit authorization for state universities to charge a per-credit hour distance learning course fee. The recommended fee of $18 per credit hour for a distance-learning course was based on the development and delivery costs of UCF's fully online and blended learning courses during FY 2007-2008, and the total student credit hours generated through these delivery modalities.

010

- **FIN-8 2008-2009 Operating Budget –** A motion was made by Trustee Santiago and passed by the board to approve the university's 2008-2009 operating budgets for the Educational and General, Auxiliary Enterprises, Sponsored Research, Student Financial Aid, Student Activities, and Concessions areas. The Educational and General budget reflects the amounts proposed by the legislature and is subject to approval by the governor. All other budgets were compiled using requests from individual departments and a review of expected revenue, expenditures, and fund balances for each area.

- **FIN-9 Finance and Purchase of Sigma Alpha Epsilon and Sigma Phi Epsilon Fraternity Houses –** Until financing has been finalized, this item has been deferred to a future meeting.

NOMINATING COMMITTEE REPORT

Trustee Phyllis Klock, chair of the Nominating Committee, reported on the discussions in the April 29, 2008, committee meeting:

- The *Trustee Emeritus* policy was adopted by the committee and approved by the board in the consent agenda.
- The committee continued discussions on a set of critical success factors it will develop as part of a presidential search.
- The committee will use this set of critical success factors as a springboard to begin development of a leadership statement defining the qualities the search committee would seek in a presidential candidate.
- The committee also turned its attention to the development of the process statement, which confirmed that, when needed, a search consultant and search firm would be engaged for the presidential search.
- Discussions also took place regarding the size and composition of the search committee with particular emphasis on the challenge of balancing the desire for broad representation of all the constituencies with timeliness, efficiency, and confidentiality needed to attract the optimum candidate.
- Trustee Klock reported that committee discussions will be continued in June.
- Klock also referenced the committee charge of providing input for the consideration of reappointments to the board of trustees by the governor. Currently, staff is tracking participation of members of committees. As a help to the nominating committee, Klock requested that those involved in maintaining records for committee participation begin tracking participation of non-members, as well.

NEW BUSINESS

Acting Chair Pat Christiansen gave a report on the National Meeting of the Association of Governing Boards' trustees meetings in Boston. He reported he was very pleased with the materials that were provided and with the seminars he attended.

ANNOUNCEMENTS AND ADJOURNMENT

President Hitt announced that freshman enrollment has been frozen for Fall 2008. Even so, he reported, the anticipated enrollment for the fall should be approximately 700 more than last year for a total approximate enrollment of 49,300 students. He also reported that there should be some improvement in average SAT scores and that the total number of National Merit Scholars should reach 60-66, as compared to 43 last year. "In terms of quality, it appears we will have another good year," stated Hitt.

The next Board of Governors' meeting will be June 18-19, 2008, in the UCF Live Oak Center, and the next Board of Trustees' meeting will be Thursday, July 24, 2008, in the Cape Florida Ballroom of the UCF Student Union.

The 2008 Educational Programs Committee Program Review Workshop will be held July 21, 2008, 9:00-12:00 a.m., in Millican Hall, Room 395E.

With no further business to discuss, Acting Chair Christiansen adjourned the board meeting at 2:58 p.m.

Respectfully submitted: _____Date: _____

John C. Hitt
Corporate Secretary

012

SUBJECT: Investment Policy	**Effective Date:**	**Policy Number:**
	Supersedes:	**Page** **1** **Of** **12**
	Responsible Authority: Vice President Administration and Finance and Chief Financial Officer	

APPLICABILITY:

This policy is applicable to the University of Central Florida (University) funds being held to meet current expenses and the excess of funds required to meet current expenses. This policy is also applicable to the University's various Direct Support Organizations (DSOs) that do not have a DSO Board-approved investment policy.

POLICY STATEMENT:

The University establishes its investment parameters in accordance with sections 1011.42(5) and 218.415, Florida Statutes, and complies with all applicable state ordinances and covenants. The vice president for administration and finance (vice president) or designee will consolidate, where practicable and allowable, cash balances and investments from all funds covered by this policy to minimize risk exposure and maintain liquidity while maximizing investment earnings.

I. Investment Objectives

As required by F. S. 218.415, the investment objectives of the University for invested funds shall be to provide for safety of capital, liquidity of funds, and investment income, in that order. The optimization of investment returns shall be secondary to the requirements for safety and liquidity. Funds may be divided in four different pools of funds as follows: Pool I will be designated as cash reserves for operational expenses, based on specific criteria to be determined by the Finance Committee; Pool II will be designated to cover the University's medium term requirements such as debt service for the next year; Pool III will be considered excess cash reserves that may be invested in longer term investments (up to five years). Pool IV will be designated for long term investments such as the UCF Foundation, Inc. Safety and optimization of investment returns may be the investment objectives of funds invested in Pool IV only (liquidity is secondary).

1. Safety - Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks the preservation of capital in the overall portfolio. The objective will be to limit credit risk and interest rate risk to a level commensurate with the risks associated with prudent investment practices and the performance benchmarks stated herein, if applicable.

2. Credit Risk - The University will limit credit risk (the risk of loss due to the failure of the security issuer or backer) by diversifying the investment portfolio so that potential losses on individual securities will be minimized and by limiting investments to specified credit ratings.

3. Liquidity - The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature to meet anticipated demands (static liquidity). Since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). The portfolio may be placed in local government investment pools, money market mutual funds or similar funds that perform similar to money market funds that offer same-day liquidity for short-term funds.

4. Yield - The investment portfolio shall be designed with the objective of attaining a market rate of return, as measured by specified benchmarks, throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall not be sold prior to maturity with the following exceptions:

A. A security with declining credit risk may be sold early to minimize loss of principal.

B. A security swap that would improve the quality, yield, or target duration in the portfolio.

C. Liquidity needs of the portfolio require that the security be sold.

D. Adverse market or economic conditions.

5. Transparency - The University shall operate its portfolio in a transparent manner, making its periodic reports both available for public inspection and designed in a manner which communicates clearly and fully information about the portfolio, including market pricing, adjusted book value, and yields.

II. Performance Measurement

As a benchmark for investment returns, the University's investment portfolio, net of fees, should strive to equal or exceed the returns provided by the State Treasurer's Special Purpose Investment Account (SPIA). However, achieving this benchmark is secondary to the requirements for safety and liquidity.

III. Prudence and ethical standards

1. Prudence - The standard of prudence to be used by investment officials shall be the Prudent Person Rule and shall be applied in the context of managing an overall portfolio. University personnel, acting in accordance with this investment policy shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported to the University's governing board in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy. The Prudent Person Rule states that: "Investments should be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and

intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived from the investment."

2. Ethics and Conflicts of Interest - The Vice President and other authorized personnel shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. These investment officials shall disclose annually, in a written statement, any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. They shall refrain from undertaking personal investment transactions with the same individual(s) with whom business is conducted on behalf of the University.

3. Delegation of Authority - Authority to manage the investment program is granted to the Vice President. The Vice President may delegate authority to the Administration & Finance Associate Vice Presidents or the Treasurer. Additional authorized personnel include any other person or position approved by the University's governing board. The University may seek professional advice and therefore may contract with a federally registered investment advisory firm that specializes in public funds fixed income management, and it may also seek advice and counsel from the Finance Committee to assist with investment decisions. The Finance Committee will approve and, from time to time as they deem necessary, amend this investment policy. No person may engage in an investment transaction except as provided under the terms of this policy. The Vice President shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

IV. Broker Dealers, Safekeeping and Custody

1. Authorized Financial Dealers and Institutions – The University shall list financial institutions consisting of banks and other depository institutions authorized to provide depository and investment services. In addition, a list will be maintained of security broker/dealers consisting of "primary" dealers or regional dealers that qualify under Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule) that are providing services to the University or that the University contemplates using. Both lists shall be reviewed by the Finance Committee and the Vice President at least annually.

2. Annual Review - An annual review of the financial conditions and registration of qualified financial institutions and broker/dealers will be conducted by the Vice President or Investment Advisor under the direction of the University. The distribution of trading among the approved broker/dealers of securities which at the time of purchase had maturities greater than 7 days shall be reported annually to the Finance Committee.

3. Delivery vs. Payment - Securities transactions between a broker-dealer and the safekeeping agent or custodian involving purchase or sale of securities by transfer of money or securities must be made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction.

4. Safekeeping, Custody & Perfection of Interest - Securities shall be held with a third party; and all securities purchased by, and all collateral obtained by, the University should be properly designated as an asset of the University. No withdrawal of securities, in whole or in part, shall be made from safekeeping or custody, except by an authorized staff member of the University.

V. Authorized Investments

This investment policy is authorized by the University's Board of Trustees. The following investments are authorized to be utilized in achieving the objectives of this policy. Investments not listed are prohibited. The investment portfolio must be structured in such manner as to provide sufficient safety and liquidity to pay obligations as they come due. Investment maturities should anticipate cash flow requirements.

Prior to conducting transactions as authorized by this policy the Vice President shall determine the approximate maturity date based on cash-flow needs and market conditions, analyze and select one or more optimal types of investments, and competitively bid the security in question when feasible and appropriate. Except as otherwise required by law, the bid deemed to best meet the investment objectives shall be selected.

Investments shall be limited to securities selected from the following types:

1. The United States Treasury and Agency securities - Securities that are issued by the United States Treasury or those for which the full faith and credit of the United States government guarantees fully all principal and interests payments.

   A. Credit Ratings
   Ratings are not required for U.S. Treasury securities. Agencies backed by the full faith and credit of the United States government, such as Government National Mortgage Association (GNMA), must have at least two AAA/Aaa/AAA long-term credit ratings from Standard & Poor's, Moody's or Fitch respectively. The Finance Committee may direct the University to use other ratings that may be more appropriate for the prevailing economic situation.

   B. Interest Rate Risk Restrictions
   The United States Treasury and Agency securities backed by the full faith and credit of the United States government - At the time of purchase, securities must have a maturity no greater than five years from the date of settlement to the maximum possible maturity date. The forward delivery period on such securities may not exceed 60 days.

2. Government Sponsored Enterprises (GSE) - Securities issued by the Federal Farm Credit Bank, the Federal Home Loan Mortgage Corporation, the Federal Home Loan Bank, the Federal National Mortgage Association, or the Federal Agricultural Mortgage Corporation. Any other GSE shall be considered as corporate debt for the purposes of this Policy and shall be authorized under the criteria set forth in section V-7, Corporations.

   A. Credit Ratings
   Authorization of the listed GSE in section V-7 is predicated upon these institutions maintaining at least two AAA/Aaa/AAA long-term credit ratings from Standard & Poor's, Moody's or Fitch respectively. The Finance Committee may direct the University to use other ratings that may be more appropriate for the prevailing economic situation.

   B. Interest Rate Risk Restrictions

At the time of purchase, securities must have a maturity no greater than five years from the date of settlement to the maximum possible maturity date. The forward delivery period on such securities may not exceed 60 days.

3. The State Board of Administration's Local Government Investment Pool (SBA), the State Treasurer's Special Purpose Investments Account (SPIA) or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in s. 163.01.

   A. Credit Rating
   Local Government Investment Pools - At the time of purchase, local government investment pool must carry a AAA rating from Standard & Poor's (if applicable). The Finance Committee may direct the University to use other ratings that may be more appropriate for the prevailing economic situation.

   B. Interest Rate Risk Restrictions
   At the time of purchase, shares in the local government investment pool must be fully redeemable on the next business day.

4. Money Market Mutual Funds - Shares of any money market fund that is registered as an investment company under the federal "Investment Company Act of 1940", as amended.

   A. Credit Rating
   At the time of purchase, money market funds must carry a AAA rating from Standard & Poor's. The Finance Committee may direct the University to use other ratings that may be more appropriate for the prevailing economic situation.

   B. Interest Rate Risk Restrictions
   At the time of purchase, shares in the money market fund must be fully redeemable on the next business day.

5. Interest-bearing time deposits or savings accounts in Qualified Public Depositories (QPD) as defined in s. 280.02.

   A. Credit Rating or Limitations
   Bank deposits for the University must comply with Chapter 280.16 Florida Statutes. Such deposits in QPD's must be collateralized according to the statutory requirements.

6. Repurchase Agreements - Securities referred to in section 4 or 5 and that can otherwise be purchased under this Policy may be subject to a Repurchase Agreement. Such securities subject to this agreement must have a coupon rate that is fixed from the time of settlement until its maturity date, and must be marketable. Such securities must be delivered to the University or to a third-party custodian or third-party trustee for safekeeping on behalf of the public entity. The collateral securities of any repurchase agreement must be collateralized at no less than one hundred two percent and marked to market no less frequently than weekly. All approved institutions and dealers transacting repurchase agreements shall execute and perform as stated in the Master Repurchase Agreement. All repurchase agreement transactions shall adhere to the requirements of the Master Repurchase Agreement.

A. Credit Ratings
At the time of purchase the counter-party to any such agreements must carry short-term credit ratings which conform to those required by section V-7.

B. Interest Rate Risk Restrictions
For repurchase agreements, at the time of purchase such agreements must have a maturity no greater than one year from the date of settlement. The forward delivery period on such securities may not exceed 60 days.

7. Corporations - United States dollar denominated debt instruments issued by a corporation or bank which is organized and operated within the United States.

A. Credit Ratings
At the time of purchase, all non-money market instruments must carry at least two long-term credit ratings from Standard & Poor's, Moody's or Fitch's of at least AAA/Aaa/AAA respectively. For money market instruments, which comply with rule 2a7 at the time of purchase, such securities must carry at least two short-term credit ratings and no short-term credit rating may fall below A1+ from Standard & Poor's, P1 from Moody's, or F1+ from Fitch. The Finance Committee may direct the University to use other ratings that may be more appropriate for the prevailing economic situation.

Should a security's credit rating drop below these standards after purchase, the University's authorized personnel shall act as Prudent Persons in managing the risks associated with this security, and shall timely notify the Finance Committee of such an event.

B. Interest Rate Risk Restrictions
At the time of purchase, such securities must have a maturity no greater than three years from the date of settlement to the maximum possible maturity date. The forward delivery period on such securities may not exceed 60 days.

8. Other investments authorized by law or by ordinance for a county or a municipality.

9. Other investments authorized by law or by resolution for a school district or a special district.

10. Direct Support Organizations (DSO) duly authorized by the University's Board of Trustees. An agreement or memorandum of understanding must be executed prior to the placement of funds with any DSO.

11. Mutual funds, unit investment trusts or professionally managed securities or other investment vehicles specifically authorized by the Finance Committee.

VI. Portfolio Composition

The portfolio managed by the University, as opposed to funds placed with the Foundation, shall be maintained as a short-term maturity portfolio. The following restrictions apply in the management and investment of the University portfolio:

1. The effective maturity of floating rate securities shall be considered as the time until the next full reset of the coupon. The maximum effective duration of a floating rate security shall be five years from the date of purchase.

2. To provide sufficient liquidity and stability of principal, at least 25% of the Fund shall have an effective duration of one year or less.

VII. University Endowment

The preferred recipient of gifts for the University is the UCF Foundation, Inc. However, there may be special circumstances whereby a monetary gift or other asset is received by the University directly, or the University may choose to establish a quasi-endowment with funds available for such purpose from other sources. In these instances, the University may choose to enter into an agreement with the UCF Foundation, Inc. to manage the investment of a portion or all of a particular University endowment or quasi-endowment. The Foundation has several investment options. The decision as to which of the options to be utilized for University funds would be specified in an contractual document between the University and the Foundation, with specific instructions as to the authorization and manner in which receipts and disbursements would be processed. The University's assets may be pooled with Foundation assets for investment purposes, but with procedures in place for detailed accounting and reporting of the University's shares in the pool. These investments may deviate from the balance of this policy's direction to limit investments to no more than five years duration.

VIII. Risk and Diversification

The University portfolio shall be diversified to the extent practicable to control the risk of loss resulting from over concentration of assets in a specific maturity, issuer, instrument, dealer, or bank through which financial instruments are bought and sold. The diversification strategies laid out in this policy shall be reviewed and revised periodically, as deemed necessary by the Vice President and any revisions shall require the approval of the Finance Committee.

Investments that vary in length to maturity will be made to correlate with the University's cash flow projections. The correlation will be made conservatively, considering the University's projected need for liquidity. As the University develops a history with these guidelines, it is anticipated that the Finance Committee will refine and further define the maturity risks and diversification requirements. It is anticipated that the University Controller will provide annual cash flow projections, taking into consideration revenue receipt timing, payroll disbursements, debt service schedules and other historical operational expenditures. This information will be used as a basis for informed decisions regarding the allocation of cash balances into categories of investments with varying maturities. The investment vehicles used in the four categories will be determined by the Vice President in consultation with an investments consultant, the chair of the Finance Committee and other appropriate University staff.

In order to ensure liquidity and diversify risk to principal, multiple depository banks, in addition to the bank(s) currently under contract with the University to provide treasury services, may be utilized to hold and invest short term cash.

IX. Qualified public depositories, Investment Institutions and Dealers

The University Treasurer will maintain an approved list of qualified public depositories (as defined in Florida Statute 280.02), investment institutions and dealers for the purchase and sale of securities.

X. Third Party Custodial Agreements

Securities will be held with a third party; and all securities purchased by, and all collateral obtained by the University will be properly designated as an asset of the University. If a bank serves in the capacity of Investment Manager, said bank could also perform the required custodial and reporting services. No withdrawal of securities, in whole or in part, shall be made from safekeeping, except by those designated within the Investment Management and Custodial Agreement between the Custodian and the University. Securities transactions between a broker-dealer and the custodian involving purchase or sale of securities by transfer of money or securities must be made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction.

XI. Master Repurchase Agreement

The University Treasurer or the Investment Manager, if applicable, will maintain a master repurchase agreement and require all approved institutions and dealers transacting repurchase agreements to adhere to the requirements of the master repurchase agreement. The master repurchase agreement is a separate document.

XII. Bid Requirement

The University shall require purchases and sales to be executed in a competitive bid environment wherein a least three (3) offers or bids are obtained for each security. Exceptions to this approach may be made when (1) prices for purchases or sales are compared to systems providing current market prices and deemed reasonable, (2) when the security to be purchased is unique to one institution or (3) the security has recently been issued and is trading at the same price by all financial institutions.

XIII. Internal Controls

The University Treasurer shall establish a system of internal controls and operational procedures, which will be documented in writing. The internal controls will be reviewed by the University Audit staff and are subject to audit by the Auditor General of the State of Florida. The controls will be designed to prevent losses of public funds arising from fraud, employee error, imprudent actions by employees and misrepresentation by third parties. The internal controls and operational procedures is a separate document.

XIV. Continuing Education

The Vice President and the University Treasurer will annually (during each calendar year) complete 8 hours of continuing education in subjects or course of study related to investment practices and products.

XV. Reporting

1. Methods - The Vice President, or designee, shall or shall have prepared and provide to the Finance Committee an investment report at least quarterly, including a management summary that provides an analysis of the status of the current investment portfolio and transactions made over the last quarter. An outside investment advisor or other third party may be utilized to prepare the report. The management summary will be prepared in a manner that will allow the University to ascertain whether investment activities during the reporting period have conformed to the investment policy. This investment report shall include a list of securities in the portfolio by class or type, book value, income earned, and market value as of the report date. Such reports shall be available to the public.

2. Performance Standards - The investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. The appropriate benchmark against which the portfolio performance shall be the 90-day Treasury Bill rate. At a minimum, portfolio performance shall be measured by comparing its year-to-date earnings to budgeted year-to-date earnings and its monthly "effective rate of return" to the 90-day Treasury Bill rate of return. Benchmarks may change over time based on the portfolio's weighted average maturity.

3. Marking to Market - The market value of the portfolio shall be calculated at least quarterly and a statement of the market value of the portfolio shall be issued at least quarterly. Information will be included in the report provided to the Finance Committee during scheduled meetings.

XVI. Implementation Considerations

1. Exemption - Any investment currently held that does not meet the guidelines of this policy shall be exempted from the requirements of this policy. At maturity or liquidation, such monies shall be reinvested only as provided by this policy.

2. Amendments - This policy shall be reviewed on an annual basis. Any changes must be approved by the Finance Committee.

DEFINITIONS:

Benchmark. A comparative base for measuring the performance or risk tolerance of the investment portfolio. A benchmark should represent a close correlation to the level of risk and the average duration of the portfolio's investments.

Bid. The price offered by a buyer of securities.

Collateral. Securities, evidence of deposit, or other property that a borrower pledges to secure repayment of a loan. Also refers to securities pledged by a bank to secure deposits of public monies.

Delivery vs. Payment. Delivery versus payment is delivery of securities to a third party with an exchange of money for the securities. The transaction is not complete until both parties provide their commitments.

Diversification. Dividing investment funds among a variety of securities offering independent returns.

DSO. Direct Support Organization, pursuant to Section 1004.28 Florida Statutes, as certified by the University Board of Trustees.

Federal Deposit Insurance Corporation (FDIC). A federal agency that insures bank deposits, currently up to $100,000 per deposit.

Federal Farm Credit Bank (FFCB). The Federal Farm Credit Banks Funding Corporation issues debt securities as fiscal agent for the Farm Credit System, which is a nationwide network of borrower-owned lending institutions and service organizations specializing in agricultural and rural America. The mission of this government-sponsored enterprise is to ensure the availability of sound, dependable funding for agricultural producers, cooperatives, and certain farm related business.

Federal home Loan Bank (FHLB). Government sponsored wholesale banks that lend funds and provide correspondent banking services to member commercial banks, thrift institutions, credit unions and insurance companies. The mission of the FHLBs is to liquefy the housing related assets of its members who must purchase stock in their district Bank.

Federal Home Loan Mortgage Corporation (FHLMC). FHLMC, commonly referred to as Freddie Mac, is a government sponsored enterprise that provides liquidity to the mortgage markets, much like FNMA and FHLB.

Federal National Mortgage Association (FNMA). FNMA was chartered under the Federal National Mortgage Association Act in 1938. FNMA is a federal corporation working under the auspices of the Department of Housing and Urban Development (HUD). It is the largest single provider of residential mortgage funds in the United States. Fannie Mae, as the corporation is called, is a private stockholder-owned corporation. The Corporation's purchases include a variety of adjustable mortgages and second loans, in addition to fixed-rate mortgages. FNMA's securities are also highly liquid and are widely accepted. FNMA assumes and guarantees that all security holders will receive timely payment of principal and interest.

LIBOR. London Interbank Offer Rate.

Liquidity. A liquid asset is one that can be converted easily and rapidly into cash without a substantial loss of value. In the money market, a security is said to be liquid if the spread between bid and asked prices is narrow and reasonable size can be done at those quotes.

Market Value. The price at which a security is trading and could presumably be purchased or sold.

Master Repurchase Agreement. A written contract covering all future transactions between the parties to repurchase agreements that establishes each party's rights in the transactions. A master agreement will often specify, among other things, the right of the buyer-lender to liquidate the underlying securities in the event of default by the seller-borrower.

Maturity. The date upon which the principal or stated value of an investment becomes due and payable.

Portfolio. Collection of securities held by an investor.

Prudent Person Standard. An investment standard in which investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

Qualified Public Depository. Any bank, savings bank, or savings association that is organized under the laws of the United States or the State of Florida; has its principal place of business or a branch office to receive deposits in Florida; has deposit insurance under the provisions of the Federal Deposit Insurance Act; meets the requirements of Chapter 280, Florida Statutes (Florida Security for Public Deposits Act); and has been designated by the Chief Financial Officer of the State of Florida as a qualified public depository.

Repurchase agreement (REPO). A holder of securities sells these securities to an investor with an agreement to repurchase them at a fixed price on a fixed date. The security "buyer" in effect lends the "seller" money for the period of the agreement, and the terms of the agreement are structured to compensate him for this. Dealers use REPOs extensively to finance their positions. Exception: When the Fed is said to be doing REPOs, it is lending money that is increasing bank reserves.

Safekeeping. A service to customers rendered by banks for a fee whereby securities and valuables of all types and descriptions are held in the bank's vaults for protection.

Spread. (1) The yield or price difference between the bid and offer on an issue. (2) The yield or price difference between different issues.

State Board of Administration's Local Government Investment Pool (SBA). The aggregate of all funds from political subdivisions that are placed in the custody of the State Board of Administration for investment and reinvestment.

State Treasury Special Purpose Investment Account (SPIA). The aggregate of all funds from governmental entities that are placed in the custody of the State Treasury for investment and reinvestment.

Treasury Bills. A non-interest bearing discount security issued by the U.S. Treasury to finance the national debt. Most bills are issued to mature in one month, three months, or six months.

Yield. The rate of annual income return on an investment, expressed as a percentage.
(1) Income yield is obtained by dividing the current dollar income by the current market price for the security. (2) Net yield or yield to maturity is the current income yield minus any premium

above par or plus any discount from par in purchase price, with the adjustment spread over the period from the date of purchase to the date of maturity of the bond.

INITIATING AUTHORITY: Vice President for Administration and Finance

Board of Trustees

Finance Committee Meeting Minutes

August 26, 2008

Trustee Conrad Santiago, Chair of the Finance Committee, called the meeting to order in the President's Boardroom at 1:03 p.m. In addition to Chair Santiago, committee members Trustees Manoj Chopra and Micky Grindstaff were present. Committee members Trustees Pat Christiansen, Tom Yochum, and Rick Walsh attended via teleconference. Trustee Logan Berkowitz also attended via teleconference.

APPROVAL OF MINUTES

The minutes of the July 8, 2008, meeting were approved with two corrections in the Support Agreement Fund Balances Report section. The first sentence should read "keep 2.0 times the amount" and the last sentence should read "to the required 2.0 times coverage."

OLD BUSINESS

Fraternity houses purchases update

Maribeth Ehasz, Vice President for Student Development and Enrollment Services, briefly reported that at its meeting on August 7, 2008, the Board of Governors approved the financing plan for the purchase of two fraternity houses. Ehasz commented that we have signed an agreement with a third appraisal consultant to review the two appraisals we have received on the Sigma Alpha Epsilon house. Plans are to resolve this in order to have the houses ready for occupancy by Fall 2009.

NEW BUSINESS

Operating budget status

Vanessa Fortier, Associate Vice President for Administration and Finance, reported on the status of the budget as of June 30, 2008. Education and General expenditures appear well under budget. The medical school's revenue and expenditures are close to its budget, which includes some carry-forward funds. Auxiliaries did well compared to last year; revenues increased and expenditures were below budget. Sponsored Research continues to grow. Student Activities are within budget. Concessions expenditures are at expected levels and are consistent with the prior year.

Support Agreement Fund Balances Report

William Merck, Vice President for Administration and Finance, gave a brief overview of the support agreement fund balances report, noting that the bond insurers require that we maintain at least 2.0 times the amount of legally available funds to replenish the annual debt service reserve, if necessary. We currently have 8.1 times the amount required. After some discussion, the members suggested that future reports should include footnotes for explanations of the various auxiliaries included in the report.

Stadium projections and *pro forma* review

Brad Stricklin, Associate Athletic Director, Business and Finance, UCFAA, reported on the stadium projections and *pro forma* review. In the review of the Golden Knights Corporation Proposed 2008-09 Budget, Trustee Christiansen suggested that the column titled "Projected 2007-08" be changed to "Actuals 2007-08," once the actuals are final. Trustee Christiansen also requested that the "Sources to pay taxable debt" line be clarified. For the next presentation, Stricklin will provide the information on the sources of funds to pay down the taxable debt on the schedule that was provided at the March 21, 2008, UCFAA, Inc., meeting.

Investments review

Merck reported that there had been discussions at prior meetings about the university's cash balances. He noted that until last year we had only two places in which we could place this cash, Florida Special Purpose Investment Account (SPIA) and the State Board of Administration (SBA) account. Because the Board of Trustees has now adopted an investment policy that allows us more flexibility in investing our cash balances, we will develop an investment plan that gives us more diversity. The members of the workgroup who will develop this plan are Tom Yochum, Manoj Chopra, Olga Calvet, and Conrad Santiago, along with senior staff members.

Participation in Certificate of Deposit Account Registry Service (CDARS)

Chair Santiago explained that the CDARS program allows an institution to insure with the FDIC up to $50 million in certificates of deposit. This insurance is accomplished by distributing the certificates in $100,000 increments at multiple banks participating in the CDARS program. Merck recommended that the UCF Purchasing Department prepare a bid document for the seven local banks that participate in CDARS, specifying several scenarios of interest to us. Chair Santiago concurred with this strategy for investing up to $50 million initially. He further asked that Merck consult both the president and him before awarding the bid.

CLOSING COMMENTS

Since there were no further items for discussion, Chair Santiago adjourned the Finance Committee meeting at 3:16 p.m.

Date

Board of Trustees
Finance Committee Work Group
Minutes
September 9, 2008

The noticed meeting was held in Conrad Santiago's conference room beginning at 10:00 a.m. Trustees present were chair Conrad Santiago, Manoj Chopra, and Tom Yochum. Trustee Olga Calvet participated by telephone. The staff members present were Bill Merck, Vanessa Fortier, and Tracy Clark.

The first order of business was a review of an earlier noticed meeting that was the precursor to the establishment of the working group. At that earlier meeting, the CDARS program had been discussed. Subsequently, staff members had acquainted themselves with the program and were prepared to issue a request for bids to place $50 million of $250 to $270 million of UCF cash balances in the program as an alternative to SPIA.

The working group discussed the proposed action and decided to ladder the proposed $50 million investment in increments of $10 million with maturities of 3, 6, 9, 12, and 15 months. At the maturity of the first 3 months CD's, that principal would be reinvested for 15 months. At the end of the first 5-increment cycle, all principal would be invested with 15-month maturities, with an increment maturing every 3 months.

When the bids are received, the results will be reviewed with Chair Santiago and President Hitt. If the results seem to be favorable, then the investment plan will be activated.

Discussion ensued regarding four investment pools that had been identified earlier:

1. Cash reserves--$80 million minimum (current average operating expenses)
2. Debt service due in one year--$20 million
3. Debt service due in two to five years--$80 million
4. Remainder, not to exceed 20% of the total cash available

The initial plan is to keep funds in pool #1 invested in SPIA. Any funds invested in the CDARS program would be part of pools #2 and #3. The levels in the respective pools will be revisited as the overall cash balance changes.

The group discussed issuing an RFP for an investment advisor for the remaining funds to be invested in pools #2 and #3, as well as the funds in pool #4. University staff members will develop an RFP and circulate it to the group for review. Once an RFP is issued, as many as five to seven of the respondents will be interviewed and the next steps will be determined.

Throughout the meeting, the purpose of the working group was discussed. The group agreed to continue working with staff members to develop a structure, or model, for investment of the cash balances of the university. This model would work within the parameters of the university investment policy adopted earlier by the Board of Trustees. The working group would also constitute the core of a selection committee for review of the investment advisor proposals.

The meeting was adjourned at 10:30 a.m.

MINUTES

CALL TO ORDER

Trustee Conrad Santiago, chair of the Finance Committee, called the meeting to order at 8:01 a.m. Committee members Micky Grindstaff and Rick Walsh were present. Committee member Al Weiss attended via teleconference.

MINUTES APPROVAL

The minutes of the May 21, 2009, meeting were approved as submitted.

NEW BUSINESS

College of Medicine Faculty Practice Plan FY 2010 budget (FINC-1)

Deborah German, Dean of the College of Medicine, presented the College of Medicine's Faculty Practice Plan budget for fiscal year 2010. Scott Sumner, Associate Dean for Administration and Finance for the College of Medicine, reviewed the budget's revenues and expenses projected for the February 1, 2010, start-up and operations of the Faculty Practice Plan. After some discussion, Dr. German's team agreed to report on the financial status of the faculty practice plan at least twice each year to the committee. The budget for fiscal year 2010 was approved by the committee.

College of Medicine Self-Insurance Program FY 2010 budget (FINC-2)

Dr. German presented the College of Medicine's self-insurance program budget for fiscal year 2010. Sumner explained that the UCF self-insurance program to be managed by the University of Florida's Self-Insurance Program will be initially capitalized with a $1 million gift to the College of Medicine from the City of Orlando. The proposed budget of $318,000 for the first year of premiums and operating expenses will be funded by the College of Medicine. The budget was approved by the committee.

Tuition remission for graduate assistants and fellows (FINC-3)

Patricia Bishop, Vice Provost and Dean of Graduate Studies, reported that the Florida legislature amended state statutes 1009.21 and 1009.24, governing tuition for graduate assistants and fellows effective for the fall 2009 semester. She presented changes necessary to bring UCF's regulations into alignment with the amended statutes, which were approved by the committee.

Five-year Capital Improvement Plan (FINC-4)

Lee Kernek, Associate Vice President for Administration and Finance, reviewed the five-year capital improvement plan for 2010-11 through 2014-15. The plan, required to be updated each year and submitted to the Board of Governors, identifies projects that will be included in the Three-year

Public Education Capital Outlay (PECO) list, identifies projects that may be included in future Courtelis Facilities Enhancement Challenge Grant lists, and provides information to the State Board of Education for capital project funding for 2010-11. The five-year capital improvement plan was approved by the committee.

Parking Garage VI ("I") (FINC-5)
William Merck, Vice President for Administration and Finance and Chief Financial Officer, presented a resolution requesting the Florida Board of Governors to authorize the Division of Bond Finance of the Florida State Board of Administration to issue bonds for the purpose of financing the construction of a new parking garage. The resolution requires the project cost not to exceed $19.5 million and the interest rate not to exceed 6.5 percent. As 6.5 percent is above market cost at this time, the committee directed that the final numbers be reviewed with the chair of the Finance Committee and the president before execution. The project's financing comes from the net proceeds of fixed-rate, tax-exempt revenue bonds, secured by the net revenues of the UCF Parking System. There is an additional debt service reserve requirement of approximately $1.8 million plus bond issuance costs.

Extending online course delivery modalities eligible to charge the distance-learning course fee (FINC-6)
Joel Hartman, Vice Provost for Information and Technologies and Resources, requested approval to make online streaming video courses eligible for the distance-learning course fee at the currently-established level of $18 per credit hour effective January 1, 2010. The request was approved by the committee.

Draft Finance Committee charter review
Merck reviewed the draft Finance Committee charter. Chair Conrad Santiago recommended changing the required minimum number of meetings from three to four. The committee approved the charter with this recommendation.

Financial dashboard indicators
Merck presented five financial ratios to be used in the future as indications of the university's financial health and to be incorporated in some form in the universities "dashboard" indicators. Merck gave each member of the committee a copy of the book Strategic Financial Analysis, which is the source document for the ratios. The five ratios are the primary reserve ratio, net operating revenues ratio, return on net assets ratio, viability ratio, and debt burden ratio. Additionally, Merck provided a composite financial index that aggregated the first four of the five ratios. Trustee Walsh asked Merck and his team to distill these ratios into something appropriate for the university dashboard.

UCFAA, Inc., proposed university loan payment schedule
Brad Stricklin, Associate Athletic Director for Business and Finance, reported on a proposed repayment schedule by Athletics for loans received from the university. The schedule lists a loan balance of $10,552,769 as of July 1, 2009, with a repayment plan that shows complete repayment by 2022. There were no objections to the plan. Stricklin asked that, in order to assist with cash flows, the withholding of $300,000 from the expendable funds of UCFAA, Inc., be discontinued

once all annual debt service obligations are met. The committee agreed to drop the requirement under that condition.

Operating budget status
Vanessa Fortier, Associate Vice President for Administration and Finance, reported that as of May 31, 2009, expenditures were well within budget, and revenues were on track. She further reported that departments were frugal in their spending in this difficult budget climate.

Support Agreement Fund Balances report
Merck reviewed the Support Agreement Fund Balances report which showed that the balance is well above the 2x trigger point. The coverage ratio is currently 9.2x the maximum annual debt service.

Investment consultant RFP update
Merck reported that the Bogden Group was selected as the investment consultant for the university's cash balances. While the contract with Bogden is being finalized, the university controller and Bogden are preparing detailed annual cash flow schedules to guide investment discussions with Bogden.

Direct support organization's quarterly financial reports
A representative from each of the direct support organizations gave a brief report on the quarterly financial reports provided to the board.

CLOSING COMMENTS
Chair Santiago adjourned the Finance Committee meeting at 10:48 a.m.

CALL TO ORDER

Trustee Conrad Santiago, chair of the Finance Committee, called the meeting to order at 8:01 a.m. Committee members Pat Christiansen and Micky Grindstaff were present. Tom Yochum attended via teleconference.

MINUTES APPROVAL

The minutes of the August 26, 2009, meeting were approved as submitted.

NEW BUSINESS

Supplement to the UCF investment policy (FINC-1)

Dave West and Troy Brown from The Bogdahn Group reviewed the operating funds supplement to the UCF investment manual that further describe operating pools 1, 2, 3, and 4. The pools will be reviewed with the Finance Committee on a regular basis. The frequency of the reviews will be determined later. The committee unanimously approved the supplement to the UCF investment policy.

The Finance Committee was interrupted at 9:00 a.m. for a joint meeting with the Educational Programs Committee to discuss budget recommendations.

Budget alignment recommendations

Terry Hickey, Provost and Executive Vice President, noted that at its July 2009 meeting the Board of Trustees requested that all non-recurring funds be removed from university budgets by July 1, 2011. The Finance Committee and Educational Program Committee met in joint session on October 28 to consider a request by Provost Hickey that non-recurring funds be removed from unit budgets by July 1, 2014. Specifically, the request is that 20 percent of the non-recurring funds be removed each year, beginning with a 40 percent reduction on July 1, 2011. Both committees approved the plan and asked for annual updates on the five-year budget projections.

The Finance Committee resumed its regular meeting.

Tuition Waivers for Specified Online Graduate Programs (FINC-2)

David Harrison, Vice Provost for Regional Campuses, requested that the Division of Continuing Education have the authority to waive a portion of the out-of-state fee charged to students in

online graduate programs. This option will allow the university to better serve out-of-state students.

The second paragraph of the new tuition waiver regulation will be changed from "A nonresident graduate student **will** be awarded a partial waiver" to "A nonresident graduate student **may** be awarded a partial waiver." A motion to approve the new tuition waiver regulation was approved by the Finance Committee.

UCFAA revised loan agreement with the university (FINC-3)
Brad Stricklin, Associate Athletic Director for Business and Finance, requested that UCFAA be allowed to consolidate its multiple loans from the university. Stricklin also presented a plan to repay the consolidated debt over a 14-year schedule. Trustee Christiansen commented that there should be a trustee workshop to review a strategic plan for Athletics. The committee approved the UCFAA revised loan agreement with the recommended minimum annual payment. The committee asked for an annual review of the debt repayment with the intent to accelerate the debt repayment as financial conditions improve. Trustee Yochum voted against the motion.

Chair Santiago left early and appointed Trustee Christiansen to serve as acting chair.

UCFAA operational line of credit (FINC-4)
Stricklin reviewed a UCFAA request to establish an operational line of credit from Fifth Third Bank to be used to smooth out fluctuations between revenue collections and expenditures. The committee approved the operational line of credit. Trustee Christiansen abstained from voting due to a conflict of interest.

UCFAA construction line of credit for the track and soccer complex (FINC-5)
Acting Chair Christiansen recommended deferring this item to the full board meeting. The committee agreed to defer this item to the November 19, 2009, board meeting.

UCF Foundation refinancing (FINC-6)
Rocky Yearwood, CFO and Associate Vice President for Alumni Relations and Development, reported that the UCF Foundation proposes to refinance multiple debt instruments on the Research Pavilion, the Orlando Tech Center (which includes four buildings), and the IST Building, located in the Research Park, into a single loan. Due to a conflict of interest, acting chair Christiansen appointed Trustee Grindstaff to serve as acting chair. The committee approved the refinancing of these Research Park buildings by the UCF Foundation. Trustee Christiansen abstained from voting. Trustee Christiansen resumed as chair.

Key financial ratio update
Fortier reported on the key financial ratios for UCF. Trustee Christiansen recommended that future reports have clarifying footnotes.

Parking Garage VI update
Merck reported that Parking Garage VI parking spaces will cost approximately $10,000-$12,000 per space. The Division of Bond Finance plans to sell the bonds in December 2009 or January 2010.

Draft university financial statements review
Fortier responded to questions regarding the UCF draft financial statements, which are currently being reviewed by the state auditors.

U. S. Department of Education's Emergency Management for Higher Education grant update
Merck reported that UCF received a grant to develop an emergency management plan, hold workshops, and conduct emergency drills. One of the requirements of the grant is to inform the board of trustees of the grant.

University debt report
Merck reviewed the university and DSO debt report with the committee.

Support Agreement Fund Balances report
Merck reported that the actual coverage ratio has improved from 8.6 to 10.4. Trustee Christiansen requested that future reports show prior years' data to get a sense of the trend on these reports.

Operating budget status
Fortier reviewed the status of the budget as of August 31, 2009. No anomalies were reported.

ADJOURNMENT
Acting Chair Christiansen adjourned the Finance Committee meeting at 11:30 a.m.

THE BANK OF NEW YORK MELLON

RECEIVED
MAY 05 2010
UCF OFFICE OF
ADMINISTRATION AND FINANCE

CUSTODY AGREEMENT

(U.S. Securities)

AGREEMENT, date as of January, 8 2010 between ("Customer") University of Central Florida and The Bank of New York Mellon Trust Company, National Association ("Custodian").

ARTICLE I
DEFINITIONS

Whenever used in this Agreement, the following words shall have the meanings set forth below:

1. **"Authorized Person"** shall be any person, whether or not an officer or employee of Customer, duly authorized by Customer to give Oral and/or Written Instructions on behalf of Customer, such persons to be designated in a Certificate of Authorized Persons which contains a specimen signature of such person.

2. **"BNY Affiliate"** shall mean any office, branch or subsidiary of The Bank of New York Mellon Company, Inc.

3. **"Book Entry System"** shall mean the Federal Reserve/Treasury book entry system for receiving and delivering securities, its successors and nominees.

4. **"Business Day"** shall mean any day on which Custodian, Book Entry System and relevant Depositories are open for business.

5. **Depository"** shall include the Depository Trust Company, the Participants Trust Company and any other securities depository or clearing agency (and their respective successors and nominees) registered with the Securities and Exchange Commission or otherwise authorized to act as a securities depository or clearing agency.

6. **"Oral Instructions"** shall mean instructions received verbally by Custodian.

7. **"U.S. Securities"** shall include, without limitation, common stock and other equity securities, bonds, debentures and other debt securities, notes, mortgages or other obligations, and any instruments representing rights to receive, purchase, or subscribe for the same, or representing any other rights or interests therein (whether represented by a certificate or held in the Book-Entry System, a Depository or on the books of the issuer).

8. **"Written Instructions"** shall mean written communications actually received by Custodian by S.W.I.F.T., tested telex, letter, email, facsimile transmission, or other method or system specified by Custodian as available for use in connection with the services hereunder.

ARTICLE II
APPOINTMENT OF CUSTODIAN; ACCOUNTS; REPRESENTATION AND WARRANTIES

1. Customer hereby appoints Custodian as custodian of all U.S. Securities and cash at any time delivered to Custodian during the term of this Agreement, and authorizes Custodian to hold U.S. Securities in registered form in its name or the name of its nominees. Custodian hereby accepts such appointment and agrees to establish and maintain one or more securities accounts and cash accounts in the name of Customer (collectively, the "Account") in which it will hold U.S. Securities and cash as provided herein.

2. Customer hereby represents and warrants, which representations and warranties shall be continuing and shall be deemed to be reaffirmed upon each Oral or Written Instruction given by Customer, that:

(a) Customer is duly organized and existing under the laws of the jurisdiction of its organization, with full power to carry on its business as now conducted, to enter into this Agreement and to perform its obligations hereunder;

(b) This Agreement has been duly authorized, executed and delivered by Customer, constitutes a valid and legally binding obligation of Customer, enforceable in accordance with its terms, and no statute, regulation, rule, order, judgment or contract binding on Customer prohibits Customer's execution or performance of this Agreement; and

(c) Either Customer owns the U.S. Securities in the Account free and clear of all liens, claims, security interests and encumbrances (except those granted herein) or, if the U.S. Securities are owned beneficially by others, Customer has the right to pledge such U.S. Securities to the extent necessary to secure Customer's obligations hereunder, free of any right of redemption or prior claim by the beneficial owner. Custodian's security interest pursuant to Article V hereof shall be a first lien and security interest subject to no setoffs, counterclaims or other liens prior to or on a parity with it in favor of any other party (other than specific liens granted preferred status by statute), and Customer shall take any and all additional steps which are required to assure Custodian of such priority and status, including notifying third parties or obtaining their consent to, Custodian's security interest.

ARTICLE III

CUSTODY AND RELATED SERVICES

1. Subject to the terms hereof, Customer hereby authorizes Custodian to hold any Securities received by it from time to time for Customer's account. Custodian shall be entitled to utilize the Book Entry System and Depositories to the extent possible in connection with its performance hereunder. Securities and cash deposited by Custodian in the Book-Entry System or a Depository will be held subject to the rules, terms and conditions of the Book-Entry System or such Depository. Custodian shall identify on its books and records the U.S. Securities and cash belonging to Customer, whether held directly or indirectly through the Book-Entry System or a Depository. U.S. Securities and cash of Customer deposited in the Book Entry System or a Depository will be represented in accounts which include only assets held by Custodian for its customers.

2. Custodian shall furnish Customer with a monthly summary of all account transfers and activity; unless client has given other direction. Customer hereby waives the right to receive hard copy written transaction advices. The forgoing waiver may be rescinded at any time in writing to the custodian. Customer may elect to receive advices, confirmations, reports or statements electronically through the Internet. By electing to use the Internet for this purpose, Customer acknowledges that such transmissions are not encrypted and therefore are insecure. Customer further acknowledges that there are other risks inherent in communicating through the Internet such as the possibility of virus contamination and disruptions in service, and agrees that Custodian shall not be responsible for any loss, damage or expense suffered or incurred by Customer or any person claiming by or through Customer as a result of the use of such methods.

3. With respect to all U.S. Securities held in the Account, Custodian shall, unless otherwise instructed to the contrary:

(a) Receive all income and other payments and advise Customer as promptly as practicable of any such amounts due but not paid;

(b) Present for payment and receive the amount paid upon all U.S. Securities which may mature and advise Customer as promptly as practicable of any such amounts due but not paid;

(c) Forward to Customer all information or documents that it may receive from an issuer of U.S. Securities which, in the opinion of Custodian, are intended for the beneficial owner of U.S. Securities;

(d) Execute, as custodian, any certificates of ownership, affidavits, declarations or other certificates under any tax laws now or hereafter in effect in connection with the collection of bond and note coupons;

(e) Hold directly, or through the Book Entry System or a Depository, all rights and similar U.S. Securities issued with respect to any U.S. Securities credited to the Account hereunder; and

(f) Endorse for collection checks, drafts or other negotiable instruments.

4. (a) Custodian shall notify Customer of such rights or discretionary actions or of the date or dates by when such rights must be exercised or such action must be taken provided that Custodian has received, from the issuer or the relevant Depository, timely notice of such rights or discretionary corporate action or of the date or dates such rights must be exercised or such action must be taken. Communication shall be delivered by Inform, S.W.I.F.T., tested telex, letter, email, facsimile transmission, or other method or system specified by Custodian as available for use in connection in this agreement. Absent actual receipt of such notice, Custodian shall have no liability for failing to so notify Customer and Custodian shall follow timely directions received in writing through one of the Communication processes so specified by the Custodian.

(b) Whenever U.S. Securities (including, but not limited to, warrants, options, tenders, options to tender or non mandatory puts or calls) confer optional rights on Customer or provide for discretionary action or alternative courses of action by Customer, Customer shall be responsible for making any decisions relating thereto and for directing Custodian to act. In order for Custodian to act, it must receive Customer's Written Instructions at Custodian's offices, addressed as Custodian may from time to time request, not later than noon (Florida time) at least two (2) Business Days prior to the last scheduled date to act with respect to such U.S. Securities (or such earlier date or time as Custodian may notify Customer). Absent Custodian's timely receipt of such Written Instructions, Custodian shall not be liable for failure to take any action relating to or to exercise any rights conferred by such U.S. Securities.

5. Custodian will make available to Customer proxy voting services upon the request of, Customer in accordance with terms and conditions to be mutually agreed upon by Custodian and Customer.

6. Custodian shall promptly advise Customer upon its notification of the partial redemption, partial payment or other action affecting less than all U.S. Securities of the relevant class. If Custodian or Depository holds any such U.S. Securities in which Customer has an interest as part of a fungible mass, Custodian or Depository may select the U.S. Securities to participate in such partial redemption, partial payment or other action in any non-discriminatory manner that it customarily uses to make such selection.

7. Custodian shall not under any circumstances accept bearer interest coupons which have been stripped from United States federal, state or local government or agency securities unless explicitly agreed to by Custodian in writing.

8. Any foreign exchange transaction effected by Custodian in connection with this Agreement may be entered with Custodian or a BNY Affiliate acting as principal or otherwise through customary banking channels. Customer may issue standing Written Instructions with respect to foreign exchange transactions but Custodian may establish rules or limitations concerning any foreign exchange facility made available to Customer. Customer shall bear all risks of holding cash denominated in a foreign currency. Without limiting the foregoing, Customer shall bear the risks that rules or procedures imposed by Depositories, exchange controls, asset freezes or other laws, rules, regulations or orders shall prohibit or impose burdens or costs on the transfer to, by or for the account of Customer of property held outside Customer's jurisdiction or denominated in a currency other than its home jurisdiction or the conversion of cash from one currency into another currency. Custodian shall not be obligated to substitute another currency for a currency whose transferability, convertibility or availability has been affected by such law, regulation, rule or procedure. Custodian shall not be liable to Customer for any loss resulting from any of the foregoing events.

9. To the extent that Custodian has agreed to provide pricing or other information services in connection with this Agreement, Custodian is authorized to utilize any vendor (including brokers and dealers of Securities) reasonably believed by Custodian to be reliable to provide such information. Customer understands that certain pricing information with respect to complex financial instruments (e.g., derivatives) may be based on calculated amounts rather than actual market transactions and may not reflect actual market values, and that the variance between such calculated amounts and actual market values may or may not be material. Where vendors do not provide information for particular Securities or other property, an Authorized Person may advise Custodian regarding the fair market value of, or provide other information with respect to, such Securities or property as determined by it in good

faith. Custodian shall not be liable for any loss, damage or expense incurred as a result of errors or omissions with respect to any pricing or other information utilized by Custodian hereunder.

10. As an accommodation to Customer, Custodian may provide consolidated recordkeeping services pursuant to which Custodian reflects on Account statements Securities not held in Custodian's vault or for which Custodian or its nominee is not the registered owner ("Non-Custody Securities"). Non-Custody Securities shall be designated on Custodian's books as "shares not held" or by other similar characterization. Customer acknowledges and agrees that it shall have no security entitlement against Custodian with respect to Non-Custody Securities, that Custodian shall rely, without independent verification, on information provided by Customer regarding Non-Custody Securities (including but not limited to positions and market valuations) and that Custodian shall have no responsibility whatsoever with respect to Non-Custody Securities or the accuracy of any information maintained on Custodian's books or set forth on account statements concerning Non-Custody Securities.

11. From time to time Custodian may make available to Customer or its agent(s) certain services, computer programs or other products or services (collectively, "Tools") that allow Customer or its agent(s) to perform certain analytic, accounting, compliance, reconciliation and other functions with respect to the Securities and other assets in the Account. By way of example, Tools may assist Customer or its agent(s) in analyzing the performance of investment managers appointed by Customer, determining on a post-trade basis whether transactions for the Account comply with Customer's investment guidelines, evaluating assets at risk, and account reconciliation. Such Tools, whether or not modified to meet specific needs of Customer, are provided "AS IS" and CUSTODIAN DISCLAIMS ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE TOOLS, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY, TITLE, NON-INFRINGEMENT AND FITNESS FOR A PARTICULAR PURPOSE. ANYTHING IN THIS AGREEMENT TO THE CONTRARY NOTWITHSTANDING, CUSTODIAN SHALL NOT BE LIABLE FOR ANY LOSS, EXPENSE, DAMAGE, LIABILITY OR CLAIM SUFFERED OR INCURRED BY CUSTOMER, ITS AGENT(S) OR ANY OTHER PERSON AS A RESULT OF USE OF, OR RELIANCE UPON, ANY TOOLS BY CUSTOMER, ITS AGENT(S) OR ANY OTHER PERSON.

ARTICLE IV

PURCHASE AND SALE OF U.S. SECURITIES; CREDITS TO ACCOUNT

1. Promptly after each purchase or sale of U.S. Securities by Customer, an Authorized Person shall deliver to Custodian Written Instructions specifying all information necessary for Custodian to settle such purchase or sale. Custodian shall account for all purchases and sales of U.S. Securities on the actual settlement date unless otherwise agreed by Custodian.

2. Customer understands that when Custodian is instructed to deliver U.S. Securities against payment, delivery of such U.S. Securities and receipt of payment therefor may not be completed simultaneously. Customer assumes full responsibility for all credit risks involved in connection with Custodian's delivery of U.S. Securities pursuant to instructions of Customer.

3. Custodian may, as a matter of bookkeeping convenience or by separate agreement with Customer, credit the Account with the proceeds from the sale, redemption or other disposition of U.S. Securities or interest, dividends or other distributions payable on U.S. Securities prior to its actual receipt of final payment therefor. All such credits shall be conditional until Custodian's actual receipt of final payment and may be reversed by Custodian to the extent that final payment is not received. Payment with respect to a transaction will not be "final" until Custodian shall have received immediately available funds which under applicable law or rule are irreversible and not subject to any security interest, levy or other encumbrance, and which are specifically applicable to such transaction.

ARTICLE V

OVERDRAFTS OR INDEBTEDNESS

If Custodian in its sole discretion advances funds to Customer or there shall arise for whatever reason an overdraft in the Account (including, without limitation, overdrafts incurred in connection with the settlement of securities transactions or funds transfers) or if Customer is for any other reason indebted to Custodian, Customer agrees to repay Custodian on demand the amount of the advance, overdraft or indebtedness plus accrued interest at a rate ordinarily charged by Custodian to its institutional custody customers. In order to secure repayment of Customer's obligations to Custodian hereunder, Customer hereby agrees that Custodian shall have a continuing lien and security interest in, and right of set-off against, all U.S. Securities, money and other property now or hereafter held in the Account (including proceeds thereof), and any other property at any time held by it for the account of Customer. In this regard, Custodian shall be entitled to all the rights and remedies of a pledgee under common law and a secured party under the New York Mellon Uniform Commercial Code and any other applicable laws, rules or regulations as then in effect.

ARTICLE VI

CONCERNING CUSTODIAN

1. (a) Except as otherwise expressly provided herein, Custodian shall not be liable for any costs, expenses, damages, liabilities or claims including attorneys' and accountants' fees (collectively, "Losses") incurred by or asserted against Customer, except those Losses arising out of the negligence or willful misconduct of Custodian. Custodian shall have no obligation hereunder for Losses which are sustained or incurred by reason of any action or inaction by the Book-Entry System or any Depository or issuer of Securities. In no event shall Custodian be liable to Customer or any third party for special, indirect or consequential damages, or lost profits or loss of business, arising in connection with this Agreement.

(b) To the extent permitted under Florida law, Customer agrees to indemnify, save and hold Custodian harmless from and against any and all Losses sustained or incurred by or asserted against Custodian by reason of or as a result of any action or inaction, or arising out of Custodian's performance hereunder, including reasonable fees and expenses of counsel incurred by Custodian in a successful defense of claims by Customer; provided, that Customer shall not indemnify Custodian for those Losses arising out of Custodian's negligence or willful misconduct. This indemnity shall be a continuing obligation of Customer, its successors and assigns, notwithstanding the termination of this Agreement.

2. Without limiting the generality of the foregoing, Custodian shall be under no obligation to inquire into, and shall not be liable for, any losses incurred by Customer or any other person as a result of the receipt or acceptance of fraudulent, forged or invalid U.S. Securities, or U.S. Securities which are otherwise not freely transferable or deliverable without encumbrance.

3. Custodian may, with respect to questions of law specifically regarding the Account, obtain the advice of counsel and shall be fully protected with respect to anything done or omitted by it in good faith in conformity with such advice.

4. Custodian shall be under no obligation to take action to collect any amount payable on U.S. Securities in default, or if payment is refused after due demand and presentment.

5. Custodian shall have no duty or responsibility to inquire into, make recommendations, supervise, or determine the suitability of any transactions affecting any Account.

6. Customer shall pay to Custodian the fees and charges as may be specifically agreed upon from time to time and such other fees and charges at Custodian's standard rates for such services as may be applicable. Customer shall reimburse Custodian for all costs associated with the conversion of Customer's U.S. Securities hereunder and the transfer of U.S. Securities and records kept in connection with this Agreement. Customer shall also reimburse Custodian for out of pocket expenses which are a normal incident of the services provided hereunder. Custodian may debit the Account for amounts payable hereunder which remain in arrears for over 60 days.

7. In addition to the rights of Custodian under applicable law and other agreements, at any time when Customer shall not have honored any and all of its obligations to Custodian, whether or not relating to or arising under this Agreement, Custodian shall have the right without notice to Customer to retain or set-off, against such obligations of Customer, any U.S. Securities or cash Custodian or a BNY Affiliate may directly or indirectly hold for the account of Customer, and any obligations (whether matured or unmatured) that Custodian or a BNY Affiliate may have to Customer. Any such asset of, or obligation to, Customer may be transferred to Custodian and any BNY Affiliate in order to effect the above rights.

8. (a) Subject to the terms below, Custodian shall be entitled to rely upon any Written or Oral Instructions actually received by Custodian and reasonably believed by Custodian to be duly authorized and delivered. Customer agrees that an Authorized Person shall forward to Custodian Written Instructions confirming Oral Instructions by the close of business of the same day that such Oral Instructions are given to Custodian. Customer agrees that the fact that such confirming Written Instructions are not received or that contrary Written Instructions are received by Custodian shall in no way affect the validity or enforceability of transactions authorized by such Oral Instructions and effected by Custodian.

(b) If Custodian receives Written Instructions which appear on their face to have been transmitted by an Authorized Person via (i) computer facsimile, email, the Internet or other insecure electronic method, or (ii) secure electronic transmission containing applicable authorization codes, passwords and/or authentication keys, Customer understands and agrees that Custodian cannot determine the identity of the actual sender of such Written Instructions and that Custodian shall conclusively presume that such Written Instructions have been sent by an Authorized Person. Customer shall be responsible for ensuring that only Authorized Persons transmit such Written Instructions to Custodian and that all Authorized Persons treat applicable user and authorization codes, passwords and/or authentication keys with extreme care.

(c) Customer acknowledges and agrees that it is fully informed of the protections and risks associated with the various methods of transmitting Written Instructions to Custodian and that there may be more secure methods of transmitting Written Instructions than the method(s) selected by Customer. Customer agrees that the security procedures (if any) to be followed in connection with its transmission of Written Instructions provide to it a commercially reasonable degree of protection in light of its particular needs and circumstances.

(d) If Customer elects to transmit Written Instructions through an on-line communication system offered by Custodian, Customer's use thereof shall be subject to the Terms and Conditions attached hereto as Appendix I. If Customer elects (with Custodian's prior consent) to transmit Written Instructions through an on-line communications service owned or operated by a third party, Customer agrees that Custodian shall not be responsible or liable for the reliability or availability of any such service.

9. Upon reasonable request and provided Custodian shall suffer no significant disruption of its normal activities, Customer shall have access to Custodian's books and records relating to the Account during Custodian's normal business hours. Upon reasonable request, copies of any such books and records shall be provided to Customer at Customer's expense.

10. It is understood that Custodian is authorized to supply any information regarding the Account which is required by any law, regulation or rule now or hereafter in effect.

11. Custodian shall not be responsible or liable for any failure or delay in the performance of its obligations under this Agreement arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control, including without limitation, acts of God; earthquakes; fires; floods; wars; civil or military disturbances; sabotage; epidemics; riots; interruptions, loss or malfunctions of utilities, computer (hardware or software) or communications service; accidents; labor disputes; acts of civil or military authority or governmental actions; it being understood that Custodian shall use its best efforts to resume performance as soon as practicable under the circumstances.

12. Custodian is hereby authorized to assign its rights and delegate its duties hereunder to any BNY Affiliate, whenever and on such terms and conditions as it deems necessary or appropriate to perform its services hereunder, without any further notice to Customer. Customer agrees to be bound by all actions taken by a BNY Affiliate pursuant to the preceding sentence to the same extent as if they were taken by Custodian, it being understood and agreed that no such assignment or delegation shall discharge Custodian

from its obligations hereunder. Customer each further agrees that any BNY Affiliate providing services pursuant to the foregoing authorization shall be entitled to all of the protections afforded to Custodian under this Agreement (including, without limitation, pursuant to Articles V and VI). If so advised by Custodian, Customer shall provide Oral or Written Instructions or other information to a BNY Affiliate rather than to Custodian.

13. Custodian shall have no duties or responsibilities whatsoever except such duties and responsibilities as are specifically set forth in this Agreement, and no covenant or obligation shall be implied against Custodian in connection with this Agreement.

ARTICLE VII

TERMINATION

Either party may terminate this Agreement by giving to the other party a notice in writing specifying the date of such termination, which shall be not less than ninety (90) days after the date of such notice. Upon termination hereof, Customer shall pay to Custodian such compensation as may be due to Custodian, and shall likewise reimburse Custodian for other amounts payable or reimbursable to Custodian hereunder. Custodian shall follow such reasonable Oral or Written Instructions concerning the transfer of custody of records, U.S. Securities and other items as Customer shall give; provided, that (a) Custodian shall have no liability for shipping and insurance costs associated therewith, and (b) full payment shall have been made to Custodian of its compensation, costs, expenses and other amounts to which it is entitled hereunder. If any U.S. Securities or cash remain in the Account, Custodian may deliver to Customer such U.S. Securities and cash. Upon termination of this Agreement, except as otherwise provided herein, all obligations of the parties to each other hereunder shall cease.

ARTICLE VIII

MISCELLANEOUS

1. Customer agrees to furnish to Custodian a new Certificate of Authorized Persons in the event of any change in the then present Authorized Persons. Until such new Certificate is received, Custodian shall be fully protected in acting upon Oral Instructions and Written Instructions of such present Authorized Persons.

2. Any notice or other instrument in writing, authorized or required by this Agreement to be given to Custodian, shall be sufficiently given if addressed to Custodian and received by it at its offices at 10161 Centurion Parkway, Jacksonville, Florida 32256 or at such other place as Custodian may from time to time designate in writing.

3. Any notice or other instrument in writing, authorized or required by this Agreement to be given to Customer shall be sufficiently given if addressed to Customer and received by it at its offices at 4000 Central Florida Boulevard, Millican Hall, Room 384, Orlando, Florida, 32816, Attn: Office of Administration and Finance or at such other place as Customer may from time to time designate in writing.

4. Each and every right granted to either party hereunder or under any other document delivered hereunder or in connection herewith, or allowed it by law or equity, shall be cumulative and may be exercised from time to time. No failure on the part of either party to exercise, and no delay in exercising, any right will operate as a waiver thereof, nor will any single or partial exercise by either party of any right preclude any other or future exercise thereof or the exercise of any other right.

5. In case any provision in or obligation under this Agreement shall be invalid, illegal or unenforceable in any jurisdiction, the validity, legality and enforceability of the remaining provisions or obligations shall not in any way be affected thereby. This Agreement may not be amended or modified in any manner except by a written agreement executed by both parties. This Agreement shall extend to and shall be binding upon the parties hereto, and their respective successors and assigns; provided however, that this Agreement shall not be assignable by either party without the written consent of the other.

6. (a) This Agreement shall be construed in accordance with the substantive laws of the State of Florida, without regard to conflicts of laws principles thereof. Customer and Custodian hereby consent to the jurisdiction of a state court situated in Orange County, Florida in connection with any dispute arising hereunder. To the extent that in any jurisdiction Customer may now or hereafter be entitled to claim, for itself or its assets, immunity from suit, execution, attachment (before or after judgment) or other legal process, Customer irrevocably agrees not to claim, and it hereby waives, such immunity. Customer and Custodian each hereby irrevocably waives any and all rights to trial by jury in any legal proceeding arising out of or relating to this Agreement.

(b) The parties hereto agree that the establishment and maintenance of the Account, and all interests, duties and obligations with respect thereto, shall be governed by the laws of the State of Florida.

(c) **For Governmental Entities**: If permissible by law; to the extent that in any jurisdiction Customer may now or hereafter be entitled to claim, for itself or its assets, immunity from suit, execution, attachment (before or after judgment) or other legal process, Customer irrevocably agrees not to claim, and it hereby waives, such immunity

7. The parties hereto agree that in performing hereunder, Custodian is acting solely on behalf of Customer and no contractual or service relationship shall be deemed to be established hereby between Custodian and any other person.

8. This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but such counterparts shall, together, constitute only one instrument.

9. Customer hereby acknowledges that Custodian is subject to federal laws, including the Customer Identification Program (CIP) requirements under the USA PATRIOT Act and its implementing regulations, pursuant to which Custodian must obtain, verify and record information that allows Custodian to identify Customer. Accordingly, prior to opening an Account hereunder Custodian will ask Customer to provide certain information including, but not limited to, Customer's name, physical address, tax identification number and other information that will help Custodian to identify and verify Customer's identity such as organizational documents, certificate of good standing, license to do business, or other pertinent identifying information. Customer agrees that Custodian cannot open an Account hereunder unless and until the Custodian verifies the Customer's identity in accordance with its CIP.

IN WITNESS WHEREOF, Customer and Custodian have caused this Agreement to be executed by their respective officers, thereunto duly authorized, as of the day and year first above written.

APPENDIX I

THE BANK OF NEW YORK MELLON

ON-LINE COMMUNICATIONS SYSTEM (THE "SYSTEM")

TERMS AND CONDITIONS

1. License; Use. (a) This Appendix I shall govern Customer's use of the System and any computer software provided by BNY to Customer in connection herewith (collectively, the "**Software**"). In the event of any conflict between the terms of this Appendix I and the main body of this Agreement with respect to Customer's use of the System, the terms of this Appendix I shall control.

(b) Upon delivery to Customer of Software and/or System access codes, Custodian grants to Customer a personal, nontransferable and nonexclusive license to use the Software and the System solely for the purpose of transmitting Written Instructions, receiving reports, making inquiries or otherwise communicating with Custodian in connection with the Account(s). Customer shall use the Software and the System solely for its own internal and proper business purposes and not in the operation of a service bureau. Except as set forth herein, no license or right of any kind is granted to Customer with respect to the Software or the System. Customer acknowledges that Custodian and its suppliers retain and have title and exclusive proprietary rights to the Software and the System, including any trade secrets or other ideas, concepts, know-how, methodologies, or information incorporated therein and the exclusive rights to any copyrights, trademarks and patents (including registrations and applications for registration of either), or other statutory or legal protections available in respect thereof. Customer further acknowledges that all or a part of the Software or the System may be copyrighted or trademarked (or a registration or claim made therefor) by Custodian or its suppliers. Customer shall not take any action with respect to the Software or the System inconsistent with the foregoing acknowledgments, nor shall Customer attempt to decompile, reverse engineer or modify the Software. Customer may not copy, sell, lease or provide, directly or indirectly, any of the Software or any portion thereof to any other person or entity without Custodian's prior written consent. Customer may not remove any statutory copyright notice or other notice included in the Software or on any media containing the Software. Customer shall reproduce any such notice on any reproduction of the Software and shall add any statutory copyright notice or other notice to the Software or media upon Custodian's request.

(c) If Customer subscribes to any database service provided by Custodian in connection with its use of the System, delivery of such database to Customer shall constitute the granting by Custodian to Customer of a non-exclusive, non-transferable license to use such database for so long as this Appendix I is in effect. It is understood and agreed that any database supplied by Custodian is derived from sources which Custodian believes to be reliable but Custodian does not, and cannot for the fees charged, guarantee or warrant that the data is correct, complete or current. All such databases are provided as an accommodation by Custodian to its customers and are compiled without any independent investigation by Custodian. However, Custodian will endeavor to update and revise each database on a periodic basis as Custodian, in its discretion, deems necessary and appropriate. Customer also agrees that Customer will promptly install all updates and revisions to each database which Custodian provides and that Custodian cannot bear any responsibility whatsoever for Customer's failure to do so. CUSTODIAN IS NOT RESPONSIBLE FOR ANY RESULTS OBTAINED BY CUSTOMER FROM USE OF DATABASE SERVICES PROVIDED BY CUSTODIAN.

2. Equipment. Customer shall obtain and maintain at its own cost and expense all equipment and services, including but not limited to communications services, necessary for it to utilize the Software and obtain access to the System, and Custodian shall not be responsible for the reliability or availability of any such equipment or services.

3. Proprietary Information. The Software, any data base and any proprietary data, processes, information and documentation made available to Customer (other than which are or become part of the public domain or are legally required to be made available to the public) (collectively, the "Information"), are the exclusive and confidential property of Custodian or its suppliers. However, for the avoidance of doubt, reports generated by Customer containing information relating to the Account(s) are not deemed to be within the meaning of the term "Information". Customer shall keep the Information confidential by using the same care and discretion that Customer uses with respect to its own confidential property and trade secrets, but not less than reasonable care. Upon termination of the Agreement or the licenses granted herein for any reason, Customer shall return to Custodian any and all copies of the Information which are in its possession or under its control. The provisions of this Section 3 shall not affect the copyright status of any of the Information which may be copyrighted and shall apply to all information whether or not copyrighted.

4. Modifications. Custodian reserves the right to modify the Software from time to time and Customer shall install new releases of the Software as Custodian may direct. Customer agrees not to modify or attempt to modify the Software without Custodian's prior written consent. Customer acknowledges that any modifications to the Software, whether by Customer or Custodian and whether with or without Custodian's consent, shall become the property of Custodian.

5. NO REPRESENTATIONS OR WARRANTIES. CUSTODIAN AND ITS MANUFACTURERS AND SUPPLIERS MAKE NO WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE SOFTWARE, THE SYSTEM, ANY SERVICES OR ANY DATABASE, EXPRESS OR IMPLIED, IN FACT OR IN LAW, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. CUSTOMER ACKNOWLEDGES THAT THE SOFTWARE, THE SYSTEM, ANY SERVICES AND ANY DATABASE ARE PROVIDED "AS IS." TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL CUSTODIAN OR ANY SUPPLIER BE LIABLE FOR ANY DAMAGES, WHETHER DIRECT, INDIRECT SPECIAL, OR CONSEQUENTIAL, WHICH CUSTOMER MAY INCUR IN CONNECTION WITH THE SOFTWARE, SERVICES OR ANY DATABASE, EVEN IF CUSTODIAN OR SUCH SUPPLIER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL CUSTODIAN OR ANY SUPPLIER BE LIABLE FOR ACTS OF GOD, MACHINE OR COMPUTER BREAKDOWN OR MALFUNCTION, INTERRUPTION OR MALFUNCTION OF COMMUNICATION FACILITIES, LABOR DIFFICULTIES OR ANY OTHER SIMILAR OR DISSIMILAR CAUSE BEYOND THEIR REASONABLE CONTROL.

6. Security; Reliance; Unauthorized Use. Custodian will establish security procedures to be followed in connection with the System. Customer understands and agrees that the security procedures are intended to determine whether instructions received by Custodian through the System are authorized but are not (unless otherwise specified in writing) intended to detect any errors contained in such instructions. Customer will cause all persons utilizing the Software and the System to treat all applicable user and authorization codes, passwords and authentication keys with the highest degree of care and confidentiality. Custodian is hereby irrevocably authorized to comply with and rely upon on Written Instructions, whether or not authorized, received by it through the System in accordance with the security procedures. Customer acknowledges that it is its sole responsibility to assure that only Authorized Persons use the System and that to the fullest extent permitted by applicable law Custodian shall not be responsible nor liable for any unauthorized use thereof or for any losses sustained by Customer arising from or in connection with the use of the System or Custodian's reliance upon and compliance with Written Instructions received through the System.

7. System Acknowledgments. Custodian shall acknowledge through the System its receipt of each transmission communicated through the System, and in the absence of such acknowledgment Custodian shall not be liable for any failure to act in accordance with such transmission and Customer may not claim that such transmission was received by Custodian.

8. EXPORT RESTRICTIONS. EXPORT OF THE SOFTWARE IS PROHIBITED BY UNITED STATES LAW. CUSTOMER MAY NOT UNDER ANY CIRCUMSTANCES RESELL, DIVERT, TRANSFER, TRANSSHIP OR OTHERWISE DISPOSE OF THE SOFTWARE (IN ANY FORM) IN OR TO ANY OTHER COUNTRY. IF CUSTODIAN DELIVERED THE SOFTWARE TO CUSTOMER OUTSIDE OF THE UNITED STATES, THE SOFTWARE WAS EXPORTED FROM THE UNITED STATES IN ACCORDANCE WITH THE EXPORT ADMINISTRATION REGULATIONS. DIVERSION CONTRARY TO U.S. LAW IS PROHIBITED. Customer hereby authorizes Custodian to report its name and address to government agencies to which Custodian is required to provide such information by law.

9. Encryption. Customer acknowledges and agrees that encryption may not be available for every communication through the System, or for all data. Customer agrees that Custodian may deactivate any encryption features at any time, without notice or liability to Customer, for the purpose of maintaining, repairing or troubleshooting the System or the Software.

10. On-Line Inquiry and Modification of Records. In connection with Customer's use of the System, Custodian may, at Customer's request, permit Customer to enter data directly into a Custodian database for the purpose of modifying certain information maintained by Custodian's systems, including, but not limited to, change of address information. To the extent that Customer is granted such access and to the extent permitted under Florida law, Customer agrees to indemnify and hold Custodian harmless from all loss, liability, cost, damage and expense (including attorney's fees and expenses) to which Custodian may be subjected or which may be incurred in connection with any claim which may arise out of or as a result of changes to Custodian database records initiated by Customer.

COPY

CERTIFICATE OF AUTHORIZED PERSONS
(Customer - Oral and Written Instructions)

The undersigned hereby certifies that John C. Hitt is the duly elected and acting President of University of Central Florida (the"Customer/Corporation"), and further certifies that the following officers or employees of the Customer/Corporation have been duly authorized in conformity with the Articles of Incorporation and By-Laws to deliver Oral and Written Instructions to The Bank of New York Mellon Trust Company, N.A. Title: President

Date: January 8, 2010

Disclosure

Upon appointment of The Bank of New York Mellon Trust Company, N.A. as Domestic Custodian,

University of Central Florida

Shall be responsible for the payment of the fees, expenses and charges as set forth in this Fee Schedule.

ANNUAL ADMINISTRATIVE FEE:

An annual fee covering the duties and responsibilities related to account administration, which may include maintenance of accounts on various systems, collection and payment of principal and interest on assets held in the account. Fees are calculated based on the total market value of assets in arrears on a quarterly billing cycle.

Total Market Value: ..... **2.5 basis points**

INVESTMENT and SECURITY TRANSACTION COMPENSATION

Bank Money Market Sweep/Maintenance Fee*:	**Waived**
Book Entry Purchases, Sales and Wire/Check Trans*	**$10.00**

*First 6 months waive 10 transaction charges per month
*After 6 months 5 free transaction charges per month(15 per qtr)
*Waive for transitional transactions when ConvergEX used for Service

ON LINE INTERNET ACCESS FEES

INFORM BASIC:	**Waived**

OUT-OF-POCKET EXPENSES

These are charges outside of normal duties and usually requested by the client. An example would be the Client or Client Money Manager request prior 3 year period of statements to be sent overnight by courier. Additional out-of-pocket expenses may include, but are not limited to, telephone; facsimile; courier; copying; postage; supplies, termination fees and expenses of The Bank of New York Trust Company, N.A. or The Bank of New York representative(s) and Counsel for attending special meetings and related cost.

MISCELLANEOUS

Charges for performing extraordinary, global transactions or other services not contemplated at the time of the execution of the transaction or not specifically covered elsewhere in this schedule will be determined by appraisal in amounts commensurate with the services to be provided. Additional information will be provided at such time. Miscellaneous fees may include, but are not necessarily limited to the following, if applicable: Not in Bank assets, auditor confirmation fees, transaction fees to settle unusual transactions or create customized statements/reports.

MONEY MARKET FUNDS - With respect to investments in money market mutual funds or other type of money market alternative products, BNY (or its affiliates) may also receive and retain additional fees not reflected in this agreement from these products for shareholder services or other similar fees described in the Prospectus and set fourth in the Authorization and Direction to BNY to Invest Cash Balances in Money Market Mutual Funds or other products.

FEE CYCLE

Administrative, Transaction and other Non Money Market related fees will be billed quarterly in arrears.

TERMS OF PROPOSAL

Final acceptance of the appointment as account agreement is subject to approval of authorized officers of BNY and full review and execution of all documentation related hereto. If applicable please note that if this transaction does not close, you will be responsible for paying any expenses incurred, including Counsel Fees. We reserve the right to terminate this offer if we do not enter into final written documents within three months from the date this document is first transmitted to you. These fees are good from the date of client acceptance based on services expressed and contemplated at the time of the proposal.

CUSTOMER NOTICE REQUIRED BY THE USA PATRIOT ACT

To help the US government fight the funding of terrorism and money laundering activities, US Federal law requires all financial institutions to obtain, verify, and record information that identifies each person (whether an individual or organization) for which a relationship is established.

What this means to you: When you establish a relationship with BNY, we will ask you to provide certain information (and documents) that will help us to identify you. We will ask for your organization's name, physical address, tax identification or other government registration number and other information that will help us to identify you. We may also ask for a Certificate of Incorporation or similar document or other pertinent identifying documentation for your type of organization.

CLASS ACTION

( ) Send all class action notices and forms to the Client/Customer.
( ) Send all class action notices and forms to the appointed Money Managers.
(X) Custodian submits all class action forms and information to the Class Action Claims Administrator

SEC 14b-2:

We are required by the Security and Exchange Commission Regulations to solicit your authorization with respect to Rule 14b-2. As you may be aware, the Securities and Exchange Commission adopted this rule to facilitate direct communications between companies that issue securities and the holders who own securities.

Securities and Exchange Commission ("SEC") shareholder communications rules and the Shareholders Communications Act of 1985 (the "Act") require the Bank of New York ("BNY") to disclose to issuers of U.S. securities, upon the issuers' request, the name, address and securities position of our customers who are the "beneficial owners" (as defined in the Act) of the issuer's securities held by BNY, if the beneficial owner does not object to such disclosure. (For these purposes, securities include debt and equity securities, including bonds, money market funds and mutual funds.) The Act also requires BNY to disclose to issuers of U.S. securities, upon the issuers' request, the name and address of our customers who are acting as a "respondent bank" (as defined in the Act) with respect to the securities held by BNY. Under the Act, "respondent banks" do not have the option of objecting to such disclosure upon the issuers' request.

The Act defines a "beneficial owner" as any person who has, or shares, the power to vote a security (pursuant to an agreement or otherwise), or who directs the voting of a security. The Act defines a "respondent bank" as any bank, association or other entity that exercises fiduciary powers which holds securities on behalf of beneficial owners and deposits such securities for safekeeping with a bank, such as BNY. Under the Act, you are either the "beneficial owner" or a "respondent bank."

In accordance with these requirements, please check the appropriate boxes below, *sign this form,* and return it to me. Please do not hesitate to contact me if you have any questions.

By signing this form, you agree that: (i) your selections below apply to all of your current BNY accounts and to all BNY accounts you may open in the future; and (ii) your selections below amend any contrary selections or directions in any prior agreement or other prior writing from you as to your status as a beneficial owner or respondent bank, and, for beneficial owners, as to your objection or non-objection to the disclosure of your information to requesting issuers.

For "beneficial owners" and "respondent banks," please complete the following:

(X) I am the beneficial owner of the securities held by BNY.
( ) I am not the beneficial owner of the securities held by BNY, but I am acting as a "respondent bank" with respect to the securities held by BNY.

"Respondent banks" will receive an omnibus proxy and will need to make their own proxy voting arrangements for their clients to vote as part of the omnibus proxy.
If we do not receive a response within 10 business days, we will assume that you are the beneficial owner, and we will follow the procedure below for beneficial owners.

For "beneficial owners" only, please complete the following:

( ) I object to the disclosure of my name, address, and securities position to requesting issuers.
(X) I do not object to the disclosure of my name, address, and securities position to requesting issuers.

For your protection, SEC regulations prohibit any Issuer from using this information for any purpose other than communicating with its shareholders. Please note, however, that should we not receive your response within 10 business days, *we will assume you have no objection to the disclosure of this information and we will make this information available to any issuer of securities that we hold for you, upon the issuer's request.*

Mutual Fund Transaction Processing

Pursuant to the Custody Agreement (the "Agreement") between ("Customer") and The Bank of New York ("BNY"), Customer may, from time to time, authorize and direct BNY (or its nominee), as agent for Customer, to process purchases, redemptions or exchange orders ("Transactions") for registered investment company ("Fund") shares, as well as submit all documents and information required by such Fund and provided by Customer to BNY, as well as to make or receive payment, in accordance with the terms of such Fund Transactions.

In connection with the foregoing, each direction and authorization from Customer relating to a Transaction shall constitute a representation and warranty from Customer that Customer (a) has reviewed, understands and accepts the terms of the relevant prospectus for such Fund, including the fees and expenses borne by the Fund, and is in compliance with the prospectus for such Fund, including the eligibility requirements of each Fund; (b) will comply with the requirements of the prospectus for such Fund, including the restrictions on frequent trading and redemption fee provisions of such prospectus; and (c) is the beneficial owner of the Fund shares or has the authority to sign as agent for and to act on behalf of the beneficial owner. Customer acknowledges and agrees that BNY has not exercised investment discretion in connection with the beneficial owner's decision to purchase, redeem or exchange the Fund shares that are the subject of the Transaction. Customer hereby agrees to be bound by any such other terms and conditions of ownership whether they be required by a Fund or BNY.

Customer acknowledges and agrees that BNY may use the services of an unaffiliated sub-custodian or broker (the "Service Provider") to effect the purchase, redemption or exchange of Fund shares, to clear and settle Fund Transactions and to sub-custody Fund shares. Customer also acknowledges and agrees that each Fund and its investment adviser(s), distributor(s) and/or administrator(s) (each an "Agent") may make payments to the Service Provider in connection with certain services provided to the Fund by the Service Provider (such as "shareholder servicing" fees), all or a portion of which may be paid by the Service Provider to BNY. The Fund or its Agents may also make payments to the Service Provider for facilitating the purchase, sale or exchange of Fund shares (Rule 12b-1 distribution fees). Customer further acknowledges and agrees that a Fund may (a) purchase securities from or through BNY or its affiliates; (b) engage in repurchase transactions in

which BNY or its affiliates may act as clearing bank or custodian; (c) place funds on deposit in accounts with BNY or its affiliates and receive interest income thereon; or (d) obtain other services from BNY or its affiliates that may result in fees for BNY or its affiliates. Customer hereby consents to the receipt of fees by the Service Provider or BNY and the transactions described in this paragraph.

Board of Trustees
Finance Committee Meeting Minutes
October 21, 2008

Trustee Conrad Santiago, chair of the Finance Committee, called the meeting to order in the President's Boardroom at 8:30 a.m. In addition to Chair Santiago, committee member Manoj Chopra was present. Committee members Rick Walsh, Tom Yochum, and Pat Christiansen attended via teleconference.

APPROVAL OF MINUTES
The minutes of the August 26, 2008, meeting were approved.

OLD BUSINESS
Fraternity houses purchase update
Maribeth Ehasz, Vice President for Student Development and Enrollment Services, briefly reported that an agreement had been reached on prices for both houses: $1.5 million for the SAE House and $1.46 million for the SPE House. The UCF Housing and Residence Life cash reserves will be used to purchase these houses. The closings should occur in two months, after which renovations on the houses will begin and decisions will be made about the Greek organizations that will occupy each house. The houses should be occupied by fall of 2009 and the rental income will go to UCF Housing and Residence Life.

CDARS investments update
William Merck, Vice President for Administration and Finance, gave a brief update on the investment of a portion of the university's cash balances into the Certificate of Deposit Registry System (CDARS) program. Within the past year, the Board of Trustees adopted an investment policy to allow diversification of university cash balances beyond the limited options allowed in state statutes absent a board policy. Subsequently, within the parameters of the new policy, the board directed staff member to review the CDARS with an objective of moving $50 million into this program. After a thorough review and a bid process, the committee chose CNL Bank to work within the CDARS program and invested $50 million in two tranches. The first $30 million was divided into thirds, laddered with a 9-month maturity at 3.85%, a 12-month maturity at 4.05%, and a 15-month maturity at 4.25%. One week later, the second tranche invested with half at 6 month's maturity at 3.45% and 15 months at 4.05%.

NEW BUSINESS
2009 Finance Committee meeting dates
Chair Santiago reviewed a list of future meeting dates with the committee and it was approved.

Public funds banking resolution
W. Scott Cole, Vice President and General Counsel, reported that the CDARS transactions with CNL Bank required that a board resolution be adopted giving signatory authority to specific UCF staff members William Merck, Vanessa Fortier, and Tracy Clark, to conduct business with CNL. Scott reported that two signatures would be needed for transactions. The resolution was approved.

Operating budget status
Vanessa Fortier, Associate Vice President for Administration and Finance, reported on the status of the operating budget, reviewing the budget presentation contained in the agenda materials.

Review of UCF's draft financial statements
In past years, the UCF annual financial statements have been presented to the Board of Trustees after they have been audited and printed in a final document. In a change in procedure, the controller presented draft financial statements to the Finance Committee for review and comment well in advance of the preparation of final documents. This presentation led to a number of constructive comments from the committee that will make the final documents much clearer to the reader. The normal process results in the June 30 year-end financial statements being seen by the Board after the state releases its final audited report in the following spring. By that time it is a good historical document, but not timely in the sense of providing a management tool to the Finance Committee. This new procedure allows for constructive comment, as well as a timely look at the statements.

Letters of credit for t he UCF Convocation Corporation and the UCF Finance Corporation
William Merck, Vice President for Administration and Finance, reported that the three-year evergreen letter of credit with the Bank of America that replaced approximately $7.5 million taken from the convocation center housing reserves to build the event garage was renewed for an additional year for 85 basis points. The annual fee for the outstanding letter of credit will remain at 25 basis points for the remaining two years of the original agreement. The UCF Finance Corporation also has a letter of credit with Fifth Third Bank. This letter of credit was in lieu of bond insurance supporting $60 million in bonds issued for the Burnett Bio Medical Building at Lake Nona. The original letter of credit was issued for ten years at an annual cost of 24 basis points. This letter of credit is not being renewed by Fifth Third; but since only nine years remain on the balance, this situation does not pose an immediate problem for UCF.

Support Agreement Fund Balances Report
William Merck reviewed the support agreement fund balances report that shows coverage of 8.5 times the required maximum annual debt service on the convocation center and stadium projects. The support agreement requires a minimum coverage of 2 times.

Revised stadium projections and taxable debt payment schedule
Brad Stricklin, Associate Athletic Director of Business and Finance, UCFAA, Inc., reviewed the subject documents that reflected the changes requested by the committee in the last meeting. Chair Santiago commented on the likely changes that will occur in the amounts shown for ticket sales and donor contributions. He requested that these numbers be updated for the next meeting and further updates provided every six months.

New Regulation
Scott Cole brought to the committee's attention that a new regulation will soon be presented to the committee by the College of Medicine requesting a waiver of out-of-state tuition for medical students since the tuition charges for all students, in- or out-of state have been set at $20,000. Following the committee's action, the regulation will go to the full board. This material will be prepared for the committee in the next few weeks.

CLOSING COMMENTS
With no further items for discussion, Chair Santiago adjourned the meeting at 10:07 a.m.

Respectfully Submitted: _____ Date: _____
William F. Merck II
Vice President, Administration and Finance
and Chief Financial Officer

BOARD OF GOVERNORS
STATE UNIVERSITY SYSTEM OF FLORIDA
December 6, 2007

SUBJECT: Regulation 9.007 – State University Operating Budgets

PROPOSED BOARD ACTION

Approve Regulation 9.007 – State University Operating Budgets

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Section 7(d), Art. IX, Florida Constitution

BACKGROUND INFORMATION

Regulation 9.007 – State University Operating Budgets - was approved for public notice at the September 2007 meeting.

The Board of Governors, Budgeting and Fiscal Policy Office, coordinates the annual operating budget submission process for the State University System. Operating budgets shall be prepared by each university president, for approval by the University's Board of Trustees, in accordance with instructions, guidelines, and standard formats provided by the Board of Governors. Operating budgets approved by the Board of Trustees are presented to the Board of Governors for approval on an annual basis.

No public comments or amendments were made to this regulation.

Supporting Documentation Included: Regulation 9.007

Facilitators/Presenters: Tim Jones, Executive Director

New

Regulation BOG-9.007 State University Operating Budgets

(1) Each university president shall prepare an operating budget for approval by the University Board of Trustees, in accordance with instructions, guidelines, and standard formats provided by the Board of Governors.

(2) Each University Board of Trustees shall adopt an operating budget for the general operation of the university as prescribed by the regulations of the Board of Governors. The University Board of Trustees-ratified operating budget is presented to the Board of Governors for approval. Each university president shall implement the operating budget of the university as prescribed by regulations of the Board of Governors, policies of the University Board of Trustees, provisions of the General Appropriations Act, and data reflected within the Allocation Summary.

(3) The operating budgets of each state university shall represent the following budget entities:

(a) Educational and General (E&G)– reports actual and estimated year operating revenues and expenditures (actual year expenditures should include year-end encumbrances) for all E&G funds, including: General Revenue, Student and Other Fees, Educational Enhancement Trust Fund (Lottery), Phosphate Research Trust Fund – and including the following previously-appropriated trust funds: Experiment Station Federal Grant, Experiment Station Incidental, Extension Service Federal Grant, Extension Service Incidental, UF-HSC Incidental, and UF-Health Science Center Operations and Maintenance.

1. The E&G budget funds the general instruction, research, public service, plant operations and maintenance, student services, libraries, administrative support, and other enrollment-related and stand-alone operations of the universities. Universities shall accumulate ending fund balances for activities such as, but not limited to, a contingency for unfunded enrollment growth, potential budget reductions, anticipated increases in university operations, and prior year encumbrances. At any time the unencumbered available balance in the E&G fund of the University Board of Trustees approved operating budget falls below five (5) percent of the approved total, the president shall provide a written notification and explanation to the Board of Governors.

2. Expenditures from any source of funds by any university shall not exceed the funds available. No expenditure of funds, contract, or agreement of

any nature shall be made that requires additional appropriation of state funds by the Legislature unless specifically authorized in advance by law or the General Appropriations Act.

3. The following units are required to report under this budget entity:

State Universities
UF-Institute of Food and Agricultural Science
UF Health Science Center
USF Medical Center
FSU Medical School
UCF Medical School
FIU Medical School

(b) Contracts and Grants – reports actual and estimated year revenues, expenditures, and positions for university functions which are supported by foundations, various state and federal agencies, local units of governments, businesses, and industries.

(c) Auxiliary Enterprises – reports actual and estimated year revenues, expenditures, and positions for self-supporting functions such as, but not limited to, parking services, housing, bookstore operations, and food services.

(d) Local Funds – reports actual and estimated year revenues, expenditures, and positions for the following specific areas:

1. Student Activities – revenues generated primarily from the activity and service fee each university is authorized to charge its students as a component of the mandatory fee schedule. Activities commonly supported by these revenues include student government, cultural events, student organizations, and intramural/club events.

2. Intercollegiate Athletics – revenues generated from the student athletic fee that each university is authorized to collect as a component of the mandatory fee schedule, and from other sources including ticket sales, radio/TV, bowl games, and tournament revenues.

3. Concession Fund – revenues generated from various vending activities located around the campuses. The University's budget must reflect the various departments/activities on each campus which benefit from receipt of these funds.

4. Student Financial Aid – revenues received by the university for loans, grants, scholarships, and other student financial aid. Expenditures of these funds must be reported by activities such as externally-funded loans, student scholarships, need-based financial aid, academic-based financial aid, and athletic grants/scholarships.

5. Self-Insurance Programs – revenues received by the university from entities and individuals protected by the self-insurance programs. This budget must reflect expenditures related to the administration of the self insurance programs and the judgments or claims arising out of activities for which the self- insurance program was created.

(e) Faculty Practice Plan – related to the activities for the state universities' medical schools and health centers. This budget must be designed to report the monetary level of clinical activity regarding the training of students, post-graduate health professionals, and medical faculty.

(4) The operating budgets of each university shall represent the following:

(a) The university's plan for utilizing the resources available through direct or continuing appropriations by the Legislature, allocation amendments, or from local sources including tuition. The provisions of the General Appropriations Act and the Allocation Summary will be taken into consideration in the development and preparation of the E&G data.

(b) Actual prior-year revenues, expenditures (including prior-year encumbrances), and positions (excluding E&G carry forward amounts expended, except on Schedule I reports) and current-year estimated revenues, expenditures, and positions.

(c) Assurance that the universities are in compliance with general legislative intent for expenditure of the appropriated state funds and with the BOG guidelines and priorities.

(5) Interest earnings resulting from the investment of current-year educational and general appropriations are considered to be of the same nature as the original appropriations, and are subject to the same expenditure regulations as the original appropriations. E&G interest earnings are not to be utilized for fixed capital outlay expenditures. Interest earnings resulting from invested carry forward funds are considered to be additions to the university's carry forward balance, and are not reported in the annual operating budget with the exception of the manually-prepared

estimated year E&G Schedule I reports.

Anticipated interest earnings for the estimated year from invested E&G funds should not be included when building the detailed operating budget schedules. Estimated year E&G interest earnings and planned expenditures of these funds should only be reported on the manually-prepared E&G Schedule I and Summary Schedule I reports.

(6) Any unexpended E&G appropriation carried forward to the fund balance in a new fiscal year shall be utilized in support of E&G operating activities only.

Specific Authority: Article IX, Section 7(d), Florida Constitution; Section 216.023, Florida Statutes; New _____.

FLORIDA BOARD OF GOVERNORS
NOTICE OF PROPOSED REGULATION AMENDMENT

DATE: September 17, 2013

REGULATION NUMBER AND TITLE: 9.007 State University Operating Budgets

SUMMARY:

This regulation is being amended to include the following changes:

- Adds clarifying language that university carry forward funds shall be included in annual expenditure data.
- Adds clarifying language that Education & General funds are to be used for operating activities, unless specifically authorized by law.
- Adds language requiring universities to comply with all applicable federal, state, and local laws when implementing grants, contracts and sponsored research programs.
- Adds language regarding the inclusion of technology fee revenues/expenditures and Board approved fees in the annual operating budget submissions.
- Adds clarifying language that Education & General interest earnings should be used for Education & General operating purposes, unless specifically authorized by law.

FULL TEXT OF THE REGULATION IS INCLUDED WITH THIS NOTICE.

AUTHORITY TO PROPOSE REGULATION(S): Section 7(d), Art. IX, Fla. Const.; BOG Regulation Development Procedure dated March 23, 2006.

THE BOARD OF GOVERNORS' OFFICIAL INITIATING THE PROPOSED REGULATION: Tim Jones, Chief Financial Officer

COMMENTS REGARDING THE PROPOSED REGULATION SHOULD BE SUBMITTED WITHIN 14 DAYS OF THE DATE OF THIS NOTICE TO THE CONTACT PERSON IDENTIFIED BELOW. The comments must identify the regulation on which you are commenting:

General Counsel, Board of Governors, State University System, 325 W. Gaines Street, Suite 1614, Tallahassee, Florida 32399, (850) 245-0466 (phone), (850) 245-9685 (fax), or generalcounsel@flbog.edu.

9.007 State University Operating Budgets

(1) Each university president shall prepare an operating budget for approval by the uUniversity bBoard of tTrustees, in accordance with instructions, guidelines, and standard formats provided by the Board of Governors.

(2) Each uUniversity bBoard of tTrustees shall adopt an operating budget for the general operation of the university as prescribed by the regulations of the Board of Governors. The uUniversity bBoard of tTrustees-ratified operating budget is presented to the Board of Governors for approval. Each university president shall implement the operating budget of the university as prescribed by regulations of the Board of Governors, policies of the uUniversity bBoard of tTrustees, provisions of the General Appropriations Act, and data reflected within the State University System Allocation Summary and Workpapers publication.

(3) The operating budgets of each state university shall represent the following budget entities:

(a) Education and General (E&G)– reports actual and estimated year operating revenues and expenditures ~~(actual year expenditures should include year-end encumbrances)~~ for all E&G funds, including: General Revenue, Student and Other Fees, Educational Enhancement Trust Fund (Lottery), Phosphate Research Trust Fund, – and including the following previously-appropriated trust funds: Experiment Station Federal Grant, Experiment Station Incidental, Extension Service Federal Grant, Extension Service Incidental, UF-HSC Incidental, and UF-Health Science Center Operations and Maintenance. In addition, expenditures from university carryforward funds (unexpended E&G balances from all prior-period appropriations) shall be included in the actual history year reporting. University carryforward funds shall not be included in any estimated-year (budgeted) amounts.

1. Unless otherwise expressed by law, E&G funds are to be used for E&G operating activities only, such as, but not limited to, general instruction, research, public service, plant operations and maintenance, student services, libraries, administrative support, and other enrollment-related and stand-alone operations of the universities.

~~1.~~2. Universities shall accumulate ending fund balances for activities such as, but not limited to, a contingency for unfunded enrollment growth, potential budget reductions, anticipated increases in

university operations, and prior year encumbrances. At any time the unencumbered available balance in the E&G fund of the u~~U~~niversity b~~B~~oard of t~~T~~rustees approved operating budget falls below five (5) percent of the approved total, the president shall provide a written notification and explanation to the Board of Governors.

3. Expenditures from any source of funds by any university shall not exceed the funds available. No expenditure of funds, contract, or agreement of any nature shall be made that requires additional appropriation of state funds by the Legislature unless specifically authorized in advance by law or the General Appropriations Act.

4. The following units are required to report under this budget entity:

   State Universities
   UF - Institute of Food and Agricultural Science
   UF Health Science Center
   USF Medical Center
   FSU Medical School
   UCF Medical School
   FIU Medical School
   FAU Medical School

(b) Contracts and Grants – reports actual and estimated year revenues, expenditures, and positions for university functions which are supported by foundations, various state and federal agencies, local units of governments, businesses, and industries. Universities shall comply with all applicable federal, state, local, and university regulations and guidelines as they relate to grants, contracts, and sponsored research programs.

(c) Auxiliary Enterprises – reports actual and estimated year revenues, expenditures, and positions for self-supporting functions such as, but not limited to, parking services, housing, bookstore operations, and food services.

(d) Local Funds – reports actual and estimated year revenues, expenditures, and positions for the following specific areas:

1. Student Activities – revenues generated primarily from the activity and service fee each university is authorized to charge its students as a component of the mandatory fee schedule.

Activities commonly supported by these revenues include student government, cultural events, student organizations, and intramural/club events.

2. Intercollegiate Athletics – revenues generated from the student athletic fee that each university is authorized to collect as a component of the mandatory fee schedule, and from other sources including ticket sales, radio/TV, bowl games, and tournament revenues.

3. Concession Fund – revenues generated from various vending activities located around the campuses. The u~~U~~niversity's budget must reflect the various departments/activities on each campus which benefit from receipt of these funds.

4. Student Financial Aid – revenues received by the university for loans, grants, scholarships, and other student financial aid. Expenditures of these funds must be reported by activities such as externally-funded loans, student scholarships, need-based financial aid, academic-based financial aid, and athletic grants/scholarships.

5. Technology Fee – revenues generated from the technology fee that a university is authorized to charge its students as a component of the mandatory fee schedule. Proceeds from this fee shall be used to enhance instructional technology resources for students and faculty.

6. Board-Approved Fees – student fees presented to the Board of Governors for approval by a university board of trustees that is intended to address a student need not currently being met through existing university services, operations, or another fee.

~~5.~~7. Self-Insurance Programs – revenues received by the university from entities and individuals protected by the self-insurance programs. This budget must reflect expenditures related to the administration of the self insurance programs and the judgments or claims arising out of activities for which the self-insurance program was created.

(e) Faculty Practice Plan – related to the activities for the state universities' medical schools and health centers. This budget must be designed to

report the monetary level of clinical activity regarding the training of students, post-graduate health professionals, and medical faculty.

(4) The operating budgets of each university shall represent the following:

(a) The university's plan for utilizing the resources available through direct or continuing appropriations by the Legislature, allocation amendments, or from local sources including tuition. The provisions of the General Appropriations Act and the SUS Allocation Summary and Workpapers publication will be taken into consideration in the development and preparation of the E&G data.

(b) Actual prior-year revenues, expenditures ~~(including prior year encumbrances)~~ (including E&G carryforward amounts expended), and positions, as well as current-year estimated revenues, expenditures, and positions. University carryforward funds shall not be included in any estimated-year (budgeted) amounts.

(c) Assurance that the universities are in compliance with general legislative intent for expenditure of the appropriated state funds and with the Board of Governors' guidelines and priorities.

(5) Interest earnings resulting from the investment of current-year E&G appropriations are considered to be of the same nature as the original appropriations, and are subject to the same expenditure regulations as the original appropriations. E&G interest earnings are not to be utilized for non-E&G related activities or for fixed capital outlay activities except where expressly allowed by law. Interest earnings resulting from invested carryforward funds are considered to be additions to the university's carryforward balance.

Anticipated interest earnings for the estimated year from invested E&G funds should not be included when building the detailed operating budget schedules. Estimated-year E&G interest earnings and planned expenditures of these funds should only be reported on the manually-prepared E&G Schedule I and Summary Schedule I reports.

(6) Any unexpended E&G appropriation carried forward to the fund balance in a new fiscal year shall be utilized in support of E&G operating activities only except where expressly allowed by law..

STATE OF FLORIDA AUDITOR GENERAL

Operational Audit

Report No. 2020-005
July 2019

FLORIDA INTERNATIONAL UNIVERSITY

Sherrill F. Norman, CPA
Auditor General

Board of Trustees and President

During the period January 2017 through December 2017, Dr. Mark B. Rosenberg served as President of Florida International University and the following individuals served as Members of the Board of Trustees:

Claudia Puig, Chair
Jorge L. Arrizurieta, Vice Chair
Cesar L. Alvarez J.D.
Dr. Jose J. Armas M.D.
Leonard Boord
Alian Collazo through 5-14-17 [a]
Dean C. Colson from 3-30-17
Gerald C. Grant Jr.
Michael G. Joseph
Natasha Lowell
Albert Maury through 3-29-17
Justo L. Pozo
Marc D. Sarnoff
Krista M. Schmidt from 5-15-17 [a]
Dr. Kathleen L. Wilson [b]

[a] Student Body President.
[b] Faculty Senate Chair.

The team leader was Elias I. Jaime, CPA, and the audit was supervised by Hector J. Quevedo, CPA.

Please address inquiries regarding this report to Jaime N. Hoelscher, CPA, Audit Manager, by e-mail at jaimehoelscher@aud.state.fl.us or by telephone at (850) 412-2868.

This report and other reports prepared by the Auditor General are available at:

FLORIDA INTERNATIONAL UNIVERSITY

SUMMARY

This operational audit of Florida International University (University) focused on selected University processes and administrative activities and included a follow-up on findings noted in our report No. 2016-187. Our operational audit disclosed the following:

Finding 1: University textbook affordability procedures continue to need improvement.

Finding 2: The University over allocated $8.2 million net investment income to the Auxiliary Enterprises Fund and under allocated that same amount to other funds, which increased the risk that income from restricted resources will not be used consistent with the restrictions governing those resources.

Finding 3: University procedures need improvement to ensure that investment information required by State law is presented to the Board and investment account reconciliations are performed timely.

Finding 4: The University made severance payments that exceeded the limits established in State law. A similar finding was noted in our report No. 2016-187.

Finding 5: University rules and records supporting University property, facilities, and personal services used by the University direct-support organizations (DSOs) could be improved. In addition, absent legal authority, the University should discontinue the transfer of royalty and licensing fees to DSOs.

Finding 6: The University intercollegiate athletic programs were not self-supporting and continued to experience fund deficits.

Finding 7: The University did not always timely cancel purchasing card privileges when a cardholder separated from University employment.

Finding 8: Certain University information technology (IT) access controls over finance applications need improvement.

Finding 9: Some unnecessary IT user access privileges existed that increase the risk that unauthorized disclosure of sensitive personal information of students may occur.

BACKGROUND

The Florida International University (University) is part of the State university system of public universities, which is under the general direction and control of the Florida Board of Governors (BOG). The University is directly governed by a Board of Trustees (Trustees) consisting of 13 members. The Governor appoints 6 citizen members and the BOG appoints 5 citizen members. These members are confirmed by the Florida Senate and serve staggered 5-year terms. The Faculty Senate Chair and Student Body President also are members.

The BOG establishes the powers and duties of the Trustees. The Trustees are responsible for setting University policies, which provide governance in accordance with State law and BOG Regulations. The University President is selected by the Trustees and confirmed by the BOG. The University President

serves as the Executive Officer and the Corporate Secretary of the Trustees and is responsible for administering the policies prescribed by the Trustees for the University.

FINDINGS AND RECOMMENDATIONS

Finding 1: Textbook Affordability

State law[1] requires each university to post prominently in the course registration system and on its Web site, as early as feasible, but at least 45 days before the first day of class for each term, a hyperlink to lists of required and recommended textbooks and instructional materials for at least 95 percent of all courses and course sections offered at the university during the upcoming term. In addition, State law[2] requires universities to report to the Chancellor of the State University System (SUS) no later than September 30, 2017, the number of courses and course sections that were not able to meet the textbook and instructional materials posting deadline for the previous fiscal year.

According to University personnel, course instructors submit a list of required and recommended textbooks and instructional materials to the Bookstore Vendor to determine whether the items are available for purchase. If immediately available, the textbooks and instructional materials are posted on the University Web site and in the student registration system. University guidelines[3] also require course instructors to confirm to the Bookstore Vendor the courses and course sections that will require no textbooks or instructional materials.

Our examination of University records supporting textbooks and instructional materials for the Spring, Summer, and Fall 2017 Semesters and discussions with University personnel disclosed that:

- The University contracted with the Bookstore Vendor to manage and operate the bookstore, as well as compile and post adopted textbooks and instructional materials in the course registration system and on the University Bookstore Web site. Table 1 shows, for the Spring, Summer, and Fall 2017 Semesters, the posted status of course sections and the percentage of course sections timely posted.

Table 1
Textbook and Instructional Materials Postings

Posted Status	Spring 2017 Course Sections	Summer 2017 Course Sections	Fall 2017 Course Sections
Timely	6,996	3,355	7,619
Late	499	196	738
Not Posted	281	145	317
Totals	**7,776**	**3,696**	**8,674**
Percent Timely	**90%**	**91%**	**88%**

Source: University records.

[1] Section 1004.085(6), Florida Statutes.
[2] Section 1004.085(8), Florida Statutes.
[3] University Textbook Adoption Process.

As the University only timely posted the textbooks and instructional materials for 90, 91, and 88 percent of the course sections during the Spring, Summer, and Fall 2017 Semesters, respectively, the University did not comply with State law requiring such information be timely posted for at least 95 percent of the course sections. In response to our inquiries, University personnel indicated that delays occurred because, for several course sections, the instructors revised the textbook and instructional material information that would be used in their respective courses after the 45-day deadlines. The timely posting of required and recommended textbook and instructional material information in the course registration system and on the University Bookstore Web site is necessary for students to understand course textbook requirements, have sufficient time to consider textbook purchase options, and limit their textbook costs.

- The University Report to the Chancellor of the SUS for the Spring and Fall 2017 Semesters indicated that textbook and instructional materials information for 5 percent of the course sections did not meet the posting deadline and, therefore, the University represented that 95 percent of course sections met the posting deadline for each semester. In response to our inquiries regarding the differences for the 95 percent represented for both semesters and the 90 and 88 percent of textbooks and instructional materials timely posted for those semesters, respectively, University personnel indicated that the University report was based on the course section information available at the posting deadlines and, therefore, did not include changes to course sections after the posting deadline. Accurate information reported to the SUS Chancellor is required by State law and helps the Chancellor summarize and report the information by institution to the Board of Governors.

A similar finding was noted in our report No. 2016-187.

Recommendation: To promote compliance with State law and help ensure that University textbooks and instructional materials of acceptable quality are available to students at the lowest prices, the University should:

- **At least 45 days before the first day of classes, prominently post in the course registration system and on its Web site, a hyperlink to lists of required and recommended textbooks and instructional materials for at least 95 percent of all courses and course sections offered at the University during the upcoming term.**
- **Include changes to course sections made after the posting deadlines when reporting to the SUS Chancellor.**

Finding 2: Net Investment Income Allocations

Board of Governor (BOG) regulations[4] require that interest earnings resulting from the investment of current-year education and general (E&G) State appropriations be considered of the same nature and subject to the same expenditure regulations as the original appropriations. Similarly, BOG regulations provide that interest earnings resulting from invested carry forward funds be considered additions to the University's carry forward balance. As a good business practice, when restricted funds are commingled with other funds for investment purposes, it is important for records to demonstrate the equitable allocation of the generated investment income to the respective funding source to ensure that restricted income is used for purposes consistent with applicable funding restrictions.

Our examination of University records and discussions with University personnel disclosed that, for the 2017-18 fiscal year, the University maintained an average monthly investment balance of $371.9 million

[4] BOG Regulation 9.007(5), *State University Operating Budgets*.

for all University funds, including $364.6 million or 98 percent that represented various resources accounted for in the Auxiliary Enterprises[5] Fund. Table 2 details the sources of the $364.6 million that were maintained in the Auxiliary Enterprises Fund for that period, including auxiliary enterprises resources, E&G Funds resources,[6] and other resources.[7] According to University records, investment income was allocated to the respective contributing funds based on each fund's cash balance and contribution to the Auxiliary Enterprises Fund investments, and either the State of Florida Special Purpose Investment Account (SPIA) interest rate or the 30-day United States Treasury Bill (US T-Bill) interest rate, depending on the restrictive nature of each fund's resources.

Table 2
Auxiliary Enterprises Fund
Monthly Average Investment Balances

2017-18 Fiscal Year
(Amounts in Millions)

Source of Investments	Amount	Percentage
Auxiliary Enterprises Fund	$152.7	42%
E&G Funds	103.5	28%
Other Funds	108.4	30%
Total Investment Balance	**$364.6**	**100%**

Source: University records.

Table 3 details the $16.1 million in University net investment income generated by investments maintained in the Auxiliary Enterprises Fund during the 2017-18 fiscal year, including $14.9 million retained in the Auxiliary Enterprises Fund, $0.5 million allocated to E&G Funds, and $0.7 million allocated to other funds.

[5] Section 1011.47(1), Florida Statutes, defines auxiliary enterprises as activities that directly or indirectly provide a product or service, or both, to a university or its students, faculty, or staff and for which a charge is made. These auxiliary enterprises are business activities of a university which require no support from the General Revenue Fund, and include activities such as food services, bookstores, and intercollegiate athletic programs.

[6] E&G State appropriations, such as the General Revenue Fund, Educational Enhancement Fund, and College of Medicine (COM) Fund, are designated for specified operational purposes and, therefore, may not be used for major capital acquisitions.

[7] Other resources were from funds that supported housing, parking, and Federal and State grant activities.

Source: University records.

Based on the information compiled in Tables 2 and 3, we estimated that, as shown in Table 4, the University over allocated net investment income to the Auxiliary Enterprises Fund by $8.2 million and under allocated net investment income to other funding sources by that same amount.

Table 4
Estimated Net Investment Income Over (Under) Allocated

2017-18 Fiscal Year
(Amounts in Millions)

	Total Net Investment Income of $16.1 Million Multiplied By	Estimated Net Investment Income Over (Under) Allocated
Auxiliary Enterprises Fund	51% [a]	$ 8.2
E&G Funds	(25)% [b]	$(4.0)
Other Funds	(26)% [c]	$(4.2)

[a] Table 3: 93% minus Table 2: 42%.
[b] Table 3: 3% minus Table 2: 28%.
[c] Table 3: 4% minus Table 2: 30%.

The University over and under allocated these amounts because net investment income was commingled and not equitably allocated to the respective funding sources based on the investment balances attributable to each funding source. In response to our inquiries regarding the University's investment income allocation process, University personnel responded that:

- The allocation method allowed for those resources accumulated in the Auxiliary Enterprises Fund to be used to subsidize student scholarships. For example, during the 2017-18 fiscal year, the University used $5.9 million of the investment income retained in the Auxiliary Enterprises Fund to subsidize student scholarships provided through the Current Unrestricted Scholarship Fund.

- Participating funds with net negative cash balances were not allocated any investment earnings and funds with positive cash balances were allocated investment income based on the SPIA interest rate or the 30-day US T-Bill interest rate.
- The allocation process was implemented to guarantee investment income to participating funds, regardless of the actual performance of the underlying investments, and to protect participating funds, including E&G Funds, from proportionally sharing significant investment losses during periods when investments experience losses.

Notwithstanding these responses, while unrestricted investment income accumulated in the Auxiliary Enterprises Fund may be used to subsidize student scholarships, because the resources accumulated in that Fund also include earnings on restricted investment balances, the University's investment income allocation process increases the risk that income earned on restricted funds will be used to fund scholarships which is not consistent with the restrictions governing those funds. In addition, as disclosed in Table 4, certain restricted funds with positive cash balances, such as E&G Funds, were not equitably allocated investment income and, as the University investments were mainly in mutual funds (i.e., not invested exclusively in SPIA and US T-Bills), the rates used by the University to allocate investment income to funds with positive cash balances were not the actual rates of return generated by the investments.

Recommendation: The University should establish and adhere to an appropriate methodology for equitably allocating and recording investment income to the respective resources that generated the income. In addition, the University should maintain, by fund, records that adequately and accurately account for the restricted resource investments and related income. The University should also restore the appropriate amount (e.g., $8.2 million) from the Auxiliary Enterprises Fund to the respective funds that generated the investment income or document the reasonableness and equity of the investment income allocations for the 2017-18 fiscal year.

Finding 3: Investment Reporting and Reconciliations

State law[8] requires University investment policy to provide for appropriate annual or more frequent reporting of investment activities and, to that end, University officials are to prepare for the University Trustees periodic reports that include securities in the portfolio by class or type, book value, income earned, and market value as of the report date. University policies[9] established the Investment Committee, which is to meet quarterly to review the performance of University investment portfolios, determine whether investment objectives are being met and University guidelines are being followed, and provide the Trustees with regular performance reports on the investment portfolios. In addition, good business practices require that investment accounts be periodically reconciled to accounting records and that the University establish procedures to periodically reconcile investment accounts (e.g., 30 to 45 days after the end of each quarter).

During the 2017 calendar year, the Investment Committee presented to the Trustees quarterly reports consisting of a general overview of the University's liquidity position, the composition of investments (including asset allocation), performance benchmarks by asset class, and outstanding debt. While the reports presented to the Trustees had many positive features, the reports did not include, as prescribed

[8] Section 218.415(15), Florida Statutes.

[9] University Policy 1160.010 - *Investment Policy*.

by State law, securities in the portfolio by book value and income earned. In response to our inquiries, University personnel indicated that the investment reports lacked this information because State law only suggested, instead of required, that this information be presented to the Trustees. University personnel also indicated that, in December 2018, the University began including the book value and income earned for the securities in the investment portfolios presented to the Trustees.

As part of our audit, we reviewed the four quarterly investment reconciliations performed by the University during the 2017 calendar year. Our examination disclosed that the University did not always timely reconcile the investment accounts as the accounts were reconciled 87 to 309 days, or an average of 202 days, after the end of each quarter. In response to our inquiries, University personnel indicated that the untimeliness of the reconciliations was due to the untimely receipt of documentation from the investment managers, malware, and changes in the shared drive used by University personnel.

Without complete investment report presentations to the Board and timely investment account reconciliations, there is an increased risk that the Board may not be informed and understand the performance of University investments, increasing the risk that errors or fraud could occur without prompt detection and resolution.

Recommendation: The University should ensure that the investment information presented to the Board includes all the information required by State law and that investment reconciliations are timely performed.

Finding 4: Severance Pay

State law[10] provides that a unit of government that enters into a contract or employment agreement, or renewal or renegotiation of an existing contract or employment agreement, that contains a provision for severance pay must also include a provision in the contract or employment agreement that precludes severance pay from exceeding 20 weeks of compensation and prohibits the pay in instances of misconduct. State law defines severance pay as salary, benefits, or perquisites for employment services yet to be rendered that are provided to an employee who has recently been or is about to be terminated.

Contrary to State law, University policies and procedures[11] provide that upon termination without cause, non-bargaining unit employees with 10 years of consecutive service as of June 30, 2005, are to be paid 6 months of severance pay. According to University records, 56 employees received severance payments totaling $1.3 million during the period December 2016 through December 2017. As part of our audit, we examined University records supporting payments totaling $1.2 million made to 22 selected employees and noted that 4 employees received amounts in excess of those established in State law. Specifically:

- As noted in our report No. 2016-187, the University entered into a multi-year agreement with an athletic coach on January 4, 2013, and the University subsequently amended the agreement on September 5, 2014, to provide for a salary increase. The amended agreement provided that, upon termination without cause, the coach would be paid the lesser of 2 contract years' annual base salary or the base salary payable during the remaining term of the agreement. The athletic coach was terminated without cause by the University in September 2016 and, subsequently, the

[10] Section 215.425(4), Florida Statutes.

[11] University Policy 1710.280 – *Separations of Employment* and *Separation of Employment Payout* Chart.

University made severance payments totaling $646,193 to the former athletic coach. The severance payments were equivalent to 60 weeks of the former athletic coach's weekly salary and resulted in severance payments that exceeded the amount allowed by State law by a total of $431,698. In response to our inquiries, University personnel indicated that the payments made to the coach represented liquidated damages and that the University was contractually obligated to make the payments.

- The University made 3 severance payments totaling $110,787 to 3 employees for 26 weeks of severance pay, which resulted in severance payments that exceeded the amount allowed by State law by a total of $26,262. In response to our inquiries, University personnel indicated that the payments were made pursuant to University policies and procedures that provide, in part, that certain University employees may receive up to 26 weeks of severance pay.

These payment amounts represented compensation for employment services not yet rendered and were provided to employees whose employment had recently been terminated. Therefore, as the payments exceeded the statutory severance pay limits, the payments appear contrary to State law. A similar finding was noted in our report No. 2016-187.

Recommendation: The University should ensure that the severance pay provisions in University employment agreements are consistent with State law and that severance payments do not exceed the amounts established in State law.

Finding 5: Direct-Support Organizations

To promote accountability over University property, facility, and personal services use, it is important that public records prescribe the conditions for such use, document appropriate approval before the use occurs, and demonstrate appropriate use. Such records help document authorization for the use, demonstrate the reasonableness of the value associated with that use, and enhance government transparency.

State law[12] provides that a direct-support organization (DSO) is organized and operated exclusively to receive, hold, invest, and administer property and to make expenditures to, or for the benefit of the University. Additionally, State law[13] authorizes the Trustees to permit the use of University property, facilities, and personal services by a DSO, and requires the Trustees to prescribe by regulation any condition with which a DSO must comply for such use.

The Trustees approved the Florida International University Foundation, Inc. (Foundation), the FIU Athletics Finance Corporation (AFC), the Florida International University Academic Health Center Health Care Network Faculty Group Practice, Inc. (HCN), and the Florida International Research Foundation, Inc. (Research Foundation) as DSOs that routinely receive and use charitable contributions for the benefit of the University. University regulations[14] require that, upon approval by the Trustees, a DSO shall be certified and authorized to use University property, facilities, and personal services to the extent permissible by applicable law and the conditions prescribed by University regulations.

[12] Section 1004.28(1)(a)2., Florida Statutes.

[13] Section 1004.28(2)(b), Florida Statutes.

[14] FIU Regulation 1502 – *Direct Support Organizations*.

DSO-Use of University Property or Facilities and Personal Services

According to University personnel, during the 2017 calendar year, the Foundation received personal services and used University property and facilities. The Foundation received University personal services totaling $11.4 million provided by 127 University employees and reimbursed the University $3.2 million related to these costs. The 127 employees included 125 who were compensated $8.1 million and devoted 100 percent of their time and effort to the Foundation and 2 who were compensated $100,000 and provided a portion of their time and effort to the Foundation.

While the University-approved employee job descriptions and position summaries included the percentages of allocated time expected to be provided to the Foundation for personal services, University records did not document the 2 employees' actual time and effort spent on services for the University and on services for the Foundation. In response to our request for University records to support the basis for the reimbursement of $3.2 million, University personnel provided a March 2010 memorandum of understanding between the Foundation and the University that was approved by the University President. However, the Trustees did not approve the memorandum and the memorandum did not specify the amount the Foundation would reimburse to the University for personal services. In addition, in response to our request, the University provided a list of the University facilities used by the Foundation during the 2017 calendar year. However, although we requested, University records were not provided to document the value of such use.

In response to our request for records supporting the approval of the personal services and the Foundation's use of University property and facilities, University personnel indicated that the 2016-17 and 2017-18 fiscal year budgets, which included the expected personnel cost contribution and allowed for Foundation use of University property and facilities, were presented to the Trustees and subsequently approved. According to University personnel, the budget approval represented an acknowledgment and approval of the Foundation-related costs by the Trustees. Notwithstanding, without Trustees-approved agreements, there is an increased risk of misunderstanding between the University Trustees and a DSO and for over and under reimbursements to occur.

Although University regulations establish procedures with conditions for DSO use of University property, facilities, and personal services, University records associated with such use could be improved by obtaining:

- The Trustees' approval of anticipated DSO use and the estimated value of the associated University resources before the use occurs.
- Confirmations and other documentation from DSO management affirming that University resources were used only for purposes approved by the Trustees.

Approvals by the Board of Trustees and documentation affirming the actual use of University resources would provide additional assurance that DSO use of University resources is consistent with the Trustees' intent and enhance transparency for such use. Subsequent to our review, in June 2018 the University separately itemized and submitted to the Trustees for approval the expected personnel costs and use of University property and facilities by the Foundation for the 2018-19 fiscal year.

Cash Transfers to DSOs

Our review of University records disclosed that during the 2017 calendar year, the University transferred $43,775 received for technology and merchandise licensing and royalty fees to its DSOs. In response to our inquiry, University personnel indicated that, by approving the DSO budgets, which disclosed that projected revenues would be generated from royalty income, the Trustees had approved the payments of the royalty fees to the DSOs. However, University records did not document the Trustees' authority for transferring University royalty fees to the DSOs.

Recommendation: We recommend that:

- **The University document University employee actual time and effort provided to DSOs to support the purpose for and value of such services and the distribution of applicable personal services costs among specific University and DSO activities.**
- **The Trustees enter into agreements with DSOs to establish the basis for DSO reimbursements.**
- **The University document the Trustees' consideration and approval of DSO anticipated use of University resources, at least on an annual basis, before the use occurs. To enhance government transparency, Trustee approval documentation should identify the positions of the employees who will provide the personal services, the square footage of the office space and related buildings that will be used by the respective DSOs, and the value of such use.**
- **The University obtain confirmations and other documentation from DSO management affirming that University resources were used only for purposes approved by the Trustees.**
- **In the absence of specific authority, the University discontinue the transfer of royalty and licensing fees to its DSOs.**

Finding 6: Intercollegiate Athletic Programs – Deficit Fund Balances

Auxiliary enterprises are operated by the University or contracted to vendors to provide goods and services to faculty, staff, students, and others. State law[15] provides that auxiliary enterprises include, for example, bookstore, food service, housing, and intercollegiate athletic activities. BOG regulations[16] provide that each university may determine whether its auxiliary services will be self-supporting on an individual or collective basis, except for intercollegiate athletics, which must be a self-supporting entity.

The University elected to account for its intercollegiate athletic programs in a separate auxiliary enterprise fund. Our examination of University records supporting the financial results of University auxiliary enterprises for the past 9 fiscal years disclosed that the intercollegiate athletic programs did not produce sufficient resources to be self-supporting. Specifically, for each of the past 9 fiscal years, the auxiliary enterprise fund intercollegiate athletic programs had a deficit fund balance. Table 5 shows the deficit fund balances reported for the intercollegiate athletic programs for the fiscal years ended June 30, 2010, through June 30, 2018.

[15] Section 1011.47(1), Florida Statutes.

[16] BOG Regulation 9.013 – *Auxiliary Operations*.

Table 5
Auxiliary Enterprise Fund
Intercollegiate Athletic Programs

Fiscal Year Ended June 30	Deficit Fund Balances
2010	$ (1,170,953)
2011	(1,887,676)
2012	(4,654,342)
2013	(1,688,004)
2014	(1,502,367)
2015	(3,932,824)
2016	(3,172,191)
2017	(5,616,165)
2018	(11,761,454)

Source: University records.

While the deficit fund balances do not represent University bank account cash deficits, the balances require the use of cash resources from other auxiliary enterprises to finance expenses of intercollegiate athletic programs. On May 3, 2010, an interdepartmental loan agreement was entered into between the intercollegiate athletic programs and other auxiliary enterprises funds to loan over the next 4 fiscal years $5 million to fund budget deficits for the intercollegiate athletic programs and on June 4, 2010, the Trustees approved the agreement. The loan agreement provided for the repayment of principal plus 2 percent interest beginning June 15, 2019, and ending June 15, 2035. The accrued interest was to be capitalized and added to the principal amount. On June 26, 2015, a one-time principal pre-payment of $631,000 was made, which reduced the principal amount.

On January 18, 2018, another interdepartmental loan agreement for $4.4 million to fund the construction of athletic practice fields was entered into between the intercollegiate athletic programs and other auxiliary enterprises funds (e.g., food service and bookstore concessions). The construction of the athletic practice fields and the funding of the project with an interdepartmental loan were approved by the Trustees on December 9, 2015. The agreement for this loan also provided for the repayment of principal plus 2 percent interest beginning June 15, 2020, and ending June 15, 2043. The accrued interest for this loan was also to be capitalized and added to the principal amount. From June 15, 2019, through June 15, 2043, principal and interest payments of the loaned amounts will range from $125,000 to $600,000. After consideration of the loans, at June 30, 2018, the intercollegiate athletic programs reported total deficit fund balances of $11,761,454 and a due to (loan from) other auxiliary enterprises of $9,444,455.

In response to our inquiries, University personnel indicated that the fund deficits were the result of planned expansion projects supporting various athletic programs beginning in 2011 and the interdepartmental loan was issued to provide needed working capital to the intercollegiate athletics program fund. Additionally, University personnel indicated that the deficit fund balances resulted from non-recurring capital expenditures and that if those capital expenditures had not occurred, the fund

balances would not be negative. A similar finding was noted by the University's Office of Internal Audit in report No. 17/18-01.

Although the intercollegiate athletic programs are part of the approved budget for auxiliary enterprises, the intercollegiate athletic programs' continued use of financial resources generated by other auxiliary enterprises decreases the resources available for the other auxiliary enterprises.

Recommendation: The Trustees should continue to monitor the financial condition of the intercollegiate athletic programs and take appropriate actions to ensure that intercollegiate athletic programs are self-supporting pursuant to BOG regulations.

Finding 7: Purchasing Cards

The University administers a purchasing card (P-card) program, which gives employees the convenience of purchasing items without using the standard purchase order process. P-cards are designed to provide a cost-effective, convenient, and decentralized method for individuals to make certain purchases on behalf of the University. The bank that administers the P-card program requires charge disputes to be made within 5 days of the billing close date.

The University has adopted P-Card guidelines and procedures and established a P-card administrative team that had responsibilities for issuing P-cards, monitoring P-card transactions, providing P-card training, and canceling P-cards. The departments of cardholders are required to e-mail the administrative team to cancel P-cards, including those assigned to employees who separated from University employment, immediately prior to submitting the card cancellation form, which includes the cardholder name, identification number, copy of the card cut in half, and cardholder and supervisor signatures. Additionally, department supervisors are to conduct exit interviews; collect all university property, including the P-card cut in half and affixed to a card cancellation form; and providing the card cancellation form to the P-card administrative team.

The University had 825 active P-cards as of December 31, 2017, and, during the 2017 calendar year, 77 cardholders separated from University employment or transferred to another department. We examined University records supporting 23 of the cardholders who separated from University employment and found that the University did not cancel the P-cards assigned to 4 of the 23 cardholders until 9 to 108 days, or an average of 41 days, after the cardholders' employment separation dates. According to University personnel, the untimely cancellations of the P-cards were primarily caused by departments not following established policies and procedures.

Our examination of University records supporting P-card activity of the 4 former employees did not disclose any inappropriate charges; however, our procedures cannot substitute for the University's responsibility to implement adequate internal controls over P-card cancellations. The untimely cancellation of P-card privileges increases the risk that such privileges could be misused by former employees or others and may limit the University's ability to satisfactorily resolve disputed charges.

Recommendation: The University should continue efforts to ensure that P-card privileges are timely canceled upon a cardholder's separation from University employment.

Finding 8: Information Technology User Access Privileges – Enterprise Resource Planning System

Access controls are intended to protect University data and information technology (IT) resources from unauthorized disclosure, modification, or destruction. Effective access controls provide employees access to IT resources based on a demonstrated need to view, change, or delete data and restrict employees from performing incompatible functions or functions inconsistent with their assigned responsibilities. Periodic evaluations of assigned IT access privileges are necessary to ensure that employee access remains necessary and appropriate.

Our examination of University records and discussions with University personnel disclosed that 8,654 employees had access privileges to critical transactions within the finance and human resource (HR) applications. The privileges were for 8,558 employees with update access to the finance application, 86 employees with update access to the HR application, and 10 employees (including 3 student account clerks) who were financial superusers (SF Superusers). The SF Superusers had full access to the Student Financial module in the University finance application, which allowed update access to student charges, payments, loans, and other information. According to University personnel, the University performed annual documented evaluations of assigned IT access privileges for most employees. However, the University did not have procedures to periodically document evaluations of assigned IT access privileges to the University Enterprise Resource Planning (ERP) system applications to ensure that the SF Superusers could access only those IT resources that were necessary to perform their assigned job responsibilities and that assigned access privileges enforced an appropriate separation of incompatible responsibilities.

As part of our audit procedures, we examined University records supporting the access privileges of 35 selected employees to the ERP system finance and HR applications and identified 5 employees with access privileges to the finance application that appeared unnecessary for their assigned job duties and a former employee who retained unnecessary access privileges. Specifically:

- 3 student account clerks required access to one specific function in the University finance application to perform their job duties. However, the clerks were given the SF Superuser roles that granted full access to the Student Financial module and allowed the clerks to make changes to student charges, payments, loans, and other information. Since such access requires extreme care, SF Superuser roles are usually granted only to University personnel in high level supervisory positions. In response to our inquiries, University personnel indicated that the 3 clerks were provided the SF Superuser roles because the specific function in the University finance application needed by the clerks to perform their job duties was only available through the SF Superuser role.
- 2 custodial workers had inquiry and update access to various functions in the finance application such as update access to procurement and view access to financial transactions, which was unnecessary for their respective job positions and responsibilities. In response to our inquiries, University personnel indicated that the employees had access to basic functions and that additional roles and security levels were needed for the employees to make procurement transactions. In addition, University personnel also indicated that any transactions created by these workers using their access would be subject to multiple levels of approval. University personnel also confirmed that one of the custodial workers did not create any financial transactions and was unable to confirm whether the other custodial worker used the access.

- A former Controller retained SF Superuser access to the finance application after employment separation from the University in February 2017. Subsequent to our requests in April 2018, University personnel removed the SF Superuser access for the former Controller. University personnel indicated that the former Controller access was not removed timely due to oversight.

While our examination of University records supporting selected transactions did not disclose any fraud or errors as a result of the unnecessary access privileges, our procedures do not substitute for management's responsibility to implement adequate controls. Unnecessary or inappropriate access privileges and the lack of a review of IT user access privileges assigned to the ERP system applications increase the risk that unauthorized disclosure, modification, or destruction of University data or IT resources may occur.

Recommendation: The University should continue efforts to perform documented periodic evaluations of IT user access privileges to the ERP system applications based on a demonstrated need for such access and remove any inappropriate or unnecessary access privileges detected.

Finding 9: Information Technology User Access Privileges – Student Information

The Legislature has recognized in State law[17] that social security numbers (SSNs) can be used to acquire sensitive personal information, the release of which could result in fraud against individuals or cause other financial or personal harm. Therefore, public entities are required to provide extra care in maintaining the confidential status of such information. Effective controls restrict employees from accessing information unnecessary for their assigned job responsibilities and provide for documented, periodic evaluations of access privileges to help prevent individuals from accessing sensitive personal information inconsistent with their responsibilities.

The University collects and uses SSNs for various purposes, such as to register newly enrolled students, comply with Federal tax reporting requirements and other Federal and State requirements related to financial and academic assistance, and perform other University responsibilities. According to University personnel and records, the University established a unique identifier, other than the student's SSN, to identify each student and maintained student information, including SSNs, in the University's ERP system.

As of June 2018, the University ERP system contained the sensitive personal information of 985,940 students, including 78,631 current, 384,958 former, and 522,351 prospective students, and 397 employees had access to that information. To protect the sensitive personal information from unauthorized disclosure, modification, or destruction, the University requires employee supervisors and department administrators to approve IT user access privileges based on a demonstrated need for such access. According to University personnel, the University documented monthly evaluations of IT user access privileges in the ERP system to monitor certain access privileges, including evaluations of access privileges to the sensitive personal information of students.

As part of our audit, we examined the access privileges in the ERP system for 137 selected employees. We found that 96 employees in positions such as program assistant, lead ERP technician analyst, and student clerk positions, did not require access to the sensitive personal information of students to perform

[17] Section 119.071(5)(a), Florida Statutes.

their job assignments. In response to our inquiries, University personnel agreed with our conclusions and, in September 2018, removed the access privileges for 28 of the 96 employees.

University personnel indicated that the other 68 employees only needed access to the last four digits of the student SSNs to perform their job assignments and, in October 2018, University personnel were awaiting updated justifications from the respective employee supervisors before modifying the access privileges for these 68 employees. Subsequent to our inquiries, as of December 2018 University personnel had reduced the number of employees with access to the sensitive personal information of students in the ERP system to 245 employees.

We also noted that, since the University ERP system did not differentiate employee access privileges to the sensitive personal information of current students from access privileges to former and prospective students, the remaining 245 employees retained continuous access to the information of all 985,940 students. According to University personnel, the 245 employees needed access to former student SSNs in the ERP system, for example, to assist former students who may return to the University for additional classes or may request administrative action on their records. Although we requested, University records were not provided to demonstrate the public purpose served by maintaining the sensitive personal information of individuals who applied but had not enrolled in the University.

The existence of unnecessary access privileges increases the risk of unauthorized disclosure of sensitive personal information of students and the possibility that the information may be used to commit a fraud against University students or others.

Recommendation: To ensure access to the sensitive personal information of students is properly safeguarded, the University should:

- **Document the public purpose served for maintaining that information for individuals who do not enroll in the University. Absent such, the University should discontinue the practice of indefinitely maintaining the sensitive personal information of prospective students who do not enroll.**
- **Upgrade the University IT system to differentiate IT user access privileges to current student information from access privileges to former and prospective student information.**
- **Continue efforts to ensure that only those employees who have a demonstrated need to access the sensitive student information have such access. If an employee only requires occasional access, access privileges should be granted only for the time needed.**

PRIOR AUDIT FOLLOW-UP

The University had taken corrective actions for findings included in our report No. 2016-187, except as noted in Findings 1 and 4.

OBJECTIVES, SCOPE, AND METHODOLOGY

The Auditor General conducts operational audits of governmental entities to provide the Legislature, Florida's citizens, public entity management, and other stakeholders unbiased, timely, and relevant information for use in promoting government accountability and stewardship and improving government operations.

We conducted this operational audit from March 2018 to April 2019 in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The objectives of this operational audit were to:

- Evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities in accordance with applicable laws, rules, regulations, contracts, grant agreements, and other guidelines.
- Examine internal controls designed and placed in operation to promote and encourage the achievement of management's control objectives in the categories of compliance, economic and efficient operations, reliability of records and reports, and safeguarding of assets, and identify weaknesses in those controls.
- Determine whether management had taken corrective actions for findings included in our report No. 2016-187.
- Identify statutory and fiscal changes that may be recommended to the Legislature pursuant to Section 11.45(7)(h), Florida Statutes.

This audit was designed to identify, for those programs, activities, or functions included within the scope of the audit, weaknesses in management's internal controls; instances of noncompliance with applicable laws, rules, regulations, contracts, grant agreements, and other guidelines; and instances of inefficient or ineffective operational policies, procedures, or practices. The focus of this audit was to identify problems so that they may be corrected in such a way as to improve government accountability and efficiency and the stewardship of management. Professional judgment has been used in determining significance and audit risk and in selecting the particular transactions, legal compliance matters, records, and controls considered.

As described in more detail below, for those programs, activities, and functions included within the scope of our audit, our audit work included, but was not limited to, communicating to management and those charged with governance the scope, objectives, timing, overall methodology, and reporting of our audit; obtaining an understanding of the program, activity, or function; exercising professional judgment in considering significance and audit risk in the design and execution of the research, interviews, tests, analyses, and other procedures included in the audit methodology; obtaining reasonable assurance of the overall sufficiency and appropriateness of the evidence gathered in support of our audit findings and conclusions; and reporting on the results of the audit as required by governing laws and auditing standards.

Our audit included transactions, as well as events and conditions, occurring during the audit period of January 2017 through December 2017, and selected University actions taken prior and subsequent thereto. Unless otherwise indicated in this report, these records and transactions were not selected with the intent of statistically projecting the results, although we have presented for perspective, where practicable, information concerning relevant population value or size and quantifications relative to the items selected for examination.

An audit by its nature does not include a review of all records and actions of management, staff, and vendors and, as a consequence, cannot be relied upon to identify all instances of noncompliance, fraud, waste, abuse, or inefficiency.

In conducting our audit, we:

- Reviewed University information technology (IT) policies and procedures to determine whether the policies and procedures addressed certain important IT control functions, such as security, systems development and maintenance, and disaster recovery.
- Evaluated University procedures for maintaining and reviewing employee access to IT data and resources. We examined access privileges to the database and finance and human resources applications during the audit period for 35 of the 8,654 employees to determine the appropriateness and necessity of the access based on the selected employees' job duties and user account functions and whether the access prevented the performance of incompatible duties. We also examined the administrator account access privileges granted and procedures for oversight of administrator accounts for the network, operating system, database, and application to determine whether these accounts had been appropriately assigned, managed, and monitored.
- Evaluated University procedures for protecting the sensitive personal information of students, including student social security numbers. From the population of 397 employees who had access to the sensitive personal information of students during the audit period, we examined University records supporting the access privileges granted to 137 employees to determine the appropriateness of and necessity for the access privileges based on the employees' assigned job responsibilities.
- Evaluated Trustees security policies and University procedures for the audit period governing the classification, management, and protection of sensitive and confidential information.
- Evaluated the appropriateness of the University's comprehensive IT disaster recovery plan effective during the audit period and determined whether it had been recently tested.
- Reviewed operating system, database, network, and application security settings to determine whether authentication controls were configured and enforced in accordance with IT best practices.
- Examined Trustees, committee, and advisory board meeting minutes to determine whether Trustee approval was obtained for the University policies and procedures in effect during the audit period and for evidence of compliance with Sunshine Law requirements (i.e., proper notice of meetings, meetings readily accessible to the public, and properly maintained meeting minutes).
- Examined University records for the audit period to determine whether the University informed students and employees at orientation and on its Web site of the existence of the Florida Department of Law Enforcement sexual predator and sexual offender registry Web site and the toll-free telephone number that gives access to sexual predator and sexual offender public information as required by Section 1006.695, Florida Statutes.
- Reviewed the internal audit function to determine whether the University followed professional requirements and provided for peer review of reports issued. For internal audits, we determined whether audit reports were properly completed and submitted to the Trustees.
- Examined University records to determine whether the University had developed an anti-fraud policy for the audit period to provide guidance to employees for communicating known or suspected fraud to appropriate individuals. Also, we examined University records to determine whether the University had implemented appropriate and sufficient procedures to comply with its anti-fraud policy.

- Evaluated University investment policies and procedures during the audit period to determine whether the policies and procedures complied with Section 218.415, Florida Statutes, adhered to good business practices, and whether University investments were in accordance with those policies and procedures.
- Examined University records to determine if investment accounts maintained during the audit period were timely reconciled to financial institution records and if statutorily required investment information was presented timely to the Trustees.
- From the population of payments and transfers totaling $12 million made during the audit period from the University to its direct-support organizations (DSOs), examined University records supporting payments and transfers totaling $6.4 million to determine whether the transactions were as described by Section 1004.28(1)(a)2. and (2), Florida Statutes.
- Examined University records to determine whether the Trustees had prescribed by rule, pursuant to Section 1004.28(2)(b), Florida Statutes, the conditions with which the DSOs must comply in order to use University property, facilities, and personal services and whether the Trustees documented consideration and approval of anticipated property, facilities, and personal services provided to the DSOs and the related costs.
- Examined University records to determine whether student receivables were properly authorized, adequately documented and properly recorded. Specifically, from the population of 13,947 student accounts receivable totaling $33.9 million as of December 31, 2017, we examined documentation relating to 31 selected student accounts receivable totaling $638,156 to determine the adequacy of University collection efforts and whether restrictions on student records and holds on transcripts and diplomas were appropriate and enforced for students with delinquent accounts in accordance with Trustees regulations established pursuant to Section 1010.03(4), Florida Statutes.
- Examined University records to determine whether uncollectible accounts totaling $1.3 million written off during the audit period were properly approved.
- Examined tangible personal property records to determine whether the records contained information necessary to account for and identify property items. We also examined University records supporting 60 selected property items to determine whether University property records accurately described the property items.
- Examined University records to determine if acquired facilities were in accordance with contractual obligations and the mission of the University.
- Analyzed payments from tuition differential fees collected during the audit period to determine whether the University assessed and used tuition differential fees in compliance with Section 1009.24(16)(a), Florida Statutes.
- From the population of 62,512 students enrolled as Florida residents during the Spring 2017, Summer 2017, and Fall 2017 Semesters, examined University records for 30 selected students to determine whether the University documented Florida residency and whether student status and residency determinations complied with Section 1009.21, Florida Statutes, and Board of Governor (BOG) Regulation 7.007.
- Reviewed University procedures to determine whether distance learning fees totaling $7.6 million for the audit period were assessed, collected, and separately accounted for in accordance with Section 1009.24(17), Florida Statutes.
- From the population of 30 decentralized locations with collections totaling $39.1 million, selected 6 locations with collections totaling $8.6 million during the audit period, and examined University records supporting collections totaling $2.4 million from the 6 locations to determine the effectiveness of University collection procedures.

- From the population of 40 contracts for auxiliary operations, which generated revenue totaling $6.6 million for the audit period, examined University records supporting 17 selected contracts, which generated revenues totaling $4.8 million, to determine whether the University properly monitored compliance with the contract terms for fees, insurance, and other provisions. Also, we performed analytical procedures to determine whether University auxiliary services were self-supporting.
- Examined University records supporting textbook adoptions for 20,146 course sections offered during the audit period to determine whether the University textbook affordability procedures complied with Section 1004.085, Florida Statutes.
- From the population of compensation payments totaling $484.1 million made to 14,119 employees during the audit period, selected 30 payments totaling $263,141 and examined related payroll and personnel records to determine the accuracy of the rate of pay, whether supervisory personnel reviewed and approved employee reports of time worked, the validity of employment contracts, whether the employees met the required qualifications, whether performance evaluations were completed, and the accuracy of leave records.
- Evaluated University policies and procedures for payments of accumulated annual and sick leave (terminal leave pay) to determine whether the policies and procedures promoted compliance with State law and University policies. Specifically, from the population of 331 employees who separated from University employment during the audit period and were paid $1.8 million for terminal leave, we selected 15 employees with terminal payments totaling $451,101 and examined the supporting records to determine compliance with Section 110.122, Florida Statutes, and Trustees Regulation No. 320.045.
- Examined severance pay provisions in 4 employee contracts to determine whether the provisions complied with Section 215.425(4)(a), Florida Statutes. From the population of 56 employees who received severance pay totaling $1.3 million during the period December 2016 through December 2017, we examined University records for 22 selected employees paid severance pay totaling $1.2 million to determine whether the severance payments complied with State laws and University policies.
- Examined University records for 29 administrative employees, including the President, who received compensation totaling $11.5 million during the audit period to determine whether the amounts paid did not exceed the limits established in Sections 1012.975(3) and 1012.976(2), Florida Statutes.
- Evaluated University policies and procedures to ensure health and life insurance was provided only to eligible employees and dependents and that such insurance was timely canceled upon employee termination. Also, we determined whether the University has procedures for reconciling health insurance costs to employee and Trustees-approved contributions.
- Examined University records to determine whether selected expenses were reasonable, correctly recorded, adequately documented, for a valid University purpose, properly authorized and approved, and in compliance with applicable laws, rules, contract terms, and Trustees policies. Specifically, from the population of expenses totaling $983.2 million for the audit period, we examined University records supporting:
    - 33 selected payments for general expenses totaling $111.8 million.
    - 30 selected payments for contractual services totaling $432,338.
- From the population of 1,934 vendors paid $42.5 million for the audit period, examined University records for 30 vendors paid $432,338 to determine whether the vendors were properly selected, as applicable; carried adequate insurance; and were paid in accordance with contract terms. In

addition, we determined whether the payments were for a valid purpose, properly authorized and approved, and in compliance with applicable laws, rules, contract terms, and Trustee policies.

- From the population of 91,466 purchasing card (P-card) transactions totaling $30 million during the audit period, examined University records supporting 30 selected P-card transactions totaling $414,670 to determine whether the P-card program was administered in accordance with Trustee policies and University procedures and transactions were not of a personal nature.
- From the population of P-Card transactions to 39 vendors, with cumulative transactions over $75,000 during the audit period, totaling $11.2 million, examined solicitation documentation for 20 vendors totaling $5.2 million to determine whether the P-cards were administered in accordance with University policy and procedures and BOG regulations for competitive solicitation.
- Examined P-card records for 23 cardholders who separated from University employment selected from the 77 cardholders who separated from University employment or transferred to other departments during the audit period to determine whether the University timely canceled the cardholders' P-cards.
- From the population of President and Trustees travel expenses totaling $41,267 during the audit period, examined 26 selected travel reimbursements totaling $30,834 to determine whether the travel expenses were reasonable, adequately supported, for valid University purposes, and limited to amounts allowed by Section 112.061, Florida Statutes.
- From the population of 78 payments totaling $75,370 during the audit period to employees for other than travel and compensation, examined 24 selected payments totaling $56,615 to determine whether such payments were reasonable, adequately supported, for valid University purposes, and whether such payments were related to employees doing business with the University, contrary to Section 112.313(3), Florida Statutes.
- Reviewed Trustees policies and University procedures related to identifying potential conflicts of interest. We also reviewed Department of State, Division of Corporations, records; statements of financial interest; and University records for 22 selected University officials to identify any potential relationships that represented a conflict of interest with vendors used by the University.
- From the population of 6 major construction projects in progress during the audit period with expenditures totaling $49.3 million, selected 30 payments totaling $3.4 million related to 3 major construction projects with expenditures totaling $8.2 million and examined University records to determine whether the payments were made in accordance with contract terms and conditions, University policies and procedures, and provisions of applicable State laws and rules.
- Reviewed documentation related to 4 major construction projects with total construction costs of $13.6 million during the audit period to determine whether the University process for selecting design professionals and construction managers was in accordance with State law; the selection process of subcontractors was adequately monitored; the Trustees had adopted a policy establishing minimum insurance coverage requirements for design professionals; and design professionals provided evidence of required insurance.
- From the population of University minor projects in progress with cumulative expenditures totaling $165.5 million as of December 31, 2017, examined supporting documentation for 34 projects totaling $26.3 million to determine if the projects were in accordance with Trustees policies and procedures, provisions of State laws and rules, and BOG regulations.
- Communicated on an interim basis with applicable officials to ensure the timely resolution of issues involving controls and noncompliance.
- Performed various other auditing procedures, including analytical procedures, as necessary, to accomplish the objectives of the audit.

- Prepared and submitted for management response the findings and recommendations that are included in this report and which describe the matters requiring corrective actions. Management's response is included in this report under the heading ***MANAGEMENT'S RESPONSE***.

AUTHORITY

Section 11.45, Florida Statutes, requires that the Auditor General conduct an operational audit of each University on a periodic basis. Pursuant to the provisions of Section 11.45, Florida Statutes, I have directed that this report be prepared to present the results of our operational audit.

MANAGEMENT'S RESPONSE

FIU | FLORIDA INTERNATIONAL UNIVERSITY

OFFICE OF FINANCE & ADMINISTRATION

July 18, 2019

Sherrill F. Norman, CPA
Auditor General
State of Florida
Claude Denson Pepper Building G74
111 West Madison Street
Tallahassee, Fl 32399-1450

Dear Ms. Norman,

Enclosed are Florida International University's responses to the preliminary and tentative findings and recommendations for the Operational Audit of Florida International University for the calendar year ended December 31, 2017. The University will implement the recommendations identified during the audit in accordance with the enclosed schedule of responses.

We appreciate the thoroughness and professionalism of your staff in completing the operational audit. The resulting recommendations will assist FIU in improving our operations and safeguarding our resources.

If you have any questions or need additional information, please do not hesitate to contact me at kjessell@fiu.edu or 305-348-2101 at your convenience.

Sincerely,

Kenneth A. Jessell, Ph.D.
Chief Financial Officer and Senior Vice President for Finance and Administration

cc: Mark B. Rosenberg, Ph.D., President
Kenneth G. Furton, Ph.D., University Provost and Executive Vice President

FLORIDA INTERNATIONAL UNIVERSITY
Responses to Preliminary and Tentative Findings
Operational Audit – Calendar Year 2017

Finding 1: University textbook affordability procedures continue to need improvement.

Recommendation: ***To promote compliance with State law and help ensure that University textbooks and instructional materials of acceptable quality are available to students at the lowest prices, the University should:***

- ***At least 45 days before the first day of classes, prominently post in the course registration system and on its Web site, a hyperlink to lists of required and recommended textbooks and instructional materials for at least 95 percent of all courses and course sections offered at the University during the upcoming term.***

- ***Include changes to course sections made after the posting deadlines when reporting to the SUS Chancellor.***

The University concurs with this recommendation. In response to the prior operational audit recommendation included in report No. 2016-187, Florida International University (FIU) has been consistently enhancing textbook adoption practices and monitoring procedures for timely textbook adoptions in accordance with State law as follows:

- Revised and expanded the Textbook and Instructional Materials Affordability Step-by-Step Guide and FAQ and regularly distributed this along with adoption deadline reminders to all instructors and chairs for process guidance throughout the adoption cycles.
- Appointed textbook affordability liaisons throughout all colleges to support instructors with timely adoptions beginning 2017.
- Instituted a standard procedure for Textbook Adoptions for Other Course Types than Lectures and Labs effective 2017.
- Created an internal methodology to synchronize the Barnes & Noble (B&N) FacultyEnlight adoption data with FIU class schedule/assignment data and standardize the monitoring process as of 2018-2019.
- Initiated discussions with B&N corporate officials for enhancements of FacultyEnlight, FIU's platform for textbook and course material adoptions, to standardize the process of timely adoptions and monitoring thereof in accordance with BOG requirements, with pilot phase anticipated to commence in Fall 2019.

FIU had met the 95 percent threshold of timely posted required and recommended textbooks and instructional materials in each semester as of the 45-day pre-semester deadline. Our reported compliance rates of 95.1%, 96.2% and 95.3% for Spring, Summer, and Fall 2017, respectively, present a point in time snapshot based on the course section information available at the posting deadline. The methodology of assessing compliance at the forty-five (45) day deadline was based on Board of Governors Regulation 8.003, section 1 (h), which states: "The designated university official shall determine compliance with this requirement no later than forty-five (45) days prior to the first day of classes for each term." For example, for the Fall 2017 semester, at the forty-five (45) day deadline, there were a total of 8,674 courses of which 430 were not compliant and 8,244 were compliant as of the cut-off date, leading to a 95% compliance rate. Due to changes in textbooks and instructional materials for some courses after the 45 days prior to the first day of class, the 95 percent threshold was reduced, as reflected in the finding. The University will adjust the methodology when reporting to the Chancellor course sections that were able to meet the textbook and instructional materials posting deadline for the academic year, which will now capture changes after the 45 days prior to the first day of class.

FIU will adjust the reporting methodology to include changes to adoption data made after the posting deadline for the academic year. To date, FIU consistently reported adoption rates based on the forty-five (45) day pre-semester deadline. Moving forward, FIU will review all adoptions following the forty-five (45) day semester deadline each semester to ensure accurate and complete reporting for the academic year. Additionally, B&N is developing a second generation of their FacultyEnlight textbook adoption platform. FIU is scheduled to be a part of their first pilot, anticipated to commence in Fall 2019. FIU has worked with B&N Information Technology staff and the system is expected to address the necessary enhancements to make reporting to the SUS Chancellor more automated.

Finding 2: The University over allocated $8.2 million net investment income to the Auxiliary Enterprises Fund and under allocated that same amount to other funds, which increased the risk that income from restricted resources will not be used consistent with the restrictions governing those resources.

Recommendation: ***The University should establish and adhere to an appropriate methodology for equitably allocating and recording investment income to the respective resources that generated the income. In addition, the University should maintain, by fund, records that adequately account for the restricted resource investments and related income. The University should also restore the appropriate amount (e.g., $8.2 million) from the Auxiliary Enterprises Fund to the respective funds that generated the investment***

income or document the reasonableness and equity of the investment income allocations for the 2017-18 fiscal year.

The University recognizes the importance of equitably allocating and recording investment income to the respective funding sources and to ensure that restricted income is used for purposes consistent with applicable funding restrictions. The University also recognizes that funding sources have different levels of risk tolerance and that restricted funding sources should not incur investment losses. The University's Investment Program is designed to ensure that restricted funding sources do not bear the risk of loss.

FIU's Investment Program pools university funds and invests them at an overall risk level that is comparable to the State of Florida's Special Purpose Investment Account (SPIA) fund. The University places funds from the funding sources into one of two risk classifications: Low Risk tolerance and Zero Risk tolerance. As the finding correctly states, the Investment Program pays a guaranteed rate of return to each of the funding sources equivalent to SPIA or United States Treasury Bill (T-Bill) rates. No investment losses are allocated to the restricted funding sources. The Low Risk funds receives a rate of return equal to the State's Net SPIA rate less investment (Treasury) expenses. The No Risk funds receive a rate of return equal to the 1-Month T-Bill Rate. Both the SPIA and T-Bill rates are market oriented and reflect a risk-adjusted return that the funding sources would have achieved if they were invested independent of the University's Investment Program. In other words, the process is designed to ensure that these funds receive the same return as if they were invested in SPIA or T-Bills. The University Investment Program pools funds from the funding sources, invests the funds, and pays a guaranteed rate of return. This approach provides the funding sources a secured source of risk-adjusted investment income independent of the actual return (gain or loss) of the Investment Program.

The Information in Table 3 of the finding assumes that the distribution of funds is based on the overall returns of the Investment Program, in this case approximately 4.4 percent (Total Net Investment Income of $16.1 million/Total Investment Balance of $364.6 million). The Investment Program distributes funds based on the net SPIA rate (1.7 percent) less Investment (Treasury) expenses and the 1-month T-Bill rate (1.4 percent). These guaranteed rates prevent investment losses from being allocated to the restricted funding sources.

To illustrate the reasonableness and equity of FIU's investment income allocation process, as an example, if the overall returns of the Investment Program would have been negative 4.4 percent, the Educational and General funds would have been over allocated by approximately $5 million and the Other Funds would have been over allocated by approximately $5.5 million based on the methodology in the finding since the distribution policy would have provided the identical distribution of $500,000 and $700,000 to E&G funds and Other Funds, respectively, instead of proportional losses of $4.5 million and $4.8 million, respectively. Additionally, utilizing actual Fiscal Year 2019

Year-to-Date December Investment Program returns of negative 0.1 percent, the University would have had to reverse all of the Fiscal Year-to-Date distributions and re-allocate losses to the restricted funding sources. Instead, as the distribution is based on guaranteed rates, the restricted funding sources received approximately $2.0 Million in earnings distribution in spite of the Investment Program loss. Also, it is important to note that Table 3 excludes the fourth quarter 2018 distribution of $0.7M that was recorded in FY 2019.

As noted in the finding, the Investment Program distributed an additional $5.9 Million to fund scholarships that would otherwise be funded from E&G funds, resulting in a total equivalent distribution of $6.5 million ($5.9 million + $0.6 million). This total distribution represents a net return of 7.7 percent for the E&G funding source. This rate of distribution was significantly higher than the overall 4.4 percent return of the investment portfolio in Fiscal Year 2018.

The University believes that the investment income allocation process is reasonable and equitable and has provided sufficient documentation to support this position. It is a fair, defensible, and objective way to efficiently allocate earnings to the funding sources while protecting these funds from investment losses. Nevertheless, the university recognizes the importance of the investment income allocations and will carefully review and, as appropriate, update the allocation methodology. The university will review the restricted investments to ensure that the use of earnings is not inconsistent with the restrictions governing those funds. The university will also maintain, by fund, records that adequately and accurately account for the restricted resource investments and related income. As part of the review of the allocation methodology, FIU will make the necessary adjustments to restore the appropriate amount of allocations to the E&G and other funds.

Finding 3: University procedures need improvement to ensure that investment information required by State law is presented to the Board and investment account reconciliations are performed timely.

Recommendation: The University should ensure that the investment information presented to the Board includes all the information required by State law and the investment reconciliations are timely performed.

The University concurs with this recommendation. As reflected in the finding, the University already began, proactively, reporting securities by asset class in the portfolio by market value, book value and income earned as of the December 5, 2018 Board of Trustees Meeting.

The University has procedures in place to ensure the accuracy and completeness of investment transactions. In addition, FIU has always maintained segregation of duties between the Controller's and Treasury Offices as an internal control to prevent fraud.

As noted in the finding, there were several factors which occurred within a couple of months of each other that caused the unusual and unexpected delays in the investment reconciliation process in the period audited. These factors include:

- The investment custodian changed their reporting platform, causing errors on the statements which required additional time to receive corrected statements.

- The University was closed for Hurricane Irma for one week. Hurricane related matters required priority attention which affected and contributed to delays in normal reconciliation processes.

- Immediately after Hurricane Irma our computer system was infected with Malware which required restoration of files to a new shared drive. The restoration process took approximately two months to complete.

While inevitably unforeseen circumstances may cause unusual delays, the University has implemented additional procedures to periodically reconcile investment accounts, including the development of a basis schedule to identify errors on investment manager statements and to assist with review of the entries to increase accuracy. This basis schedule is linked to trial balances and provides an informal reconciliation to ensure the investment balances are correct. There are some timing issues relative to the obtainability and accuracy of investment statements. Some investment statements are typically not received until the third week of the following month and at times require correction, one investment statement is received the last week of the month and there are two equity investment statements that are not received for three or more months after a month end. Nevertheless, the university believes 30-45 days is a reasonable time frame for quarterly reconciliations with up to 90 days for year-end reconciliations to enable recording of complete investment activity that includes the two equity investments with prolonged delays in providing investment statements.

Finding 4: The University made severance payments that exceeded the limits established in State law. A similar finding was noted in our report No. 2016-187.

Recommendation: The University should ensure that the severance pay provisions in University employment agreements are consistent with State law and that severance payments do not exceed the amounts established in State law.

The University concurs with this recommendation. FIU will ensure that contracts or employment agreements containing a provision for severance pay are in compliance with State law.

The audit identified three employees who were paid 26 weeks of pay upon separating from the University. These payments are "wages in lieu of notice" and not severance as defined in Florida Statute (F.S.) 215.425(4)(d). These payments are also not in violation of the extra compensation rule set forth in F.S. 215.425(1), as they are being paid pursuant to a University policy. Wages in lieu of notice and severance pay are two distinct concepts under the law. See, for example, F.S. 443.101(3)(a) and (b).

In addition, the 26 weeks of wages in lieu of notice policy reflects an arrangement determined approximately 13 years ago that is not subject to change by subsequent statutory changes. Under the University's Separation from Employment Policy, FIU Policy No. 1710.280, the majority of at-will employees are entitled to receive a maximum of 12 weeks of wages in lieu of notice upon separating from the University. A very small number of individuals, who were employed by FIU when the State universities became the employers of University employees (until this time the Board of Regents was the employer of all State University employees), are entitled, pursuant to the policy, to 26 weeks of wages in lieu of notice. At the time FIU became the employer, approximately 13 years ago, these employees (now a small number) were in a classification of employment called Administrative and Professional (A&P) and were entitled, pursuant to Rule 6C8-4.018, to receive up to 26 weeks of wages prior to terminating the employment relationship. Because of this pre-existing right, when these A&P employees transitioned from their A&P status to full at-will employment status they were eligible to receive 26 weeks of wages in lieu of notice.

The audit also identified provisions in the employment contract for one head coach that provide for termination payments which could exceed 20 weeks in pay. A very limited number of non-bargaining unit employees at the University are employed pursuant to an employment contract; almost all others receive offer letters. Coaches, head coaches in particular, are one of the key exceptions. This is because it is the custom and "market" to enter into these contracts. These contracts are beneficial to both parties and very specifically layout the rights and responsibilities of each party. The University's coaches' contracts carefully delineate grounds for termination with cause; grounds for termination for cause in this context are much more robust and easily met than in a typical at-will employment context.

Actions that would not entitle termination for cause in a typical at-will employment context may often result in grounds for termination for cause in coaches' contracts. Additionally, the custom and "market" for some coach positions is to provide for each party to pay liquidated damages on account of the contract termination. In order to be competitive in the hiring and retention of head coaches, the University is able to meet the

market by agreeing to a liquidated damages clause that provides both the University and the coach a remedy in the event either party terminates without cause. This is not a severance payment.

Unlike typical at-will employees, coaches may have stronger interests in their reputations, in goodwill and the like, and they are frequently relocating from different areas of the country to take coaching positions at the University. To mitigate the risk to each party on account of termination without cause, the contract provides each party a liquidated damages payment amount agreed upon at contract signing. In light of the legal doctrine of mutuality of remedies, the ability of the University to enforce the coaches' liquidated damages payment obligation is strengthened by the University having a similar obligation. The University has in fact collected liquidated damages under some coaches' contracts. The University believes the payments contemplated by the coaches' contracts do not constitute severance pay. Additionally, no liquidated damages have been paid under the identified contract.

Finding 5: University rules and records supporting University property, facilities, and personal services used by the University direct-support organizations (DSOs) could be improved. In addition, the University should discontinue the transfer of royalty and licensing fees to DSOs.

Recommendation: We recommend that:

- *The University document University employee actual time and effort provided to DSOs to support the purpose for and value of such services and the distribution of applicable personal services costs among specific University and DSO activities.*

- *The Trustees enter into agreements with DSO's to establish the basis for DSO reimbursements.*

- *The University document the Trustees' consideration and approval of DSO anticipated use of University resources, at least on an annual basis, before the use occurs. To enhance government transparency, Trustee approval documentation should identify the positions of the employees who will provide the personal services, the square footage of the office space and related buildings that will be used by the respective DSO's, and the value of such use.*

- *The University obtain confirmations and other documentation from DSO management affirming that University resources were only used for purposes approved by the Trustees.*

- ***In the absence of specific authority, the University discontinue the transfer of royalty and licensing fees to its DSOs.***

The University concurs with this recommendation. As accurately noted in the audit report, the University already prepares and itemizes the expected personnel costs and use of University property and facilities by the FIU Foundation for Board of Trustees approval during the annual budget process and will continue to do so.

In order to promote accountability and transparency over the use of University property, facility, and personal services resources by DSOs, the University will amend existing or execute new Memorandums of Understanding between the University Board of Trustees and DSO Board of Directors which will establish the basis for DSO reimbursements, approval for services and space utilization, and the associated processes.

The University will implement and communicate to the university community a procedure whereby the time and effort for University personnel who concurrently provide services to both the University and FIU Foundation is reflected in the personnel distribution costs among University and DSO activities. The personnel distribution cost must also be approved by the employee's supervisor in recognition of the employee's time and effort across various activities.

Additionally, the University will annually provide a list of employees along with their job code descriptions, FTE (representation of time and effort while in the position and based on personnel distributions contained in Human Resources records) and associated cost for the preceding year to FIU Foundation management for their affirmation that University resources were used only for purposes approved by the Board of Trustees.

The University and Research Foundation will enter into an agreement whereby the Research Foundation will be granted exclusive rights of certain assignments held by the University and to the income derived from the commercialization of associated intellectual property. In the event this income is insufficient to cover the services provided in support of the University's research mission and management of its intellectual property, the Research Foundation will invoice the University, which will use unrestricted funds to reimburse the Research Foundation. Beginning with the 2019-2020 fiscal year, the university's operating budget reflects BOT authorization to assign and transfer royalties revenue from the university to the Research Foundation.

The University receives royalty and licensing fee revenues associated with FIU Athletics that FIU believes are legally pledged revenues in support of the FIU Athletics Finance Corp. (AFC), a special purpose vehicle established for the financing and construction of the football stadium, and therefore the transfer is allowable under Florida Statute 1004.28. As per language reflected in the AFC Trust Indenture agreement and Assignment of

Leases, Rents, Profits and Contracts agreement, pledged revenues include concession revenue, which includes novelty concession revenue. The projected AFC operating revenues in the budget the Board of Governors approved on January 25, 2007, included net novelties revenues. By definition, a novelty is an item sold for its uniqueness, therefore without a distinctive feature, like a unique design, brand or logo, an item would not be considered a novelty. For articles such as T-shirts, Jerseys, tote bags, hats and other similar items that are sold, what makes them unique and thereby considered a novelty are the FIU logo and other brand markings which in turn generate licensing fees and royalty revenue. Consequently, we believe that licensing fees and royalty revenue are synonymous with novelty sales revenue and therefore considered part of the pledged revenues as defined in the AFC agreements. It is important to note that only one-third of the total licensing and royalty revenue received by the university is transferred to the AFC based upon sales of athletics related merchandise; the remaining two-thirds of the revenue remains with the university. Although the BOT approved budget for the AFC has included royalty and licensing fee revenues associated with FIU Athletics, FIU will also request specific BOT authorization to assign and transfer these royalty revenues from the University to the AFC and will request guidance from the BOG and the FIU Office of General Counsel.

Finding 6: The University intercollegiate athletic programs were not self-supporting and continued to experience deficit fund balances.

Recommendation: The Trustees should continue to monitor the financial condition of the intercollegiate athletic programs and take appropriate actions to ensure that intercollegiate athletic programs are self-supporting pursuant to BOG regulations.

The University concurs with this recommendation. As reflected in the finding, the deficit fund balance is the result of non-recurring capital expenditures and an approved loan repayment schedule has been established. The University, building upon Recommendation 1.1 of the Office of Internal Audit Report No. 17/18-01, "Audit of Athletics Department Operations," will continue to monitor the financial condition of the intercollegiate athletics program and develop long-range budget plans that will result in the elimination of the fund balance deficit currently being offset by intercompany loans approved by the Board of Trustees.

The Athletics Department completes, on a quarterly basis, an updated financial projection that is presented to the Chief Financial Officer and Athletics Director for review. In addition to financial projections, the Athletics Department prepares a quarterly variance report for the current fiscal year which is shared with the Board of Trustees. These measures result in a systematic review of financial operations and ensure Board of Trustee's approved loan repayment schedules are adhered to.

Lastly, as part of the long-term financial planning for the Athletics Department, appropriate actions are being taken to review and reduce operating costs for the intercollegiate athletics programs, where appropriate, and to expand opportunities to generate incremental revenue from both new and existing sources.

Finding 7: The University did not always timely cancel purchasing card privileges when a cardholder separated from University employment.

Recommendation: The University should continue efforts to ensure that P-card privileges are timely cancelled upon a cardholder's separation from University employment.

The University concurs with this recommendation. FIU will continue its efforts to ensure that PCard privileges are timely cancelled upon a cardholder's separation from University employment.

Effective immediately, the Credit Card Solutions Team (CCST) has further strengthened internal procedures to ensure the timely cancellation of university issued credit cards and reduce gaps in our internal protocols specifically adding additional logic for internal transfers.

The CCST has implemented measures to improve procedure awareness for timely card cancellation to the university community. We will ensure that a biannual reminder is published in the Panther Post Newsletter alerting units to the correct card cancellation procedure. Additionally, an annual reminder will be sent via the dedicated program listserv to alert cardholders and approvers as well.

Finding 8: Certain University information technology (IT) access controls over finance applications need improvement.

Recommendation: The University should continue efforts to perform documented periodic evaluations of IT user access privileges to the ERP system applications based on a demonstrated need for such access and remove any inappropriate or unnecessary access privileges detected.

The University concurs with this recommendation. FIU will ensure that there is a process to review the ERP system access privileges on an annual basis. FIU understands the risk of employees having unnecessary access to any of the ERP modules (Finance, HR, and

Student Financials) and the University will create a process to ensure that a review of all individuals with access will be conducted annually.

Finding 9: Some unnecessary IT user access privileges existed that increase the risk that unauthorized disclosure of sensitive personal information of students may occur.

Recommendation: To ensure access to the sensitive personnel information of students is property safeguarded, the University should:

- ***Document the public purpose served for maintaining that information for individuals who do not enroll in the University. Absent such, the University should discontinue the practice of indefinitely maintaining the sensitive personal information of prospective students who do not enroll.***
- ***Upgrade the University IT system to differentiate IT user access privileges to current student information from access privileges to former and prospective student information.***
- ***Continue efforts to ensure that only those employees who have a demonstrated need to access the sensitive student information have such access. If an employee only requires occasional access, access privileges should be granted only for the time needed.***

The University concurs with this recommendation. FIU has an automated process that deletes sensitive personal information of prospective students who do not enroll after one year of being imported into the system. In addition, FIU is enhancing this automated process to ensure that any sensitive information that is no longer needed or serves a public purpose is removed from the student system. FIU has also documented the purpose for storing such information for operational requirements.

The information of current, former and prospective students is stored in the same database tables and is accessible through the same system pages. Currently, our vendor, Oracle, does not provide a mechanism to differentiate this information based on current, former and prospective statuses. FIU has implemented a mechanism that masks all sensitive information by default, allowing it to be viewed partially or fully by individuals, as appropriate, based upon demonstrated and justifiable need to see such information.

Access to systems and data is automatically reviewed and removed when employees are terminated or transfer departments within the university. While FIU does not currently have a way to expire access at a predetermined date, a project is underway to provide this functionality. This project is expected to be completed before the end of 2019.

Subject: Re: BOA, SBA, SPIA, CNL, BNY weekly balances 03/30/10

Thanks, Tracy.

Has your group discussed how the interest allocations should be calculated beginning with April? We'll have quite a bit invested in funds that don't earn interest like SPIA and Bank of America. This may be a good time to evaluate the whole interest allocation process. Bill has mentioned the idea of taking a portion of the interest off the top to hold for particular purposes. That could be incorporated into a change. One area where we would need to be careful (and there are potentially others) is E&G, since the BOG requires us to allocate interest earned on E&G funds to E&G.

Maybe we can talk about this one day soon. Let me know what you think.

Vanessa

>>> Tracy Clark 4/2/2010 6:10 PM >>>
Bert has updated the BNY Market Value Local balances for 03/30/10 and added the face values of $565,000 for accounts 740057 & 740058. The total cost is $210 million and the Market Value Local and face values is $209,873,735, a decrease of ($126,265) as of 03/30/10.

An email has been sent to Christy to find out why the market value local is not provided for some of the investments. She is going to research and provide an answer.

Can you send me a summarization of how the net interest income gets allocated for March so that I can start to think how we may want to change things. It doesn't have to be fancy.

Then we'll all look at it and talk.

Thanks.

Thx Christy. I don't know as much about these other sources, but based on what you stated, the changes make sense and I've updated accordingly. Bill has asked me to go down to his office now to show him the changes, so I'll run these past him as well. …Lynn

Subject: RE: Funding Needs and Sources

This looks good to me. Just a couple of thoughts on the blue box items…

During the meeting with Mr. Merck and the Provost we moved some of the items in the blue box (labeled 19, 20, 22, 23) from recurring to non recurring. I believe that was because the Provost wanted to see how it would look if we treated some recurring sources as non recurring sources. However, we do present incremental increases in some of these rows as recurring sources in subsequent years. These aren't big amounts, but today I find myself needing to confirm our assumptions in order to think through this presentation. Here are some thoughts, but my logic may be flawed if my understanding of the assumptions is wrong (or they have changed).

This is what my notes regarding assumptions say:

- Item 19 - Mr. Merck said to assume an increase in the auxiliary overhead rate by 1% per year for a maximum of 2 years. Should the 2013-14 recurring be $1.2m to effectively move the $600k presented as non recurring in 2012-13 into the recurring column the next year?
- Item 20 - Dr. Waldrop said to assume a 3% tax on the C&G overhead in 2012-13 and increase it to 5% in 2013-14. The $950k presented as recurring in 2013-14 effectively moves the $550k presented as non recurring in 2012-13 into recurring the next year.

- Item 22 – this $1m is a one time change from a recurring source… since we moved it to the non recurring column in 2012-13, should the $1m be presented as recurring in 2013-14?
- Item 23 – Dr. Waldrop said to assume a 0.5% tax in 2012-13, and an additional 1% increase in 2013-14 and every year thereafter. Should the $200k presented as non recurring in 2012-13 be added to the $400k in the recurring column of 2013-14?

Also, I believe the description on row 36 should say "0.5% per year starting in 2012-13."

Hi Christy,

Attached is version 127 of the document we worked on last week. Note that Tracy and I were going over it very briefly yesterday and she noticed a few formulas that were not carrying over to the total columns, so I have updated accordingly (I explained to her that we were struck blind after looking at it so long!). Please review and let me know if you spot anything else, otherwise I will print clean copies for Tony's standing meeting with the president this afternoon.

Thanks☺ …Lynn

2012-13 E&G Budget Allocation

Funding Needs and Possible Sources

DRAFT

Version 1: $21M of $54M reduction offset with recurring funds.

15% increase in differential tuition per year

		2012-13			2013-14			2014-15			2015-16		
		Recurring	Non-recurring	Total	Recurring	Non-recurring	Total	Recurring	Non-recurring	Total	Recurring	Non-recurring	Total

Subject: FW: UCF February Flash

Tracy:

We just talked to Troy and are going to move forward with taking in $2 million of the realized gains. He is going to put together the amounts that need to come from each fund along with the letters Bill will need to sign to initiate the changes. We told him we thought the amount should be transferred from BNY to BOA so we can invest the funds in SPIA. He is planning on having the funds transferred from three of the existing funds to the BNY money market account and then the funds can be wired from BNY to BOA. Can you send him wire instructions for the move from BNY to BOA? Let me know if you have any questions.

Troy, please correct me if I have misstated anything above.

Thanks.

Vanessa

Bill-

Alternatively, if you intend to draw the $2 million of capital out of the portfolio for transfer to another account, just let us know and we will recommend a manager draw schedule based on current balances and draft the corresponding LOD's.

Thanks

Subject: RE: UCF February Flash

Bill-

Yes I believe Dave is off to Europe to try and boost their economy.

First a question…Do you simply want to "harvest" the unrealized gains in the portfolios into realized gains, or do you intend to realize the gains and then withdraw the capital from the portfolio?

We are going to assume that you simply want to "harvest" the gains, but not withdraw the capital.

In this case, we would typically recommend taking the gains across the entire equity structure. Given the "pooled" nature of the UCF portfolio, we would recommend starting with the domestic equity managers in Pool IV if you can achieve your $2 million goal before moving down to Pool III. We would recommend avoiding the "harvesting" of gains from the international mutual funds, unless it's necessary, since this would not be managed transaction (sold at 4:00PM once day and bought back at 4:00PM the next day).

I have attached a draft of a letter that we have used to facilitate this process with another client that also uses MD Sass. While this draft letter instructs the manager to harvest all unrealized gains in the portfolio, we have also used a more "targeted" LOD that provided the manager with a detailed custodial list of the specific securities to sell.

We would be happy to draft more specific letters for your portfolio if you can provide a current estimate of unrealized gains on the various portfolios (we don't differentiate between realized and unrealized gains on our system).

Just let us know how you would like to proceed.

Thanks

Troy

Hello Everyone-

Please find the Flash Report attached. Happily, February was another very strong month for investment performance. The Fund returned 1.33% with Pool IV contributing to the total return results significantly.

A little quantitative easing goes a long way. While assessment of market behavior cause and effect is never absolute, certainly the impact of the ECB and its financial intermediary (EFSF) implementing a massive quantitative easing program has gone a long way to alleviate investor fears, arguably laying a foundation from which the likes of Greek Debt can be brought to orderly resolution. Domestically speaking, U.S. economic growth continues to show steady, albeit slow, improvement to the upside, the most significant improvement coming in payroll growth. All in February news was generally positive, market sentiment has been very positive with "risk assets" performing well.

Troy and I are available for any questions or required discussion.

Importance: High

Hello Everyone-

I have a family issue today so I wanted to get this information out to you all this morning in case I am not able to access my e-mails later today.

We have attached 3 items to accomplish the $2 million equity withdrawal from Pool IV.

1. **Policy Allocation Worksheet:** This worksheet is for your files and illustrates our recommended $2 million withdrawal allocation from Pool IV as well as the impact on the target allocation. The recommended allocation also serves to reset the balance between growth (Winslow) and value (DGHM & MD Sass) in the domestic equity portfolio.

2. **Manager Letter of Instruction:** This draft letter should be placed on your letterhead and sent to the various investment managers to instruct them to raise the requested cash. We use the memo format for this type of distribution so that you can provide instructions to multiple managers with a single document. We will also be sending a subsequent e-mail to the managers with a PDF of this draft letter to give them advanced notification that an executed version of the letter will be coming from UCF. This will also give you an e-mail distribution list that you can use for distributing the executed letter.

3. **Custodian Letter of Instruction:** This draft letter should be placed on your letterhead and sent to the Bank of New York (BNY) to facilitate the various cash transfers from the managed accounts to the mutual fund account as well as the subsequent wire to Bank of America. I had to leave the wire instructions to Bank of America blank in the draft letter since we did not have them on file. However, you can simply drop them into the letter before execution. We will also be sending a subsequent e-mail to BNY with a PDF of this draft letter to give them advanced notification that an executed version of the letter will be coming from UCF. This will also give you an e-mail distribution list that you can use for distributing the executed letter.

University of Central Florida

Office of the Vice President

UNIVERSITY OF CENTAL FLORIDA
CUSTODIAN LETTER OF INSTRUCTION

March 16, 2012

Mr. Randall Deen, CRP, CPPS
Vice President/Group Manager
BNY Mellon Trust Company
10161 Centurion Parkway
Jacksonville, FL 32256

Dear Randy:

The University of Central Florida Operating Fund (UCF) has directed the following managers to raise cash in their respective portfolios for subsequent transfer to the UCF miscellaneous investment account. Once the cash is available in each manager's account, UCF directs Bank of New York (BNY) to effectuate the following asset transfers in the UCF accounts.

000740077	DGHM	**($125,000)**	Transfer to 000740062
000740079	MD Sass	**($125,000)**	Transfer to 000740062
000740075	Winslow Capital	**($1,750,000)**	Transfer to 000740062
000740062	Miscellaneous Account	**$2,000,000**	Transfer from Multiple Accounts

Once the **$2,000,000** is available in the miscellaneous investment account, UCF directs BNY to wire transfer the **$2,000,000** to UCF's Bank of America account using the wire instructions below.

Bank of America
ABA: 026009593
Account: 9634
Acct Name: University of Central Florida Board of Trustees General Operating Account
Attn: Tracy Clark

Should you need any further information or have any questions or concerns, please do not hesitate to contact UCF our consultant, Troy Brown at 863-904-0847.

Sincerely,

William F. Merck II
Vice President for Administration and Finance
Chief Financial Officer

Subject: UCF - 3-16-12 Pool IV $2mm Equity Withdrawal - Advanced Notification
Importance: High

Hello Everyone-

This is an advanced notification that the University of Central Florida (UCF) will be withdrawing a total of $2 million from the domestic equity managers in Pool IV. The managers and amounts are detailed in the attached memo. You will be receiving an executed version of the memo from UCF in the near future.

Please let us know if you have any questions.

Thanks

Troy

Office of the Vice President

UNIVERSITY OF CENTAL FLORIDA
INVESTMENT MANAGER LETTER OF INSTRUCTION

FROM: William F. Merck II
TO: Investment Managers
DATE: March 16, 2012
RE: **Capital Request for Transfer to Miscellaneous Investment Account**

The University of Central Florida Operating Fund (UCF) directs the following investment managers to immediately raise cash in their respective portfolios in the amounts detailed below for subsequent transfer to UCF's miscellaneous investment account by Bank of New York (BNY).

000740077	DGHM – Pool IV	($125,000)	Transfer to 000740062
000740079	MD Sass – Pool IV	($125,000)	Transfer to 000740062
000740075	Winslow Capital – Pool IV	($1,750,000)	Transfer to 000740062
000740062	Miscellaneous Account – Pool IV	$2,000,000	Transfer from Multiple Accounts

Investment Managers
Please communicate with BNY regarding the availability of the requested cash in your respective portfolio so they can facilitate the cash transfer to the UCF miscellaneous investment account.

Should you need any further information or have any questions or concerns, please do not hesitate to contact our UCF consultant, Troy Brown, at 863-904-0847.

Sincerely,

William F. Merck II
Vice President for Administration and Finance
Chief Financial Officer

University of Central Florida

Office of the Vice President

UNIVERSITY OF CENTAL FLORIDA
CUSTODIAN LETTER OF INSTRUCTION

March 16, 2012

Mr. Randall Deen, CRP, CPPS
Vice President/Group Manager
BNY Mellon Trust Company
10161 Centurion Parkway
Jacksonville, FL 32256

Dear Randy:

The University of Central Florida Operating Fund (UCF) has directed the following managers to raise cash in their respective portfolios for subsequent transfer to the UCF miscellaneous investment account. Once the cash is available in each manager's account, UCF directs Bank of New York (BNY) to effectuate the following asset transfers in the UCF accounts.

000740077	DGHM	**($125,000)**	Transfer to 000740062
000740079	MD Sass	**($125,000)**	Transfer to 000740062
000740075	Winslow Capital	**($1,750,000)**	Transfer to 000740062
000740062	Miscellaneous Account	**$2,000,000**	Transfer from Multiple Accounts

Once the **$2,000,000** is available in the miscellaneous investment account, UCF directs BNY to wire transfer the **$2,000,000** to UCF's Bank of America account using the wire instructions below.

Bank of America
ABA: 026009593
Account: 005562579634
Acct Name: University of Central Florida Board of Trustees General Operating Account
Attn: Tracy Clark

Should you need any further information or have any questions or concerns, please do not hesitate to contact UCF our consultant, Troy Brown at 863-904-0847.

Sincerely,

William F. Merck II

LETTER OF INSTRUCTION

March 28, 2012

Ms. Jean A. Baillon
CAO, CFO, Senior Managing Director
Winslow Capital Management, Inc.
4720 IDS Tower
80 South Eighth Street
Minneapolis, MN 55402

Dear Jean:

Due to organizational needs outside of the UCF-Pool IV Winslow investment portfolio; we are requesting Winslow to "realize" **$1,600,000** of currently "unrealized" gains in our investment portfolio. While we do not want this requirement to adversely affect your ongoing portfolio strategy or management of our funds, we do need to recognize these gains for organizational reasons.

As such, we are instructing Winslow to immediately **SELL** sufficient securities in the UCF-Pool IV investment portfolio to realize **$1,600,000** of currently unrealized gains and then **REPURCHASE** these same securities at your discretion. We will not be drawing any capital from the account.

We would also like to minimize the transaction costs associated with the realization of these gains in the portfolio so please take advantage of our existing recapture account with BNY/ConvergEx or an "execution only" brokerage channel, if possible.

We appreciate your assistance with our request. Please let us know if you have any questions.

Sincerely,

William F. Merck II
Vice President for Administration and Finance
Chief Financial Officer

Subject: Set-up department 02010350 - AV VP-OH University Resources

Ann,

I need you to set-up the following department as follows:

02010350 -AV VP-OH University Resources with program code 91:

DDC-0105262 Merck, William F
RFO-0112316 Monroe, Judith E
PCT-1063071 Rogers, Tiffanie Lynn

I have left a message with Rebeca Richards as this department is going to exempt from auxiliary overhead. I believe the AUXOVD_CD will be 0256 and I want to confirm this with Rebeca.

Please let me know when you have set this up so I can review.

Thanks!

Glen Carlson

ITEM: FF-1

University of Central Florida
Board of Trustees

SUBJECT: WMFE-TV

DATE: June 18, 2012

PROPOSED BOARD ACTION

Approval of UCF's purchase of WMFE TV's public broadcasting license and broadcast equipment.

BACKGROUND INFORMATION

WUCF TV debuted July 1, 2011, as Central Florida's new and only PBS channel. WUCF TV has been operating as a cooperative venture with Brevard Community College, the holder of the broadcast license.

This arrangement was a temporary arrangement designed to keep PBS in Central Florida until the parties could negotiate a more permanent arrangement. UCF and BCC entered into negotiations for UCF to purchase the broadcast license from BCC but those negotiations were not successful, creating the possibility that WUCF TV would end operations.

UCF was subsequently presented with the opportunity to purchase WMFE's non-commercial educational broadcast license and equipment, thereby allowing UCF to continue providing public television to Central Florida and offer UCF students a unique opportunity for hands-on experience with television broadcasting.

Acquiring the license and equipment will allow UCF to:

- create a permanent Central Florida home for award-winning PBS programs, including "PBS Kids" and shows that focus on STEM and literacy skills for children
- expand educational opportunities for UCF students in broadcast engineering, digital film and media, communications, and other fields
- tell stories about UCF directly to our community, including student and faculty member success and stories that support the university's ongoing campaigns
- broadcast to a larger audience thanks to WMFE's stronger TV signal.

If approved by this board, the university will pay a total of $3.3 million to WMFE over three years (schedule attached) to acquire WMFE TV's license and broadcast equipment. Auxiliary funds will be used for the license and equipment purchase; E&G and tuition dollars will not be used.

Community involvement during WUCF TV's first year has been excellent, and the acquisition will allow the channel to expand local fundraising to support the channel.

Should the Board of Trustees approve the acquisition, WMFE TV will submit the purchase to the Federal Communications Commission for approval, a process that can take several months. BCC supports this acquisition and has pledged a smooth broadcast transition should it be approved by this Board and the FCC.

MEMORANDUM OF UNDERSTANDING
USE OF FUNDS

The following memorandum ("MOU") sets forth the understanding between the Provost at the University of Central Florida ("Provost") and the Vice President Administration and Finance and Chief Financial Officer at the University of Central Florida ("Administration") regarding the use of funds to be made in support of the University of Central Florida's construction of the Morgridge International Reading Center.

1. **Use of Funds:** The Administration hereby makes available for supplementing the construction budget for the construction of the Morgridge International Reading Center, the amount of ($2,069,612.00).

2. **Repayment:** Repayment is to occur upon receipt of Courtelis funds from the State of Florida in the amount of Two million Sixty-nine thousand Six-hundred twelve ($2,069,612.00) plus accrual of interest, which shall commence the date funds are transferred to the project, at a rate of two percent (2.0%) per annum. If the State of Florida declares the Courtelis funds for this project will not be forth coming, an alternate repayment source and time line for repayment will be identified by the Vice President for Administration and Finance and the Provost. A revised MOU will be executed at that time.

3. **Purpose:** The use of funds will assist with the construction of the Morgridge International Reading Center.

4. **Applicable Law:** This MOU will be construed in accordance with, and the administration of the contribution received herein shall be pursuant to the laws of the State of Florida.

IN WITNESS WHEREOF, each of the undersigned as duly authorized and validly existing representatives of the University of Central Florida have executed this MOU on the date as indicated below.

Auxiliary Loan – Memo to File
8/01/12

Per discussion with Tracy Clark on 8/1/12, Mr. Merck and Dr. Waldrop have decided to change the terms of the MOU dated January 2011 pertaining to the Morgridge International Reading Center loan.

Effective 7/01/2012, interest accruals will cease and the balance outstanding at 6/30/12 ($2,118,658.96) will be paid off from distributions of University cash and investment interest earnings on a straight-line basis over two years as follows:

Balance O/S @ 6/30/12	$ 2,118,658.96
Number of months to payoff	24
Amount of investment interest to be applied to the loan monthly	$ 88,277.46

Subject: RE: 1213 Investment Earnings - June
Attachments: 1213 Investment Earnings - June for distribution.xlsx; Investment Distribution Analysis.xlsx

Bill – with the sale of all of our equity funds we have now recognized all available revenues on our BNY portfolio, to date. You can see from the attached first schedule that the sale (plus other June activity) generated $10.9 million in realized gains. We distributed to departments $.9 million of those gains through our normal process. All other realized gains on the portfolio over the past three years have been recognized and distributed as we went along.

Our plan is to keep in a central department $10 million of June's gain. Going forward, new gains in BNY will be unrealized since we're in a mutual fund type index fund. That means they will not be available for distribution to the dept's. We need to decide what we want to do to make up for the loss the departments will experience from the gains being pent up as unrealized. (Plus the loss of SPIA earnings - notice the SPIA rate for June was .61% - lowest in years). The second attachment shows we distributed an average of $720k per month July-Apr – an average yield of 1.7%. SPIA earnings in June were only $111K.

I can go over this with you when we get a chance.

Tracy.Clark@ucf.edu

This year, we conducted a planned review of the investments made three years ago for our operating cash balances. Our investments have performed well – they have earned approximately 1.2 percent more in our structured portfolio than they would have earned had we left all funds in the state treasurer's Special Purpose Investment Account (SPIA) for those three years.

Our investments for operating cash balances include approximately 50 percent in SPIA, 40 percent in money market and fixed income funds and 10 percent in equities. Following our review, we left the 50 percent in SPIA, 40 percent in money market and fixed income funds and moved our 10 percent equities from actively managed funds to a passive index fund.

Our 10 percent is now in the Vanguard S&P 500 Index Fund. Previously, it had been divided among investments with Winslow Capital Management, MD Sass and DGHM. We expect to achieve at least the same investment performance while paying less in fees.

This year, we conducted a planned review of the ~~updated~~ investments ~~we~~ made three years ago for our operating cash balances. Our investments have performed well – they~~we~~ have earned approximately ~~3~~1.~~5~~2 percent ~~in interest, compared with the 2.4 percent that~~more in our structured portfolio ~~-~~than they~~we~~ would have earned had we left all funds~~stayed~~ in the state treasurer's Special Purpose Investment Account (SPIA) for those three years.

Our investments for operating cash balances include approximately ~~9~~50 percent in SPIA, 40 percent in money market and fixed income ~~accounts~~funds ~~(money market)~~ and 10 percent in equities ~~and stocks~~. Following our review, we left the 50 percent in SPIA, ~~90~~40 percent ~~intact~~in money market and fixed income funds and moved our 10 percent equities from ~~an~~ actively managed funds to a passive index fund.

Our 10 percent is now in the Vanguard S&P 500 Index Fund. Previously, it had been divided among investments with Winslow Capital Management, MD Sass and DGHM.

_We expect to achieve at least the same investment performance while paying less in fees.

~~Our 10 percent is now in the Vanguard S&P 500 Index Fund. Previously, it had been divided among investments with Winslow Capital Management, MD Sass and DGHM.~~

Subject: RE: Investments Distribution - BNY

Correct – Mr. Merck doesn't want to supplement the actual earnings at this time.

Thanks for asking!

Hey Tracy,

I thought that you had mentioned that when you last spoke with Mr. Merck, we were thinking about just keeping the $10M in the investment dept for a while. Is my recollection correct?

Subject: Investments Distribution - BNY

Hi Brad,

In June we set aside $10M of investment realized gains to distribute for any months that were lower than our average from the prior year. This month for BNY we have $115,042.32 of earned income to distribute where in the prior year we averaged about $400K of earned income. Do you think we should supplement the amount distributed? I suggest $200K making total BNY disbursement of $315,042.32K.

Board of Trustees
Finance and Facilities Committee Meeting
President's Boardroom, Millican Hall, 3rd floor
February 12, 2014

MINUTES

CALL TO ORDER
Trustee Marcos Marchena, chair of the Finance and Facilities Committee, called the meeting to order at 8:34 a.m. Committee members Reid Oetjen and Melissa Westbrook were present. Committee members John Sprouls and Robert Garvy attended via teleconference. Trustee Olga Calvet was present and Trustee Richard Crotty attended via teleconference.

MINUTES APPROVAL
The minutes of the December 4, 2013, Finance and Facilities Committee meeting were approved as submitted.

NEW BUSINESS
Finance and Facilities Committee Charter Review (FFC-1)
Regulations implemented by the Board of Trustees in January 2011 direct the Finance and Facilities Committee to review its charter every three years. Chair Marchena instructed the committee members to study the charter and bring suggestions for revisions to the next FFC meeting.

2014-15 Medical Student Tuition and Fees (FFC-2)
Deborah German, Vice President for Medical Affairs and Dean of the College of Medicine, discussed the proposed increase in 2014-15 medical student tuition and fees. The committee unanimously approved the proposed increase.

2014-15 Student Activity and Service, Health, and Athletic Fees (FFC-3)
William F. Merck, II, Vice President for Administration and Finance and Chief Financial Officer, discussed the proposed increase in the 2014-15 Student Activity and Service Fee and Athletic Fee and the proposed decrease in the 2014-15 Health Fee. The committee unanimously approved the proposed increases and the proposed decrease.

Capital Improvement Trust Fund Fee (FFC-4)
Merck discussed the proposed increase in the Capital Improvement Trust Fund Fee to support the design and development of the John C. Hitt Library. The committee unanimously approved the proposed increase.

Minor Amendment to the 2010 Campus Master Plan – Global International Student Center and Parking Garage (FFC-5)
Merck and Lee Kernek, Associate Vice President for Administration and Finance, requested approval for a minor amendment to the University of Central Florida Campus Master Plan to construct a 51,920 gross-square-foot Global Academy academic building and a parking garage. The committee unanimously approved the amendment.

Technology Fee Report (INFO-1)
Joel Hartman, Vice President for Information Technologies and Resources and Chief Information Officer, presented a summary of the technology fees as an information item.

Equipment Fees for 2014-15 (INFO-2)
Max Poole, Senior Associate Dean for the College of Graduate Studies, and Elliott M. Vittes, Interim Vice Provost and Dean of Undergraduate Studies, presented a summary of the equipment fees as an information item.

UCF Housing Update (INFO-3)
Jeff Novak, Director of Housing, gave an update on Spring 2014 occupancy for UCF and affiliated housing.

UCF Investments Quarterly Report Ended December 31, 2013 (INFO-4)
Tracy Clark, Associate Vice President for Administration and Finance and Controller, reviewed the investments quarterly update as of December 31, 2013.

Key Financial Ratios – UCF Compared to State University System (INFO-5)
Clark reviewed the key financial ratios as of June 30, 2012.

University Operating Budget Report ended December 31, 2013 (INFO-6)
Clark reported that the University Operating Budget Report ended December 31, 2013, was provided as an information item.

UCF Research Foundation 2013-14 First-Quarter Financial Report Presentation (INFO-7)
Edward Jacobs, Chief Financial Officer and Treasurer for the UCF Research Foundation, gave a presentation on the foundation's operating results.

Chair Marchena adjourned the Finance and Facilities Committee meeting at 10:06 a.m.

Respectfully submitted:_____ _____

Bill – here is a current picture of Auxiliary Cash Balances. Let me know if you want more detail or want to discuss. One area to consider from a loan perspective would be the $10M we were holding back in realized gains from the investments. Its sitting in an A&F department. I know we wanted to hang onto that in case the market dipped below our initial investments, but if we were setting the GAA Building up to be repaid, it may be a source that sounds the best.

ITEM: FF-4

University of Central Florida
Board of Trustees

SUBJECT: Minor Amendment to the 2010 Campus Master Plan – Global International Student Center and Parking Garage

DATE: March 27, 2014

PROPOSED BOARD ACTION

Request approval for a minor amendment to the University of Central Florida Campus Master Plan to construct a 51,920 gross-square-foot Global International Student Center and parking garage of a size yet to be determined.

BACKGROUND INFORMATION

The purpose of the proposed amendment is to include these facilities in the Capital Improvements, Urban Design, Future Land Use, and Recreation and Open Space Elements of the 2010 Campus Master Plan. The Global UCF building comprises classrooms, offices, and support spaces. It will be used for international students during the day and for continuing education students during the evenings. The proposed parking garage will replace surface parking that will be taken up by the future Interdisciplinary Research Building, the Global International Student Center, and the parking garage footprint; provide parking for additional planned facilities; support activities and events; and contain offices and support spaces for Parking Services. These two facilities may or may not be linked, depending on the final design. Prior to construction, the university will obtain approval from Orange County.

Supporting documentation: Memorandum from Maria Yebra-Teimouri (Attachment A)
Project Location (Attachment B)
Capital Improvements List (Attachment C)
Urban Design Map (Attachment D)
Future Land Use (Attachment E)
Recreation and Open Space (Attachment F)

MEMORANDUM

TO: Scott Cole, Vice President and General Counsel

FROM: Maria Yebra-Teimouri, Coordinator, Facilities Planning

SUBJECT: Minor Amendment to 2010 Campus Master Plan

DATE: January 16, 2014

The University of Central Florida requests a minor amendment to the 2010 Campus Master Plan to amend the Capital Improvements, Urban Design, Future Land Use, and Recreation and Open Space Elements by adding a 51,920 gross square foot academic facility and a parking garage of a size yet to be determined. The academic facility will contain classrooms, offices, and support spaces; the parking garage will replace surface parking that will be taken up by the future Interdisciplinary Research Building, the Global International Student Center, and the parking garage footprint; provide parking for additional planned facilities; support activities and events; and contain offices and support spaces for Parking Services. The proposed location for these facilities is in the northeast quadrant of the Academic Core and will be specifically determined during the design phase.

An analysis of the statutory thresholds and university responses that reflect the nature of the amendment request as a minor amendment may be found below. The thresholds are referenced under section 1013.30(9), F.S.

An amendment to a campus master plan must be reviewed and adopted under subsections (6)-(8) if such amendment, alone or in conjunction with other amendments, would:

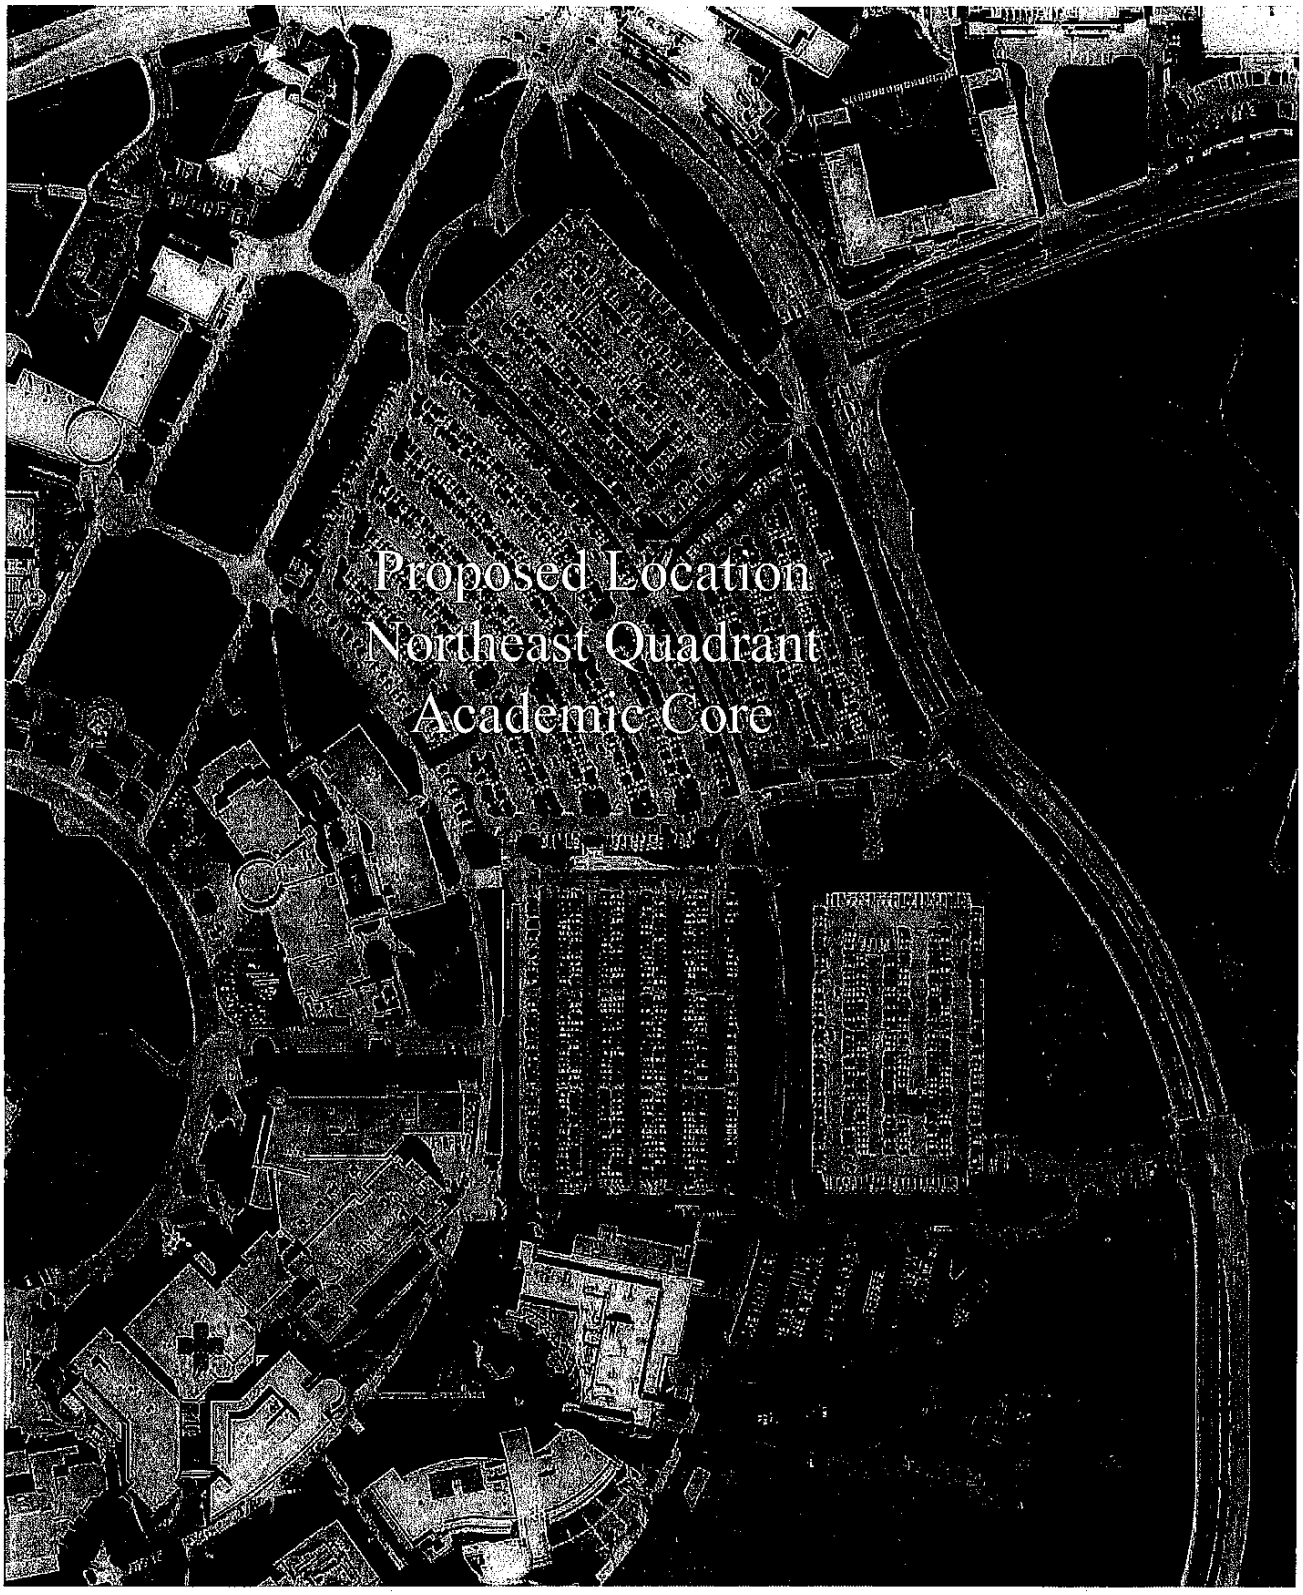
(a) Increase density or intensity of use of land on the campus by more than 10 percent;

University Response: Adding a 51,920 gross square foot building does not exceed the ten percent threshold for land use since the existing land use is already academic. The proposed parking garage will not increase the density or intensity of land use set aside for parking by more than 10 percent.

(b) Decrease the amount of natural areas, open space, or buffers on the campus by more than 10 percent:

Attachment A

University Response: The proposed facilities will have negligible impact on open space or buffers.



(c) Rearrange land uses in a manner that will increase the impact of any proposed campus development by more than 10 percent on a road or on another public facility or service provided or maintained by the state, the county, the host local government, or any affected local government.

University Response: The proposed facilities will have a minimal impact and will not generate an increase in capacity on any proposed campus development, road, or public facility by greater than 10 percent. They will support existing programs in continuing education and a new international program for resident students. Depending on the final location of the parking garage, a minimal amount of Recreation and Open Space may be affected, but will not exceed the 10 percent threshold.

In summary, the proposed changes do not exceed the amendment threshold criteria in 1013.30 (9), F.S. and may therefore be treated as a minor amendment.

Thank you for your time and attention to this matter. If you require additional information, please contact me at (407) 823-3893.

Minutes
Board of Trustees Meeting
University of Central Florida
March 27, 2014

Chair Olga Calvet called the meeting of the Board of Trustees to order at 1:00 p.m. in the Live Oak Center on the UCF Orlando campus.

The following board members attended the meeting: **Trustees Clarence Brown, Richard Crotty, Alan Florez, Robert Garvy, Ray Gilley, Marcos Marchena, Alex Martins, Reid Oetjen, Beverly Seay, John Sprouls,** and **Melissa Westbrook**.

WELCOME

Calvet reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

She welcomed the board members and called on **Dr. Rick Schell**, Associate Corporate Secretary, to call the roll. Schell noted that a quorum was present.

Calvet called for approval of the January 23, 2014, board meeting minutes, which were approved as written.

Calvet called on **President John C. Hitt** for remarks and introductions.

REMARKS

Hitt announced that trustee **Melissa Westbrook** was leaving the board after her year of service representing the Student Government Association. Hitt thanked her for her service to the university.

INTRODUCTIONS

Hitt recognized the following students, faculty members, and staff members for their accomplishments.

A. Order of Pegasus-Class of 2014

The **Order of Pegasus** is the highest recognition the university gives to outstanding graduating seniors and graduate students who have demonstrated exemplary involvement, leadership, academic achievement, and community service. The following recipients were in attendance.

Doctoral Degree

Tracy Becker, College of Sciences
Avianne Bunnell, College of Medicine

Master's Degree

Courtney Buzan, College of Education and Human Performance

Bachelor's Degree

Shekinah Fashaw, Undergraduate Studies, The Burnett Honors College
Cynthia Florentino, College of Sciences
Jessica Gottsleben, College of Sciences, The Burnett Honors College
Kaye-Alese Green, College of Sciences, The Burnett Honors College
LaShaunda Hayes, College of Sciences, The Burnett Honors College
Amelia Klug, College of Health and Public Affairs, The Burnett Honors College
Charlene Kormondy, Undergraduate Studies, The Burnett Honors College
Amelia Mackarey, College of Medicine, College of Arts and Humanities, The Burnett Honors College
Julien Meyer, Rosen College of Hospitality Management
Rana Riad, College of Engineering and Computer Science, The Burnett Honors College
Nicholas Simons, College of Business Administration, College of Sciences, The Burnett Honors College
Vu Tran, College of Sciences
Alexis Wansac, College of Sciences, College of Arts and Humanities, The Burnett Honors College

B. Faculty

Pegasus Professor Shin-Tson Wu is the recipient of the Optical Society's 2014 Beller Medal. The Esther Hoffman Beller Medal is presented for outstanding contributions to optical science and engineering education. Dr. Wu is the third professor from the College of Optics and Photonics to win this prestigious award.

C. Employee of the Month

The Employee of the Month for February was **Joe Bizon**, a supervisor for the Serials Unit in the Acquisitions and Collection Services Department in the UCF Libraries.

The Employee of the Month for March was **Chris Dan,** a computer specialist for Regional Campuses.

Hitt referred the board members to their FYI folders for a copy of his remarks at the Board of Governors meeting held on March 20, 2014.

REPORTS

- **TeachLivE™** Drs. Lisa Diecker, Charles Hughes, and Michael Hynes demonstrated a simulated classroom environment using student avatars, which is a new form of teacher preparation and professional development currently adopted by 40 U.S. universities and four school districts.

004

INFORMATION

Calvet noted the following informational item.

- **INFO-1 2014 Finance and Facilities Committee Meeting Dates**

CONSENT AGENDA

A motion was made to accept the consent agenda, and members of the board unanimously approved the following actions.

- **EP-1 Conferral of Degrees** – Concurrence with the conferral of degrees at the Spring 2014 commencement ceremonies.

- **EP-2 2016-17 Proposed Academic Calendar** – Approval of the 2016-17 UCF academic calendar.

- **EP-3 New Degree Programs**
  a. Nanotechnology, P.S.M. – Approval of a professional science master's degree in nanotechnology.
  b. Writing and Rhetoric, B.A. – Approval of a bachelor of arts degree in writing and rhetoric.

ADVANCEMENT COMMITTEE REPORT

Rich Crotty, Chair of the Advancement Committee, reported the following highlights from the committee meeting earlier in the day.

- **Dr. Dan Holsenbeck,** Vice President for University Relations, reported that WUCF TV Fundraising efforts are going well, stating that in comparison to the $226,000 raised in March 2013 from community on-air pledges, this year WUCF TV raised $401,000.
- Holsenbeck reported that the Orlando Advertising Federation recognized UCF with 12 best-of-show awards, including five gold and five silver awards.
- Holsenbeck stated that UCF won four Grand Awards in the CASE District 3 Conference. In addition, UCF won three Awards of Excellence and three Special Merit Awards.
- Holsenbeck reported that **Grant Heston** was recognized as 2014 Most Outstanding Professional by the Public Relations Association for Central Florida.
- Holsenbeck gave a legislature update.
- **Robert Holmes**, Vice President for Alumni Relations and Development and Foundation CEO, gave an update on the Faculty and Staff Campaign, noting that 1,350 contributed to the campaign.
- Holmes reported on two recent donor gift agreements.
- **Annemarie Wess**, president of the inaugural year of the UCF Philanthropy Council, which was created to develop student support for philanthropy, reported that student officers were strategizing expansion of the council.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Robert Garvy, Chair of the Educational Programs Committee, noted the Educational Programs Committee items approved in the consent agenda and presented the highlights from the committee meeting earlier in the day.

- **Dr. Diane Chase**, Interim Provost and Vice President for Academic Affairs, reported on the Conferral of Degrees at the Spring 2014 commencement ceremonies:

  6,716 baccalaureate degrees
  1,186 master's degrees
  158 doctoral and specialist degrees
  8,060 Total

- **Dr. Maribeth Ehasz**, Vice President for Student Development and Enrollment Services, and **DeLaine Priest**, Associate Vice President for Student Development and Enrollment Services, presented the 2016-17 Academic Calendar.
- **Dr. C. Ross Hinkle,** Vice Provost and Dean of the College of Graduate Studies, presented an overview of a new degree program, Nanotechnology, P.S.M.
- **Dr. Elliot Vittes**, Interim Vice Provost and Dean of the Office of Undergraduate Studies, presented an overview of a new degree program, Writing and Rhetoric, B.S.
- Chase reported on the 2013 review results of UCF centers and institutes.
- Chase presented an overview of an Accelerated Law Program, indicating that UCF has developed a 3+3 accelerated law program with Florida State University College of Law. This partnership will allow selected UCF students to earn both a bachelor's degree from UCF and a *juris doctor* degree from Florida State Law in an accelerated fashion. UCF's Department of Legal Studies recently established 3+3 law programs with Barry University Dwayne O. Andreas School of Law and Touro College Jacob D. Fuchsberg Law Center.
- Chase reported on a textbook affordability bill that is before the legislature.
- Ehasz reported that Fall enrollment is going well. She also noted that as many as 70 national merit scholars may be accepted to UCF in the fall.

FINANCE AND FACILITIES COMMITTEE REPORT

Marcos Marchena, Chair of the Finance and Facilities Committee, reported highlights from the committee meeting held February 12, 2014, and earlier in the day. He presented the following items for board approval.

- **FF-1 2014-15 Medical Student Tuition and Fees** – A motion was made and unanimously passed by the board approving the 2014-15 in-state and out-of-state fees for the College of Medicine Medical Education Program.

- **FF-2 2014-15 Student Activity and Service, Health, and Athletics Fees** – A motion was made and unanimously passed by the board approving an increase in the Athletic Fee and the Activity and Service Fee effective Fall 2014, and the approval of a decrease in the Health Fee effective Fall 2014.

- **FF-3 Capital Improvement Trust Fund Fee** – A motion was made and unanimously passed by the board approving an increase in the Capital Improvement Trust Fund Fee. The fee will be presented to the Florida Board of Governors for approval.

- **FF-4 Minor Amendment to the 2010 Campus Master Plan – Global International Student Center and Parking Garage** – A motion was made and unanimously passed by the board approving a minor amendment to the UCF 2010 Campus Master Plan to construct a 51,920 square-foot Global International Student Center. A parking garage of a size yet to be determined was also approved.

- **FF-5 Use of the Bright House Networks Stadium for 2014 Mid-Eastern Athletic Conference and Southwestern Athletic Conference Challenge** – A motion was made and unanimously passed by the board approving the use of the Bright House Networks Stadium for the 2014 Mid-Eastern Athletic Conference and Southwestern Athletic Conference Challenge on August 31, 2014.

Calvet asked if there were any further reports from any of the committees. None was stated.

ANNOUNCEMENTS AND ADJOURNMENT

Calvet announced the following upcoming meetings:

AGB 2014 National Conference on Trusteeship	April 12-14, 2014 (Hyatt Regency Orlando, former Peabody Orlando)
Board of Governors meeting	May 8, 2014 (Florida Gulf Coast University)
Board of Trustees meeting	May 22, 2014 (Live Oak Center)

Calvet adjourned the board meeting at 2:32 p.m.

Respectfully submitted: _____ Date: _____

John C. Hitt
Corporate Secretary

007

Board of Trustees
Finance and Facilities Committee Meeting
President's Boardroom, Millican Hall, 3rd floor
April 3, 2014

MINUTES

CALL TO ORDER
Trustee Marcos Marchena, chair of the Finance and Facilities Committee, called the meeting to order at 8:34 a.m. Committee members Alex Martins, Reid Oetjen, and Melissa Westbrook were present. Committee members John Sprouls and Robert Garvy attended via teleconference.

MINUTES APPROVAL
The minutes of the January 23, 2014, and February 12, 2014, Finance and Facilities Committee meeting were approved as submitted.

NEW BUSINESS
Universal Health Insurance for New Students (FFC-1)
Maribeth Ehasz, Vice President for Student Development and Enrollment Services, and Michael Deichen, Director of Health Services, led a discussion regarding the concept of universal health insurance as a condition of enrollment for new students beginning Fall 2015. Ehasz and Deichen received questions from the committee members and will return to a future meeting with additional information.

Finance and Facilities Committee Charter Review (FFC-2)
Chair Marchena explained that regulations implemented by the Board of Trustees in January 2011 direct the Finance and Facilities Committee to review its charter every three years. No changes to the charter were proposed, and the committee unanimously approved to keep the charter with its current format and content.

Amend UCFAA Bylaws (FFC-3)
Jordan Clark, Associate General Counsel, discussed a proposal to amend the UCF Athletics Association bylaws to combine the standing Audit Committee and Finance Committee to create a new single Audit and Finance Committee. The purpose of the amendment is a house-keeping measure and allows for more flexibility and administrative ease when scheduling committee meetings and obtaining a quorum. The committee unanimously approved the proposed amendment.

Direct Support Organizations' 2013-14 Second-Quarter Financial Reports (INFO-1)
William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, and John C. Pittman, Associate Vice President for Administration and Finance, Debt Management, reported that the DSOs' 2013-14 second-quarter financial reports ended December 31, 2013, were provided as information items.

Golden Knights Corporation and UCF Athletic Association 2013-14 Second-Quarter Financial Report Presentation (INFO-2)
Todd Stansbury, Director of Athletics, Brad Stricklin, Senior Associate Athletics Director and Chief Financial Officer, and David Hansen, Senior Associate Athletics Director of Internal Operations, gave a presentation on the Golden Knights Corporation and UCF Athletic Association's operating results and budget.

University and DSO Debt Report (INFO-3)
Merck reported that the University and DSO Debt Report was provided as an information item.

2013 Audited University Financial Statements (INFO-4)
Tracy Clark, Associate Vice President for Administration and Finance and Controller, reported that the 2013 Audited University Financial Statements were provided as an information item.

Bloomberg Terminal Fee Discussion (INFO-5)
Paul Jarley, Dean of the College of Business Administration, explained the purpose of the Bloomberg terminals for finance and real estate majors and the need for the associated revised equipment fee for those students beginning 2014-15.

UCF Convocation Corporation Series 2004A Certificates of Participation Refinancing (INFO-6)
Pittman explained that the UCFCC has the opportunity to refinance debt issued in 2004, resulting in possible savings in excess of 5 percent. Various financing alternatives are currently being explored to determine which option will yield the best overall savings. The committee unanimously recommended the UCFCC refinance this debt.

Colbourn Hall Renovations (INFO-7)
Merck and Lee Kernek, Associate Vice President for Administration and Finance, explained the preferred renovation option for Colbourn Hall is to build a new 75,000 square-foot building adjacent to the current building. Upon completion, the employees and departments housed in Colbourn Hall would move into the new building. Possibilities for the existing Colbourn Hall are contingent upon funding and will be considered at a future date. The committee unanimously recommended moving forward with the preferred renovation option.

Invitation to Negotiate for a Hotel and Conference Center (INFO-8)
Merck discussed the Invitation to Negotiate being developed for a hotel and conference center that potentially would be constructed on campus. The results and recommendation will be brought back to the committee before a decision is made.

Global Academy Facilities Update (INFO-9)
Merck, Clark, and Paul Lartonoix, Interim Assistant Vice Provost, provided an update on the financing and construction of the Global UCF classroom building and parking garage. The committee unanimously recommended an internal loan to finance the classroom building. The parking garage is proposed to be funded through the revenue bond process. Lartonoix also provided an update on the Global UCF program itself.

Chair Marchena adjourned the Finance and Facilities Committee meeting at 10:30 a.m.

Subject: RE: global contract

Wilson/ Donna – It has just been decided that there is going to be a third funding source for the GAA building. Approximately $1.5 million of this $15 million estimate represents furniture and fixtures for the building. Those purchases will be funded from the central E&G carryforward. This will reduce the amount to be funded from the university resources department. Of course, this is all assuming the plan to move forward with construction is approved at the upcoming FFC meeting.

Summary of plan for funding sources:

Up to $10 million from undistributed investment earnings (expected to occur in FY15) - 02500308
$3.5 million from university resources (expected to occur in FY16) - 02010350
$1.5 million from E&G carryforward (expected to occur in FY16) – added to list of planned commitments

Wilson,

Please find attached the breakdown of budget and expenses by fiscal year. All numbers are preliminary and are subject to change once contracts have been finalized.

Overview	Budget	Expenses
FY 13/14	$ 328,628	$ 302,015
FY 14/15	$ 14,225,173	$ 9,091,560
FY 15/16	$ 453,912	$ 5,614,138
	$ 15,007,713	$ 15,007,713
Potential project savings from design contract	$ 7,713	
	$ 15,000,000	

At this time there are no figures available for the parking garage until further notice.

Let me know if you need any additional info.

Thanks,
LaShanda

Cc: Tammy Hintermeister; Wilson Rosario
Subject: RE: global contract

Team,

Our design team needs to get started right away, so we need the below requested funds immediately in order to execute their contract. It is my understanding that Mr Merck has authorized the design team only to proceed through schematic design so that a final/accurate project cost number can be presented to the BOT for full project approval in June (whatever is required over the $10,000,000). The current schedule has the following milestones which are critical to hit if we are to open the building in December 2015:

Project Start: ASAP
Conceptual Schematics: ASAP - June 1, 2014
Advanced Schematics: June 2 - July 1, 2014
Traffic Study and Masterplan work – concurrent with Schematic Design – progress deliverable June 1, 2014, final deliverable July 1, 2014
Design Development: July 2 – September 1, 2014
50% Construction Documents and GMP – September 2 – November 1, 2014
100% Construction Documents – November 2, 2014 – December 1, 2014
Construction – December 1, 2014 – November 1, 2014

Note that the drawings will be submitted for permit and funding approval off the 50% CD set, which will be November 1, 2014. This will save time on the schedule to allow permitting and final funding approval to be done while the details of the CDs are finalized. So money needs to be in place for the start of construction by December 1, 2014.

There is also planned some utility work for power, UCF telecom, and chilled water to take place this summer in the month of June, so some funding (TBD the amount) will need to be in place for that construction work which is separate from the above.

Please advise when the funding for the first design phase is in place, as we need that to be able to execute their contract. I'm hoping this can be finalized next week.

Thanks,
Bill

Subject: FW: global contract

Wilson – We need to set up a project for construction of the Global Achievement Academy building. Mr. Merck approved a transfer of funding for the initial design phase (see below). This one has two funding sources as noted in the summary below. According to Mr. Merck, anything related to traffic and the parking garage component of the project will be funded by Parking. As for the rest, up to $10,000,000 will be funded by undistributed investment earnings and any excess over that amount will likely be funded by the auxiliary university resources department (02010350).

Schematic Design	$	148,728	
Master Plan		31,600	
Commissioning		26,613	
		206,941	From undistributed investment earnings - 02500308
Traffic Study		34,800	From Parking
Total Request	$	241,741	To new project

Please work with the folks in Facilities and Parking to get this going. Let me know if you have any questions.

Thank you,

Subject: RE: global contract

Lee,

We are almost complete with the contract adjustments, Shelley has sent it to GC for their review and approval. I'm hoping to have that by Wednesday's meeting.

On the design fees, we need funding to be able to get the design process started. The funding that we need is $148,728 for SD + $31,600 for masterplan + $34,800 for traffic study + $26,613 for Commissioning = **$241,741 total through Schematic Design**. Note that this does not include CM fees, but those shouldn't be due until design is complete. Per Tammy in our accounting department, we need Wilson Rosario from F&A to set up this account for us, and he will need authorization from Mr Merck to do this, along with this funding source. Can you request Mr Merck to provide these funds?

Thanks,
Bill

ITEM: FF-5

University of Central Florida
Board of Trustees

SUBJECT: Global UCF Facilities Update

DATE: May 22, 2014

PROPOSED BOARD ACTION

Approval to proceed in the construction of an academic building to support the Global UCF program.

BACKGROUND INFORMATION

Global UCF provides international students the opportunity to combine additional language and academic preparation with credit-bearing courses in the first year of their UCF study. This program will further diversify the student body, increase cross-cultural student interactions, and develop students' international awareness.

The Global UCF program will require approximately 23 small 40-seat classrooms for students and approximately 60 office spaces for faculty and staff. Funding for this approximately $10 million building will come from non-realized investment income that has not been previously allocated. This will be repaid through a facility use charge to this program and from other potential users.

Minutes
Board of Trustees Meeting
University of Central Florida
May 22, 2014

Chair Olga Calvet called the meeting of the Board of Trustees to order at 1:05 p.m. in the Live Oak Center on the UCF Orlando campus.

The following board members attended the meeting: **Trustees Jim Atchison, Weston Bayes, Clarence Brown, Richard Crotty, Robert Garvy, Marcos Marchena, Alex Martins, Reid Oetjen,** and **Beverly Seay**.

WELCOME

Calvet reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

She welcomed the board members and called on **Rick Schell**, Associate Corporate Secretary, to call the roll. Schell noted that a quorum was present.

Calvet welcomed public comment from **Jonathan Sebastian Blount**. Blount is founder of *Essence Magazine*.

Calvet called for approval of the March 27, 2014, meeting minutes, which were approved.

Calvet called on **John C. Hitt** for remarks and introductions.

REMARKS

Hitt welcomed and congratulated new board member, **Weston Bayes**, the newly-elected president of the UCF Student Government Association.

Hitt announced that **Reid Oetjen** was elected to a second, one-year term as chair of the Faculty Senate and retains his seat on the board of trustees.

INTRODUCTIONS

Hitt recognized the following members of the UCF community, congratulating them for their accomplishments.

A. Students

Dan Holsenbeck, Vice President for University Relations, introduced this year's legislative scholars and thanked them for their service: **Jon Bielby, Alysha Burgess, Jarrett Davis, Kevin Deo, Mikaela Duffy, Kurt McDavid, Elisabeth Mendes, Allysia Mompoint, Christina Nguyen,** and **Jessica Sirianni**.

Hitt announced that the **UCF Collegiate Cyber Defense Competition Team** placed first in the 2014 Raytheon National Collegiate Cyber Defense Competition. Members of the team present for recognition were **Carlos Beltran**, team captain, **Jason Cooper**, team co-captain, **Alex Davis, Dale Driggs, Mark Ignacio, Heather Lawrence, Cody McMahon, Troy Micka,** and **Dr. Thomas Nedorost**, faculty sponsor.

Hitt congratulated women's golfer **Ashley Holder** and head coach, **Emily Marron**. Holder was named this year's American Athletic Conference Player of the Year and Freshman Golfer of the Year.

Hitt noted that UCF's softball team won the American Athletic Conference regular-season championship. Junior **Farrah Sullivan** was named the AAC Player of the Year and head coach **Renee Luers-Gillispie's** coaching staff was named Coaching Staff of the Year.

B. Faculty

Zenghu Chang, a distinguished professor of physics and optics, was recognized for holding the world's record for the shortest laser pulse. He was awarded more than $9 million dollars, and his research can lead to faster, more efficient computers and electronic devices.

Timothy Coombs, professor in the Nicholson School of Communication, was recognized for his winning the 2013 Pathfinder Award from the Institute for Public Relations. This lifetime achievement award recognizes a body of scholarly research that has made a significant contribution to the theory and practice of public relations.

C. 2014 Pegasus Professors Awards

Hitt referred the board members to their FYI materials for a summary of the meritorious achievements of each of the 2014 Pegasus Professors and Reach for the Stars recipients.

The Pegasus Professor Award is UCF's most prestigious faculty honor, distinguishing extraordinary contributions to the UCF community through teaching, research, and service. This year, four faculty members were presented with this award. Hitt recognized and congratulated the following recipients who were in attendance.

Aristide Dogariu, Florida Photonics Center of Excellence
Jeffrey Rupert, School of Performing Arts

D. Reach for the Stars Awards

The UCF Reach for the Stars award honors highly successful research and creative activity accomplished by early-career university professionals. There were eight recipients for this year's inaugural UCF Reach for the Stars awards. Hitt recognized and congratulated the following recipients who were in attendance.

Ayman Abouraddy, Center for Research and Education in Optics and Lasers
Thomas Bryer, School of Public Administration
Stephen Fiore, Department of Philosophy

Joseph LaViola II and **Dr. Kenneth Stanley**, Department of Electrical Engineering and Computer Science, and
Eleazar Vasquez III, Department of Child, Family, and Community Sciences

E. Employee of the Month

The Employee of the Month for May was **Jim Sullivan**, a maintenance specialist at the Recreation and Wellness Center.

Hitt asked the audience to join him in congratulating these members of the UCF family.

F. Diligent Boardbooks

Schell provided an update on Diligent Boardbooks, an electronic format for handling board and committee documentation. Schell announced that the first paperless meeting will be on September 25, 2014. One-on-one training will be provided for trustees in September.

REPORTS

Deborah German, Vice President for Medical Affairs and Dean of the College of Medicine, gave an update on the UCF College of Medicine.

INFORMATION

Calvet noted the following informational item.

- **INFO-1 – New Committee Assignments**

CONSENT AGENDA

A motion was made to accept the consent agenda, and members of the board unanimously approved the following actions.

- **EP-1 2014 Tenure Recommendations**–Approval of tenure for faculty members whose names are recommended.

- **EP-2 UCF 2014-15 Work Plan**–Approval of the UCF 2014-15 Work Plan.

- **FF-1 Amend UCFAA Bylaws**–Approval to amend the UCF Athletics Association Bylaws to combine the standing Audit Committee and Finance Committee to create a new single Audit and Finance Committee.

- **FF-2 Refinancing of the UCF Convocation Corporation Series 2004A Certificates of Participation**–Approval to refinance the UCF Convocation Corporation Series 2004A Certificates of Participation.

- **FF-3 Revisions to Amendments to Regulation UCF-6.008 Vehicle Registration Fees and Parking Violation Fines**–Approval of the attached amendments to existing university regulation UCF-6.008 Vehicle Registration Fees and Parking Violation Fines, effective at the start of the Fall 2014 semester, pending approval by the Florida Board of Governors.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Robert Garvy, Chair of the Educational Programs Committee, noted the items approved in the consent agenda and reported the highlights from the committee meeting earlier in the day.

- **Diane Z. Chase**, Interim Provost and Vice President for Academic Affairs, reported on the 2014 Tenure Recommendations.
- Chase and **Paige Borden**, Assistant Vice President for Institutional Knowledge Management, provided an overview of the UCF 2014-15 Work Plan.
- **Dean Bahaa Saleh**, College of Optics and Photonics, **Interim Vice Provost and Dean Elliot Vittes**, Office of Undergraduate Studies, and **Dean Ross Hinkle**, College of Graduate Studies, reported on the 2012-13 Academic Program Review Recommendation Implementation Status.
- **Maribeth Ehasz**, Vice President for Student Development and Enrollment Services, reported on enrollment and housing trends.
- Chase provided the provost's update and noted that the Global Achievement Academy is underway with 70 students expected to enroll in the fall. She reported that the affordability textbook bill did not pass in the current legislative session. However, UCF is working with the bookstore to provide avenues to control textbook costs for the students. Chase stated there is an increase in funding to allow for an increase in hiring of new faculty.

ADVANCEMENT COMMITTEE REPORT

Rich Crotty, Chair of the Advancement Committee, reported the highlights from the committee meeting earlier in the day.

- Dan Holsenbeck gave a report on the 2014-15 State University System budget summary.
- Hitt reported on a $2 million legislative appropriation for UCF's downtown presence. The project is being discussed.
- **Joyce Henckler**, Chief Development Officer of the UCF Foundation, reported on the capital campaign stating that $130 million had been secured towards the campaign with $80 million in active requests. She further stated that the Alumni Association had a busy graduation season, hosting senior send-off events within the colleges.
- Crotty reported that the NFL draft sparked enthusiasm from UCF alumni and fans as they gathered across the country to watch **Blake Bortles** drafted by the Jacksonville Jaguars. UCF benefited from the good publicity surrounding this event.

FINANCE AND FACILITIES COMMITTEE REPORT

Marcos Marchena, Chair of the Finance and Facilities Committee, noted the items approved in the consent agenda. He invited **William F. Merck II**, Vice President for Administration and Finance and Chief Financial Officer, and **John C. Pittman**, Associate Vice President for Administration and Finance, Debt Management, to provide a brief summary on the net savings involved with consent agenda item FF-2, Refinancing of the UCF Convocation Corporation Series 2004A Certificates of Participation, approved earlier in the day.

Marchena presented the following items for board approval.

- **FF-4 Colbourn Hall Renovations**–A motion was made and unanimously passed to proceed with the new construction to replace Colbourn Hall.

- **FF-5 Global UCF Facilities Update**–A motion was made and unanimously passed to proceed in the construction of an academic building to support the Global UCF program.

- **FF-6 2014-15 Tuition and Fees, Amendments to University Tuition and Fee Regulation UCF 9.001**–A motion was made and unanimously passed approving the tuition, tuition differential, out-of-state fees, financial aid fees, and technology fees for undergraduate, graduate, and professional students, effective Fall 2014. Also approved were amendments to University Tuition and Fee Regulation UCF-9.001.

- **FF-7 2014-15 University Operating Budget**–A motion was made and unanimously passed approving the university's 2014-15 operating budget.

- **FF-8 2014-15 Capital Outlay Budget**–A motion was made and unanimously passed approving the university's 2014-15 capital outlay budget and authorizing the president to make necessary adjustments to the 2014-15 capital outlay budget.

- **FF-9 Florida Statewide Mutual Aid Agreement**–A motion was made and unanimously passed approving the Florida Statewide Mutual Aid Agreement for the State of Florida Division of Emergency Management.

Marchena reported highlights from the committee meeting held on April 3, 2014. He advised that the committee had reviewed its charter for potential modifications and is recommending no changes.

Hitt announced that **M.J. Soileau** reported that grant and contract funding reached $131 million, which is an increase of 31 percent from last year.

Calvet announced that all future board meetings will be held at the Fairwinds Alumni Center. She requested trustees to submit to Rick Schell any topics they would like to discuss at the July board retreat.

ANNOUNCEMENTS AND ADJOURNMENT

Chair Calvet announced the following upcoming meetings:

Board of Governors meeting	June 17–19, 2014 (Fairwinds Alumni Center)
Board of Trustees retreat	July 24, 2014 (Fairwinds Alumni Center)

Calvet adjourned the board meeting at 2:24 p.m.

Respectfully submitted: _____ Date: _____

John C. Hitt
Corporate Secretary

Planned E&G Budget Allocations

Updated as of 06/17/14

Note: The Morgridge International Reading Center, ~~Mitsubishi CHP Plant~~ and Quadrangle building are currently being funded through auxiliary loans

ICOFA AGENDA ITEM

Meeting Date: February 28 & 29, 2008

Topic: Interest earnings on E&G funds

Purpose: As of 12/6/07 the BOG passed BOG Regulation 9.007(5) requiring interest earnings resulting from the investment of current E&G appropriations to be subject to the same expenditure regulations as the original appropriations. Carry forward interest is to be considered additions to the carry forward balance.

Time Needed for Discussion: 10 minutes

DATE: July 11, 2013

SUBJECT: Various Amended Regulations

DUE DATE: **July 30, 2013**

There are several regulations that need to be updated in preparation for the September Board meeting. A summary of the proposed changes for each regulation are as follows:

1. 7.001 – Tuition & Associated Fees
    i. Eliminates the specific amount charged for undergraduate tuition and references the GAA and statutory authority.
    ii. Eliminates reference to the building fee (the building fee and capital improvement fee were combined).
    iii. Eliminates the additional charge associated with college prep course. This change is made pursuant to the modification in SB 1720 to section 1009.28. this was the citation that FAMU used to charge an additional fee for college prep classes.

iv. Eliminates the date when a block tuition proposal is to be submitted. (NOTE: Will rely on our data request system to establish the date.)
v. Modifies the date the tuition differential report is due to the legislature (NOTE: the date was modified in SB 1514)

2. 7.003 – Fees, Fines & Penalties
   i. Changes date when the budget committee will consider increases to existing fees from January to June.
   ii. Changes date when the budget committee will consider new fees from March to June.
   iii. Clarifies that excess hours applies to FTIC students.

3. 7.008 – Waivers of Tuition & Fees
   i. Clarification is provided on the number of credit hours allowed for homeless waivers.

4. 9.007 - Operating Budgets
   i. Adds language regarding the inclusion of carryforward funds in the expenditure data.
   ii. Adds language that E&G funds are to be used for operating activities, unless specifically authorized by law.
   iii. Adds language requiring universities to comply with all applicable federal, state, and local laws when implementing grants, contracts and sponsored research programs. (this is to address a Board audit comment on not having guidelines addressing sponsored research)
   iv. Adds language regarding the inclusion of technology fee revenues/expenditures and Board approved fees.
   v. Clarifies the use of E&G interest earnings.

5. X.xxx – Collegiate License Plates Revenues - New regulation that includes the university expenditure allocation for fundraising and scholarships.

Please submit one response per institution by **July 30, 2013**. Please send all responses to SUS-SUBMISSIONS@flbog.edu.

Thank you for your cooperation and assistance.

Subject: CREOL Exceptional funding request
Attachments: RE: FY 2015-16 75% Carry Forward and Budget Committee Approved Allocations; CREOL Exceptional Funding Request.pdf; RE: Lab Cost Comparison; RE: CREOL Addition; CREOL Program Narrative.pdf

Dale - We awarded CREOL the $4 million they requested for their facility expansion during last year's Carryforward reallocation. We also told them they needed to spend it on research lab space (their original plans included a large auditorium.) - see first attached email from me to Bahaa. We told them if they could add additional funds to include features other than labs that was fine.

They are now asking for an additional $1.5 million to complete the expansion, as an exceptional funding request (see last pdf file). This is one of the items Megan and I went over with you and you requested more information (namely was this one of those cases where facility's costs increased from the original quotes, college wants more etc.).

Long story short (see attached documentation if you want to read more) they pushed forward on a building with 4,600 net usable sq. ft. 1,200 - research labs, 880 - offices and. 2,500 unfinished auditorium/exhibit. Because they were given the directive to use the $4 million for lab space, they shelled out auditorium instead of building it out so that the auditorium build out $'s could be used towards building out labs that they had just planned to shell out. Their shortfall is not because facility's costs increased.

I'd say we should not fund this additional request - however, I'm not sure of the reason/need for the auditorium vs. lab space or whether you have talked with Bahaa or Joel about the substance of this building. The MIT award may impact how you think about this request if that award causes more needs here at main campus. Maybe a meeting with you, Joel, me, Bahaa, and Lee (or some such group) would make sense to make sure we are all on the same page with what they are doing over there.

In the past year they have been given $2 million for the 3rd floor renovation and $4 million for this expansion of which over 1/2 of the space ended up a shelled out auditorium. I think any additional funding needed should come from their own funds. It's a big ask and would deplete your one time funds by a significant amount.

We could push it forward to the University Budget Committee if you'd like, especially if main campus space is needed because of the new MIT award.

Subject: FW: CREOL expansion

In addition to the emails, I personally told the CREOL team that the direction was to maximize the labs, and I sent them to Joel/Dale for resolution of both that issue and the higher cost for adding to CREOL vs. other possible places.

Subject: RE: CREOL expansion

Here are some relevant emails that I think address your notes below.

* The attached "Lab Cost Comparison" email started from an email that you sent to Dale/Bill Merck/MJ/Joel on July 23, 2015 and I got forwarded it downstream. It outlines how way back in July of last year we told them multiple options and advised them that the addition at CREOL would be less bang for the buck due to its small size. It also has an acknowledgement from Mark Wagenhauser on August 12 that "We've been given further direction that the priority needs to be lab space. With that said, can we "shell" the auditorium and then use those funds from not completing towards the other labs". At the top of the email was when we had started programming and they continued to push for a shelled out auditorium. So despite them being told more labs, they wanted to keep the auditorium. That drove the program to where it is today.

* The attached "CREOL Addition" email has me asking again on September 17, 2015 if there is a need for the project to be at CREOL, and has Dr Saleh providing an explanation of why it needs to be there (vs IRIF). It also has me stating that I thought the auditorium was no longer part of the first phase of the project, with Mark stating that the "auditorium should be part of the drawings of the addition for later construction", meaning it should be shelled for future buildout...which is where the program went.

I don't have any emails of the Provost or us specifically directing them to do more labs, only the first email above where Mark stated they had direction for the priority to be lab space. Not sure if you have emails on your computer for these.

Do you want to adjust my email below with this info, or do you want me to re-write my email with more of this information? Do you want me to include the email attachments, or just reference the dates and comments in them?

Bill

Importance: High

This doesn't tell the whole story - which includes us communicating to them more than once that the Provost's desire was more labs, less other; and sending them to talk to Academic Affairs (Joel/Dale) about their desired program (offices, auditorium); as well as us being told that we can't determine their program for them, that that is between CREOL and Academic Affairs. These are critical points.

Subject: RE: CREOL expansion

Lee,

Last year we were advised by CREOL that they had been awarded $4M for an addition to CREOL. We began exploring options with CREOL on whether it made more sense to do this expansion to the CREOL building, or consider modifying the IRIF building which, at the time, had not started construction. They had a strong preference to do a building addition to CREOL so their new spaces could be located near existing similar spaces (lab synergy). They also had a strong desire for an auditorium space which their current building does not have. We advised them that this addition would be expensive. FP&C helped estimate what size of addition we thought could be built for the available funds, which is a roughly 8,244 gsf two story addition.

In October 2015 we completed the programming exercise with CREOL which resulted in the attached program document. Pages 30-37 show the project location, estimated schedule, and program which was determined by CREOL. The program includes a 2,500 nsf auditorium, 880 nsf of offices, and 1,200 nsf of labs. There is a lot of site work needed in this project which takes up a lot of the construction cost. We advised them that they may not get all of this space fully built out, and they were open to shelling the auditorium space if necessary.

As this project is over $2M construction cost, we have had to publicly advertise the project - this happened earlier this year. We scored seven proposals and shortlisted down to four AE/CM teams. This Monday, 3/28, we held our shortlist interviews. As part of the shortlist section on "Ability to Provide Service", we requested that the AE/CM teams propose one design solution that met the budget and illustrated what could be done with the funding - we wanted to see what they believe we could afford for our available funding, and wanted to see how they collaborated as a team to produce a design solution that is on budget. All four groups provided a design solution that met CREOL's program document and met the budget. The attached summary is from the team that we recommend to move forward with, it illustrates this AE/CM team's proposed design and cost solution. The auditorium in their plan is shelled out, but they are also $100K under our construction budget so there may be room to build out that space. See pages 14-21 for the design concept.

There have been no changes to the previous program or $4M cost, and our interviews this week confirm that we can build our current program for the budget. My understanding is that CREOL would like an additional $2M for additional space. With our space crunch on campus I can understand their desire for more space and to build as much now as they can. However, this added funding request is not because we can't meet our current program with the current budget.

Please let me know if you need more information related to the CREOL expansion project.

Thanks,
Bill

Subject: RE: CREOL expansion

Dale is evaluating the exceptional funding request at the AA division pursuant to the new process. He needs the support for the original funding request of $4 million, and now the changes that are taking the cost to $6 million. Should I be asking Mark Wagenhauser for the documentation?

You can see from Mark's requests that he is saying the $4 million will only cover build out of part of the first floor and nothing but a white box on the second. You say below the contractors can do the whole thing, with build out, for $4 million?

Also - I think I sent something on his behalf a while back saying he wanted predominately labs. Did that happen?

Thanks.

Subject: FY 2015-16 75% Carry Forward and Budget Committee Approved Allocations

Mark,

The attached memo from the Provost describes the evaluation of 2015-16 funding requests by the University Budget Committee and the reallocation of June 30, 2015 carry forward funds. This communication provides an update on the allocation of carry forward to your unit and the status of any funding requests that were submitted.

The attached file contains expanded instructions and the following information:

- Preliminary carry forward by department as of 6/30/15, the reallocated amount, and the initial 75% of the remaining amount that is being transferred now. The remaining 25% is expected to be distributed late August/ early September.
- The components of the amounts retained by and reallocated from your unit. Your Dean/VP may choose to distribute any portion of this amount among the departments within your unit based on careful consideration of strategic priorities.
- The detail of funding approved for the requests submitted by your unit. Requests for recurring funds were provided with full or partial funding for up to three years. The approved amount is being transferred in full immediately following this communication.

Changes to the calculation will not be made. As the Provost stated in his memo, suggestions for how we can improve this process going forward are welcomed and encouraged. Questions and feedback should be directed to Christy Tant or Megan Diehl.

Thanks,
Megan

Exceptional Funding Request Submission

University of Central Florida

3-digit SBL Code COP

Organizational Unit CREOL, The College of Optics and Photonics

Title of Project CREOL Phase II Expansion

Targeted Implementation Date 11/01/2016 **Decision Needed by Date** 05/31/2016

TYPE OF FUNDING REQUESTED	Year 1	Year 2	Total
Fiscal Year	FY 2015-16	(select)	
Recurring			0
Non-recurring	1,500,000		1,500,000

Project Description (Include a description of contributions from internal and external partners.)

Funding of the CREOL Phase II began with support of $4M in FY15. This amount will only lead to an initial design and partial build-out of the first floor. We are in the process of getting approval through UCF Facilities & Board of Trustees to put the project out to bid for an architect/engineering firm to design the building. From initial conversations with Facilities, $4M will basically pay for the design of the building, utility/foundation work and partial construction of a few labs and offices on a floor. A supplement of $2M will be needed in order to make the best utilization of the unfinished space. CREOL/COP will contribute $500K towards this effort, with funds coming from carried forward, overhead and royalty funds.

PROJECTED BUDGET	Year 1		Year 2 (incremental)	
	Recurring	Non-recurring	Recurring	Non-recurring
Faculty FTE				
Staff FTE				
Salary and Benefits				
Other		$ 2,000,000		
Total Funding Required	$ 0	$ 2,000,000	$ 0	$ 0
Less: College/Unit Contribution		-$ 500,000		
Less: Contribution from Partners				
Total Amount Requested	$ 0	$ 1,500,000	$ 0	$ 0

Anticipated Outcome(s) and Return on Investment. How Will This Support the University's Strategic Mission and Impact State Performance Measures? (Include specific outcome metrics where applicable.)

It is anticipated that Phase II will lead to additional research labs and offices which we are in dire need for. The College has added 4 new faculty in the recent year and are in search of at least 2 additional faculty to be hired in late FY16. All of the faculty being hired will be doing research and we are currently at capacity with regards to lab space. The increase in space will lead to an increase of research dollars and graduate students.

Per UCF funding request guidelines, please attach supporting documentation showing the evaluation of other resources within your area – E&G carryforward, auxiliary cash, C&G overhead, and UCF Foundation funds, where applicable.

Subject: RE: Lab Cost Comparison

Thanks for the feedback Mark. From a cost perspective, we can afford to build about 8,500 GSF of building. What I showed was roughly two 4,250 sf floor plates. If we want to shrink the floor area per floor to closer to 3,000sf we might be able to get 3 stories. Unfortunately this area is so small that the NTG ratio will be high, as we still will need a mechanical room…and should probably size it to serve a future buildout (build the space, but perhaps not the AHU). There are lots of options, and they will certainly change once an AE gets involved, so this is just a starting point.

I have been working with Gina on the program, and we expect to have the draft done a week from today 9/30, so let's tentatively plan for a programming meeting on 10/1. I'll get back to you with the exact time. The provost appoints the building program members, I assume he'll appoint the dean who could then include you guys.

On the CREOL buildout, I spoke with Doug Matern again today and he assured me that the CREOL drawings would be delivered this Friday. One of his next highest priorities is the Nextrom lab. Fingers crossed that he delivers.

Thanks,
Bill

Subject: RE: Lab Cost Comparison

Good Afternoon Bill,

Thank you for sending the update.

We are open to options, but the drawings that you have included are different than what we had talked about when we last visited with you on 8/20. We had talked about having drawings done to include an auditorium (~1/3 smaller than HEC's main auditorium), but not build it, and a structure that could accommodate a third floor being added. We would build out the first floor and have a second floor with a few research areas completed with the funds leftover. This would happen in the area that you have labeled as 'future addition' on your drawings.

Having options are good.

Thanks,

Mark

Subject: RE: Lab Cost Comparison

Mark/Jim,

Attached are some updated documents that we're using to help draft the building program. We're still targeting the end of this month for having a draft complete. Please review the attached and let me know if you think this is on track. I want to get as much right as possible the first time. Some highlights:

- Auditorium remains, but will be shelled. The only place this can fit on the site is the NE corner, allowing for a future addition to the east of the building.
- Second floor has 3 labs and 8 offices (+/-).
- Note that these plans are just a first stab, once an AE is on board they might recommend different solutions
- To the east of the building are existing infrastructure underground which will need to be relocated as part of the project…an extra hidden cost that we should anticipate.
- The net to gross factor for labs is typically 1.7. I've made this one 1.8 as this small addition will need a mechanical room, toilets, etc that will be a higher percentage of SF of the project than typical projects, since the addition is so small. If we get into design and think we can reduce this, we can do it then. I suggest we design the MEP system so it will accommodate a future addition as well.
- Costs for labs and additions are in the $350/sf range now. I'll have a better number once IRIF's bids come in, but that is a much larger project so this addition will be more expensive.
- Project costs are typically 20% of an overall project. This would include AE fees, CM precon fees, permit fees, FPC costs, FFE, telecom, furniture, and movable equipment. Not sure if these labs will be fully fitted out – if so, the equipment fitout will need to come from another funding source. We typically only build in basic casework, infrastructure for water/gas/etc., and one fume hood per lab.

Please review the attached and let me know if you have any comments. Remember, its just a draft and we can modify it during the programming process, and again once we select the AE.

Thanks,
Bill

Cc: James Ross <jross@creol.ucf.edu>
Subject: RE: Lab Cost Comparison

Mark,

I think we can do a number of things to get to $4M. I think the most likely solution is a completely shelled second floor, and a partially built-out first floor. If you think about the 3rd floor CREOL project we're about to do with the 7 labs, that is close to $1.5M with no exterior skin cost, no structure cost, no foundation cost, no utility relocation cost…so $4M in a new building is going to be spent mostly on the shell and structure with a few built out spaces.

We were also tossing the idea of putting more labs in IRIF with the $4M – which would save time (no solicitation of architects and CM) and get you more "bang for the buck". But unfortunately that project is at 50% CDs and squeezing in more space in that project would seriously derail it – cause major schedule and cost increases for both design and construction. See attached for a snippit of where those drawings are, these are 50% CD plans, elevations. There are 269 total drawings created in that set now, attached is 14 of them…so it would be a lot of stuff to change at this point.

The design of IRIF has a lot of "white box" labs, with utilities going to the spaces, a fume hood in each, and some portion of fixed casework. MJ agreed to provide additional funds at a later time to build out these labs – the priority was on getting more building area, especially since they did not know the exact lab users going in the spaces. Is it possible to use the $4M to build out these labs, instead of adding space to IRIF or CREOL? You could really stretch your money if you did that. Then when the university got a lot more money ($8M-$10M), they could do a more complete addition to CREOL. I'm not sure how many of those labs are allocated for CREOL though. Thoughts?

If we do stick with an addition to CREOL, here are the basic steps to getting that project moving. These steps are required because it is a major project (over $2M construction cost). Heads up, this will take a LONG time, it is not quick:

- Get a program committee together – they have to meet a few times to develop the building/academic/research program
- Advertise the project – requires 30 day minimum notice in the newspaper – for both architects and construction managers. Lately we have been doing AE/CM teams, which saves in proposal reviews and interviews.
- Receive and distribute proposals from interested groups.
- Committee reviews and scores proposals – generally 2-3 weeks.
- Committee shortlists a minimum of 3 companies for interviews. Shortlisted firms are notified and have 2-3 weeks to prepare for interviews.
- Interviews happen over a 2-3 day period. Companies are selected that day and a recommendation is sent to the president for approval.
- After presidential approval, the shortlisted companies are notified. Contract negotiation begins with the selected companies (AE and CM).
- Contract negotiation and approvals has been taking 1-2 months.
- Once contracts are approved, design can begin.
- Design for a project of this size is typically 6 weeks ASD, 8 weeks DD, 14 CDs (7 months total).
- Permit/Bid is typically 6-8 weeks – must go to the State Fire Marshall which has been taking 45-60 days. Bidding is concurrent with permitting.
- Assuming the project is on budget, the GMP approval should be fast, 1-2 weeks.
- Once the GMP amendment to the CM contract is signed, a NTP will be issued and the construction can begin.
- An addition like this will probably take 8-10 months to complete.

So overall this is a long project. IRIF phase 1 is starting construction in December/January, with a 16 month build, so it should be done around May/June 2017. Which direction works best for you?

Bill,

Thanks for meeting with Jim and me this afternoon. After discussing the issues with Dr. Saleh, here's what we've come up with to at least open further discussions:

- We'd like to reduce the lecture room by 1/3 or to hold ~150
- Build out the first floor and the office space on the 2nd floor along with a few labs. The remaining labs will be shelled and completed with future funds
- Have the structure built so a 3rd floor could be added in the future

Please let us know your thoughts and concerns.

> >
> > 1. Add additional space to the IRIF currently in design. This site has little to no existing space constraints to expand to the north and has the benefit of sharing construction overhead and economies of scale with the planned project. We feel that the space could be added for $475/SF. A $4M

construction budget will net approx. 8,400 GSF of additional building space, and based on the lab to support space ratio in the current plan of .43, a net wet lab space of 3,600 SF. This would buy 5 to 7 labs from 500-700 SF each, similar to what is planned for the medium to large IRIF labs.

2. Add further expansion to the east of the CREOL building. Cost for this expansion would be higher per SF at approximately $575-$625 due to needing to relocate significant known underground infrastructure and loss of economy of scale from not being a part of a larger project. This would result in being able to build 6,700 GSF or 2,900 NSF of Lab Space, yielding 4 to 6 labs similar to IRIF. We looked at vertical expansion, but do not see it as feasible due to the structural costs involved consuming too much of the budget.

3. Expand either to the northwest or southeast of the HPA-2 building, or build a single stand-alone building, as systems in this area do not support one-pass air needed for a lab building. Cost for this expansion would be $550-$600 / SF, yielding 7,000 GSF of building and 3,000 NSF of lab. The range in cost for a footprint of this nature is highly dependent on hood density and skin selections. The proximity to the HPA-2 building may or may not be advantageous to this location; however there appears to be adequate space for the proposed building footprint.

4. Expansion to the southeast of Physical Sciences on top of the existing parking lot. Assuming that there are no significant underground infrastructure relocations, the cost model would be similar to option 3 above. Another challenge would be to preserve the function of Apollo Circle if the building were to be contiguous with Physical Sciences. Further consideration indicates little if any benefit in being near Physicals Sciences due to the landlocked nature of the building and inability to share any services with it.

Note: As with any concept, we would need to look more into the proposed sites and configuration of the building to confirm unit prices, as changes in assumptions can have significant pricing impacts.

PERFECT, thanks! I'll push forward with the draft program in this direction and will get back with you on a date to review the draft program.

Thanks,
Bill

Subject: RE: CREOL Addition

Hi Bill,

The auditorium should be part of the drawings of the addition for later construction. I asked Dr. Saleh for his input and this is what was provided:

Research at CREOL has been inherently collaborative, with multiple faculty working jointly on funded research projects. This type of collaborative research, which has helped us garner large funding, requires proximity of labs and sharing of equipment and facilities. The fact that all faculty have their offices and labs in the same building has facilitated discussions and exchanges of idea, which have resulted in many inventions and innovations. This has been the hallmark of CREOL. Adding new space to the current building will maintain this culture, while splitting the faculty between two buildings will certainly hinder collaboration.
—

I hope this helps.

Thanks,
Mark

Subject: RE: CREOL Addition

Jim,

Lee has asked me if there is a specific need for the labs to be an addition to CREOL, or if it makes more sense for them to be part of the IRIF building. I know we talked before about how you wanted it at CREOL, especially for the auditorium. But I believe the auditorium is not a part of the first phase of this project now, that it's just labs. Can you confirm that the project needs to be an addition to CREOL and why (specific research needs related to the existing building research, proximity to peer researchers, etc), I'd like to put this issue to bed. This info will also be part of the program document.

I have asked Gina to start the draft of the program document. We're targeting having the draft done by the end of this month. Once it's complete we can have a meeting to discuss the program and get it just right. Once the program is in place we can advertise the project for A/E and CMs.

Feel free to call if you'd like to discuss, I'm actually in the office most of the day.

Thanks,
Bill

Subject: CREOL Addition

Bill
When will there be a work shop/design meeting regarding the new addition to the CREOL building? We are wanting to get a timeline or milestone schedule of how the project will proceed.

CREOL Renovation Program

Renovation Program

Renovation Policy

The primary purpose of this renovation is for an addition to the existing CREOL building. The available land allows this expansion to the northeast or east of the building. The intent of the project is to add laboratory and office spaces to the existing building. A shelled out ground floor auditorium is also being considered as part of the design. Due to budget constraints the addition will be roughly 8,000 gsf and two stories tall.

All renovation projects are to adhere to the LEED guidelines.

Renovation Program

Introduction

Project Overview and/or Mission Statement: *Address the general plan for the project, as well as any specific information.*

This project is an addition to the existing CREOL building. The available land allows this expansion to the northeast or east of the building. The intent of the project is to add research laboratory and office spaces to the existing building. A shelled out ground floor auditorium is also being considered as part of the design. Due to budget constraints the addition will be approximately 8,000 GSF and two stories tall.

The project is to consist of the following:

- Investigate which design will allow for the greater use of funds that will provide current usable space and detailed drawings for future expansion

Project History: *Provide a description of the project history. Include an explanation of the needs this project will address. (The goals and objectives should address those needs.)*

The CREOL Building at the University of Central Florida is located at the intersection of Apollo Circle and Gemini Loop. Originally built in 1996, this cast concrete, two-story structure received a small three-story extension on the north elevation in 2008. The enlarged building contains research laboratories, teaching laboratories, office space, and associated support facilities for the College of Optics. This facility is now reported to comprise 103,532 gross square feet.

Project Description: *Provide a general description and any information that relates to other current or future projects.*

- This project will mimic existing office and research space that currently exists in the CREOL building and will connect to both the existing CREOL building and the addition.

Project Goals and Objectives: *Write a brief outline of specific project goals and objectives.*

1. To get as much design and infrastructure work completed with current allotment of funds that will allow for future completion of the auditorium, second floor and addition of a third floor.

2. To provide much needed relief of overcrowding and research lab space needs for

Renovation Program

recent hires and future expanded research.

Design Objectives: *Write a brief outline of the desired design objectives*

The main objective is to be able to provide the much needed space for faculty to continue their teaching and research capabilities.

The addition must fit aesthetically with the existing structure.

Renovation Program

Academic Plan

Academic Program Identification: *Identify any proposed academic programs that will be housed within the facility.*

This program is meant to support expansion of research by the College and its Townes Laser Institute in areas including fiber optics, lasers in manufacturing, and lasers in medicine. We are also competing for a number of national initiatives, including ERCs and an IMI, which will require additional space. These expansions will affect our academic programs inasmuch as they will support graduate students doing research in these areas.

Academic Program Reviews, date and program numbers: *Give the date and program numbers of all relevant academic program reviews. Explain how the proposed facilities program meets the recommendations of the last academic program review.*

This renovation-building program is not meant to affect academic programs.

Recommendations of Review Consultants: *List the recommendations of any review consultants.*

No review consultants were involved in in reviewing academic programs for this renovation program.

Recommendations, Justification and Variation: *Explain how the proposed facility meets the recommendations or justify any variations.*

No recommendations regarding academic programs were made as part of this renovation-building program.

Need/Justification for New Academic Programs: *If the facility is not part of an approved academic plan, provide information to explain the need and justify the establishment of academic programs.*

This renovation-building program is systems-based. Spaces are not being reconfigured for new academic programs.

Renovation Program

Space Needs Assessment

Facilities Problem Statement: *Describe the facilities problem in terms of current and future facilities deficiencies.*

The college is out of space. This project will provide a few labs and offices, but by design, will allow for future expansion of research labs, offices and an auditorium to match the growth of the college.

Proposed Solution: *Describe the proposed solution.*

The proposed solution is to expand the existing CREOL building.

Alternative Solutions: *Explain what alternative solutions were considered, such as rescheduling of classes, remodeling of existing space, leasing of space, or sharing facilities on or off campus.*

An alternative location was considered in the Multidisciplinary Building that will be built to the north of CREOL in the Faculty/Staff parking lot, but research at CREOL has been inherently collaborative, with multiple faculty working jointly on funded research projects. This type of collaborative research, which has helped us garner large funding, requires proximity of labs and sharing of equipment and facilities. The fact that all faculty have their offices and labs in the same building has facilitated discussions and exchanges of idea, which have resulted in many inventions and innovations. This has been the hallmark of CREOL. Adding new space to the current building will maintain this culture, while splitting the faculty between the two buildings will certainly hinder collaboration.

New Facility Justification: *Provide reasons as to why a new facility is the best solution, and why other alternatives were not chosen.*

Not applicable to this is an expansion to and existing building.

Space Analysis: *The Educational Plant Survey recommendations will be listed in this section or a statement noting that a survey is needed for the project. UCF requires a statement that describes any differences between the project and Survey recommendations for the project.*

Renovations do **not** require Educational Plant Surveys.

Renovation Program

Proposed Method of Renovation

Based on a review of the needs of this project, the following delivery type was determined to best for this renovation project.

Construction Management

- The size of the project is sufficiently large and/or complex to require major emphasis on the qualification of the contractor to have specific expertise in performing highly specialized cost estimating, value engineering, and scheduling during the design process with continuity of construction management through both the design and construction phases.

- The project is an alteration of an occupied facility, which requires working around or relocating occupants while keeping the facility fully operational.

Renovation Program

Analysis of Impact on Master Plan and Strategic Plan

The Campus Master Plan is an officially adopted document that governs on-campus growth and addresses the impacts to the surrounding community. The Plan is governed by state statute that requires all building and other capital improvement projects be referenced in the Plan. The document contains data and analysis for impacts generated by existing and proposed capital improvements on the local transportation system, environmentally sensitive areas, student housing, storm water management, intergovernmental coordination efforts, utilities, architectural design and many other planning elements. Goals, objectives and policies in the document express the University's philosophy regarding on, and off-campus growth and impacts to the surrounding community. The Plan attempts to strike a balance between projected new construction with the need to preserve and mitigate impacts on environmentally sensitive areas and local infrastructure.

The primary purpose of the Campus Master Plan is to provide a logical, functional and aesthetically pleasing academic environment for students, faculty, staff and visitors. The main campus is developed in a concentric ring pattern with administration facilities in the center and academic buildings situated among three concentric rings. Pedestrian activity has been optimized throughout the academic core by locating parking garages on the outermost ring. At present, there appears to be sufficient space on campus to allow for all projected new construction. It should be noted that the University is committed to conserving environmentally sensitive areas on campus and will work closely with all applicable state and local agencies to mitigate the impacts of future construction on these areas.

This is a renovation of an existing building. The Campus Master Plan **will not** be impacted.

Environmental Impact:

This renovation project will not have an effect on environmentally sensitive areas.

Master Plan Compliance:

This project is not listed in the Land Use Element and the Capital Improvement Element.

Campus Development Agreement (CDA) Compliance: This project is not part of the Campus Development Agreement since it does not add space to the campus.

Renovation Program

Site Analysis

Site Information Checklist,

Location: University of Central Florida Main Campus

Campus Map: A Campus Map with the proposed site identified is furnished in the Appendix. A boundary survey of the university is available upon request from Landscape and Natural Resources.

Campus Topography, Drainage Patterns and Permitting: The topography of the UCF campus varies from elevation 88 at the western border to elevation 45 at the northeast corner. The campus can be divided into four general drainage areas. See the (Campus Drainage Map, in the Appendix). Campus drainage from the western border follows:

- Area A - northerly toward Lake Claire
- Area B - northeasterly toward a stream
- Area C - southwesterly toward Lake Lee
- Area D - southeasterly toward a wetland area which drains into the Bonneville Canal

Sinkholes: The University has encountered sinkholes on other construction projects. Special care should be taken to insure that sinkholes, if any, are identified during the soil-boring phase.

St. Johns River Water Management Review Requirements: SJRWMD Rule 40C-4 governing the management and storage of surface waters regulates hydrologically sensitive areas (HSA). Criteria used for defining HSA are hydric soils types, presence of wetland indicator species, and hydrologic connections to off-site water bodies or wetland systems. Storm water permitting with St. Johns will be the responsibility of the architect/engineer, in coordination with Landscape and Natural Resources.

(Source: Permit Coordination Policy)

Storm Water Basin Identification: (Source: Revised Storm Water Master Plan Map)

This project is located in basin 4-R, which is 115.84 acres in size. There is 13.15 acres of available impervious area left for future development.

Renovation Program

Does the basin have enough impervious area (square footage) for construction of the proposed project?

Basin 4-R does have impervious capacity remaining for the construction of this project.

Will the proposed project require an amendment to the Storm Water Master Plan?

The Master Storm Water permit will need to be modified, but it will only require staff approval and will not need to go to St. Johns River Water Management Board.

Will the proposed project require a modification to the Storm Water Master Plan?

A minor modification to the Storm Water Master Permit will be required.

Conceptual Storm Water Management Plan: The Conceptual Campus Storm Water Management Plan has been developed to provide the university and state agencies with a long-term approach to storm water management for our campus. It contains the conceptual design and engineering for water management to meet our long-term construction program on campus. Each facility constructed on campus will be required to fund its portion of the overall costs of the plan related to the storm water generated by the facility of project. This plan has been approved by the St. Johns Water Management District and will be a vehicle for this campus to meet its requirements. The architect/engineer must work within the framework on this plan.

Department of Environmental Regulations Review and Requirements: The DER requires permitting of the extension of a water system or sanitary sewer system, along with required water sample testing on any new potable water system. Also, it requires water sample testing after any work done on an existing system. It is a requirement of the architect/engineer to submit permits and coordinate all permits with Landscape and Natural Resources through the approval process.

Vehicular and Pedestrian Circulation: The approved Conceptual Campus Master Plan calls for the current Aquarius Agora Drive to become a vendor and service access to the center core of campus. This action occurred after the completion of the Gemini Boulevard ring road, which has opened up access around the campus.

Known Endangered or Threatened Plant or Animal Species: There are no known endangered or threatened animals or plants at the proposed site.

The Landscape and Natural Resources Department will survey the proposed site and will coordinate the relocation of any endangered or threatened plants or animals prior to construction, if necessary.

Renovation Program

Archaeological History of the Site: During the development of our Campus Land Management Plan, the Division of Archives, History, and Records Management was contacted and noted that no archaeological or historic sites are recorded in the Florida Master Site File. The agency noted, however, that there is a high likelihood of presently unrecorded, potentially significant archaeological resources being located on the nearly level areas overlooking the wetlands on the property; these sites are likely to be less than one acre in size.

Archaeological Factors: There are no known archaeological factors at this site.

Location of Existing Utilities: The approximate location and proximity of utilities to the site are to be found in the Appendix. The following utilities needed for this project and site are identified in the Utilities Impact Analysis section. **All utilities for this project need to be field verified by the Architect or Engineer of Record in the early stages of the design process.**

- Water Supply System
- Fire Protection
- Chilled Water
- Storm water
- Sanitary Sewer System
- Gas Service
- Electrical Service
- Telephone Service
- Street Lighting

Architectural Significant Structures: There are significant academic structures surrounding the proposed site since the site is within the academic core.

Unusual Site Conditions: There are no known unusual site conditions on the proposed site.

Direction of Prevailing Winds: Prevailing winds are generally northwesterly in the winter and spring and southwesterly in the summer and fall.

Renovation Program

Paved Access Streets: The concept adopted by the University is to eliminate general vehicular access inside the 1200' radius sidewalk. The only vehicular access permitted inside the 1200' radius sidewalk system is for emergency vehicles, vendors, and maintenance vehicles.

Parking: The plan for University buildings is to have mass structured parking in several locations on campus, instead of local parking for each facility or college.

Requirement for Vendor/Maintenance/Service Site Vehicular Access: Vendor and service accessibility should be designed to allow access to the building without interrupting the campus pedestrian circulation system (sidewalks). Service/maintenance areas should have a minimum of six (6) parking spaces. These parking spaces should be in the vicinity of a service entrance to the facility. Consideration shall be given to fire department and emergency access to the building site. Throughways to existing hydrants and fire protection equipment, including those of neighboring facilities will be maintained.

Relationship to Adjacent Facilities: The expansion should be carefully sited. Relationships to adjacent buildings, convenience, operational efficiency, physical security, and future growth and development should be considered. The building exterior must be compatible. The site location should allow for future expansion.

Relationship/Access to Primary and Secondary Sidewalks: Facades of buildings within the academic core must be designed to be viewed from multiple sides. Entrances and exits must be designed with consideration for the existing sidewalk system.

Relationship to Existing/Planned Topography: This building should be designed in harmony with the site topography for construction economy and site preservation.

Existing Natural Resources: Natural resource values should be considered carefully because of the possible soil conditions on the campus. Soils and foundation conditions must be investigated to ensure suitability for economical excavation, site preparation, building foundations, utility lines, grading, and planting.

Landscape and Irrigation: Landscaping design shall conform to the UCF Design, Construction, and Renovation Standards. Irrigation shall cover the entire site unless otherwise directed. The landscape contractor will maintain the site for the warranty period, which will be one (1) year.

The Department of Landscape & Natural Resources (LNR), in conjunction with the project design team, coordinates landscape design for projects. Contracts for landscape services, including landscape architects and installers, will be placed under the architect for each project, with preference given to service providers recommended by LNR. In some cases, LNR will design the landscape, in which case they will contract directly with a landscape installation company. Landscape and irrigation design will be incorporated into the building design process, and landscapes will typically be installed after the building

Renovation Program

construction is completed. The building contractor will be responsible for removing any construction debris from areas to be landscaped. The Landscapes Standards, which are part of the UCF Design, Construction, and Renovation Standards, define the species, infrastructure, arbor care, and other important information for project managers to consider. See LNR's website, www.green.ucf.edu, for updated standards and information.

Exterior/Interior Signage: Exterior/interior signage shall conform to the UCF Design, Construction, and Renovation Standards. This facility should include, as a minimum, a building identification sign for all public entrances and campus directory signs along new sidewalks, directing pedestrians to other areas of the campus. Signage must comply with the latest ADA requirements.

Exterior Lighting: Exterior lighting fixtures shall conform to the UCF Design and Construction and Renovation Standards with illumination levels designed in accordance to the fundamentals of the IES Lighting Handbook, published by the Illuminating Engineering Society (IES).

Exterior Mechanical, Electrical, Service Equipment and Structures: All mechanical and electrical equipment shall be located and screened by permanent structures to give an attractive appearance to the building and campus. Structures provided for service, such as trash dumpsters shall be screened by permanent structures, in keeping with the architecture of the building.

Services Available to Campus:

Police Protection: The University Police Department provides 24-hour service, seven days a week. When necessary, University Police may request assistance from the Orange County Sheriff's Department or other outside law enforcement agencies.

Fire Protection: The campus police coordinate all fire emergency responses via the '911' network. All fire protection devices must comply with current state codes.

Trash Removal: Campus trash removal is handled by a yearly contract with a local vendor. The Facilities Operations custodial personnel deliver to their specific locations and the vendor removes the trash from these locations at least twice weekly. The architect is responsible to insure that appropriate exterior facilities are available for dumpsters and service of dumpsters.

Renovation Program

Program Area

The architect and his consultants should be aware that these project requirements are specific to this facility and that general University of Central Florida requirements must be met. These requirements can be found in UCF Design, Construction, and Renovation Standards, and the UCF Professional Services Guide. If a discrepancy is found in this program, the UCF Design, Construction, and Renovation Standards take precedence over any information provided in this document. Any deviation to the UCF Standards must be reviewed during design and approved by the UCF Standards Committee and the Associate Vice President, Administration and Finance (Facilities and Safety).

Program Area and Design Requirements Summary

The Program Area Table (see Appendix) is a summary list of the space requirements for this project. Currently, there is not an approved educational plant survey for this project since PECO funds are not being used.

Definition/Description of Space

The basic square footage identified must be in accordance with State Regulations for Educational Facilities, 1997, (SREF) as prepared by the Florida Department of Education, Educational Facilities and Educational Facilities Budgeting Office. Space criteria are based on typical campus and historical data and should be met if at all possible. It is the architect's responsibility to review these space requirements during design and to identify specialized conditions that would warrant a space change. When space criteria are not available, accepted design and experience factors should be used to determine space allocations for the various functional components of the facility.

Specific Program Space Categories

The required space categories are depicted in the Appendix of this building program.

The Project Budget Summary provides specific space category details and is to be found in the Appendix of this building program.

Facility General Spatial Relationships

A bubble diagram, which denotes the preliminary spatial relationships of the facility, can be found in the Appendix of this program.

Renovation Program

Emergency Shelter Space

State statute requires the University to designate new shelter space as campuses are developed. All major new buildings should have designated shelter space that is reasonably protected, structurally. Such areas shall be located away from laboratories with hazardous materials, away from atria or other open-span areas, and away from large, unprotected glazed surfaces. Please refer to the UCF Design, Construction, and Renovation Standards. It is not anticipated that this building will be fully hardened, but a sheltering area within the facility must be identified.

Facility General Considerations

Building Organization: The design of this facility should allow for continuous flexibility and future expansion. The architect/engineer should become familiar with the functional operation of the facility (through thorough review of the Building Program, and consultation with the university Project Manager and Building Committee Chair) in order to determine areas that vary in function and are subject to frequent change.

Structural System: In selection of the type of structural system, the total facility should be considered, since the choice will influence the cost of such features as heating, ventilation or air-conditioning, as well as architectural, lighting, and utility requirements. When choosing structural materials, consideration should be given to availability of labor and materials, design life of the facility and maintenance costs over this period, experience and skill of local contractors, feasibility of pre-assembling or pre-casting major structural elements, and site environment.

Handicapped Access: UCF is very active in its application of the Americans with Disabilities Act (ADA) - Accessibility Guidelines for Buildings and Facilities. The architect/engineer must address all of the ADA requirements for this facility. Handicapped Student Services will provide guidance and support in this area.

Internal Circulation: Stairways should be used for general circulation from floor to floor. Number and capacity of elevators for this facility shall be determined using criteria set forth in UCF Design, Construction, and Renovation Standards.

Mail Distribution and Vending Machines: Areas should be designed for mail and vending machines. These areas should be accessible to the service entrance of the facility. The mail area must be secured from public access. Mailboxes shall be installed in the Mail Distribution area.

Vending areas should be 300-400 square feet per building and located on the first floor close to elevators. Where possible, vending areas should be combined with break-rooms. All vending areas must have water lines provided and include a floor drain. The floor should be quarry tile.

Renovation Program

Recycling Storage Room: A room should be designed and designated for short-term storage of recycled material, on the first floor, close to the loading dock or service entrance. Recycling room sizes are defined in the UCF Design, Construction, and Renovation Standards and are to be sprinkled per fire code requirements.

Requirements for Custodial Services Facilities: Access to custodial and service rooms must be from hallways. All doors should be designed off the main corridors or recessed in order to eliminate the protrusion of open doors into the corridor and pedestrian circulation. Custodial room sizes and shelving requirements are defined in the UCF Design, Construction, and Renovation Standards.

Custodial rooms are to be in close proximity to an elevator. Custodial rooms must have a minimum of 50 linear feet of shelving.

Facility Maintenance: The Architect must work closely with Facilities Operations department to insure that the most cost effective design and materials will be provided.

Exterior Building Surfaces and Roof Styles: Specific roof requirements are found in the UCF Design, Construction, and Renovation Standards. No roofing material shall contain asbestos. Building exterior should be of brick to complement the existing campus environment. All flashing and expansion joints need to be "bat" proofed.

Special Hardware: No special requirements are foreseen for this facility. For typical requirements see the UCF Design, Construction, and Renovation Standards.

Quality of Finish Materials: Installed finish materials must be low maintenance and have a good life cycle. For typical requirements reference the UCF Design, Construction, and Renovation Standards. The selection of finish materials must be coordinated with Facilities Operations.

Preferences for Color Schemes: No special requirements for color schemes are identified at this time. Color should reflect an academic community for higher education, not the typical Florida commercial color schemes. The UCF Standards Review Committee and the Associate Vice President, Administration and Finance, Facilities and Safety must approve all colors.

Acoustical Treatment: Acoustical treatment must be provided in all areas where noise level is high, particularly in conference rooms, assembly rooms, mechanical rooms, and the Library.

Building Directories, and Identification Signs: No special requirements are foreseen for this facility, for typical requirements see the UCF Design, Construction, and Renovation Standards.

Restroom Equipment/Materials: The University has specific requirements pertaining to

Renovation Program

the design of restrooms. Reference the UCF Design, Construction, and Renovation Standards and ADA requirements. Provide nonslip ceramic tile on floors and glazed ceramic wall tile. Floor drains are required for all restrooms.

Water Supply and Plumbing Systems: The campus has its own water and sewage plant and this building will be supported by these systems. Outdoor faucets shall be designated on all sides of the building with reduced pressure principle back flow prevention. Building potable water supply must contain a reduced pressure principle backflow preventer. A separate water meter must individually meter all water supply to the facility. Floor drains that are piped to sewer must have wet type deep seal P traps, or trap primers.

Drinking Fountains: Fountains must be available on each floor and comply with EPA copper and lead regulations, with applicable ADA requirements.

Mechanical System: The building's primary Heating, Ventilating, and Air Conditioning (HVAC) design consideration should be a Variable Air Volume (VAV) System, except for special labs, clean rooms, etc. All VAV boxes should be designed with their location in corridors for ease of accessibility. UCF prefers variable frequency drives on air handling unit motors. No air handling units or condenser units shall be installed above the ceiling.

Energy Conservation - Air conditioning, dehumidification, evaporative cooling, heating, mechanical ventilation, and refrigeration should be selected, designed, and installed according to the requirements for State of Florida Model Energy Efficiency Code for Building Construction.

No electrical, mechanical, custodial, or service room shall open into a stairwell.

Electrical, mechanical, custodial, service, and communications rooms will be separate and independent of one another.

Door opening recess should be of appropriate size to accommodate total width of the door. Door openings should accommodate equipment removal. Mechanical rooms that exit into hallways should have doors that swing in and flat against the wall.

Electrical Systems: The design of interior and exterior lighting should be in accordance with the IES Lighting Handbook, published by the Illuminating Engineering Society (IES). Energy watt-miser light bulbs are required. The architect must coordinate the selection and location of lighting fixtures with the Department of Sustainability and Energy Management.

Interior Electrical Systems - system characteristics should provide for the most economical and efficient distribution of energy.

Cable Tray and Raceway System - overhead cable tray system for data transmission audio/visual, and telephone wiring and conduit shall be provided as a telecommunication

Renovation Program

distribution system throughout the facility. This tray system shall be an open tray system designed for ease of access.

Fire and Security Alarm Systems: UCF has a campus-wide standard, found in the UCF Design, Construction, and Renovation Standards, for Fire Alarm Systems for buildings. Security Alarms Systems are identified for each specific application and the design and materials will be identified to fit that application. Fire and security shall be separate systems reporting to the UCF Police Department.

Lightning Protection System: A Lightning Protection System shall be provided and installed in this facility.

Telecommunications: Communication wiring, telephone, audio-visual, data communications, etc., shall be included in the design and construction cost of this project. At the completion of the project all systems must be operational.

Refer to the UCF Design, Construction, and Renovation Standards for information on manhole and duct bank requirements.

Standard electrical service to radio, television, video and film facilities should provide shielded service to avoid electrical interference.

All classrooms, conference rooms, and labs shall have the capability of being darkened and shall be equipped with appropriately sized projection screens.

All classrooms, conference rooms, and laboratories, which will seat in excess of 30 persons, must provide for sound reinforcement that is appropriate for voice.

Emergency telephones will be provided on every floor in an accessible location.

Renovation Program

Codes and Standards

Typical Codes and Standards

The design of this project shall conform to all applicable sections (most recent versions) of the *Standard Building Code* as administered by the Southern Building Code Congress, NFPA *Life Safety Code* 101 (most recent state adopted addition), Americans with Disabilities Act (ADA) - *Accessibility Guidelines for Buildings and Facilities,* ANSI *A117.1*-1986, *Florida Statute* 553.45-553.48, all codes referred to in the UCF Professional Services Guide and the UCF Design, Construction, and Renovation Standards.

UCF Design, Construction, and Renovation Standards

These Standards are concerned with all aspects of design and construction for the University. These documents along with the UCF Professional Services Guide must be adhered to during the design of this facility. These Standards can be found on the UCF Facilities Planning Web Site at: www.fp.ucf.edu.

Considerations to be Included in the Design

The following items may represent a significant component of the overall budget for the project, particularly for renovation work. Indicate in the spaces provided any potential life safety and accessibility requirements that can be identified in the affected area.

Asbestos assessments and abatement, fire code corrections, handicapped accessibility upgrades, environmental assessments, air permits, and SJRWM permits may be required for renovations and remodeling projects. It is **important** to determine what is required before beginning the design of the project, whether the project is a renovation, a remodeling, or new a construction.

The total cost of these items is part of the budget for the project. Please note that asbestos assessments may be required where existing utility lines and pipe insulation will be effected by the site construction. Older HVAC utility line insulation has been found to be asbestos containing.

All new construction must adhere to the guidelines for LEED. All new University buildings must meet the design criteria required to achieve **LEED Silver**. It is understood that all UCF buildings must be energy efficient, easy to maintain, and incorporate materials that reduce life cycle cost.

Renovation Program

Information / Communications Resources Requirements

This proposed facility must have dedicated multiplex audio and video channels, interconnected with the Office of Instructional Resources. Two way-communications are required between Instructional Resources and this facility. This facility will be a source of program output.

This facility should also have dedicated connectivity to the University's telecommunication node, which will provide services like registration, SAMAS, Outlook, Microcomputer LANs, phone, IP fire alarm, and access to BITNET and SURANET, etc. Please refer to the UCF Design, Construction, and Renovation Standards under Telecommunications Design Standards for additional information regarding telecommunications and audio-visual (multimedia) information. It is the responsibility of the architect/engineer to design a fully functioning external (nearest manhole) and internal telecommunications system for this project. Computer Services and Telecommunications **(C, S and T)** working with the Facilities Planning Project Manager are responsible for Information/Telecommunications Resources Requirements. For further information refer to http://www.division17.net

All telecommunications work will be provided employing an Owner provided subcontractor with the exception of the cabling distribution system and the conduit runs as noted below.

Cabling Distribution System: Cable tray- conduit to cable tray **(Contractor's responsibility)**

Conduit Size: 1-inch Minimum **(Contractor's responsibility)**

Data/Voice Cabling Type: Category 5 Enhanced Cable Plenum (Mohawk, Berk - Tech and Hubble brand only)

Video Cabling Type: RG 6 Plenum (Belden Only)

Fiber Optic: Fusion spliced LC connectors

Fiber Optic Interduct: 1-inch corrugated smooth wall inter ducts

Fiber Optic Cable: Draka/ Corning

Cabling Faceplate Terminations: Hubbell

Cabling Panel Terminations: Hubbell patch panels

Telecommunications Rooms: One per floor (stacked vertically)

Renovation Program

Telecommunications Room Size: 10' x 15' or 150 sq. ft.

Cabling Distribution System: Concrete encased duct bank

Type of Ducts: Four-inch (4") DB Pipe TC-8 Spec. (Concrete encased)

Duct Bank Cabling Type: PE-89 DB 22 AWG telecommunications cable

Termination: Lucent, Porta Systems, or circa brand 188 Protector w/ 4C1S lighting protection modules

Cabling Pull box Description: To be designed by C, S and T

Network electronics and Multimedia Systems: (To be funded by Furnishings & Equipment)

Distributed Antenna System: To be designed and installed by C, S and T

Note: The costs of these items to be part of the construction budget for the project.

Renovation Program

Utilities Impact Analysis

Existing and Required Utility: The architects and engineers selected for this project are required to design utility connections to the nearest utility manhole or as directed by the University. **All existing utilities must be field verified and documented by the Engineer of Record during the early stages of design.**

Utilities which provide efficient operation and are adequately sized to serve future needs should be considered during the early planning stages. This will avoid conflicts in the design and layout of the various utility lines, and permit the early recognition of the need for additional production and/or supply capacity. This project should address the adequacy of existing utilities support and any additional needs. The planning of utility lines should minimize utility capital investment and operational cost for maintenance and repair.

Utility Planning Considerations

Appearance: Meters, light poles, transformers, vaults, pressure reducing stations piping and valves, and other utility items should be located discretely, not detracting from the building's appearance. Design of the facility should also reduce the negative visual impact of utility items and communication lines in accordance with the design standards.

Underground Utility Lines: The location and depth of many of the existing underground utility lines are questionable at best. The accuracy of the University utility as-builts should be determined very early in the project. The University will require a detailed utility survey of the proposed site using our continuing services consultant.

Underground distribution lines should be located to minimize cost. All underground utility lines, mains, and conduits should be located at the minimum depth of (3 feet) and in common corridors to allow for ready access and maintenance. As-built drawings must be provided for all interior and exterior utilities.

Central Chilled Water

A central chilled water plant supplies the campus. It is equipped to provide chilled water to the HVAC systems for all major buildings on campus. Utilities and Energy Services must be contacted to determine the current capacity of the central chilled water plant.

General Campus and Building Utilities

The main campus consists of 1,415 acres and includes a library, classroom buildings, laboratories, residence halls and student facilities. The Main and Satellite Cooling Plants provide the campus cooling needs. Direct Digital Controls (DDC) will control all campus

Renovation Program

buildings. The architects and engineers selected for this project are required to design utility connections to the nearest utility manhole or as directed by the university.

Campus Chilled Water

Chilled water is distributed through a circulation loop, at a design supply temperature of 42 degrees F, to the buildings HVAC systems.

Source of Supply: Central Chilled Water Plant and Satellite Chilled Water System

Pipe Material: Schedule 40 Steel Pre-insulated Pipes

Campus Electrical Power

Duke Energy provides primary electrical service to the campus. The university's responsibility starts on the secondary side of the buildings' transformers.

Campus Potable Water

Potable water is supplied to the campus via an underground piping systems. Reduced pressure principle backflow preventers and meters are required on all water supplies to the buildings.

Campus Sewage/Wastewater

Sewage/Wastewater: University effluent is connected to Seminole County. The permitting process should be directed to the appropriate Seminole County agency responsible for wastewater treatment.

Campus Irrigation Water

The irrigation system is supplied with reclaimed water from the Iron Bridge Waste Water Treatment Facility in Seminole County.

Campus Gas Service

Source of Supply: TECO Gas (Local distribution Company)

Estimated Building Telecommunications Requirements

UCF operates and maintains IP Telephony with remote shelves that will provide service to this building. Conduit and wiring systems should include inside and outside cables, terminal cabinets, backboards, lightning protection and outlets. These items shall be furnished and installed in the base construction.

Renovation Program

Source of Supply: Campus Telephone Distribution System (Fiber and Copper)

Location of Source: Building Network Equipment

Estimated Building Data Transmission Requirements

Network Service: UCF operates and maintains a redundant multi-tiered network architecture, which is connected by fiber to the Computer Science Building. The building's interior operation for data transmission should consist of minimum 1000 Base T Ethernet cabling. The data transmission system, from this building to the closest telecommunication node, should consist of fiber optic cabling through the campus underground communication distribution system.

Source of Supply: Campus Data Network

Location of Source: Computer Science Building

Estimated Audio Visual Requirements

Audio-Visual Service: Internal wiring for CATV is to be RG-6 plenum coaxial cable. Outside plant CATV cabling will be provided and installed by the Campus CATV provider (Bright House Networks). All instructional spaces need to have appropriate electrical and connectivity from an Instructor Console to the ceiling. Recommend a duplex outlet under each console with an empty 2-inch conduit from under the Console, up through the nearby wall and "stubbed-out" above the ceiling. All instructional spaces will also need a ceiling-mounted duplex electrical outlet for a data/video projector.

Estimated Terminations Required: To be determined

Source of Supply: Campus Communications System

Cable Type and Cable Size: To be determined

Duct Bank or Conduit Requirement: Duct Bank size to be determined

Equipment required for Coax Cable: Building amplifiers, riser design, taps, and equalizers are designed and maintained by UCF CS&T. All CATV equipment shall be installed in the MDF and IDF CATV lock boxes. All head in equipment shall be located at a node or the Library Switch Room.

Campus Exterior Lighting: The campus, circulation, parking lots, and recreation areas are illuminated during the dark hours by pole mounted area lighting. All exterior lighting fixtures must match existing fixtures and be powered from the building.

Renovation Program

The current outdoor lighting system is defined in the UCF Design, Construction, and Renovation Standards. All exterior lighting fixtures must match existing fixtures and be powered from the building.

Subject: RE: Exceptional Funding request - CREOL expansion
Attachments: FW: CREOL Third Floor Build-Out; FW: COSTS; RLF Robins & Morton UCF CREOL presentation.pdf

Importance: High

Bahaa,

I've been told that the contract negotiations will begin soon for Phase 2 with RLF/Robbin & Morton and it would be good to know how much is available for the project. Because of this, I don't know if you want to push sooner for the meeting with Tracy and the group or not.

****

Here's some information regarding how we came up with the original plan for the $4M.

8/21/14 – email from Ernie Gerber (Project Manager with UCF Facilities since retired) showing the cost of 2012 College Laboratory construction in Major Cities. We compared ourselves to Miami, which was listed at $174.94 per sq ft. The most expensive was New York City at $258.12 per sq ft.

10/07/14 – email from Peter Newman (at the time was the Architectural Consultant to Facilities) that says $250 per sq ft is a reasonable number for Bio Labs.

9/22/14 – based on verbal communication with personnel in facilities, we came up with a cost of $250 per sq ft and the following plan:

`5,500 sq ft per floor for a total of ~16,500 sq ft = ~$4.125M

Option 1 (no auditorium)
1st floor
10 offices - ~1100 sq ft
Hallway, utilities, elevator, bathrooms: ~2,000 sq ft
6 labs at ~400 sq ft each (~2400 sq ft)

2nd & 3rd floor
10 offices - ~1100 sq ft
Hallway, utilities, elevator, bathrooms: ~1,600 sq ft
7 labs at ~400 sq ft each (~2800 sq ft)

Option 2 (includes auditorium)
1st and 2nd floors
6 offices - ~660 sq ft
Hallway, utilities, elevator, bathrooms: ~2,000 sq ft
Auditorium - ~2840 sq ft

3rd floor
10 offices - ~1100 sq ft
Hallway, utilities, elevator, bathrooms: ~1,600 sq ft
7 labs at ~400 sq ft each (~2800 sq ft)

On March 28th, we had the short list of design/build teams present their proposals to build the extension for Phase 2. RLF/Robbin & Morton was selected to enter contract negotiations for the project. Their design plan (is not set in stone) shows the first floor as a shelled space and the second built out with 4 labs and 9 offices. It was conclusive from all of the presentations, that $4M was not going to build-out 2 floors completely. A floor would have to be shelled space. (please see pdf of a rendering of the 2 floors. Bill Martin is working to make a 3rd floor for me)

Of the $4M that is available, ~$2.79M is available for construction. The balance goes to the design and management.

It has also been determined, that the sq ft cost is ~$450, not the $250 we were advised back in 2014.

An additional $2M, could get the second floor built out and a possibly a third floor shelled. This will need to be investigated. Conditions of an elevator and connecting to the Phase 1 extension need to be studied. An elevator costs ~$150K.

Please let me know if you need anything else or want to discuss this further.

Subject: Exceptional Funding request - CREOL expansion

Bahaa,

We are in the process of evaluating AA's exceptional funding requests. CREOL submitted one for an additional $1.5 million for the CREOL expansion. Dale would like to meet (Dale, you, Joel, me and Lee) for you to give a presentation on this request since it is over the $4 million that was funded last year (see email attached concerning last year's award). We would like to understand why the cost is more than the original amount requested, as well as the need for the expansion to include the 2,500 sq. ft. auditorium vs. 1,200 research labs and 800 office space sq. ft.

Debra Copertino will be sending out an outlook appointment. Let me know if you have any questions.

Again thanks. The offices already exist thanks to help from your group in 2009. Only the lab spaces are still just in shell form.
Jim

Subject: Re: CREOL Third Floor Build-Out

Jim,

I would reduce offices to $150.00 per sq. ft. and I believe that $250.00 per sq. ft. is still reasonable for Bio Labs. However, I will ask one of the Construction Managers working on campus for their opinion. Once I hear back from them I will let you know about any further budget revisions.

I have attached a concept budget for your review.

Hope this helps.

CIP-3 SHORT-TERM PROJECT EXPLANATION

AGENCY University of Central Florida
BUDGET ENTITY SUS
PROJECT TITLE CREOL Expansion Phase II

AGENCY PRIORITY 22
DATE BLDG PROGRAM APPROVED

PURPOSE, NEED, SCOPE, RELATIONSHIP OF PROJECT TO AGENCY OBJECTIVES

The College of Optics and Photonics and the Center for Research & Education in Optics and Lasers (CREOL) have grown in size and in stature. A new undergraduate program offering a Bachelor of Science degree in Photonic Science and Engineering began in Fall 2013, and has already attracted more than 100 new students. Five new faculty have been added since 2014. External research funding increased from an annual average of $11.3M in FY2011– FY2015 to $17M in FY2016. The College contributes about 13% of UCF's total research funding. Additional growth in the areas of medical optics, biophotonics, and laser-based manufacturing is anticipated. The college has outgrown its building, which has already been expanded once (Phase I) with a 3-story addition built onto the original 2-story structure. The proposed Phase II project is another 3-story addition to the east side of the building. The project will add 13,900 additional square feet of space to the existing 103,532 square feet building. The new space will house additional labs and offices, which are necessary for the growing educational and research programs, as well as the shell of a new auditorium that will be completed later.

SUSTAINABILITY AND LEED

The University of Central Florida is committed to sustainability and continued reduction of energy consumption in new construction projects. As energy costs and demands continue to escalate, achieving higher levels of efficiency has become increasingly important to the university's mission. Since 2007, UCF has mandated LEED certification, with most projects achieving Gold. UCF requires specific individual LEED credits that contribute to UCF's core principles including energy efficiency, water conservation, and indoor air quality for all projects. The Facilities Planning & Construction and Utilities & Energy Services departments provide oversight for all new construction and major renovation projects, and expedite the commissioning process with the latest industry standards to ensure that the university's sustainability goals are met and design parameters achieved.

Research/Laboratory

The space classification is predominately laboratory type, with office type minimized. The project will achieve LEED Gold certification with the U.S. Green Building Council (USGBC). Energy consumption will be at least 30% less than the energy standards cited in ASHRAE 90.1-2010, and water consumption will be at least 30% less than that of a comparable building. Laboratories will have continuous variable air flow valves with air flow reset capabilities. Domestic and laboratory hot water needs will be provided primarily by solar thermal energy. The project will utilize the district cooling loop for space cooling needs and look at alternative measures to provide dehumidification with the classifications of lab spaces and related energy use. All heating and reheating will be hydronic.

CIP-3 SHORT-TERM PROJECT EXPLANATION

EDUCATIONAL PLANT SURVEY

The Educational Plant Survey has not been addressed for this project. As the planning year approaches, this project will be addressed.

Subject: College and Unit 2015-16 Funding Requests

Importance: High

Follow Up Flag: Follow up
Flag Status: Flagged

Please share with the appropriate leaders in your college/division

Dear Colleagues,

For many years, UCF had a budget committee made up of faculty, administrators, staff, and students who developed plans for allocating the university's funds. That committee ceased to meet several years ago during the recession and years of state budget cuts. This past fall, the President asked me to reconstitute the University Budget Committee and charge its membership with developing a plan that supports colleges' needs and advances university priorities.

For the past several months, the budget committee has been working diligently to do just that, and they have developed a new plan that involves carry-forward allocations to colleges and divisions. This plan protects 3-year carry-forward commitments identified by colleges and divisions, including money for new faculty, startup packages, and other restricted uses.

Now, those carry-forward funds identified **in excess** of units' 3-year plans are being reallocated to fund university priorities recommended by the budget committee.

What does that mean for this year? About $10 million in carry-forward was collected from across the university to be reallocated for several university-wide priorities. After careful consideration, the budget committee – once again representing faculty, administrators, staff, and students – made recommendations on how to spend the reallocated carry-forward funding.

These carry-forward funding recommendations include:

- supporting student success initiatives, such as financial aid for low-income students ($4 million);
- growing graduate and research programs ($5 million); and
- strengthening our university-wide infrastructure and information technology ($1 million).

Earlier this year, the budget committee accepted applications from colleges and divisions for spending proposals. We received more than 50 proposals for a total request of approximately $47 million. Of those proposals, 15 were approved for full or partial funding, totaling the $10 million identified above. Departments that submitted requests will be notified individually within the next two weeks about the status of their requests.

This is a change from past budgeting practices and encourages mindful fiscal planning for colleges and divisions, with an opportunity to request additional funding for university priorities for which they do not have existing resources. UCF has been fortunate in the past two years to receive performance funding from the state, which we have primarily allocated to hire additional faculty members across all colleges to support the university's academic mission. These carry-forward reallocations allow the colleges and units to devote their other resources toward strengthening programs and student success initiatives.

As we look toward next year's fiscal planning, I expect we will undergo a similar process, asking colleges and divisions to develop 3-year budgets and carry-forward plans with each contributing a percentage of their excess, non-restricted carry-forward funding toward university-wide priorities.

As with any new plan, though, we are committed to a detailed evaluation and analysis of this year's process and the opportunity to make changes that will improve our fiscal management and coordination moving forward.

I encourage you to share this information with those who manage your units' budgets. If you have suggestions or questions regarding the carry-forward reallocation process, please contact Tracy Clark. Further details about this coming year's process and timelines will be provided this fall.

Thank you for your support of this new financing model that will help us advance our academic mission and best serve our students, faculty, and staff.

Sincerely,
Dale

A. Dale Whittaker, Ph.D.
Provost and Executive Vice President
University of Central Florida

MJ

I met with each budget director the past two weeks to review their request list. During those meetings we loosely discussed how they would prioritize the requests. I could go back out to each of the directors and confirm my interpretation/opinion, but I expect I would get a lot of "increases" in priority. They are definitely "marks" that need input or review by those on the committee with pertinent information. A good example is the CREOL addition for $4 million. Mark Wagenhauser was asked specifically about the critical need for this in FY16 and he expressed that this is a high priority with the new faculty coming. I would like your input on that given the size of the commitment, and the 4th floor CREOL lab work currently under way.

If the committee wants, prior to Tuesday's meeting I can try to get confirmation or input on the priority from the Budget Directors and ask them to check with their senior leadership? Or we can do this after Tuesday's meeting?

I do not understand the priority setting process, e.g., "The priority (High, Medium, Low) of each request is loosely based on conversations with the budget directors." What discussions and who set these priorities? mjs

Subject: RE: University Budget Committee Meeting - 5/5 @ 2:00-3:00

Dear Committee Member,

Attached please find an agenda and materials to be presented at the May 5, 2015 University Budget Committee. Please review these materials prior to the meeting with these questions in mind:

1. Attachment A – In our last meeting we tentatively decided to reserve funds for Tier I and Tier II initiatives, (namely the hiring of 200 faculty, 50 academic support staff, 10 administrative support staff and to propose a 3% merit increase).

    a. 1st Question: Since attachment A shows recurring funds declining to $1,325,000 (yellow highlighted cell) if we fund all Tier I and Tier II initiatives should we:
        i. Reduce the merit increase from 3% to 2%,
        ii. cut in half the number of academic and administrative staff hired to support the new faculty,
        iii. reduce the number of new faculty being hired?

2. Attachment B – We have compiled a list of Tier III request from all units. The list of those requests is organized by strategic initiative (page 1) and by size of the request (page 2-3). The priority (High, Medium, Low) of each request is loosely based on conversations with the budget directors.

    a. 2nd Question: Familiarize yourself with the list of requests and recommend any changes in priority status based on your pertinent knowledge, in advance or at the meeting.

3. Attachment C is a historic view of carryforward by organizational unit and FY15 projected carryforward as a % of each units' base budget.

    a. We have prepared a recommendation for the reallocation of carryforward to be used to strategically fund selected Attachment B requests and/or to build a central pool to be distributed by this committee mid-year, as critical needs are identified. The reallocation would provide a contribution from units of approximately $13M.

    b. The calculation protects startup funds, certain designated line items, FY16-FY18 carryforward plans, and a reserve per area that, for the most part, ranges from 3%-7%.

    c. 3rd Question: Should we reallocate carryforward and if so, home much?

4. 4th Question: What requests should we fund?

Thank you.

Subject: FW: CREOL options
Attachments: CREOL - Expansion Options.pptx

All:
Bill Martin and his team worked with an architect and CM to put together the attached options for the CREOL expansion. They ended up developing six options vs. four, for more flexibility in decision-making. All options reflect space, construction and total project costs projected out to time of project bids (given the limited information available on specific research requirements), and schedule. Feel free to send us any questions you may have, or, if you would like to meet, we will make ourselves available.

CREOL Renovation Program

Renovation Program

Renovation Policy

The primary purpose of this renovation is for an addition to the existing CREOL building. The available land allows this expansion to the northeast or east of the building. The intent of the project is to add laboratory and office spaces to the existing building. A shelled out ground floor auditorium is also being considered as part of the design. Due to budget constraints the addition will be roughly 8,000 gsf and two stories tall.

All renovation projects are to adhere to the LEED guidelines.

Renovation Program

Introduction

Project Overview and/or Mission Statement: *Address the general plan for the project, as well as any specific information.*

This project is an addition to the existing CREOL building. The available land allows this expansion to the northeast or east of the building. The intent of the project is to add research laboratory and office spaces to the existing building. A shelled out ground floor auditorium is also being considered as part of the design. Due to budget constraints the addition will be approximately 8,000 GSF and two stories tall.

The project is to consist of the following:

- Investigate which design will allow for the greater use of funds that will provide current usable space and detailed drawings for future expansion

Project History: *Provide a description of the project history. Include an explanation of the needs this project will address. (The goals and objectives should address those needs.)*

The CREOL Building at the University of Central Florida is located at the intersection of Apollo Circle and Gemini Loop. Originally built in 1996, this cast concrete, two-story structure received a small three-story extension on the north elevation in 2008. The enlarged building contains research laboratories, teaching laboratories, office space, and associated support facilities for the College of Optics. This facility is now reported to comprise 103,532 gross square feet.

Project Description: *Provide a general description and any information that relates to other current or future projects.*

- This project will mimic existing office and research space that currently exists in the CREOL building and will connect to both the existing CREOL building and the addition.

Project Goals and Objectives: *Write a brief outline of specific project goals and objectives.*

1. To get as much design and infrastructure work completed with current allotment of funds that will allow for future completion of the auditorium, second floor and addition of a third floor.

2. To provide much needed relief of overcrowding and research lab space needs for

recent hires and future expanded research.

Design Objectives: *Write a brief outline of the desired design objectives*

The main objective is to be able to provide the much needed space for faculty to continue their teaching and research capabilities.

The addition must fit aesthetically with the existing structure.

Renovation Program

Academic Plan

Academic Program Identification: *Identify any proposed academic programs that will be housed within the facility.*

This program is meant to support expansion of research by the College and its Townes Laser Institute in areas including fiber optics, lasers in manufacturing, and lasers in medicine. We are also competing for a number of national initiatives, including ERCs and an IMI, which will require additional space. These expansions will affect our academic programs inasmuch as they will support graduate students doing research in these areas.

Academic Program Reviews, date and program numbers: *Give the date and program numbers of all relevant academic program reviews. Explain how the proposed facilities program meets the recommendations of the last academic program review.*

This renovation-building program is not meant to affect academic programs.

Recommendations of Review Consultants: *List the recommendations of any review consultants.*

No review consultants were involved in in reviewing academic programs for this renovation program.

Recommendations, Justification and Variation: *Explain how the proposed facility meets the recommendations or justify any variations.*

No recommendations regarding academic programs were made as part of this renovation-building program.

Need/Justification for New Academic Programs: *If the facility is not part of an approved academic plan, provide information to explain the need and justify the establishment of academic programs.*

This renovation-building program is systems-based. Spaces are not being reconfigured for new academic programs.

Renovation Program

Space Needs Assessment

Facilities Problem Statement: *Describe the facilities problem in terms of current and future facilities deficiencies.*

The college is out of space. This project will provide a few labs and offices, but by design, will allow for future expansion of research labs, offices and an auditorium to match the growth of the college.

Proposed Solution: *Describe the proposed solution.*

The proposed solution is to expand the existing CREOL building.

Alternative Solutions: *Explain what alternative solutions were considered, such as rescheduling of classes, remodeling of existing space, leasing of space, or sharing facilities on or off campus.*

An alternative location was considered in the Multidisciplinary Building that will be built to the north of CREOL in the Faculty/Staff parking lot, but research at CREOL has been inherently collaborative, with multiple faculty working jointly on funded research projects. This type of collaborative research, which has helped us garner large funding, requires proximity of labs and sharing of equipment and facilities. The fact that all faculty have their offices and labs in the same building has facilitated discussions and exchanges of idea, which have resulted in many inventions and innovations. This has been the hallmark of CREOL. Adding new space to the current building will maintain this culture, while splitting the faculty between the two buildings will certainly hinder collaboration.

New Facility Justification: *Provide reasons as to why a new facility is the best solution, and why other alternatives were not chosen.*

Not applicable to this is an expansion to and existing building.

Space Analysis: *The Educational Plant Survey recommendations will be listed in this section or a statement noting that a survey is needed for the project. UCF requires a statement that describes any differences between the project and Survey recommendations for the project.*

Renovations do **not** require Educational Plant Surveys.

Renovation Program

Proposed Method of Renovation

Based on a review of the needs of this project, the following delivery type was determined to best for this renovation project.

Construction Management

- The size of the project is sufficiently large and/or complex to require major emphasis on the qualification of the contractor to have specific expertise in performing highly specialized cost estimating, value engineering, and scheduling during the design process with continuity of construction management through both the design and construction phases.
- The project is an alteration of an occupied facility, which requires working around or relocating occupants while keeping the facility fully operational.

Renovation Program

Analysis of Impact on Master Plan and Strategic Plan

The Campus Master Plan is an officially adopted document that governs on-campus growth and addresses the impacts to the surrounding community. The Plan is governed by state statute that requires all building and other capital improvement projects be referenced in the Plan. The document contains data and analysis for impacts generated by existing and proposed capital improvements on the local transportation system, environmentally sensitive areas, student housing, storm water management, intergovernmental coordination efforts, utilities, architectural design and many other planning elements. Goals, objectives and policies in the document express the University's philosophy regarding on, and off-campus growth and impacts to the surrounding community. The Plan attempts to strike a balance between projected new construction with the need to preserve and mitigate impacts on environmentally sensitive areas and local infrastructure.

The primary purpose of the Campus Master Plan is to provide a logical, functional and aesthetically pleasing academic environment for students, faculty, staff and visitors. The main campus is developed in a concentric ring pattern with administration facilities in the center and academic buildings situated among three concentric rings. Pedestrian activity has been optimized throughout the academic core by locating parking garages on the outermost ring. At present, there appears to be sufficient space on campus to allow for all projected new construction. It should be noted that the University is committed to conserving environmentally sensitive areas on campus and will work closely with all applicable state and local agencies to mitigate the impacts of future construction on these areas.

This is a renovation of an existing building. The Campus Master Plan **will not** be impacted.

Environmental Impact:

This renovation project will not have an effect on environmentally sensitive areas.

Master Plan Compliance:

This project is not listed in the Land Use Element and the Capital Improvement Element.

Campus Development Agreement (CDA) Compliance: This project is not part of the Campus Development Agreement since it does not add space to the campus.

Renovation Program

Site Analysis

Site Information Checklist,

Location: University of Central Florida Main Campus

Campus Map: A Campus Map with the proposed site identified is furnished in the Appendix. A boundary survey of the university is available upon request from Landscape and Natural Resources.

Campus Topography, Drainage Patterns and Permitting: The topography of the UCF campus varies from elevation 88 at the western border to elevation 45 at the northeast corner. The campus can be divided into four general drainage areas. See the (Campus Drainage Map, in the Appendix). Campus drainage from the western border follows:

- Area A - northerly toward Lake Claire
- Area B - northeasterly toward a stream
- Area C - southwesterly toward Lake Lee
- Area D - southeasterly toward a wetland area which drains into the Bonneville Canal

Sinkholes: The University has encountered sinkholes on other construction projects. Special care should be taken to insure that sinkholes, if any, are identified during the soil-boring phase.

St. Johns River Water Management Review Requirements: SJRWMD Rule 40C-4 governing the management and storage of surface waters regulates hydrologically sensitive areas (HSA). Criteria used for defining HSA are hydric soils types, presence of wetland indicator species, and hydrologic connections to off-site water bodies or wetland systems. Storm water permitting with St. Johns will be the responsibility of the architect/engineer, in coordination with Landscape and Natural Resources.

(Source: Permit Coordination Policy)

Storm Water Basin Identification: (Source: Revised Storm Water Master Plan Map)

This project is located in basin 4-R, which is 115.84 acres in size. There is 13.15 acres of available impervious area left for future development.

Renovation Program

Does the basin have enough impervious area (square footage) for construction of the proposed project?

Basin 4-R does have impervious capacity remaining for the construction of this project.

Will the proposed project require an amendment to the Storm Water Master Plan?

The Master Storm Water permit will need to be modified, but it will only require staff approval and will not need to go to St. Johns River Water Management Board.

Will the proposed project require a modification to the Storm Water Master Plan?

A minor modification to the Storm Water Master Permit will be required.

Conceptual Storm Water Management Plan: The Conceptual Campus Storm Water Management Plan has been developed to provide the university and state agencies with a long-term approach to storm water management for our campus. It contains the conceptual design and engineering for water management to meet our long-term construction program on campus. Each facility constructed on campus will be required to fund its portion of the overall costs of the plan related to the storm water generated by the facility of project. This plan has been approved by the St. Johns Water Management District and will be a vehicle for this campus to meet its requirements. The architect/engineer must work within the framework on this plan.

Department of Environmental Regulations Review and Requirements: The DER requires permitting of the extension of a water system or sanitary sewer system, along with required water sample testing on any new potable water system. Also, it requires water sample testing after any work done on an existing system. It is a requirement of the architect/engineer to submit permits and coordinate all permits with Landscape and Natural Resources through the approval process.

Vehicular and Pedestrian Circulation: The approved Conceptual Campus Master Plan calls for the current Aquarius Agora Drive to become a vendor and service access to the center core of campus. This action occurred after the completion of the Gemini Boulevard ring road, which has opened up access around the campus.

Known Endangered or Threatened Plant or Animal Species: There are no known endangered or threatened animals or plants at the proposed site.

The Landscape and Natural Resources Department will survey the proposed site and will coordinate the relocation of any endangered or threatened plants or animals prior to construction, if necessary.

Archaeological History of the Site: During the development of our Campus Land Management Plan, the Division of Archives, History, and Records Management was contacted and noted that no archaeological or historic sites are recorded in the Florida Master Site File. The agency noted, however, that there is a high likelihood of presently unrecorded, potentially significant archaeological resources being located on the nearly level areas overlooking the wetlands on the property; these sites are likely to be less than one acre in size.

Archaeological Factors: There are no known archaeological factors at this site.

Location of Existing Utilities: The approximate location and proximity of utilities to the site are to be found in the Appendix. The following utilities needed for this project and site are identified in the Utilities Impact Analysis section. **All utilities for this project need to be field verified by the Architect or Engineer of Record in the early stages of the design process.**

- Water Supply System
- Fire Protection
- Chilled Water
- Storm water
- Sanitary Sewer System
- Gas Service
- Electrical Service
- Telephone Service
- Street Lighting

Architectural Significant Structures: There are significant academic structures surrounding the proposed site since the site is within the academic core.

Unusual Site Conditions: There are no known unusual site conditions on the proposed site.

Direction of Prevailing Winds: Prevailing winds are generally northwesterly in the winter and spring and southwesterly in the summer and fall.

Renovation Program

Paved Access Streets: The concept adopted by the University is to eliminate general vehicular access inside the 1200' radius sidewalk. The only vehicular access permitted inside the 1200' radius sidewalk system is for emergency vehicles, vendors, and maintenance vehicles.

Parking: The plan for University buildings is to have mass structured parking in several locations on campus, instead of local parking for each facility or college.

Requirement for Vendor/Maintenance/Service Site Vehicular Access: Vendor and service accessibility should be designed to allow access to the building without interrupting the campus pedestrian circulation system (sidewalks). Service/maintenance areas should have a minimum of six (6) parking spaces. These parking spaces should be in the vicinity of a service entrance to the facility. Consideration shall be given to fire department and emergency access to the building site. Throughways to existing hydrants and fire protection equipment, including those of neighboring facilities will be maintained.

Relationship to Adjacent Facilities: The expansion should be carefully sited. Relationships to adjacent buildings, convenience, operational efficiency, physical security, and future growth and development should be considered. The building exterior must be compatible. The site location should allow for future expansion.

Relationship/Access to Primary and Secondary Sidewalks: Facades of buildings within the academic core must be designed to be viewed from multiple sides. Entrances and exits must be designed with consideration for the existing sidewalk system.

Relationship to Existing/Planned Topography: This building should be designed in harmony with the site topography for construction economy and site preservation.

Existing Natural Resources: Natural resource values should be considered carefully because of the possible soil conditions on the campus. Soils and foundation conditions must be investigated to ensure suitability for economical excavation, site preparation, building foundations, utility lines, grading, and planting.

Landscape and Irrigation: Landscaping design shall conform to the UCF Design, Construction, and Renovation Standards. Irrigation shall cover the entire site unless otherwise directed. The landscape contractor will maintain the site for the warranty period, which will be one (1) year.

The Department of Landscape & Natural Resources (LNR), in conjunction with the project design team, coordinates landscape design for projects. Contracts for landscape services, including landscape architects and installers, will be placed under the architect for each project, with preference given to service providers recommended by LNR. In some cases, LNR will design the landscape, in which case they will contract directly with a landscape installation company. Landscape and irrigation design will be incorporated into the building design process, and landscapes will typically be installed after the building

construction is completed. The building contractor will be responsible for removing any construction debris from areas to be landscaped. The Landscapes Standards, which are part of the UCF Design, Construction, and Renovation Standards, define the species, infrastructure, arbor care, and other important information for project managers to consider. See LNR's website, www.green.ucf.edu, for updated standards and information.

Exterior/Interior Signage: Exterior/interior signage shall conform to the UCF Design, Construction, and Renovation Standards. This facility should include, as a minimum, a building identification sign for all public entrances and campus directory signs along new sidewalks, directing pedestrians to other areas of the campus. Signage must comply with the latest ADA requirements.

Exterior Lighting: Exterior lighting fixtures shall conform to the UCF Design and Construction and Renovation Standards with illumination levels designed in accordance to the fundamentals of the IES Lighting Handbook, published by the Illuminating Engineering Society (IES).

Exterior Mechanical, Electrical, Service Equipment and Structures: All mechanical and electrical equipment shall be located and screened by permanent structures to give an attractive appearance to the building and campus. Structures provided for service, such as trash dumpsters shall be screened by permanent structures, in keeping with the architecture of the building.

Services Available to Campus:

Police Protection: The University Police Department provides 24-hour service, seven days a week. When necessary, University Police may request assistance from the Orange County Sheriff's Department or other outside law enforcement agencies.

Fire Protection: The campus police coordinate all fire emergency responses via the '911' network. All fire protection devices must comply with current state codes.

Trash Removal: Campus trash removal is handled by a yearly contract with a local vendor. The Facilities Operations custodial personnel deliver to their specific locations and the vendor removes the trash from these locations at least twice weekly. The architect is responsible to insure that appropriate exterior facilities are available for dumpsters and service of dumpsters.

Renovation Program

Program Area

The architect and his consultants should be aware that these project requirements are specific to this facility and that general University of Central Florida requirements must be met. These requirements can be found in UCF Design, Construction, and Renovation Standards, and the UCF Professional Services Guide. If a discrepancy is found in this program, the UCF Design, Construction, and Renovation Standards take precedence over any information provided in this document. Any deviation to the UCF Standards must be reviewed during design and approved by the UCF Standards Committee and the Associate Vice President, Administration and Finance (Facilities and Safety).

Program Area and Design Requirements Summary

The Program Area Table (see Appendix) is a summary list of the space requirements for this project. Currently, there is not an approved educational plant survey for this project since PECO funds are not being used.

Definition/Description of Space

The basic square footage identified must be in accordance with State Regulations for Educational Facilities, 1997, (SREF) as prepared by the Florida Department of Education, Educational Facilities and Educational Facilities Budgeting Office. Space criteria are based on typical campus and historical data and should be met if at all possible. It is the architect's responsibility to review these space requirements during design and to identify specialized conditions that would warrant a space change. When space criteria are not available, accepted design and experience factors should be used to determine space allocations for the various functional components of the facility.

Specific Program Space Categories

The required space categories are depicted in the Appendix of this building program.

The Project Budget Summary provides specific space category details and is to be found in the Appendix of this building program.

Facility General Spatial Relationships

A bubble diagram, which denotes the preliminary spatial relationships of the facility, can be found in the Appendix of this program.

Renovation Program

Emergency Shelter Space

State statute requires the University to designate new shelter space as campuses are developed. All major new buildings should have designated shelter space that is reasonably protected, structurally. Such areas shall be located away from laboratories with hazardous materials, away from atria or other open-span areas, and away from large, unprotected glazed surfaces. Please refer to the UCF Design, Construction, and Renovation Standards. It is not anticipated that this building will be fully hardened, but a sheltering area within the facility must be identified.

Facility General Considerations

Building Organization: The design of this facility should allow for continuous flexibility and future expansion. The architect/engineer should become familiar with the functional operation of the facility (through thorough review of the Building Program, and consultation with the university Project Manager and Building Committee Chair) in order to determine areas that vary in function and are subject to frequent change.

Structural System: In selection of the type of structural system, the total facility should be considered, since the choice will influence the cost of such features as heating, ventilation or air-conditioning, as well as architectural, lighting, and utility requirements. When choosing structural materials, consideration should be given to availability of labor and materials, design life of the facility and maintenance costs over this period, experience and skill of local contractors, feasibility of pre-assembling or pre-casting major structural elements, and site environment.

Handicapped Access: UCF is very active in its application of the Americans with Disabilities Act (ADA) - Accessibility Guidelines for Buildings and Facilities. The architect/engineer must address all of the ADA requirements for this facility. Handicapped Student Services will provide guidance and support in this area.

Internal Circulation: Stairways should be used for general circulation from floor to floor. Number and capacity of elevators for this facility shall be determined using criteria set forth in UCF Design, Construction, and Renovation Standards.

Mail Distribution and Vending Machines: Areas should be designed for mail and vending machines. These areas should be accessible to the service entrance of the facility. The mail area must be secured from public access. Mailboxes shall be installed in the Mail Distribution area.

Vending areas should be 300-400 square feet per building and located on the first floor close to elevators. Where possible, vending areas should be combined with break-rooms. All vending areas must have water lines provided and include a floor drain. The floor should be quarry tile.

Recycling Storage Room: A room should be designed and designated for short-term storage of recycled material, on the first floor, close to the loading dock or service entrance. Recycling room sizes are defined in the UCF Design, Construction, and Renovation Standards and are to be sprinkled per fire code requirements.

Requirements for Custodial Services Facilities: Access to custodial and service rooms must be from hallways. All doors should be designed off the main corridors or recessed in order to eliminate the protrusion of open doors into the corridor and pedestrian circulation. Custodial room sizes and shelving requirements are defined in the UCF Design, Construction, and Renovation Standards.

Custodial rooms are to be in close proximity to an elevator. Custodial rooms must have a minimum of 50 linear feet of shelving.

Facility Maintenance: The Architect must work closely with Facilities Operations department to insure that the most cost effective design and materials will be provided.

Exterior Building Surfaces and Roof Styles: Specific roof requirements are found in the UCF Design, Construction, and Renovation Standards. No roofing material shall contain asbestos. Building exterior should be of brick to complement the existing campus environment. All flashing and expansion joints need to be "bat" proofed.

Special Hardware: No special requirements are foreseen for this facility. For typical requirements see the UCF Design, Construction, and Renovation Standards.

Quality of Finish Materials: Installed finish materials must be low maintenance and have a good life cycle. For typical requirements reference the UCF Design, Construction, and Renovation Standards. The selection of finish materials must be coordinated with Facilities Operations.

Preferences for Color Schemes: No special requirements for color schemes are identified at this time. Color should reflect an academic community for higher education, not the typical Florida commercial color schemes. The UCF Standards Review Committee and the Associate Vice President, Administration and Finance, Facilities and Safety must approve all colors.

Acoustical Treatment: Acoustical treatment must be provided in all areas where noise level is high, particularly in conference rooms, assembly rooms, mechanical rooms, and the Library.

Building Directories, and Identification Signs: No special requirements are foreseen for this facility, for typical requirements see the UCF Design, Construction, and Renovation Standards.

Restroom Equipment/Materials: The University has specific requirements pertaining to

the design of restrooms. Reference the UCF Design, Construction, and Renovation Standards and ADA requirements. Provide nonslip ceramic tile on floors and glazed ceramic wall tile. Floor drains are required for all restrooms.

Water Supply and Plumbing Systems: The campus has its own water and sewage plant and this building will be supported by these systems. Outdoor faucets shall be designated on all sides of the building with reduced pressure principle back flow prevention. Building potable water supply must contain a reduced pressure principle backflow preventer. A separate water meter must individually meter all water supply to the facility. Floor drains that are piped to sewer must have wet type deep seal P traps, or trap primers.

Drinking Fountains: Fountains must be available on each floor and comply with EPA copper and lead regulations, with applicable ADA requirements.

Mechanical System: The building's primary Heating, Ventilating, and Air Conditioning (HVAC) design consideration should be a Variable Air Volume (VAV) System, except for special labs, clean rooms, etc. All VAV boxes should be designed with their location in corridors for ease of accessibility. UCF prefers variable frequency drives on air handling unit motors. No air handling units or condenser units shall be installed above the ceiling.

Energy Conservation - Air conditioning, dehumidification, evaporative cooling, heating, mechanical ventilation, and refrigeration should be selected, designed, and installed according to the requirements for State of Florida Model Energy Efficiency Code for Building Construction.

No electrical, mechanical, custodial, or service room shall open into a stairwell.

Electrical, mechanical, custodial, service, and communications rooms will be separate and independent of one another.

Door opening recess should be of appropriate size to accommodate total width of the door. Door openings should accommodate equipment removal. Mechanical rooms that exit into hallways should have doors that swing in and flat against the wall.

Electrical Systems: The design of interior and exterior lighting should be in accordance with the IES Lighting Handbook, published by the Illuminating Engineering Society (IES). Energy watt-miser light bulbs are required. The architect must coordinate the selection and location of lighting fixtures with the Department of Sustainability and Energy Management.

Interior Electrical Systems - system characteristics should provide for the most economical and efficient distribution of energy.

Cable Tray and Raceway System - overhead cable tray system for data transmission audio/visual, and telephone wiring and conduit shall be provided as a telecommunication

distribution system throughout the facility. This tray system shall be an open tray system designed for ease of access.

Fire and Security Alarm Systems: UCF has a campus-wide standard, found in the UCF Design, Construction, and Renovation Standards, for Fire Alarm Systems for buildings. Security Alarms Systems are identified for each specific application and the design and materials will be identified to fit that application. Fire and security shall be separate systems reporting to the UCF Police Department.

Lightning Protection System: A Lightning Protection System shall be provided and installed in this facility.

Telecommunications: Communication wiring, telephone, audio-visual, data communications, etc., shall be included in the design and construction cost of this project. At the completion of the project all systems must be operational.

Refer to the UCF Design, Construction, and Renovation Standards for information on manhole and duct bank requirements.

Standard electrical service to radio, television, video and film facilities should provide shielded service to avoid electrical interference.

All classrooms, conference rooms, and labs shall have the capability of being darkened and shall be equipped with appropriately sized projection screens.

All classrooms, conference rooms, and laboratories, which will seat in excess of 30 persons, must provide for sound reinforcement that is appropriate for voice.

Emergency telephones will be provided on every floor in an accessible location.

Renovation Program

Codes and Standards

Typical Codes and Standards

The design of this project shall conform to all applicable sections (most recent versions) of the *Standard Building Code* as administered by the Southern Building Code Congress, NFPA *Life Safety Code* 101 (most recent state adopted addition), Americans with Disabilities Act (ADA) - *Accessibility Guidelines for Buildings and Facilities*, ANSI *A117.1*-1986, *Florida Statute* 553.45-553.48, all codes referred to in the UCF Professional Services Guide and the UCF Design, Construction, and Renovation Standards.

UCF Design, Construction, and Renovation Standards

These Standards are concerned with all aspects of design and construction for the University. These documents along with the UCF Professional Services Guide must be adhered to during the design of this facility. These Standards can be found on the UCF Facilities Planning Web Site at: www.fp.ucf.edu.

Considerations to be Included in the Design

The following items may represent a significant component of the overall budget for the project, particularly for renovation work. Indicate in the spaces provided any potential life safety and accessibility requirements that can be identified in the affected area.

Asbestos assessments and abatement, fire code corrections, handicapped accessibility upgrades, environmental assessments, air permits, and SJRWM permits may be required for renovations and remodeling projects. It is **important** to determine what is required before beginning the design of the project, whether the project is a renovation, a remodeling, or new a construction.

The total cost of these items is part of the budget for the project. Please note that asbestos assessments may be required where existing utility lines and pipe insulation will be effected by the site construction. Older HVAC utility line insulation has been found to be asbestos containing.

All new construction must adhere to the guidelines for LEED. All new University buildings must meet the design criteria required to achieve **LEED Silver**. It is understood that all UCF buildings must be energy efficient, easy to maintain, and incorporate materials that reduce life cycle cost.

Renovation Program

Information / Communications Resources Requirements

This proposed facility must have dedicated multiplex audio and video channels, interconnected with the Office of Instructional Resources. Two way-communications are required between Instructional Resources and this facility. This facility will be a source of program output.

This facility should also have dedicated connectivity to the University's telecommunication node, which will provide services like registration, SAMAS, Outlook, Microcomputer LANs, phone, IP fire alarm, and access to BITNET and SURANET, etc. Please refer to the UCF Design, Construction, and Renovation Standards under Telecommunications Design Standards for additional information regarding telecommunications and audio-visual (multimedia) information. It is the responsibility of the architect/engineer to design a fully functioning external (nearest manhole) and internal telecommunications system for this project. Computer Services and Telecommunications **(C, S and T)** working with the Facilities Planning Project Manager are responsible for Information/Telecommunications Resources Requirements. For further information refer to http://www.division17.net

All telecommunications work will be provided employing an Owner provided subcontractor with the exception of the cabling distribution system and the conduit runs as noted below.

Cabling Distribution System: Cable tray- conduit to cable tray **(Contractor's responsibility)**

Conduit Size: 1-inch Minimum **(Contractor's responsibility)**

Data/Voice Cabling Type: Category 5 Enhanced Cable Plenum (Mohawk, Berk - Tech and Hubble brand only)

Video Cabling Type: RG 6 Plenum (Belden Only)

Fiber Optic: Fusion spliced LC connectors

Fiber Optic Interduct: 1-inch corrugated smooth wall inter ducts

Fiber Optic Cable: Draka/ Corning

Cabling Faceplate Terminations: Hubbell

Cabling Panel Terminations: Hubbell patch panels

Telecommunications Rooms: One per floor (stacked vertically)

Telecommunications Room Size: 10' x 15' or 150 sq. ft.

Cabling Distribution System: Concrete encased duct bank

Type of Ducts: Four-inch (4") DB Pipe TC-8 Spec. (Concrete encased)

Duct Bank Cabling Type: PE-89 DB 22 AWG telecommunications cable

Termination: Lucent, Porta Systems, or circa brand 188 Protector w/ 4C1S lighting protection modules

Cabling Pull box Description: To be designed by C, S and T

Network electronics and Multimedia Systems: (To be funded by Furnishings & Equipment)

Distributed Antenna System: To be designed and installed by C, S and T

Note: The costs of these items to be part of the construction budget for the project.

Renovation Program

Utilities Impact Analysis

Existing and Required Utility: The architects and engineers selected for this project are required to design utility connections to the nearest utility manhole or as directed by the University. **All existing utilities must be field verified and documented by the Engineer of Record during the early stages of design.**

Utilities which provide efficient operation and are adequately sized to serve future needs should be considered during the early planning stages. This will avoid conflicts in the design and layout of the various utility lines, and permit the early recognition of the need for additional production and/or supply capacity. This project should address the adequacy of existing utilities support and any additional needs. The planning of utility lines should minimize utility capital investment and operational cost for maintenance and repair.

Utility Planning Considerations

Appearance: Meters, light poles, transformers, vaults, pressure reducing stations piping and valves, and other utility items should be located discretely, not detracting from the building's appearance. Design of the facility should also reduce the negative visual impact of utility items and communication lines in accordance with the design standards.

Underground Utility Lines: The location and depth of many of the existing underground utility lines are questionable at best. The accuracy of the University utility as-builts should be determined very early in the project. The University will require a detailed utility survey of the proposed site using our continuing services consultant.

Underground distribution lines should be located to minimize cost. All underground utility lines, mains, and conduits should be located at the minimum depth of (3 feet) and in common corridors to allow for ready access and maintenance. As-built drawings must be provided for all interior and exterior utilities.

Central Chilled Water

A central chilled water plant supplies the campus. It is equipped to provide chilled water to the HVAC systems for all major buildings on campus. Utilities and Energy Services must be contacted to determine the current capacity of the central chilled water plant.

General Campus and Building Utilities

The main campus consists of 1,415 acres and includes a library, classroom buildings, laboratories, residence halls and student facilities. The Main and Satellite Cooling Plants provide the campus cooling needs. Direct Digital Controls (DDC) will control all campus

buildings. The architects and engineers selected for this project are required to design utility connections to the nearest utility manhole or as directed by the university.

Campus Chilled Water

Chilled water is distributed through a circulation loop, at a design supply temperature of 42 degrees F, to the buildings HVAC systems.

Source of Supply: Central Chilled Water Plant and Satellite Chilled Water System

Pipe Material: Schedule 40 Steel Pre-insulated Pipes

Campus Electrical Power

Duke Energy provides primary electrical service to the campus. The university's responsibility starts on the secondary side of the buildings' transformers.

Campus Potable Water

Potable water is supplied to the campus via an underground piping systems. Reduced pressure principle backflow preventers and meters are required on all water supplies to the buildings.

Campus Sewage/Wastewater

Sewage/Wastewater: University effluent is connected to Seminole County. The permitting process should be directed to the appropriate Seminole County agency responsible for wastewater treatment.

Campus Irrigation Water

The irrigation system is supplied with reclaimed water from the Iron Bridge Waste Water Treatment Facility in Seminole County.

Campus Gas Service

Source of Supply: TECO Gas (Local distribution Company)

Estimated Building Telecommunications Requirements

UCF operates and maintains IP Telephony with remote shelves that will provide service to this building. Conduit and wiring systems should include inside and outside cables, terminal cabinets, backboards, lightning protection and outlets. These items shall be furnished and installed in the base construction.

Renovation Program

Source of Supply: Campus Telephone Distribution System (Fiber and Copper)

Location of Source: Building Network Equipment

Estimated Building Data Transmission Requirements

Network Service: UCF operates and maintains a redundant multi-tiered network architecture, which is connected by fiber to the Computer Science Building. The building's interior operation for data transmission should consist of minimum 1000 Base T Ethernet cabling. The data transmission system, from this building to the closest telecommunication node, should consist of fiber optic cabling through the campus underground communication distribution system.

Source of Supply: Campus Data Network

Location of Source: Computer Science Building

Estimated Audio Visual Requirements

Audio-Visual Service: Internal wiring for CATV is to be RG-6 plenum coaxial cable. Outside plant CATV cabling will be provided and installed by the Campus CATV provider (Bright House Networks). All instructional spaces need to have appropriate electrical and connectivity from an Instructor Console to the ceiling. Recommend a duplex outlet under each console with an empty 2-inch conduit from under the Console, up through the nearby wall and "stubbed-out" above the ceiling. All instructional spaces will also need a ceiling-mounted duplex electrical outlet for a data/video projector.

Estimated Terminations Required: To be determined

Source of Supply: Campus Communications System

Cable Type and Cable Size: To be determined

Duct Bank or Conduit Requirement: Duct Bank size to be determined

Equipment required for Coax Cable: Building amplifiers, riser design, taps, and equalizers are designed and maintained by UCF CS&T. All CATV equipment shall be installed in the MDF and IDF CATV lock boxes. All head in equipment shall be located at a node or the Library Switch Room.

Campus Exterior Lighting: The campus, circulation, parking lots, and recreation areas are illuminated during the dark hours by pole mounted area lighting. All exterior lighting fixtures must match existing fixtures and be powered from the building.

Renovation Program

The current outdoor lighting system is defined in the UCF Design, Construction, and Renovation Standards. All exterior lighting fixtures must match existing fixtures and be powered from the building.

Subject: RE: Confirm Budget Requests and Carryforward plans submitted in FY15 to Academic Affairs

HI Tracy,

Per our meeting this morning, Phase II of the CREOL addition has not happened. My comments below are regarding the Phase I renovation of the 3rd floor lab build-out. Phase II is a critical need for us, especially with the 4 new faculty hires we are in the process of searching for. As for the new faculty fires, we have been promised $2.3M in startup funds.

I will report back later what I believe our carried forward is expected to be.

Thanks,
Mark

Good Morning Tracy,

Phase II of the CREOL addition is in the Design phase. The schedule has construction starting in September 2015, but we're hoping it will be sooner than that, but unfortunately we've seen a huge delay in the renovations process happening.

The FY15 startups have been setup and are being spent against. 20130713 was funded $300K and 20130714 was funded $275K. The FY16 startup commitment is the remaining balance due to Dr. Pang, who's spending against 20130714.

If you need anything else prior to the meeting, please let me know.]

Thanks,
Mark

Subject: Confirm Budget Requests and Carryforward plans submitted in FY15 to Academic Affairs

Mark,

Attached is a summary of the College of Optics & Photonics' requests and carryforward plans submitted to AA over the past several months. Tomorrow's meeting is to confirm and understand these items. I'm looking to find out the following:

If any of them have already been funded;
If any are no longer critical;
Please confirm whether the 2014-15 items have occurred, if so when, and if not, why not.

The carryforward plans and the requests will be considered by the Provost, Mr. Merck and the University Budget Committee within the next month. However, please be aware that there are significant requests and limited resources, so please evaluate your requests carefully.

Thanks a lot.

Subject: CREOL Answers

Below is a quick summary of the scope of work and cost estimate for the CREOL build-out. This is based on discussions at a December 4, 2014 kick-off meeting with CREOL and the Engineer of Record.

- Scope – five wet bio-photonic labs and two wet biology labs (seven total labs)
  - NFPA 45 compliant
  - And sinks, eye wash, process water, compressed air, fixed hoods and perimeter cabinets/counters
  - Specific equipment needs are unknown as specific researchers have not been identified – design for future flexibility
- Schedule (this was discussed and approved by user group)
  - Funding/Approval – 2 months, December to January 2015
  - Design and Construction Documents – 5 months, February to June 2015
  - Permitting, Bidding – 2 months, July to August 2015
  - Construction – 3 months, September to December 2015
  - Occupancy – January 2016
- Budget
  - Total Project Cost – estimated $1,900,000 (best to hold $2M, which allows $200K Planning and Design; $1.6M Construction; and $200K F&E)

Cc: Tracy Clark
Subject: Funding Request - Response Required
Importance: High

Mark,

Attached is the list of 2015-16 funding requests that were moved forward to the Tier III list that is being evaluated by the University Budget Committee. **The committee has requested you review the priority of these items with your Dean/ VP.**

Priority is just one of several factors being considered by the committee and will not necessarily be the determining factor for approval. It is imperative that not every request be submitted with a high priority status.

Confirm the priority of each item as High, Medium, or Low. A proposed priority status has already been assigned. Consideration must be given to several factors including but not limited to:

- the importance of the initiative in relation to the university's mission, strategic goals and performance measures;

- the availability of other resources, including non-E&G resources, and the significance of the amount in relation to those resources. If there are existing commitments against those resources, consider flexibility in the priority, amount, and/or timing of those commitments.

- the likelihood that spending will occur during 2015-16.

Example: If the importance is high, there are other resources available, and the amount is not significant in relation to those resources then assign a low priority. If the importance is high and there are other resources available, but the amount is significant then you may want to consider assigning a medium or high priority.

Your response is required no later than noon on Friday, June 5th.

Thank you,

Christy Tant, CPA

UCF	**UCF Executive Budget Committee Meeting** **AGENDA**
Date:	June 9, 2015
Time:	1:00 – 3:00 p.m.
Location:	MH-384
Facilitator:	Provost Dale Whittaker and Vice President William Merck
Invitees:	Maribeth Ehasz, MJ Soileau, Grant Heston, Keith Koons, Deb German, Jarell Jones, Tracy Clark, Christy Tant

- - - - Agenda Topics - - - - -

1. Approve redistribution of carryforward (Attachment A) **(15 minutes)**

2. Allocate to major categories (Attachment B) **(15 minutes)**
   - Student Success - $4 million
   - Graduate and Research Growth - $4 million
   - Capital, Infrastructure, and IT - $2 million

3. Establish major categories sub-committees and responsibilities (Attachment C) **(15 minutes)**
4. Begin sub-committee deliberations **(45 minutes)**
5. Closing remarks **(15 minutes)**

Confidential

UCF Executive Budget Committee

Meeting – June 9, 2015

Decision Timeline for Tier III Requests

1. **Today, June 9th** - Preliminary recommendations

2. **July 5th** - Final recommendations due to Tracy/ Christy

3. **July 8th –** Communicate to Units: Timing of Tier III approvals, redistribution of carryforward will occur, and 75% of carryforward will be delayed to the week of July 20th.

4. **July 15th** - Final carryforward calculated

5. **July 17th** - Firm and final decisions at next meeting

6. **On or before July 24th** - Communication and distribution

Attachment A

FY16 Available for Redistribution

Revised 6/1/15

	06/30/14 Carryforward	Preliminary Projected 6/30/15 Carryforward	Committed	Contribution
President's Division	$ 5,274,815	$ 4,999,000	$ 3,887,000	$ 1,112,000
Administration and Finance Division	6,622,639	6,572,000	6,244,000	329,000
Communications and Marketing Division	1,443,600	985,000	985,000	-
University Relations Division	376,211	153,000	153,000	-
AA-College of Business Admin	10,355,840	12,248,000	8,817,000	3,432,000
AA-Research-Nanoscience	5,935,542	6,367,000	4,054,000	2,314,000
AA-Office of Research	587,666	3,792,000	2,194,000	1,598,000
AA-Provost Office & AA Division Reserve	10,051,622	23,731,000	23,523,000	1,208,000
AA-College of Optics and Photo	907,692	1,293,000	347,000	946,000
AA-COM-Burnett School/ Bio Sciences Center	7,777,933	8,696,000	8,282,000	415,000
AA-College of Nursing	812,358	893,000	592,000	301,000
AA-College of Sciences	4,863,246	6,881,000	6,607,000	274,000
AA-College of Engr/Comp Sci	8,122,538	7,795,000	7,558,000	237,000
AA-College of Health & PA	3,631,261	4,263,000	4,060,000	203,000
AA-Undergraduate Studies	1,964,349	1,891,000	1,797,000	95,000
AA-Info Technologies & Res	1,342,266	1,600,000	1,520,000	80,000
AA-College of Arts and Humanities	729,221	1,555,000	1,477,000	77,000
AA-College of Hospitality Man	2,036,741	1,496,000	1,421,000	75,000
AA-College of Graduate Studies	1,664,021	1,168,000	1,109,000	58,000
AA-Research-IST	172,035	461,000	438,000	23,000
AA-Research-AMPAC	1,067,082	344,000	327,000	17,000
AA-Research-FSEC	77,214	269,000	255,000	13,000
AA-Research-CREOL	415,134	567,000	557,000	10,000
AA-Honors College	94,769	140,000	133,000	7,000
AA-Acad., Faculty & Int'l. Aff	368,228	126,000	121,000	5,000
AA-Regional Campus Admin	1,021,034	-	-	-
AA-Student Dev & Enroll Svcs	2,983,338	886,000	886,000	-
AA-College of Education	202,080	-	661,000	(661,000)
AA-Research-I4	226,160	-	-	-
	$ 98,298,627	$ 99,171,000	$ 88,005,000	$ 12,168,000

Assumptions:

- All units contribute 5% of 6/30/15 carryforward (estimates to be updated)
- Protect start-up: Existing and FY16 new 100 faculty commitments
- Protect carryforward plans: FY16 - FY18
- Assume FY15 carryforward plans executed
- Establish reserves: 3 - 7% (unless carryforward plans exceed carryforward)

Attachment B

University Budget Committee

Tier III Requests - Proposed Allocation By Strategic Initiative

(Grouped by Unit) Revised 6/8/15

Strategic Initiative	College/Area	Initiatives/Projects	Priority	E&G Recurring	E&G Non-recurring	Proposed Allocation
Student Success	**BHC**	Instruction Costs to offer 10 additional honors courses & science labs	H	200,000		
		Replacement of 2 positions - Student Advising & Student Affairs support	H	80,000		
		International Programming	M	30,000		
		Research Support - Burnett Research Scholars Program	M	30,000		
	CAH	Increase summer support (15-16)	H	100,000		
	CBA	Office of Student Engagement (Salary & Operating)	H	460,845		
	CEHP	Summer Salary - Hires - Faculty New	H	142,485		
		Urban Education Initiative/UCF Downtown	L	322,500		
	CHP	New Faculty Hire Summer Support & summer expansion	H	490,000		
	CON	Full time staff (Senior Admissions Specialist Level)	H	65,000		
		Full time Alumni Relations	M	40,000		
	COS	Recurring Non-Salary Needs to Support New Faculty	M	125,000		
	IKM	Data Warehouse (BI Analytics Suite)	H	91,480		
	RCA	To support College of Science Regional MOU	H		1,500,000	
		Address Remaining Osceola Campus Need	H	384,288		
	SDES	Middle Income Enhancement Scholarships	H	2,000,000		
		Student Disability Services, Auxiliary Aids	H	300,000		
		STEM Majors Advising Program	H	186,728	20,000	
		Phase out Civitas/ PAR and enter into agreement with EAB	H	141,500	32,200	
		Title IX Enforcement, Investigations, Care & Outreach	H	57,000	30,000	
		SCH Enhancement Scholarships	M	1,500,000		
		Academic Advising Initiative	L	495,000	50,000	
		Knight Watch Program	L	49,206	15,000	
	UREL	Legislative Internship	M	15,000		
Student Success Total				**7,306,032**	**1,647,200**	**4,000,000**
Graduate and Research Growth	**CON**	Research Coordinator Replacement Pre-Hire	L		50,000	
	COS	Increase GTA Stipends to National Average	H	1,000,000		
	GR STDY	Master of Interdisciplinary Studies	H	41,000		
	ORC	FHTCC Funding Support	H	1,000,000		
		STOKES upgrade	H		1,000,000	
		Hires - Faculty New - IST (2)	H	250,000		
		Funding Support for Multidisciplinary Centers & Institutes	M	2,000,000		
		Major Capital Acquisitions	M		500,000	
		NSF CAREER Matching Funds	M		500,000	
		Federal Matching Funds	L		500,000	
	RCA	Staff Positions (3) - Additional Osceola Support Staff	L	120,000		
	SDES	Graduate assistant support for tuition and waivers (37 students)	M	175,157		
Graduate and Research Growth Total				**4,586,157**	**2,550,000**	**4,000,000**
Capital, Infrastructure, and IT	**A&F**	Rosen Annual Maintenance and Capital Improvements	H	262,365		
		2 Positions - EMS Acquisition Manager and EMS Analyst	M	210,350		
		Landscaping & Natural Res. - To fully fund existing position and operations	M	71,000		
		2 positions - Contracts/Real estate and Warehouse	M	66,300		
	CECS	Lab Renovations	L		500,000	
	CHP	Atrium Collaborative Area Renovations	M		150,000	
	COP	Phase II of CREOL Addition/Expansion	H		4,000,000	
	ITR	Additional Data Center Hardware/Maintenance	H	433,863		
		Recurring Library Resource Cost Inflation	H	360,000		
		Additional Staff - Sr. Info Security Analyst	M	170,000		
		Additional Staff - Applications Developers (2)	M	160,000		
	SDES	SFA Renovation	H		750,000	
	UREL	Mini vans-Soldiers to Scholars (2)	H		60,000	
Capital, Infrastructure, and IT Total				**1,733,878**	**5,460,000**	**2,000,000**
Grand Total				**$ 13,626,067**	**$ 9,657,200**	**$ 10,000,000**

Note: Priorities confirmed with units.

University Budget Committee
Tier III Requests - Proposed Sub-Committee Members

Strategic Initiative	Recurring Requests	Non-Recurring Requests	Total Requests	Proposed Allocation	Proposed Sub-Committee Members
Student Success	$ 7,306,032	$ 1,647,200	$ 8,953,232	$ 4,000,000	Grant, Maribeth, Jarell, Tracy (ex officio)
Graduate and Research Growth	4,586,157	2,550,000	7,136,157	4,000,000	Deb, Keith, MJ, Christy (ex officio)
Capital, Infrastructure, and IT	1,733,878	5,460,000	7,193,878	2,000,000	Bill, Dale
	$ 13,626,067	$ 9,657,200	$ 23,283,267	$ 10,000,000	

To be determined:

- Recommendations
- Rationale/ Criteria
- Timeline
- Additional information

Tier 3 Requests - Capital, Infrastructure, and IT

Category	College/ Area	Initiatives/Projects	Priority	E&G Recurring	E&G Non-recurring	Description
Capital, Infrastructure	ITR	Additional Data Center Hardware/Maintenance	H	433,863		Funds needed to meet escalation costs on the University's ERP equipment maintenance.
Capital, Infrastructure	ITR	Recurring Library Resource Cost Inflation	H	360,000		Funds needed to maintain current collections.
Capital, Infrastructure	A&F	Rosen Annual Maintenance and Capital Improvements	H	262,365		Current PO&M funding is not sufficient to maintain the Rosen campus at a level deemed appropriate. The university has made a commitment to maintain the campus as expected. This is an expansion of a current commitment.
Capital, Infrastructure	A&F	2 Positions - EMS Acquisition Manager and EMS Analyst	M	210,350		This is continuation funding. These positions will allow the department to identify more opportunities to reduce energy costs and the university's carbon footprint.
Capital, Infrastructure	ITR	Additional Staff - Sr. Info Security Analyst	M	170,000		New initiative - Request made in response to the State Auditor's risk assessment findings.
Capital, Infrastructure	ITR	Additional Staff - Applications Developers (2)	M	160,000		New initiative - Strengthen staff capacity in strategic areas of demand
Capital, Infrastructure	A&F	Landscaping & Natural Res. - To fully fund existing position and operations	M	71,000		This funding is to assist the LNR department to continue to maintain and enhance the university's landscaping along with prevention of destruction by creating burn barriers.
Capital, Infrastructure	A&F	2 positions - Contracts/Real estate and Warehouse	M	66,300		This is continuation funding. These positions are support positions to enhance the effectiveness and efficiency of the department.
Capital, Infrastructure	COP	Phase II of CREOL Addition/Expansion	H		4,000,000	Needed for 4 new faculty.
Capital, Infrastructure	SDES	SFA Renovation	H		750,000	(5) Cubical/ office renovation for financial aid
Capital, Infrastructure	CECS	Lab Renovations	L		500,000	
Capital, Infrastructure	CHP	Atrium Collaborative Area Renovations	M		150,000	
Capital, Infrastructure	UREL	Mini vans-Soldiers to Scholars (2)	H		60,000	For transporting children
Capital, Infrastructure, and IT Total				**1,733,878**	**5,460,000**	

Tier 3 Requests - Critical Needs

Category	College/ Area	Initiatives/Projects	Priority	E&G Recurring	E&G Non-recurring	Description
Critical Needs	A&F	TQM Compliance Team	M	500,000		This is a new initiate to develop a total quality management compliance team within Facilities and Safety to make the maintenance of the facilities more efficient.
Critical Needs	A&F	Human Resources Staffing	H	300,000		This funding will assist in funding new initiative in the Human Resourced department. The department is expanding and revamping its recruitment functions in addition to upgrading its software and programming.
Critical Needs	A&F	Environmental Health & Safety (Gap Insurance/International Travel)	H	269,000		This is a new initiate. The university E&G property is insured at its historical cost instead of replacement cost; this insurance would cover the difference. Several faculty, staff and students travel internationally annually, however, there is a level of liability associated with that travel that this insurance would help cover.
Critical Needs	UGS	Move Salaries from Non Recurring to Recurring Funds (5 Positions)	L	172,054		The other request to convert five positions to recurring is "low" priority based on our discussions with Tracy. We had already placed this request in the budget but Tracy recommended that we continue to fund these positions from carry forward for now. To further clarify, there are three current employees (one in IT support, one in Undergraduate Research and one in Experiential Learning that are supported on carry forward. We also wanted two positions in Interdisciplinary Studies as instructors but those will be requested under new faculty hires going forward.)
Critical Needs	PRES	IT Auditor	H	160,000		An IT Auditor is pertinent to the university. The division does not have the recurring E&G resources available to support this new position and will require additional funding. Plans are to hire this position in 2015-16.
Critical Needs	UREL	Director of International Economic Development	M	148,600		Focus on international development
Critical Needs	A&F	Orange County security - off campus student areas	H	75,000		This is a new initiative. Because the university becomes associated with negative press regarding safety and security of students living in apartments close to the university, the university is partnering with local law enforcement to provide extra patrols in certain communities.
Critical Needs	A&F	OEM Licensing	H	65,000		This is a new initiative to allow enhanced communication between emergency response personnel.
Critical Needs	IKM	IT Expenses (SMCA Split)	H	14,000		The expenses have devolved to the IKM unit without associated funding allocations. Activities include, desktop software, data backups, desktop troubleshooting and service, and hardware replenishments.
Critical Needs Total				**1,703,654**	**0**	

Tier 3 Requests - Graduate and Research Growth

Category	College/ Area	Initiatives/Projects	Priority	E&G Recurring	E&G Non-recurring	Description
Graduate and Resear	ORC	Funding Support for Multidisciplinary Centers & Institutes	M	2,000,000		Replacement of legislative line item funding cut during recession. These centers and institutes account for approximately half of UCF's C&G support.
Graduate and Resear	COS	Increase GTA Stipends to National Average	H	1,000,000		To supplement existing lines. It will help departments retain graduate students and future recruiting efforts.
Graduate and Resear	ORC	FHTCC Funding Support	H	1,000,000		Builds partnerships with industry and aids in placement of UCF STEM graduates in Florida industry.
Graduate and Resear	ORC	Hires - Faculty New - IST (2)	H	250,000		To support the MS and PhD programs in modeling and simulation which has been paid for by overhead funds.
Graduate and Resear	SDES	Graduate assistant support for tuition and waivers (37 students)	M	175,157		Currently funded by NR
Graduate and Resear	RCA	Staff Positions (3) - Additional Osceola Support Staff	L	120,000		Current positions previously funded by carry forward.
Graduate and Resear	GR STDY	Master of Interdisciplinary Studies	H	41,000		College of Graduate Studies assumed responsibility for this program. Requested $61k in budget from Undergraduate Studies and only received $20k for a coordinator, 2 OPS Adjuncts, and a GTA.
Graduate and Resear	ORC	STOKES upgrade	H		1,000,000	Upgrade of UCF's parallel computer used by many units on campus, reduces the need for mini-super computers in startup packages, reduces computer maintenance and power consumption long term.
Graduate and Resear	ORC	Federal Matching Funds	L		500,000	Matching for federal funds to be matched by equal amount. Past experience has shown that this enhances probability of success of proposals and help motivate faculty to submit proposals.
Graduate and Resear	ORC	Major Capital Acquisitions	M		500,000	Capital acquisition for faculty to be matched 1:1 with other cash. Experience has shown this aids all in securing C&G funds.
Graduate and Resear	ORC	NSF CAREER Matching Funds	M		500,000	Match for new faculty proposals. Very high ROI, helps new faculty to frame their careers in STEM areas.
Graduate and Resear	CON	Research Coordinator Replacement Pre-Hire	L		50,000	Grant submission uninterrupted during transition. Likelihood of occurring during 2015-16: Low.
Graduate and Research Growth Total				**4,586,157**	**2,550,000**	

Tier 3 Requests - Student Success

Category	College/ Area	Initiatives/Projects	Priority	E&G Recurring	E&G Non-recurring	Description
Student Success	SDES	Middle Income Enhancement Scholarships	H	2,000,000		(4) Pilot program - 1000 students
Student Success	SDES	SCH Enhancement Scholarships	M	1,500,000		Pilot program - 1000 students
Student Success	SDES	Academic Advising Initiative	L	495,000	50,000	New academic advisors (9) and career specialists (3) and associated start-up.
Student Success	CHP	New Faculty Hire Summer Support & summer expansion	H	490,000		To expand course offerings.
Student Success	CBA	Office of Student Engagement (Salary & Operating)	H	460,845		Funding for the Office of Student Engagement is the sole CBA request. Given the number of large section video capture course in the CBA core curriculum, increasing the quality of student engagement activity is a high priority for the college and directly impact the UCF goal of offering the best undergraduate programs in Florida.
Student Success	RCA	Address Remaining Osceola Campus Need	H	384,288		Osceola is high priority to RCA. This expansion was one that RCA did not propose but has supported with RCA funds as a University partnership initiative from the beginning. This is the primary cause of RCA'S current lack of reserve funds.
Student Success	CEHP	Urban Education Initiative/UCF Downtown	L	322,500		Dependent on University decision to proceed.
Student Success	SDES	Student Disability Services, Auxiliary Aids	H	300,000		(1) Mandatory by ADA legislation
Student Success	BHC	Instruction Costs to offer 10 additional honors courses & science labs	H	200,000		To meet the needs of increasing numbers of STEM majors. Continue/expand existing initiatives.
Student Success	SDES	STEM Majors Advising Program	H	186,728	20,000	(3) New
Student Success	CEHP	Summer Salary - Hires - Faculty New	H	142,485		Highly mission centric, high probability of being required, no alternative sources, college has very low reserves.
Student Success	SDES	Phase out Civitas/ PAR and enter into agreement with EAB	H	141,500	32,200	Academic advising program
Student Success	COS	Recurring Non-Salary Needs to Support New Faculty	M	125,000		To increase the departments' base allocation for ongoing support of new faculty. This is a minimal amount to cover infrastructure costs (e.g. phones, office supplies) and professional development (e.g. travel, memberships). It is a high priority but departments could potentially off-set a portion using non-recurring funds currently set aside for contingency, for some period of time.
Student Success	CAH	Increase summer support (15-16)	H	100,000		Our single 2015-16 funding request ($100,000 to enhance summer instruction) allowed the college to add 27 courses to the summer schedule. Of these 27 courses, 8 (30%) supported GEP instruction; 11 (40%) were courses in service to UCF's foreign language requirement; and 8 (30%) enabled our majors to move through their plans of study in a timely manner. We anticipate these 27 courses will produce an additional 3,500+ SCH's. This is high priority for the College of Arts and Humanities to continue to receive this funding, as we serve all UCF students by offering GEP instruction, as well as meeting the foreign language requirement. CAH's other funding resources are very limited due to the fact that grant funding is not as readily available as it is for other colleges at UCF.
Student Success	IKM	Data Warehouse (BI Analytics Suite)	H	91,480		SAS is the software system used by Institutional Knowledge Management (IKM) to generate all university strategic and operational data reporting and analysis. Software suite includes the university data warehouse, enterprise guide (data query tool), Pegasus mine portal, data miner, predictive analytics, and visual analytics software. This is a continuing initiative that requests recurring funding rather than year to year one-time reserve funding.
Student Success	BHC	Replacement of 2 positions - Student Advising & Student Affairs support	H	80,000		The advising position will enhance Honors student advisement, currently there is only one Honors advisor for 1800 students. The position will also support the Office of Prestigious Awards, a campus wide service. The Student Affairs position will enhance co-curricular and living learning communities for Honors students. New initiative.

Category	College/ Area	Initiatives/Projects	Priority	E&G Recurring	E&G Non-recurring	Description
Student Success	CON	Full time staff (Senior Admissions Specialist Level)	H	65,000		No advisor for the graduation department. Better service quality for both internal and external. Likelihood of occurring during 2015-16: High.
Student Success	SDES	Title IX Enforcement, Investigations, Care & Outreach	H	57,000	30,000	(2) Two Gas, software and annual maintenance costs, training, marketing and outreach. Non-recurring funds for start-up and office renovation.
Student Success	SDES	Knight Watch Program	L	49,206	15,000	Currently visiting positions
Student Success	CON	Full time Alumni Relations	M	40,000		Need a full time Alumni Relations staff dedicated to CON. We need funds raised by donors to move to Lake Nona. A portion of salary will be supported by the UCF Foundation. Likelihood of occurring during 2015-16: Medium.
Student Success	BHC	International Programming	M	30,000		To increase international learning and research opportunities for Honors students. New initiative.
Student Success	BHC	Research Support - Burnett Research Scholars Program	M	30,000		To increase support for undergraduate research, a continuation of a campus wide program. Continue/expand existing initiatives
Student Success	UREL	Legislative Internship	M	15,000		Stipend and living expense
Student Success	RCA	To support College of Science Regional MOU	H		1,500,000	Continued funding for COS, as none of that remains with RCA. This is basically a pass-through due to the now-expired MOU. But it is a partnership, and an important partnership to RC.
Student Success Total				**7,306,032**	**1,647,200**	

University Budget Committee
Meeting Minutes

Date: June 9, 2015

Attended by: Dale Whitaker, Maribeth Ehasz (by phone), Deb German, Grant Heston, Jarell Jones, Keith Koons, Bill Merck, MJ Solieau, Tracy Clark, Christy Tant

1. The plan for redistribution of carryforward funds was approved by a 7:1 vote. The following items were discussed/ mentioned.
    a. Tracy provided recap of methodology/ assumptions (listed at bottom of attachment)
    b. Emphasize $12m is an estimate that will be updated mid-July.
    c. Approximately $2m to be withheld for critical needs.
    d. The communication of these decisions will be sensitive.
    e. A change in the carryforward boundaries will result in a change in spending behavior. It was acknowledged that three years of carryforward plans were protected.

2. The committee reviewed the allocation of an estimated $10 million of non-recurring funds to three categories of requests: $4m student success, $4m graduate and research growth, and $2m capital, infrastructure, and IT.
    a. Priorities were confirmed with units.
    b. Recommendations to approve recurring requests must identify the duration of funding since it is being provided from non-recurring funds.

3. The following recommendations were provided for the future.

    a. Deliver a leadership development session so that primary stakeholders understand that requests/ decisions must be made for the greater good of the university.
    b. When requests are solicited, make it known that recurring needs may be funded only a non-recurring basis. Understand minimum duration of funding needed and requestor's rationale.
    c. Evaluate how priorities are established.

4. The timeline for decisions/ communication/ distribution was agreed upon.

5. The sub-committees deliberated and provided preliminary recommendations to the full committee (see attached).

6. Action Item – Tracy/ Christy to meet with Grant to draft communication. Per Dr. Whitaker, it should address how we plan to do this going forward.

7. Next Meeting – Review updated plan for redistribution and summary of funding recommendations.

Subject: RE: FY 2015-16 75% Carry Forward and Budget Committee Approved Allocations

Bahaa and Mark,

I just wanted to clarify that the $4 million funding approved for the CREOL expansion was awarded to go towards adding lab space. I know prior expansion plans included other features such as an auditorium. If you can add funds from other resources to incorporate additional features that's great.

If you have any questions, please let me know.

Subject: FY 2015-16 75% Carry Forward and Budget Committee Approved Allocations

Mark,

The attached memo from the Provost describes the evaluation of 2015-16 funding requests by the University Budget Committee and the reallocation of June 30, 2015 carry forward funds. This communication provides an update on the allocation of carry forward to your unit and the status of any funding requests that were submitted.

The attached file contains expanded instructions and the following information:

- Preliminary carry forward by department as of 6/30/15, the reallocated amount, and the initial 75% of the remaining amount that is being transferred now. The remaining 25% is expected to be distributed late August/ early September.
- The components of the amounts retained by and reallocated from your unit. Your Dean/VP may choose to distribute any portion of this amount among the departments within your unit based on careful consideration of strategic priorities.
- The detail of funding approved for the requests submitted by your unit. Requests for recurring funds were provided with full or partial funding for up to three years. The approved amount is being transferred in full immediately following this communication.

Changes to the calculation will not be made. As the Provost stated in his memo, suggestions for how we can improve this process going forward are welcomed and encouraged. Questions and feedback should be directed to Christy Tant or Megan Diehl.

Thanks,
Megan

Subject: RE: CREOL Phase II Expansion

Good Afternoon,

Would you please set up a new project number for our new major project UCF 581 CREOL Phase II Expansion? We need to transfer $4mil from department 17100710. We are going to use the **construction activity**. Please see email trail below.

Thanks,
Nester

Hi Mark,

Just confirming are you wanting us to just transfer the funds to the project or are you needing to see the funds actually encumbered to the contractor? If you need the funds to be encumbered to the contractor I don’t believe the proposal has come back from the contractor according to the project tracker. However, we can definitely transfer the funds to the project until the proposal is received.

Bill/George,

Is there a MPP for the project reflecting the $4m that we can use to transfer the funds with the appropriate categories?

Thanks,
LaShanda

Mark: Thank you!

Lashanda / Nester: Please assist in transferring the following funds ($17,000) to UCF-581 from account 17100710. This is being provided by CREOL (Mark Wagenhauser) per the email below. This is to fund a sloped concrete slab in the Auditorium space, which to be a shell space, for the new addition. Please let us know if you need additional information.

Thank you all!

Gentlemen:

I have returned! Sorry.

It appears that the item below has yet to be confirmed for funding. This is for the additional $17k for the sloped auditorium floor. Can you provide confirmation that this is in fact what is required by CREOL and if so, can CREOL provide the additional funds to support this concrete sloped floor? We would appreciate your clarification. It was included in the drawings and is schedule to start next week for the structural footing work. We wanted to make sure that the funds are encumbered. Thank you!

I don't think I received a follow-up email from this but I'm pretty sure that we've had verbal discussions regarding the entry way. Is the entry way and sloped for still $50K or would it be in the neighborhood of $20K - $25K?

Subject: RE: UCF-581 Auditorium Dirt Floor

Jim:

I'm awaiting to hear back from the contractors but currently, if we proceed with a flat slab in the auditorium, it would be $20k. A Sloped floor would be more. The A/E just recently stated that they may have concerns with not having a concrete slab because of possible moisture build up.

George
What is the cost savings of leaving the auditorium floor as a dirt floor and not proceeding with the office conversion to create the entry for the auditorium when compared to having a completed concrete floor and accessible by the internal door? We would expect for the comparison, that the floor would have the slant/slope as per design.

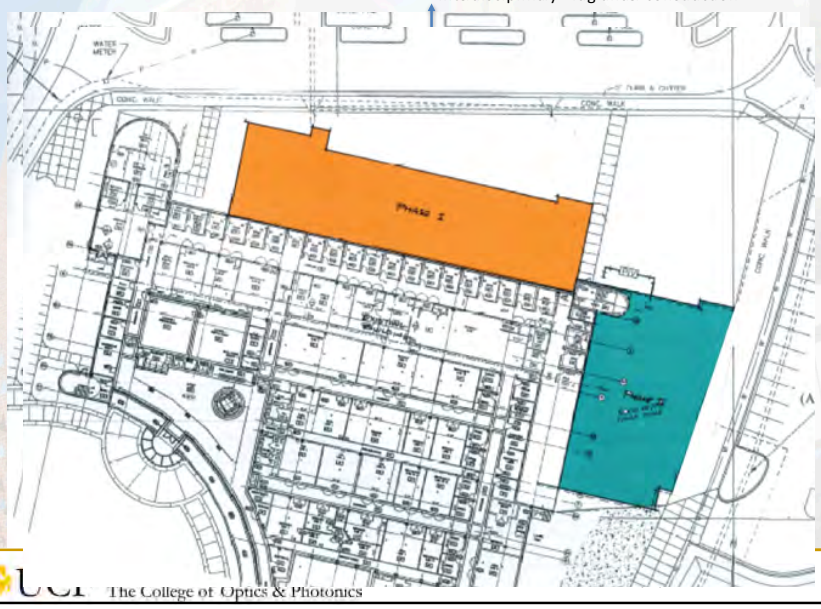
Phase II Addition to the CREOL Building

[redacted]



CREOL
Expansion
Phase II

RLF | ROBINS & MORTON BUILDING WITH PURPOSE.

Phase II Addition to the CREOL Building

Interdisciplinary Bldg under construction

The College of Optics & Photonics

Original 2014 Plan and Rationale for $4M Cost Estimate

A new addition to CREOL Building (Phase II)	3 floors	16,500 sq ft
Option A		
30 offices	3,300 sq ft	
20 400-sq-ft labs	8,000 sq ft	
Option B		
Auditorium	3,000 sq ft	
22 offices	2,400 sq ft	
8 400-sq-ft labs	3,200 sq ft	

Cost was based on $250/sqft for lab space and $150/sqft for office space

Based on communication with personnel in facilities, this plan and cost estimate were prepared on 9/22/14

Details of 2014 Plan

~5,500 sq ft per floor for a total of ~16,500 sq ft = ~$4.125M

Option 1	Option 2 (includes auditorium)
1st floor 10 offices - ~1100 sq ft Hallway, utilities, elevator, bathrooms: ~2,000 sq ft 6 labs at ~400 sq ft each (~2400 sq ft)	1st and 2nd floors 6 offices - ~660 sq ft Hallway, utilities, elevator, bathrooms: ~2,000 sq ft Auditorium - ~2840 sq ft
2nd & 3rd floor 10 offices - ~1100 sq ft Hallway, utilities, elevator, bathrooms: ~1,600 sq ft 7 labs at ~400 sq ft each (~2800 sq ft)	3rd floor 10 offices - ~1100 sq ft Hallway, utilities, elevator, bathrooms: ~1,600 sq ft 7 labs at ~400 sq ft each (~2800 sq ft)

Rationale for 2014 cost estimate

10/07/14 – email from Peter Newman (at the time was the Architectural Consultant to Facilities) that says $250 per sq ft is a reasonable number for Bio Labs.

Subject: Re: CREOL Third Floor Build-Out

Jim,

I would reduce offices to $150.00 per sq. ft. and I believe that $250.00 per sq. ft. is still reasonable for Bio Labs. However, I will ask one of the Construction Managers working on campus for their opinion. Once I hear back from them I will let you know about any further budget revisions.

I have attached a concept budget for your review.

Hope this helps.

Rationale for 2014 cost estimate

8/21/14 – email from Ernie Gerber (Project Manager with UCF Facilities since retired) showing cost of 2012 College Laboratory construction in Major Cities. We compared ourselves to Miami ($174.94 /sq ft).

From: Ernest Gerber

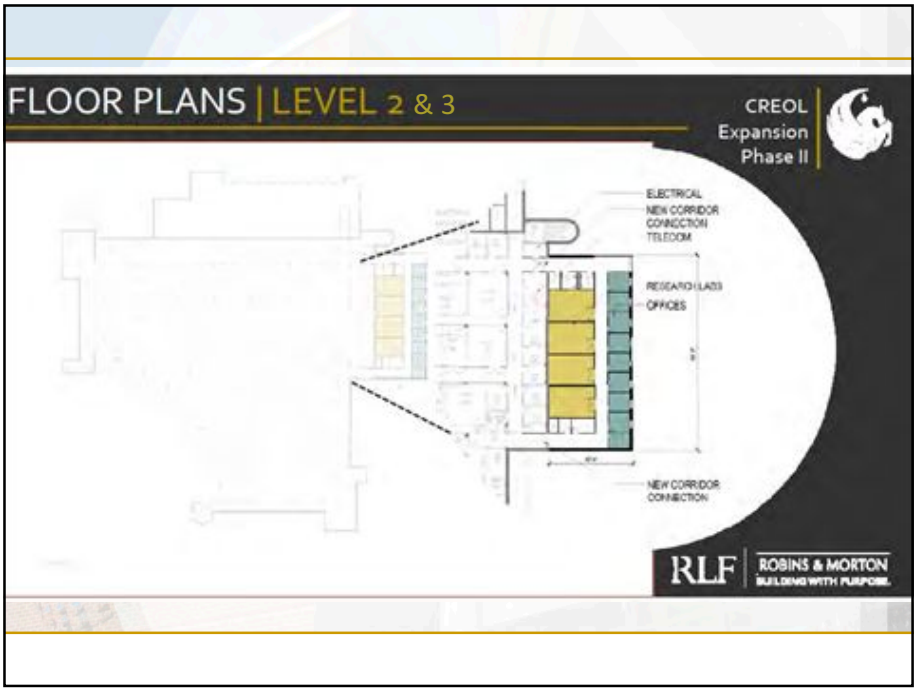
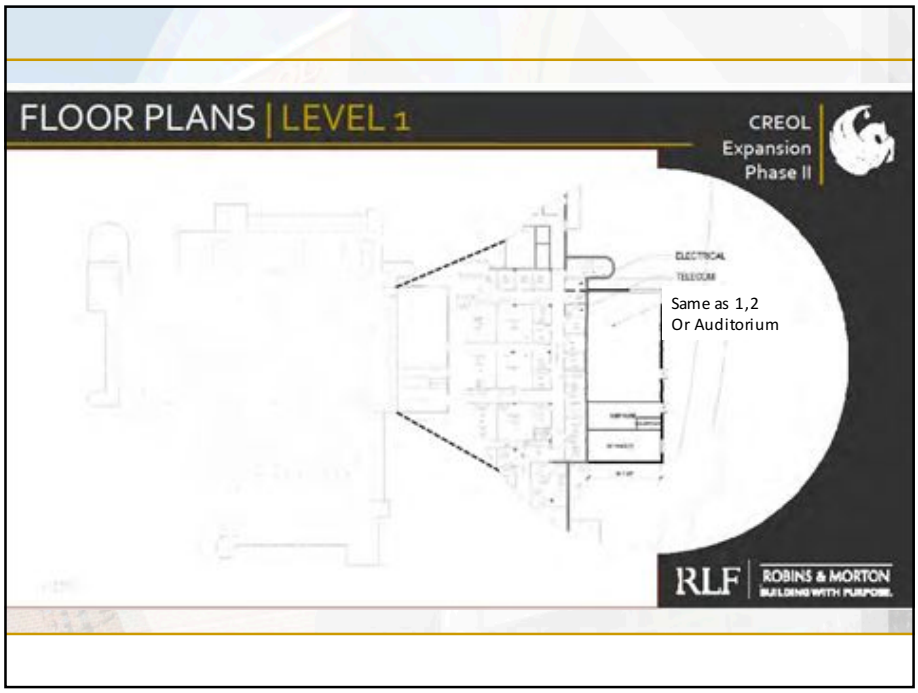
Subject: COSTS

WHAT I HAVE FROM MY LAST RSMEANS:

College laboratory construction cost:
April 2012 ranking of major U.S. cities



2016 Plan and Rationale for Need of Additional $2M



On March 28th, we had the short list of design/build teams present their proposals to build the extension for Phase 2. RLF/Robbin & Morton was selected to enter contract negotiations for the project.

It has been determined, that the sq ft cost is ~$450, not the $250 we were advised back in 2014.

Two tentative design plans were made:

$4M Plan	$6M Plan
2 floors built 1 floor finished Total area 8,000 sq ft Usable area 4,000 sq ft	3 floors built 2 floor finished Total area 12,000 sq ft Usable area 8,000 sq ft
9 offices 4 labs	18 offices 8 labs

Subject: RE: CREOL options
Attachments: CREOL.PDF; CREOL - Expansion Options.pptx

Thanks everyone for coming today to discuss this project.

Attached for everyone's records is the CREOL expansion funding plan for the agreed upon "Option F" (attached as well). As discussed today, it is important to keep the cost at the agreed upon $6.8 million. Any cost overruns that are due to change in scope or needs by CREOL will be the responsibility of CREOL – cost overruns that are construction related (no change in scope) will be evaluated by AA for either additional funding or a change in the project scope to bring it into budget. Any cost exceeding the $6.8 million will be discussed by all parties before any decisions are made.

Thanks again.

Subject: RE: CREOL options

Bahaa,

Dale and I have reviewed the construction options and pricing submitted by Lee and have the attached recommendation.

Our biggest concern is getting working labs as soon as possible. In order to do that, and accommodate your request for an auditorium, CREOL will need to fund more of the project. I put together the attached funding plan for option F – (3 floors, all labs built out, shelled auditorium - cost $6.8 million). Over and about the $4 million allocated to CREOL last year, AA will contribute another $900,000. CREOL will need to increase its current contribution to $1 million. The $900,000 balance can be loaned to CREOL from AA, to be paid back over a 4 year period.

Please review the plan, and let us know if you will be able to do this in order to get all of your needs met.

Let me know if you have any questions.

Subject: Re: CREOL options

All:

Thanks to Bill and his team for providing us with a clear list of options. Mark and I discussed these options and we have the following response.

Option F would obviously meet our immediate needs for lab space. Unfortunately, it exceeds the requested budget by ~$785K.

Option E would immediately provide us with 4 labs + 2,000 sq ft of office space. It also gives us the potential to use College resources to finish the 5 shelled labs in the near future. This option requires roughly $172K more than our request. We are willing to increase the College's contribution to the project from $500K to $600K to enable this option. If this option meets with your approval, we would immediately work with the Foundation to explore possibilities of getting a donor (individual or company) to fund a named auditorium in the first floor. Bill: can we get an estimate on what that would cost?

Option D would provide us with 4 labs and 1,000 sq ft of office space, but would make it difficult for the College to finish the third floor in the near future without assistance from the university.

Options A thru C limit any potential growth since the addition of a 3rd floor in the future would be more costly.

Subject: FW: CREOL options

All:
Bill Martin and his team worked with an architect and CM to put together the attached options for the CREOL expansion. They ended up developing six options vs. four, for more flexibility in decision-making. All options reflect space, construction and total project costs projected out to time of project bids (given the limited information available on specific research requirements), and schedule. Feel free to send us any questions you may have, or, if you would like to meet, we will make ourselves available.

CREOL Expansion:

	Cost	Floors	built out labs	shell plus labs	built out offices	GTA space	Auditorium
Option F	6,800,000	3	9	n/a	10	1000 sqft	shell

Funding Plan:

Carryforward	4,000,000
CREOL	1,000,000
AA	900,000
AA x year loan	900,000
	$ 6,800,000

Board of Trustees
Finance and Facilities Committee Meeting
President's Boardroom, Millican Hall, 3rd floor
June 27, 2016

MINUTES

CALL TO ORDER

Trustee Alex Martins, chair of the Finance and Facilities Committee, called the meeting to order at 8:32 a.m. Committee members Bill Yeargin, Christopher Clemente, and David Walsh were present. Committee member Keith Koons and chairman Marcos Marchena attended by teleconference.

MINUTES APPROVAL

The minutes of the April 29, 2016, and May 31, 2016, Finance and Facilities Committee meetings were approved as submitted.

NEW BUSINESS

Direct Support Organizations' 2014-15 Third-Quarter Financial Reports (INFO-1)

William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, and John C. Pittman, Associate Vice President for Administration and Finance, Debt Management, reported that the 2015-16 third-quarter financial reports ended March 31, 2015, for the UCF DSOs were provided as information items.

Release of Unrestricted UCF Stadium Corporation Revenues (FFC-1)

Merck and Pittman requested the release of unrestricted UCF Stadium Corporation revenues. The 2015-16 budget was approved by the UCF Stadium Corporation's board, which reflects projected unrestricted excess revenues of $3,876,922 to be available for transfer to the UCFAA. The committee unanimously approved the release of unrestricted UCF Stadium Corporation revenues as presented.

2015-16 Direct Support Organizations' Budgets (FFC-2)

Merck presented for approval the 2016-17 operating budgets for the following DSOs: UCF Athletics Association, UCF Convocation Corporation, UCF Finance Corporation, UCF Foundation, UCF Research Foundation, and UCF Stadium Corporation. The committee unanimously approved the budgets as presented.

Five-year Capital Improvement Plan (FFC-3)

Merck and Lee Kernek, Associate Vice President for Administration and Finance, requested approval of the capital improvement plan options for 2017-18 through 2021-22. Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay

list and provides information to the State Board of Education for its request for capital project funding for 2017-18. The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2016.

The committee unanimously approved the 2017-18 Capital Improvement Plan with the projects listed in the attached schedules.

Razing of Building 18 (FFC-4)
Merck and Kernek presented a request for the razing of Building 18, also known as Colbourn Hall. Building 18 is in poor condition and should be demolished. The estimated cost to correct the problems within the building is in excess of $15,000,000, which is greater than 60 percent of the building cost.

According to Administrative Rule 6C-9.004 Razing of Buildings, as prescribed by Section 240.22 Florida Statutes, Universities, each university's Board of Trustees shall have the authority to raze buildings. Prior to demolition of any educational support facility with a replacement cost exceeding $1,000,000, the university shall obtain an Educational Plant Survey recommendation for demolition. The university Board of Trustees shall review and approve the Educational Plant Survey recommendation and transmit it to the Board of Governors for validation.

A spot survey by the BOG's staff has been requested. The committee unanimously approved the demolition of Building 18.

Status of UCF Projects Presentation (INFO-4)
Kernek gave a presentation on the status of the active as well as planned construction and renovation projects on campus.

Chair Martins adjourned the Finance and Facilities Committee meeting at 10:27 a.m.

Respectfully submitted: _____ 8-1-16

William F. Merck II
Vice President for Administration and Finance
and Chief Financial Officer

ITEM: FF-3

University of Central Florida
Board of Trustees

SUBJECT: Five-year Capital Improvement Plan

DATE: July 28, 2016

PROPOSED BOARD ACTION

Approve the capital improvement plan for 2017-18 through 2021-22.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay list, and it provides information to the State Board of Education for its request for capital project funding for 2017-18.

The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2016. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan
- items to be included in the 2017-18 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate.

We request approval to submit the 2017-18 Capital Improvement Plan with the projects listed in the attached schedules.

Supporting documentation: Attachment A: 2017-18 Five-year Plan List
Attachment B: 2017-18 Fixed Capital Outlay Projects Requiring Board of Governors Approval to be Constructed, Acquired, and Financed by a University or a University Direct Support Organization with Approved Debt
Attachment C: 2017-18 Fixed Capital Outlay Projects That May Require Legislative Authorization and General Revenue Funds to Operate and Maintain

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer

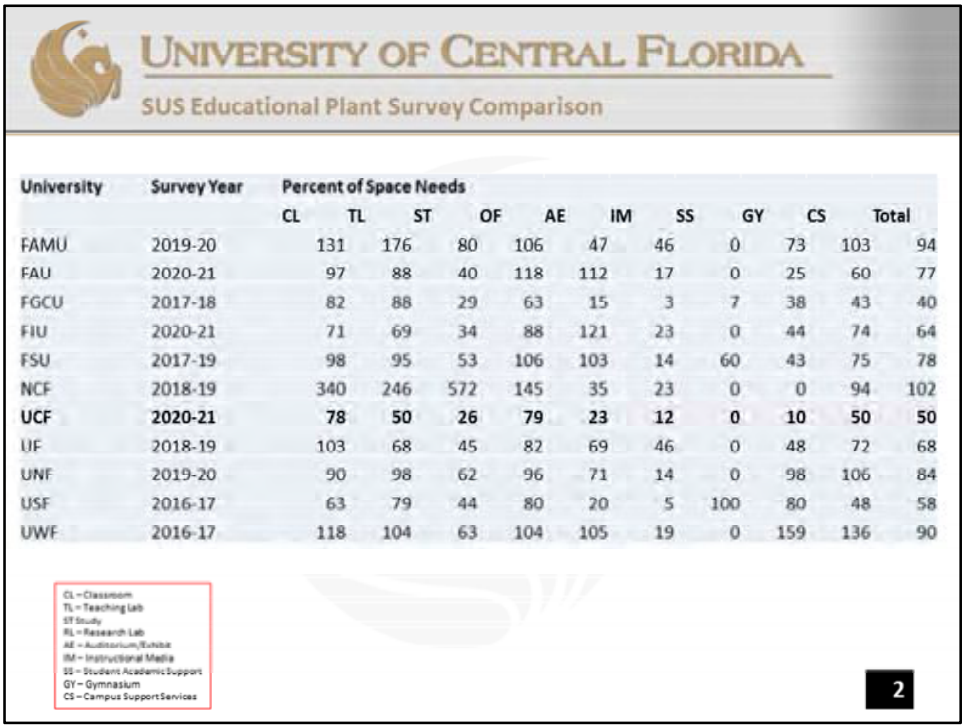
UCF	Band Building	6,000	Teaching Labs, Offices	UCF-Orlando	$5,000,000	E&G	$98,338	General Revenue

Since starting construction in January 1967, UCF has grown to 163 buildings on the main campus. There is currently **$170M** of projects under design and construction (major **$136M** and minor **$34M** projects), not counting the forthcoming UCF downtown campus projects.



In today's presentation, I'm going to give you a snapshot of how we compare with the other state universities in space needs, PECO funding requests, and funding allocations. I'll then give a big picture overview of our campus projects, briefly discuss our minor projects and deferred maintenance, and then move to major projects. Major projects shown generally follows the order of completion, starting with projects recently completed, then projects currently under construction, projects currently in design, and finally projects still in the concept phase. While I'm only going to cover some key projects, the current numbers are:

18 Major Projects (Student Health Center Addition, Global UCF, Parking Deck C expansion, Interdisciplinary, Trevor Colbourn Hall, Wayne Densch Center for Student Athlete Leadership, Library Expansion, District Energy Plant IV, Mathematical Sciences HVAC, Engineering 1 HVAC, Libra Road, Bennett

Buildings, Partnership 4, Student Union Expansion, Arena Scoreboard, BHNS Stadium Scoreboard, UCF Downtown Academic Building, UCF Downtown Parking Garage)

380 Minor Projects (construction value of $2M or less)
Totals:

- **40** in closeout
- **90** in construction
- **250** in design/permitting

GY – Gymnasium
CS – Campus Support Services

2

At one of our last Facilities and Finance Committee meetings, the Committee requested comparison data on State University System Educational Plant Surveys. Because only two – three universities are surveyed each year, the data is not a direct comparison, but it does provide a snapshot of space needs across the state.

UCF was just surveyed in 2015, and our survey was validated by the Board of Governors at their June board meeting. The 2015 survey group is the last group to be surveyed under the current guidance, which is a benefit for UCF.

3

Another item requested by this Committee is a comparison of SUS PECO requests. The data on this slide comes from the 2015 submission and shows the 5-year requests from each of the 12 institutions. The submissions are revised yearly, and the focus each year is on the first three years of the five-year request.

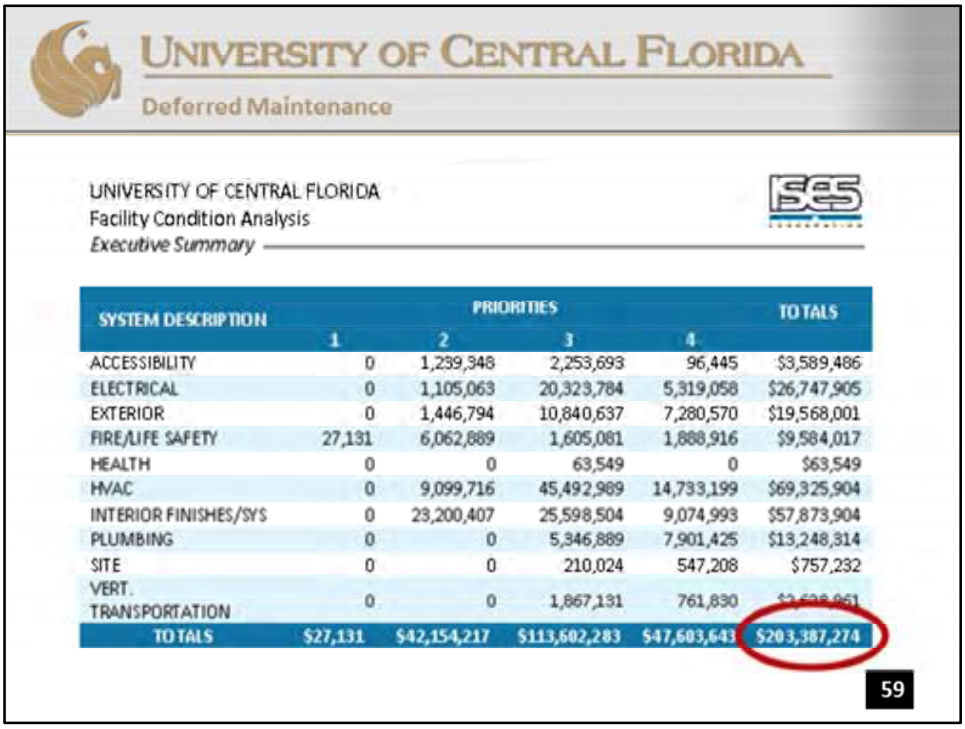
5

Every year, in addition to the approved capital funding, the State has provided Maintenance/Repair/Renovation and Remodeling (AKA “minor projects” funding, or “sum of the digits” funding). This funding is separate from Utilities Infrastructure or PO&M. The funding amounts are determined by a formula that is based on square footage and age. It does NOT include space utilization, numbers of students, or hours of operation.

While Major Projects make up the majority of the cost of our projects (**$136M** under design and construction, not counting UCF Downtown), Minor Projects (**$34M**) make up the majority of our workload.

- We currently have **380** Minor Projects and **18** Major Projects – Minors make up **95%** of our project count
- These projects are managed by a staff of 11 Project Managers, 3 Assistant/Associate Directors, and support staff
- Project Managers have an average of **35** projects each
- The map above illustrates in blue the quantity of minor projects

These are some examples of large minor projects - range from re-roofs to space upgrades to HVAC replacements



Examples of medium size minor projects include repair and maintenance to tech fee upgrades to rust remediation to life safety upgrades

Examples of small minor projects include such things as office buildouts to campus signage to equipment replacement

Small projects under $50K make up **50%** of our project workload, by project count, and include such things as access control to electrical upgrades to camera installations

- 2012 ISES reports concluded that UCF had over $200M of deferred maintenance needs
- This amount was bought down to approx. $146M, using Carry Forward funds, but grows annually as our campus continues to age
- The state is not adequately funding deferred maintenance, so we must be creative in how we prioritize and solve these needs
- The University should continue to invest in its existiing buildings to avoid catastrophic problems and optimize the lifespan of our facilities.

Top Left – Building 5: Chemistry - Soffit deteriorated and fell.
Top Right – Building 20: Biomedical Sciences - Unfinished concrete entrance needs to be waterproofed.
Bottom Left - Building 21: Education Complex - Penthouse for HVAC equipment deteriorated and needs renovation.
Bottom Right - Building 40: Engineering I - Skylight inaccessible and cause of water intrusion. Needs to be removed or replaced with reliable system.

I've included a campus map for reference as we go through the projects, and I have individual location maps at the end of the presentation if you would like to view any of the project sites close-up.

Located in Research Park, south of Facilities & Safety Complex

Architect: ACI
Contractor: Wharton Smith
Project Cost: $6,000,000
Funding Source: University-funded – C&G

10,000 **GSF**
Description:

- Renovation of existing buildings to accommodate research labs and business incubation and to meet Florida Building Code requirements
- Adds 5 labs and 3 fume hoods
- Modernizes 110 offices and conference rooms
- Upgrades mechanical & electrical systems
- Replaced roofing systems

Status: Construction Complete, project in close-out
LEED: N/A

The buildings include space for incubator clients and potential temporary space for faculty cluster hires, until larger new construction projects can be completed

When the clusters are permanently located, the space will be used for the UCF Incubator Program (ROI)

Located east of Brighthouse Networks Stadium

Architect: KZF
Contractor: Wharton Smith
Project Cost: $6M
Funding Source: Donor funding

22,000 **GSF**
Description:

- Provides new front door to the east side of the stadium
- Designed to accommodate future growth of stadium stands
- Modernizes athletic facilities, which will assist in recruitment for both student athletes and athletic staff
- Offices, tutoring rooms, computer labs, student services, study areas, career counseling space, conference rooms, and multipurpose rooms for student athletes

Status: Construction Complete, project in close-out
LEED: Tracking Silver

UCF Football set a program record with an Academic Progress Rate (APR) of 983 for multiple years, which ranks 11th among Football Bowl Subdivisions (FBS) institutions

Highest mark in the American Athletic Conference since the conference's existence.

Located southeast of Physical Sciences building

Architect: KZF
Contractor: Wharton Smith
Project Cost: $430K
Funding Source: Biology, Landscape and Natural Resources, and Utilities/Infrastructure funds

1,000 **GSF**
Description: Pre-fabricated, 24’ x 40’ greenhouse. Replaces the greenhouse that was damaged during the 2004 hurricanes and the temporary structures that have been in use since. Provides space for plant propagation for classes and student projects, as well as public outreach for environmental programs .

Status: Construction Complete; project in close-out
LEED: N/A

Located south of Parking Garage D, adjacent to Memory Mall

Architect: Schenkel Shultz
Contractor: Clancy & Theys
Project Cost: $16.6M
Funding Source: University-funded – internal sources

56,000 **GSF**
Description: Classroom space for transitioning international students into a campus learning environment:
45 faculty offices
18 classrooms
3 computer labs
4 conference rooms
Global UCF commons area
Designed with high efficiency mechanical systems

Status: Construction Complete, project in close-out
LEED: Tracking Gold

Located south of Technology Commons

Engineer: Moses and Associates
Contractor: CPPI
Project Cost: $3.9M MEP (+$10.1M balance to complete full renovation)
Funding Source: PECO

106,523 **GSF**
Description: Because of limited funding, scope is limited to:
- Replace HVAC

Additional funding was requested to:
- Provide life safety upgrades
- Meet Florida Building Code requirements
- Upgrade electrical system

Status: Construction – 3 of 4 AHUs installed over winter break 2015; units operational, finalizing CxA
As part of CxA we have discovered significant holes in the building's ductwork,

which we will be repairing over the summer with remaining project funds. The fourth AHU will be installed in December 2016.

Estimated Completion Date: March 2017
LEED: Will wait for additional funds to complete building renovation and will target Silver

Located east of Academic Villages Also Need CARP

Engineer: Harris Civil Engineers
Contractors: Libra – Stage Door II, CARP – Allstate Paving
Project Cost: Libra - $4.4M, CARP - $1.1M Hard Bid project
Funding Source: University-internal and Utilities Infrastructure

Description: Libra – Widens road from 2 lanes to 4 lanes, with bike lanes on both sides – in accordance with the Campus Master Plan. It addresses stormwater control issues, and improves the road system at the intersection of Libra and Gemini, and south of Gemini Blvd.

CARP – Replaces asphalt in select locations on campus.

Status: CARP – Completed; Libra Drive - Construction
Estimated Completion Date: Libra Drive – prior to Fall 2016 classes

Located south of Engineering Building II in Academic Core

Engineer: SGM
Contractor: Barr and Barr
Project Cost: $3.6M MEP (+$14.9M balance to complete full renovation)
Funding Source: PECO

130,885 **GSF**
Description: Because of limited funding, scope is limited to:
- Replace AHUs
- Provide limited lab exhaust upgrades

Additional funding was requested to:
- life safety upgrades
- Meet Florida Building Code requirements
- Upgrade electrical system

Status: Construction Documents – working through code compliance issues with existing ventilation

Estimated Completion Date: May 2017
LEED: Will wait for additional funds to complete building renovation and will target Silver

Located in existing Student Health Center, south of Chemistry building

Architect: HKS
Contractor: Barton Malow
Project Cost: $3.9M
Funding Source: University-funded – internal sources

10,400 **GSF NEW,** 2,600 **GSF Renovation**
Description:

- Creates state of the art programs for serving student needs related to international health, travel medicine, and immunizations.
- Includes space for psychiatry, substance abuse counseling, biofeedback, and dieticians.
- Building expansion includes:
    - reception
    - 15 patient care rooms
    - 15 provider offices
    - 5 records offices, records room
    - 1 conference room

    - Marketing suite
    - Storage
- Improved building appearance
- Upgrade of building HVAC controls

Status: Construction
Estimated Completion Date: August 2016
LEED: Tracking Silver

Located east of Parking Garage C

Architect: Schenkel Shultz (selected as part of the Global UCF project)
Contractor: Clancy & Theys (selected as part of the Global UCF project)
Project Cost: $9M
Funding Source: Parking Services

Description:
Project necessary due to the loss of parking caused by Interdisciplinary and UCF Global.
Adds 600 spaces and elevator to existing Garage C;
Includes ingress/egress improvements to the parking deck, and road improvements;
Adds transportation hub.

Status: Construction
Estimated Completion Date: August 2016
LEED: N/A – not LEED, but using sustainable principles (locally sourced materials, limited site disruption, etc.)

Located within the Brighthouse Networks Stadium

Video Board Installer: Daktronics
Project Cost: $5.4M
Funding Source: Internal – auxiliary reserves

Description:
Project will include:

- New north end zone video and audio board
- New south end zone video board
- New controls equipment, as necessary
- Structural, electrical, and telecom upgrades as necessary

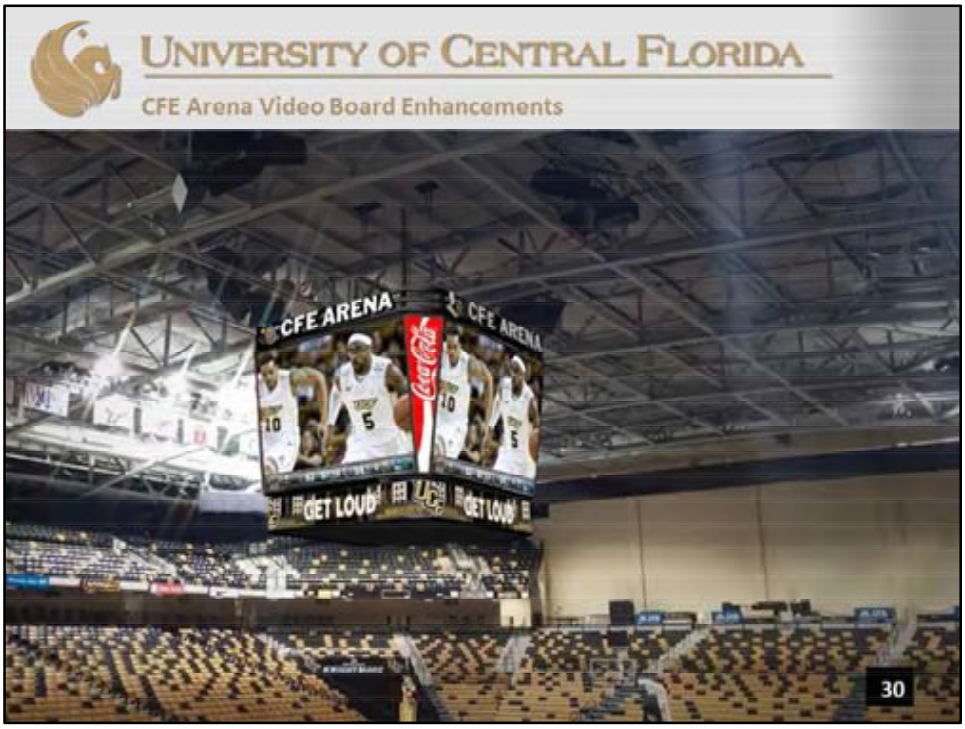
Located adjacent to the BHNS Stadium

Architect: RLF
Contractor: Chilled Water Infrastructure – Barton Malow; HVAC – hard bid
Project Cost: Chilled Water - $1.7M; HVAC and additional upgrades - $4.7M; Temporary HVAC - $790K
Funding Source: University-funded – internal sources

Description:
The two projects will include:

- Temporary HVAC @ 78 degrees for the 2016 Football Season
- Permanent HVAC @ 72 degrees for 2017 and beyond
    - New chilled water extension to the NFH
    - Sprinklers and life safety upgrades so that it can accommodate up to 2,500 occupants
    - Additional restrooms
    - Insulation
    - Potential lighting upgrade (LED lights)

Status: Construction Documents
Estimated Completion Date: Temporary HVAC by August 7; Permanent HVAC and additional upgradesby June 2017
LEED: N/A



Located in front of the UCF Arena

Engineer/Architect: TLC/Morris
Contractors: Barton Malow/Wharton Smith
Project Cost: $2.7M/$700K (DOES NOT include donor wall)
Funding Source: University and Convocation Corporation funded

GSF: N/A
Description: Cosmetic Renovation of the plaza area in front of the UCF Arena, and East Plaza Drive. Two projects: 1) hardscape/landscape/power, 2) spires

Status: Construction
Estimated Completion Date: September 2016
LEED: N/A

Located in the UCF Arena

Video Board Installer: Daktronics
Project Cost: $2.1M
Funding Source: Internal – auxiliary reserves

Description:
Project will include:

- New suspended video board and audio systems
- New upper level ribbon video board
- New courtside video board tables
- New controls equipment, as necessary
- Structural, electrical, and telecom upgrades as necessary

Status: Construction Documents
Estimated Completion Date: October 2017
LEED: N/A

Located in Facilities & Safety Complex

Architect: Schenkel Shultz
Contractor: Heard Construction (Continuing Services GC Quotes hard bid)
Project Cost: $2M
Funding Source: University-funded – internal sources

9,000 **GSF**
Description:

- Adds additional warehouse capacity for surplus & storage
- Hard drive shredder
- Postal pack & ship in support of surplus program
- Revenue generation – roughly $300K in sales annually

Status: Design and bidding complete; construction to begin July 2016
Estimated Completion Date: Dec 16
LEED: Targeting Silver

Located adjacent to the Recreation & Wellness Center

Architect: BRPH
Contractor: CPPI
Project Cost: $3.3M
Funding Source: Aramark funded $2.5M; University-funded remaining – internal sources

GSF: 3,200 sf
Description:
New stand-alone dining facility to house a Pollo Tropical and Café Buscelo.
Provides foodservice venue in an area of campus near housing with little food options.
Thousands of student foot traffic per day going from housing to main campus and recreation area.
Student Government Association, Student Development and Enrollment Services, and RWC were consulted about the vendor selection and project design.

Status: Permitting and Early Foundation Construction
Estimated Completion Date: January 2017
LEED: Targeting Certified

Located adjacent to the existing band practice field, west of the Facilities and Safety Complex

Architect: Little Architects
Contractor: TBD (will be hard bid through our GC Quotes process to our Continuing Service contractors)
Project Cost: $2.5M
Funding Source: University-funded – internal sources

GSF: 4,000 gsf interior, 7,200 gsf covered exterior
Description:
New stand-alone band facility.
Provides shelter from the elements, instrument storage, restrooms, and an exterior covered practice area.
Includes new permanent lighting for the practice field.

Status: Bidding (GC Quotes)
Estimated Completion Date: January 2017
LEED: N/A

Located southeast of Parking Garage C

Engineer: RLF
Contractor: CPPI
Project Cost: $15.1M
Funding Source: University-funded – internal sources

GSF: 9,600 GSF
Description: Add additional chilled water capacity for future growth for the campus. Will add 2 additional chillers (with expansion to 4 chillers) and associated cooling towers. Project must be aesthetically pleasing due to its proximity to Gemini road.

Status: Construction Documents; anticipate construction start August 2016
Estimated Completion Date: August 2017
LEED: Possible LEED Certified

Located west of Parking Garage C

Architect: Ponikvar and Associates
Contractor: CPPI
Project Cost: $46.6M over 2 phases; $30M Phase I, $16.6M phase 2
Funding Source: University funded – internal funds (requested PECO but have not received)

99,000 **GSF** for both phases (63,000 GSF Phase I, 36,000 GSF Phase II)
Description:

- 30 research/incubator labs, 20 material characterization rooms, conference rooms, offices, and ancillary spaces
- Houses programs from the following:
    - Office of Research and Commercialization (ORC)
    - College of Sciences (COS)
    - College of Engineering and Computer Sciences (CECS)
- Programs include:
    - Materials Characterization Facility
    - NanoSciences Technology Center

- Sustainable Coastal Systems Cluster
- Energy Conversion and Propulsion Cluster
- Resilient, Intelligent, and Sustainable Energy Systems (RISES) Cluster
- Cybersecurity and Privacy Cluster
- Human Augmentation Robotics Cluster

Status: Construction
Estimated Completion Date: Phase 1 - August 2017; Phase 2 – October 2017
LEED: Tracking Gold

Phase 2 recently approved – we are currently bidding this phase in an effort to gets completion date close to Phase 1.

Located south of Student Union and east of John T. Washington Center

Architect: Holzman Moss Bottino
Contractor: Turner Construction
Project Cost: $76.9M over 3 phases; $19.3M Phase I
Funding Source: CITF and Utilities Infrastructure for Phase I

Phase I: 8,000 **GSF**

Description:
Phase I

- Automatic Retrieval Center (50% of robot)
- Add sprinklers to the existing library building
- ADA restroom upgrades to the existing library building
- renovation of 7,500 sf of area on the 5th floor of the existing library to provide study space for students.

Phase 2 – connector to existing library, Phase 3 – full interior renovation of the existing library and the final 50% of the robot

- ARC Statistics
  - 2.25M volumes of material
  - Request for materials from any device with internet access
  - Automatic crane locates materials and delivers to pick-up station
  - 5-10 minutes for entire process

Status: GMP Negotiations; Anticipated construction start July 2016
Estimated Completion Date Phase I: November 2017
LEED: Will wait to apply when entire facility is completed; targeting Gold

Located along Alafaya Tr. buffer west of Parking Garage A

Description: The boutique hotel and conference center will serve as an enhancement to existing academic facilities and will add a desirable service component to the campus. It is being designed, constructed, and operated by a private developer.

GSF: 99,776 GSF, 135 guestrooms
Estimated Project Cost: private developer
Projected Construction Dates: July 2016 to mid-fall 2017
Developer: KUD
Architect: Baker Barrios
Contractor: Batson Cook

Status: Construction Documents. St Johns, DEP, and UCF BCO foundation permit issued. Construction expected to start July 2016.

Building addition to the east of the existing CREOL building

Architect: RLF
Contractor: Robins Morton
Project Cost: $6.8M
Funding Source: University-funded – internal sources

GSF: 13,900 gsf addition
Description:
Project will include:

- New labs
- New offices for faculty
- Shelled auditorium for instruction and guest lecturers

Status: Contract Negotiation
Estimated Completion Date: January 2018
LEED: Targeting Silver

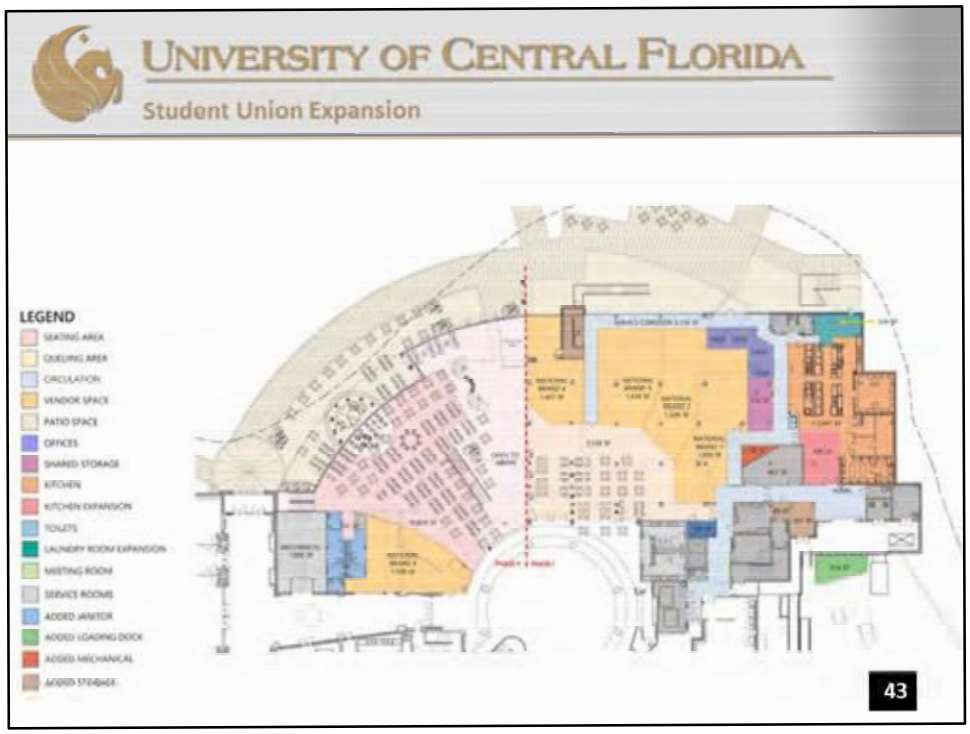
Located adjacent to Rehearsal Hall west of John T. Washington Center

Architect: Schenkel Shultz
Contractor: Clancy & Theys
Project Cost: Included in Trevor Colbourn Hall project
Funding Source: University-funded – internal sources

84K GSF

Description:

- Building will be demolished
- Independent engineering analysis revealed:
    - Structural defects
    - Water intrusion issues
    - Mechanical systems past life-span
    - Life Safety deficiencies
    - Building needs to be gutted to structure and rebuilt to current building codes
    - Rising construction costs weighed against value of the asset



indicate that demolition of this building and construction of additional space in Trevor Colbourn Hall is a better option than renovating this facility.

Approximately **76K** GSF
Description:

- **Will house the current occupants of Colbourn Hall (including English; Writing and Rhetoric; History, Modern Languages; Texts and Technology; Judaic Studies; African Studies; Women's Studies; Latin American Studies; the College of Arts and Humanities' Advising Office; the University Writing Center; the Center for Humanities and Digital Research; the Graduate Student Center; and 7 classrooms, 2 conference rooms, and ancillary space**
- **Will also house Student Development and Enrollment Services, First Year Advising, Sophomore and Second Year Advising, Transfer and Transitions, Student Academic Resource Center, Undergraduate Studies, Undergraduate Advising, McNair/RAMP, Undergraduate Interdisciplinary Studies, Burnett Honors College (4 offices), Office of Prestigious Awards, and Honors in Majors**

Status: Schematic Design
Estimated Completion Date: August 2018
LEED: Targeting Gold

Expansion to the Student Union

Architect: TBD – Advertised AE only
Contractor: TBD
Project Cost: $14.3M
Funding Source: Aramark

GSF: TBD
Description:
Renovation and expansion of food court area of student union, in coordination with Aramark.

- New food concepts
- Expanded seating
- Foodservice back of house renovations

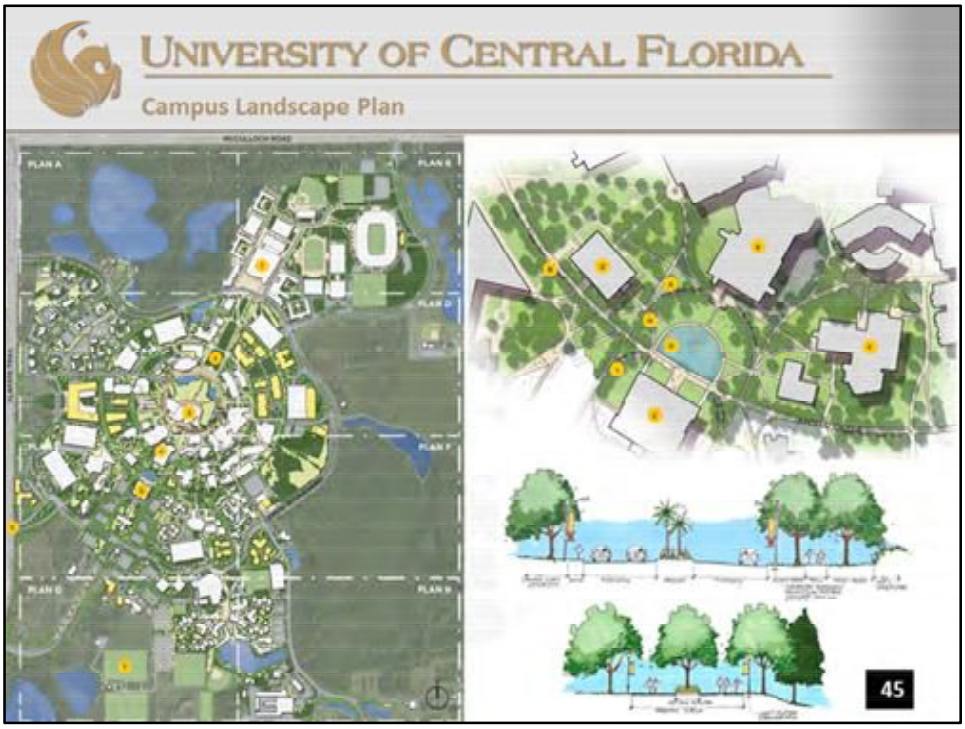
Aramark gets long-term contract.

Status: In the Selection process; Concept Design underway with a continuing service architect (Zyscovich)
Estimated Completion Date: TBD

LEED: N/A

Located in Research Park at the corner of Science Drive and Ingenuity Drive

Architect: TBD – Jointly advertised, Interviews on July 29
Contractor: TBD
Project Cost: $8M received in 2014; $20M received in 2015; $14M received in 2016
Funding Source: PECO



GSF: 81,000 gsf, cost $13,898,216

Description:
DoD partners currently occupy approximately 200K s.f. in 3 leased facilities. Creates classified labs for both the Military and UCF

- Satisfies the demand from local MS&T employers for UCF students trained in advanced technologies
- Eliminates costly leases that could drive BRAC decisions
- Provides space in Research Park to support DOD presence and potential growth
- Avoids potential loss of strategic national programs and dollars to

the region and to the state
Project will consist of force protection, civil/parking improvements, potential parking deck, interior build-out of building, and acquisition of additional space.

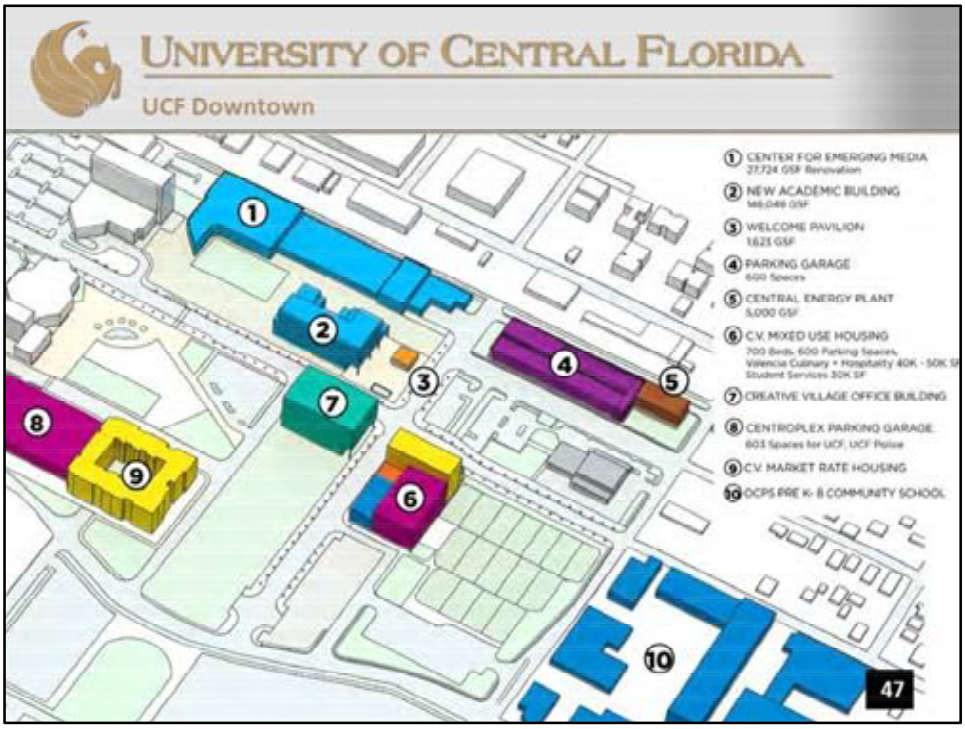
Status: Meetings are being held on force protection requirements, which will drive further decisions and actions.
Estimated Completion Date: TBD

Bellomo-Herbert and Carol R. Johnson Associates Landscape Architects are the project consultants who are developing a campus landscape plan.
The plan establishes standards and guidelines for how landscape and hardscape create a sense of place.
Final draft is under review.

Located in downtown Orlando as part of Creative Village

Academic Building – 165,000 gsf
Architect: TBD
Contractor: TBD
Project Cost: $60M
Funding Source: 1/3 PECO; 1/3 Donor funds; 1/3 University internal funds

CEM Renovation – 27,724 gsf
Project Cost: $5M
Funding Source: University – internal



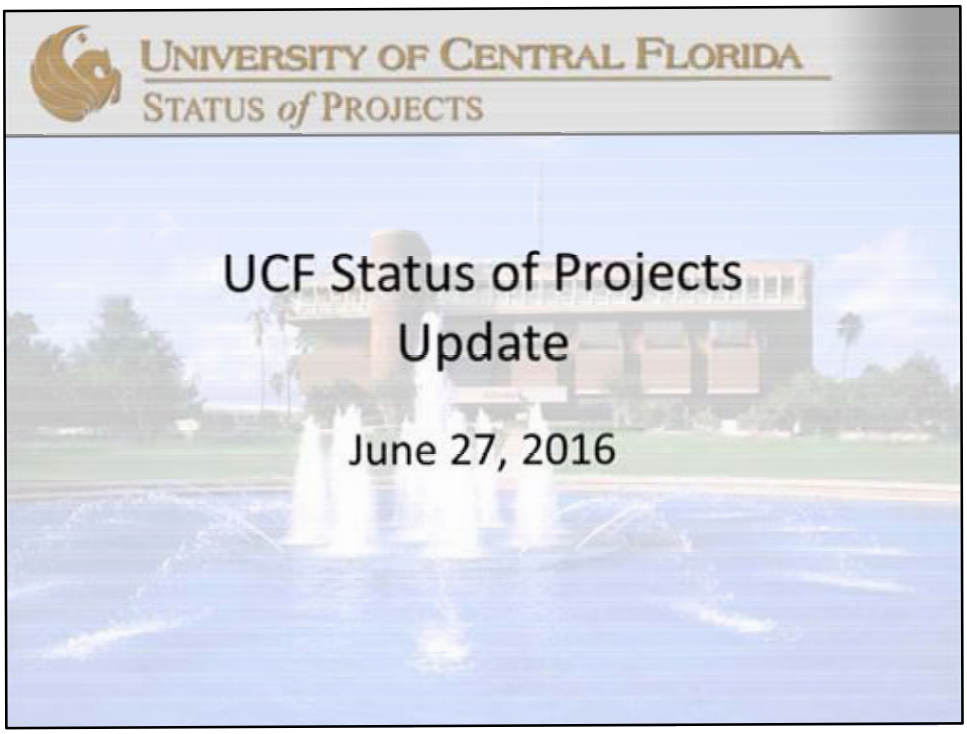
Parking Garage for 600 spaces
Project Cost: $10M
Funding Source: Bonded

Tri-generation Plant – 5,000 gsf
Project Cost: TBD
Funding Source: Exploring options

Description:
UCF is a key education anchor of a 65-acre Creative Village to work, learn, and play

Full-service campus for UCF, comprising 15 acres:

- A high-energy campus focused on the digital arts and communications, healthcare administration and technology, and public service including legal studies.
- Further strengthens Orlando as a high tech digital media destination; the City's existing digital media companies already make up one of the top ten digital media clusters in the United States
- Embeds UCF into the Orlando community, as thousands of students will live and study in the district
- Enriches our successful partnership with Valencia College, as they will bring complimentary programs to the downtown site



Status: Shortlisted firms were interviewed in June. A recommendation was sent to the President.
Estimated Completion Date: Asking AE/CM teams to determine feasibility of fast-tracking for Fall 2018 date
LEED: Targeting Gold

UCF programs include:

- COHPA: Legal Studies, Social Work, Health Management & Informatics,
- COHPA Centers: Center for Community Partnerships, Center for Public & Nonprofit Management, Center for Community Schools and Child welfare, Center for Law & Public Policy,
- Florida Center for Student with Unique Abilities
- Nicholson School of Communication: Human Communications, Masters in Communication
- College of Arts and Humanities: FIEA, CREATE, Flying Horse
- School of Visual Arts and Design: Digital Media
- Library, Student Support Services,
- Welcome Pavilion

Valencia College programs include:

- General Education
- Digital Media
- Health Information Technology
- Culinary & Hospitality

ITEM: FF-4

University of Central Florida
Board of Trustees

SUBJECT: Five-year Capital Improvement Plan

DATE: July 20, 2017

PROPOSED BOARD ACTION

Approve the capital improvement plan for 2018-19 through 2022-23.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay list, and it provides information to the State Board of Education for its request for capital project funding for 2018-19.

The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2017. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan
- items to be included in the 2018-19 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate.

We request approval to submit the 2018-19 Capital Improvement Plan with the projects listed in the attached schedules.

Supporting documentation:
Attachment A: 2018-19 Five-year Plan List
Attachment B: 2018-19 Fixed Capital Outlay Projects Requiring Board of Governors Approval to be Constructed, Acquired, and Financed by a University or a University Direct Support Organization with Approved Debt
Attachment C: 2018-19 Fixed Capital Outlay Projects That May Require Legislative Authorization and General Revenue Funds to Operate and Maintain

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer

Board of Trustees Meeting - Reports

MARCHENA	FF-4.
MARTINS	FF-4 is a five year Capital Improvement Plan. Approval was requested for the Capital Improvement Plan options for 2018-19 thru 2022-23. Each year the university must submit an updated Capital Improvement Plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay list and provides information the state Board of Education for its request for capital project funding for 2018-19. The committee unanimously approved the 2018-19 Capital Improvement Plan with the pro-, projects listed, uh, in the attached schedule with the understanding that several line items could have name changes. Also, the laboratory and environmental support building was added to the attachment C. Uh, the plan was unanimously approved by the committee and on the behalf of the committee I move FF-4, the five-year Capital Improvement Plan.
MARCHENA	Uh, there's a motion. Is there a second?
GARVY	Second.
MARCHENA	There's a second. Alex, I just want to clarify, I was looking at our agenda item on the board, uh, booklet and I don't see the, the specific recommendation from the committee which included, uh, some, authority to Dr. Hitt, making I believe certain changes, but with certain limitations to it. That's not on here, but I'm assuming you're motion includes-, it's basically the same motion that the committee recommended.
MARTINS	That is correct Mr. Chairman.
MARCHENA	Alright, thank you. Any other questions? Hearing none all those in favor of the motion, uh, for FF-4. Please signify by saying Aye.
MULTIPLE SPEAKERS	[*simultaneous speaking*] Aye.
MARTINS	Aye.
MARCHENA	All those opposed, like sign. The motion carries.

Fixed Capital Outlay Budget Request

2017 - 2018

University of Central Florida

Office of the President

July 21, 2016

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

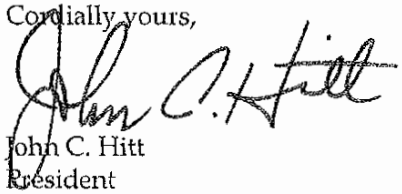
Pursuant to your request dated April 28, 2016, to the university presidents, enclosed is the University of Central Florida's Five-Year Fixed Capital Improvement Plan for the years 2017-2022.

This list revises UCF's primary priorities of previous years in accordance with the funding allocated by the Board of Governors, and it also includes additional facilities consistent with recent program developments and needs of the university. Use of existing space was considered in the prioritization of UCF's projects. We have also increased the cost of projects to reflect current construction-cost inflation.

Colbourn Hall Renovation has been deleted, subject to State approvals for the demolition of the building. The Trevor Colbourn Hall line has been revised to include the Colbourn Hall demolition, and the line item now reflects the additional costs for the demolition and added square footage.

The College of Nursing is now known as The College of Nursing and Allied Heath. The proposed facility has increased in square footage and cost, and it has moved from number 16 to 11 on the plan.

The following projects have been added to the three-year window: Florida Solar Energy Center Renovation; Research Building I and II; Infrastructure Chilled Water Replacement; and Wastewater, Water, Natural Gas Replacement.



The UCF Five-Year Fixed Capital Improvement Plan was reviewed and approved by the University Board of Trustees on June 27, 2016.

P.O. Box 160002 • Orlando, FL 32816-0002 • (407) 823-1823 • FAX (407) 823-2264 • jhitt@mail.ucf.edu

An Equal Opportunity and Affirmative Action Institution

Please have members of your staff contact Lee Kernek at (407) 823-3812 or Gina Seabrook at (407) 823-5894 if they have questions or need additional information. Thank you.

Cordially yours,

John C. Hitt
President

University of Central Florida

Fixed Capital Outlay Budget Request

2018 - 2019

UNIVERSITY OF CENTRAL FLORIDA

Office of the President
P.O. Box 160002
Orlando, FL 32816-0002

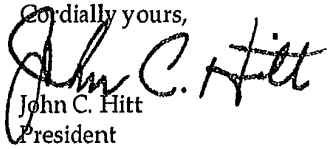
August 1, 2017

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

In accordance with your request dated April 28, 2017, to the University Presidents, enclosed is the University of Central Florida's (UCF) Five-Year Fixed Capital Improvement Plan for the years 2018-23. This list revises UCF's priorities of previous years in accordance with the funding allocated by the Board of Governors (BOG), and it also includes additional facilities consistent with recent program developments and needs of the university. Utilization of existing space was considered in the prioritization of UCF's projects. PECO funding to meet critical maintenance needs and improve the condition of existing space and campus infrastructure is, as always, UCF's top priority. Our other top priorities (with the order reversed from 2017-18) are Research Building I and the continued renovation of Engineering Building I. All projects have been prioritized in accordance with the needs of the university, with research space and renovations of existing buildings of high priority, as they are essential to meeting the goals of our Collective Impact Strategic Plan and success on our path to preeminence.

The following is a summary of changes:



- Project costs have been increased due to the inflation in construction costs.
- College of Nursing and Allied Health has been added to the three year window.
- Interdisciplinary Research and Incubator Facility has been renamed Research Building I. Incubator research has been removed from the program; therefore UCF has elected to change the name, which in turn changes the name of the other research buildings.
- Research Buildings I and II have been renamed Research Building II and III.
- Interdisciplinary Research Building II has been renamed Research Building IV.
- Arts Complex II-Performance was split into two phases, with the first phase now named Arts Complex Phase I-Performance.
- All projects referencing Lake Nona have been changed to Health Sciences Campus.
- UCF is committed to funding fifty percent of Research Building I, resulting in a change in our request for PECO Projects and Request From Other State Sources to half the amount reflected in 2017-18.

The UCF Five-Year Fixed Capital Improvement Plan was reviewed and approved by the University Board of Trustees on July 20, 2017.

ITEM: FFC-1

University of Central Florida
Board of Trustees
Finance and Facilities Committee

SUBJECT: Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update

DATE: December 7, 2016

PROPOSED COMMITTEE ACTION

Approve a minor amendment to the University of Central Florida 2015-25 Campus Master Plan Update to modify the Urban Design and Capital Improvements map (Attachment D) and the Capital Improvements List (Attachment C).

BACKGROUND INFORMATION

The purpose of the proposed amendment is to revise the Capital Improvements List and related map in order to add six new projects in downtown Orlando, four new projects on the main campus, and one renovation at the Florida Solar Energy Center.

The projects not located on the UCF Main Campus are included in the University of Central Florida Campus Master Plan for information purposes only and are not subject to F.S. 1013.30. The downtown projects consist of the Downtown Academic Building, UCF Downtown Campus Building II, Downtown Phase III, Downtown Phase IV, Downtown Tri-generation Facility, and Downtown Garage II. These projects constitute the UCF Downtown Campus. The Florida Solar Energy Center renovation project is a 20-acre research complex on Florida's Space Coast and adjacent to UCF's Cocoa Campus.

The projects on the main campus are Research Buildings I and II, the Center for Research and Education in Optics and Lasers (CREOL) expansion, and the softball stadium expansion and renovation. As more particularly outlined in the attached memorandum, the amendment would constitute a minor amendment that needs only Board of Trustees approval for adoption.

Supporting documentation: Attachment A: Memorandum from Gina Seabrook
Attachment B: Project Location
Attachment C: Capital Improvements List
Attachment D: Urban Design Map

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer

MEMORANDUM

TO: Scott Cole, Vice President and General Counsel

FROM: Gina Seabrook, Construction Specialist, Resource Management

SUBJECT: Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update

DATE: October 31, 2016

The University of Central Florida proposes a minor amendment to the University of Central Florida 2015-25 Campus Master Plan Update to modify the Capital Improvements List (2.14 Capital Improvements Element) and the Urban Design and Capital Improvements map (Figure 3-1) in order to add six new projects in downtown Orlando, four new projects on the main campus, and one renovation at the Florida Solar Energy Center.

The downtown projects consist of a Downtown Academic Building, UCF Downtown Campus Building II, Downtown Phase III, Downtown Phase IV, Downtown Tri-generation Facility, and Downtown Garage II. These projects constitute the UCF Downtown Campus. This campus, a partnership with Valencia College, will be located at Creative Village, the largest mixed-use project in downtown Orlando. It is expected to bring over 7,000 students from UCF and Valencia to downtown Orlando at its opening and will offer students an innovative learning environment within walking distance of downtown internship and job opportunities. These opportunities for the Downtown UCF Campus arose after approval of the University of Central Florida 2015-25 Campus Master Plan Update. The Florida Solar Energy Center renovation project is a 20-acre research complex on Florida's Space Coast and adjacent to UCF's Cocoa Campus. The facility currently houses classrooms, instructional and research labs, offices, conference rooms, and support space for critical engineering programs. Research accomplished by the departments serves dozens of high-level technology industrial firms located throughout Florida and across the nation. FSEC has seen continuous use since it was built 21 years ago and is in dire need of a complete chilled-water HVAC system replacement and modernization, and it requires roof and building envelope repairs. The HVAC equipment is both obsolete and deteriorated beyond repair.

The projects on the main campus are Research Buildings I and II, a Center for Research & Education in Optics and Lasers (CREOL) expansion, and a softball stadium expansion and renovation.

The projects not located on the UCF Main Campus are included in the University of Central Florida Campus Master Plan for information purposes only and are not subject to F.S. 1013.30.

Regarding the projects on the UCF Main Campus:

- The two research buildings are included on line 39 of the Capital Improvement Project List as part of the "Partnership Campus," which is the area located south of the softball stadium. UCF aspires to be recognized as a preeminent state research university and has set strategic goals to become a Top 50 research university by 2035. UCF is committed to a robust portfolio of research, scholarship, and creative activities across all disciplines, contributing to the creation of new knowledge. Specific metrics have been designed to meet preeminence, including doubling research awards from $133 million to $250 million and achieving a level where at least 25 percent of graduate degrees awarded are research-focused.
- The CREOL Expansion is an addition to an existing facility. The College of Optics and Photonics and CREOL have grown in size and in stature. A new undergraduate program offering a Bachelor of Science degree in Photonic Science and Engineering began in Fall 2013 and has already attracted more than 100 new students. Five new faculty have been added since 2014. External research funding increased from an annual average of $11.3 million in 2010-11 to 2014-15 to $17 million in 2015-16. The College contributes about 13 percent of UCF's total research funding.
- The softball stadium expansion and renovation project is located in the area of the existing softball stadium and where the University of Central Florida 2015-25 Capital Improvements List shows on Line 75, a Softball Practice Field.

An amendment to a campus master plan must be reviewed and adopted under subsections (6)-(8) of F.S. 1013.30 if such amendment, alone or in conjunction with other amendments, would:

(a) Increase density or intensity of use of land on the campus by more than 10 percent;

University Response:

- The proposed Research Buildings I and II add up to 262,881 additional square feet within the Academic Land Use component of the campus. As the total square footage for buildings on campus is over eight million square feet, this addition constitutes a .032 percent change in overall campus square footage and, therefore, does not trip the 10 percent threshold for density or intensity of use of land on campus.
- The CREOL Expansion adds approximately 14,000 square feet within the Academic Land Use component of the campus. This addition constitutes a .00175 percent change in

overall campus square footage and, therefore, does not trip the 10 percent threshold for density or intensity of use of land on campus.

- The softball stadium expansion and renovation adds approximately 10,000 square feet to a facility within the existing Recreation and Open Space Land Use category. UCF has over 298 acres of Recreation and Open Space Land Use on campus. Hence, this addition constitutes a .029 percent increase in density or intensity within the Recreation and Open Space Land Use category and does not trip the 10 percent threshold for density or intensity of use.

(b) Decrease the amount of natural areas, open space, or buffers on the campus by more than 10 percent:

University Response:

- The proposed Research Buildings I and II are located within the Academic Land Use and not within the Recreation and Open Space Land Use, which includes natural areas and open spaces on campus; therefore, they do not trip the 10 percent threshold for decreased natural areas, open spaces, or buffers on campus.
- The proposed CREOL Expansion is located within the Academic Land Use component and not within the Recreation and Open Space land use; therefore, it does not trip the 10 percent threshold for decreased natural areas, opens spaces, or buffers on campus.
- The proposed softball stadium expansion and renovation is located within the Recreation and Open Space Land Use on campus and does not remove any square footage from the 298 acres of Recreation and Open Space Land Use on campus; therefore, it does not trip the 10 percent threshold for decreased natural areas, open spaces, or buffers on campus.

(c) Rearrange land uses in a manner that will increase the impact of any proposed campus development by more than 10 percent on a road or on another public facility or service provided or maintained by the state, the county, the host local government, or any affected local government.

University Response:

- The proposed Research Buildings I and II will constitute 262,881 square feet within the Partnership Campus site, which consists of 50 acres of currently unbuilt Academic Land Use. Each of the facilities will accommodate approximately 50 principle investigators. This number will have no impact on utilities and de minimis impact on transportation. Consequently, it will have less than 10 percent impact on a road or service provided or maintained by the state, county, host local government, or any affected local government.

- The proposed CREOL Expansion constitutes 14,000 square feet within the Academic Land Use component of the campus and will serve existing research faculty. Consequently, it will have less than 10 percent impact on a road or service provided or maintained by the state, county, host local government, or any affected local government.
- The softball stadium expansion and renovation adds 10,000 square feet of build space within the Recreation and Open Space Land Use. The expansion comprises 400 seats, a shade structure, and a new press box. With only 11 home games, it will have less than 10 percent impact on a road or service provided or maintained by the state, county, host local government, or any affected local government.

In summary, the proposed facilities do not exceed the amendment threshold criteria in 1013.30 (9), F.S. and may therefore be treated as a minor amendment.

Thank you for your time and attention to this matter. If you require additional information, please contact me at (407) 823-5894.

University of Central Florida

Board of Trustees
Finance and Facilities Committee Meeting
President's Boardroom, Millican Hall, 3rd floor
December 7, 2016

MINUTES

CALL TO ORDER

Trustee Alex Martins, chair of the Finance and Facilities Committee, called the meeting to order at 8:30 a.m. Committee members Keith Koons and David Walsh were present. Committee members Christopher Clemente, Robert Garvy, John Sprouls, and Bill Yeargin attended by teleconference. Chairman Marcos Marchena attended by teleconference.

MINUTES APPROVAL

The minutes of the October 12, 2016, and November 17, 2016, Finance and Facilities Committee meetings were approved as submitted.

NEW BUSINESS

Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update

William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, and Lee Kernek, Associate Vice President for Administration and Finance, presented a request to approve a minor amendment to the University of Central Florida 2015-25 Campus Master Plan Update to modify the Urban Design and Capital Improvements map and the Capital Improvements List. The amendment revises the Capital Improvements List and related map in order to add six new projects in downtown Orlando, four new projects on the main campus, and one renovation at the Florida Solar Energy Center. The committee unanimously approved the amendment.

University Draft Audited Financial Report 2015-16 (INFO-1)

Tracy Clark, Associate Provost for Budget, Planning, and Administration and Associate Vice President for Finance, reviewed the University Draft Audited Financial Report 2015-16.

UCF Key Financial Ratios (INFO-2)

Clark discussed the key financial ratios for UCF as of June 30, 2016, and the key financial ratios for UCF as compared to the State University System as of June 30, 2015.

University Operating Budget Report Ended September 30, 2016 (INFO-3)

Clark presented the University Operating Budget Report for the quarter that ended September 30, 2016.

UCF Investments Quarterly Report Ended September 30, 2016 (INFO-4)
Clark presented the UCF Investments Quarterly Report for the quarter that ended September 30, 2016.

Direct Support Organizations' 2016-17 First-Quarter Financial Reports (INFO-5)
Merck and Pittman reported that the 2016-17 first-quarter financial reports ended September 30, 2016, for the UCF DSOs were provided as information items.

OTHER BUSINESS
Update on space for student organizations in the College of Engineering and Computer Science
Chair Martins provided an update on a public comment made by a student at a previous Board of Trustees meeting. The student expressed concern that space currently being used by student organizations in the College of Engineering is being given to faculty members for offices and research. Maribeth Ehasz, Vice President for Student Development and Enrollment Services, and members of her team have met with the student and are working on the issue. Provost Whittaker added while he appreciates the need for student organization space, our priority for the next two years must be to maintain sufficient classroom space and accommodate the space needs of the current growth in faculty.

Chair Martins adjourned the Finance and Facilities Committee meeting at 9:52 a.m.

Respectfully submitted: William F. Merck II — 1-11-17

William F. Merck II
Vice President for Administration and Finance
and Chief Financial Officer

Date

Minutes
Board of Trustees Meeting
University of Central Florida
January 13, 2017

Chairman Marcos Marchena called the meeting of the Board of Trustees to order at 1:00 p.m. in the *FAIRWINDS* Alumni Center on the UCF Orlando campus.

Marchena asked everyone to stand to observe a moment of silence in recognition of the two law enforcement officers who lost their lives, Master Sgt. Debra Clayton and Deputy First Class Norm Lewis, who were alumni of UCF.

Marchena reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

WELCOME

Marchena welcomed the board members and called on Rick Schell, Associate Corporate Secretary, to call the roll. Schell determined that a quorum was present.

The following board members attended the meeting: Chairman Marcos Marchena, Vice Chair Robert Garvy, Ken Bradley, Clarence Brown, Christopher Clemente, Joseph Conte, Keith Koons, Beverly Seay, John Sprouls, David Walsh, and William Yeargin. Trustee Alex Martins attended via teleconference call.

PUBLIC COMMENT

Shelby Graves, a senior with Burnett Honors College, advised the board that Autism Awareness Day is April 2, 2017. She asked UCF to consider supporting World Autism Awareness. Marchena asked William F. Merck II, Vice President for Administration and Finance and CFO, to consult with Graves.

MINUTES

Marchena called for approval of the November 17, 2016, and December 1, 2016, meeting minutes, which were approved.

Marchena called on Hitt for remarks and introductions.

REMARKS

Hitt reported that UCF's oneness with its community was again brought home. Two members of the university family died in service to Orlando and Orange County, and Hitt stated that we mourn their loss while we take pride in their commitment to help others. Hitt extended

condolences to the families and friends of Master Sgt. Debra Clayton and Deputy First Class Norm Lewis.

Hitt announced that during the December 2016 commencement ceremonies, UCF awarded its 300,000th degree.

Hitt stated that the Florida Agency for Health Care Administration has approved the certificate of need, which is an essential step toward the founding of UCF's College of Medicine's proposed academic hospital at Lake Nona. Florida Hospital filed a petition seeking that the approval of the certificate be conditioned on the hospital being a joint venture between the University of Central Florida and the Hospital Corporation of America.

Hitt reported that marketing will begin soon for Legacy Pointe at UCF, the university's retirement community planned for the McCulloch and Old Lockwood Roads area. A target opening is set for 2020.

Hitt announced that UCF's men's and women's basketball teams are enjoying a winning season. After sixteen games, men's basketball has a 12-4 record with women's basketball at 10-6.

Hitt reported that UCF's women's and men's tennis teams will play their first matches at the new home of UCF tennis at Lake Nona.

Hitt reported that UCF and Orange County have devised a joint safety plan for UCF's main campus entrance along Alafaya Trail. The new measures include mid-block crossings, pedestrian lighting, and updated signals; additional right-of-way along the east side of Alafaya Trail for an expanded pedestrian-bike path; and the creation of pedestrian landing pads as safety zones at the main campus entrance.

Hitt referred the board to the Burnett Honors College data sheet included in their meeting materials. He asked that the trustees note the comparison between the Burnett Honors College and New College.

Hitt introduced a video produced by the Division of Communications and Marketing highlighting the best of 2016. He noted that it has been viewed by more than 557,000 people on Facebook.

INTRODUCTIONS

Hitt noted that the U.S. Department of Education, Office of English Language Acquisition, has awarded the College of Education and Human Performance ESOL Professor Joyce Nutta and UCF College of Arts and Humanities faculty members Florin Mihai and Kerry Purmensky with a five-year, $2.4 million grant for researching ways to improve the preparation of our college's elementary education teacher candidates.

REPORTS

Marchena called on Merck, and Tracy Clark, Associate Provost for Budget, Planning, and Administration and Associate Vice President for Finance, who reported on the following.

- INFO-1 Overview of the UCF Budget Process

ADVANCEMENT COMMITTEE REPORT

Clarence Brown, Chair of the Advancement Committee, reported the highlights from the committee meeting held earlier in the day.

- Dan Holsenbeck, Senior Vice President for University Relations, gave a legislative update, including a summary of Senate Bills 2 and 4, as they pertain to UCF. Holsenbeck referred the board to the Advancement Committee packet included in their meeting materials, and he noted that it included contact information for the House and Senate delegations, a list of UCF Alumni in the House and Senate, and lobbying policies for UCF staff and trustees.
- Grant Heston, Vice President for Communications and Marketing, provided highlights from UCF's Giving Tuesday Campaign that raised more than $33,000 in 24 hours, with 250 donors. He stated that the campaign was a university-wide collaboration between Communications and Marketing, the Advancement division, the colleges and units, and other campus departments. Heston showed a video announcing the launch of a 24-7 PBS Kids Channel. This is the first channel lineup change since WUCF started in July 2011.
- Michael Morsberger, Vice President for Alumni Relations and Development, and CEO, UCF Foundation, presented the IGNITE Campaign Case Statement, which provides a high-level summary of the campaign's priorities and call-to-action. Morsberger shared a video that will be shown at alumni events across the country.

AUDIT, OPERATIONS REVIEW, COMPLIANCE, AND ETHICS COMMITTEE REPORT

Beverly Seay, Chair of the Audit, Operations Review, Compliance, and Ethics Committee, reported the highlights of the committee meeting held on December 14, 2016.

- Rhonda L. Bishop, Chief Compliance and Ethics Officer, and Robert Taft, Chief Audit Executive, provided an overview of the revisions to the committee's charter. Bishop provided an overview of the revisions to the Internal Compliance, Ethics, and Risk Charter. She presented information on the annual conflict of interest and commitment initiatives report, and an update of the 2016-17 Work Plan status of all activities. Bishop provided an update for the University Compliance Ethics and Risk Program. In her update on the Athletics Compliance Program, she reported that UCF's probation will end on February 9, 2017.
- Taft presented the university's revised internal audit charter that required revisions based on the Board of Governors' new regulations. Taft then discussed the Board of Governors'

Performance-based Funding Data Integrity Certification Audit Report, along with the Performance-based Funding Data Integrity Certification Form.
- Maureen Binder, Associate Vice President and Chief Human Resources Officer, provided an update on the Fair Labor Standards Act.

COMPENSATION AND LABOR COMMITTEE REPORT

John Sprouls, Chair of the Compensation and Labor Committee, reported the highlights from the committee meeting held earlier in the day.

- Sprouls provided an overview of the repeal of University Regulation UCF-10.010 and the amendment of three other regulations to conform with the repeal of UCF-10.010. He noted with changes to the application procedures and the employment contract practices at the College of Medicine, the medical school will now conform to the university's existing discipline and termination guidelines.
- Sprouls reported the ratification of the Collective Bargaining Agreement with the American Federation of State, County, and Municipal Employees.
- Binder provided a summary of the university's response to the Fair Labor Standards Act regulations that were changed mid-year to be adopted in December 2016. She noted that a federal court injunction in November temporarily halted the FLSA regulation changes from proceeding.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Robert Garvy, Chair of the Educational Programs Committee, reported the highlights from the committee meeting held earlier in the day.

- A. Dale Whittaker, Provost and Executive Vice President, presented Faculty Spotlight (INFO-1), and he introduced Fei Liu, an assistant professor in the Department of Computer Science. Liu leads UCF's Natural Language Processing Group, whose mission is to develop natural language technologies that improve human language understanding and process.
- Whittaker gave an update on the university's activities to achieve preeminence and to further research (INFO-2). He reported that UCF is ranked in the top 100 by the National Science Foundation in its research and development expenditures.
- Whittaker gave a presentation on student debt (INFO-3). He noted that the majority of increase in student debt is seen in for-profit and 2-year institutions. Whittaker reported that nearly half of UCF students graduate with no debt. UCF students' average debt is less than $22,000 with a default rate that is well below the national average.

FINANCE AND FACILITIES COMMITTEE REPORT

Robert Garvy, Vice Chair of the Finance and Facilities Committee, reported the following highlights from the committee meeting held on December 7, 2016.

- Lee Kernek, Associate Vice President for Administration and Finance, reported on a minor amendment to the UCF 2015-25 Campus Master Plan Update to modify the Urban Design and Capital Improvements map and the Capital Improvements List in order to add six new projects in downtown Orlando, four new projects on the main campus, and one renovation of the Florida Solar Energy Center.
- Clark reviewed the University Draft Audited Financial Report for 2015-16, the key financial ratios for UCF as of June 30, 2016, and the key financial ratios for UCF as compared to the State University System as of June 30, 2015. Clark also presented the University Operating Budget Report for the quarter that ended September 30, 2016, along with the UCF Investments Quarterly Report for the same quarter.
- Merck and John C. Pittman, Associate Vice President for Administration and Finance, Debt Management, reported on the Direct Support Organizations' 2016-17 First-Quarter Financial Reports.
- Chair Alex Martins provided an update on a public comment made by a student at a previous Board of Trustees meeting concerning space being used by student organizations in the College of Engineering.

CONSENT AGENDA

A motion was made to accept the consent agenda, and members of the board unanimously approved the following actions.

- AUD-1 UCF Audit and Compliance Committee Charter—Approve UCF Audit and Compliance Committee Charter

- AUD-2 Revision of Internal Audit Charter—Approve Revisions to the Internal Audit Charter

- AUD-3 Board of Governors' Performance-based Funding Data Integrity Certification Audit Report—Accept the University Audit's report on the Board of Governors Performance-based Funding Data Integrity Certification Process

- AUD-4 Performance-based Funding Data Integrity Certification Form—Approve the Performance-based Funding Data Integrity Certification Form to the Board of Governors

- AUD-5 Internal Compliance, Ethics, and Risk Charter—Approve the charter for University Compliance, Ethics, and Risk Office and program

- CL-1 Repeal of University Regulation UCF-10.010 Discipline and Termination for Cause of Faculty and A&P Staff Members of the College of Medicine and Amendments to University Regulation UCF-3.0124 Discipline and Termination for Cause of Non-Unit Faculty and A&P Staff Members, University Regulation UCF-3.036 Grievance Procedure for Non-Unit Faculty Employees, and University Regulation UCF-3.037 Grievance Procedure for Non-Unit A&P Employees—Approve the repeal of Regulation UCF-10.010

and approve amendments to University of Central Florida Regulations, UCF-3.0124, UCF-3.036, and UCF-3.037

- CL-2 Collective Bargaining Agreement between the University of Central Florida Board of Trustees and the American Federation of State, County, and Municipal Employees—Ratify the Collective Bargaining Agreement for 2016-19 between the University of Central Florida Board of Trustees and the American Federation of State, County, and Municipal Employees

- FF-1 Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update—Approve a minor amendment to the University of Central Florida 2015-25 Campus Master Plan Update to modify the Urban Design and Capital Improvements map and the Capital Improvements List

ANNOUNCEMENTS AND ADJOURNMENT

Marchena announced the following upcoming meetings:

Board of Governors meetings	January 25-26, 2017 (Florida Polytechnic University)
Board of Trustees retreat	March 3, 2017 9:00 a.m.-12:00 p.m. (*FAIRWINDS* Alumni Center, with lunch following)
Board of Trustees meeting	March 16, 2017 (*FAIRWINDS* Alumni Center)
UCF Day at the Capitol	March 28, 2017 (Tallahassee)
AGB National Conference on Trusteeship	April 2-4, 2017 (Hilton Anatole, Dallas)

Marchena invited the trustees to join him for the board's annual photo.

Marchena adjourned the board meeting at 2:24 p.m.

Respectfully submitted: _____ Date: _____

John C. Hitt
Corporate Secretary

University of Central Florida

Office of the President

University of Central Florida
Board of Trustees Meeting
January 13, 2017
FAIRWINDS Alumni Center
Agenda
10:00 a.m. – 4:00 p.m.
Lunch 12:00 p.m.
800-442-5794, passcode, 463796

COMMITTEE MEETINGS

10:00 a.m. – 10:30 a.m.	Compensation and Labor, John Sprouls, Chair
10:30 a.m. – 11:15 a.m.	Advancement, Clarence Brown, Chair
11:15 a.m. – 12:00 p.m.	Educational Programs, Robert Garvy, Chair

BOARD MEETING

1:00 – 4:00 p.m.

1.	Welcome and call to order		Marcos Marchena, Chairman
2.	Roll call		Rick Schell, Associate Corporate Secretary
3.	Public comment		Rick Schell
4.	Minutes of November 17, 2016, and December 1, 2016, meetings		Chairman Marchena
5.	Remarks and introductions		John C. Hitt, President
6.	Reports		
	INFO-1	Information	Overview of the UCF Budget Process (William F. Merck II, Vice President for Administration and Finance and CFO; and Tracy Clark, Associate Provost for Budget, Planning, and Administration and Associate Vice President for Finance)
7.	Advancement Committee report		Chair Brown

8.	Audit, Operations Review, Compliance, and Ethics Committee report		Chair Beverly Seay
9.	Compensation and Labor Committee report		Chair Sprouls
10.	Educational Programs Committee report		Chair Garvy
11.	Finance and Facilities Committee report		Chair Martins
12.	Consent Agenda		Chairman Marchena
	AUD-1	Approval	UCF Audit and Compliance Committee Charter (Seay)
	AUD-2	Approval	Revision of Internal Audit Charter (Seay)
	AUD-3	Approval	Board of Governors' Performance-based Funding Data Integrity Certification Audit Report (Seay)
	AUD-4	Approval	Performance-based Funding Data Integrity Certification Form (Seay)
	AUD-5	Approval	Internal Compliance, Ethics, and Risk Charter (Seay)
	CL-1	Approval	Repeal of University Regulation UCF-10.010 Discipline and Termination for Cause of Faculty and A&P Staff Members of the College of Medicine and Amendments to University Regulation UCF-3.0124 Discipline and Termination for Cause of Non-Unit Faculty and A&P Staff Members, University Regulation UCF-3.036 Grievance Procedure for Non-Unit Faculty Employees, and University Regulation UCF-3.037 Grievance Procedure for Non-Unit A&P Employees (Sprouls)
	CL-2	Approval	Collective Bargaining Agreement between the University of Central Florida Board of Trustees and the American Federation of State, County, and Municipal Employees (Sprouls)

	FF-1	Approval	Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update (Merck)

13. New business — Chairman Marchena

14. Announcements and adjournment — Chairman Marchena

Upcoming meetings and events:

Board of Governors meetings	January 25-26, 2017 (Florida Polytechnic University)
Board of Trustees retreat	March 3, 2017 9:00 a.m. – 1:00 p.m. (*FAIRWINDS* Alumni Center)
Board of Trustees meeting	March 16, 2017 (*FAIRWINDS* Alumni Center)
UCF Day at the Capitol	March 28, 2017 (Tallahassee)
AGB National Conference on Trusteeship	April 2-4, 2017 (Hilton Anatole, Dallas)

ITEM: FF-1

University of Central Florida
Board of Trustees

SUBJECT: Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update

DATE: January 13, 2017

PROPOSED BOARD ACTION

Approve a minor amendment to the University of Central Florida 2015-25 Campus Master Plan Update to modify the Urban Design and Capital Improvements map (Attachment D) and the Capital Improvements List (Attachment C).

BACKGROUND INFORMATION

The purpose of the proposed amendment is to revise the Capital Improvements List and related map in order to add six new projects in downtown Orlando, four new projects on the main campus, and one renovation at the Florida Solar Energy Center.

The projects not located on the UCF Main Campus are included in the University of Central Florida Campus Master Plan for information purposes only and are not subject to F.S. 1013.30. The downtown projects consist of the Downtown Academic Building, UCF Downtown Campus Building II, Downtown Phase III, Downtown Phase IV, Downtown Tri-generation Facility, and Downtown Garage II. These projects constitute the UCF Downtown Campus. The Florida Solar Energy Center renovation project is a 20-acre research complex on Florida's Space Coast and adjacent to UCF's Cocoa Campus.

The projects on the main campus are Research Buildings I and II, the Center for Research and Education in Optics and Lasers (CREOL) expansion, and the softball stadium expansion and renovation. As more particularly outlined in the attached memorandum, the amendment would constitute a minor amendment that needs only Board of Trustees approval for adoption.

Supporting documentation: Attachment A: Memorandum from Gina Seabrook
Attachment B: Project Location
Attachment C: Capital Improvements List
Attachment D: Urban Design Map

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer

MEMORANDUM

TO: Scott Cole, Vice President and General Counsel

FROM: Gina Seabrook, Construction Specialist, Resource Management

SUBJECT: Minor Amendment to the University of Central Florida 2015-25 Campus Master Plan Update

DATE: October 31, 2016

The University of Central Florida proposes a minor amendment to the University of Central Florida 2015-25 Campus Master Plan Update to modify the Capital Improvements List (2.14 Capital Improvements Element) and the Urban Design and Capital Improvements map (Figure 3-1) in order to add six new projects in downtown Orlando, four new projects on the main campus, and one renovation at the Florida Solar Energy Center.

The downtown projects consist of a Downtown Academic Building, UCF Downtown Campus Building II, Downtown Phase III, Downtown Phase IV, Downtown Tri-generation Facility, and Downtown Garage II. These projects constitute the UCF Downtown Campus. This campus, a partnership with Valencia College, will be located at Creative Village, the largest mixed-use project in downtown Orlando. It is expected to bring over 7,000 students from UCF and Valencia to downtown Orlando at its opening and will offer students an innovative learning environment within walking distance of downtown internship and job opportunities. These opportunities for the Downtown UCF Campus arose after approval of the University of Central Florida 2015-25 Campus Master Plan Update. The Florida Solar Energy Center renovation project is a 20-acre research complex on Florida's Space Coast and adjacent to UCF's Cocoa Campus. The facility currently houses classrooms, instructional and research labs, offices, conference rooms, and support space for critical engineering programs. Research accomplished by the departments serves dozens of high-level technology industrial firms located throughout Florida and across the nation. FSEC has seen continuous use since it was built 21 years ago and is in dire need of a complete chilled-water HVAC system replacement and modernization, and it requires roof and building envelope repairs. The HVAC equipment is both obsolete and deteriorated beyond repair.

The projects on the main campus are Research Buildings I and II, a Center for Research & Education in Optics and Lasers (CREOL) expansion, and a softball stadium expansion and renovation.

The projects not located on the UCF Main Campus are included in the University of Central Florida Campus Master Plan for information purposes only and are not subject to F.S. 1013.30.

Regarding the projects on the UCF Main Campus:

- The two research buildings are included on line 39 of the Capital Improvement Project List as part of the "Partnership Campus," which is the area located south of the softball stadium. UCF aspires to be recognized as a preeminent state research university and has set strategic goals to become a Top 50 research university by 2035. UCF is committed to a robust portfolio of research, scholarship, and creative activities across all disciplines, contributing to the creation of new knowledge. Specific metrics have been designed to meet preeminence, including doubling research awards from $133 million to $250 million and achieving a level where at least 25 percent of graduate degrees awarded are research-focused.
- The CREOL Expansion is an addition to an existing facility. The College of Optics and Photonics and CREOL have grown in size and in stature. A new undergraduate program offering a Bachelor of Science degree in Photonic Science and Engineering began in Fall 2013 and has already attracted more than 100 new students. Five new faculty have been added since 2014. External research funding increased from an annual average of $11.3 million in 2010-11 to 2014-15 to $17 million in 2015-16. The College contributes about 13 percent of UCF's total research funding.
- The softball stadium expansion and renovation project is located in the area of the existing softball stadium and where the University of Central Florida 2015-25 Capital Improvements List shows on Line 75, a Softball Practice Field.

An amendment to a campus master plan must be reviewed and adopted under subsections (6)-(8) of F.S. 1013.30 if such amendment, alone or in conjunction with other amendments, would:

(a) Increase density or intensity of use of land on the campus by more than 10 percent;

University Response:

- The proposed Research Buildings I and II add up to 262,881 additional square feet within the Academic Land Use component of the campus. As the total square footage for buildings on campus is over eight million square feet, this addition constitutes a .032 percent change in overall campus square footage and, therefore, does not trip the 10 percent threshold for density or intensity of use of land on campus.
- The CREOL Expansion adds approximately 14,000 square feet within the Academic Land Use component of the campus. This addition constitutes a .00175 percent change in

overall campus square footage and, therefore, does not trip the 10 percent threshold for density or intensity of use of land on campus.

- The softball stadium expansion and renovation adds approximately 10,000 square feet to a facility within the existing Recreation and Open Space Land Use category. UCF has over 298 acres of Recreation and Open Space Land Use on campus. Hence, this addition constitutes a .029 percent increase in density or intensity within the Recreation and Open Space Land Use category and does not trip the 10 percent threshold for density or intensity of use.

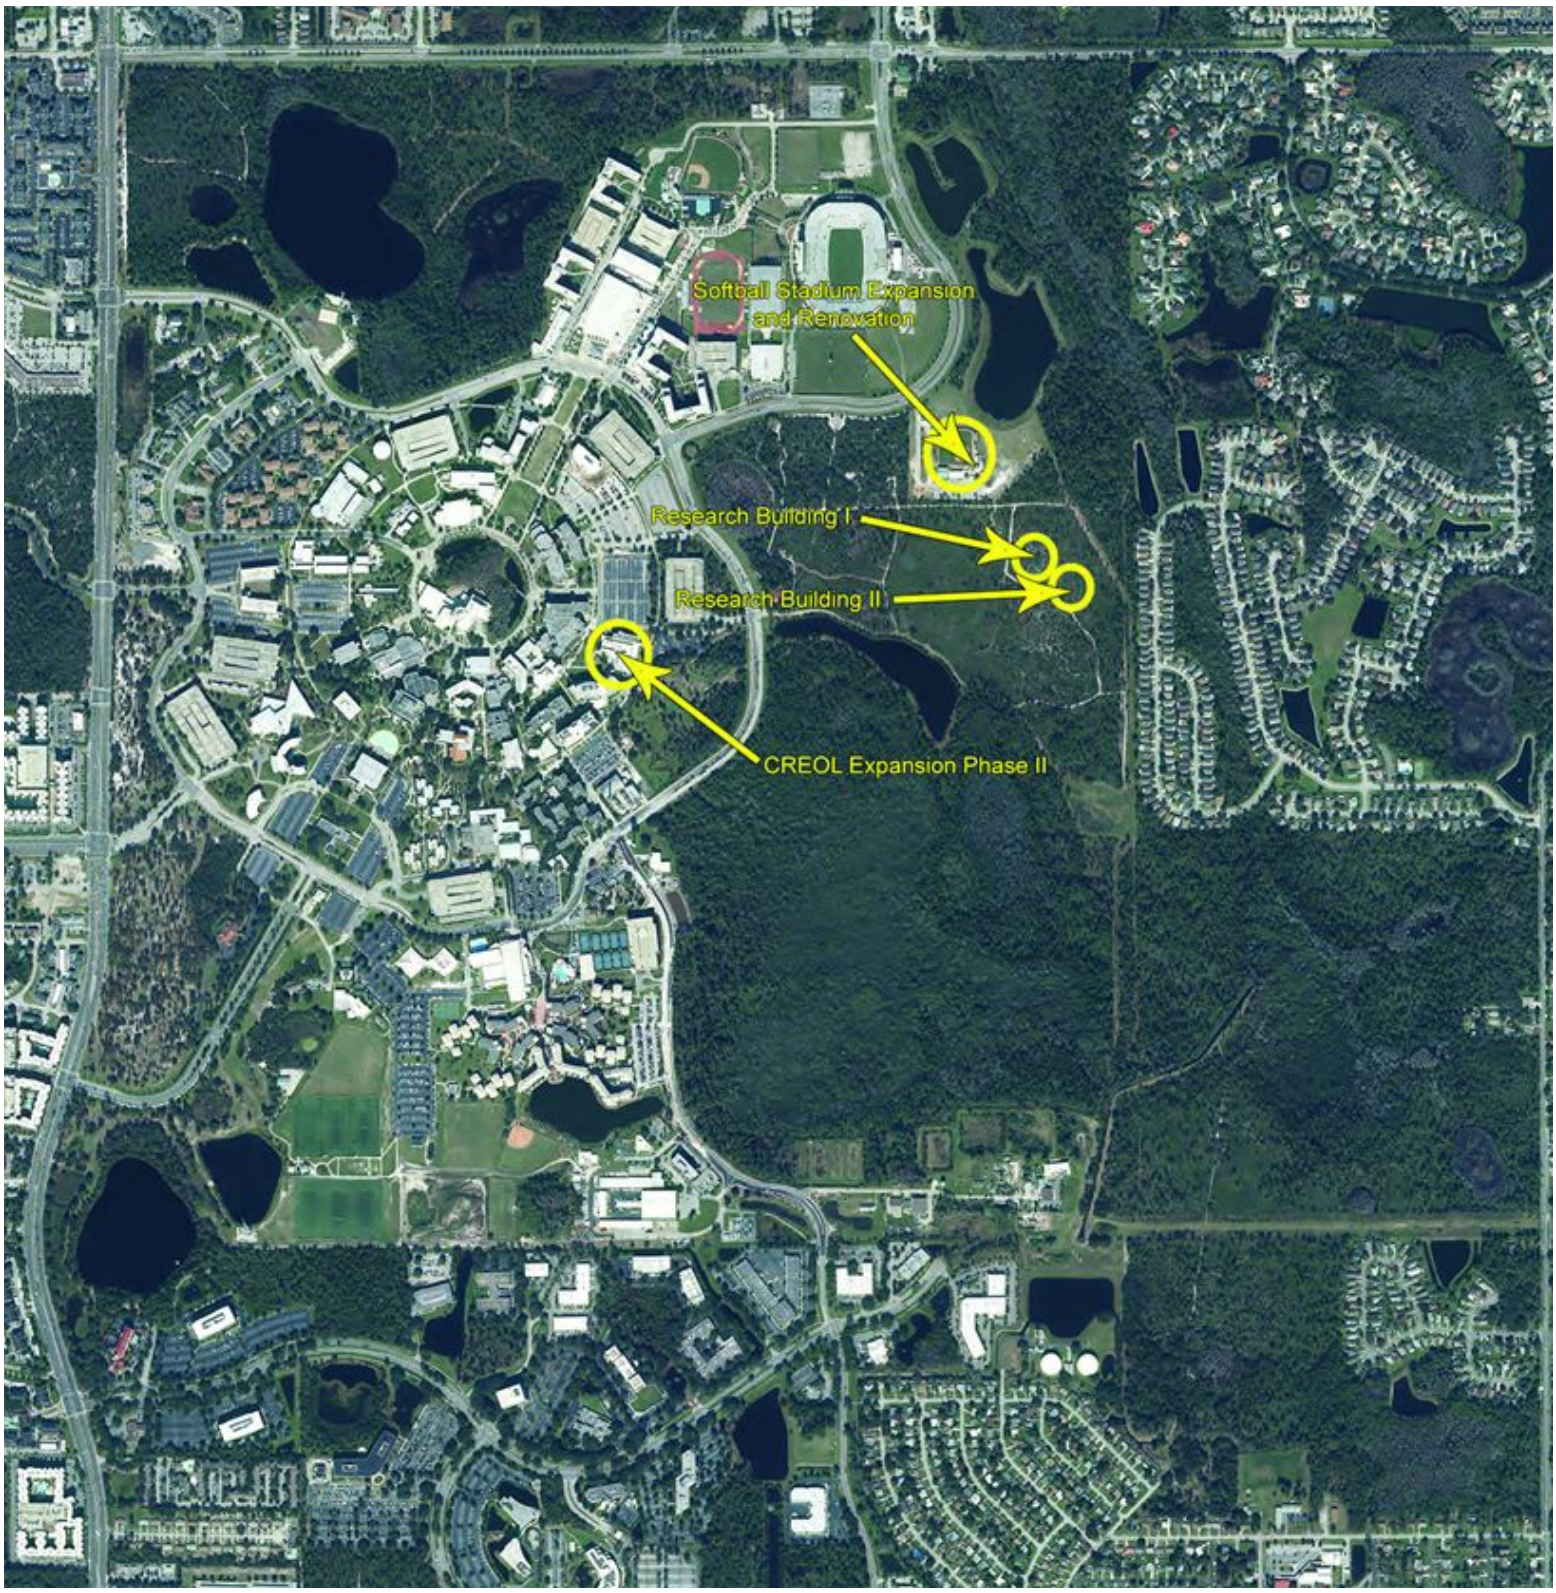
(b) Decrease the amount of natural areas, open space, or buffers on the campus by more than 10 percent:

University Response:

- The proposed Research Buildings I and II are located within the Academic Land Use and not within the Recreation and Open Space Land Use, which includes natural areas and open spaces on campus; therefore, they do not trip the 10 percent threshold for decreased natural areas, open spaces, or buffers on campus.
- The proposed CREOL Expansion is located within the Academic Land Use component and not within the Recreation and Open Space land use; therefore, it does not trip the 10 percent threshold for decreased natural areas, opens spaces, or buffers on campus.
- The proposed softball stadium expansion and renovation is located within the Recreation and Open Space Land Use on campus and does not remove any square footage from the 298 acres of Recreation and Open Space Land Use on campus; therefore, it does not trip the 10 percent threshold for decreased natural areas, open spaces, or buffers on campus.

(c) Rearrange land uses in a manner that will increase the impact of any proposed campus development by more than 10 percent on a road or on another public facility or service provided or maintained by the state, the county, the host local government, or any affected local government.

University Response:



- The proposed Research Buildings I and II will constitute 262,881 square feet within the Partnership Campus site, which consists of 50 acres of currently unbuilt Academic Land Use. Each of the facilities will accommodate approximately 50 principle investigators. This number will have no impact on utilities and de minimis impact on transportation. Consequently, it will have less than 10 percent impact on a road or service provided or maintained by the state, county, host local government, or any affected local government.

- The proposed CREOL Expansion constitutes 14,000 square feet within the Academic Land Use component of the campus and will serve existing research faculty. Consequently, it will have less than 10 percent impact on a road or service provided or maintained by the state, county, host local government, or any affected local government.
- The softball stadium expansion and renovation adds 10,000 square feet of build space within the Recreation and Open Space Land Use. The expansion comprises 400 seats, a shade structure, and a new press box. With only 11 home games, it will have less than 10 percent impact on a road or service provided or maintained by the state, county, host local government, or any affected local government.

In summary, the proposed facilities do not exceed the amendment threshold criteria in 1013.30 (9), F.S. and may therefore be treated as a minor amendment.

Thank you for your time and attention to this matter. If you require additional information, please contact me at (407) 823-5894.

Comprehensive Master Plan Update

University of Central Florida

Orlando, Florida

2015-2025

ITEM: FF-4

University of Central Florida
Board of Trustees

SUBJECT: 2017-18 Capital Outlay Budget

DATE: May 18, 2017

PROPOSED BOARD ACTION

Approve the university's 2017-18 capital outlay budget and authorize the president to make adjustments as necessary to the 2017-18 capital outlay budget.

BACKGROUND INFORMATION

Pursuant to Florida Statute 1013.61, each university's Board of Trustees must adopt an annual capital outlay budget that designates proposed expenditures by project. The attached University of Central Florida 2017-18 capital outlay budget lists the projects anticipated to be approved during the legislative session and by the governor, or for which university funds will be spent. Approval is sought for the attached budget along with authorization for the president to make changes to this budget as necessary during the year.

Supporting documentation: Attachment A: 2017-18 Capital Outlay Budget

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer

CERTIFICATE OF OATH 27
REPORTER'S DEPOSITION CERTIFICATE 28

STIPULATIONS

The following deposition of ALAN DALE WHITTAKER was taken on oral examination, pursuant to notice, for purposes of discovery, and for use as evidence, and for other uses and purposes as may be permitted by the applicable and governing rules. Reading and signing is waived.

*** * ***

Thereupon,

ALAN DALE WHITTAKER

was called as a witness, having been first duly sworn, was examined and testified as follows:

THE WITNESS: I do.

DIRECT EXAMINATION

BY MS. MITZ

Q Can you please state your full name for the record.

A Alan Dale Whittaker.

Q And have you discussed this deposition with anybody besides your attorneys?
A No.
Q Okay. Have you reviewed anything in preparation for this deposition?
A My own materials.
Q Okay. Would that include the notes from your interview with Brian Cave?
A Yes.
Q And did you review the witness interview statements of other people who had been interviewed?
A Were those the interview notes?
Q Yes.
A Yes, I did.
Q Did you review all of them?
A No.
Q Do you recall whose you reviewed?
A Bill Merck, Tracy Clark, Christy Tant, Dale Whittaker.
Q Okay. Mr. Merck wasn't an interview.
You are referring to the letter that he wrote?
A I'm sorry. Yes.
Q That's fine.
A No, I'm not referring to a letter that he wrote.

Q Okay.
A I misremembered.
Q That's fine. Have you been interviewed or asked questions by anybody within UCF, like for instance the General Counsel's Office, or anybody?
A No.
Q Okay. Okay. So let's start with your employment.
Where were you employed just before joining UCF?
A Purdue University.
Q Your position there?
A Vice provost for Undergraduate Academic Affairs.
Q Can you tell me a little bit about what you did there.
A Sure. Basically there were two vice provosts that reported to the provost. One was Faculty Affairs and the other was Academic Affairs. The word undergraduate was added for emphasis. It involved admissions, financial aid, student support, honors college, student success.
For a short time I was interim vice president for Student Affairs.
Q What did you do in that capacity?

A The same thing. Oversaw all of the student affairs units that basically supported students outside of the classroom.

Q Okay. How long were you employed there?

A Twelve years. Maybe just over 12 years.

Q Did you leave and then come to UCF or was there a significant break in between the two positions?

A No. Directly from Purdue to UCF.

Q What was your first date with UCF?

A August 1st.

Q Of which year?

A 2014.

Q Okay. And what was the position that you took with the University?

A Provost and vice president for Academic Affairs.

Q And what did that involve? What were your duties and responsibilities?

A Actually, I have a copy, just in case it is useful to you.

MR. COATES: We brought a copy of his resume.

THE WITNESS: This is a very short summary. I also have a more full copy. It gives you a sense of responsibilities.

Let me tell you what they really were. They

were overseeing, being responsible and accountable for 13 colleges, all of the academic colleges; medical affairs, research and commercialization, enrollment management, all curriculum matters, financial aid, the graduate school, and all graduate matters in student involvement.

BY MS. MITZ

Q Okay. And who were your direct reports?

A Actually, I think I have a copy of a provost --

Here we go. So you can replace the current provost with me, if you would like.

But this gives you a sense. So you see in that first column all of the deans, Dean of Honors, Dean of College of Education, Health Profession, so on. The left-hand side you see the vice provost and vice presidents.

So, for example, the vice president for Student Development Enrollment Services reported to me; Digital Learning, IT, Faculty Excellence, International and Graduate.

And then on the right side you see more staff. Ronnie Korosec was my chief of staff. Sheryl Andrews who was our negotiator with the faculty union. Paige Borden who really did institutional research. You see

Tracy Clark there who supported me on budget and finance. And Joe Adams, previously that was Christine Dellert. This is a new person here.

Q Did you work or did Lynn Gonzalez work for you or report to you at some point?

A When I started she was the --

This is the Academic Affairs Division. Okay. Lynn Gonzalez was the business manager for the Academic Affairs Division.

Q Okay. All right. And do you recall about how long you worked with her?

A I did a major reorganization in the summer of the first year I was there, and she would have been moved along during that reorganization or maybe even slightly before then.

Q Okay. So within your first year on the job it sounds like?

A Yes.

Q And what was your working relationship with Bill Merck in the first few months while you were there?

A Bill was parallel. So there were divisions that reported to the president. Let me be clear about that.

So in addition to Academic Affairs, vice president for Academic Affairs, Communications and

Marketing, Office of General Counsel, UCF Advancement, Public Relations, which was government and community relations, Athletics, and Administrative and Finance reported directly to the president. The administration and Finance Division was Bill Merck. Bill Merck was a vice president that was parallel to me in the organization chart.

Q Okay. Did you guys work together often I guess in the first few months?

A We saw each over in the cabinet meetings with the president. And we saw each other at the coffee pot. I wouldn't say we worked together very heavily in the first few months, although when I had questions that I thought he could answer I would ask.

Q And did you meet regularly with Dr. Hitt?

A Yes.

Q And did that start at the beginning of your employment?

A Yeah. We had basically weekly standing meetings.

Q All right. I think my next question may be answered by the chart that you provided. I will want to mark this as an exhibit as well as his resume.

BY MR. RUBOTTOM

Q With that respect, other than Tracy who has

been -- who I believe is on her way out, if not out, is it your testimony this is a current, accurate org chart to the best of your knowledge of the Provost's Office at this time?

A Let me take a look. This is printed out 8/16, and I started July 1st.

Q As of the date of that, that was an accurate chart?

A Yeah, it would be.

The changes, Joe Adams came out of the President's Office, and I took my communication person from provost --

Ronnie has now moved along, but that's since this time. These are all correct.

MR. RUBOTTOM: We will mark that as Exhibit 1.

(Exhibit No. 1 marked for identification.)

BY MS. MITZ

Q So what exactly did Tracy Clark do in her role in relation to your position?

A She supported our budget and financial needs for the Academic Affairs Division. She took Lynn Gonzalez's place.

Q Okay. All right. Did her role develop or expand as she continued to work with you?

A Tracy at that time reported to Bill Merck and to me.

Q Okay.

A And the reason that I did that was frankly I had --

First of all, I came into the Provost Office with a professorial background, I would say not a lot of finance and budgeting background. But I am an engineer and smart enough to know numbers and questions to ask.

Lynn Gonzalez never was able to clearly provide me with an answer that I could understand -- tremendous opacity and ambiguity.

Tracy was able to, when I was in meetings that she was in, was able to basically explain things in a way that I could understand them. I found her very smart and direct.

So my intent --

Well, let me just leave it at that.

Q Who did you consider the budget expert at the University?

A Oh, Bill, or someone that he would have delegated.

So the chief budget officer was Bill Merck. I don't know if that was his title. But his title was CFO and VP for Administration and Finance.

Q How would you contrast the role of provost with the role of a CFO?

A CFO was the chief financial officer. The provost was the chief academic officer. So I had responsibility and accountability for the entire academic budget, which really makes up the majority of the University's operating budget.

The chief financial officer had responsibility and accountability for the integrity of our finances, for the integrity of the University's financial position and the integrity of the sources of funds.

Q What was your role in budgeting?

A My role in budgeting was focused on academic prioritization of the uses of our available funds. So let me be clear. Academic Affairs has a budget, the division does. The division allocates budget then to all of the colleges and units that I mentioned.

Q Okay. And did anybody in particular assist you in your role?

A Tracy or Lynn, depending on who our budget manager was.

Q And did you ever have budgeting questions at any given time?

A Sure.

Q Who would you have taken those to?

A Lynn early on. Tracy after that.
Q Okay.
A We also had some other support. Megan Diehl worked for either Lynn or Tracy, depending on the time through those four years. But transactional.
MS. MITZ: I don't think I have any more questions.
MR. RUBOTTOM: Okay. Thank you.
BY MR. RUBOTTOM
Q Dr. Whittaker, as you know a lot of the Brian Cave investigation and other discussions have focused on responsibilities of varying people. We are curious to know who you think that staff would direct questions about the legal use of various sources of funds.
A Well, first of all, the capital planning -- the capital budgeting facilities all fell within Bill Merck's organization.
Q I understand.
A So staff would direct questions to Bill Merck about the appropriate use of funds.
Q Who would you expect or think that the CFO would take his own questions on those matters?
A Bill was known to the cabinet as the person that had the most credible links to Tim Jones and Chris Kinsley and Ben Watkins. So Division of Bond Finance

and Board of Governors.

Q Think about the university audit staff. If they had questions that came up in their work or that were brought to them that they didn't know the answer to, particularly with respect to legitimate uses of different sources of funds, who do you think the audit staff would go to with those questions?

A If it was legitimate uses of funds, it would be Bill Merck.

Q Okay.

A In fact, as I said, the audit staff reported directly to the president.

Q Right.

A And when an audit would come in, they would farm out the findings. I remember because I think it was 2016 I got one, and it was around textbook affordability.

Q Right.

A But then it would have been Bill Merck.

Q You are talking about the state audit?

A Yes.

Q And I think we understand that process.

But just internally in the University, it is our understanding that employees might contact Audit or the Compliance Department with their own questions. I

am curious where you thought internally, if there wasn't a state audit question raised, where Mr. Taft's crew or whoever preceded him where they would go to get their questions answered?

A Bill Merck.

Q Okay. To whom do you think the general counsel would take similar questions?

A Would you just further define similar questions?

Q Questions about legitimate uses of sources of funds.

A I think they would seek statute. They would verify those independently. That's always been my experience with general counsel.

Q Who do you hold most responsible for understanding -- in general understanding the law and regulations governing the university?

A The university?

Q Yes.

A Scott Cole.

Q Then with respect to the legitimate uses of various sources of funds, what would your answer be?

A Bill Merck.

Q Okay. Now, think about the trustees for a minute. To whom do you think the trustees would look to

advise them generally on the laws and regulations governing the university?

A Scott Cole.

Q And then legitimate uses of funds?

A Bill Merck.

Q Thank you.

So tell us if you would about the formation of the University Budget Committee. I think sometime after you came you said maybe it was defunct or had been in limbo. It is our understanding you resurrected it. Tell us about that process.

A Sure. As I mentioned, when I came I came without budget and finance expertise or background. I was fairly frustrated by the opacity of the support within my own office. And I had the impression from deans and others that the budgeting -- the budget prioritization process was opaque and not often informed by academic issues or priorities.

I went to the president, and we were discussing that in a one-on-one, and he said, well, in 2008 before that we had a University Budget Committee that the provost chaired to ensure that our uses were prioritized, do you want to do that again? I said, yes.

So it was probably within two months of my arrival we reconvened the University Budget Committee to

oversee the prioritization of uses of our funds.

Q So in follow up to that, would that -- and this is what I kind of surmised, so I want you to tell me if I'm right or wrong -- was that in an attempt to broaden the collaboration on some of those budget prioritization issues throughout the University?

A Absolutely. It was made up of vice presidents and a faculty member and a student.

Q So when you say opacity, you are speaking of there wasn't very many people that knew what was going on inside of the machine and this broadened that?

A Yes.

Q Okay. So what was Mr. Merck's role on that committee?

A The president asked me to chair it. I asked the president if -- or I proposed to the president that Bill Merck co-chair it with me. So we were listed as co-executive champions, is I think what we called it, of the committee, mainly so that he and his staff staffed it in terms of the integrity of the sources and availability, and then our -- the rest of the committee had the ability to set priorities when those opportunities arrived.

Q Those priorities with available funds?

A Yes.

Q And so his role would have been availability and your role would then be lead the discussion as to that prioritization?

A Exactly. In fact, we did that through hearings.

Well, I don't know if it was the first time in their history -- a first time in a long time where people would make their proposals, we would evaluate them and we did that formal prioritization process of uses.

Q Is there anything more you would like to add about just the distinction in the two roles of the two co-chairs?

A The one thing that I would like to clarify is no capital projects came before that committee. These were recurring and non-recurring sources, usually incremental sources, but was a different planning process, and that was within his division.

Q Have you publicly -- have you said publicly since the audit findings were published back in August or since everybody became aware of them, have you said publically that you were never told that E&G funds could not be used for fixed capital outlay projects?

A I was never told that E&G funds could be used for new construction.

Did you say fixed capital outlay?

Q Were you ever told that they could not be used for new construction?

A I was never told.

Q Never told that they could not be?

A I was never told that they could not be.

Q Thank you for clarifying that.

Okay. We are very familiar with your public statements about the audit findings and the Brian Cave investigation that have been made. We reviewed your response to the audit, your statements in the various board meetings since starting September 6th.

Is there anything that you would like to add or take back from the public statements that either you made in open meetings or that were published on the university web page?

A What I tried to -- what I said that I recall, and I would not change this, is that I was never made aware that use of funds for Trevor Colbourn Hall violated state statute or Board of Governor regulations. And that is true.

Q Thank you. I got these in wrong order.

Did you read the Brian Cave report and review the exhibits?

A I read the report. I didn't review all the

exhibits.

Q Okay. There is probably enough of us doing that.

Do you disagree with any of the findings or conclusions in that report?

A No.

Q Do you have any concerns about any of them or lingering questions about any of those findings?

A My biggest concern was the lack of context of the differences of authority and responsibility between Bill Merck's division and my division. And I thought that the findings left ambiguity, and you have resolved quite a bit of that ambiguity through your questions.

Q Beginning with let's say Chancellor Krizer's now-famous conference call with UCF personnel in August, who has advised you about handling the questions about the Trevor Colbourn Hall matters and the other E&G funding questions that have arisen?

A I have been staffed by my direct staff.

I don't know that I'm understanding your question. Maybe you can restate it.

Q Well, I appreciate that your direct staff has advised you on those matters.

If I can be a little more direct. Has Scott Cole advised you on how to respond to those concerns?

A He has not advised me on how to respond.
Q Have any of the trustees advised you on how to respond?
A No.
Q Okay. Okay. And this is my last question:
A Okay.
Q That's why we are here.
Is there anything that you think that the Public Integrity and Ethics Committee of the House needs to know about the facts of this matter that you think might not be known by the Committee or the Committee staff?
A Yeah. What I was hoping you would ask were the clarification questions of roles, accountability and responsibility, and you have. I appreciate that.
What I don't think is known and I would like you to know is what I've done as president since learning about this to take corrective action in addition to having participated fully in the investigation, which included having my cellphone imaged, my computer imaged, all of my emails, providing a full interview to Brian Cave's representative.
So if you don't mind, I brought a copy, but I would like to read this or submit it into the record.
Q Have you read this document or any portion of

it in any public meetings that has previously occurred? I don't want to duplicate any of that.

A No.

Q I think to save your time and everybody's time, we can mark this as an exhibit.

And you would say that it is your testimony that these are the actions that you have taken to initiate corrections?

THE WITNESS: Is it clear that this becomes -- goes into the record --

MR. COATES: Enter it into the record as an exhibit.

THE WITNESS: It would be found in the record, say if someone requested it in the same way that me reading it will be?

BY MR. RUBOTTOM

Q This will be Exhibit 2.

Your testimony is this accurately reflects your actions beginning in September to correct the problems that were identified?

A Then yes.

(Exhibit No. 2 marked for identification.)

MR. COATES: Fair enough. That will save a good bit of the afternoon.

BY MR. RUBOTTOM

Q Because this has come up with other counsel, I want to take it in advance.

We agree that this is an investigative deposition and has not offered full cross-examination which may limit its use in judicial proceedings.

Counsel in light of that agreement on the record, do you have any questions for the witness?

MR. COATES: No.

MR. RUBOTTOM: At this time we would like to continue this deposition to a later time and place to be agreed between yourself and the committee.

Do you understand that today's subpoena has continuing force to ensure such later continuation if necessary?

THE WITNESS: Yes, I do.

MR. COATES: We will stipulate to that.

MR. RUBOTTOM: Do you agree to that?

MR. COATES: Reach out to me and make me the point of contact if you need to reach him.

MR. RUBOTTOM: Madam reporter, I think we are through.

THE COURT REPORTER: Do you want this transcribed?

MR. RUBOTTOM: Yes, we do.

THE COURT REPORTER: Read or waive?
MR. RUBOTTOM: There is one more thing.
Do you want to enter this CV into --
MR. COATES: Your resume?
MR. RUBOTTOM: Do you want to enter this into the record? Do you want to testify it is accurate --
THE WITNESS: It was really made to answer your questions about what I oversaw and so-and-so on.
MR. RUBOTTOM: I think what you said on the record was sufficient.
MR. COATES: It was more to show the academic background as opposed to, you know, a financial/whatever background.
THE COURT REPORTER: Do you want a copy?
MR. COATES: Do you want to read it or waive it?
THE WITNESS: Read it.
MR. COATES: Okay.
THE WITNESS: What's your advice counsel?
MS. MITZ: Read or waive involves you reading her transcript to make sure she didn't type anything down wrong. If you recall you said something as being green and she typed it down red,

I remember saying red -- it is not an opportunity to change your testimony --

THE WITNESS: But an opportunity to enter an errata?

I would like to reserve the right to read it.

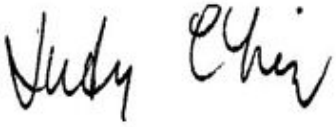
THE COURT REPORTER: You do want a copy?

MR. COATES: Sure.

(Discussion off the record.)

THE WITNESS: If the alternative is on the record, if you will allow a revision, let's do that. That way it can move quicker.

MR. COATES: We will waive reading.



(Thereupon, the deposition was adjourned at 1:32 p.m.)

CERTIFICATE OF OATH

STATE OF FLORIDA)
COUNTY OF LEON)

I, the undersigned authority, certify that the above-named witness personally appeared before me and was duly sworn.

WITNESS my hand and official seal this 20th day of February, 2019.

Subject: RE: Use of Carry-Forward Funds

David,

I apologize. I did not realize you were waiting on an answer to this question. Lynn and I spoke to Steve a few weeks ago when he was on campus and gave him our opinion at that time, so I thought that was the end of it.

If I understand correctly you are looking to transfer $ 3 million of E&G funds to the UCF Foundation to establish endowments whereby the earnings from the funds will be made available to key faculty members for their use in various COM endeavors.

Two "rules", if you will, make this not possible. The first is that BOG regulation 9.007(3)(a) limits the use of E&G funds for E&G operating activities only – namely instruction, research, public service, plant operations and maintenance, student services etc. I would not describe the establishment of an endowment as an operating activity, and thus not a proper use of E&G funds. Second the Auditor General has taken the position that there is no legal authority that allows the universities to transfer cash to a DSO, whether it's transferred as a loan or as a straight transfer of cash. This position was reiterated in a presentation by Jim Stultz, AG Audit Manager, to the SUS controllers in June 2014. This scenario seems like too big of a stretch from these rules for me to be comfortable with this plan.

Both the BOG regulation and selected page from the AG's presentation are attached for your reference. If you would like to discuss it further, please give me a call.

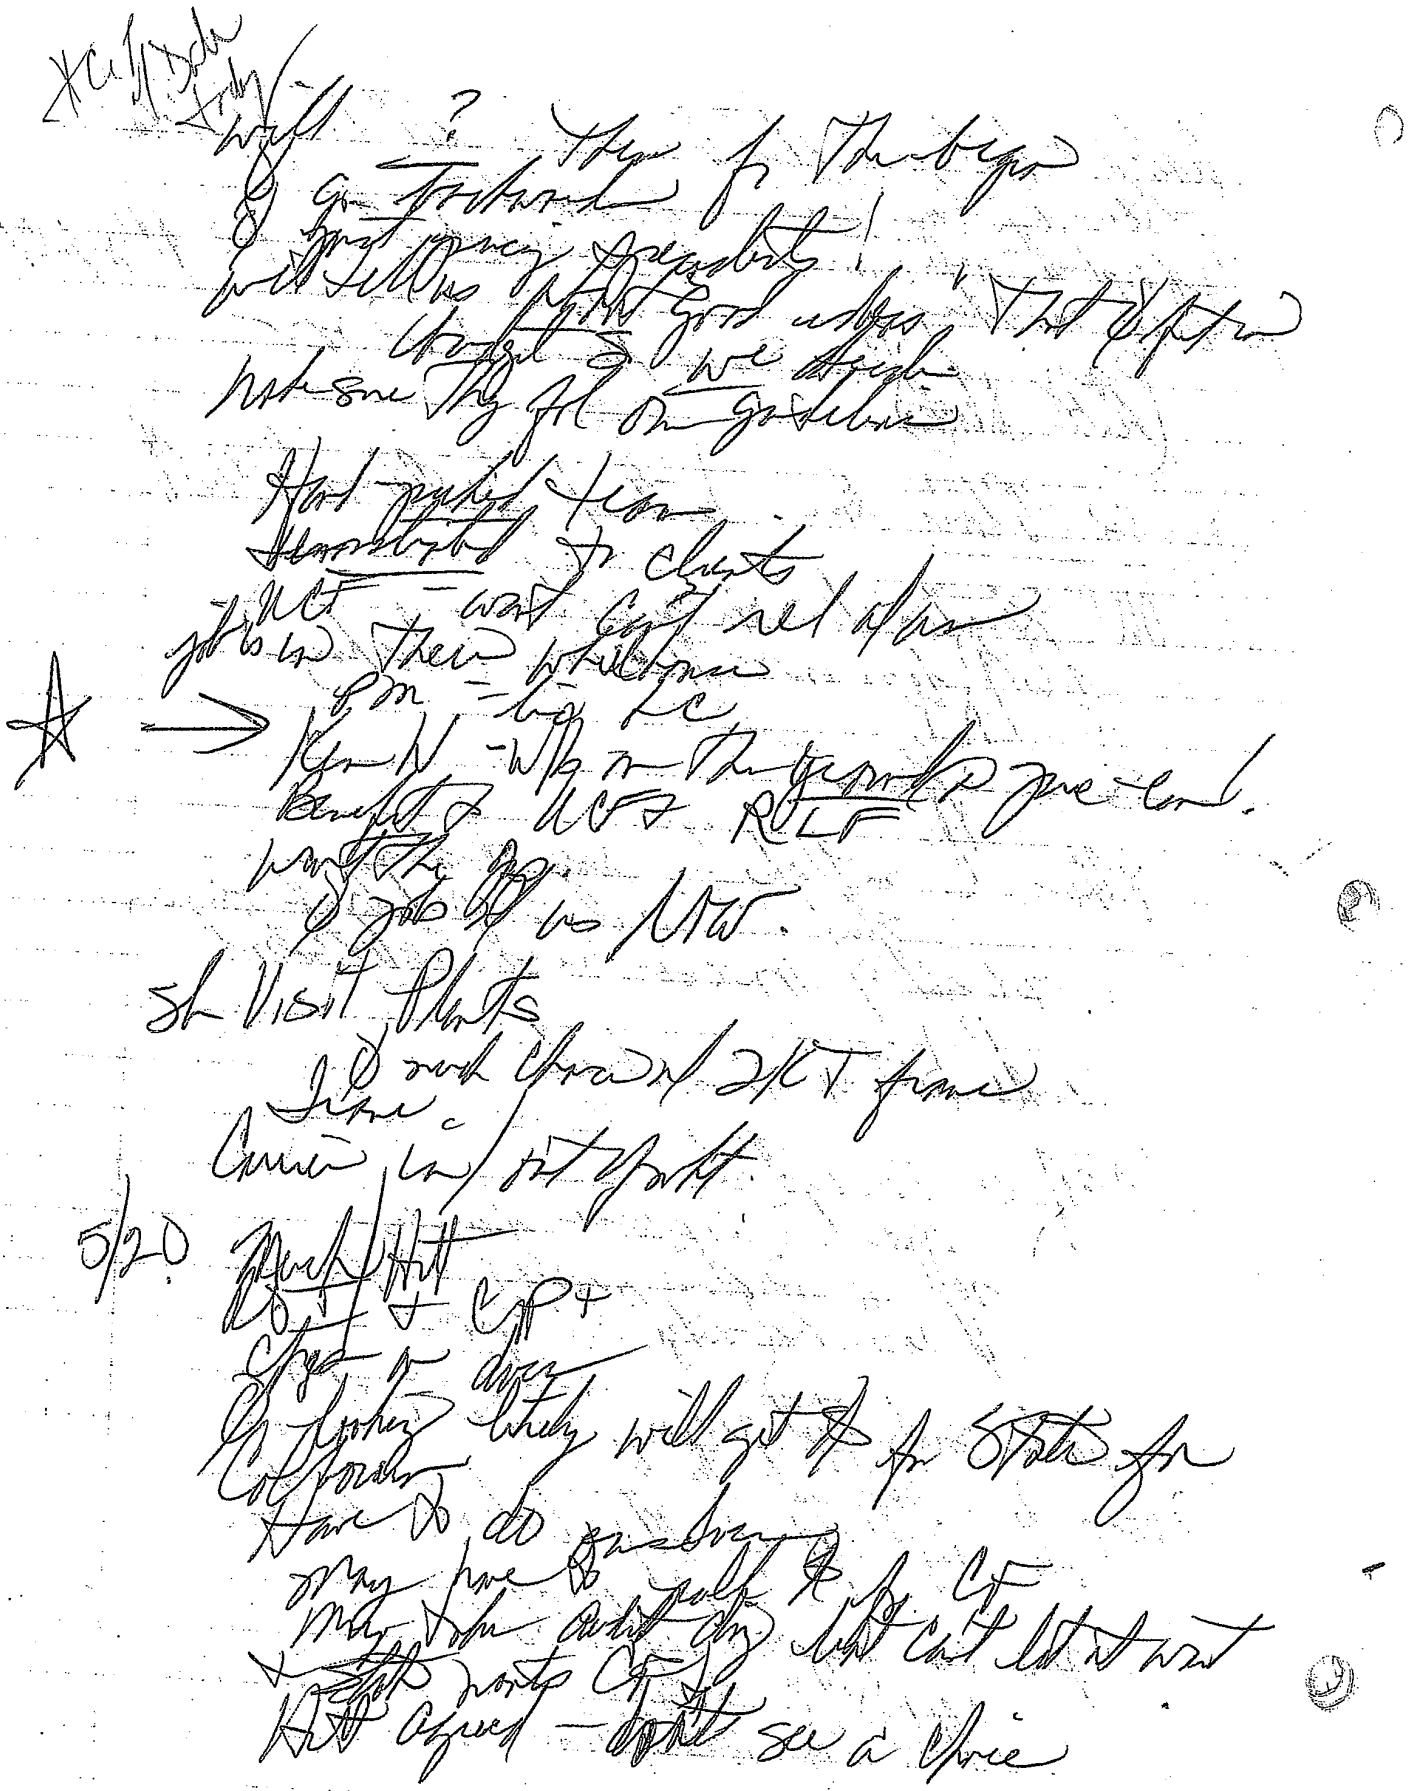
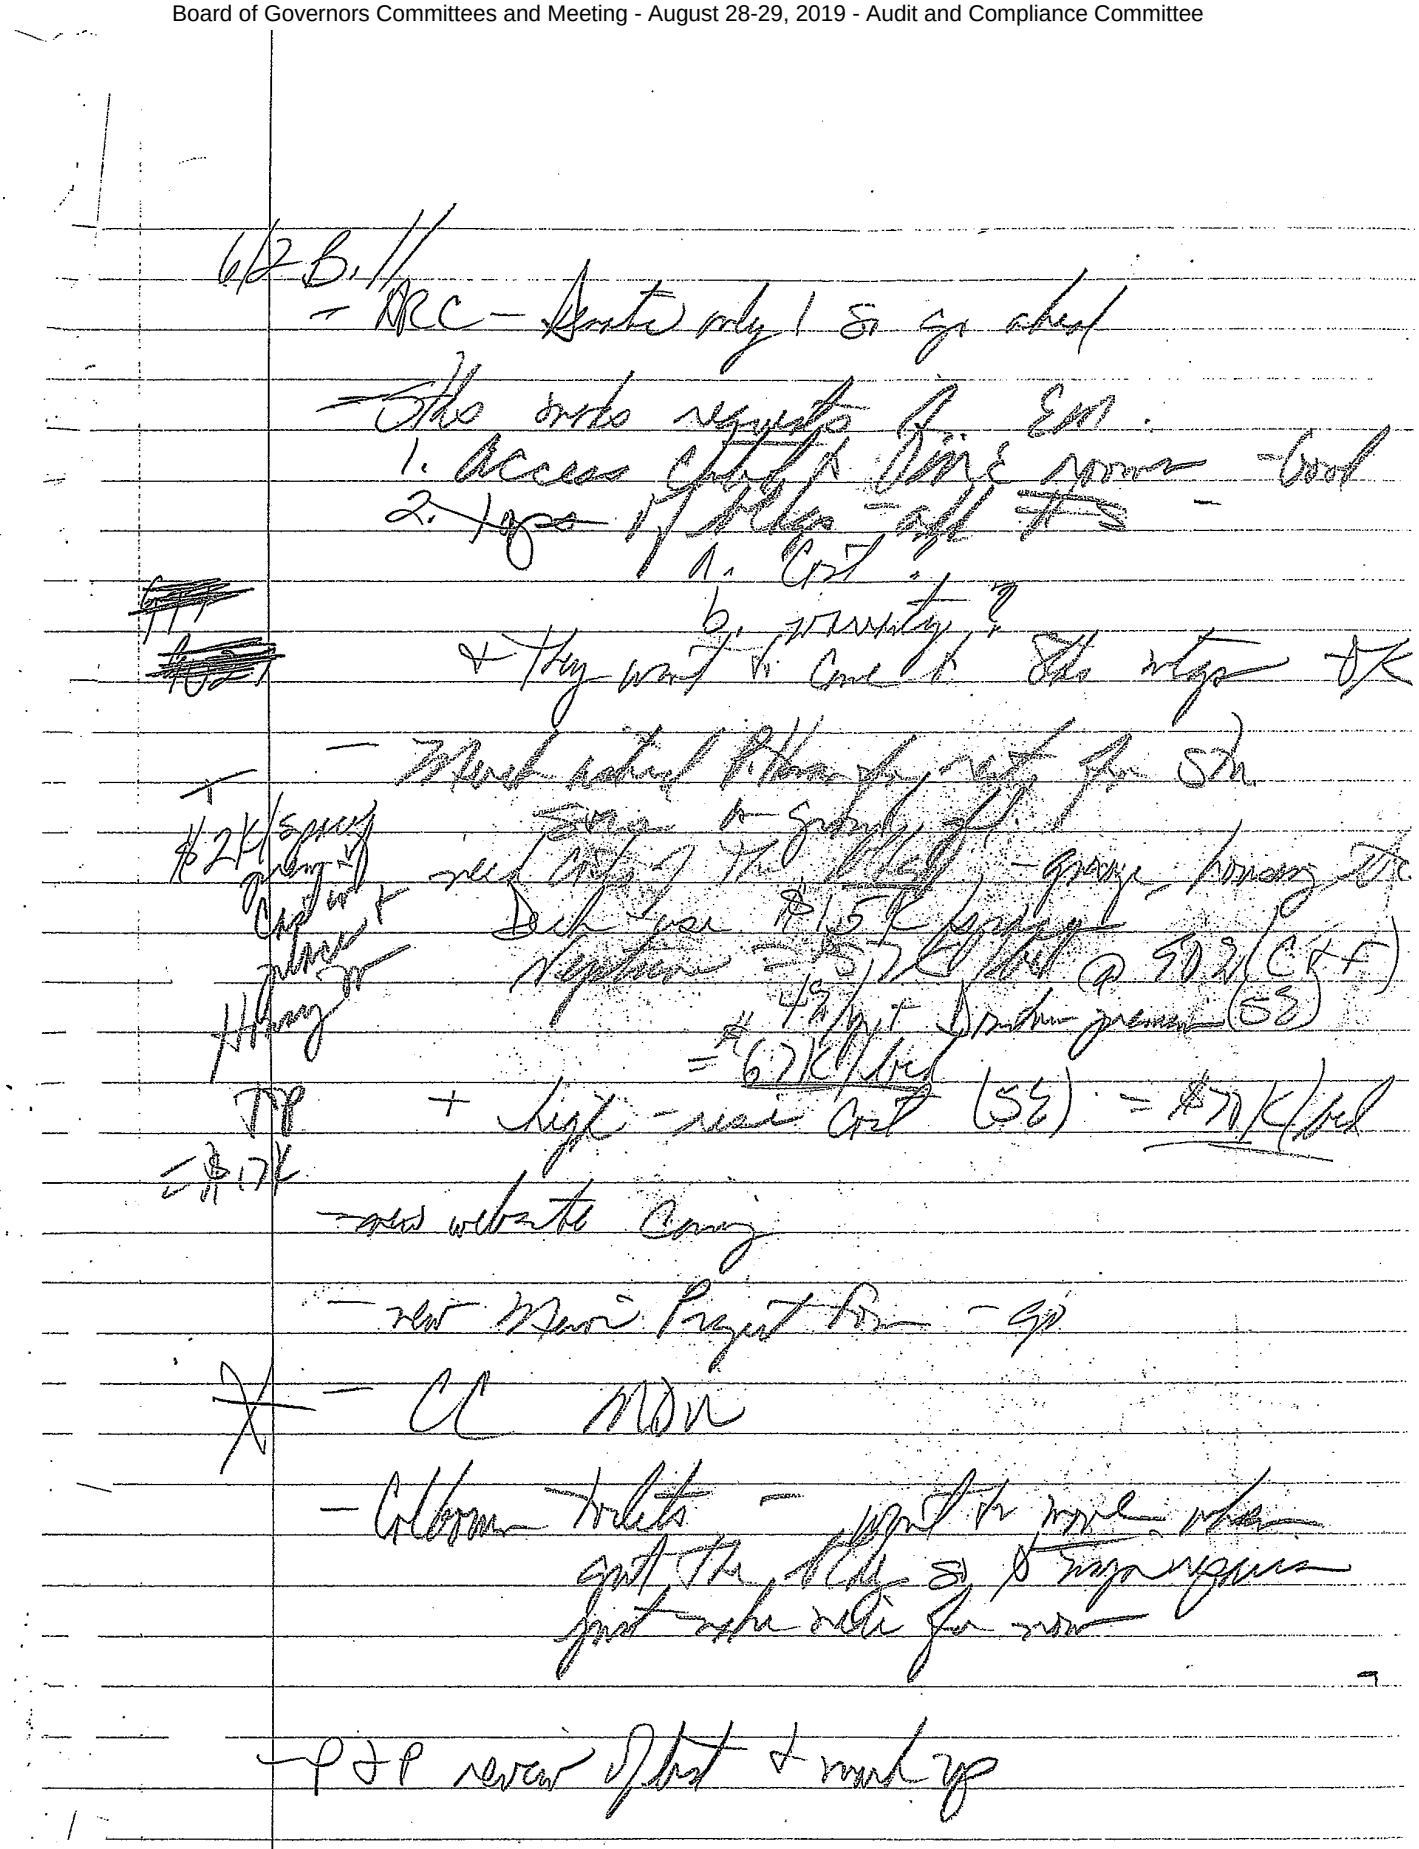
Subject: Use of Carry-Forward Funds



Dear Lynn and Tracy:



Can you please let me know when I can expect to receive your definitive response to our request to move $3M in carry-forward funds to quasi-endowed funds. This movement will greatly assist our efforts to recruit and maintain key clinical faculty for the College of Medicine. If you are leaning toward denying this request, can you please also provide the rationale and the laws and or rules prohibiting this movement? We would like the opportunity to try to overcome whatever objections may exist.

Being able to quickly provide some endowments will be extremely beneficial to the College of Medicine now and into the future. This movement will also reduce our carry-forward fund total.

Many thanks for your attention to this detail and to helping the College of Medicine grow.

Best Regards, David

STATE UNIVERSITY SYSTEM of FLORIDA
Board of Governors

M E M O R A N D U M

TO: Institutional Data Administrators

CC: Council for Administrative & Financial Affairs
General Counsels
Budget Officers

FROM: Tim Jones,
Chief Financial Officer

THROUGH: Gene Kovacs, Assistant Vice Chancellor/CIO

DATE: July 11, 2013

SUBJECT: Various Amended Regulations

DUE DATE: July 30, 2013

There are several regulations that need to be updated in preparation for the September Board meeting. A summary of the proposed changes for each regulation are as follows:

1. 7.001 – Tuition & Associated Fees
    i. Eliminates the specific amount charged for undergraduate tuition and references the GAA and statutory authority.
    ii. Eliminates reference to the building fee (the building fee and capital improvement fee were combined).
    iii. Eliminates the additional charge associated with college prep course. This change is made pursuant to the modification in SB 1720 to section 1009.28. this was the citation that FAMU used to charge an additional fee for college prep classes.
    iv. Eliminates the date when a block tuition proposal is to be submitted. (NOTE: Will rely on our data request system to establish the date.)
    v. Modifies the date the tuition differential report is due to the legislature (NOTE: the date was modified in SB 1514)

2. 7.003 – Fees, Fines & Penalties
    i. Changes date when the budget committee will consider increases to existing fees from January to June.
    ii. Changes date when the budget committee will consider new fees from March to June.
    iii. Clarifies that excess hours applies to FTIC students.

3. 7.008 – Waivers of Tuition & Fees
    i. Clarification is provided on the number of credit hours allowed for homeless waivers.

4. 9.007 - Operating Budgets
    i. Adds language regarding the inclusion of carryforward funds in the expenditure data.
    ii. Adds language that E&G funds are to be used for operating activities, unless specifically authorized by law.
    iii. Adds language requiring universities to comply with all applicable federal, state, and local laws when implementing grants, contracts and sponsored research programs. (this is to address a Board audit comment on not having guidelines addressing sponsored research)
    iv. Adds language regarding the inclusion of technology fee revenues/expenditures and Board approved fees.
    v. Clarifies the use of E&G interest earnings.

5. X.xxx – Collegiate License Plates Revenues - New regulation that includes the university expenditure allocation for fundraising and scholarships.

Please submit one response per institution by **July 30, 2013**. Please send all responses to SUS-SUBMISSIONS@flbog.edu.

Thank you for your cooperation and assistance.

7.001 Tuition and Associated Fees

(1) All students shall pay tuition and associated fees, unless waived pursuant to Regulation 7.008, as authorized by the Board of Governors or its designee.

(2) Tuition shall be defined as the basic fee assessed to students for enrollment in credit courses at any of the state universities. Non-resident tuition shall be defined as the basic fee and out-of-state fee assessed to non-resident students for enrollment in credit courses at any of the state universities. The out-of-state fee is the additional fee charged to a non-resident student. The non-resident tuition must be sufficient to offset the full instructional cost of serving the non-resident student. Calculations of the full cost of instruction shall be based on the university average of the prior year's cost of programs using the expenditure analysis.

(3) Undergraduate tuition per credit hour shall be established by university board of trustees pursuant to the General Appropriations Act and statutory authority. .

(4) Each university board of trustees may set tuition for graduate, including professional, programs pursuant to the General Appropriations Act and statutory authority.

(5) Each university board of trustees may set out-of-state fees for undergraduate and graduate, including professional, programs pursuant to the General Appropriations Act and statutory authority.

(6) Associated fees shall include the following fees and other fees as authorized by the Board of Governors:

(a) Student Financial Aid Fee;
(b) Capital Improvement Fee;

(c) Health Fee;
(d) Athletic Fee;
(e) Activity and Service Fee;
(f) Non-Resident Student Financial Aid Fee, if applicable;
(g) Technology Fee; and
(h) Tuition Differential Fee.

(7) Students shall pay tuition and associated fees or make other appropriate arrangements for the payment of tuition and associated fees (installment payment, deferment, or third party billing) by the deadline established by the

university for the courses in which the student is enrolled, which shall be no later than the end of the second week of class.

(8) Registration shall be defined as the formal selection of one or more credit courses approved and scheduled by the university and tuition payment, partial or otherwise, or other appropriate arrangements for tuition payment (installment payment, deferment, or third party billing) for the courses in which the student is enrolled as of the end of the drop/add period.

(9) Tuition and associated fees liability shall be defined as the liability for the payment of tuition and associated fees incurred at the point at which the student has completed registration, as defined above.

(10) Tuition and associated fees shall be levied and collected for each student registered in a credit course, unless provided otherwise in Board of Governors regulations.

(11) Each student enrolled in the same undergraduate college-credit course more than twice shall pay tuition at 100 percent of the full cost of instruction and shall not be included in calculations of full-time equivalent enrollments for state funding purposes. Students who withdraw or fail a class due to extenuating circumstances may be granted an exception only once for each class pursuant to established university regulations. The university may review and reduce these fees paid by students due to continued enrollment in a college-credit class on an individual basis contingent upon the student's financial hardship. For purposes of this paragraph, first-time enrollment in a class shall mean enrollment in a class fall semester 1997 or thereafter. Calculations of the full cost of instruction shall be based on the systemwide average of the prior year's cost of undergraduate programs in the state university system using the expenditure analysis.

(13) A university board of trustees may submit a proposal for a block tuition policy to the budget committee for consideration. The proposed block tuition policy for resident undergraduate or graduate students shall be based on the per-credit hour tuition amount. The proposed block tuition policy for nonresident undergraduate or graduate students shall be based on the per-credit-hour tuition and out-of-state fee amount. The block tuition policy can only be implemented beginning with the fall term.

(a) The proposal shall be submitted in a format designated by the chancellor and include at a minimum:

1. An explanation of the process used to determine the block tuition ranges.

2. An explanation of how the university will ensure that sufficient courses are available to meet student demand.
3. A description of how the policy is aligned with the mission of the university.
4. A declaratory statement that the policy does not increase the state's fiscal liability or obligation.
5. An explanation of any proposed restrictions, limitations, or conditions to be placed on the policy.
6. A clear statement that any student that is a beneficiary of a prepaid tuition contract, purchased prior to the first fall term in which the block tuition is implemented, will not be included in any block tuition policy and will be billed on a per-credit-hour basis. The university shall work with the Florida Prepaid Board to determine how block tuition will be paid for beneficiaries of prepaid tuition contracts after implementation of block tuition. The university shall report the final resolution to the budget committee.
7. An estimation of the economic impact that implementation of the policy will have on the university and the student by identifying the incremental revenue the university anticipates collecting if this policy is implemented and the financial impact on the typical student subject to the policy.
8. A description of any outcome measures that will be used to determine the success of the policy, including but not limited to, time to degree, course load impact, and graduation rates.

(b) The Board of Governors will act upon the budget committee recommendation at the next scheduled meeting. If a university board of trustees' proposal is denied, within five calendar days, the university board of trustees may request reconsideration by the board Tuition Appeals Committee, which shall consist of the chair of the board and the chair of each board committee. The Tuition Appeals Committee will meet within ten calendar days after the board's denial to consider a university board of trustees request for reconsideration.

(c) Every five years, the university board of trustees shall review the policy to determine if it has met its intended outcomes and whether the policy should be continued or modified. The university board of trustees shall submit its findings to the Board of Governors.

(14) As a component of the annual university work plan, a board of trustees may submit a proposal to the budget committee of the Board of Governors by May 31 of each year to establish an increase in the undergraduate tuition differential to be implemented with the fall academic term. The tuition differential shall promote improvements to undergraduate education and provide financial aid to

undergraduate students who have financial need. University boards of trustees shall have flexibility in distributing need-based financial aid awards according to university policies and Board of Governors' regulations.

(a) The aggregate sum of tuition and tuition differential can not be increased by more than 15 percent of the total charged for the aggregate sum of these fees in the preceding fiscal year.

1. The tuition differential may be assessed on one or more undergraduate courses or all undergraduate courses and may vary by campus or center location.
2. The sum of undergraduate tuition and associated fees per credit hour may not exceed the national average undergraduate tuition and fees at four-year degree granting public postsecondary educational institutions.
3. Students having prepaid contracts in effect on July 1, 2007, and which remain in effect, are exempt from paying the tuition differential.
4. Students who were in attendance at the university before July 1, 2007, and maintain continuous enrollment may not be charged the tuition differential.

(b) The university board of trustees' proposal shall be submitted in a format designated by the chancellor, and include at a minimum:

1. The course or courses for which the tuition differential will be assessed.
2. The amount that will be assessed for each tuition differential proposed.
3. The purpose of the tuition differential.
4. Identification of how the revenues from the tuition differential will be used to promote improvements in the quality of undergraduate education and to provide financial aid to undergraduate students who have financial need.

a. For the purposes of the following subsection,

i. "Financial aid fee revenue" means financial aid fee funds collected in the prior year.

ii. "Private sources" means prior-year revenue from sources other than the financial aid fee or the direct appropriation for financial assistance provided to state universities in the General Appropriations Act.

b. At least thirty percent of the revenue shall be expended to provide need-based financial aid to undergraduate students to meet the cost of university attendance. If the entire tuition and fee costs of resident students who have applied for and received Pell Grant funds have been met and the university has excess funds remaining, the university may expend the excess portion on undergraduate education.

i. Universities shall increase undergraduate need-based aid over the prior year by at least thirty percent of the tuition differential.
ii. This expenditure shall not supplant the amount of need-based aid provided to undergraduate students in the preceding fiscal year from financial aid fee revenues, the direct appropriation for financial assistance provided to state universities in the general appropriations act, or from private sources.
iii. If a university's total undergraduate need-based awards does not meet or exceed the sum of the prior year's undergraduate need-based awards plus thirty percent of new tuition differential funds, the university may still be considered in compliance. However, the university shall provide detailed documentation demonstrating that the difference is attributed to a decrease in financial aid fee collections (Regulation 7.003(18)), tuition differential collections, the direct appropriation for student financial assistance in the General Appropriations Act, and/or a decrease in foundation endowments that support undergraduate need-based aid awards.

c. The remaining revenue shall be expended on undergraduate education.

5. Indicate how the university will monitor the success of the tuition differential in achieving the purpose for which the tuition differential is being assessed.

(c) The budget committee will examine data gathered as part of the university annual reports instituted pursuant to Regulation 2.002 to inform members' deliberations regarding institutional proposals for tuition differential increases. At a minimum, the committee will review:

1. Undergraduate retention and graduation rates.
2. Percentage of students graduating with more than 110 percent of the hours required for graduation.
3. Licensure pass rates for completers of appropriate undergraduate programs.
4. Number of undergraduate course offerings.
5. Percentage of undergraduate students who are taught by each instructor type.
6. Average salaries of faculty who teach undergraduate courses.
7. Undergraduate student-faculty ratio.
8. Other university specific measures identified by the boards of trustees pursuant to subparagraph (14)(b)5.

9. Number of need-based financial aid awards provided, average award, and median award.

(d) The budget committee shall review each proposal and advise the university board of trustees of the need for any additional information or revision to the proposal. The budget committee will make a recommendation to the Board of Governors at the next scheduled meeting.

(e) The Board of Governors will act upon the budget committee recommendation at the next scheduled meeting. If a university board of trustees' proposal is denied, within five calendar days the university board of trustees may request reconsideration by the board's Tuition Appeals Committee, which shall consist of the chair of the board and the chair of each board committee. The Tuition Appeals Committee will meet within ten calendar days after the board of Governor's denial to consider a university board of trustees request for reconsideration.

(f) Each university board of trustees that has been approved to assess a tuition differential shall submit the following information to the Board of Governors General Office in a format and at a time designated by the chancellor, so that such information can be incorporated into a system report that will be submitted to the Governor and Legislature by February 1.

1. The amount of tuition differential assessed.
2. The course or courses for which the tuition differential was assessed.
3. Total revenues generated.
4. Number of students eligible for a waiver as outlined in Regulation 7.008(20), number of these students receiving a waiver, and the value of these waivers.
5. Detailed expenditures (submitted as a part of the August operating budget).
6. Detailed reporting of financial aid sources and disbursements sufficient to meet the requirements in subparagraph (14)(b)4.
7. Data on indicators outlined in subparagraph (14)(c).

(g) Universities must maintain the need-based financial aid revenue generated from the tuition differential in a separate Education and General account, with the revenue budget in the Student and Other Fee Trust Fund.
(h) If, after approval by the Board of Governors, a university determines that modifications need to be made to the monitoring and implementation of the proposed undergraduate improvement programs, the university shall notify the chancellor.

(15) A university board of trustees may submit a proposal for market tuition rates for graduate-level courses offered online or through the university's continuing education unit when such courses constitute an approved degree program or college credit certificate program. Proposals shall be submitted to the budget committee for consideration by the committee during a November meeting.

(a) Proposals to charge market tuition rates for degree programs and college credit certificate programs shall be considered by the board only if documentation is provided that demonstrates:

1. The programs have been approved in accordance with Regulation 8.011 and have established one or more separate market tuition rate student cohorts, each of which can be tracked for administrative and reporting purposes.
2. The programs do not lead to initial licensing or certification for occupational areas identified as state critical workforce need in the State University System of Florida Strategic Plan, 2005-2013, Areas of Programmatic Strategic Emphasis, as amended in 2009. A university may request establishment of market tuition rates for such programs for non-residents if such programs do not adversely impact development of other programs for Florida residents. A university, upon a written request for a special exception from the chancellor, may submit a proposal for market tuition rate for a program leading to initial licensing or certification in a state critical workforce need area if it can be demonstrated to increase the number of graduates in the state.
3. The program admission and graduation requirements shall be the same as similar programs funded by state appropriations.

(b) If approved by the Board of Governors, the university shall operate these programs for a pilot period in order to collect sufficient information to determine the merit and success of market tuition rate courses. During the pilot period, the board shall approve no more than five new graduate-level degree programs or college credit certificate program proposals per academic year. After three years, the university shall present its findings to the board budget committee. The university findings shall include, but not be limited to, program enrollments, degrees produced, and enrollments in similar state funded programs. The budget committee will then make any appropriate recommendations to the board for changes of market tuition rates programs.

(c) The proposal for market tuition rate programs shall be submitted in a format designated by the chancellor and include at a minimum:

1. A description of the program and its compliance with the requirements outlined in (15)(a).
2. An explanation of the process used to determine the market tuition rate and the tuition at similar programs from at least five other institutions, including both private and public.
3. A description of similar programs offered by other state university system institutions.
4. An estimate of the market tuition rate to be charged over the next three years. Any annual increase shall be no more than 15 percent over the preceding year.
5. A description of how offering the proposed program at market tuition rate is aligned with the mission of the university.
6. An explanation and declaratory statement that offering the proposed program at market tuition rate does not increase the state's fiscal liability or obligation.
7. An explanation of any differentiation in rate between resident and non-resident students paying market tuition rate.
8. An explanation of any proposed restrictions, limitations, or conditions to be placed on the program.
9. A description of any outcome measures that will be used to determine the success of the proposal.
10. In addition, the following information will be included with the proposal:
    a. An explanation of how the university will ensure that sufficient courses are available to meet student demand and facilitate completion of each program submitted for consideration.
    b. A baseline of current enrollments, including a breakout of resident and nonresident enrollment, in similar state-funded courses.
    c. An estimation of the economic impact that implementation of the proposal will have on the university and the student by identifying the incremental revenue the university anticipates collecting if the proposal is approved.
    d. A description of how revenues will be spent, including whether any private vendors will be utilized, and which budget entity the funds will be budgeted.

(d) The Board of Governors will act upon the budget committee recommendation at the next scheduled meeting. If a university board of trustees' proposal is denied, within five calendar days, the university board of trustees may request reconsideration by the board's Tuition Appeals Committee, which shall consist of the chair of the board and the chair of each board committee. The Tuition Appeals Committee will meet within ten

calendar days after the board's denial to consider a university board of trustees request for reconsideration.

(e) If a university charges a market tuition rate for a course within an approved program, preference shall be given to Florida residents in the admission process for similar state funded programs.

(f) Enrollments and degrees granted in market tuition rate program cohorts shall be reported in a manner to be determined by the chancellor.
(g) Credit hours generated by courses in market tuition rate program cohorts shall not be reported as fundable credit hours and all costs shall be recouped within the market tuition rate.

(h) Programs and associated courses approved for market tuition rate shall not supplant existing university offerings funded by state appropriations.

(i) Each university approved to offer market tuition rates shall provide an annual status report in a format designated by the chancellor.

Authority: Section 7(d), Art. IX, Fla. Const.; History–Formerly BOR Rule 6C-7.001, Adopted 4-8-79, Renumbered 12-16-74, Amended 6-28-76, 7-4-78, 8-6-79, 9-28-81, 12-14-83, 7-25-84, 10-2-84, 10-7-85, Formerly 6C-7.01, Amended 12-25-86, 11-16-87, 10-19-88, 10-17-89, 10-15-90, 9-15-91, 1-8-92, 11-9-92, 7-22-93, 8-1-94, 11-29-94, 4-16-96, 8-12-96, 9-30-97, 12-15-97, 8-11-98, 9-30-98, 8-12-99, 8-3-00, 8-28-00, 8-12-01, Amended and Renumbered as 7.001 09-25-08, Amended 12-10-09, 11-04-10, 01-20-11, 9-15-11,_____.

7.003 Fees, Fines and Penalties.

(1) The Board of Governors must authorize all fees assessed to students. Accordingly, the specific fees listed in this section, and the tuition and associated fees defined in Regulation 7.001, are the only fees that may be charged for state fundable credit hours without the specific approval of the board, except as authorized in Regulation 8.002. For purposes of clarification, the term "at cost" or "cost" as used in this regulation includes those increased costs that are directly related to the delivery of the goods, services, or programs.

(2) Each university board of trustees is authorized to assess the following fees at the statutory amounts listed:

(a) Security /Access / Identification Card, Duplicate Security / Access / Identification Card, Fee Card, or Passbook:
1. Annual – cost up to $10.00.
2. All duplicates – cost up to $15.00

(b) Orientation Fee – up to $35.00.
1. Effective fall 2011, the board of trustees of the University of West Florida may assess a $50 Orientation Fee.

(c) Admissions Deposit – Up to $200. The admissions deposit shall be imposed at the time of an applicant's acceptance to the university and shall be applied toward tuition upon registration and budgeted in the Student and Other Fee Trust Fund. In the event the applicant does not enroll in the university, the admissions deposit shall be budgeted in an auxiliary account of the university and used to expand financial assistance, scholarships, student academic and career counseling services, and admission services at the university.

(d) Transcript Fee – per item; up to $10.00.

(e) Diploma Replacement Fee – per item; up to $10.00.

(f) Service Charge – up to $15.00 for the payment of tuition and fees in installments.

(g) Audit Registration Fees -- Audit registration assures a course space for the student; however, no grade is awarded. This fee is the same as the tuition and associated fees provided in Regulation 7.001. Budgeting of fee proceeds shall be in the Student and Other Fee Trust Fund.

(h) Registration of Zero Hours -- Such registration provides for examinations, graduations, use of facilities, etc., when deemed appropriate by the institution. The student is assessed tuition and associated fees for one credit hour. The Zero Credit Fee shall be budgeted in the Student and Other Fee Trust Fund.

(i) Application Fee -- Individuals who make application for admission to universities within the State University System shall pay a non-refundable Application Fee of not more than $30.00. The fee shall be budgeted in the

Student and Other Fee Trust Fund. Provisions may be made to waive the application fee as specified by the university.

(j) Late Registration Fee -- Universities shall assess a Late Registration Fee to students who fail to register before the end of the regular registration period. This fee may also be assessed to students reinstated after their course schedules were cancelled due to non-payment of fees. The fee shall be not less than $50 nor more than $100 with a minimum of 50 percent budgeted to the Student and Other Fee Trust Funds and the balance budgeted in an Auxiliary Trust Fund. Provisions may be made to waive the Late Registration Fee as specified by the university.

(k) Late Payment Fee -- Universities may assess a Late Payment Fee to students who fail to pay, or make appropriate arrangements for payment (installment payment, deferment, or third-party billing), of tuition and associated fees by the deadline set by each university. The fee shall be not less than $50 nor more than $100 with a minimum of 50 percent budgeted to the Student and Other Fee Trust Fund and the balance budgeted in an Auxiliary Trust Fund. Provisions may be made to waive the Late Payment Fee as specified by the university.

(3) Before the board's last meeting of each calendar year, the university board of trustees shall notify the board of any potential increases in fees outlined in sub-paragraph (2). A university board of trustees may then submit a proposal for an increase in that fee to the Board of Governors' budget committee for consideration by the committee during a June meeting.

(a) The proposal shall be submitted in a format designated by the chancellor and include at a minimum:

1. The current and proposed increase to the fee and a description of the process used to determine the need for the increase, including any student involvement.
2. The service or operation currently being funded by the fee.
3. An analysis of whether the service or operation can be performed more efficiently to alleviate the need for any increase.
4. The additional or enhanced service or operation to be implemented.
5. Identification of other resources that could be used to meet this need.
6. The financial impact on students, including those with financial need.
7. The current revenue collected and expenditures from the current fee.
8. The estimated revenue to be collected and expenditures for the fee increase.

(b) The board will act upon the budget committee recommendation at the next scheduled meeting.

(c) An increase in these fees can only be implemented with the fall term.

(d) Every five years the university board of trustees shall review the fee increase to determine if the fee has met its intended outcomes and whether the fee should be increased, decreased or discontinued. The

university board of trustees shall submit its findings to the board. Any subsequent decreases or continuation in these fees are delegated to the university board of trustees, with notification to the chancellor.

(4) Each university board of trustees is authorized to establish separate activity and service, health, and athletic fees on the main campus, branch campus, or center.

(a) The fees shall be retained by the university and paid into the separate activity and service, health, and athletic funds. A university may transfer revenues derived from the fees authorized pursuant to this section to a university direct-support organization of the university pursuant to a written agreement approved by the Board of Governors.

(b) The sum of the activity and service, health, and athletic fees a student is required to pay to register for a course shall not exceed 40 percent of the tuition. Within the 40 percent cap, universities may not increase the aggregate sum of activity and service, health, and athletic fees more than 5 percent per year or the same percentage increase in tuition, whichever is higher.

(c) A university may increase its athletic fee to defray the costs associated with changing National Collegiate Athletic Association divisions. Any such increase in the athletic fee may exceed both the 40 percent cap and the 5 percent cap imposed by this subsection. Any such increase must be approved by the athletic fee committee in the process outlined in subparagraph (4)(d) and cannot exceed $2 per credit hour.

(d) Increases in the health, athletic, and activity and service fee must be recommended by a fee committee, at least one-half of whom are students appointed by the student body president. The remainder of the committee shall be appointed by the university president. A chairperson, appointed jointly by the university president and the student body president, shall vote only in the case of a tie. The recommendations of the committee shall take effect only after approval by the university president, after consultation with the student body president, and approval by the university board of trustees. An increase in these fees may occur only once each fiscal year and must be implemented beginning with the fall term.

(e) The student activity and service fee shall be expended for lawful purposes to benefit the student body in general. This shall include, but shall not be limited to, student publications and grants to duly recognized student organizations, the membership of which is open to all students at the university without regard to race, sex, or religion. The fee may not benefit activities for which an admission fee is charged to students, except for student-government-association-sponsored concerts. The allocation and expenditure of the fees shall be determined by the student government association of the university, except that the president of the university may veto any line item or portion thereof within the budget when

submitted by the student government association legislative body. The university president shall have 15 school days from the date of presentation of the budget to act on the allocation and expenditure recommendations, which shall be deemed approved if no action is taken within the 15 school days. If any line item or portion thereof within the budget is vetoed, the student government association legislative body shall within 15 school days make new budget recommendations for expenditure of the vetoed portion of the fees. If the university president vetoes any line item or portion thereof within the new budget revisions, the university president may reallocate by line item that vetoed portion to bond obligations guaranteed by activity and service fees.

(f) Unexpended fees and undisbursed fees remaining at the end of a fiscal year shall be carried over and remain in the student activity and service fund and be available for allocation and expenditure during the next fiscal year.

(5) Technology Fee – Each university board of trustees may establish a technology fee to be paid by all students. The fee may be up to 5 percent of the tuition charged per credit hour. The revenue from this fee shall be used to enhance instructional technology resources for students and faculty. The revenue and expenditures shall be budgeted in the Local Fund budget entity.

(6) Off-Campus Educational Activities - As used herein, "off-campus" refers to locations other than state-funded main campuses, branch campuses, or centers. Each university board of trustees is authorized to establish fees for state fundable off-campus course offerings when the location results in specific, identifiable increased costs to the university. These fees will be in addition to the tuition and associated fees charged to students enrolling in these courses on-campus. The additional fees charged are for the purpose of recovering the increased costs resulting from off-campus vis-à-vis on-campus offerings. The university shall budget the fees collected for these courses to the Student and Other Fee Trust Funds. Each university shall use the additional fees collected to cover the increased cost of these courses and reimburse the appropriate Educational and General fund, or other appropriate fund if the costs are incurred in other than Educational and General funds.

(7) Material and Supply Fees - Each university board of trustees is authorized to assess Material and Supply Fees not to exceed the amount necessary to offset the cost of materials or supply items which are consumed in the course of the student's instructional activities, excluding the cost of equipment and equipment repairs and maintenance. Revenues from such fees shall be budgeted in the Auxiliary Trust Fund.

(8) Housing Rental Rates – Basic rates for housing rental shall be set by each university board of trustees. In addition, the university board of trustees is authorized to establish miscellaneous housing charges for services provided by the university at the request of the students.

(9) Parking Fines, Permits and Decals -- Each university board of trustees shall establish charges for parking decals, permits and parking fines.

(10) Transportation Access Fee - Each university board of trustees is authorized to establish a transportation access fee, with appropriate input from students, to support the university's transportation infrastructure and to increase student access to transportation services.

(11) Returned Check Fee -- Each university board of trustees shall assess a service charge for unpaid checks returned to the university.

(12) Collection costs -- Each university board of trustees is authorized to assess a charge representing reasonable cost of collection efforts to effect payment for overdue accounts. Amounts received for collection costs shall be retained by the university.

(13) Service Charge -- Each university board of trustees is authorized to assess a service charge on university loans in lieu of interest and administrative handling.

(14) Educational Research Center for Child Development Fee -- Each university board of trustees is authorized to assess child care and service fees.

(15) Transient Student Fee – Each university board of trustees is authorized to assess a fee not to exceed $5.00 per course for accepting a transient student and processing the student's admissions application pursuant to Section 1006.73.

(16) Capital Improvement Fee – This fee may be used to fund any project or real property acquisition that meets the requirements of Chapter 1013. Each university board of trustees shall assess $4.76 per credit hour per semester. Any increase in the fee beyond $4.76 must be first recommended by a fee committee, at least half of whom are students appointed by the student body president. The remainder of the committee shall be appointed by the university president. A chairperson, appointed jointly by the university president and the student body president, shall vote only in the case of a tie. The recommendations of the committee shall take effect only after approval by the university president, after consultation with the student body president, and approval by the university board of trustees. An increase in these fees may occur only once each fiscal year and must be implemented beginning with the fall term. The fee may not exceed 10 percent of the tuition for resident students or 10 percent of the sum of tuition

and out-of-state fees for nonresident students. The fee for resident students shall be limited to an increase of $2 per credit hour over the prior year, and any proposed fee increases or decreases must be approved by the Board of Governors. No project proposed by a university which is to be funded by this fee shall be submitted to the Board of Governors for approval without prior consultation with the student government association of that university.

(17) Student Financial Aid Fee – Each university board of trustees is authorized to collect for financial aid purposes an amount not to exceed 5 percent of the tuition and out-of-state fee. The revenues from fees are to remain at each university. A minimum of 75 percent of funds from the student financial aid fee shall be used to provide financial aid based on demonstrated financial need. Each university shall report annually to the Board of Governors on the revenue collected pursuant to this subsection, the amount carried forward, the criteria used to make awards, the amount and number of awards for each criterion, and a delineation of the distribution of such awards. The report shall include an assessment by category of the financial need of every student who receives an award, regardless of the purpose for which the award is received. Awards which are based on financial need shall be distributed in accordance with the federal methodology for determining need. An award for academic merit shall require a minimum overall grade point average of 3.0 on a 4.0 scale or the equivalent for both initial receipt of the award and renewal of the award.

(18) Each university board of trustees is authorized to assess the following fees which will have varied amounts:

(a) Development Research School Fees – activity fees which shall be discretionary with each university.
(b) Library Fines – per book or unit, per day; the funds shall be budgeted to the Student and Other Fee Trust Fund.
(c) Overdue Reserve Library books – per book, per library hour; the funds shall be budgeted to the Student and Other Fee Trust Fund.
(d) Late Equipment Fee, Physical Education – per item, per day.
(e) Fees and fines relating to the use, late return, and loss and damage of facilities and equipment.
(f) Distance Learning Fee.

(19) Each university board of trustees is authorized to assess reasonable fees for incidental non-academic services provided directly to individuals. This could include, but not be limited to, fees for duplicating, lost keys, copyright material, breakage, standardized tests, library loans.

(20) Each university board of trustees is authorized to assess an international student service fee to cover the university costs associated with reporting requirements of the Student and Exchange Visitor Information System

administered by the Department of Homeland Security for F-Visa and J-Visa degree seeking students.

(21) Excess Hour Fee –This fee shall be budgeted in the Student and Other Fee Trust Fund.

(a) All state university undergraduate students who entered a postsecondary undergraduate program at any Florida public institution of higher education as a first-time-in-college student in fall 2009 or thereafter and prior to fall 2011 shall pay an excess hour fee equal to 50 percent of the undergraduate tuition identified in Regulation 7.001(3) for each credit hour in excess of 120 percent of the number of credit hours required to complete the baccalaureate degree program in which the student is enrolled.

(b) All state university undergraduate students who entered a postsecondary undergraduate program at any Florida public institution of higher education as a first-time-in-college student in fall 2011 or thereafter shall pay an excess hour fee equal to 100 percent of the undergraduate tuition identified in Regulation 7.001(3) for each credit hour in excess of 115 percent of the number of credit hours required to complete the baccalaureate degree program in which the student is enrolled.

(c) All state university undergraduate students who entered a postsecondary undergraduate program at any Florida public institution of higher education as a first-time-in-college student in fall 2012 or thereafter shall pay an excess hour fee equal to 100 percent of the undergraduate tuition identified in Regulation 7.001(3) for each credit hour in excess of 110 percent of the number of credit hours required to complete the baccalaureate degree program in which the student is enrolled.

(d) Each university shall implement a process for notifying students of this fee upon a student's initial enrollment. A second notice must be provided to the student when the student has attempted the number of credit hours needed to complete the baccalaureate degree program in which the student is enrolled. The second notice must include a recommendation that each student who intends to earn credit hours at the university in excess of the credit hours required for the baccalaureate degree program in which the student is enrolled meet with the student's academic advisor.

(e) All credit hours for courses taken at the university from which the student is seeking a baccalaureate degree shall be included when calculating the number of hours taken by a student, including:

1. Failed courses.

2. Courses dropped or withdrawn from after the university's advertised last day of the drop and add period, except as provided for in subparagraph (21)(f).
3. Repeated courses, except repeated courses for which the student has paid the full cost of instruction as provided in Regulation 7.001(11).
4. All credit hours earned at another institution and accepted for transfer by the university and applied toward the student's baccalaureate degree program.

(f) All credit hours earned under the following circumstances shall not be calculated as hours required to earn a baccalaureate degree:
1. College credits earned through an articulated accelerated mechanism.
2. Credit hours earned through internship programs.
3. Credit hours required for certification, recertification, or certificate programs.
4. Credit hours in courses from which a student must withdraw due to reasons of medical or personal hardship.
5. Credit hours taken by active-duty military personnel.
6. Credit hours required to achieve a dual major taken while pursing a baccalaureate degree.
7. Remedial and English as a Second Language credit hours.
8. Credit hours earned in military science courses that are part of the Reserve Officers' Training Corps program.

(22) Convenience fee – Each university board of trustees may establish a convenience fee when accepting payments by credit cards, charge cards, and debit cards. The fee shall not be greater than the cost of providing the service. The fee is not refundable to the payor.

(23) Before the Board of Governors' last meeting of each calendar year, the university board of trustees shall notify the board of any potential new fees that are being considered by the university. A university board of trustees may then submit a proposal for a new fee not currently authorized in board regulation or statute to the Board of Governors' budget committee for consideration by the committee during a June meeting.

(a) The proposal shall be submitted in a format designated by the chancellor, and include at a minimum:
1. The purpose to be served or accomplished with the fee.
2. The demonstrable student-based need for the fee that is currently not being met through existing university services, operations or another fee.
3. The process used to assure substantial student input or involvement.

4. Any proposed restrictions, limitations, or conditions to be placed on the fee.
5. The financial impact of the fee on students, including those with financial need.
6. The estimated revenue to be collected and proposed expenditures for the new fee.
7. The outcome measures that will be implemented to determine when the purpose of the fee will be accomplished.

(b) The aggregate sum of any fees approved by the board that a student is required to pay to register for a course shall not exceed 10 percent of tuition. All other fees shall be based on cost.
(c) The fee can only be implemented in the fall term.
(d) The revenue generated by this fee may not be transferred to an auxiliary enterprise or a direct-support organization and may not be used to pay or secure debt.
(e) The university shall account for the revenue and detailed expenditures of this fee in the Annual Report.
(f) The fee cannot be an extension of, or cover the same services, as an existing statutory fee.
(g) The fee cannot be utilized to create additional bonding capacity in an existing fee.
(h) The fee should support a new service or activity that is not currently supported or should be supported with education and general funds (state and tuition).
(i) The fee shall not supplant revenue from other sources that are currently used or have been used to support a service or activity.
(j) The fee should support a service or activity in which a majority of students is able to participate or from which derive a benefit.
(k) Once the board approves a fee under this section, a university fee committee shall be established similar to other existing fee committees.
(l) The board will act upon the budget committee recommendation at the next scheduled meeting.
(m) Every five years the university board of trustees shall review the fee to determine if the fee has met its intended outcomes and whether the fee should be increased, decreased or discontinued. The university board of trustees shall submit its findings to the board. Any subsequent decreases or continuation in these fees are delegated to the university board of trustees, with notification to the chancellor.
(n) If a university board of trustees' proposal is denied, within five calendar days the university board of trustees may request reconsideration by the board's Tuition Appeals Committee, which shall consist of the chair of the board and the chair of each board committee. The Tuition Appeals Committee will meet within ten calendar days after

the Board of Governors denial to consider a university board of trustees request for reconsideration.

(24) Pursuant to subparagraph (23), the university boards of trustees designated below are authorized to assess the following fees:

(a) Green Fee – This fee may be assessed to establish or improve the use of renewable energy technologies or energy efficiencies that lower the university's greenhouse emissions.

1. University of South Florida: up to $1.00 per credit hour
2. New College of Florida: up to $1.00 per credit hour
3. University of West Florida: up to $1.00 per credit hour

(b) Test Preparation Fee – at cost. This fee may be assessed to increase accessibility to test preparation courses in programs where students are expected to obtain specific preparation for a practice-based examination.

1. Florida International University
2. Florida A&M University – (bar test preparation)

(c) Student Life and Services Fee – This fee may be assessed to expand student participation in transformational learning opportunities that build new and enhances ongoing activities which connect students to the institution.

1. University of North Florida: not to exceed 5 percent of tuition.

Authority: Section 7(d), Art. IX, Fla. Const.; History–Formerly BOR Rule 6C-7.003. Derived from 6C-2.74 and 6C-2.76, Amended and Renumbered 12-17-74, Amended 2-22-76, 6-22-76, 6-28-76, 11-1-76, 9-8-77, 2-14-79, 9-28-81, 12-7-82, 12-13-83, 10-2-84, Formerly 6C-7.03, Amended 1-8-86, 8-11-86, 12-25-86, 6-2-87, 10-17-89, 4-10-90, 1-7-91, 7-2-91, 9-15-91, 8-4-92, 11-9-92, 4-12-93, 5-30-93, 9-23-93, 8-1-94, 1-24-96, 4-16-96, 12-15-97, 8-28-00, 8-12-01, Amended and Renumbered as 7.003 9-25-08, Amended 12-10-09, 11-04-10, 9-15-11, 6-21-12, 11-08-12, _____.

7.008 Waiver of Tuition and Fees

(1) Each university board of trustees is authorized to waive tuition, non-resident tuition and associated fees for purposes that support and enhance the mission of the university. All tuition, non-resident tuition and associated fees waived must be based on regulations that are adopted by the university board of trustees and where applicable, consistent with regulations adopted by the Board of Governors.

(2) Sponsored Credit Institutes and Programs – Each university board of trustees is authorized to waive tuition, associated fees and material and supply fees for participants in sponsored credit institutes and programs.

(a) Sponsored credit institutes and programs are entities where substantially all the direct costs are paid by the external sponsoring entity, where there is no direct expenditure of Educational and General funds for the conduct of the programs, and where no fees or other assessments are collected from students by the sponsoring entity, the university, or any other entity.

(b) In determining whether the direct costs are paid by the sponsoring entity, funds paid directly to the participants in a form such as, but not limited to, stipends, travel or book allowances should not be taken into account. "Direct costs" refer to the costs associated with the instruction or training which a participant receives. All funds collected from sponsoring entities for sponsored credit institutes will be remitted to the university's contract and grants trust fund and/or auxiliary trust funds.

(c) Funds collected from courses offered through continuing education should be budgeted in the Auxiliary Trust Fund.

(d) Neither the number of participants nor student credit hours in these institutes and programs may be counted for state-funding purposes.

(3) Deceased Law Enforcement, Correctional, or Correctional Probation Officers Employed by the State or Political Subdivision thereof – Each university board of trustees shall waive certain educational expenses that the child or spouse of the deceased officer incurs while obtaining an undergraduate education or a postgraduate education if a law enforcement, correctional, or correctional probation officer is accidentally killed or receives accidental bodily injury which results in the loss of the officer's life while engaged in the performance of the officer's law enforcement duties on or after June 22, 1990, or is unlawfully and intentionally killed or dies as a result of such unlawful and intentional act on or after July 1, 1980, while the officer was employed by a political subdivision of the state.

(a) The amount waived by the university shall be an amount equal to the cost of tuition and associated fees for a total of 120 credit hours. The child or spouse may attend on either a full-time or part-time basis. The benefits

provided to a child under this section shall continue until the child's 25th birthday. The benefits provided to a spouse under this subsection must commence within 5 years after the death occurs, and entitlement thereto shall continue until the 10th anniversary of that death.

(b) Upon failure of any child or spouse benefited by the provisions of this subsection to comply with the ordinary and minimum requirements of the institution attended, both as to discipline and scholarship, the benefits shall be withdrawn as to the child or spouse and no further moneys may be expended for the child's or spouse's benefits so long as such failure or delinquency continues.

(c) Only a student in good standing in his or her respective university may receive the benefits.

(d) A child or spouse receiving benefits under this subsection must be enrolled according to the customary rules and requirements of the university attended.

(4) Deceased Firefighters Employed by the State or a Political Subdivision thereof - Each university board of trustees shall waive certain educational expenses that the child or spouse of the deceased firefighter incurs while obtaining an undergraduate education or a postgraduate education if a firefighter is accidentally killed or receives accidental bodily injury which results in the loss of the firefighter's life while engaged in the performance of the firefighter's duties on or after June 22, 1990, or is unlawfully and intentionally killed or dies as a result of such unlawful and intentional act on or after July 1, 1980, while the firefighter was employed by a political subdivision of the state.

(a) The amount waived by the university shall be an amount equal to the cost of tuition and associated fees for a total of 120 credit hours. The child or spouse may attend on either a full-time or part-time basis. The benefits provided to a child under this section shall continue until the child's 25th birthday. The benefits provided to a spouse under this subsection must commence within 5 years after the death occurs, and entitlement thereto shall continue until the 10th anniversary of that death.

(b) Upon failure of any child or spouse benefited by the provisions of this subsection to comply with the ordinary and minimum requirements of the institution attended, both as to discipline and scholarship, the benefits shall be withdrawn as to the child or spouse and no further moneys may be expended for the child's or spouse's benefits so long as such failure or delinquency continues.

(c) Only a student in good standing in his or her respective university may receive the benefits.

(d) A child or spouse receiving benefits under this subsection must be enrolled according to the customary rules and requirements of the university attended.

(5) Acceleration – Each university board of trustees shall waive tuition and associated fees for students who earn credit in courses toward both a Florida high school diploma and an associate or baccalaureate degree, or students enrolled in a dual enrollment or early admission program.

(6) Florida Department of Children and Family Service Adoptions - Each university board of trustees shall waive tuition and associated fees for any student who is or was at the time he or she reached the age of 18 in the custody of the Department of Children and Family Services or a relative under s. 39.5085; who was adopted from the Department of Children and Family Services after May 5, 1997; or was placed in a guardianship by a court after spending at least 6 months in the custody of the Department after reaching 16 years of age. Additionally, material and supply fees and fees associated with enrollment in career-preparatory instruction shall be waived. Any student requesting such a waiver must provide certification of eligibility from the Department of Children and Family Services to the university in which the student seeks to enroll. This waiver shall remain valid up until the time the student reaches the age of 28, and shall be limited to undergraduate degree programs, and shall not exceed 120 credit hours.

(7) School Psychology Training Program – Each university board of trustees shall waive tuition and associated fees for internship credit hours applicable to an internship in the public school system under the supervision of the Florida Department of Education certified school psychologist employed by the school system for any graduate student.

(8) Florida Linkage Institutes – Each university board of trustees shall exempt from non-resident tuition and non-resident financial aid fee up to 25 full-time equivalent students per year enrolled through the Florida Linkage Institutes Program.

(9) Deceased Teacher or School Administrator Employed by a Florida District School Board – Each university board of trustees shall waive certain educational expenses that the child of the deceased teacher or school administrator incurs while obtaining an undergraduate education or a postgraduate education if the teacher or school administrator is killed or is injured and dies as a result of an unlawful and intentional act, provided such killing or injury inflicted by another person and the motivation for the act is related in whole or part to the fact that the individual is a teacher or school administrator, or such act is inflicted while he or she is engaged in the performance of teaching duties or school administration duties while employed by a Florida district school board. The amount waived by the university shall be an amount equal to the cost of tuition

and associated fees for a total of 120 credit hours at a university. The child may attend on either a full-time or part-time basis. The benefits provided under this paragraph shall continue until the child's 25th birthday.

(a) Upon failure of any child benefited by the provisions of this paragraph to comply with the ordinary and minimum requirements of the university attended, both as to discipline and scholarship, the benefits shall be withdrawn as to the child and no further moneys may be expended for the child's benefits so long as such failure or delinquency continues.

(b) A student who becomes eligible for benefits under the provisions of this paragraph while enrolled in an university must be in good standing with the institution to receive the benefits provided herein.

(c) A child receiving benefits under this paragraph must be enrolled according to the customary rules and requirements of the university attended.

(10) Homeless – Each university board of trustees shall waive tuition and associated fees for up to a total of 120 credit hours for an undergraduate degree program for any student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence for individuals intended to be institutionalized, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(11) Purple Heart Recipients – Each university board of trustees shall waive undergraduate tuition and associated fees for each recipient of a Purple Heart, or another combat decoration superior in precedence which was awarded for valor, and who:

(a) Is enrolled as a full-time, part-time, or summer-school student in an undergraduate program that terminates in a degree or certificate;

(b) Is currently, and was at the time of the military action that resulted in the awarding of the Purple Heart or other combat decoration superior in precedence, a resident of this state; and

(c) Submits to the state university the DD-214 form issued at the time of separation from service as documentation that the student has received a Purple Heart or another combat decoration superior in precedence. In situations where admissions or financial aid application deadlines preclude providing a DD-214 in time to meet such a deadline, the official (service specific) transmitting correspondence that would normally accompany such an award to a previously discharged service member would suffice until an updated DD-214 could be obtained and presented to the postsecondary institution. However, the updated DD-214 must be submitted to the postsecondary institution by the start of

the student's next term of enrollment for continued eligibility for the waiver. In situations where a service member is on active duty and has not been issued a DD-214, the official (service specific) transmitting correspondence that would normally accompany such an award or a certification of the appropriate combat award by the service specific administrative record holder [e.g., Adjutant, G-1 (general staff officer - personnel), or JAG (Judge Advocate General)] would meet the documentation requirement.

(d) A waiver for a Purple Heart recipient or recipient of another combat decoration superior in precedence shall be applicable for 110 percent of the number of required credit hours of the degree or certificate program for which the student is enrolled. This waiver is considered "countable aid" for student financial aid purposes. Therefore, if this waiver is administered by an office other than the college financial aid office, college officials must notify the Director of Financial Aid that a student has qualified for the waiver. The waiver covers only tuition and fees associated with credit hour instruction provided directly by the university and does not include any additional fees that may be charged for specialized programs or by external organizations. This includes, but is not limited to, flight school, study abroad travel and living expenses, and courses taken elsewhere as a transient student.

(12) State Employees - Each university board of trustees shall waive tuition and associated fees for up to 6 credit hours per term on a space available basis for state employees.

(13) University Employees – Each university board of trustees may allow full-time university employees to enroll up to 6 credit hours of tuition-free courses per term on a space available basis.

(14) Florida residents 60 years of age or older - Each university board of trustees may waive any or all application, tuition, and associated fees for persons 60 years of age or older who are residents of this state and who enroll to audit courses being offered for college credit. No academic credit shall be awarded for attendance in classes for which fees are waived under this subsection. This privilege may be granted only on a space-available basis, if such classes are not filled as of the close of registration. A university may limit or deny the privilege for courses which are in programs for which the Board of Governors has established selective admissions criteria. Persons paying full fees and state employees taking courses on a space-available basis shall have priority over those persons whose fees are waived in all cases where classroom spaces are limited.

(15) Intern Supervisors – Persons who supervise interns for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor. This certificate shall provide for waiver of the basic fee (as defined in Regulation 7.001).

(a) Certificate holders are entitled to a waiver of tuition for a maximum of six (6) hours credit instruction (including credit through continuing education) during a single term at any state university.
(b) Certificates shall be valid for three years from date of issuance.
(c) Eligible recipients of an Intern Participation Certificate may be identified by a university as a person who engages in the direct supervision of at least one university intern for 300 contact hours, which may be accumulated over multiple semesters provided at least 100 contact hours of direct supervision is provided per semester.
(d) To be eligible for a Certificate, the internship program must be an essential part of the course of instruction and must be required as part of the degree.
(e) Each university shall develop procedures and policies to govern the issuance, distribution, security, and redemption of certificates.
(f) Each university shall maintain accurate data on Intern Participation Certificates and annually submit a report of certificate activity to the Board of Governors according to a prescribed format.

(16) Non-resident students – Non-resident students who are non-degree seeking may be entitled to a waiver of the out-of-state fee if the credit hours generated by such students are non-state fundable and the cost for the program of study is recovered from the fees charged to all students.

(17) Admissions Deposit – A university that establishes an admissions deposit must adopt policies that provide for the waiver of this deposit on the basis of financial hardship.

(18) Wrongfully Incarcerated – A university shall waive tuition and associated fees for up to 120 hours of instruction if the wrongfully incarcerated person meets and maintains the regular admission requirement of the university; remains registered and makes satisfactory academic progress as defined by the university in which the person is enrolled. A wrongfully incarcerated person is someone who has had a felony conviction and sentence vacated by a court and the original sentencing court has issued its order finding that the person neither committed the act, nor did not aid, abet or act as an accomplice or accessory to the act or offense.

(19) A university may waive the tuition differential for students who meet the eligibility requirements for the Florida public assistance grant.

(20) Public School Classroom Teacher – Each university board of trustees may waive tuition and fees for a classroom teacher who is employed full-time by a school district and who meets the academic requirements established by the university for up to six credit hours per term on a space-available basis in undergraduate courses related to special education, mathematics or science approved by the Department of Education. The waiver may not be used for courses scheduled during the school district's regular school day.

(21) Each university shall report the purpose, number, and value of all fee waivers granted annually in a format prescribed by the Board of Governors.

Authority: Section 7(d), Art. IX, Fla. Const.; History–Formerly BOR Rule 6C-7.008 and 6C-2.53, Amended 7-19-74, Amended and Renumbered 12-17-74, Amended 1-10-78, 9-28-81, 8-11-85, Formerly 6C-7.08, Amended 12-25-86, 9-7-87, 12-9-91, 11-9-92, 9-23-93, 8-1-94, 10-10-95, 4-16-96, 12-15-97, Amended and Renumbered as 7.008 9-25-08, Amended 12-10-09, 9-17-10, 11-08-12, _____.

9.007 State University Operating Budgets

(1) Each university president shall prepare an operating budget for approval by the university board of trustees, in accordance with instructions, guidelines, and standard formats provided by the Board of Governors.

(2) Each university board of trustees shall adopt an operating budget for the general operation of the university as prescribed by the regulations of the Board of Governors. The university board of trustees-ratified operating budget is presented to the Board of Governors for approval. Each university president shall implement the operating budget of the university as prescribed by regulations of the Board of Governors, policies of the university board of trustees, provisions of the General Appropriations Act, and data reflected within the SUS Allocation Summary and Workpapers publication.

(3) The operating budgets of each state university shall represent the following budget entities:

(a) Education and General (E&G)– reports actual and estimated year operating revenues and expenditures for all E&G funds, including: General Revenue, Student and Other Fees, Educational Enhancement Trust Fund (Lottery), Phosphate Research Trust Fund, – and including the following previously-appropriated trust funds: Experiment Station Federal Grant, Experiment Station Incidental, Extension Service Federal Grant, Extension Service Incidental, UF-HSC Incidental, and UF-Health Science Center Operations and Maintenance. In addition, expenditures from university carryforward funds (unexpended E&G balances from all prior-period appropriations) shall be included in the actual history year reporting. University carryforward funds shall not be included in any estimated-year (budgeted) amounts.

1. Unless otherwise expressed by law, E&G funds are to be used for E&G operating activities only, such as, but not limited to, general instruction, research, public service, plant operations and maintenance, student services, libraries, administrative support, and other enrollment-related and stand-alone operations of the universities.

2. Universities shall accumulate ending fund balances for activities such as, but not limited to, a contingency for unfunded enrollment growth, potential budget reductions, anticipated increases in university operations, and prior year encumbrances. At any time the unencumbered available balance in the E&G fund of the

university board of trustees approved operating budget falls below five (5) percent of the approved total, the president shall provide a written notification and explanation to the Board of Governors.

3. Expenditures from any source of funds by any university shall not exceed the funds available. No expenditure of funds, contract, or agreement of any nature shall be made that requires additional appropriation of state funds by the Legislature unless specifically authorized in advance by law or the General Appropriations Act.

4. The following units are required to report under this budget entity:

State Universities
UF - Institute of Food and Agricultural Science
UF Health Science Center
USF Medical Center
FSU Medical School
UCF Medical School
FIU Medical School
FAU Medical School

(b) Contracts and Grants – reports actual and estimated year revenues, expenditures, and positions for university functions which are supported by foundations, various state and federal agencies, local units of governments, businesses, and industries. Universities shall comply with all applicable federal, state, local, and university regulations and guidelines as they relate to grants, contracts, and sponsored research programs.

(c) Auxiliary Enterprises – reports actual and estimated year revenues, expenditures, and positions for self-supporting functions such as, but not limited to, parking services, housing, bookstore operations, and food services.

(d) Local Funds – reports actual and estimated year revenues, expenditures, and positions for the following specific areas:

1. Student Activities – revenues generated primarily from the activity and service fee each university is authorized to charge its students as a component of the mandatory fee schedule. Activities commonly supported by these revenues include student government, cultural events, student organizations, and intramural/club events.

2. Intercollegiate Athletics – revenues generated from the student athletic fee that each university is authorized to collect as a component of the mandatory fee schedule, and from other sources including ticket sales, radio/TV, bowl games, and tournament revenues.

3. Concession Fund – revenues generated from various vending activities located around the campuses. The university's budget must reflect the various departments/activities on each campus which benefit from receipt of these funds.

4. Student Financial Aid – revenues received by the university for loans, grants, scholarships, and other student financial aid. Expenditures of these funds must be reported by activities such as externally-funded loans, student scholarships, need-based financial aid, academic-based financial aid, and athletic grants/scholarships.

5. Technology Fee – revenues generated from the technology fee that a university is authorized to charge its students as a component of the mandatory fee schedule. Proceeds from this fee shall be used to enhance instructional technology resources for students and faculty.

6. Board-Approved Fees – student fees presented to the Board of Governors for approval by a university board of trustees that is intended to address a student need not currently being met through existing university services, operations, or another fee.

7. Self-Insurance Programs – revenues received by the university from entities and individuals protected by the self-insurance programs. This budget must reflect expenditures related to the administration of the self insurance programs and the judgments or claims arising out of activities for which the self-insurance program was created.

(e) Faculty Practice Plan – related to the activities for the state universities' medical schools and health centers. This budget must be designed to report the monetary level of clinical activity regarding the training of students, post-graduate health professionals, and medical faculty.

(4) The operating budgets of each university shall represent the following:

(a) The university's plan for utilizing the resources available through direct or continuing appropriations by the Legislature, allocation amendments, or from local sources including tuition. The provisions of the General Appropriations Act and the SUS Allocation Summary and Workpapers publication will be taken into consideration in the development and preparation of the E&G data.

(b) Actual prior-year revenues, expenditures (including E&G carryforward amounts expended), and positions, as well as current-year estimated revenues, expenditures, and positions. University carryforward funds shall not be included in any estimated-year (budgeted) amounts.

(c) Assurance that the universities are in compliance with general legislative intent for expenditure of the appropriated state funds and with the Board of Governors' guidelines and priorities.

(5) Interest earnings resulting from the investment of current-year E&G appropriations are considered to be of the same nature as the original appropriations, and are subject to the same expenditure regulations as the original appropriations. E&G interest earnings are not to be utilized for non-E&G related activities or for fixed capital outlay activities except where expressly alloed by law. Interest earnings resulting from invested carryforward funds are considered to be additions to the university's carryforward balance.

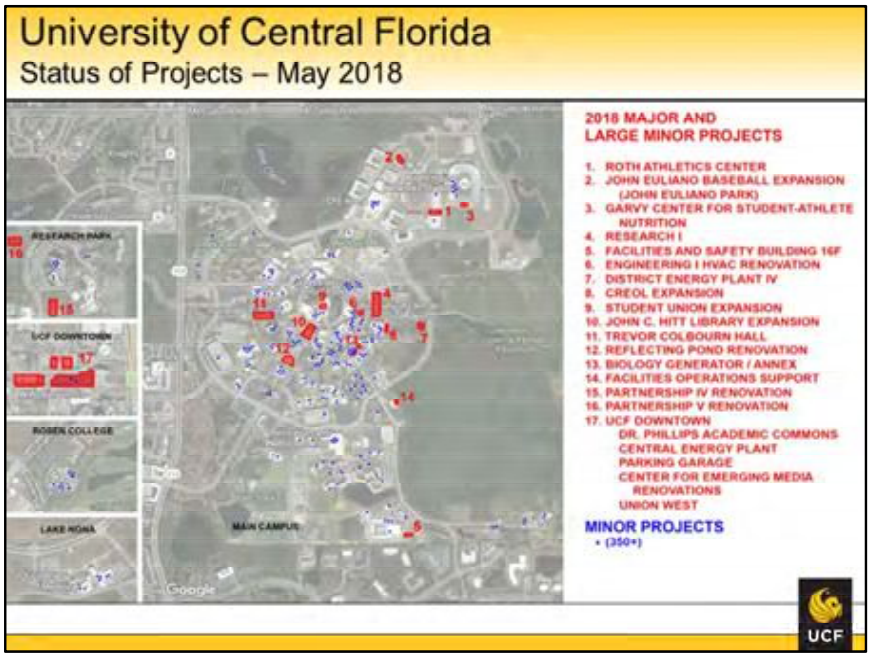
Anticipated interest earnings for the estimated year from invested E&G funds should not be included when building the detailed operating budget schedules. Estimated-year E&G interest earnings and planned expenditures of these funds should only be reported on the manually-prepared E&G Schedule I and Summary Schedule I reports.

(6) Any unexpended E&G appropriation carried forward to the fund balance in a new fiscal year shall be utilized in support of E&G operating activities only except where expressly allowed by law..

Authority: Section 7(d), Art. IX, Fla. Const., History–New 12-6-07, _____

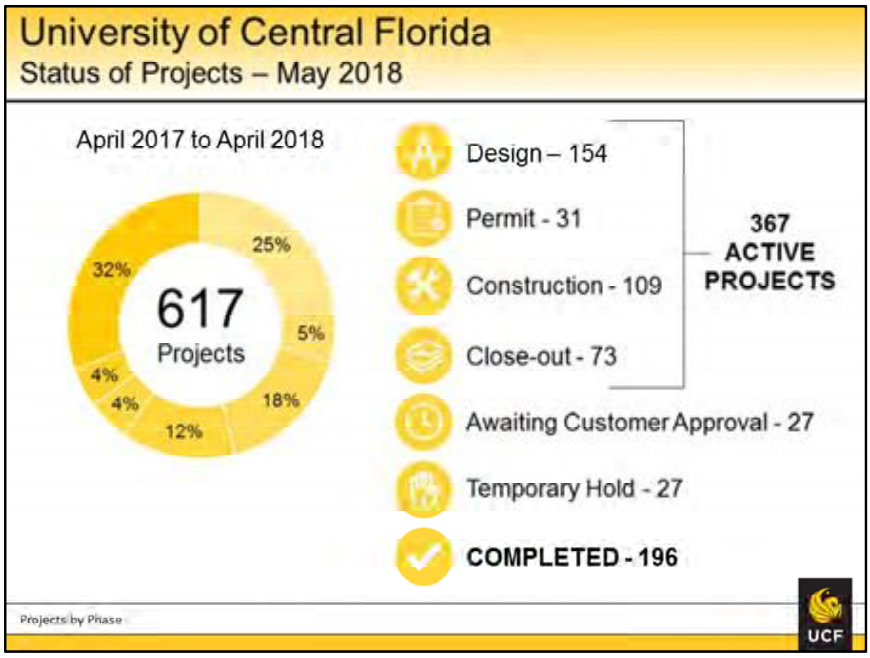
XXX.X Collegiate License Plates Revenues

(1) Pursuant to Section 320.08058(3)(b), Florida Statutes, each university board of trustees must submit an expenditure plan to the Board of Governors for approval of all funds generated from the sale of collegiate license plates. The revenues generated may be used only for academic enhancement, including scholarships and private fund raising activities.



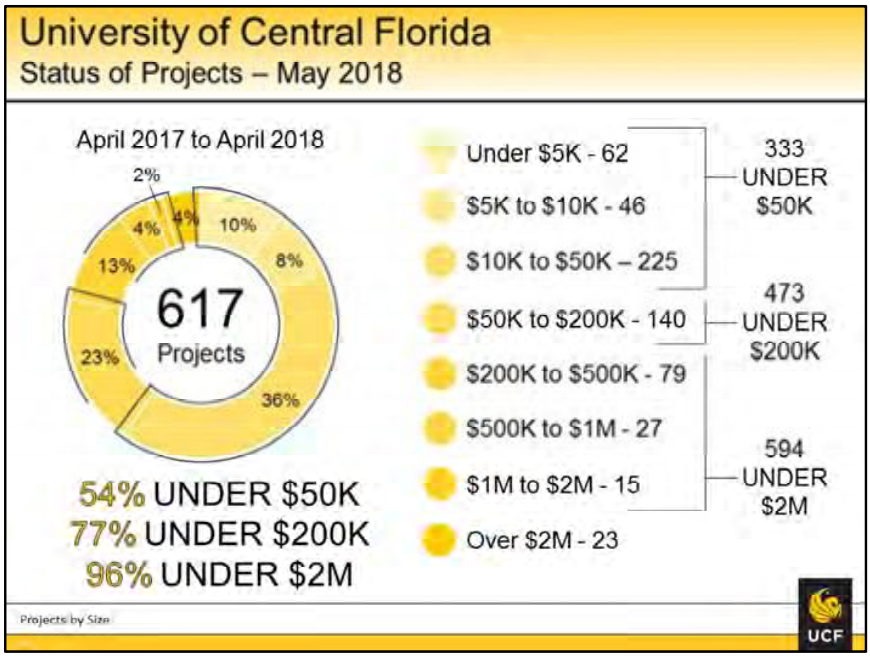
(2) The expenditure plan shall indicate the percentage of revenues allocated for academic enhancement, including scholarships and private fund raising activities.

	Scholarships	Fundraising	Academic Enhancement
FAMU	85%	15%	
FAU	75%	25%	
FGCU	100%		
FIU	75%	25%	
FSU	90%	10%	
NCF	50%	10%	40%
UCF	20%	30%	50%
UF	60%	40%	
USF	20%	66%	14%
UNF	70%	30%	
UWF		100%	

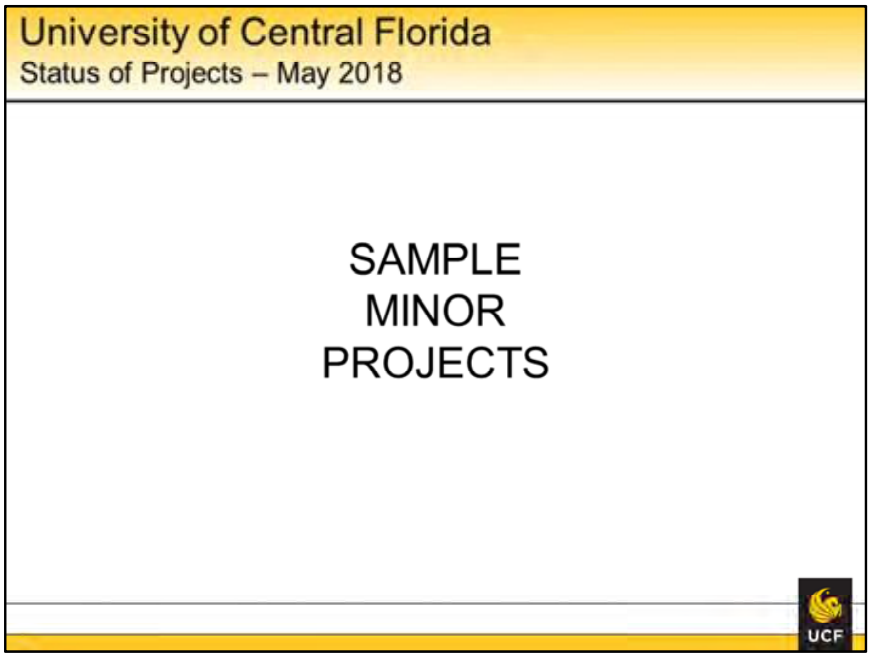


(3) Any deviations from the approved expenditure plan must be submitted to the Board of Governors for review and approval.

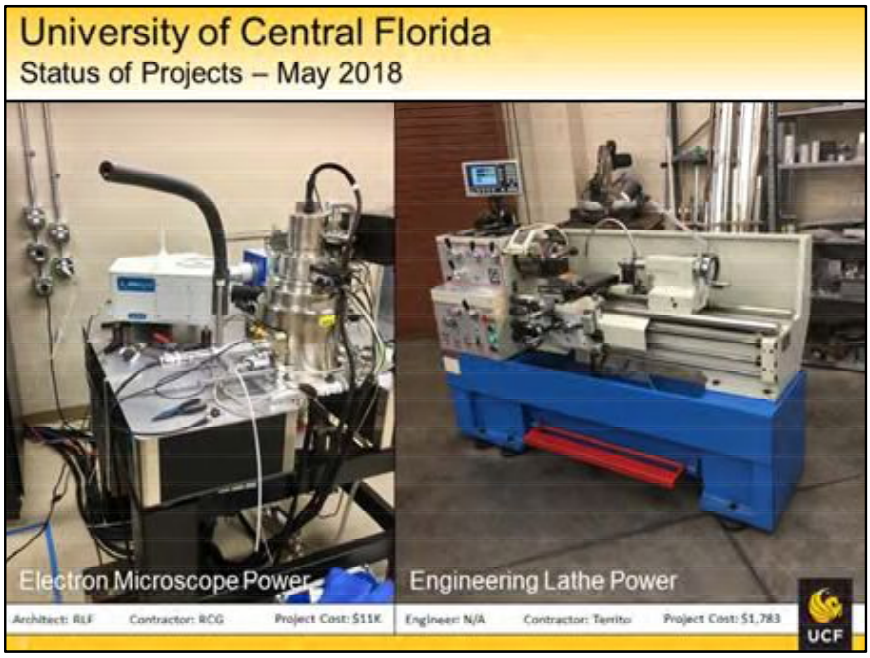
Authority: Section 7(d), Art. IX, Fla. Const.;



University of Central Florida
Status of Projects – May 2018
UCF Status of Projects Update
May 2018
Facilities Planning and Construction
UCF



- Red projects indicate major and large minor projects
- Blue projects indicate small projects
- We are working all over the campus – almost every building has a project of some sort going on

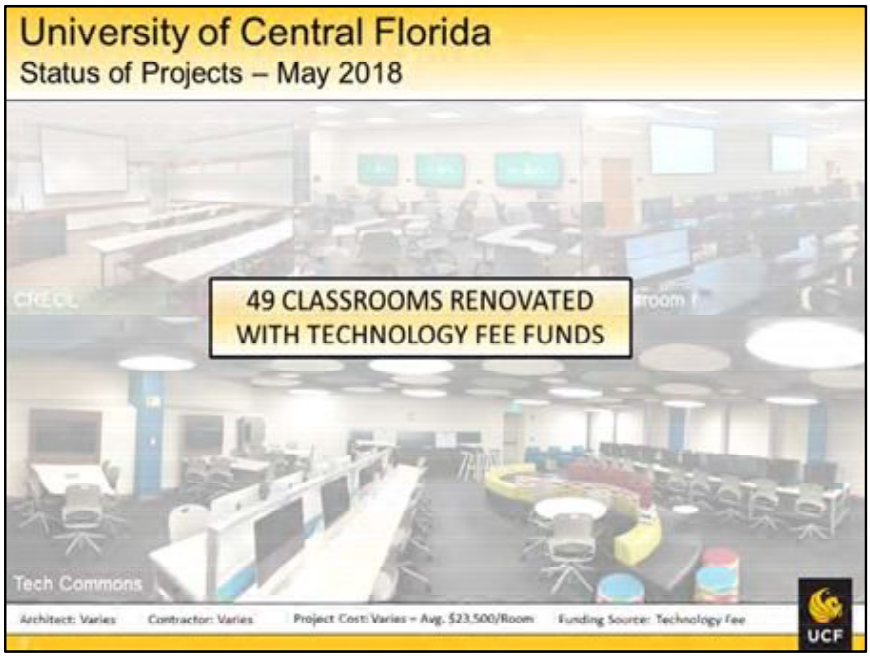


- Discuss total project count – 617 projects worked on in last 12 months
- Numbers above are as of the day reported in April, numbers are in constant flux
- Discuss phases
    - design/permit/construction/close-out are considered “active – between 350 and 400 at any given time
    - Awaiting customer approval – in client’s hands for funding, design approval, etc.
    - Temp hold – projects on indefinite hold but anticipated to start again – such as tech fee projects
    - Completed – 196 in this annual reporting period – completely closed out
- Cancelled – not shown on numbers above, but over 100 projects cancelled each year that we spend time on. Reasons vary – lack of funding, change direction, etc.

- Discuss projects by cost – for same 617 projects
  - Majority, almost 54%, under $50K – LOTS of small projects
  - 77% under $200K
  - 96% under $2M
- The vast majority of our workload, by quantity, is projects under $2M, with most being under $200K

Break slide, following projects are a small sample of minor projects completed in the last year

RESEARCH
- Physical Sciences Building - power for scanning electron microscope
- $11K project for multiple power outlets and types to support a very expensive piece of research equipment.



RESEARCH
- Engineering 2 - $1,773 outlet for engineering lathe
- Outlet is actually ceiling mounted with conduit back to the electrical panel, lathe cord plugs into ceiling

While these projects are small in dollar value, they are very important to the research needs of the university.

INSTRUCTION

- Health & Public Affairs Bldg Anatomy Lab
- Combined two rooms in order to create an enlarged, expanded Anatomy lab
- Columns in the middle of the image are not structural, they are concealing new mechanical exhaust that connects directly to the tables, which draw fumes away from students
- Upgraded exhaust, direct from tables
- A/V and cameras for enhanced instruction
- New anatomy tables

TECHNOLOGY FEE

- 49 projects in 15 different buildings
- Classroom upgrades – A/V, carpet, paint
- ADA compliant podiums
- Active learning in select rooms

TECHNOLOGY FEE

- Technology fee is not just for classrooms – is for any instructional or learning
- For Visual Arts Building, the tech fee was for replacement of two kilns
- Project also included exterior structure replacement, original structure was rusting and unsafe

PARTNERSHIP

- Repurpose conference room and copy/work area into office space (Design $16K, Construction $38K)

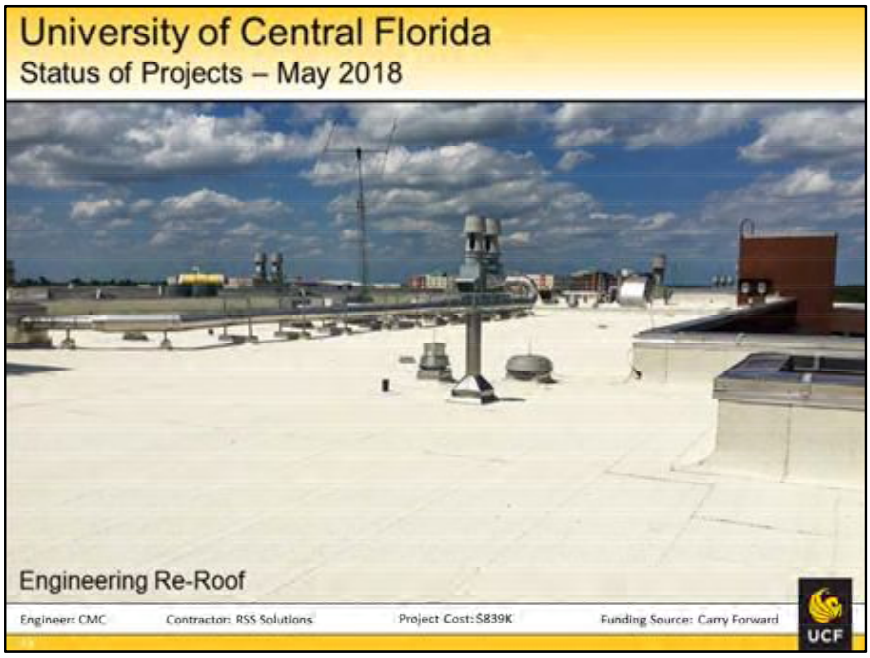
DONOR

- Located in Business Admin building
- Lupfer Donor Wall and signage – (Design $7.4K, Construction $141K)

INTERIORS

- Provost Suite
- Changed closed offices to open office concept
- Me space – office area, small conference room
- We space – open break area, large conference room, collaborative seating areas
- Gained Light Office concept (GLO)

BUSINESS SERVICES



- Chilis renovation in the student union
- Amazon at Knights Plaza
- Dominos Pizza at John T Washington
- Smoothie King at Recreation & Wellness Center

Other Projects in the works – Barns & Noble refresh projects, Barber Shop at John T Washington, Chick-Fil-A refresh at John T Washington, Gringo Loco Taco at Knight's Plaza

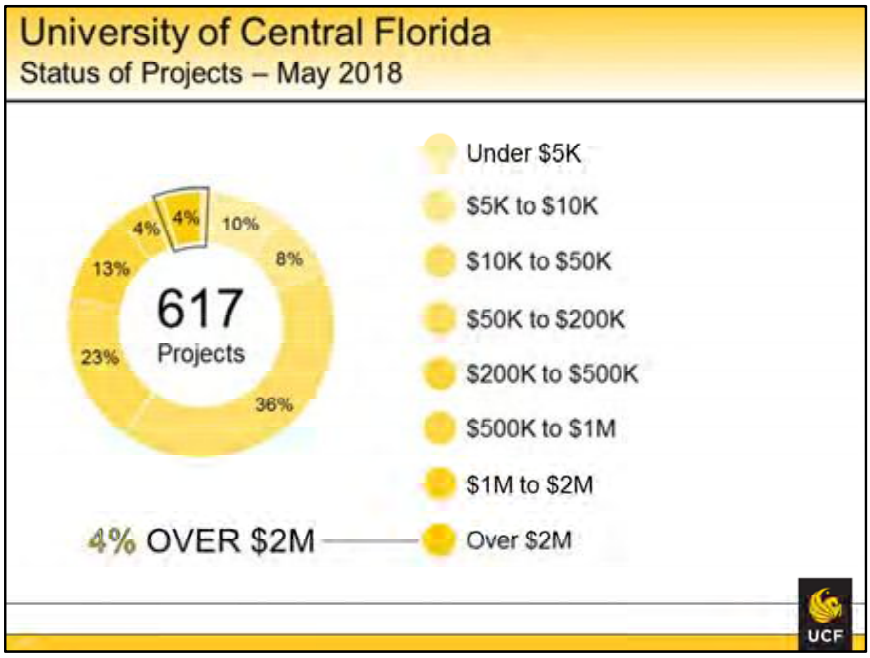
ATHLETICS

- FP&C is proud to support UCFAA and help contribute, from a facilities perspective, to the 2017 undefeated football season!
- Completed many projects for UCFAA this year, including several key projects (on screen) prior to 2017 Football Season
    - Nicholson Field House Temporary HVAC for air conditioned football practices
    - Stadium Concourse VIP area (Stadium Club), including installation of 14,000 linear feet of conduit for power additions (TVs, outlets, foodservice support, etc.), temporary restroom permitting, and temporary walk-in cooler permitting
    - Stadium Premium Seating inspections
    - Stadium South LED scoreboard and flagpole
    - Stadium Spectrum signage (east tower, west tower, north LED Scoreboard)
    - Stadium Rosengren Lounge approvals
    - Stadium South End Zone Field Cabanas, including power for TVs
    - Softball Seating inspection
    - Dixon Athletics Village signage
- We are continuing to work on additional UCFAA projects for this football season including additional premium areas

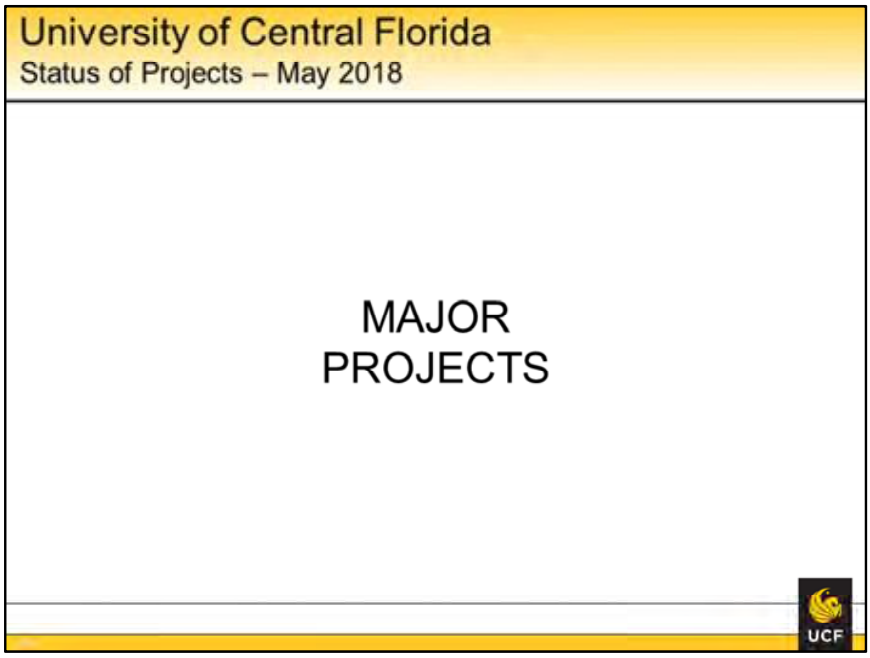
DEFERRED MAINTENANCE

* Roof replacements, building envelope repair
* Engineering 1 re-roof shown - one of 10 roof projects that we worked on over the last year

DEFERRED MAINTENANCE



- Libra Housing Boiler Replacement – (Design $17K, Construction $189K)
- Biology Generator – provides backup power to research in the biology building, installed prior to hurricane Irma and functioned well during the event
- Air handler replacements
- Building control systems replacements



Reflecting Pond replacement

- New fountain system with LED lights and control panel for advanced fountain programs
- New pump and filter system installed in existing Millican vault (formerly transformer vault)
- Opened ahead of schedule, before Spring 2018 Graduation!

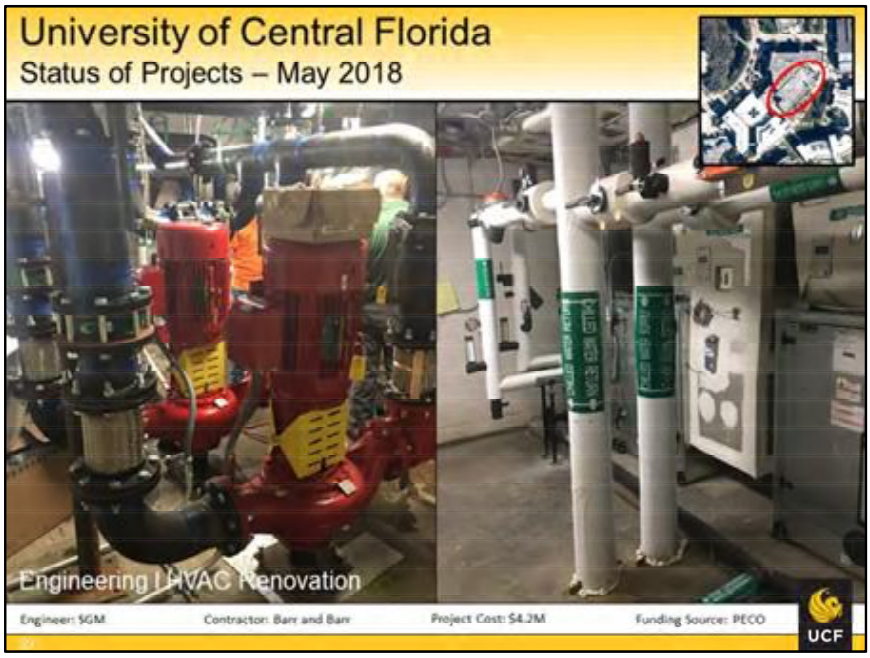
<< END OF MINOR PROJECTS SLIDES, CLOSE WITH: >>
PROJECTS SHOWN REPRESENT 4% OF THE MINOR PROJECTS THAT WE WORK ON IN A GIVEN YEAR

The rest – 4% projects over $2M

Shown roughly in order from “completion” to “concept”

*105,000 gsf building (66,000 gsf phase 1, 39,000 gsf phase 2)

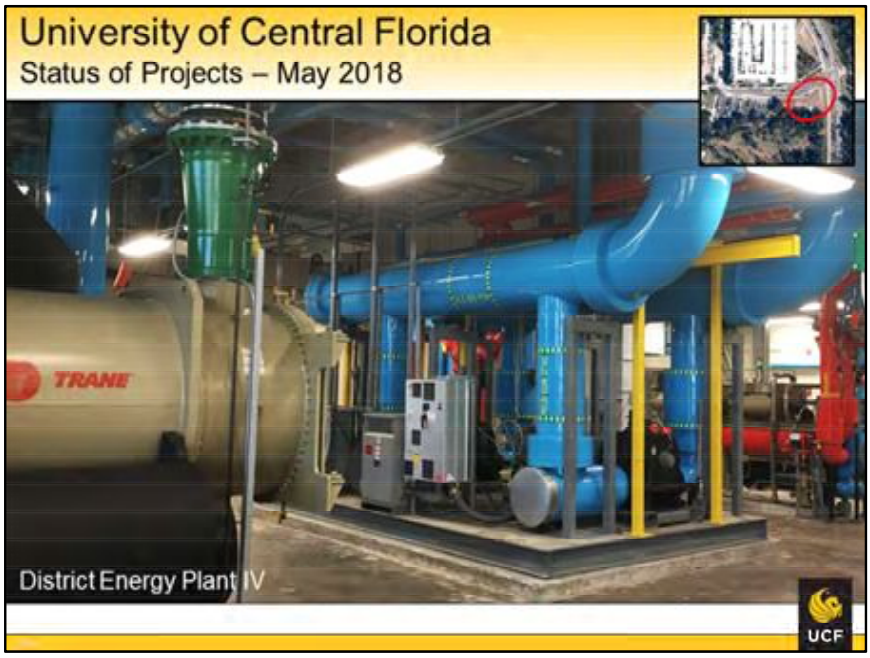
- 30 research/incubator labs, 20 materials characterization rooms, conference rooms, offices, ancillary spaces
- Programs include:
    - Materials Characterization Facility
    - NanoSciences Technology Center
    - Sustainable Coastal Systems Cluster
    - Energy Converstion and Propulsion Cluster
    - Resiliant, Intelligent, and Sustainable Energy Systems (RISES) Cluster
    - Cybersecurity and Privacy Cluster
    - Human Augmentation Cluster



- Challenging project as building was originally designed with “generic labs” as final occupants were unknown (except Materials Characterization on the first floor)
- Occupants were assigned in 2017, with many changes that were incorporated during construction
- Project opened January 2018, building is currently occupied.

FACILITIES AND SAFETY 16F

- Adds additional warehouse capacity for surplus & storage
- Hard drive shredder
- Postal pack & ship in support of surplus program
- Revenue generation – roughly $250K in sales annually
- F&S parking lot renovation in bidding



ENGINEERING 1 RENOVATION

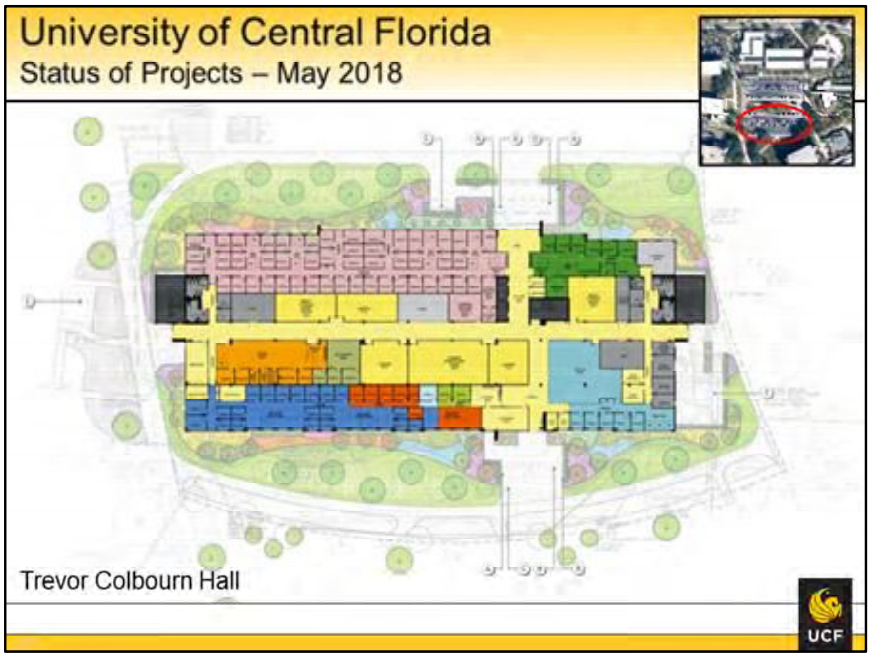
- Requested $16M from state, provided $4M
- Replaced 15/16 Air Handlers in the Engineering 1 building
- Life Safety Upgrades – labs, fume hoods, rated walls
- Upgrade Electrical System – MDP 2
- HVAC/Pump work completed Summer 2017
- Life Safety work completed during Fall 2018
- Project currently in final commissioning and close-out

DISTRICT ENERGY PLANT 4

- Adds additional chilled water capacity for future growth and redundancy on the campus
- Adds 2 chillers, with room for expansion for 2 additional chillers
- Project is visible from Gemini road, so must be visibly pleasing
- Project in final commissioning and close-out

DISTRICT ENERGY PLANT 4

- Internal design includes color pipe systems to aid in the explanation of how the project functions, for engineering student groups and peer groups.



JOHN EULIANO BASEBALL STADIUM EXPANSION

- 100 shaded seats
- 300 seat club with air-conditioned lounge
- Expanded concessions
- Press box relocation to the second floor
- Children's activity area behind third-base line
- Construction throughout baseball season (great partnership with UCFAA and BCO to make this happen)
- Project currently in final commissioning and closeout

TREVOR COLBOURN HALL

- 135,000 gsf new construction
- Houses current Occupants of Colbourn Hall
    - English
    - Writing & Rhetoric
    - History
    - Modern Languages
    - Texts and Technology
    - Judaic Studies
    - College of Arts and Humanities Advising Office
    - University Writing Center
    - Center for Humanities and Digital Research
    - Graduate Student Center
    - 7 classrooms
    - Conference rooms, ancillary space
- Additional Programs
    - Student Development and Enrollment Services
- Substantial Completion – July 31, 2018
- Move-In – August, 2018, prior to Fall 2018 term

TREVOR COLBOURN HALL

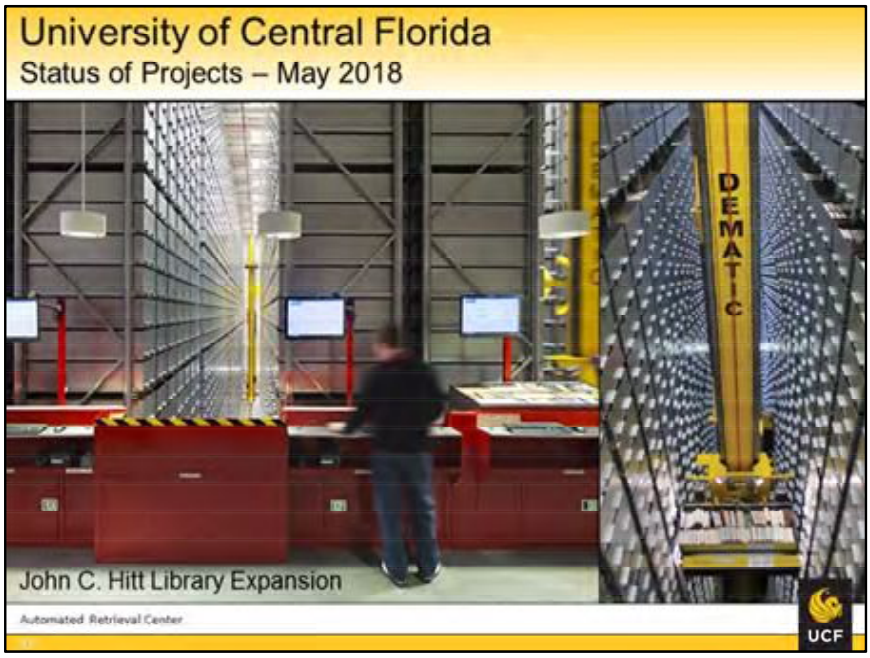
- Plan includes a main concourse which has many study and waiting spaces.
- Gained Light Officing concept in many parts of the building

CREOL BUILDING EXPANSION

- 13,500 gsf addition
- 8 new labs, multiple offices, shell auditorium on the ground floor
- Construction in progress
- Construction of the adjacent Bus Loop has been included by the contractor due to the parallel construction schedule

WAYNE DENSCH SPORTS CENTER EXPANSION

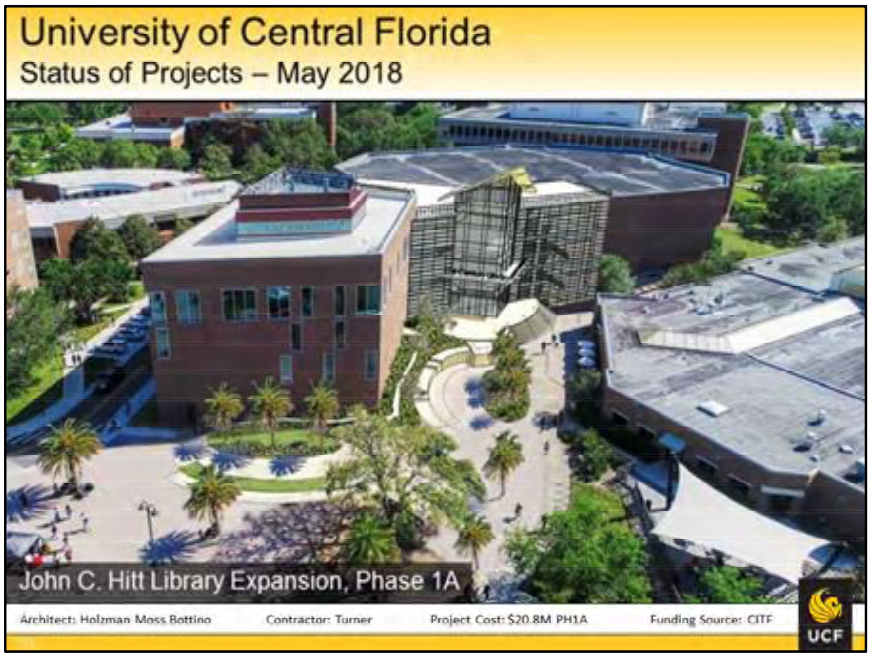
- Expanded and consolidated offices for Athletics staff
- Support spaces for Athletics programs
- Initial design – shell construction only - $2.4M; sitework only - $2.0M. Shell does NOT INCLUDE - HVAC, electrical, second floor, sprinklers, or any infrastructure…COLD DARK SHELL ONLY.
- Interior build-out - including HVAC, electrical, second floor, sprinklers, infrastructure - $7.2M
- Shell project under construction, but delayed pending UCFAA design changes to structure/shell
- Interior project has completed Schematic design, recently received full funding for design so the interior design effort will resume soon



STUDENT ATHLETE NUTRITION CENTER

- Renovation of the UCF Football Recruiting Lounge
- Adds kitchen, serving stations, and restrooms
- Currently in construction
- Targeting Fall 2018 completion

JOHN C. HITT LIBRARY EXPANSION



- Phase 1 – stand alone ARC building
- Automatic Retrieval Center (3 aisles of robot)
- Sprinkler existing building
- ADA restroom upgrades to existing building
- Exit stair handrail replacement at existing building
- 7,500 sf renovation of existing library fifth floor for a new study area

JOHN C. HITT LIBRARY EXPANSION

ARC Statistics

- Accommodates 2.25M volumes of material
- Request for materials from any device with internet access
- Automatic crane locates materials and delivers to pick-up station
- 5-10 minutes for entire process

JOHN C. HITT LIBRARY EXPANSION
Phase 1A – Connector building

- Connects ARC back to main library
- Provides new entrance to the north side of the library facing the Student Union
- Finishes fourth floor reading room over ARC
- Upgrades electrical service to building – this part of the project was accelerated and completed over the 2018 winter break
- Construction GMP has been approved and executed, construction progress on site will start in June

JOHN C. HITT LIBRARY EXPANSION

- Interior rendering of the second floor is shown, looking toward new circulation desk and new main entry

Phase 2 – interior renovations of existing library

- Subsequent floors to be renovated one at a time, as CITF funds become available

STUDENT UNION EXPANSION

- Renovates five new foodservice concepts
- Renovates back of house kitchen and dishwasher upgrades
- Adds 700 dining seats in the first two floors of the building expansion
- Adds third floor for student government space

STUDENT UNION EXPANSION

Multi-phased project

- food court renovation under construction targeting Fall 2018 completion
- full building expansion Guaranteed Maximum Price proposal under evaluation

PARTNERSHIP 4 and 5

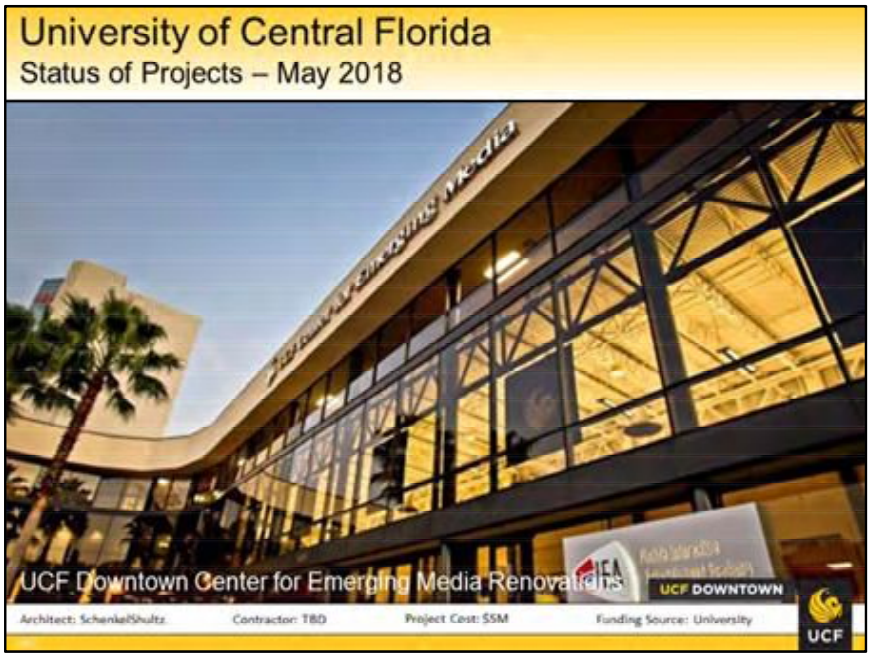
- Primarily military tenants

Partnership 4

- Schematic Design in progress – concept plan changes and furniture layouts are under review
- Targeting October 2018 occupation for military tenants
- Only 3,000gsf of UCF space in the 83,000gsf building

Partnership 5

- Currently negotiating existing leases with existing tenants to encourage their relocation
- 4th floor SCIF under design, working in conjunction with the military for design and construction



UCF HOTEL AND CONFERENCE CENTER

- Enhancement to existing academic facilities
- Desirable service component to the campus
- Designed, constructed, and operated by a private developer
- Construction started April 2018

UCF HOTEL AND CONFERENCE CENTER

- Current rendering shown

In addition to design and construction, there are many planning efforts underway with Facilities Planning and Construction

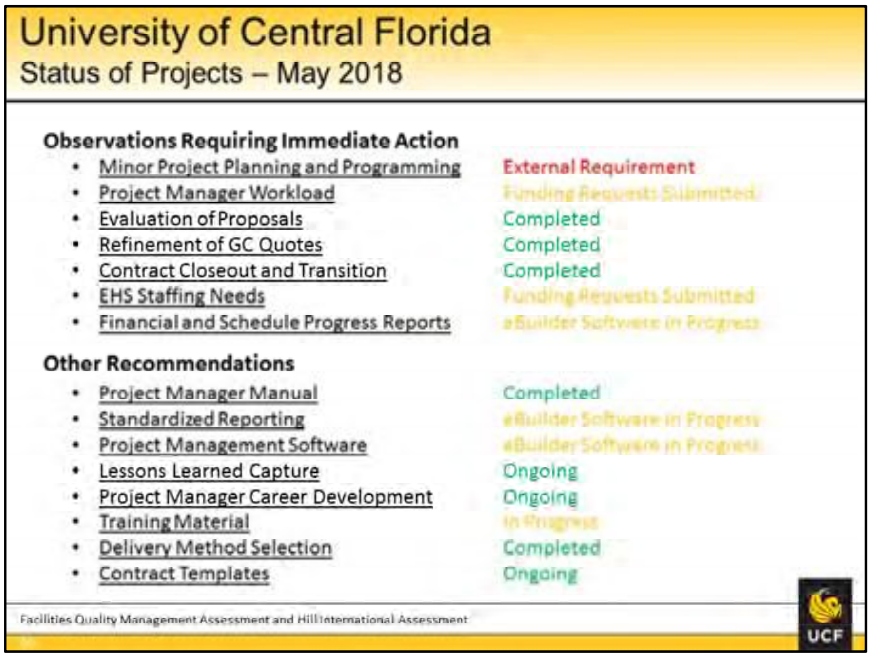
- Facilities Budget Committee Support
- Concept Planning Efforts
- Gearing up for the 2020 masterplan

ARA DRIVE

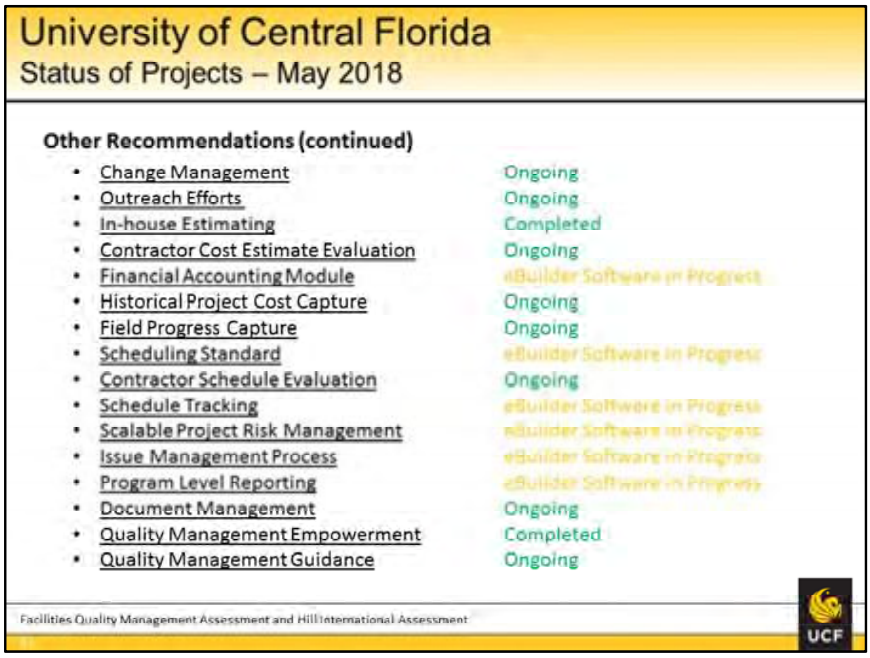
- The next Research area of campus – “Discovery Park”

ACADEMIC HEALTH SCIENCES CENTER

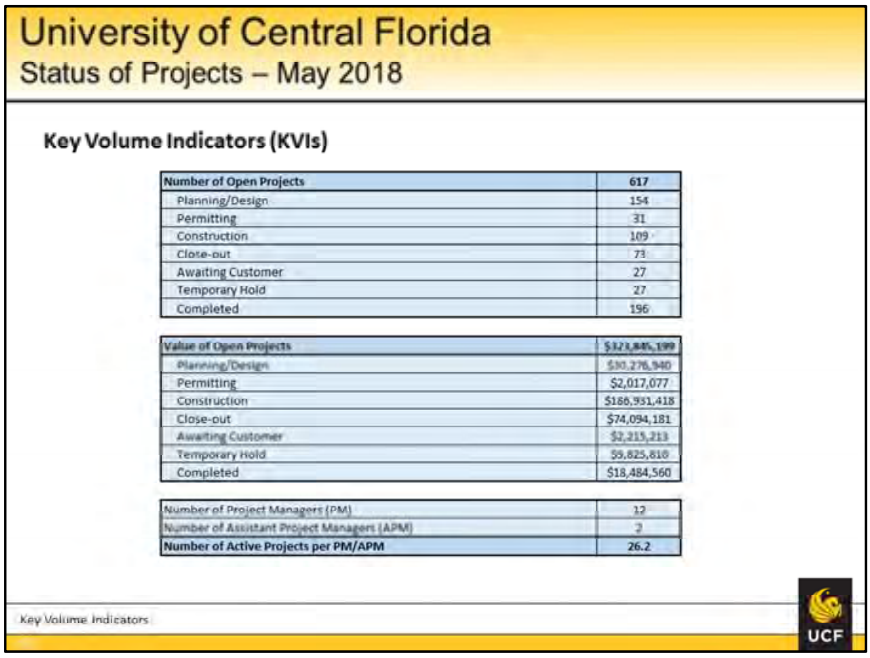
- Health Sciences and College of Nursing Building
- Parking Garage and temporary parking



ROSEN COLLEGE OF HOSPITALITY MANAGEMENT

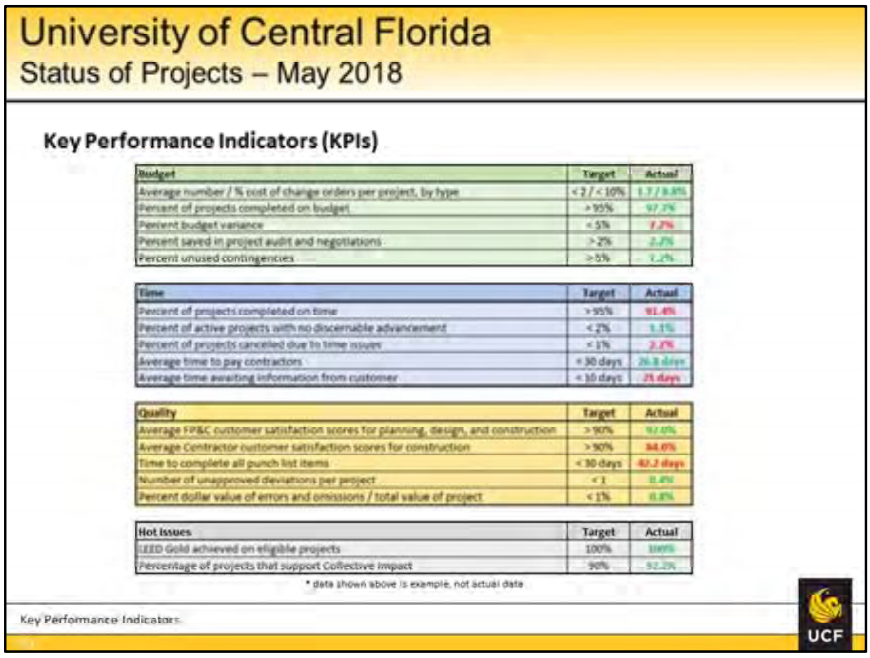


- Rosen Educational Facility
- Parking Garage



- Internal Assessment by Facilities & Safety's Quality Management and Improvement
- External Assessment by Hill International
    - Identification of gaps and risks with leading industry and peer institution practices
    - Development of organizational and process improvement recommendations
    - Prioritization of recommendations based on resources required for implementation, and impact
    - Development of a high-level plan to implement the improvement recommendations
- UCF Audit – Bidding and Selection Procedures

- Observations Requiring Immediate Action
- Other Recommendations



- Other Recommendations

KEY VOLUME INDICATORS

- Track volume of workload
    - Number of Open Projects
    - Value of Open Projects
    - Number of Projects per Project Manager
- eBuilder will allow us to track and capture these and other key metrics

KEY PERFORMANCE INDICATORS

- Draft list of KPIs on this slide. Should keep to 15-20 maximum and focus them on what is important to help meet University goals.
- Many others can be considered – will be discussing specific indicators to track with university leadership
- Data will be populated over the coming year as projects migrate fully to eBuilder
- Hot topics can come and go for tracking

Research I

Originally titled the Interdisciplinary Research and Incubator Facility (IRIF), Research I is a 105,775gsf building containing 79 labs with a NFPA 45 rating, 84 offices, conference rooms, break rooms, and support rooms. Due to project budget constraints, the project was designed and constructed in two phases. Mid-construction, many changes were made to the plans, requiring re-design efforts and an extension to the project schedule – but this allowed for both phases to be completed at the same time, greatly simplifying the commissioning process. Project management efforts for Research I earned FP&C the top award in 2018 from the Construction Owners Association of America (COAA). UCF and Michigan State were the only universities to be awarded the COAA Gold Project Leadership Award, recognizing UCF's excellence in project delivery.

Research I Has The Power

Fiji G2

UCF's award winning (https://lnkd.in/eHuhgqx (https://lnkd.in/eHuhgqx)) Research I building opened in January 2018, but projects continue inside the building as research needs evolve. Below are pictures of just a few labs with high-tech research equipment needing power, gas, air, process chilled water or other infrastructure needs. Our latest power support project was installed in 10 days from the time our team assigned the project to completion – a very fast turn-around for scoping the project, receiving a quote, obtaining approval/funding, issuing a Purchase Order, DOING THE WORK, and getting inspections complete. Thanks to our UCF PM Trey Beck, and to Ballentine Electric for this very fast turn-around to support the research needs of the University! For more UCF Facilities Planning and Construction Recent News, see the link below!

COLLEGES & CAMPUS NEWS

Newest UCF Research Building Coming Online

BY ZENAIDA KOTALA | JANUARY 19, 2018

Credit: Karen Norum

The long-awaited Research I building located between Engineering and CREOL is just about ready for business.

Faculty members from various colleges and centers will begin moving into the 105,775-square-foot facility this month. They will share three floors of wet labs, conference rooms, lecture halls and offices.

The building was built to provide the infrastructure, atmosphere and culture necessary to enhance the work of interdisciplinary teams already at UCF and to spark new collaborations and programs in research, technology transfer and commercialization.

Among the new tenants will be faculty, students and staff associated with programs in nanoscience technology, advanced materials processing and analysis, lasers and photonics, energy research, and the Faculty Cluster Initiative .

The new building, which adds much needed research space to the main campus, is expected to help create a bridge between technology development and technology transfer and commercialization. These enterprises in turn help drive economic development activities in the region and state.

To get an update on progress of the move in, click here.

Fixed Capital Outlay Budget Request

2013-2018

University of Central Florida

Office of the President

July 27, 2012

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

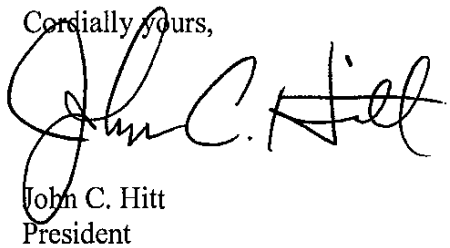
Dear Mr. Jones:

In accordance with your request to the Council of Presidents dated April 20, 2012, enclosed is the University of Central Florida's (UCF) Five-Year Fixed Capital Improvements Plan for the years 2013-2018. This list revises UCF's primary priorities of previous years in accordance with the funding allocated by the Board of Governors (BOG) and includes facilities consistent with recent program developments and needs of the university. Utilization was considered in the prioritization of UCF's projects. The order of projects numbered one through five and eight through 28 reflect the priority given in the BOG instructions. Projects 6, 7, and 8 are prioritized differently to reflect the specific needs of the University of Central Florida as follows:

6. Interdisciplinary Research and Incubator Facility was previously funded for planning in 2011-12, but had to be reverted for the construction of Classroom II Building and ROTC. This facility is a critical STEM need for UCF.

7. The $7.5 million for UCF-VC Classroom Building is required for shared space in Osceola County, which is an underserved area in the state.

8. The Arts Complex Phase II (Performance) will meet a critical need for theatre and music performance space at UCF. Currently, UCF has no concert or proscenium theatre space, which negatively impacts the Theatre and Music programs.



The UCF Five-Year Fixed Capital Improvements Plan was reviewed and approved by the University Board of Trustees (BOT) on July 26, 2012. The BOT requests that the Math & Physics Building be renamed the Math Sciences Building.

Status of UCF Projects Update
April 27, 2012

Located at Parking Garage B.

Engineer- Matern Engineering Construction - Dioko Energy Solar Installers Inc.

Project Cost: $775,504.12

Funding Source: PEF Grant / UCF - SEM

Gross Square Feet (GSF): N/A - outdoor project

Progress Energy's Sunsence School Program funded the majority of the solar project installation. The Garage B 107.52 kW DC Solar PV install consists (448) 240-Watt Solar World Sunmodeule FSEC certified panels across the north and south arrays located on the south lawn of Parking Garage B. This project was completed in January of 2012 and is currently producing solar power generation of ~ 450kWH -550kWh per day. This project is expected to produce 157,000 kWH's (almost half of the total power consumed in this facility annually) and will save the parking garage an estimated $15K / year in electrical costs. The second component of the project is student outreach and awareness of solar power generation. This Progress Energy grant also covered four educational kiosks that will be located at facilities TBD in the next couple months. These kiosks will display the solar generation of the project, trends, weather and provide touch screen interaction to view the data however the student desires.

Status of Project: Completed in January 2012.

Met all required deadlines set forth by the grant. Progress Energy will reimburse UCF in the amount of $645,092 due March-April 2012.

Expansion of Existing on North side of campus

Architect – DLR Construction – Skanska

Project Cost: Phase I - $586,394

Funding Source: Athletics

Phase I – Expanded the upper and lower bowl grandstands by adding 775 new seats. Expanded the restrooms to accommodate the additional occupancy load.

Status of Project: Final completion - April 2012.

LNR has completed more than 30 campus enhancements, both large and small, this fiscal year. The bigger projects include: planting live oaks on Memory Mall, major renovation of the landscape at the Student Union, and developing landscape plans for renovating the focal area between Millican Hall and the Reflecting Pool. Smaller projects include: landscape enhancements around the University Blvd entrance, renovation of the atrium at the Chemistry building, and landscape improvements around Millican Hall. Other major enhancements planned for this fiscal year include planting oak trees along Orion Blvd at the edge of the VIP tailgating area, and installing irrigation and landscape material to enhance the median at the north entrance to the University on Orion Blvd.

Located on Neptune Drive

Delivery Method: Minor Project

Construction - Clancy and Theys Architect - KZF Orlando Engineer – Matern Engineering

Project Cost: $2,025,000

Funding Source: Funded jointly by College of Engineering and Computer Sciences, Provost, ORC, and Utilities Infrastructure (Lee Kernek)

Gross Square Feet (GSF): bldg 4,200 sf; Open Air Lab 2,314 sf

Research will be conducted by MMAE faculty and their graduate students, with research associates and post-docs involved where appropriate. The research will be on wide range of leading-edge topics such as combustion-generation pollution, combustion and propulsion, plasma processing of nano-ceramics, flame-vortex interactions, solid oxide fuel cells, catalytically-active thin films, manufacturing of ceramic laminates, ultra-high temperature ceramic composites, aerodynamics and heat transfer for gas turbines, etc.

Includes:

- External pad and canopy
- 1 Class A Research Lab – Most hazardous chemicals and limited square footage.
- 4 Class B Research Labs

Status of Project: Building complete, TCO issued except for room 111 Clean room lab. Clean room is onsite; CM awaits PO for installation of clean room and equipment. Need CM final pay application for bldg construction to release contingency funds, which will fund the clean room and equipment installation.

Estimated Completion Date: Cleanroom May 2012

LEED Status (Silver, Gold): anticipate Silver

Is project on track (if not why?) Cleanroom late due to funding source. CM has one outstanding invoice for a subcontractor. C&T hopes to have it by April 13, so they can submit final pay application for the building construction. Since the cleanroom (and associated equipment) is to be funded by contingency $$, we cannot get a PO issued until contingency is released.

Located on Gemini at Libra

Architect - Schenkel Schulz Construction – Clancy & Theys

Project Cost: $12,135,633.12

Funding Source: University Loan

Gross Square Feet (GSF): 5,000

Natural gas engine/plant will generate approximately 33% of power needed for main campus, reducing UCF's environmental impact by 30%. Savings of $2.5M per year are projected. Will also create chilled water for HVAC utility plant.

Status of Project: Bldg construction nearly complete. Pre-commissioning began April 9; motor to be tested week of April 16. Expect full power-up and CO by end of May 2012.

Estimated Completion Date: May 31, 2012

LEED Status (Silver, Gold): N/A unoccupied building

Engine during test in Japan.

Located In Buildings 29 and 13

Project Name: Technology Commons (CCI/CCII 1st Floor Renovation)

Architect – HKS Construction - CPPI

Project Cost: $695,654- CCI; $1,423,415- CCII

Funding Source: Tech Fees and CS&T

Gross Square Feet (GSF): 4,534 at CCI; 11,280 at CCII

This renovation will greatly improve the aesthetics of 1st floor spaces which will serve as a comprehensive technology center for students, with state-of-the-art computer labs, collaboration rooms, wireless study lounges, a computer store, computer repair center, cafe/coffee shop, video editing & podcast room, and 2 large furnished project rooms. Courtyard landscaping will be addressed with this renovation. CCI renovation includes all 1st floor space; CCII renovation includes all 1st floor spaces except offices 101 & 102 (Statistics) and a large stockroom.

Status of Project: CCI renovation completed, Certificate of Occupancy issued 12-28-11. CCII opened with a Temporary CO. 2nd floor fire alarm modifications have been completed and mass notification system is installed; both to be tested by May 1. Certificate of Occupancy and final pay application expected mid-May.

Estimated Completion Date: CCII is open for use, punchlist nearly complete. Patio furniture resolution by June 1.

Located in Uptown Retail north of Gemini Blvd.

Architect – Borrelli and Partners Construction - Welbro

Project Cost: $1,174,184

Funding Source: CITF

Gross Square Feet (GSF): 8,840

Buildout of existing Uptown retail space by Recreation / Wellness Center for student exercise facility. Contains space for two cardio studios, fitness studio, mind and body studio, restrooms, showers, and lockers.

Status of Project: Plans in for permitting

Estimated Completion Date: October 2012

Located north of Physical Sciences Building.

Minor Project

Construction - Wharton-Smith, Inc.

Project Cost: $1.5M

Funding Source: Utilities Infrastructure (unanticipated)

Structural repairs needed to correct concrete-spalled foundation walls. Utilities must be relocated to other walls to make repairs. A new ~14 x 14 building will be constructed adjacent to the south corner of building 20 to house switchgear for BioScience. At present, switchgear is in the basement; this location does not comply with current building codes. New switchgear will be purchased to replace existing.

Status of Project: Funded. Plans submitted 3/7/12 to BCO/SFM for review; Permit ready. PO issued April 23; tentative start date early May.

Estimated Completion Date: December 2012

Located on Libra Drive in former Police Department building

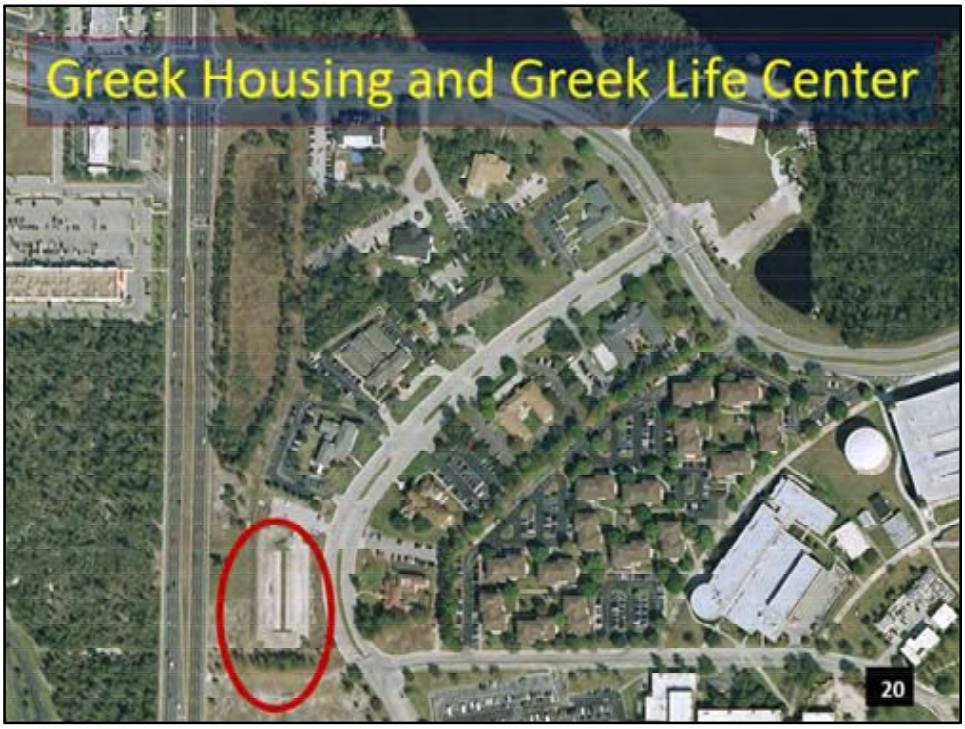
Minor Project

Architect - KZF Orlando Construction - Wharton Smith, Inc.

Project Cost: $1,000,000

Funding Source: Interest as approved by BOG

Gross Square Feet (GSF): 7,043



Includes:

- Building hardening
- HVAC and Roof replacement
- Interior Renovation:
    - EOC/conference/training rooms
    - Media room
    - Break-out rooms
    - Offices

Status of Project: 95% complete plans to BCO/SFM 3/14/12 for review and permitting (prior to code change). Awaiting Standards deviation approvals to finalize MEP plans. Construction GMP proposal funded.

Scheduled completion – December 2012

LEED Status (Silver, Gold): N/A

Location – Between Alafaya and Greek Park Drive at Aquarius Agora

Architect – Powell Design Group Construction - Welbro

Project Cost: $6,828,993

Funding Source: House B and Resident Life Center is Bond Finance. House A funds provided by Housing.

Gross Square Feet (GSF): 31,950

Description:

- Two 2-story Greek Houses (13,625 sf each) and a Greek Life Center (4700 sf)
- Life center – gateway to Greek Park
- Shared access road for future development
- Landscape buffer by Alafaya

Two sororities will be occupying the houses:

- Kappa Kappa Gamma
- Chi Omega

11 groups currently housed on campus, the two new houses will bring this number to 13. Houses will sleep 40 students a piece, thus will be an additional 80 bed spaces in Greek Park. Total number of bed spaces in Greek Park will increase to a total of 462.

Status of Project: GMP received / reviewed. Bid opening on 3/29/12

Estimated Completion Date: 1/7/2013

LEED Status (Silver, Gold): Silver

Houses Include:

- 40 beds each, suite style
- Self-serve kitchen
- Dining/meeting/multiuse space
- 1st integrated concrete form:
    - Reinforced concrete core ≈8” thick
    - Covered with layer of 1 ½” Styrofoam on either side
    - The 2 Styrofoam layers make up the formwork for the concrete, which is poured into the form during installation
    - Bound together by steel reinforcing

Advantage:

- Reinforced concrete wall with resistance value R-30
- Dry wall on inside and stucco or other on outside

Greek Life Center includes:

- 2 multi-purpose rooms
- Kitchen
- Grand hall
- Offices
- Meeting place for fraternity and sorority professional staff and governing council

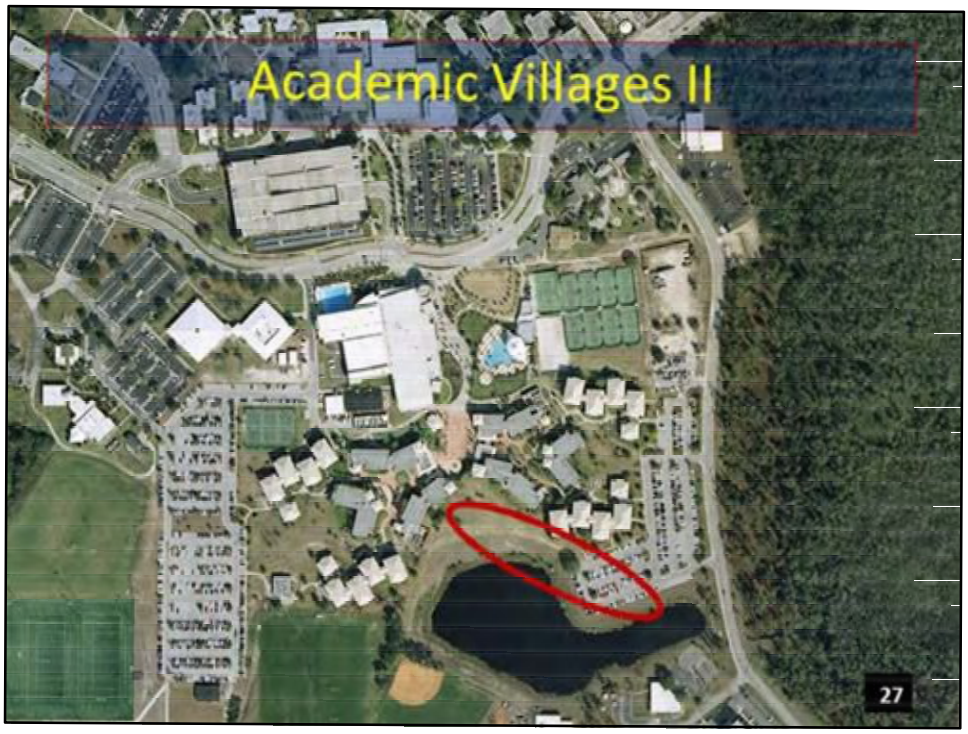
Located adjacent to Classroom I on Memory Mall at the 800’ radius.

Architect – Schenkel Schultz Construction - Clancy & Theys Construction

Project Cost: $23,475,601

Funding Source: PECO

Gross Square Feet (GSF): 79,556 gsf



Two-story classroom building featuring seven (7) large lecture halls ranging from 125 to 450 seats, wide pre-function student areas with seating and computer access, and an outdoor area connecting the new classroom building with Classroom I. The project also includes a three-story element which will house the Army and Air Force ROTC programs. The ROTC entrance, which will front Memory Mall, will feature a rotunda and be clad in cast stone. The first floor will feature a military history library, multipurpose room, and recruiting offices. A virtual battle lab will be included on the second floor, along with the Air Force ROTC. The third floor of the facility will be home to the Army ROTC.

Status of Project: GMP presented to UCF on March 19, 2012. Contractor is addressing GMP review comments for resubmission. Original study record: $16m. The $5.9M approved for Interdisciplinary Research and Incubator Facility has been reappropriated for the 2012-2013 fiscal year to Classroom Building II. $1.3M of that is for F&E.

Estimated Completion Date: June 2013

LEED Status (Silver, Gold): Anticipate Silver

26

Located off Libra Drive

Architect - Gilchrist, Ross & Crowe Architects

Construction - Jack Jennings & Sons

Project Cost: $37,442,178.00

Funding Source – Bond Finance

Gross Square Feet (GSF): 205,100 SF Housing, 8,972 SF Utility

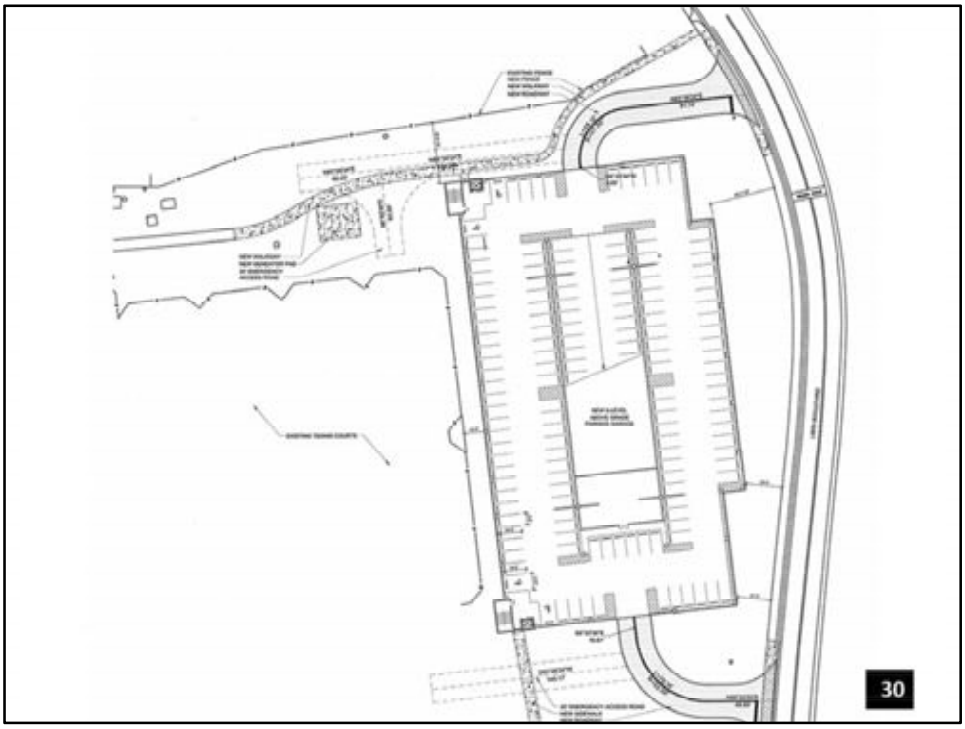
Includes:

- Housing: Towers 1, 2, 3
  - Food Vendor (not yet determined)
  - Student mail and package pick up
  - Common multipurpose room
  - 60 seat classroom
  - Study rooms
  - Public social living rooms on each floor of each building
- Utility:
  - Cooling Tower
  - Backup Generator
  - Locksmith and Key control
  - Maintenance workshop
  - Business service offices
  - IT equipment storage, workgroup and offices
  - Accounting and Administration offices
- 665 bed student housing
- +/- 750 LF Lakeside seawall
- Landscape and hardscape green space for the students
- 3-5 stories
- Mediterranean architecture

100% Construction Documents submitted April 18, 2012. Early Site Bid Package #1 in bidding stage and due on April 9th. Remaining Project Bid Package #2 released for bidding and is due on May 14th.

Estimated Completion Date: July 2013

LEED Status: Silver

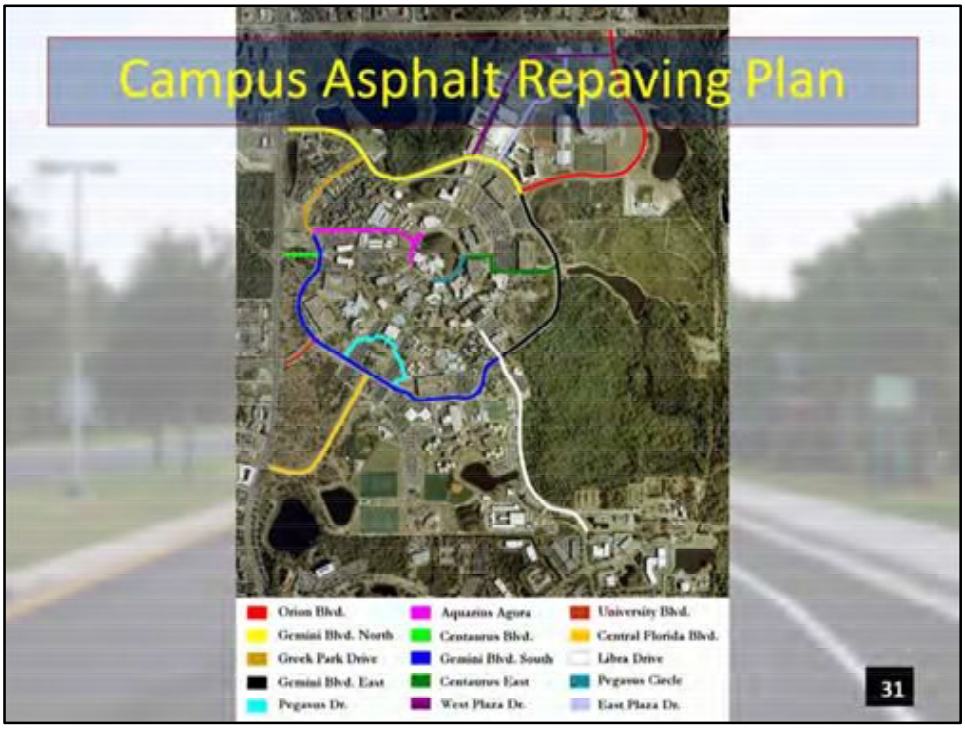


Located on Libra Drive

Architect - PGAL Construction – James A. Cummings

Project Cost: $11m

Funding Source: Bond Finance



Gross Square Feet (GSF): 344,888

1,050 space garage for Academic villages occupants. 6 parking decks. Shuttle bus turn-around feature at entry. Dual elevators.

Status of Project: Project is in Design Development. Construction Start – August 2012

Estimated Completion Date: August 2013

LEED Status (Silver, Gold): N/A since is unoccupied but are using sustainable methods.

Engineer - Harris Engineering Construction – bids will be taken shortly

Project Cost: $1.4 m (approx)

Funding Source: Utilities/Infrastructure

Repair / Replace / Improve campus pavement in various locations to include LYNX bus depot, Greek Park Drive, Gemini / Alafaya turn lane extension.

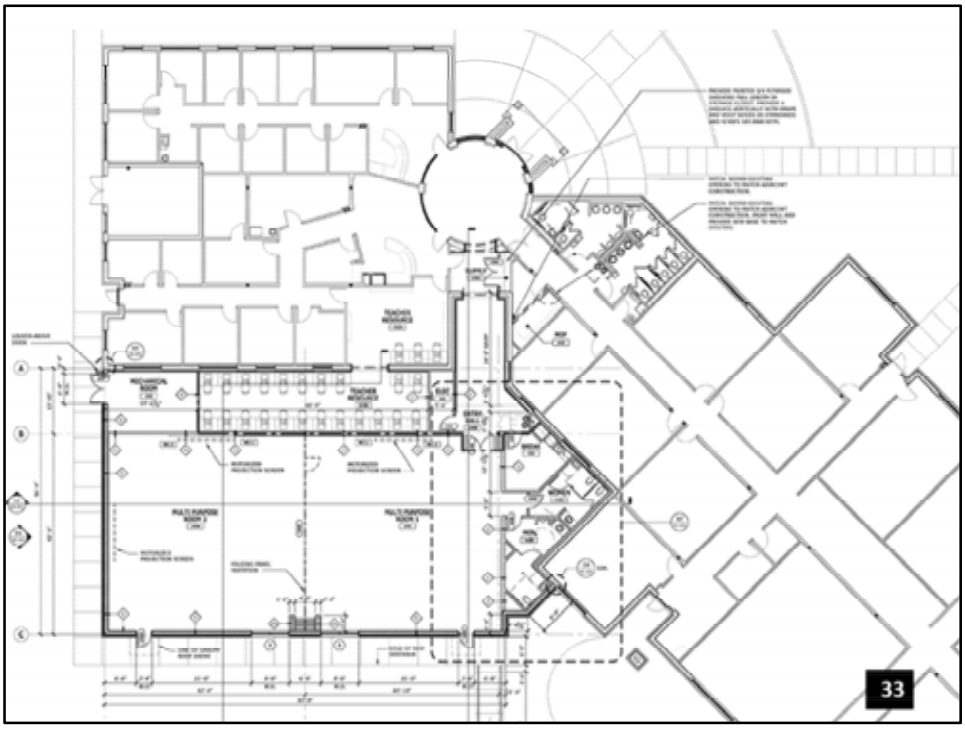
Priorities are:

- Gemini East (north to Orion)
- Libra
- Centaurus West
- Greek Park Drive
- Orion (north to McCullough)
- Gemini West
- Gemini South
- Gemini North (East Plaza Dr. to Orion)
- University Blvd. (Alafaya to Gemini)

Status of Project: Harris Eng. will advertise bid package on May 7, 2012.

Estimated Completion Date: TBD

Located at Building 81



Architect - Baker Barrios Company Constr.

Engineer - TLC Engineering

Construction - Williams

Project Cost: $1,250,000

Funding Source: Auxillary

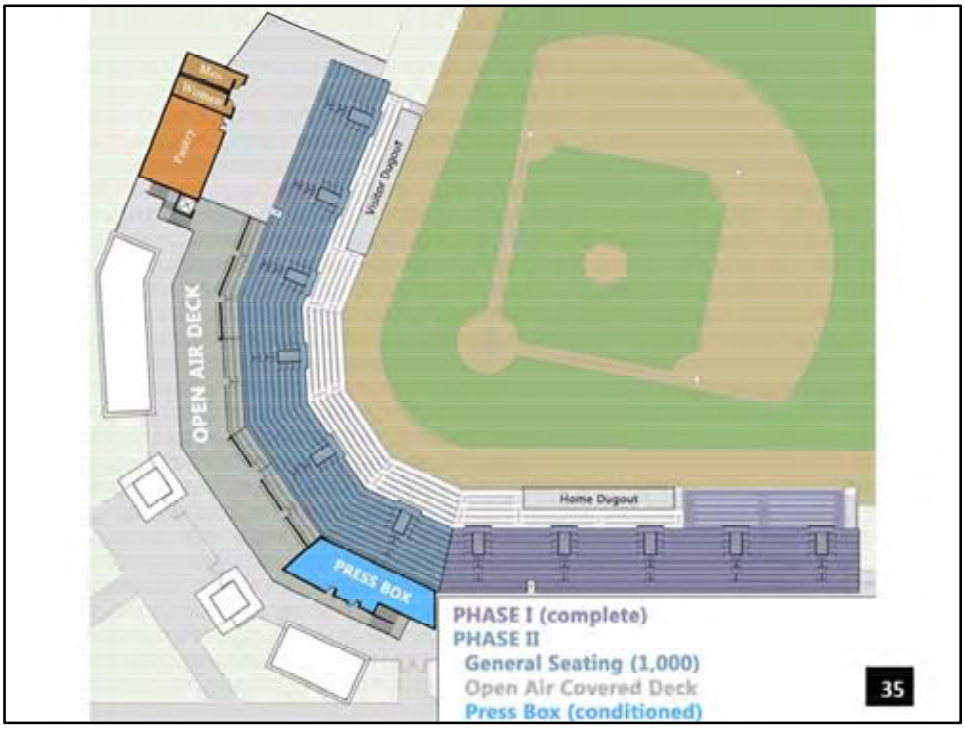
Gross Square Feet (GSF): ~5,000

This expansion will accommodate the increase in international students attending the Intensive English program. The expansion will allow for a large meeting room used for orientation, certificate ceremonies, large group testing, guest speakers, and other group functions. This additional space will also serve as classrooms, providing needed space as more courses are scheduled. A kitchen area and restrooms are included in this project. Status of Project: Construction Docs to BCO/SFM March 7 for review and permitting. GMP submitted on April 23, 2012. Awaiting final BOT approval and CDA.

Estimated Completion Date: TBD

Status of Project: Construction Docs to BCO/SFM March 7 for review and permitting. The expansion was approved at the April 18 F&F Committee meeting and will go to the full board for approval on May 24. GMP proposal due late April 2012. Awaiting final BOT approval and CDA.

LEED Status (Silver, Gold): Anticipating Silver



Expansion of Existing on North side of campus

Architect – DLR Construction – Skanska

Project Cost: Phase II - $2,800,000

Funding Source: TBD

Scope:

- Continuation of elevated seating (above concourse) to 3rd base dugout
  - ~ 1,000 additional seats (benchback)
- Remove existing press box
- Construct elevated deck
  - New press box
  - Premium open-air lounge and seating (~300).
- Children's activity area behind 3rd base dugout
- Additional concessions space and restrooms
- Add chair back seats in sections 101 & 102. Replace existing chairs with new in section 100.
- Distributed sound system adjacent to seating areas (eliminate large horns that currently exist in center field)
- New seating capacity: 3,200

Estimated Completion Date: February 2014

Located on Orion, South of Garage, East of Tower 4

Architect – Populous Construction - Wharton-Smith

Project Cost: $6,500,000 (have communicated $6.0mm to DB team)

Gross Square Feet (GSF): 24,000 square feet (two-story)

Scope:

Academic Center
- Tutor & mentor rooms
- Technology center
- Advisor offices (12 FT staff)
- Resource center
- Classroom/convocation space (capacity for 50)
- Conference Room

Center for Student Services and Career Advisement
- Career advisement rooms
- Resource center/classroom (space for 30)
- Office space for Student Services and Career Advisement

NCAA Compliance
- Student-athlete resource center
- Staff offices (5 FT staff)

Status: Working with Foundation on Fundraising

Estimated Completion Date: September 2014

LEED – Silver+

Expansion to existing library

Architect – Holtzman Moss Architects Construction – Turner

Project Cost: $62m

Funding Options: TBD

Gross Square Footage (GSF): 235,000

3 Phases:

- Automated retrieval system
- Expansion
- Renovation
- Addition of 3264 new seats

Includes:

- Technology station
- Study rooms
- Instructional rooms
- Digital Initiatives Spaces
- Graduate Student Commons
- Open Seating

- 1.5M volumes can be housed in 8800 gsf vs. 113K gsf of open shelving
- Request for materials from any device with internet access
- Automatic crane locates materials and delivers to pick-up station
- 5-10 minutes for entire process

Location – Gemini and Centaurus

Architect – HKS with Duda-Paine Construction – Balfour Beatty

Project Cost: $67.5M

Funding Source: TBD (Phase I PECO)

Scope: Includes approximately 600 seat concert hall and an approximately 520 seat proscenium theater. Seat numbers could change as design is refined and finalized. Should Courtelis match become available, it would be applied to wings 2 and 3 which includes a black box theater, recital hall, and support spaces.

ITEM: FIN-4

University of Central Florida
Board of Trustees

SUBJECT: Five-year capital improvement plan

DATE: July 23, 2009

PROPOSED BOARD ACTION

Approval of the capital improvement plan for 2010-11 through 2014-15.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay (PECO) list, identifies projects that may be included in future Courtelis Facilities Enhancement Challenge Grant lists, and provides information to the State Board of Education for its request for capital project funding for 2010-11.

The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2009. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan
- items to be included in the 2010-11 Appropriations Authorization Bill, including projects funded by bonds, projects of direct support organizations, and projects requiring general revenue to operate
- projects tentatively funded by matching funds from the Facilities Enhancement Challenge Grant program

We request approval to submit the 2010-11 Capital Improvement Plan with the projects listed in the attached schedules.

ITEM: FIN-2, FP-2

University of Central Florida
Board of Trustees

SUBJECT: Five-year capital improvement plan

DATE: July 22, 2010

PROPOSED BOARD ACTION

Approval of the capital improvement plan for 2011-12 through 2015-16.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay (PECO) list, identifies projects that may be included in future Courtelis Facilities Enhancement Challenge Grant lists, and provides information to the State Board of Education for its request for capital project funding for 2011-12.

The capital improvement plan must be submitted to the Board of Governors' staff by August 2, 2010. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan
- items to be included in the 2011-12 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate

We request approval to submit the 2011-12 Capital Improvement Plan with the projects listed in the attached schedules.

ITEM: FF-1

University of Central Florida
Board of Trustees

SUBJECT: Five-year Capital Improvement Plan

DATE: July 31, 2014

PROPOSED BOARD ACTION

Approval of the capital improvement plan for 2015-16 through 2019-20.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay list and provides information to the State Board of Education for its request for capital project funding for 2015-16.

The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2014. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan, and
- items to be included in the 2015-16 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate.

We request approval to submit the 2015-16 Capital Improvement Plan with the projects listed in the attached schedules.

Supporting documentation:

University of Central Florida

Fixed Capital Outlay Budget Request

2012-2017

University of Central Florida

Office of the President

July 28, 2011

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

In accordance with your request to the Council of Presidents dated May 10, 2011, enclosed is the University of Central Florida's (UCF) Five-Year Fixed Capital Improvements Plan for the years 2012-2017. This list revises UCF's primary priorities of previous years in accordance with the funding allocated by the Board of Governors and includes additional facilities consistent with recent program developments and needs of the university.

The attached UCF Five-Year Fixed Capital Improvements Plan was reviewed and approved by the University Board of Trustees on July 21, 2011.

Please have members of your staff contact Lee Kernek or Gina Seabrook if they have questions or need additional information related to this request.

Cordially yours,

John C. Hitt
President

University of Central Florida

Office of the President

July 31, 2013

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

In accordance with your request dated June 10, 2013, to the Council of Presidents, enclosed is the University of Central Florida's Five-Year Fixed Capital Improvements Plan for the years 2014-19. This list revises UCF's primary priorities of previous years in accordance with the funding allocated by the Board of Governors, and it also includes facilities consistent with recent program developments and needs of the university. Utilization was considered in the prioritization of UCF's projects. The order of projects reflects the priority given in the Board of Governors' instructions.

The UCF Five-Year Fixed Capital Improvements Plan was reviewed and approved by the University Board of Trustees on July 25, 2013.

Please have members of your staff contact Lee Kernek at (407) 823-3812 or Gina Seabrook at (407) 823-2166 if they have questions or need additional information related to this request.

Cordially yours,

John C. Hitt
President

University of Central Florida

Fixed Capital Outlay Budget Request

2015 - 2016

University of Central Florida

Office of the President

July 31, 2014

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

In accordance with your request dated May 8, 2014, to the Council of Presidents, enclosed is the University of Central Florida's (UCF) Five-Year Fixed Capital Improvement Plan for the years 2015-2020. This list revises UCF's primary priorities of previous years in accordance with the funding allocated by the Board of Governors, and it also includes additional facilities consistent with recent program developments and needs of the university. Utilization was considered in the prioritization of UCF's projects. The order of projects reflects the priority given in the Board of Governors' instructions.

The UCF Five-Year Fixed Capital Improvement Plan was reviewed and approved by the University Board of Trustees on July 31, 2014.

Please have members of your staff contact Mrs. Lee Kernek at 407-823-3812 or Mrs. Gina Seabrook at 407-823-5894, if they have questions or need additional information related to this request.

Cordially yours,

John C. Hitt
President

ITEM: FFC-8

University of Central Florida
Board of Trustees
Finance and Facilities Committee

SUBJECT: 2012-13 Capital Outlay Budget

DATE: May 24, 2012

PROPOSED COMMITTEE ACTION

1) Approval of the university's 2012-13 capital outlay budget

2) Authorization for the president to make necessary adjustments to the 2012-13 capital outlay budget

BACKGROUND INFORMATION

Pursuant to 1013.61, Florida Statutes, each university board of trustees must adopt an annual capital outlay budget that designates proposed expenditures by project. Attachment A lists the projects approved during the legislative session and by the governor. Approval is sought for the attached budget and authorization for the president to make changes to this budget as necessary during the year.

ITEM: FF-8

University of Central Florida
Board of Trustees

SUBJECT: 2014-15 Capital Outlay Budget

DATE: May 22, 2014

PROPOSED BOARD ACTION

Approve the university's 2014-15 capital outlay budget and authorize the president to make necessary adjustments to the 2014-15 capital outlay budget.

BACKGROUND INFORMATION

Pursuant to Florida Statute 1013.61, each university's Board of Trustees must adopt an annual capital outlay budget that designates proposed expenditures by project. The attached University of Central Florida 2014-15 capital outlay budget lists the projects approved during the legislative session and by the governor. Approval is sought for the attached budget along with authorization for the president to make changes to this budget as necessary during the year.

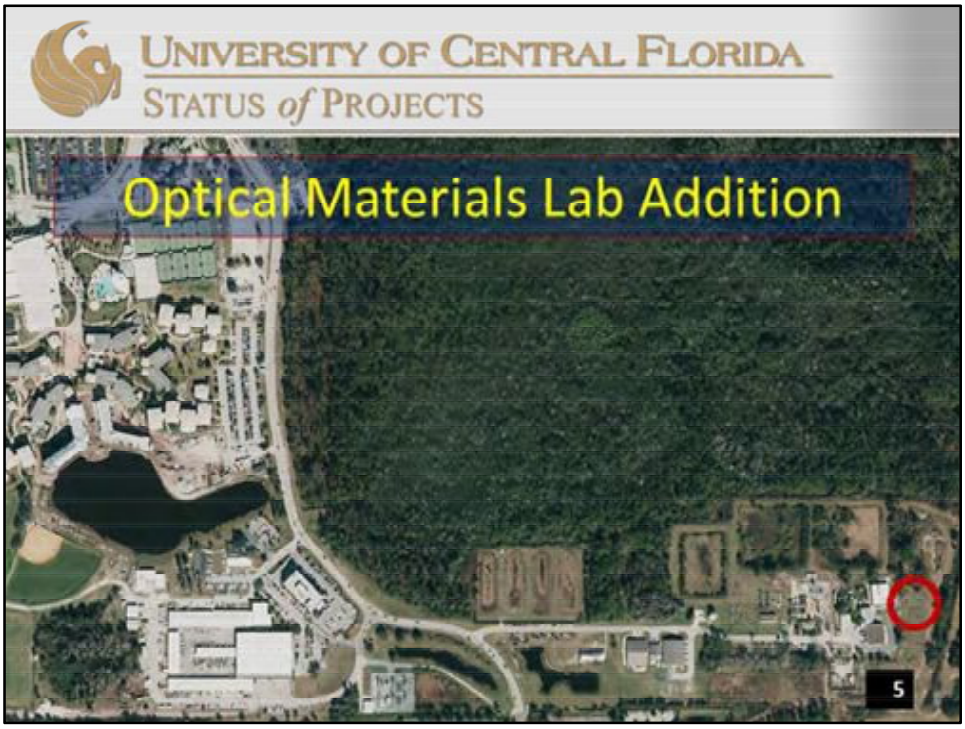
TOTAL	$ 616,684,524	$ 21,030,000

Since starting construction in January 1967, UCF has grown to 167 buildings on the main campus. There is currently $200,000,000 of design and construction backlog (major and minor projects).

Today's presentation generally follows the estimated order of completion starting with recently completed projects, then projects currently under construction, projects currently in design, and finally projects still in the concept phase.

- 64 projects in concept
- 138 projects in design
- 66 projects in construction
- 55 projects recently completed



Located in the Theater between Technology Commons and Business Administration.

GSF: 2,600
Estimated Project Cost: $140,000 (University funded – internal sources)
Projected Construction Dates: Complete
Architect: Interstage American
Contractor: Interstage American

Suspended platform for reconfiguration of stage lighting. Added safety fall protection.
Allows students to reconfigure lighting for the various productions.

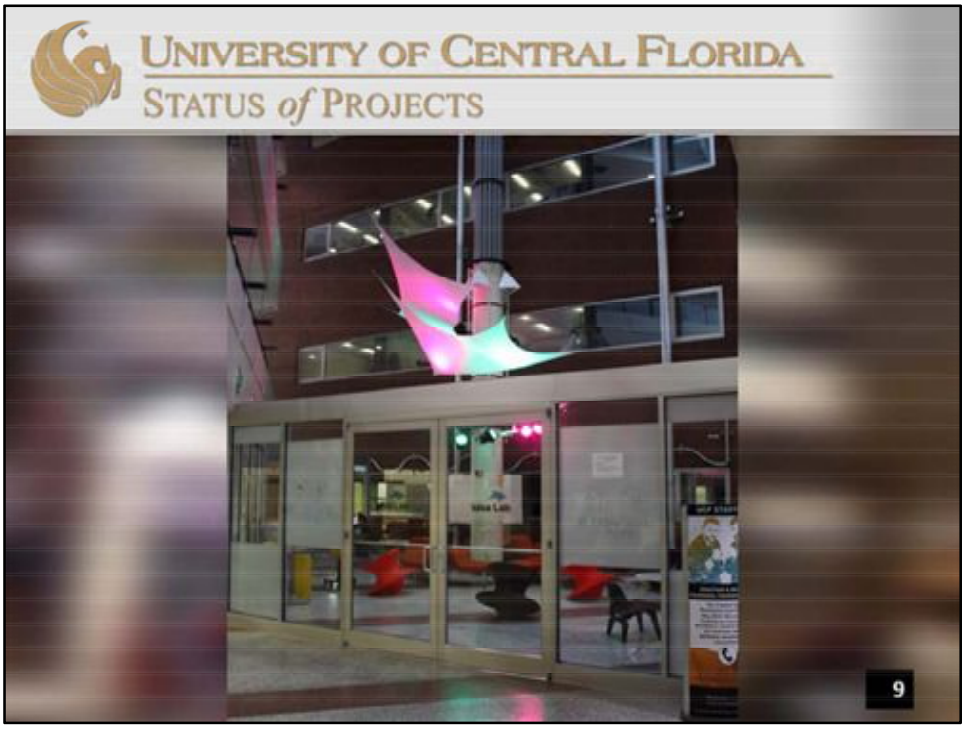
6

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
7



Located in Engineering Building II.

GSF: 10,000
Estimated Project Cost: $320,000 (Texas Instruments and University funded – internal sources)
Projected Construction Dates: Complete in November 2014
Architect: Schenkel Shultz / Matern
Contractor: Merrit

Idea and innovation labs for new product development. Texas Instruments provided a grant to create this space.

- Space for creativity
- New design products
- Technology allows for interaction from different locations
- Take ideas into innovation lab to produce 3D prototypes

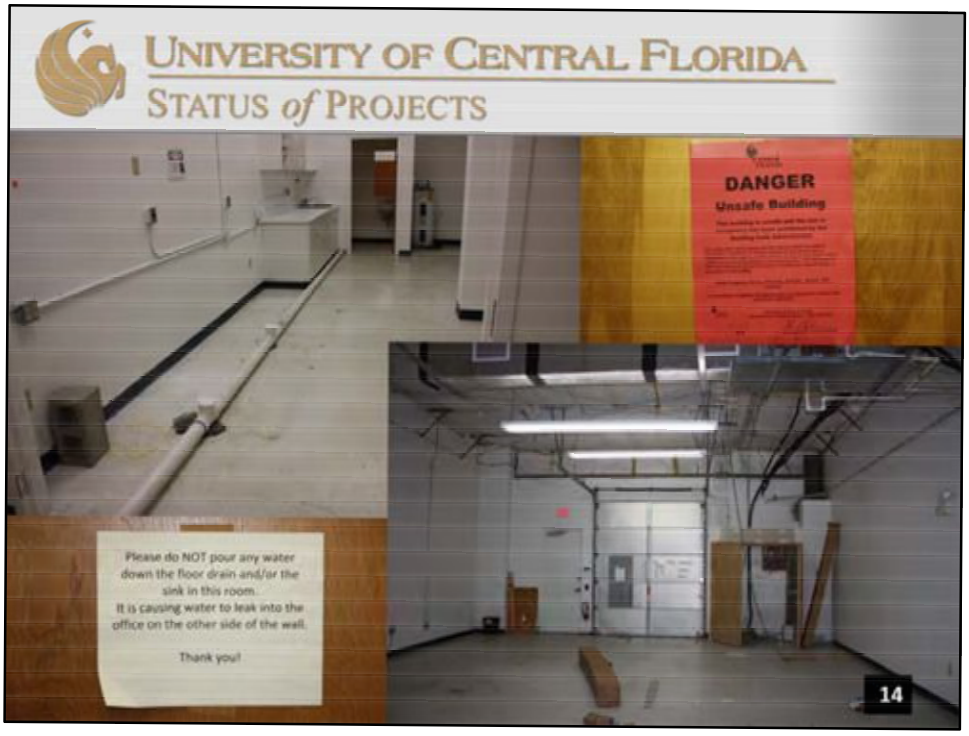
UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
9

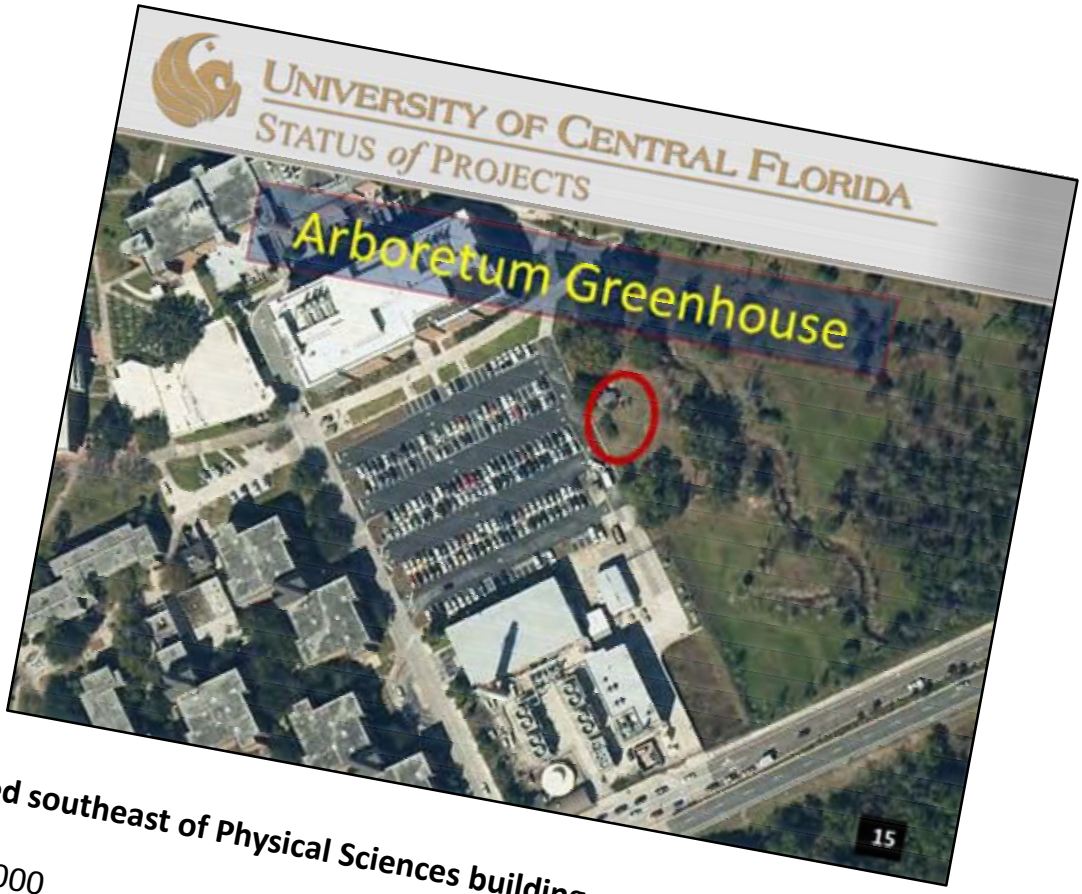
Located in Research Park south of the Bennett Buildings.

GSF: 4,800
Estimated Project Cost: $900,000 (University funded – internal sources)
Projected Construction Dates: Complete in November 2014
Architect: Matern
Contractor: CPPI

Hard materials research lab renovation. High temperature test of materials. Added 3 fume hoods, new finishes, office renovations, and new mechanical & electrical upgrades to support lab.

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
11





Located in Research Park south of Facilities & Safety Complex.

GSF: 10,000
Estimated Project Cost: $6,000,000 (University funded – C&G)
Projected Construction Dates: November 2014 – December 2015
Architect: ACI
Contractor: Wharton Smith (Design Build)

- Renovate existing buildings to accommodate research capability plus code compliance upgrade.
- Added 5 labs and 3 fume hoods.
- Renovation of 110 offices and conference rooms.
- Upgrade mechanical & electrical systems.
- Roof replacement
- Lab space incubator
- Rentable space

STATUS of PROJECTS
DANGER
Unsafe Building
Please do NOT pour any water down the floor drain and/or the sink in this room.
It is causing water to leak into the office on the other side of the wall.
Thank you!
14

Located southeast of Physical Sciences building.

GSF: *1,000*
Estimated Project Cost: *$350,000 (jointly funded by Biology and Utilities/Infrastructure)*
Projected Construction Dates: *December 2014 – June 2015*
Architect: *KZF*
Contractor: *Wharton Smith*

Replace existing greenhouse. Pre-fabricated greenhouse. 24' x 40'.

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
16

Located in north entrance foyer of Business Administration building.

GSF: 60,000
Estimated Project Cost: $2,000,000 (University funded – internal sources)
Projected Construction Dates: Phase I – restroom renovation TBD. Phase II – atrium renovation TBD schedule depending on funding.
Architect: KZF
Contractor: TBD

Renovate Business Administration lobby and restroom.

Face lift of public areas (1st and 2nd floors)
- Atrium
- Restroom
- Corridors
- Creating collaborative & learning spaces

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
EXIT
18

Located south of Parking Garage D adjacent to Memory Mall.

GSF: 56,000
Estimated Project Cost: $16,500,000 (University funded – internal sources)
Projected Construction Dates: December 2014 – December 2015
Architect: Schenkel Shultz
Contractor: Clancy & Theys

Classroom space for transitioning international students into a campus learning environment.
45 faculty offices
40 classrooms
3 conference rooms
Counseling center
High efficiency mechanical systems using new technologies.
LEED Gold.

Architect: KZF
Contractor: Wharton Smith (Design Build)

Add a new beach club venue and premium seating. Food & beverage service.

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
28

Located adjacent to the Combined Heat and Power Plant.

GSF: 6,000
Estimated Project Cost: $1,000,000 (University funded – internal sources)
Projected Construction Dates: March 2015 – February 2016
Architect: Schenkel Shultz
Contractor: TBD (hard bid)

Demolish existing prefabricated buildings and add additional facility support functions including training for maintenance teams.

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
30

Located in existing Student Health Center south of Chemistry building.

GSF: 10,000
Estimated Project Cost: $2,600,000 (University funded – internal sources)
Projected Construction Dates: March 2015 – December 2015
Architect: HKS
Contractor: Currently in advertisement

- Adding additional capacity for international clinic, substance abuse, and mental health.
- 15 exam rooms
- 10 offices
- 2 conference rooms
- Improved building appearance
- Upgrading building HVAC controls

- Code improvements
- Electrical system upgrades

UNIVERSITY OF CENTRAL FLORIDA
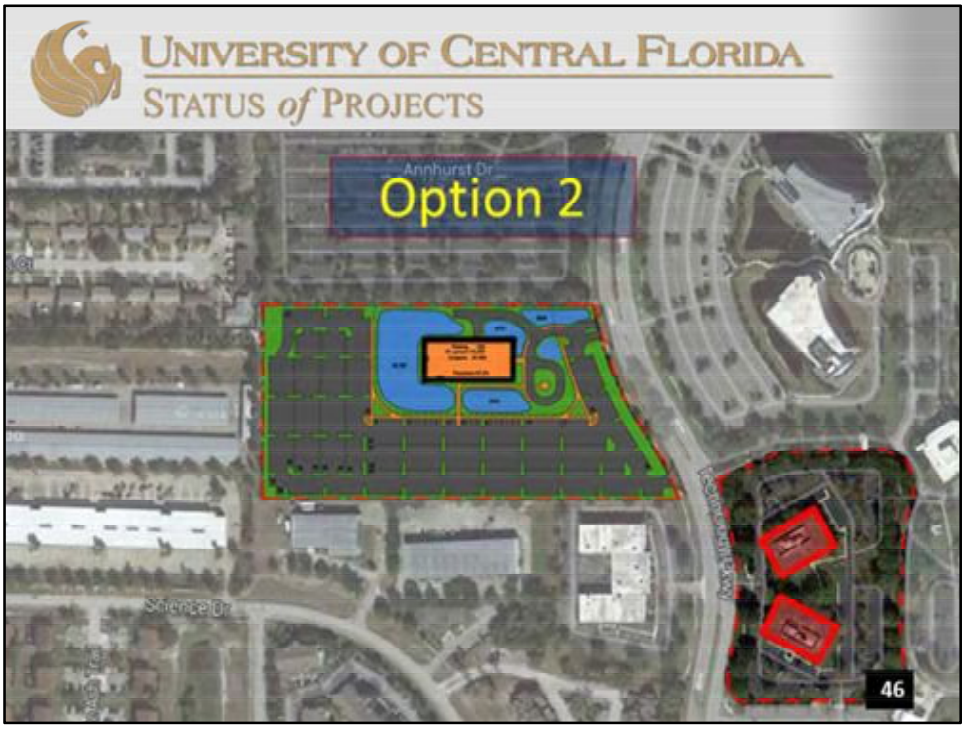
STATUS of PROJECTS
43



Located in Research Park near Partnership Buildings I, II, and III

GSF: DoD partners currently occupy approximately 200K s.f. in 3 leased facilities. Projected increases in DoD personnel and UCF research needs would indicate a 300K s.f. space need.
Estimated Project Cost: $53,040,000 (PECO / state)
Projects Construction Dates: TBD
Architect: TBD
Contractor: TBD

Two different options are being considered. Both create classified simulation space for both the DoD and UCF.

Option 1: Use the existing parking lot adjacent to Partnership Buildings II and III to design and construct a new facility to meet the expressed needs and a Parking Garage that would accommodate all 3 buildings, as well as adding to force protection. This option would require approval from the state to use state funds for the garage/force protection construction.

Option 2: Purchase and renovate two other existing buildings and purchase land to design and construct a smaller facility and surface parking.

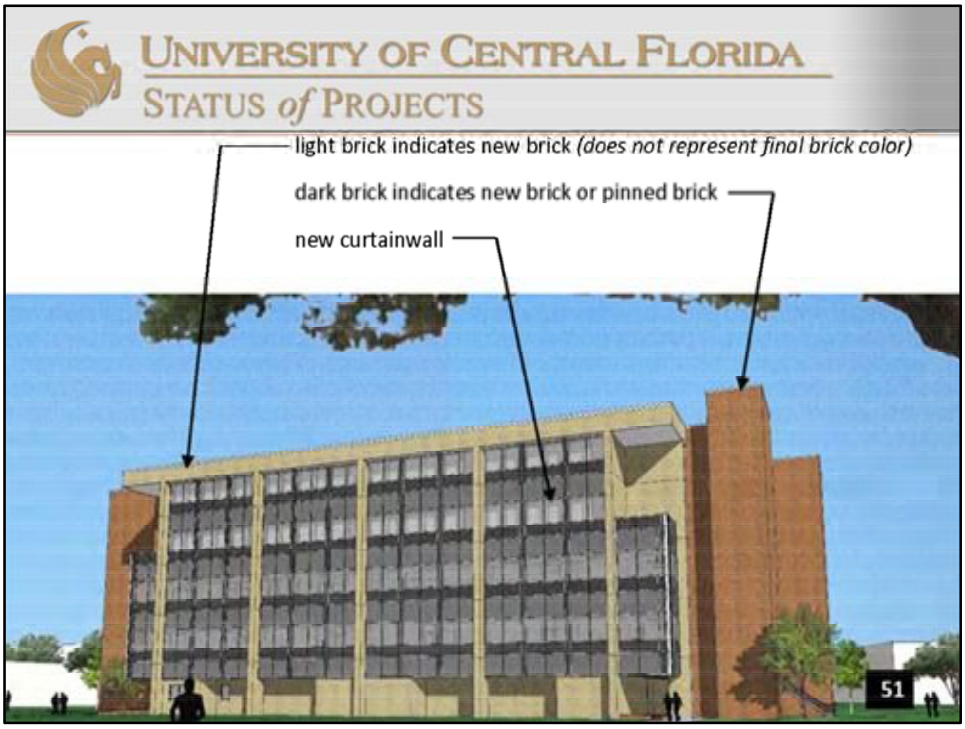
- Technology 1 – 31,520 (existing building to be acquired)
- Technology 2 – 30,828 (existing building to be acquired)
- New Development – 167,000

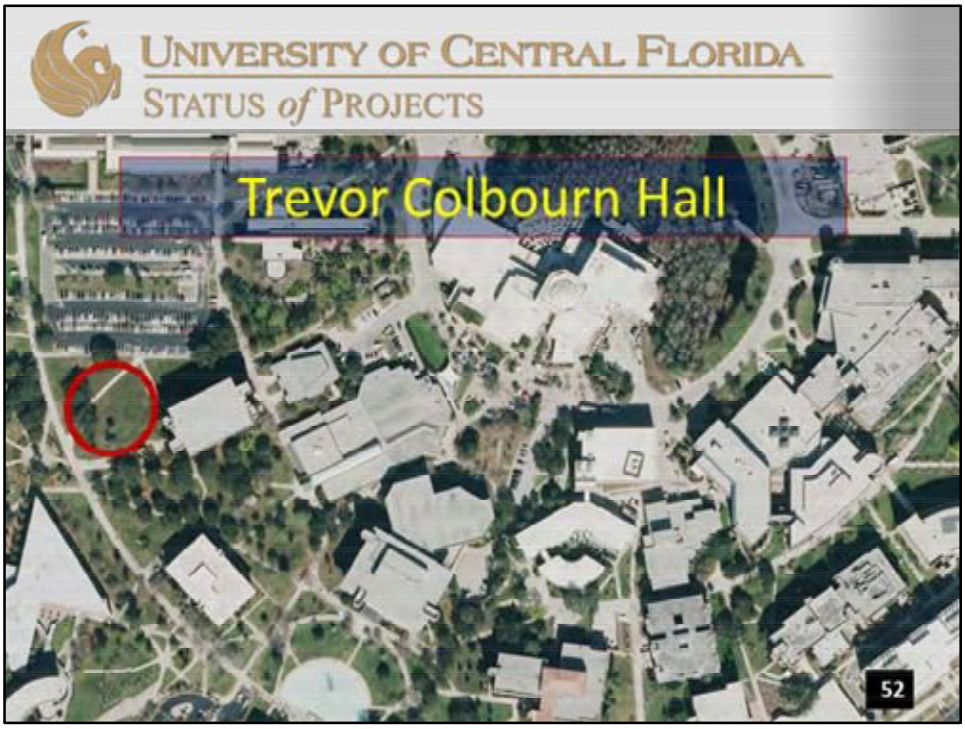
Located west of Parking Garage C.

GSF: 118,014
Estimated Project Cost: $46,614,853 (PECO listed)
Projected Construction Dates: April 2016 – October 2017
Architect: CPPI
Contractor: Ponikvar

- The program is being reconfirmed from the original 2011 program.
- Nano-science technology, advanced materials processing and analysis, optics and lasers, energy research, and the incubator program.
- 27 research labs, 19 material characterization rooms, 21 incubator labs, lecture halls, conference rooms, offices, and ancillary spaces.
- Project will be phased.

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
48





Located adjacent to Rehearsal Hall west of John T. Washington Center.

GSF: 84,000
Estimated Project Cost: $19,524,553 (PECO listed)

GSF: ICAMR – 100,000 sqft two level state-of-the-art R&D lab/fab facility
Estimated Project Cost: $120,000,000
Projected Construction Dates: Complete in 2016
Architect: TBD
Contractor: TBD

The University of Central Florida is competing for $200 million in federal and private funds to house a national Integrated Photonics Manufacturing Institute for Manufacturing Innovation.

The center, a partnership with Osceola County government, the Florida High Tech Corridor Council (The Corridor) and the Metro Orlando Economic Development Commission, would house many of the research activities associated with the institute.

Partners in the project aim to create the world's first industry-led smart-sensor consortium.

Labs, cleanrooms, office areas, and support space.

UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
63

Located in Seminole County near SR-46.

GSF: 22,000
Estimated Project Cost: $3,000,000 (University funded – internal sources)
Projected Construction Dates: TBD
Architect: TBD
Contractor: TBD

Project is currently under consideration. Negotiations with Seminole County ongoing regarding deferred maintenance, code, and life safety issues.

The initiative connects UCF students and faculty with the community and creates a foundation on which Central Floridians can build a better sense of their history through research.

The Public History Center is a unique partnership of Seminole County Public Schools and the University of Central Florida and is also a valuable resource for university-level classes, internships, and class projects.

The Public History program at UCF focuses on cultural heritage management and digital media.

Located in Brevard County adjacent to SR-A1A.

GSF: 6,000
Estimated Project Cost: $5,000,000 (University funded – internal sources)
Projected Construction Dates: TBD
Architect: TBD
Contractor: TBD

Improve existing turtle research facility. One building will be renovated, one building will be demolished, and one new building will be built.

UCF Marine Turtle Research Group supports coastal research and encourages scientific partnerships with local national and international groups.
Provide hands-on experiential education platform that could be used for K-12, undergraduate, graduate, and professional educational training programs.

This building will be renovated.

This building will be demolished.

This is new construction to replace the demolished building.

Located at the Health Sciences Campus at Lake Nona.

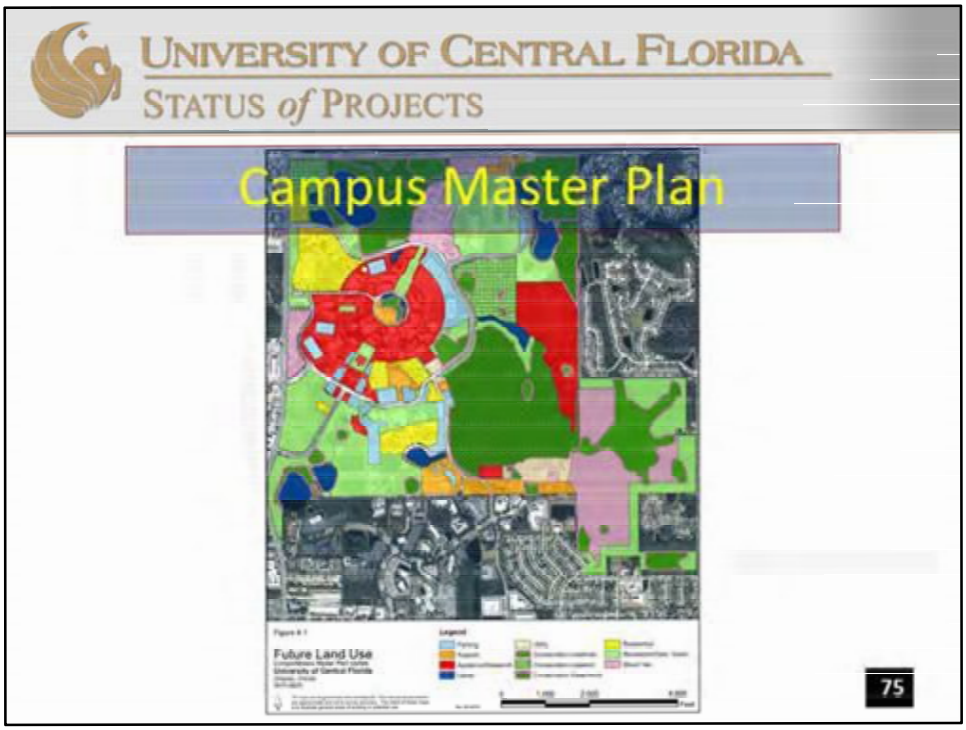
GSF: TBD
Estimated Project Cost: TBD
Projected Construction Dates: TBD
Architect: TBD
Contractor: TBD

The College of Medicine is reviewing the concept of building a Dental school on the Health Sciences Campus. The Dental school concept has a potential partial donor, but the concept must be vetted financially.

Located at the corner of Narcoossee Rd. and Tavistock Lakes Blvd. in Lake Nona.

GSF: Phase I – 10,000 sq. Ft. on the first floor | Phase II – 15,000 sq. Ft on the third floor
Estimated Project Cost: Phase I - $412,000 | Phase II - $615,000 (Third-party funded / University funded – internal sources)
Projected Construction Dates: Phase I - Scheduled to open in March/April 2015. | Phase II - Scheduled to open after January 2016.
Architect: Third-party project
Contractor: Third-party project

This building represents a partnership between Florida hospital and UCF College of Medicine as the only two tenants. The UCF portion will encompass 10000 sq. Ft. on the first floor. In phase 2 UCF will add an additional approximately 15000 sq. Ft on the third floor. UCF plans for future expansion of the third floor space are to be determined.



UNIVERSITY OF CENTRAL FLORIDA

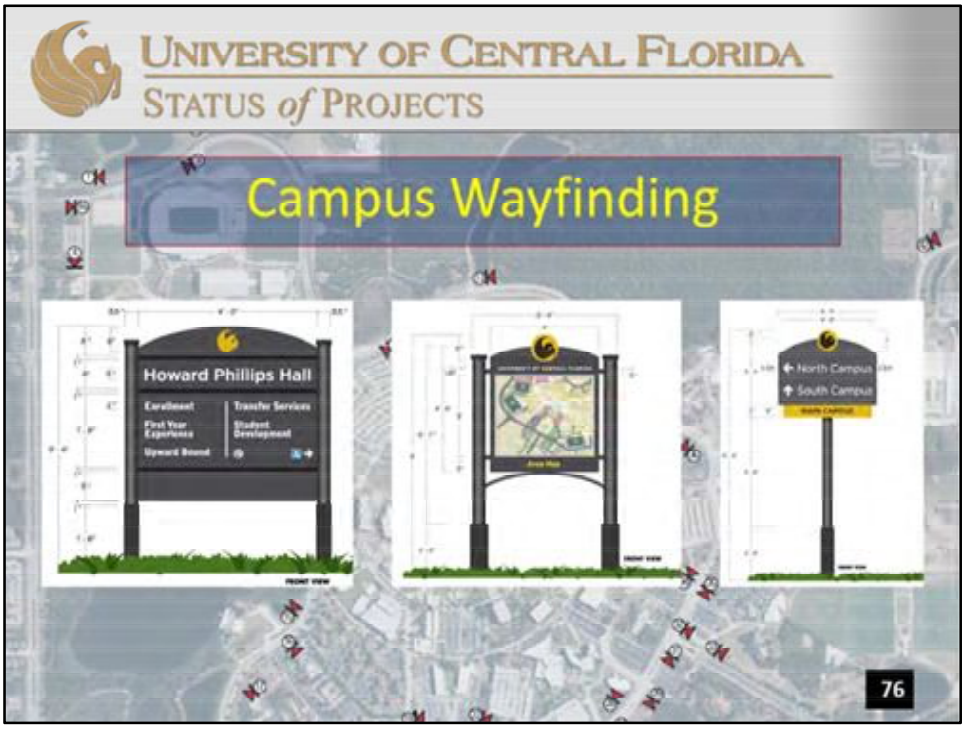
Located along Alafaya Tr. buffer west of Parking Garage A.



GSF: TBD
Estimated Project Cost: TBD (private developer)
Projected Construction Dates: TBD
Architect: TBD
Contractor: TBD

The boutique hotel and conference center will serve as an enhancement to existing academic facilities and will add a desirable service component to the campus. Designed, constructed, and operated by a private builder.

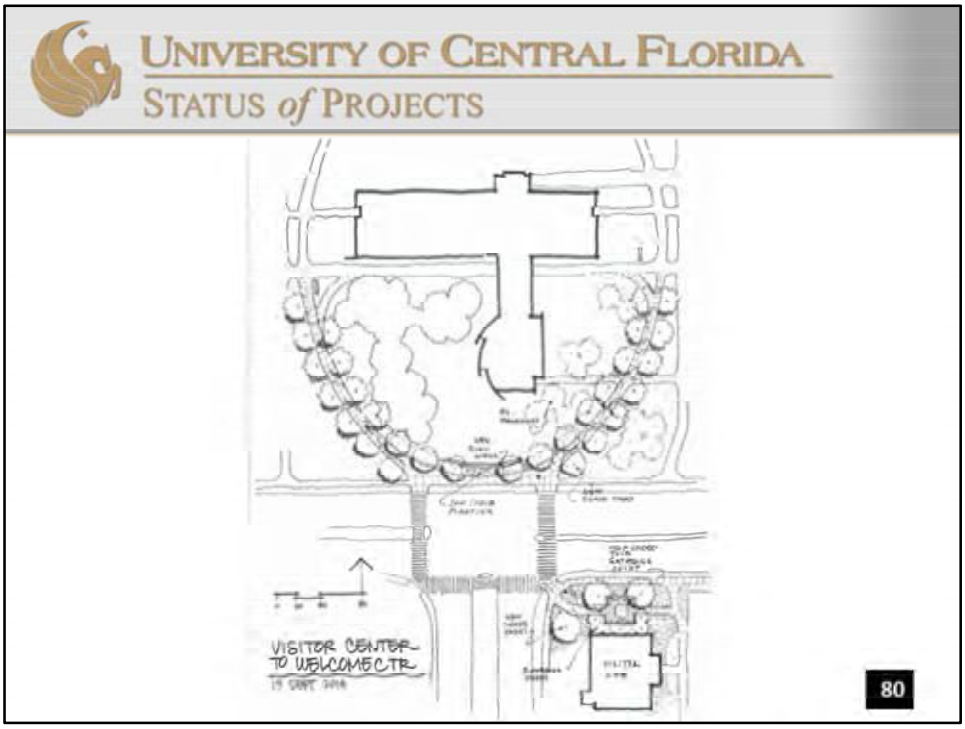
The 2015-2025 UCF Campus Master Plan, represents the 5-year update of the plan adopted in 2010 and outlines the University's Main Campus development plans for the next 10-year period. The plan consists of seventeen (17) elements addressing a wide range of planning concerns.

- Multi-modal Transportation
- Off-campus Shuttles
- Pedestrian Bicycle Network Transportation

GSF: N/A
Estimated Project Cost: $750,000 (University funded – F&S)
Projected Construction Dates: November 2014 - June 2015.
Architect: AECOM
Contractor: Baron Signs

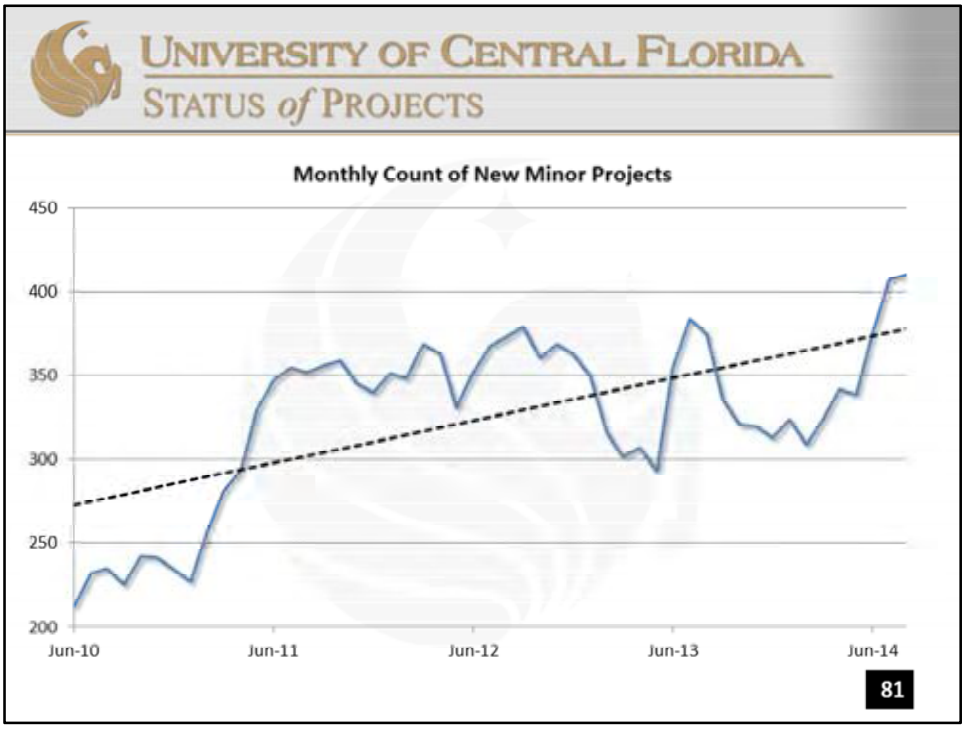
The campus wayfinding project will update all vehicular and pedestrian signs on campus.

Located at Alafaya Tr / University Blvd. entrance.

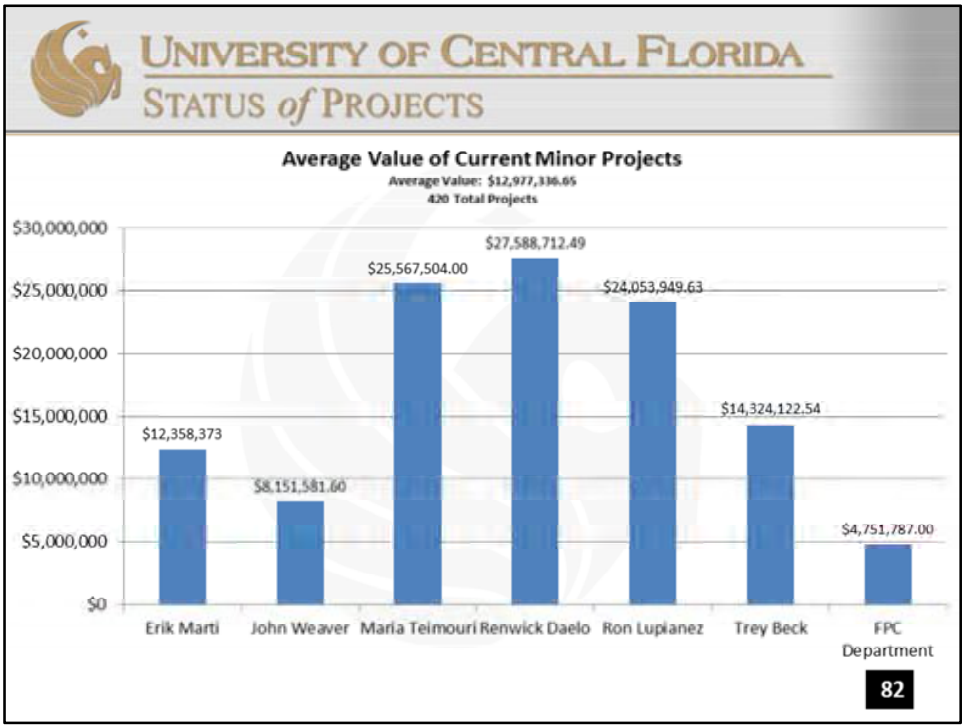


GSF: TBD
Estimated Project Cost: $1,200,000 (University funded – F&S)
Projected Construction Dates: TBD
Architect: Bellomo-Herbert
Contractor: TBD

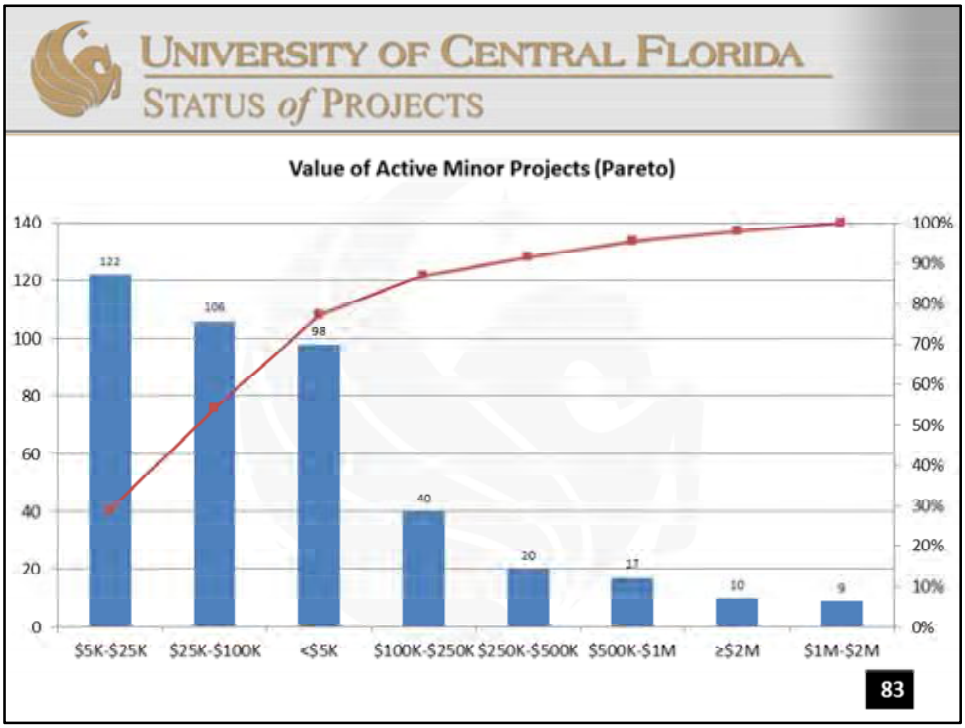
Conceptual drawings for an entry feature for the University Blvd. entrance to the University have been created. Project identifies a primary entry point to the campus.



UNIVERSITY OF CENTRAL FLORIDA
STATUS of PROJECTS
78



Bellomo-Herbert and Carol R. Johnson Associates Landscape Architects are the project consultants who are developing a campus landscape plan. The 7-month project is scheduled to finish by December 2014. The plan establishes standards and guidelines for how landscape and hardscape create a sense of place.



Typical conceptual landscape plan for the Welcome Center.

Monthly count of new minor projects has doubled in size over four years.

Average value of current minor projects.

80% of projects are $100,000 or less.

Staff the department to exceed customer expectations
Drive project costs down through active project management
Use single trade contractors
Select appropriate delivery method for projects

Attachments: Composition of Reserve for Budget Chat_1.13.15_with Oracle.pdf; 123114 University Resources Reconciliation_1.13.15.pdf; Capital Projects_1.13.15.pdf; E&G Commitments_WORKING_1.13.15.pdf

Tracy – The capital projects list that we discussed last week is attached. I will bring extra copies for tomorrow morning's meeting.

I've updated the reserve projection schedule to show a summary of commitments on the current year page as you requested. I've also added two numbers highlighted yellow and orange to the schedule. The number highlighted yellow indicates what the reserve would be at the end of each year if an additional $15m of renovations are added to the list of commitments. The number highlighted orange reflects the timing of cash flows related to the 5-year Oracle contract. This number has been excluded from the commitment numbers in the top half of the schedule so as not to distort the overall reserve.

I am also attaching the reconciliation for the university auxiliary resources department. I realize this is way too much detail for tomorrow morning's meeting, but I will have it handy in case we get asked what the additional amounts for the capital projects would do to the E&G and auxiliary reserves.

Chiller Plant	13,000,000	2,000,000			11,000,000		
Creol Lab	2,000,000	2,000,000					
Venue HVAC	2,000,000	-			1,000,000		1,000,000
	$ 101,600,000	$ 19,600,000	$ 20,000,000	$ 12,000,000	$ 16,200,000	$ 3,000,000	$ 30,800,000

PROPOSED FUNDING PLAN

	Total	Investments	Interest Earnings	Auxiliary	Auxiliary - AA	E&G	
Trevor Colburn	$ 23,000,000					$ 23,000,000	
Colburn	15,000,000					15,000,000	
Interdisciplinary Research - Phase I	30,000,000	12,000,000	12,000,000		3,000,000	3,000,000	Note 1
Global UCF	16,600,000	10,000,000		4,800,000		1,800,000	Note 2
Chiller Plant	13,000,000			13,000,000			
Creol Lab	2,000,000					2,000,000	
Venue HVAC	2,000,000			1,000,000		1,000,000	
	$ 101,600,000	$ 22,000,000	$ 12,000,000	$ 18,800,000	$ 3,000,000	$ 45,800,000	
Increase	**$ 19,600,000**	**$ 2,000,000**	**$ -**	**$ 2,600,000**	**$ -**	**$ 15,000,000**	

Note 1: The amount funded from E&G represents the estimate for furniture and equipment. PECO funds of $46.6 million have been requested for Phase I and Phase II.
Note 2: Need to review components of furniture and equipment number. A portion of the $1.8 million estimate may need to come from non-E&G sources.

Planned E&G Budget Allocations

Updated as of 1/6/15

Note: The Morgridge International Reading Center, ~~Mitsubishi CHP Plant~~ and Quadrangle building are currently being funded through auxiliary loans

[2] The commitments against the recurring undesignated central reserve include the planned phase in of $5 million of recurring commitments previously funded from non recurring funds. Existing commitments could be completely phased in by 2017-18, but would require the use of performance funding. Approximately $5 million of recurring unallocated reserve would remain.

	Recurring allocations (A + B)	18,604,757	3,050,000	1,250,000	1,250,000	1,250,000	
	Non-recurirng allocations (C + D)	40,642,404	13,582,430	11,157,954	10,299,070	10,299,070	
	Total allocations	59,247,161	16,632,430	12,407,954	11,549,070	11,549,070	

FOOTNOTE LEGEND:

[1] These allocations will be reflected in the start up budget. All others will be transferred during the year based on support provided.

[2] Planned use of 2013-14 performance funding ($2.6 million).

ITEM: FF-1

University of Central Florida
Board of Trustees

SUBJECT: Five-year Capital Improvement Plan

DATE: June 29, 2015

PROPOSED COMMITTEE ACTION

Approval of capital improvement plan options for 2016-17 through 2020-21.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay (PECO) list, and it provides information to the State Board of Education for its request for capital project funding for 2016-17.

The capital improvement plan must be submitted to the Board of Governors' staff by July 1, 2015. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan,
- items to be included in the 2016-17 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate.

We request approval to submit the 2016-17 Capital Improvement Plan with the projects listed in the attached schedules.

Supporting documentation:

2016 Five-year Plan List (DCU) (Attachment A)
2016-17 Fixed Capital Outlay Projects Requiring Legislative Approval to be Constructed, Acquired and Financed by a University or a University Direct Support Organization with Approved Debt (Attachment B)
2016-17 Fixed Capital Outlay Projects Requiring Legislative Authorization and General Revenue Funds to Operate and Maintain (Attachment C)

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance And Chief Financial Officer

Speaker	Dialogue
1:05 – 6:35	
SCHELL	Madam Chair, you have quorum.
CALVET	Thank you very much, Dr. Schell. Our one item for consideration today is FF-1 which is a five-year capital improvement and it's, it's revised plan I believe, uh, Bill Merck and yeah, she's here too, so we're [*laughter*] they will take of care it for us.
MERCK	I'll just give a quick introduction and then let Lee take it away.
CALVET	OK.
MERCK	Essentially, in our last meeting Lee presented two plans, A and a B because we didn't know how the legislator would, uh, do what they were gonna do. Or the governor and his vetoes. We-, all of that now is clear, so we have a single plan that we like for you to approve going forward and I think, uh, Lee was going to, uh, is planning to just go through the sections for clarity as to what this list is and what it means to us. So Lee you wanna take it away from there?
KERNEK	Okay. So your first one is your letter and it has been revised and to now no state funds on your Attachment A which is a very large attachment, um. You may see items, for some of you who are a little new to the process, you may see items in several category, that is what allows UCF the flexibility to spend from any of those categories should funding become available there. So the first category is PECO projects, those are projects that are eligible for PECO funding and that they also have a survey recommendation from the Educational Plant Servey. An item can't go in this category unless it has those two things. Um, what you'll see a little different on Interdisciplinary Research and Incubator facility, we received no money so it is all back on. Facilities, Infrastructure, Capital Renewal, and Roof, um, they just come up with a new category that would, would take priority over this one called Critical Deferred Maintenance, but the Board of Governors staff has not, um, yet prepared how we are to address that and told us to leave it off, so we did leave that one off. Engineering I, Building, uh, uh, Building One Renovation, we received no funds, so those are back in, um, again. We did add the downtown campus to this category. Last year we had the downtown campus only in other categories because we thought the money would come from other state, um, funding, not from PECO, but we have added it this category, uh, just in case money can come from PECO and we do have an educational plant survey, uh, coming to visit us in October so we expect to have the plant survey recommendation, uh, at that time. We've removed the Valenica classroom building that has already been paid by UCF, um, let me look at, look at the CITF project request, um, we cannot bond those, uh, for the Governor. So what this shows, um, based on what the word Governor's staff have asked us to do is any monies that we click spend, uh, were we to get it either through, um, direct funds or through bonding. We did receive $5.9 million dollars so that has been subtracted out of the 16-17 year.

Speaker	Dialogue
	The next category is funds to other state sources [*clearing throat*], so it could be anything from which you need state monies. It's either not PECO eligible or it could be eligible for, for PECO in the future. For example, after you had a survey recommendation or as it moves up on the priority list. We put all of those in this category. For Partnership IV we did receive 20 million dollars, so what you see here, is [*background noise*] - [*inaudible*] of what we had asked in the past, so that we would be um, able to go out and purchase additionally properties or buildings in the next years. The downtown, we put all monies back in, and we did load them in the first year, so that we can be eligible to do that should money be available. Interdisciplinary Research; you will see it, it's a different amount here than it is above, because this is other state fund, funding and we have to show that we spent UCF funds toward that project. All the money we spent on Interdisciplinary so far, 3 million of it was from state funds and the balance that we spent came from um, non-state sources. On the Colbourn Hall and Trevor Hall, every bit of the money that UCF has committed to those has been from state funds, and so that's why they are showing here. Many of the deletions you see in red are because they are less than 2 million dollars. So, we do not have to reflect projects on here that are less than 2 million dollars, they are considered minor projects. The only time that it is different it is for athletics, they still want us to show those and for anything that we might, uh, acq-, use debt to acquire, they still want us to show those, even if they are less than 2 million.
MARCHENA	Forgive me. So, the state doesn't want to see them on CIP, but they show up somewhere on our own CIP?
KERNEK	They will show up, so the ones that are athletics and, uh, the ones that are athletics and possible bonds will show up in the non-state sources including debt, so those will still be there.
MARCHENA	Right, but what about… [*simultaneous speaking*].
KERNEK	The smaller ones that, uh, that they will not show up anywhere, they are considered minor projects by the state and they, they don't show up. That's why like when you want to go in and do a renovation to a building, that's maybe, maybe you want to change a, uh, an office into two offices or something like that and it's less than 2 million dollars. They don't show up at the capital impr- [*simultaneous speaking*].
MERCK	We have about probably, what, almost 300 of those every year?
KERNEK	I have about 500 open projects right now in that category.
MARCHENA	And do, do, do, those, you know, above a certain number, like, between 1 million and 2 million, do they at least get reported to the board?
LEE KERNEK	No, they don't.
BILL MERCK	We could, I mean [*simultaneous speaking*].
KERNEK	We certainly could. Uh, I could make a list for you [*simultaneous speaking*].

Minutes
Board of Trustees Meeting
University of Central Florida
June 29, 2015

Chair Olga Calvet called the meeting of the Board of Trustees to order at 8:30 a.m. in the FAIRWINDS Alumni Center on the UCF Orlando campus.

WELCOME

Chair Calvet reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

She welcomed the board members and called on Rick Schell, Associate Corporate Secretary, to call the roll. Schell noted that a quorum was present.

The following board members attended the meeting: Chair Olga Calvet, Clarence Brown, Richard Crotty, Alan Florez, Ray Gilley, Keith Koons, Marcos Marchena, and Alex Martins. Trustee Robert Garvy attended via teleconference.

FINANCE AND FACILITIES COMMITTEE REPORT

Marcos Marchena, Chair of the Finance and Facilities Committee, called on William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, who addressed the board. He then called on Lee Kernek, Associate Vice President for Administration and Finance, who provided an overview of the Five-year Capital Improvement Plan.

- FF-1 Five-year Capital Improvement Plan─A motion was made and unanimously passed by the board approving the capital improvement plan options for 2016-17 through 2020-21.

Calvet adjourned the board meeting at 8:58 a.m.

Respectfully submitted: _____ Date: _____
John C. Hitt
Corporate Secretary

ITEM: FF-6

University of Central Florida
Board of Trustees

SUBJECT: 2015-16 Capital Outlay Budget

DATE: May 21, 2015

PROPOSED BOARD ACTION

Approve the university's 2015-16 capital outlay budget and authorize the president to make necessary adjustments as necessary to the 2015-16 capital outlay budget.

BACKGROUND INFORMATION

Pursuant to Florida Statute 1013.61, each university's Board of Trustees must adopt an annual capital outlay budget that designates proposed expenditures by project. The attached University of Central Florida 2015-16 capital outlay budget lists the projects approved during the legislative session and by the governor. Approval is sought for the attached budget along with authorization for the president to make changes to this budget as necessary during the year.

Supporting documentation: 2015-16 Capital Outlay Budget (Attachment A)

ITEM: FF-4

University of Central Florida
Board of Trustees

SUBJECT: 2016-17 Capital Outlay Budget

DATE: May 31, 2016

PROPOSED BOARD ACTION

Approve the university's 2016-17 capital outlay budget and authorize the president to make necessary adjustments as necessary to the 2016-17 capital outlay budget.

BACKGROUND INFORMATION

Pursuant to Florida Statute 1013.61, each university's Board of Trustees must adopt an annual capital outlay budget that designates proposed expenditures by project. The attached University of Central Florida 2016-17 capital outlay budget lists the projects approved during the legislative session and by the governor. Approval is sought for the attached budget along with authorization for the president to make changes to this budget as necessary during the year.

University of Central Florida

Office of the President

June 30, 2015

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

In accordance with your request dated May 8, 2015, to the Council of Presidents, enclosed is the University of Central Florida's Five-Year Fixed Capital Improvement Plan for the years 2016-21. This list revises UCF's primary priorities of previous years in accordance with the funding allocated by the Board of Governors, and it also includes additional facilities consistent with recent program developments and needs of the university. Use of existing space was considered in the prioritization of UCF's projects. We have increased the project cost within the three-year window due to the increase in the Board of Governors adjusted unit cost per gross square foot.

The UCF Five-Year Fixed Capital Improvement Plan was reviewed and approved by the University Board of Trustees on June 29, 2015.

Please ask members of your staff to contact Lee Kernek at (407) 823-3812 or Gina Seabrook at (407) 823-5894 if they have questions or need additional information.

Cordially yours,

John C. Hitt

John C. Hitt
President

Attachments: Budget Committee Lease Space Meeting-final.pptx

CONFIDENTIAL

University Budget Committee,

A summary of the discussion and decisions made during yesterday's meeting is as follows:

- Facility on Challenger Parkway – Chris Parkinson delivered the attached presentation to the committee. Joel Hartmann, Christy Collier, Dean Georgiopoulos, and Chuck Reilly were also in attendance to answer questions. A motion was made by Bill Merck to commit funding for the purchase or lease of this facility, subject to: 1) an evaluation of the purchase price based on two appraisals, 2) a more comprehensive space plan from Joel Hartmann to provide the committee with a fuller understanding of the plan and timeline for addressing space requirements for all new faculty and 3) BOT approval if acquiring the facility moves forward. The motion was seconded by Maribeth Ehasz and unanimously approved by those in attendance.

  More information will be provided to the committee and a broader communication regarding this investment in space will be made when more information on the facility is known and how it would fit into the comprehensive plan for both office and research space. After further discussion the committee committed to invest annually in facility needs, whether it be this facility or alternative space solutions, $1.5 million to come from FY2016-17 new revenue.

- ORC operating budget shortfall – Motion by Maribeth Ehasz to approve central E&G funding of $2 million per year for 3 years and $500,000 of central auxiliary funding per year for 3 years. The motion was seconded by Bill Merck and unanimously approved by those in attendance. It was acknowledged that administrative cuts beyond those proposed by ORC, inhibiting match opportunities, or reducing the return of indirect cost recovery to colleges are significantly less desirable alternatives and inconsistent with the university's goals of recruiting and retaining top-notch faculty and growing research. Further communication from the Provost to the Deans is required before this decision will be announced.

- Athletic waivers for women athletes – Motion by Grant Heston to approve funding of $330,000 on recurring basis. The motion was seconded by Maribeth Ehasz and approved by the majority with one dissenting vote. The discussion involved an assessment of the risk of a potential Title IX violation, financial penalties, and negative public image.

Members present: Dale Whittaker, Bill Merck, MJ Soileau, Grant Heston (by phone), Maribeth Ehasz, Tracy Clark, Christy Tant.
Members absent: Deb German, Jarell Jones, Keith Koons

If you have any questions, please let me know.

Subject: UCF Budget Committee Agenda and Materials

University Budget Committee,

We will be discussing three out-of-cycle funding requests at tomorrow's meeting. These requests are expected to generate a healthy discussion. Please be prepared to start promptly at 1pm and plan for the meeting to run late if you can. The three funding requests are summarized below. Additional materials are attached, including an updated summary of mid-year requests and available funding.

- An existing facility on Challenger Parkway is desired to provide office, lab, conference, and student cubicle space to be used by the new cluster faculty. Early estimates indicate this would require approximately $4.2 million in non-recurring build-out costs and $600,000 in recurring annual rent to commence July 1, 2016. A commitment of funding is being urgently requested due to the desirable nature of this space and the level of activity in the commercial real estate market.

- ORC is requesting central funding of $2.5 million for three years beginning in 2016-17 to cover a projected operational budget shortfall. The factors that contributed to this shortfall, ORC's financial position, and management's response plan will be presented during the meeting.

- Recurring funding of $330,000 is requested to increase tuition waivers for women athletes. This funding is urgently needed to provide Spring waivers and to address the university's compliance with Title IX issues. Statistics regarding compliance are included in Attachment B.

Note: Deb will not be present at this meeting and Grant will be calling in.

Research-Lab Space Funding Request

Christopher Parkinson, Michael Georgiopoulos, & Chuck Reilly

with data from Joel Hartman and the SPAA team

Current Space Conundrum

Findings of recent survey of College Deans:

- Estimated lab space needs over the next 3 years:
  - 77,348 sq ft. (dry, wet & clinic)
- Office space needs over the next 3 years:
  - ~206 faculty/staff
  - 223 GTAs/post docs

2015 UCF Education Plant Survey for BOG

- UCF currently has 303,335 sq. ft. of research labs (including all sites, except for the College of Medicine)
- By 2020-2021, the BOG expects us to need ~921,000 sq. ft. of research lab space
- Deficit of ~618,000 sq. ft. of research space
- The BOG approved 7 STEM-related buildings (~72,767 sq.ft but only phase 1 IRIF is funded)
- UCF will have ~545,000 sq. ft. of unmet research space needs

Partial Solutions to Current Space Conundrum

- New Space Becoming Available
  - Interdisciplinary Research & Incubator Facility (sp. 17)
    - Phase 1 =~41,953 sq. ft.
      - 1st floor = Materials Characterization Facility (11,850 sq. ft.)
      - 30,103 sq. ft. potentially assignable
  - Trevor Colbourn Hall (sp. 18: offices & shared space only)
    - ~3,400 sq. ft. programmed for cluster offices & collaborative space, mainly CAH, Rosen, Grad. Studies, Undergrad. studies, & Interdisciplinary Studies

Partial Solutions to Current Space Conundrum (cont'd.)

- More Space Becoming Available
  - Renovated Colbourn Hall (sp. 19, only offices; no lab space)
    - ~200 offices
  - CMMS/Barbara Ying Center
    - Bridge space
    - Basically cubicles only

Partial Solutions to Our Space Conundrum (cont'd.)

- Re-allocation of Existing Space
  - Ongoing in dept.'s/colleges/centrally
  - Request currently made to reallocate ~3500-4000 sq. ft. of Biological Sciences building 1st floor for Genomics & Bioinformatics cluster
- Renovation of Existing Space
  - *Extremely* expensive and disruptive (e.g., ENG1 (Bldg. 40))
- Lease Space
  - Challenger One
    - Options may include outright purchase or a lease-to-buy contract

Hiring Tenured/Tenure-Earning Faculty

- **SIGNIFICANT INVESTMENT IN NEW & REPLACEMENT FACULTY**
  - FCI 1.0 hiring 33 faculty for 2016-2017
    - 17 start in 2016, remaining in 2017
  - FCI 2.0 hiring ?? faculty for 2018-2019
  - CECS hiring 40-45 faculty during 2016-2018
    - ~25 starting in 2016 (Targeted Opportunity Faculty-~5000 sq. ft.)
  - COS hiring 20 faculty during 2016-2018
    - ~12 starting in 2016

Hiring Tenured/Tenure-Earning Faculty (cont'd.)

- Faculty Responsibilities
  - Research
  - Teaching
  - Service

- Consequence of Inappropriate or no research space
  - We will not hire the best and brightest
  - Do not want to settle for less than the best

- Impact on new faculty careers, UCF's investment?
  - Limited success in securing research funding
  - Earning tenure will be more challenging

Lease Space Proposal

- Challenger One (~21,000 sq. ft.)
  - ~18,200 sq. ft. of assignable space
  - UCF designs the interior of "white box" building

Lease Space: Challenger One Proposed Layout

Lease Space: Challenger One

- ~28 offices
- 16 small labs
- 1 cubicle room ~ 22
- 2 large shared labs
- 1 Cyber Security Lab
- 1 RISES lab

Cyber Security Cluster
RISES Cluster
Energy Propulsion Cluster Faculty
CECS Faculty
COS Faculty

House ~30 faculty and at least 40-50 graduate students

Lease Space: Challenger One

- Buildout estimate ~$4,200,000 ($5,000,000-tenant improvement allowance)
- Cost per year ~$600,000
- 10-year Lease
  - Final terms are negotiable

Faculty Locations Long Term

- Prosthetics Cluster: Locate in IRIF building
- Energy Propulsion and Conversion: IRIF building
- Cyber Security potentially moves to Trevor Colbourn Hall

- UCF will continue to grow, with specific growth targets for graduate programs and research

- UCF's need for lab space will only continue to expand

Our Recommendation

- Acquire available space at Challenger One to meet some of Fall 16 and onward space needs
  - Lease?
  - Lease-to-buy?
  - Purchase?
- This solution and the IRIF will allow us to recruit top faculty at UCF with definitive allocations of lab space
- **Note: With faculty searches ongoing and other potential tenants interested in Challenger One, time is critical.**

Questions

- Thank you for the opportunity to present this recommendation.
- We welcome your questions and suggestions.
- ***Action Item for Chris, Chuck, and Michael?***

Minutes
Critical Laboratory Space Needs Meeting
February 12, 2016

Meeting purpose: The following attendees met to discuss options for addressing the research laboratory and office needs of faculty members who will be hired in 2016 through 2018.

Attendees: Michael Georgiopoulos, Tracy Clark, Tom O'Neal, Joel Hartman, Karen Cobbs, Ronnie Korosec, Lee Kernek, Bill Martin, Montel Watson, Brian Boyd, Shelley King, Christy Collier, Chris Parkinson

Outcome: The group discussed and evaluated four options for creating additional lab space. The Ara Drive tilt wall laboratory building emerged as the most potentially cost-effective option, but will require the identification and allocation of existing laboratory spaces to accommodate the needs of faculty being hired in fall 2016, and spring and fall of 2017.

These faculty would subsequently be able to re-locate to the Ara lab facility.

Option 1 - IRIF Phase 2

- Design is complete, If funded, estimated completion is November 2017
- Lab build-out cost is included in the construction cost
- Build-out includes perimeter cabinetry and 1 fume hood per lab
- Remaining build-out costs to be covered by incoming researchers (e.g., start-up fees)
- 28 labs, totaling 16,201 SF
- Estimated cost: $15,222,309
- Proximity to COHPA could potentially create a research core on campus following opening of the UCF downtown campus
    - Space vacated by departments going downtown could be retrofitted for dry lab space and offices
    - Could rent space downtown and move the departments now to make room on campus

IRIF Phase 1

- Construction has started. Estimated completion is July 2017.
- Floors 2 and 3 to be assigned (32 labs, totaling 16,346 SF)
- If Facilities knew who was going in and what they needed, they would be able to build out the labs and still hold the July 2017 completion time, depending on the complexity of the requests.

Option 2 – Ara Lab Building (Partial)

- Location will require wetland mitigation, site development, and additional parking spaces
- Build-out includes perimeter cabinetry and 1 fume hood per lab
- Estimated completion November 2017
- Designed so that additional wings could be added over time
- Estimated cost: $13,734,400

Option 3 – Ara Lab Building (Full)

- Estimated completion November 2017
- Option with the most SF (42,107)
- Estimated cost: $27,108,272

Option 4 – Challenger 1

- Owner is requesting a 10 year lease to help recover owner buildout expenses (offered lease: $600k/yr)
- Owner initially willing to sell for $4.5 million, but now reconsidering
- Two appraisals completed, resulting in estimates of $3.1M and $3.2M
- Appraisals did not take into account revenue potential from leasing
- Three other parties currently interested in leasing the property (1 for the entire building, 2 wanting half). Owner will not wait long for UCF to reach a decision.
- Owner estimates that labs could be built out by August 2016 if owner does the work (not required to follow same codes and standards as UCF Facilities Planning & Construction)
- Before UCF could occupy, the Building Code Officer would have to inspect for life safety and ADA requirements
- Lee thinks that there will be high utility and maintenance cost for the building and no PO&M funding
- Has the least amount of square footage of all three options (14,283 SF)
- Estimated cost: $10,254,564

Clusters

- Need to look at August 2016 space demands for new hires (New hiring data from deans coming in and will be analyzed)
- Sixteen cluster hires expected in August 2016
- Three lead cluster hires will start in August 2016; the remainder of their cluster will arrive in 2017 or later

Temporary Lab Space & Needs

Prosthetics (1) – Lake Nona -> IRIF

Cyber Security (1) – Bridge space needed -> TCH (prefer RISES & Cyber be co-located)

- Dry lab

Genomics & Bioinformatics (1) – Biology 1st floor

Energy Propulsion (5) – Bridge space (FSEC or Physical Sciences) -> IRIF

- Fume hoods, dry lab

RISES (3) – Bridge space (Bennett 3 (?)) -> Permanent home required

- Dry lab, lots of power (440 V)

Coastal (5) – Bridge space needed -> TCH (5 offices) -> Permanent lab space needed

- Wet lab and dry lab

Lee to research cost of mobile lab facilities

- looking into using them on the coast for ORC

Tom O'Neal to review ORC's space for potential openings

- OTC 700 reportedly has a 15,000 SF concrete pad that could be used for future development
- Bennett 3 & 4 has 20 vacant offices and 4 dry labs
- Rentable space at Lake Nona (15,000 SF) could be ready this year (est. comp. 5 mos.), across from UF building

Yes, we are moving forward on IRIF phases 1 and 2. Lee is working up costs on a possible re-design of phase 2 to minimize offie space and maximize laboratory space.

Joel/Lee

In meetings today with Bill and Dale both approved moving forward with IRIF phase 2 as the next research building option. As Joel infers below, they have selected that option over either of the ARA options.

Please proceed and Lee can coordinate with me on funding. Dale would like to see a majority of the IRIF phase 2 space as lab space.

Thanks and let me know if you have any questions.

On Mar 2, 2016, at 10:59 PM, Joel Hartman <Joel.Hartman@ucf.edu> wrote:

Tracy,

Here's where things stand at present. The options listed on the attached cost comparison (minus the Challenger options—the building has come off the market) have been discussed in multiple forums, including the president's cabinet. There appear to be three leading contenders: IRIF phase 2, ARA option 1, and ARA option 2.

We have kicked off a review of current lab space with the goal of finding 20,000 square feet of space that could be allocated while we are constructing one of the above options.

In a side conversation with Dale, he expressed a preference for IRIF phase 2. Given today's decision about downtown, we may want to focus on IRIF phase 2 with the offices removed and use the COHPA building as office space. Although the per-SF cost for ARA is a little less, the location is less desirable than main campus. We have not finally allocated floors 2 and 3 of IRIF phase 1, so that building may be able to help meet short term lab needs.

In large part, the final decision on options is dependent on how much UCF can commit to building new research lab space.

Joel

Chris - Megan Diehl can help you with the exceptional funding request. You can make it now for either FY16/17 or FY 17/18 if you have estimates/numbers (we go two years out). I assume this would be an FY17/18 request. The request needs to be in by May 15th.

I am happy to get the leads together with Bill and whomever to discuss.

The one item that keeps coming up that I need to completely understand is Bill's statement the user groups will pay for buildout.

What exactly does this mean, there are not monies built into the cluster program, at all, to spend on lab buildout. But what exactly is lab build out? What will the standard lab have in terms of cabinets, benches, fume hoods, gasses, vacuum, sinks, etc?

Will there be an autoclave in the building if so what floor or on multiple floors and is there distilled h2O to each lab?

Maybe it would be good to have a meeting next week with Bill Martin, and I to discuss?

Thanks

Chris

> The IRIF labs were designed to handle NFPA 45, but I think we need to understand exactly what each of these groups need before approving their final placements. We really need Ponikvar to get involved and get info from them on their chemical use, etc to make sure their placements work within the control areas that he has designed. As the AOR he will need to design all of these build-outs anyway, so we should have him spearhead the effort. Need to make sure the end user needs are met, and understand what added items (power, utilities, fume hoods, mobile casework, etc.) will be needed within each lab, and what cost that will add to the project in terms of design add services and added construction cost – which should be funded by the user groups per our previous agreements. We can't properly assign these groups to specific

spaces without knowing what their actual needs are and making sure they work with the current design – which is more than a space issue.

FYI, the high bay space on the ground floor of P4 is roughly 6,300sf. This space would be difficult to put fume hoods in though, as its on the ground floor with two levels of office above it. But if they need dry lab space with high bays, it could work. See attached floor plan.

Subject: IRIF 1 & 2 Assignments

All,

I've attached the building layouts for both IRIF 1 and 2 and attempted to place all of the groups. I've also attached a summary spreadsheet that shows what was requested versus what each group got. This is just the first pass at placing people, so if you see something that will not work, just let me know. For offices, we may have to divide some of the larger ones to accommodate all of the office requests, but otherwise, it seems like there would be minimal changes needed. On the first floor of IRIF 2, RISES will need a roll-up door, too. In IRIF 2, we still have over 3,000 SF of lab space and 600+ SF of office space unassigned.

Dale and Bill

We have put together a list of unfunded and funded capital projects for your meeting tomorrow with Dr. Hitt. We compiled it from information we had, information from John Pittman, and information we requested from Lee Kernek. If you have any questions or changes you'd like me to the schedule, please let me know.

Subject: Capital Projects List - Response due July 3
Attachments: Capital Projects_062716.xlsx

All – I have been asked to track estimates and funding sources for capital projects. Your assistance in reviewing the attached draft report is needed. While this list is intended to be comprehensive, it is not intended to be a wish list. It includes projects that have been approved to start, but should also include projects that are urgent or very high on the university's priority list so imminent funding needs are clearly understood.

The attached schedule contains three vertical sections as described below:

- **Estimated Cost** – This section is intended to itemize total project cost in four separate columns including core project cost, lab buildout, furniture & equipment, and moving costs. Lab buildout, furniture and equipment, and moving costs are often a source of confusion because they are not consistently included in the project estimate. Lab buildout and furniture and equipment should include both basic and estimated specialized costs (i.e. wet labs). It's important for everyone who uses this report to understand the full anticipated cost of each project and their funding source(s). We know these are estimates. The schedule will be updated as estimates change so that any funding needs are understood clearly and in a timely manner.
- **Secured Funding Sources** – This is to track where the funding is coming from and is self-explanatory. The schedule needs to identify where there is a "potential" for donations or state appropriations, but amounts will only be added in that column when funds have been secured.
- **Funding Needed** – This is a formula that will automatically update as cost estimates and funding sources are entered/ updated.

Lee/ Bill/ Gina/ Christy/ Chris/ John/Curt – Please review the Estimated Cost and Secured Funding sections of the attached document. If amounts need to be updated, please provide the new amount with brief explanation for what caused the change. Question marks indicate that an amount is needed. Provide feedback on the rest of the schedule with the following questions in mind:

1. Is the project substantially complete? If so, please indicate in column B. Completed projects will eventually be moved to another tab to make this list shorter and easier to manage.
2. Does the core project cost estimate include lab buildout, furniture and equipment, or moving costs that should move to the other columns? If not, enter anticipated amounts in columns C - E. If one or more of these columns is clearly not applicable to the project, then it should be identified as "N/A".
3. Do the cost estimates reflect the latest known information?
4. Are the secured funding sources and amounts consistent with your knowledge?
5. Have all opportunities for donations or state appropriations as a potential funding source been indicated?
6. What else is needed to improve the clarity or usefulness of this report?

Please provide your responses no later than this Friday, July 3rd.

Once all of the edits are made, then I will redistribute the final report to you all. This information will also be shared with leadership in Administration and Finance, the Provost Office, and the Office of Budget, Planning and Administration and the University Budget Committee. I plan to send this report to you quarterly for periodic updates as it will require our collective effort to maintain.

If additional time is needed or you would like to arrange a call or meeting to review this schedule in person, please let me know as soon as possible.

Thank you,

Christy Tant, CPA

Recommended for approval:

A. Dale Whittaker, Provost & Vice President for Academic Affairs — Date 8/31/16

Approval:

John C. Hitt, President — Date 8/31/16

	UCF Executive Budget Committee Meeting **AGENDA**
Date:	November 22, 2016
Time:	9:00 – 10:00 a.m.
Location:	MH-395E
Facilitator:	Provost Dale Whittaker and Vice President William Merck
Invitees:	Rachel Altfield, Scott Cole, Maribeth Ehasz, Deb German, Grant Heston, Michael Johnson, Elizabeth Klonoff, Keith Koons, John Pittman, Rick Schell, Cynthia Young, Tracy Clark, Christy Tant, Lisa Jones, Mike Morsberger, Mark Wray

UCF Budget Philiosphy: An effective budgeting process transforms strategic goals into achievable operating plans, and:

- ***Properly and continuously aligns resources***
- ***Employs an "all-funds" approach***
- ***Maintains fiscal responsibility with those closest to operational decisions***
- ***Increases communication, transparency, and accountability***

- - - - Agenda Topics - - - - -

1. Opening Remarks
2. Approval of minutes from August meeting
3. Update on Preeminent Postdoctoral Program - P^3 (handout 1)
4. Planning for annual funding requests process – announcement(s), timeline, supporting documentation, presentations
5. Thoughts on scheduling select ROI reports in July/ August (from the Spring 2015 round of funding requests)
6. Closing remarks

Handout 1

UCF 2017 Preeminent Postdoctoral Program – P^3

Through an Exceptional Funding Request, the **UCF College of Graduate Studies** has been allocated funding to pilot a program to augment the number of postdoctoral scholars at the university. According to NIH, NSF and the National Postdoctoral Association (NPA), a postdoctoral scholar is an individual who has received a doctoral degree (or equivalent) and is engaged in a temporary and defined period of mentored advanced training to enhance the professional skills and research independence needed to pursue her or his chosen career path.

Advancing UCF's research, teaching and service missions, P^3 will provide two levels of support for **first-time** UCF postdoctoral scholars who begin their contracts in 2017. For externally funded postdoctoral scholars, P^3 will provide 50% matching support (salary and benefits) for two years. For scholars, who are being funded off start-up funds, P^3 will provide 25% matching support (salary and benefits) for two years. To attract outstanding applicants, a $5,000 travel/research allowance will be awarded to each scholar.

Eligibility

Principal investigators who desire postdoctoral scholars to assist with their research and can document the availability of matching funds and necessary resources (e.g., research space, computer, supplies) for two years are eligible to apply. The minimum salary of $50,000 for these new employees will exceed the Fair Labor Standards Act (FLSA). Coupled with UCF employee benefits (fringe=34.36% or $17,180), the minimum match requirement from the PI using external funding for each of the two years is $33,590. For PIs using start-up funds, the minimum match requirement is $50,385 for each of the two years.

Postdoctoral Scholar Support Levels

	External Funds		Start-up Funds	
Year	P^{3*}	PI*	P^{3*}	PI*
1	$38,590	$33,590	$21,795	$50,385
2	$33,590	$33,590	$16,795	$50,385
3†	-	$67,180	-	$67,180
4†	-	$67,180	-	$67,180

*minimum level of funding provided
†from anticipated external sources

Program funding will be available starting January 2017. During its first year, P^3 is expected to support >25 new postdoctoral positions. This projection is dependent on how many PIs use external versus start-up matches and salary levels, which will be determined by the PIs who may require salaries above the minimum rate to meet discipline norms. Note that the UCF postdoctoral fringe rate is reduced to 24.35% if the salary exceeds $70,000.

Expectations

PIs must submit a postdoctoral mentoring plan that describes how the PI (research group, department, college, etc.) will provide advanced training in the discipline and enhance professional skills to promote scholarly independence. This plan may involve participation in faculty development and teaching opportunities available through existing UCF programs (e.g., Faculty Excellence, FCTL, Pathways to

Success) and/or collaboration with industry partners. It is expected that the PI and scholar will be involved in grant writing to support continued research activities beyond the two-year match period. Currently, postdoctoral scholars are eligible to remain in that job category at UCF for up to four years.

Postdoctoral scholars will be required to create Individual Development Plans (IDPs) following guidelines similar to those outlined by the AAAS (http://myidp.sciencecareers.org/) and the American Psychological Association (http://www.apa.org/education/grad/individual-development-plan.aspx). IDPs and mentoring activities will be tracked by the College of Graduate Studies.

Application Evaluation Criteria

Beginning November 7, 2016, applications will be evaluated on a first-come basis until funding for this year is exhausted. If the demand exceeds the resources, applications that submit strong postdoctoral mentoring plans and outline realistic, subsequent funding avenues to continue postdoctoral scholar support will receive priority. If a postdoctoral scholar has not already been identified, PIs will be required to document how they will recruit scholars who are under-represented in their field.

Once approved, PIs will have **six** months to hire the postdoctoral scholar or the award will be forfeited and the funding will be made available to other PIs. However, PIs will be eligible to reapply. Unless demand is low, the program will only support one postdoctoral scholar per PI.

Handout 1

UCF 2017 P^3 Application (page 1)

Please type or print legibly. E-mail the application and supporting documents in PDF format to postdoc@ucf.edu.

A. Postdoctoral Scholar Mentor Information

Last name_____ **First name**_____

Title_____ **Unit**_____

B. Research Project Information

Project title_____

Funding source/agency or startup funds_____

Associated UCF grant account number_____

Briefly describe expected postdoctoral scholar project duties.

_____

_____

_____

_____

Briefly list other resources to be provided to the postdoctoral scholar (e.g., office/lab space).

_____

_____

_____

_____

C. Postdoctoral Scholar Information

Postdoctoral scholar annual salary $_____ **Expected start date**_____

If known, name of postdoctoral scholar_____

Doctoral institution_____ **Date degree received**_____

If unknown, explain how you plan to advertise for the postdoctoral position and include how you will encourage applications from under-represented groups in your discipline.

_____

_____

_____

	UCF Executive Budget Committee Meeting **AGENDA**
Date:	January 23, 2016
Time:	3:00 – 4:00 p.m.
Location:	MH-395E
Facilitator:	Provost Dale Whittaker and Vice President William Merck
Invitees:	Rachel Altfield, Scott Cole, Maribeth Ehasz, Deb German, Grant Heston, Michael Johnson, Elizabeth Klonoff, Keith Koons, John Pittman, Rick Schell, Cynthia Young, Tracy Clark, Christy Tant, Lisa Jones, Mike Morsberger, Mark Wray, Ronnie Korosec

UCF Budget Philiosphy: An effective budgeting process transforms strategic goals into achievable operating plans, and:

- ***Properly and continuously aligns resources***
- ***Employs an "all-funds" approach***
- ***Maintains fiscal responsibility with those closest to operational decisions***
- ***Increases communication, transparency, and accountability***

- - - - Agenda Topics - - - - -

1. Opening Remarks
2. Approval of minutes from November meeting
3. Establishment of the Facilities Budget Committee
4. Update on use of emerging preeminence funding for faculty (Cynthia Young)
5. Update on performance/ preeminence metrics (Paige Borden)
6. Update on enrollment management goals (Maribeth Ehasz)
7. Closing remarks

Christy,
This is all E&G funding? It's in addition to the current commitment $30m Ph1 + $17m Ph2? I'm wondering if we need to add budget to the FY18 auxiliary reserve.

> Tracy,
>
> As you know, we received Phase 1 costs several weeks ago, and they came in a good bit higher than our original estimate. We have worked the past few weeks with the construction manager and subcontractors to limit the demolition scope in order to save time and reduce costs. We have received new numbers for Phase 1. I'm happy to say that the total cost for both Phase 1 and Phase 2 is now back to the numbers provided in January. The Phase 1 number has still gone up, but when combined with the Phase 2 number that went down (see email below), we are back to the January number.
>
> 1/11/17 Phase 1 & 2 total cost - $6,511,743.03
>
> Current Phase 1 & 2 total cost - $6,511,743.03
> Phase 2 total cost - $2,686,376.28 (previously approved below)
> Phase 1 total cost - $3,825,366.75 (need approval)

We think that this is the best that we can do on the numbers to keep the scope intact and hit the December deadline. We would like your immediate approval on this funding (Phase 1 total cost - $3,825,366.75, Phase 1 & 2 total cost - $6,511,743.03) so we can move forward with the Phase 1 amendment. Please confirm.

Thanks for your patience as we have worked though the complications of these mid-construction changes!

On Mar 16, 2017, at 10:17 AM, Bill Martin <Bill.Martin@ucf.edu> wrote:

Tracy,

Under the "All labs" tab there is a detailed breakdown of the base building vs research assignments. These assignments are based on the following criteria. If a cost is for the general improvement of the building and can be used long term by multiple users, it is assigned to base building. If the cost is specific to research needs for an individual user that will not likely be used by future end users, it is assigned to research.

Below are the costs that fall under the new "MISC Building" category. All of these serve the long term use of the building, so they are assigned to the base building category:

- HVAC - $25,398.00
  - $8,889.14 for additional zone controls for offices related to RISES. These controls can be used long term by any building occupant, so they are assigned to base building.
  - $1,777.88 to split room 262 into two offices. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $1,777.88 to split room 362 into two offices. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $12,953.10 for duct adjustments related to the buildouts that serve the long term use of the building, so they are assigned to base building.
- Paint - $1,152.00 - Additional painting costs related to splitting rooms 262 and 362. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
- Plumbing - $53,894.00
  - $24,606.00 this is related to an eye wash that can be used by future building occupants, so they are assigned to base building.
  - $18,414.00 this is to add gas bottle manifolds. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $10,874.00 this is related to switching places of a break area and an office. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
- Flooring - $0.05 – this is to make up for a rounding error for flooring that is all base building.

Please let me know if you have more questions.

When can we anticipate having funding approval? Our contract amendment is ready for routing and signatures.

Thanks!
Bill

Subject: RE: IRIF Phase 2 funding request

Tracy, currently Phase 2 lags Phase 1 by about 4 months. Much of the work in Phase 1 has already been completed and needs to be re-done…no avoiding that. However, in Phase 2 the work is 4 months behind so we prioritized getting those changes priced first so we did not have to re-do as much work. Had we done Phase 1 first, the Phase 2 number would have been significantly higher because of the re-work. This also will minimize the schedule delay – because Phase 2 is set to finish last, it was critical that we got all of those changes priced and approved. It sounds backwards, but there is a reason for it!

I'd love to give you guys a site tour to see it in person. Let me know if you have any interest.

The document that I sent does not include Phase 1 yet, only Phase 2. Phase 1 will be reviewed at the end of the month.

How quickly do you anticipate the official green light? We are preparing a contract amendment, but that can't be executed until we get the funding approval.

Hope this helps,
Bill

Subject: IRIF Phase 2 funding request

Tracy,

We recently received and reviewed the bid proposal for the changes to Phase 2 of IRIF from the Construction Manager, CPPI. Phase 1 costs are anticipated at the end of this month and will be requested separately. For Phase 2, the costs have come in slightly under our original estimate. Our original Phase 2 cost estimate was $3,141,983.95, and the actual bid value is $2,686,376.28 – a difference of -$455,607.68. Please see the attached spreadsheet with the details.

We need immediate confirmation that this value ($2,686,376.28) is available for the construction of the project and to draw against for project expenses, in order for us to proceed with a contract amendment to add this scope of work to the project. Please confirm at your earliest convenience.

Thanks,
Bill

Subject: IRIF Build out costs for COS
Attachments: IRIF PHASE 1 ADDED COST ESTIMATE 120216.xlsx

Michael,

Sit down cause the numbers are big!

First of all the good news, we can fully fulfill Dale's 65% share of the estimated startup commitment for the FCI clusters! (You may remember that in the beginning Dale could only commit to being able to fund part of his commitment – approximately 60% of it). We can now fund his full commitment.

Now to the IRIF build out costs. Total estimated lab build out costs for IRIF both phase 1 and 2 is $6.5 million.

We are going to centrally handle COS and CECS basic build out costs, along with additional infrastructure costs due to design changes. That's about $1.7 million.

The FCI clusters is going to handle another $1.7 million for the four FCI clusters going into the building (CYBER, SCS, RISES AND ECP) from salary savings from late cluster hires (both basic build out and research specific costs). We can do this in addition to making up Dale's initial startup shortfall.

The research build out costs related to COS' occupancy of IRIF is projected to be $916k. $324k is for Phase 1 and $592k is for Phase 2. Have you have planned for these costs? You can use startup funds, E&G funds, Aux. or C&G monies.

Attached is the overall cost schedule for your review. There are detail pages, room by room, that facilities has if you would like to see your sheets. I have asked for them, but not yet received them.

Let me know you thoughts.

TOTAL ESTIMATE	**$6,488,704**

TOTAL BASE BUILDING	$2,959,808

TOTAL RESEARCH	$3,528,896

NOTES:

1) ESTIMATE IS BASED OFF CONSTRUCTION COSTS THAT HAVE BEEN PROVIDED BY THE A/E AND CM BASED OFF THE LIMITED INFORMATION KNOWN ON REQUESTED CHANGES TO DATE. DESIGN HAS NOT BEEN APPROVED FOR THESE CHANGES (AND WILL NOT BE APPROVED UNTIL FULL FUNDING IS PROVIDED). IF ADDITIONAL SCOPE IS DISCOVERED DURING DESIGN, COSTS COULD INCREASE FROM THE ABOVE ROUGH-ORDER-OF-MAGNITUDE ESTIMATES
2) "INFRASTRUCTURE" IS RELATED TO ADDITIONAL DATA AND SWITCHES WHICH WILL BE NEEDED DUE TO CHANGES. THESE COSTS HAVE BEEN ASSIGNED TO TO THE BASE BUILDING COST.
3) THIS ESTIMATE IS FOR ALL CHANGES. SEE PHASE 1 AND PHASE 2 BREAKOUTS FOR ADDITIONAL BREAKDOWNS.
4) REFER TO THE EMAIL ON THE CONCEPT DESIGN MEETING MINUTES FROM FEBRUARY 2015 WHERE FP&C ADVISED THAT THESE COSTS ARE NOT IN THE CURRENT BUDGET AND WILL NEED TO BE PROVIDED WHEN THE BUILD-OUT OCCURS.
5) IN ADDITION TO COST INCREASES, THESE CHANGES ARE LIKELY TO CAUSE SCHEDULE DELAYS TO THE PROJECT, AS MUCH OF THE WORK RELATED TO THESE CHANGES HAS ALREADY BEEN COMPLETED (WALLS FRAMED, INFRASTRUCTURE ROUGHED IN, ETC.). SPECIFIC SCHEDULE DELAYS CANNOT BE KNOWN UNTIL THE CHANGES ARE BID, WHICH IS DEPENDENT ON WHEN FUNDING IS AVAILABLE.
6) TIME IS OF THE ESSENCE FOR FUNDING OF THE ABOVE. PRIOR TO CONSTRUCTION, CONSIDERABLE DESIGN EFFORT IS REQURIED TO PROPERLY ENGINEER THE REQUESTED CHANGES. THEY WILL THEN NEED TO BE BID, AND THEN AN ADDENDUM WILL NEED TO BE EXECUTED TO IMPLEMENT THE CHANGES.

Subject: IRIF Build out costs for CECS
Attachments: IRIF PHASE 1 ADDED COST ESTIMATE 120216.xlsx

Michael,

Sit down cause the numbers are big!

First of all the good news, we can fully fulfill Dale's 65% share of the estimated startup commitment for the FCI clusters! (You may remember that in the beginning Dale could only commit to being able to fund part of his commitment – approximately 60% of it). We can now fund his full commitment.

Now to the IRIF build out costs. Total estimated lab build out costs for IRIF both phase 1 and 2 is $6.5 million.

We are going to centrally handle COS and CECS basic build out costs, along with additional infrastructure costs due to design changes. That's about $1.7 million.

The FCI clusters is going to handle another $1.7 million for the four FCI clusters going into the building (CYBER, SCS, RISES AND ECP) from salary savings from late cluster hires (both basic build out and research specific costs). We can do this in addition to making up Dale's initial startup shortfall.

The research build out costs related to CECS for the HAR cluster is projected to be $900k and the research build out costs for other CECS space in IRIF is projected to be $700k. $1 million is needed for phase 1 and the other $600k for phase 2. Have you have planned for these costs? You can use startup funds, E&G funds, Aux. or C&G monies.

Attached is the overall cost schedule for your review. There are detail pages, room by room, that facilities has if you would like to see your sheets. I have asked for them, but not yet received them.

Let me know you thoughts.

TOTAL		$5,026,596	$370,250	$165,750	$114,209	$84,114	$10,139	$569,797	$6,488,704	

TOTAL ESTIMATE	**$6,488,704**

TOTAL BASE BUILDING	$2,959,808

TOTAL RESEARCH	$3,528,896

NOTES:

1) ESTIMATE IS BASED OFF CONSTRUCTION COSTS THAT HAVE BEEN PROVIDED BY THE A/E AND CM BASED OFF THE LIMITED INFORMATION KNOWN ON REQUESTED CHANGES TO DATE. DESIGN HAS NOT BEEN APPROVED FOR THESE CHANGES (AND WILL NOT BE APPROVED UNTIL FULL FUNDING IS PROVIDED). IF ADDITIONAL SCOPE IS DISCOVERED DURING DESIGN, COSTS COULD INCREASE FROM THE ABOVE ROUGH-ORDER-OF-MAGNITUDE ESTIMATES
2) "INFRASTRUCTURE" IS RELATED TO ADDITIONAL DATA AND SWITCHES WHICH WILL BE NEEDED DUE TO CHANGES. THESE COSTS HAVE BEEN ASSIGNED TO TO THE BASE BUILDING COST.
3) THIS ESTIMATE IS FOR ALL CHANGES. SEE PHASE 1 AND PHASE 2 BREAKOUTS FOR ADDITIONAL BREAKDOWNS.
4) REFER TO THE EMAIL ON THE CONCEPT DESIGN MEETING MINUTES FROM FEBRUARY 2015 WHERE FP&C ADVISED THAT THESE COSTS ARE NOT IN THE CURRENT BUDGET AND WILL NEED TO BE PROVIDED WHEN THE BUILD-OUT OCCURS.
5) IN ADDITION TO COST INCREASES, THESE CHANGES ARE LIKELY TO CAUSE SCHEDULE DELAYS TO THE PROJECT, AS MUCH OF THE WORK RELATED TO THESE CHANGES HAS ALREADY BEEN COMPLETED (WALLS FRAMED, INFRASTRUCTURE ROUGHED IN, ETC.). SPECIFIC SCHEDULE DELAYS CANNOT BE KNOWN UNTIL THE CHANGES ARE BID, WHICH IS DEPENDENT ON WHEN FUNDING IS AVAILABLE.
6) TIME IS OF THE ESSENCE FOR FUNDING OF THE ABOVE. PRIOR TO CONSTRUCTION, CONSIDERABLE DESIGN EFFORT IS REQURIED TO PROPERLY ENGINEER THE REQUESTED CHANGES. THEY WILL THEN NEED TO BE BID, AND THEN AN ADDENDUM WILL NEED TO BE EXECUTED TO IMPLEMENT THE CHANGES.

Subject: RE: IRIF build out cost

Hi Tracy, Chris, and Manoj:
As Chris said in his reply, we have been reviewing the build-out cost. Right now, Jenny is finishing an email with some requests for explanation/changes for a couple of rooms which she will send to Bill Martin and Trey Beck (the project manager), to resolve with the architect who drew the plans. For most rooms/labs, there were no or only very minor changes.
Once we have the final numbers, we will make a recommendation to the Dean. As discussed in a meeting Chris, Manoj, Christy, Jenny, and I had a week ago, in which we mostly talked about procedures for reassignment and refurbishment/renovation of labs upon vacating them, we also wanted to inquire (a) as to the due dates for any payments for IRIF and/or whether the College could pay these in installments, and (b) whether central administration will provide any support for on-campus moves (in general, but also for IRIF). If you could let us know about any possibilities in this respect, I would greatly appreciate it.
Thank you and best regards,

Florian

Subject: Fwd: IRIF build out cost

This is the approach we need to take with Michael G.'s request. He needs to reallocate carry forward/start up to fund the full $1 million college of engineering research build out. As you are evaluating his exceptional funding request, I would go back to him and tell him that our evaluation of his available funds is that he needs to reprioritize in order to fulfill this need.

Morning Tracy

This seems to be about the same as before for us. I believe we are fine in terms of the costs. I will go through my budget this week to make sure all is still good, but we have not filled all the positions so there will be additional cost savings.

Chris

Subject: IRIF Buildout

All –

Facilities and Safety (F&S) has worked extremely hard to get the final IRIF Phase I and Phase II buildout quotes to fit within our expected budget. Although Phase II came in lower than expected Phase I came in higher. F&S went back to the sub-contractors and between these vendors, the general contractor, and some financial risk on the side of F&S, they have committed to completing the work within the $6.5 million originally quoted in January. **We need to give them our go ahead ASAP in order to stay on schedule for a December opening.**

I need each of you to share in this cost as shown below:

Faculty Cluster	$1,700,000
College of Science	900,000
College of Engineering and Computer Science	1,000,000
NANO	600,000
Central Funding	2,300,000

Please send me an email with your commitment for the above contribution. Thanks and let me know if you have any questions.

I do. We just have to fund $600,000 more from central - I wasn't comfortable asking the units for more.

Bill Martin and team got the subs down as far as they could and then they released F&S contingency funds. Time is of the essence.

Next week's Facilities Budget Committee is on cost estimating - you don't want to miss it!!! I'd say a fiancé person needs to be involved ALL throughout the process - all meetings if necessary. And not one that works in F&S.

Our consolation prize - I got Lee to fund the lease space buildout for Limbitless - $40k!! Albert will be very happy since their bank account is only $113k and they didn't know how they'd handle the buildout costs.

Bill,

I have secured $6.5 million for the IRIF buildout. Please have Lashanda's team set up a construction project to receive the transfers. Thank you.

> Tracy,
>
> As you know, we received Phase 1 costs several weeks ago, and they came in a good bit higher than our original estimate. We have worked the past few weeks with the construction manager and subcontractors to limit the demolition scope in order to save time and reduce costs. We have received new numbers for Phase 1. I'm happy to say that the total cost for both Phase 1 and Phase 2 is now back to the numbers provided in January. The Phase 1 number has still gone up, but when combined with the Phase 2 number that went down (see email below), we are back to the January number.
>
> 1/11/17 Phase 1 & 2 total cost - $6,511,743.03

Current Phase 1 & 2 total cost - $6,511,743.03
Phase 2 total cost - $2,686,376.28 (previously approved below)
Phase 1 total cost - $3,825,366.75 (need approval)

We think that this is the best that we can do on the numbers to keep the scope intact and hit the December deadline. We would like your immediate approval on this funding (Phase 1 total cost - $3,825,366.75, Phase 1 & 2 total cost - $6,511,743.03) so we can move forward with the Phase 1 amendment. Please confirm.

Thanks for your patience as we have worked though the complications of these mid-construction changes!

You should move forward with the contracts. I've got most of the funding committed by the various sections - I'm still working on a small amount. But don't use that to hold you up.

Tracy,

Under the "All labs" tab there is a detailed breakdown of the base building vs research assignments. These assignments are based on the following criteria. If a cost is for the general improvement of the building and can be used long term by multiple users, it is assigned to base building. If the cost is specific to research needs for an individual user that will not likely be used by future end users, it is assigned to research.

Below are the costs that fall under the new "MISC Building" category. All of these serve the long term use of the building, so they are assigned to the base building category:

- HVAC - $25,398.00
  - $8,889.14 for additional zone controls for offices related to RISES. These controls can be used long term by any building occupant, so they are assigned to base building.
  - $1,777.88 to split room 262 into two offices. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $1,777.88 to split room 362 into two offices. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $12,953.10 for duct adjustments related to the buildouts that serve the long term use of the building, so they are assigned to base building.
- Paint - $1,152.00 - Additional painting costs related to splitting rooms 262 and 362. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
- Plumbing - $53,894.00
  - $24,606.00 this is related to an eye wash that can be used by future building occupants, so they are assigned to base building.
  - $18,414.00 this is to add gas bottle manifolds. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $10,874.00 this is related to switching places of a break area and an office. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
- Flooring - $0.05 – this is to make up for a rounding error for flooring that is all base building.

Please let me know if you have more questions.

When can we anticipate having funding approval? Our contract amendment is ready for routing and signatures.

Thanks!
Bill

Subject: RE: IRIF Phase 2 funding request

Tracy, currently Phase 2 lags Phase 1 by about 4 months. Much of the work in Phase 1 has already been completed and needs to be re-done…no avoiding that. However, in Phase 2 the work is 4 months behind so we prioritized getting those changes priced first so we did not have to re-do as much work. Had we done Phase 1 first, the Phase 2 number would have been significantly higher because of the re-work. This also will minimize the schedule delay – because Phase 2 is set to finish last, it was critical that we got all of those changes priced and approved. It sounds backwards, but there is a reason for it!

I'd love to give you guys a site tour to see it in person. Let me know if you have any interest.

The document that I sent does not include Phase 1 yet, only Phase 2. Phase 1 will be reviewed at the end of the month.

How quickly do you anticipate the official green light? We are preparing a contract amendment, but that can't be executed until we get the funding approval.

Hope this helps,

Bill

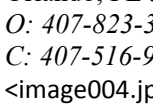
Subject: IRIF Phase 2 funding request



Tracy,

We recently received and reviewed the bid proposal for the changes to Phase 2 of IRIF from the Construction Manager, CPPI. Phase 1 costs are anticipated at the end of this month and will be requested separately. For Phase 2, the costs have come in slightly under our original estimate. Our original Phase 2 cost estimate was $3,141,983.95, and the actual bid value is $2,686,376.28 – a difference of -$455,607.68. Please see the attached spreadsheet with the details.

We need immediate confirmation that this value ($2,686,376.28) is available for the construction of the project and to draw against for project expenses, in order for us to

proceed with a contract amendment to add this scope of work to the project. Please confirm at your earliest convenience.

Thanks,
Bill

Budget Office,

Please transfer $3m from the university central carryforward reserve to A&F and from there to department 02800703 FO Carryforward to fund furniture for the Interdisciplinary Research Building phase 1 (transfers to construction SBL cat). This amount was approved with the university's 2016-17 allocation document.

This will be a temporary/non-recurring transfer to the division's base budget. Please notify John Pittman and Lashanda Brown-Neal once the transfer has posted.

Donna – Below is a summary of the funding sources that cover the $6.5 million of IRIF buildout costs. Attached are the emails confirming the contributions from each unit. LaShanda was asked to set up a new project to track these separately from the building construction. We should work toward making these transfers prior to June 30, 2017.

Please work with Seresa, Nanette, and Chris Hale on their transfers. I bet Megan Nelson would be glad to assist.

Let me know if you have any questions.

> Tracy,
>
> As you know, we received Phase 1 costs several weeks ago, and they came in a good bit higher than our original estimate. We have worked the past few weeks with the construction manager and subcontractors to limit the demolition scope in order to save time and reduce costs. We have received new numbers for Phase 1. I'm happy to say that the total cost for both Phase 1 and Phase 2 is now back to the numbers provided in January. The Phase 1 number has still gone up, but when combined with the Phase 2 number that went down (see email below), we are back to the January number.
>
> 1/11/17 Phase 1 & 2 total cost - $6,511,743.03

Current Phase 1 & 2 total cost - $6,511,743.03
Phase 2 total cost - $2,686,376.28 (previously approved below)
Phase 1 total cost - $3,825,366.75 (need approval)

We think that this is the best that we can do on the numbers to keep the scope intact and hit the December deadline. We would like your immediate approval on this funding (Phase 1 total cost - $3,825,366.75, Phase 1 & 2 total cost - $6,511,743.03) so we can move forward with the Phase 1 amendment. Please confirm.

Thanks for your patience as we have worked though the complications of these mid-construction changes!

If the cost is specific to research needs for an individual user that will not likely be used by future end users, it is assigned to research.

Below are the costs that fall under the new "MISC Building" category. All of these serve the long term use of the building, so they are assigned to the base building category:

- HVAC - $25,398.00
  - $8,889.14 for additional zone controls for offices related to RISES. These controls can be used long term by any building occupant, so they are assigned to base building.
  - $1,777.88 to split room 262 into two offices. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $1,777.88 to split room 362 into two offices. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $12,953.10 for duct adjustments related to the buildouts that serve the long term use of the building, so they are assigned to base building.
- Paint - $1,152.00 - Additional painting costs related to splitting rooms 262 and 362. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
- Plumbing - $53,894.00
  - $24,606.00 this is related to an eye wash that can be used by future building occupants, so they are assigned to base building.
  - $18,414.00 this is to add gas bottle manifolds. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
  - $10,874.00 this is related to switching places of a break area and an office. While a user request, this serves the long term use of the building by any occupant, so they are assigned to base building.
- Flooring - $0.05 – this is to make up for a rounding error for flooring that is all base building.

Please let me know if you have more questions.

When can we anticipate having funding approval? Our contract amendment is ready for routing and signatures.

Thanks!
Bill

What is the new category "MISC Building" for $97.5k? who should be responsible for this? It was not on the prior lists?

Subject: RE: IRIF Phase 2 funding request

Tracy, currently Phase 2 lags Phase 1 by about 4 months. Much of the work in Phase 1 has already been completed and needs to be re-done…no avoiding that. However, in Phase 2 the work is 4 months behind so we prioritized getting those changes priced first so we did not have to re-do as much work. Had we done Phase 1 first, the Phase 2 number would have been significantly higher because of the re-work. This also will minimize the schedule delay – because Phase 2 is set to finish last, it was critical that we got all of those changes priced and approved. It sounds backwards, but there is a reason for it!

I'd love to give you guys a site tour to see it in person. Let me know if you have any interest.

The document that I sent does not include Phase 1 yet, only Phase 2. Phase 1 will be reviewed at the end of the month.

How quickly do you anticipate the official green light? We are preparing a contract amendment, but that can't be executed until we get the funding approval.

Hope this helps,

Bill

Subject: RE: IRIF Phase 2 funding request

I was working on funding for total (phase 1 and 2). Why would we get phase 2 first? I thought phase 1 was were significant savings were to occur for CECS?

Thanks.

Subject: IRIF Phase 2 funding request

Tracy,

We recently received and reviewed the bid proposal for the changes to Phase 2 of IRIF from the Construction Manager, CPPI. Phase 1 costs are anticipated at the end of this month and will be requested separately. For Phase 2, the costs have come in slightly under our original estimate. Our original Phase 2 cost estimate was $3,141,983.95, and the actual bid value is $2,686,376.28 – a difference of -$455,607.68. Please see the attached spreadsheet with the details.

We need immediate confirmation that this value ($2,686,376.28) is available for the construction of the project and to draw against for project expenses, in order for us to

proceed with a contract amendment to add this scope of work to the project. Please confirm at your earliest convenience.

Thanks,
Bill

Subject: Budget Transfer- IRIF Buildout

Budget office,

Please transfer $2.3m from the university's central carryforward reserve to ORC department 20010710 for the IRIF buildout (SBL cat transfer to construction). $1.5m is a use of the E&G facilities reserve. Please see the attached messages for support and approval.

This will be a temporary/non-recurring increase to the division's base budget. Please notify myself, Stacy Vu, Megan Diehl, and Chris Hale once the transfer has been processed.

Thank you,

Subject: FW: IRIF buildout commitments

Donna – Below is a summary of the funding sources that cover the $6.5 million of IRIF buildout costs. Attached are the emails confirming the contributions from each unit. LaShanda was asked to set up a new project to track these separately from the building construction. We should work toward making these transfers prior to June 30, 2017.

Please work with Seresa, Nanette, and Chris Hale on their transfers. I bet Megan Nelson would be glad to assist.

Let me know if you have any questions.

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
1:08:24 - 1:23:15	
KINSLEY	[*standing at podium*] … As a new institution, Polytechnic has special legislative approval, if they have some additional funds, to direct some funds, operating funds, into capital projects. None of our other institutions have that legislative authority. Polytechnic is making that commitment to put some of its, quote, own funding, its operating funding, its carryforward into this project. So the total project budget is 38.7 million dollars. Um, it's been approved in their educational plant survey. Um, and I would say, for, going back to your question, Governor Morton, for an engineering research si-, facility, the NASF versus the GSF, this is still a really tight, tight facility. Um, because, you know, frankly, the institution, I'm sure, would like to have a larger facility, they would like to have more than two buildings. But this is just what's, you know, I think within the realm of possibility, and I'd be glad to take any questions, or I'm sure Polytechnic would as well. And there's just some … [*shakes head, smiles*] Yeah, again, I feel like I'm belaboring the obvious. A university should have more than one building, but … [*laughs*]
MULTIPLE	[*laughter*]
KINSLEY	OK.
UNIDENTIFIED MALE	[*inaudible*] building.
KINSLEY	So …
UNIDENTIFIED MALE	Life is a long time. [*laughter*]
KINSLEY	It is. [*shakes head yes*]
UNIDENTIFIED MALE	… be there 50 years at least. [*laughter*]
KINSLEY	Well, you know, I'm sure, back, back at inception, of, you know, I don't even remember the original names and we won't bring 'em up. But some of our original institutions, they, too, started out very modestly in it, but I think, we're hoping for, you know, this will move faster, than, you know, the seminary, you know, east or west of the Suwanee[SP]. This will be a li'l, be a li'l … just be, different world, different day and time. So, UCF, this research building, um, UCF is moving, has moved aggressively forward as they said they would. The picture on the right is actually, that's not a rendering, that's a photo as of this past July. UCF is really moving forward aggressively. Um, they're asking for half the money. Last year, they were asking for, they put up 8 million and they asked the State to put up the balance. This year they've cut that request in half. Um, they've cut it to 23.6 million dollars. Um, UCF, of all our schools, the, uh, the key thing to realize is they are woefully under in research space. They have faculty who have grants, and the grant, they can't conduct their grant-funded research because there's not space. They have, of course, the research part, and that's full as well. That's why UCF has moved forward aggressively to get

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
	this project up and running. Um, if this, if this is funded, UCF will use those funds to generate additional lab space, and create more lab space. So that's where all this funding is goin-, it's going into lab space. And -, UCF is here and will be glad to take any questions on this project. This has not received prior legislative funding. It was funded back some years ago. During the recession, UCF had to make a decision as to whether to finish their ROTC building, or f--, or you know, or, or start this project. They decided to finish the ROTC building.
HUIZENGA	So the, the, the slides here, Chris, where it says status of July 1st, 2017 and the building's up … is that … really up?
KINSLEY	It's really up. That's, that's a real, that's a real picture.
HUIZENGA	The 8 million dollars … they were able to ….
UNIDENTIFIED MALE	Yeah, so part of this has got to be reimbursement then, right?
KINSLEY	Yeah, part of this is reimbursement to the University. The University's, has basically floated itself a loan from internal funds because they felt they had no choice. They, they had to be able to have space for the scientists to conduct the research, to finish out these research grants.
UNIDENTIFIED MALE	Are, are you saying the la-, he, uh, labs are not in it yet?
KINSLEY	Um, well the labs are being constructed in it, so the labs will be in it.
HUIZENGA	It'll be done the end of the year.
KINSLEY	December. They'll be basically done, they basically had advanced this project with their own funding. But with the hope that the legislature will, you know, give them the funding back so they can meet, you know, other needs for lab space.
UNIDENTIFIED MALE	So, if, if, if it's not funded, … is the building still going to be completed?
KINSLEY	Yes. [*smiles*]
UNKNOWN	Yes. [*simultaneous speaking*]
UNIDENTIFIED MALE	Yeah. Must've had some extra money.
KINSLEY	[*smiles*]
UNIDENTIFIED SPEAKER	So is 23 million the number they're looking for, total?
KINSLEY	That's the number they're looking for, the, the, the State to put up half, half the funding for the project.
UNIDENTIFIED SPEAKER	OK.
KINSLEY	You know, I think, you know, taking a, a page out of some other schools who have put in significant …
UNIDENTIFIED MALE	Right.
KINSLEY	… you know, investment …
UNIDENTIFIED MALE	OK.
KINSLEY	… into it. And I think the difference is they've been more aggressive than the other schools in moving forward, uh, to get it funded. And I don't know if I've done this project justice or not. [*looks around*]

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
	I somewhat feel not. [*looks behind him*] Anybody, Bill, you wanna help, save, save, save this. [*laughs*]
MERCK	[*smiles, comes to podium*] None of our … I don't think it needs saving, Chris …
KINSLEY	OK. Thank you.
MERCK	… it's, it's, it's a great project.
UNIDENTIFIED SPEAKER	Yeah.
MERCK	Um, I think the question you're alluding to, and maybe not asking directly is, if we've been able to fund it internally, why do we need some more money from the legislature? Particularly if it's gonna be cl-, complete in December. The situation is, um, since we so desperately needed this building, we, since we are a large university, we have some fairly large cash balances. We also have significant overhead we're charging our auxiliaries and our grant & contract folks. So we've taken some of the cash that we have to fund the actual construction and created internal loans from the sources that those monies are coming from. This last 20, 20-um-3 million dollars, we, we've, uh, internally, um, committed that over the next five to seven years. So it'll take us about seven years of those accumulated overhead charges, interest, dividends, things like that, to pay our cash, that the accounts that cash came from back. So if the State will fund that 23. 6 for us, the remaining part, that eliminates the debt we've created internally, and where those funds are gonna come from to repay ourselves, we'll advance those directly into creating some more lab space on campus, because we're probably, right now, based on the plant surveys, at about half where we need to be with lab space. So it just helps us push even further forward to meet that deficit and to match up not only with the, the contract and grant work that Chris was talking about, but our provost has a, a pretty aggressive hiring program going with new faculty, many of whom, most of whom, are into research-type activities, and we need that for our students and our graduate students to progress.
HUIZENGA	Bill, do you have any presentation or, or, I mean, sure you do internally, but anything that you can share with us in November of what the other lab space, that should the State fund this, I mean, really kinda what we're saying is if you fund this, then we'll front that money to start to, to do our next project so ….
MERCK	Sure, yes. That'll be easy to do.
UNIDENTIFIED FEMALE	Are you more likely to get money from the legislature if you just went with, to them with your new labs-based plan versus trying to recoup dollars? [*background inaudible*]

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
	I know that's what you're trying to ask, but I'm just gonna ask it. [*laughs*]
MERCK	No, that's a good, that's a very good question. And I think what would happen is if we went for new, a new building, it would probably be double that amount, which we probably wouldn't, we'd get another zero. So by just getting a smaller amount that we're, we're self-funding, that 23 million, we wouldn't be able to build an entire new building, say a 40-something-million-dollar with that, but there's other things that we can do for lab space, um, that money be, would be well spent.
UNIDENTIFIED MALE	But aren't you saying ...
MULTIPLE	[*inaudible, simultaneous speaking*]
BILL	[*inaudible, simultaneous speaking*]
UNIDENTIFIED FEMALE	I, I, I under-, I understand your rationale.
MERCK	But wait …[*holds hand up*]
UNIDENTIFIED FEMALE	But if I were the legislature, I would say they s-, obviously have a lot of money. They don't need us to fund them. They can front it and they're great at fundraising, so they'll find the money for the next project.
MERCK	[*simultaneous speaking*] That's not, uh, well, we, the fundraising's not gonna help us that much on this particular building. It's all internal money that we're shuffling around to be able to, to handle this. Here, here's another way to look at it. If we could, if we get the 23.6 back from the legislature, the remainder on this building, and we could finish it up, that means that we may be able to take that 23 and add another 23, leverage out another five or six years and be able to do the whole thing ourselves. I think we've got a much better chance of getting more lab space by leveraging what we have than just going to the legislature with our hand out and asking for the whole thing.
KUNTZ	I gotta tell you, hearing the dialogue, I, I'm with you 'cause I think you have a better chance of going to the legislature saying *[Bill shakes head no*], "We'd like this money to go build more labs," [*Bill shakes head yes*] rather than, "Could you just pay us back for what we funded internally 'cause we had extra cash so we did it ourself and can we have that money back now?"
UNIDENTIFIED FEMALE	Right.
MERCK	Well, excuse me, but it wasn't really extra cash [*simultaneous speaking*]
KUNTZ	That's my, I'm telling you how it … [*simultaneous speaking*]
UNIDENTIFIED FEMALE	That's, that's, that's the perception, I know it's not extra cash. The perception's going to be that you clearly had [*laughs*], as Ambassador [*inaudible name*] said, extra money sitting somewhere in a reserve fund [*Bill shakes head no*] that you were able to use for this designation.

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
	I just think that this is something that they're gonna say "no" to right off the bat. And if you really do have the need for extra lab space, as Chris was just saying [*Chris shakes head yes*], you're, you're very far behind. Let's go to them with a project that they can support and get excited about and bring back to their constituents and say, "Look, we're going to build state-of-the-art new shiny lab space here," versus "We're just paying them back for something they've already done."
UNIDENTIFIED MALE	Plus, if we put this on our list, …
UNIDENTIFIED FEMALE	Right.
UNIDENTIFIED MALE	… that's gonna using up, some of our request money …
UNIDENTIFIED FEMALE	Correct.
UNIDENTIFIED MALE	… for something that looks like, you're, I know you're, you didn't just have extra money lying around, …
MERCK	[*inaudible*] [*nods head, laughs*]
UNIDENTIFIED MALE	… that's just kinda the way … [*simultaneous speaking*]
UNIDENTIFIED FEMALE	Right, we, we know that.
UNIDENTIFIED MALE	… that, that's, that's the way it kinda feels.
MERCK	Sure. I, I, I appreciate that, that thought about the new building [*simultaneous speaking*].…
UNIDENTIFIED FEMALE	We want you to be successful going there, not ...
MERCK	Yeah, what, what I do believe is, uh, is exactly what Chris was saying earlier, in that there's a very limited amount of money that's gonna be put forward for all of the State University system projects. And I think realistically speaking getting a 23 million dollar allocation is gonna be far easier than for us to take another 46 out of the small amount that's left for [*inaudible*] so that's what I'm counting [*inaudible*].
UNIDENTIFIED FEMALE	No, but you'd be getting the 23 for the new building and putting your 23 in, so, uh, it just, this doesn't look …
KINSLEY	Maybe … [*simultaneous speaking, inaudible*] [*speaking in quiet voice to Bill*] Maybe …
UNIDENTIFIED FEMALE	… right to me, or feel right to me.
CHRIS KINSLEY	[*inaudible, simultaneous speaking, speaking to Bill*] … suggest like you and I and President Hitt can talk to the Chancellor and sort of say, look, how can we test the water of, you know, the proposition that the Board members are putting forward, saying …
MERCK	[*to Chris*] Sure.
KINSLEY	[*to Bill*] I think the sense is, the good thing I'm hear- is, we wanna help, we wanna try to get the labs funded. I mean, I think we, Dave, D-, we know, well know the need the University has for the lab.
MERCK	[*to Chris*] Yeah.
CHRIS KINSLEY	[*to Bill*] What, what is gonna resonate the most, so …
MERCK	That's fair.
CHRIS KINSLEY	If I can, if I can offer the Chancellor's [*inaudible*] [*laughs*].

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
UNIDENTIFIED MALE	[*inaudible*, *simultaneous speaking*] you already have … [*laughter*]
MERCK	I appreciate that. Anything that you … [*simultaneous speaking*]
UNIDENTIFIED FEMALE	Right, how, how are we gonna … [*simultaneous speaking*]
MERCK	… do for us is, will be greatly appreciated. [*simultaneous speaking*]
UNIDENTIFIED FEMALE	… how, how, how can we help you get the lab space, because it is a critical need. This I don't think is going to accomplish what you're hoping.
MERCK	Thank you for that.
UNIDENTIFIED MALE	I, I actually agree with you. However, I do remember, you know, last year that some things would rise to the top, your project to the top. One of 'em is if you can show that, uh, you're willing to do some cost-sharing with us, and, and, pay for some of this yourself. And second is, we're, we're, we're going to push projects to completion before we start new projects. So, so, I, I agree, they, they took that directive a little too far in this case. But both of those are kind of rational things, given what we told.
WHITTAKER	[*comes to podium and says something inaudible to Bill*]
CHAIRMAN	They, they, they are. But, they started the project without getting any other funding …
MERCK	[*Bill to man from bench*] [*inaudible, nods head yes*] [*man sits back down on bench behind him*]
HUIZENGA	… and, and now they're saying, hey we've done it, can you give us part back. So, I, I love that, we're only asking for half. I mean, I, I agree, but it's kinda, you know, there's others in the pipeline that have been waiting, dying to get funded as well, so again, out of the hundred million dollars, let's say that, OK, well, you jumped in and did it. You've technically got a way to pay yourself back for it. It's 6 or 7 years out and it's not the preferred way to go, but to take a quarter of the total PECO funding and to give it to you because you felt the building out of need. Everybody's gonna say their building's out of need and they just don't have a way to do it necessarily or haven't reached the critical need to where they go, you know what, we don't have any choice but to do it. So, I'm not trying to be negative. I'm just, just, looking at… [*simultaneously speaking*]
UNIDENTIFIED MALE	I looked at this and I thought, I hope there's not a cooler…
HUIZENGA	…12 hungry children and a small amount of money and know one's supposed to be our favorite and how do we make it work and, and, and work in some sort of a structure. So, I, I…you're absolutely right. We've talked about hey, if you can partially fund them, if you had a legislature say hey, [*cough*] double your money here, this is a, this is a great investment. I still truly believe that and I think that we've seen that begin to work, but it's um, it's, it's a little harder when it's, we did it and now we need you to give us the money back.
UNIDENTIFIED MALE	Or part of it.
MERCK	No, I, I appreciate it. You really do have a difficult job feeding all 12 children. [*laughs*] You really do, with limited resources.
HUIZENGA	And, and…
MERCK	Um, we, and the Provost just mentioned that I think that this has been

October 3, 2017 Board of Governors Meeting Transcript

Speaker	Dialogue
	our number one project for about 4, maybe 5 years now and then we just had to get started on it so we could meet the needs…[*simultaneous speaking*]
CHAIRMAN	Uh, well, but, yeah, but, but, but…
MERCK	…but, any way, we appreciate it.
HUIZENGA	…but the downtown building got pushed through for 25 million and others so, you know what, if it's been the number one, it didn't get the funding because funding was had whether we voted for it or not to go to other projects [*laughter*] So, I don't know that that's really a totally accurate statement.
MERCK	I appreciate that. Thank you.
KINSLEY	Thanks, Bill.

ITEM: FF- 2

University of Central Florida
Board of Trustees

SUBJECT: Five-year Capital Improvement Plan

DATE: July 19, 2018

PROPOSED BOARD ACTION

Approve the capital improvement plan for 2019-20 through 2023-24.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay list, and it provides information to the State Board of Education for its request for capital project funding for 2019-20.

The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2018. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan
- items to be included in the 2019-20 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate.

We request approval to submit the 2019-20 Capital Improvement Plan with the projects listed in the attached schedules.

Supporting documentation: Attachment A: 2019-20 Five-year Plan List
Attachment B: 2019-20 Fixed Capital Outlay Projects Requiring Board of Governors Approval to be Constructed, Acquired, and Financed by a University or a University Direct Support Organization with Approved Debt
Attachment C: 2019-20 Fixed Capital Outlay Projects That May Require Legislative Authorization and General Revenue Funds to Operate and Maintain

Prepared by: Lee Kernek, Associate Vice President for Administration and Finance

Submitted by: William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer

UNIVERSITY OF CENTRAL FLORIDA

Office of the President
P.O. Box 160002
Orlando, FL 32816-0002

June 26, 2018

Mr. Tim Jones
Chief Financial Officer
Board of Governors
State University System of Florida
325 West Gaines Street, Suite 1614
Tallahassee, Florida 32399-0400

Dear Mr. Jones:

In accordance with your request dated April 23, 2018, to the University Presidents, enclosed is the University of Central Florida's (UCF) Five-Year Fixed Capital Improvement Plan for the years 2019-24. This list revises UCF's priorities of previous years in accordance with the funding allocated by the Board of Governors (BOG), and it also includes additional facilities consistent with recent program developments and needs of the university. Utilization of existing space was considered in the prioritization of UCF's projects. PECO funding to meet critical maintenance needs and improve the condition of existing space and campus infrastructure is, as always, UCF's top priority. Our other top priorities are Research II - Science, Engineering, and Commercialization Facility; Learning Laboratory - Active Learning, Teaching Lab, and Maker Space Facility; and the continued renovation of Engineering Building I. Other projects have been prioritized in accordance with the needs of the university, with research space and renovations of existing buildings of high priority, as they are essential to meeting the goals of our Collective Impact Strategic Plan and success on our path to preeminence.

The following is a summary of changes:

- Project costs have been increased due to the inflation in construction costs.
- Learning Laboratory - Active Learning, Teaching Lab, and Maker Space Facility; Biological Sciences Renovation; and Howard Phillips Hall Renovation have been added to the three year window.
- College of Nursing and Allied Health has been renamed to College of Nursing/Health Sciences Building.
- Research Building I, Trevor Colbourn Hall, John C. Hitt Library Phase II, and Rosen Educational Facility have been removed from the PECO list.
- Research Building II has been renamed to Research II - Science, Engineering, and Commercialization Facility.
- Arts Complex II-Performance has been renamed to Performing Arts Complex Phase I.

The UCF Five-Year Fixed Capital Improvement Plan was reviewed and approved by the University Board of Trustees on June 20, 2018.

Phone: 407.823.1823 • Fax: 407.823.2264
An Equal Opportunity and Affirmative Action Institution

Please have members of your staff contact Lee Kernek at (407) 823-3801 or Gina Seabrook at (407) 823-5894 if they have questions or need additional information.

Cordially yours,

John C. Hitt
President

ITEM: FF-2

University of Central Florida
Board of Trustees

SUBJECT: Five-year Capital Improvement Plan

DATE: July 21, 2011

PROPOSED BOARD ACTION

Approval of the capital improvement plan for 2012-13 through 2016-17.

BACKGROUND INFORMATION

Each year, the university must submit an updated capital improvement plan to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay (PECO) list, identifies projects that may be included in future Courtelis Facilities Enhancement Challenge Grant lists, and provides information to the State Board of Education for its request for capital project funding for 2012-13.

The capital improvement plan must be submitted to the Board of Governors' staff by August 1, 2011. The attached schedules include the following:

- projects that are proposed for inclusion in the five-year capital improvement plan
- items to be included in the 2012-13 Appropriations Authorization Bill, including projects funded by bonds, direct support organization projects, and projects requiring general revenue to operate.

We request approval to submit the 2012-13 Capital Improvement Plan with the projects listed in the attached schedules.

• UCF Creates New 'Center for Emerging Media' in Downtown Orlando

10.31.08

UCF's newly named facility expands Downtown Orlando's digital media presence and the Creative Village vision, connecting students with professionals and fueling the City's high-tech industries.

ORLANDO, Oct. 2, 2008 — Downtown Orlando's former Expo Centre has come a long way since the University of Central Florida and its state, City and industry partners

http://cem.ucf.edu/?p=7 Go JUL JUL JUL

4 Jul 2009 - 3 Mar 2016 2008 2009 2011 About this capture

created a graduate video-gaming program, the Florida Interactive Entertainment Academy (FIEA).

House of Moves, one of the largest motion-capture studios on the East coast, aspiring animators and filmmakers have all joined FIEA during the past four years. To continue building on this success, UCF is launching new programs and partnerships that will build on the City of Orlando's Creative Village vision while strengthening the existing industries in Orlando — digital media, film, military simulation and the emerging bio-medical cluster.

To better articulate the expansion and synergy happening within the school, UCF leaders, with support from the City of Orlando, are officially renaming the building the UCF Center for Emerging Media on Thursday, Oct. 2.

The center will expand programs, access and opportunities for upper-level undergraduate and graduate emerging media students in Orlando, and will include "Citi-Lab Orlando," a partnership between UCF and the University of Florida's School of Architecture. Citi-Lab, a graduate-level urban studio and research center, will address various community concerns through grants, contract work, pro-bono projects, continuing education classes, exhibits and lectures.

"The expansion of our unique center will enable more students to learn from the best faculty and industry leaders and secure well-paying jobs in a variety of high-tech fields," said UCF Provost and Executive Vice President Terry Hickey. "With the support of our partners, we will continue to make Central Florida a stronger player in industries that help our downtown thrive and diversify our economy."

Emerging media, which often combines the study of technology and humanities, includes fields such as animation, film production and electronic music. UCF's College of Arts and Humanities is developing new interdisciplinary tracks that will incorporate art and digital media and be based at the center. UCF Film is already holding graduate classes and producing films in the center. It is expected that Music and Theatre programs will also base some of their students, faculty and staff Downtown.

Orlando Mayor Buddy Dyer's vision is to turn the current approximately 50-acre site of the Amway Arena into the Creative Village with mixed-use office, residential and retail development, anchored by UCF's Center for Emerging Media across the street. The village would be a place where professionals in the new media industry could live, work and play.

"UCF's new Center of Emerging Media continues to build on the City's plans to develop the Creative Village in Downtown Orlando, a place where high-tech, digital media and creative industry companies integrate with residential, retail, and academia in a neighborhood that is connected to the surrounding community and globally plugged in," said Orlando Mayor Buddy Dyer. "This emerging Creative Village will continue to diversify our economy by attracting high value and high wage jobs that will drive the future of Central Florida and grow the next generation economy."

UCF's college leaders are also looking forward to the possibilities that the new center brings.

"I am extremely pleased to see that the Center for Emerging Media is going to become a magnet for interdisciplinary teaching and research and that the College of Arts and Humanities is leading the way," said college Dean Jose B. Fernandez.

Other UCF partners, such as Flying Horse Editions, the university's nonprofit fine arts press, will relocate to the new center. University leaders also plan to expand existing community research programs at the facility, including the College of Arts and Humanities' Center for Research and Education in Arts, Technology and Entertainment (CREATE), and bring in other educational institutions.

"This is part of our vision and the City's vision for creating an environment where industries in these emerging media markets will come to look for the next high-wage professionals," said Ben Noel, FIEA's executive director.

Noel and others see the center partnering with the UCF College of Medicine, on projects such as medical or educational video games, and with UCF's Institute for Simulation and Training in the Central Florida Research Park adjacent to the university's main campus.

Mission Statement

The Center for Emerging Media is home to a diverse group of teachers, learners and industry professionals collaborating in a creative environment that emphasizes high-production values, cutting-edge technologies and time-tested production techniques. The Center provides tomorrow's knowledge workers an ideal place to learn and play, planting the seeds that will establish Orlando as the next great creative community.

UNIVERSITY OF CENTRAL FLORIDA
UCF DOWNTOWN CAMPUS/CENTER FOR EMERGING MEDIA RENOVATION
PRE-BID CONFERENCE
SEPTEMBER 12, 2018
6:30 P.M.

Introductions and Project Overview
Introduction were provided by Erin Mcalear, Skanska Project Manager. She introduced Jeremy Williamson, UCF, who provided a project overview. He introduced the UCF team, including Allen Bottorff, Director of UCF Downtown. The project consists of the construction of a 20,000 GSF renovation of the existing Center for Emerging Media (CEM). The renovation will add additional general education classrooms, collaborative student learning environments, and additional offices to support the UCF Downtown Campus. The Owner/Architect/Construction Team are the University of Central Florida Board of Trustees and SchenkelShultz Architecture, Skanska USA Building Inc.

City of Orlando Blueprint Employment Office
Mary a Collier from the City of Orlando Blueprint Office introduced herself and announced that they are available to help companies find construction workers. They had a table outside near the registration table.

Bid Package Highlights
Bert Fonseca, Skanska Project Executive described the accessibility in small bid packages to maximize participation on the project. Below are the bid package numbers and descriptions:
01.0 General Contractor; 01.1 Final Clean; 02.1 Selective Demolition; 03.1 Miscellaneous Concrete; 03.2 Concrete Staining; 05.1 Structural Steel; 06.1 Millwork and Finish Carpentry; 08.1 Doors, Frames and Hardware; 08.2 Glazing; 09.1 Drywall; 09.2 Carpet Tile; 09.3 Acoustical Ceiling and Baffles; 09.4 Painting; 09.5 Tile; 10.1 Identification Devices; 10.2 Toilet Accessories and Specialties; 10.3 Not Used; 10.4 Operable Folding Partitions; 21.1 Fire Suppression; 22.1 Plumbing; 23.1 HVAC and 26.1 Electrical.

Prequalification Process
Trade contractors were encouraged to begin the process by registering at https://apps.skanska.com/prequalinquiry/ Thereafter, they should receive a password within 2-5 business days to go in and enter company's information. The email is system-generated and the reply may not go to a normal inbox but to your SPAM or JUNK E-mail folders depending upon the company's email systems security. Please check both folders. The email will be from notifications@skankacloud.com with Emily Madero in the "cc" field. She can be reached her at emily.madero@skanska.com for questions regarding the process. Enter 3 projects that you've completed. Once in the system, you will get notices of opportunities. Team members were on site to assist trade contractors with initiating the prequalification process. Attendees were

advised to be prequalified before Skanska can rely on the bid number and before enter into a contract with a company.

Logistics
Skanska provided an overview of the project site map. Classroom sessions will occur at the same time as renovation, and students will be near the renovation site. Coordination and barriers of public areas will be a focus. No public parking on jobsite. No parking in Parramore; some parking may be available at the Bob Carr Auditorium and other lots in the south of Downtown.

Safety
Skanska discussed its culture of an Injury Free Environment (IFE). Every employee has the authorization to Stop Work. There is culture of "stretch and flex" a daily morning discussion about the project schedule and flow of assignments during the Daily Hazard Analysis. There is also an inclusion of fun physical stretching exercises for every project team member.

Project Milestones
Pre Bid: September 12, 2018
Bid Date: September 18, 2018 at 2 p.m. (revised to September 25)
Permit Issued: September 26, 2018
Demolition Start: November 15, 2018
Final Inspections/Life Safety: July 10, 2019
Owner Move-In: July 11, 2019 thru August 7, 2019
Certificate of Occupancy: August 7, 2019

MWBE Participation
Skanska explained that UCF is an equal opportunity institution and, as such, encourages the use of small businesses, including women, minority-owned small businesses and SDVOSB in the provision of construction related services. M/WBE participation is encouraged but not required by UCF. Skanska has a corporate goal of diversity and inclusion and on the Academic Building project is nearing 30% M/WBE and SDVOSB participation. Small businesses will have a fair and equal opportunity to compete for dollars spent by UCF to procure construction-related services. Competition ensures that prices are competitive and a broad vendor base is available. UCF and Skanska are utilizing good faith efforts to ensure opportunities are available to small businesses including women, minority-owned and SDVOSB businesses on the Project.

Direct Owner Purchase (DOP)
Skanska gave an explanation of its DOP, which includes Vendor PO's larger than $5,000. The process takes a minimum of 3 weeks; account for this time in the procurement. Submit PO request immediately after award (Skanska to coordinate proper forms with Subcontractor). Only include material that will be permanently affixed to the building. Provide DOP information with bid, on the Bid Form required. The Bid Form has a specific space for DOP.

Bid Manual (on Docusign)
Subcontractors are responsible for the Entire Package.
Section One – Instructions to Bidders
Section Two – Project Specific Forms **(very important)**
Section Three – Project Schedule
Section Four – Site Logistics
Section Five – CCIP (Sample Manual)
Section Six – Sample Long & Short form Subcontract
Section Seven – Trade Scopes of Work **(very important)**
Section Eight – Environmental, Health and Safety Manual
Section Nine – Document Log

Bid Form
1. W9 from ODP Section 1.2
2. Instruction for MWBE Bid Forms for Construction. **Skanska verifies certification certificates.**
3. Surety Letter (SDI PROGRAM) over $50,000 packages)
4. Acknowledgement to sign the Sworn Statement Pursuant to Section 287.133(3) (a), Florida Statutes on Public Entity Crimes.
5. Acknowledgement to sign the Sworn Statement Pursuant to Section 287.087 and 440.102, Florida Statutes on Drug-Free Work Place Program
6. Acknowledgement to comply with Environment Health and Safety Manual.

7. Acknowledgement to comply with Skanska USA's Environmental Policy (ISO 14001)

Review Scope Packages and Bid Form Breakdowns
Sealed Bid Due: September 18, 2018; by 2:00PM (Later date revised to: September 25), by 2:00 p.m. by delivering to:
UCF Center for Emerging Media Security Desk
c/o Skanska USA Building Inc.
500 W Livingston Street
Orlando, FL 32801

Questions and Answers

- Vendors (suppliers) are required to pre-qualify.
- Low voltage is handled directly by UCF. The current package only has pathways.
- Cranes are purchased directly by Skanska and to get opportunities in the future, must be prequalified as hoisting vendor.
- Bid packages are "right sized" and lots of opportunities.
- Concrete package is right sized.
- Attendees that are general contractors are encouraged to bid entire package (lump sum package) or they can bid a trade(s). Trade contractors can bid their scope. Skanska and UCF will determine the best approach for UCF, whether one lump sum contract or individual packages.
- Concrete slab will be cut and patchwork will be needed; small enough for a small concrete guy with a small crew.
- Staffing company will get posted information on which company is being evaluating during scoping sessions. This is the best time for staffing companies to get the name of company to market for staffing needs.
- Life safety signage is a part of the bid package; furniture is procured directly by UCF
- Budget in the mid $3.4 Million
- Existing communication box not installed yet; it will be an infrastructure package; will be in the street.
- Fire alarm in electrical package. Current brands are visible during tour.
- DOP must be provided and man labor hours must be reflected on the bid form. Average crew size will be evaluated during scoping. Skanska wants to ensure that the bidder has the proper man-hours.

Project walk / Networking

Attendees took a tour with Skanska of the facility to be renovated.

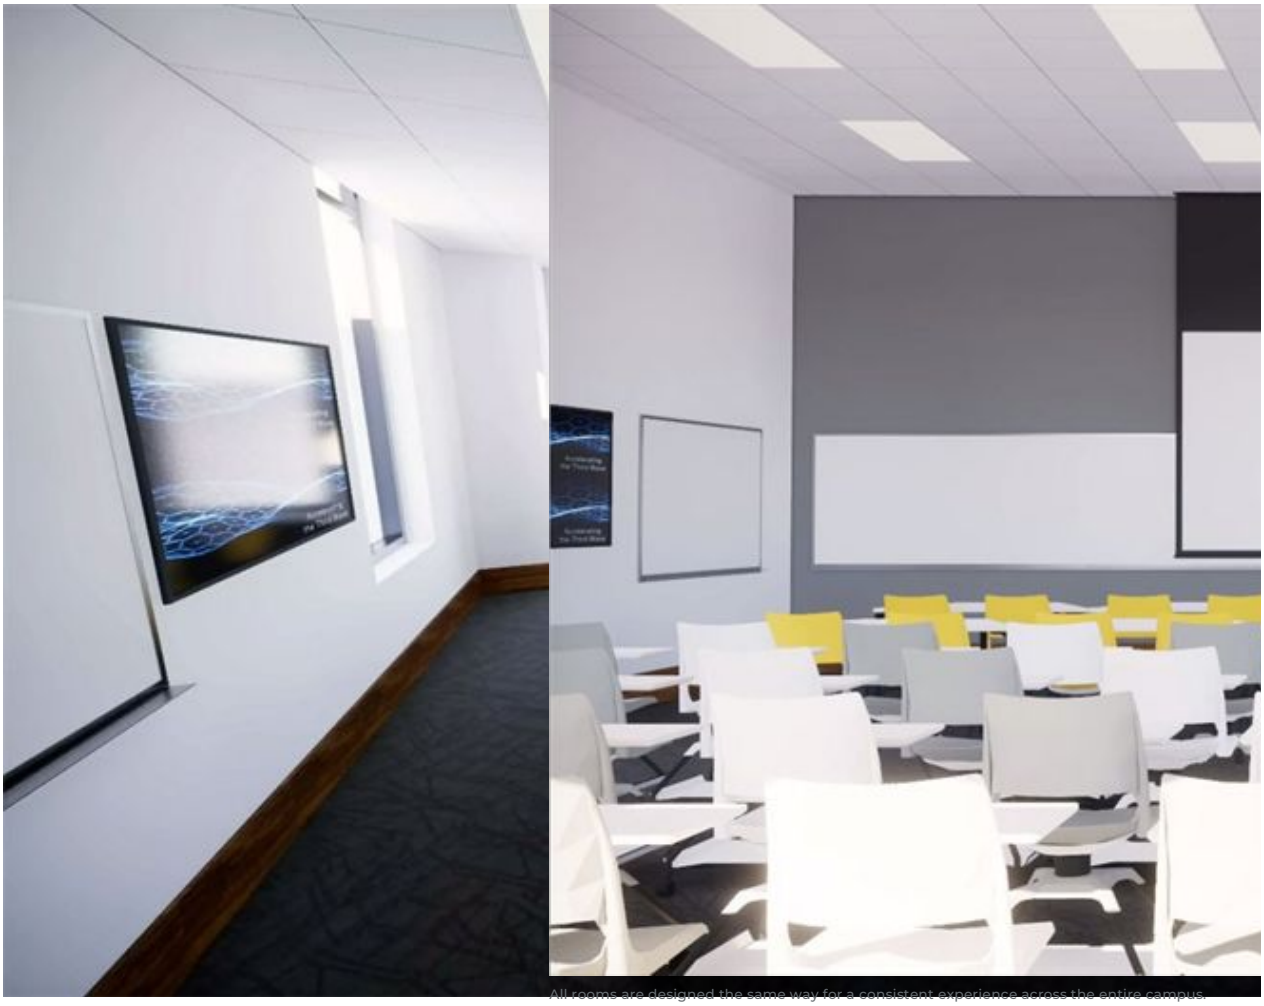
Campus

Innovative Education in Downtown Orlando

UCF Downtown is a world-class 21st-century campus for digital media, communication, public service, and health-related programs in an innovative, urban environment.

In partnership with Valencia College, the new campus will serve approximately 7,700 students in the heart of downtown Orlando. In addition to academics, UCF Downtown offers students a complete campus experience with student housing, dining, recreation, wellness, volunteer and service opportunities, as well as student clubs and organizations.

STAY UPDATED WITH UCF DOWNTOWN NEWS



Downtown Classrooms

FLEXIBLE AND TECHNOLOGY ENHANCED CLASSROOMS

Led by the Office of Instructional Resources, the furniture and technology in downtown campus classrooms will help facilitate active learning. Research supports that active learning strategies improve student learning outcomes.

UCF is moving to a model where all classrooms can better support active learning methods of teaching. Active learning is not a technology, nor a furniture solution. Active learning is a teaching practice facilitated with technology and furniture, but at its core is achieved through the activities practiced in the space by faculty and students.

All of the furniture will be mobile, including the instructor podium, and there is a projector in every room.

There will be multiple whiteboards throughout the room.

All rooms are designed the same way for a consistent experience across the entire campus.

The classrooms at UCF Downtown are designed to feel familiar while also encouraging a variety of teaching practices:

All of the furniture will be mobile, including the instructor podium. The in-room computer can be controlled with a wireless mouse and keyboard allowing the faculty member or presenter to be anywhere in the classroom.

An optional wireless collaboration system called Intel Unite will be available at UCF Downtown. The system allows you to bring a personal device (phone, tablet, or laptop) and mirror the desktop to the computer in the room. This means you can have a computer in every class that already has your applications, documents, and other personalization preferences set up the way you want them, every time, every course, every semester.

The multimedia equipment will be smaller and in a corner, out of the way of the students and faculty so that almost the entire room becomes usable floor space for teaching and learning activities.

There will be multiple whiteboards throughout the room.

There is a projector in every room, just as there are in existing classrooms. Some rooms have additional monitors on the other walls that will mirror the content on the projector. No matter how the furniture is arranged or where the student looks they will be able to see the content.

Downtown Construction

> *The downtown campus provides UCF and Valencia College an incredible opportunity to think differently, look at new approaches in the classroom and better support students.*
>
> -*Mike Kilbride,* Assistant Vice President, UCF Downtown

FROM CONCEPT TO CONSTRUCTION

UCF President Emeritus John Hitt announced the university's decision to establish a downtown Orlando campus during the UCF Focus Breakfast in September 2014.

Since then, the university created the UCF Downtown committees, which spent more than a year exploring everything from student services and educational programs to transportation and facilities. The project was approved by the Florida Board of Governors in 2016, and design and build teams were selected that summer. Construction began in downtown Orlando in Summer 2017. The campus will officially open in Fall 2019, with housing, parking and dedicated transportation to and from UCF's main campus.

Dr. Phillips Academic Commons

ABOUT DR. PHILLIPS ACADEMIC COMMONS

Dr. Phillips Academic Commons features four stories of active learning spaces, including classrooms, the downtown library, study and tutor spaces, a moot court, and academic offices. The building will be a state-of-the-art learning facility that overlooks Creative Village's central park, a green space for outdoor concerts and events.

PROJECT TEAM:

- **Architect:** Robert AM Stern / SchenkelShultz
- **Contractor:** Skanska
- **Project Cost:** $66M

UCF Communication and Media Building

ABOUT COMMUNICATION AND MEDIA BUILDING

The UCF Communication and Media Building (formerly Center for Emerging Media) is home to the Florida Interactive Entertainment Academy, the Center for Research and Education in Arts, Technology, and Entertainment (CREATE), and other academic and innovative programs. When UCF Downtown opens, CMB will continue to be an academic hub for the campus. Prior to fall 2019, CMB will undergo renovations to reflect 21st-century learning environments and will be the new academic home to students, faculty and staff in the Nicholson School of Communication and Media.

PROJECT TEAM:

- **Architect:** Schenkel Schultz Architecture
- **Project Cost:** $5.75M

UCF Downtown Parking Garage

ABOUT THE PARKING GARAGE

The 580 space, four-story garage will include license plate recognition technology, security cameras, real-time space counts by floor and electric charging stations. Additionally, the ground floor will house a university store operated by Barnes & Noble, campus services and storage space for campus supplies.

PROJECT TEAM:

- **Architect:** Walker Parking Consulting and C.T. Hsu + Associates Architects
- **Contractor:** PCL Construction
- **Project Cost:** $14.6M

UCF Downtown Student Housing

ABOUT STUDENT HOUSING

UnionWest at Creative Village is a privately developed, 15-story building that will have more than 600 beds on the top floors. The lower levels will have retail and academic learning space, including Valencia College's Walt Disney School of Culinary Arts and Hospitality. A parking garage for housing students and visitors to the campus is also attached to the building.

University of Central Florida
Board of Trustees Meeting
January 29, 2015
FAIRWINDS Alumni Center
Agenda
9:00 a.m. – 4:00 p.m.
Lunch 12:00 p.m.
800-442-5794, passcode, 463796

COMMITTEE MEETINGS

9:00 – 9:30 a.m.	Audit, Operations Review, Compliance, and Ethics, Jim Atchison, Chair
9:30 – 10:30 a.m.	Advancement, Richard Crotty, Chair
10:30 – 11:45 a.m.	Educational Programs, Robert Garvy, Chair
11:45 a.m. – 12:00 p.m.	Finance and Facilities, Marcos Marchena, Chair

BOARD MEETING

1:00 – 4:00 p.m.

1.	Welcome and call to order		Olga Calvet, Chair
2.	Roll call		Rick Schell, Associate Corporate Secretary
3.	Public comment		Rick Schell, Associate Corporate Secretary
4.	Minutes of November 20, and December 19, 2014, meetings		Chair Calvet
5.	Remarks and introductions		John C. Hitt, President
6.	UCF Presidential Selection Plan report		Phyllis Klock, Trustee *Emerita*
7.	Downtown UCF report		Dale Whittaker, Provost
8.	Consent Agenda		
	FF-1	Approval	2014-15 UCF Convocation Corporation Amended Budget (Merck)

9.	Advancement Committee report		Richard Crotty, Chair
10.	Audit, Operations Review, Compliance, and Ethics Committee report		Jim Atchison, Chair
11.	Educational Programs Committee report		Robert Garvy, Chair
	EP-1	Approval	Proposal to Establish a New Type I Campus (Whittaker)
12.	Finance and Facilities Committee report		Marcos Marchena, Chair
	FF-2	Approval	UCF Convocation Corporation Transfer of Funds to the Golden Knights Corporation (Merck)
13.	New business		Chair Calvet
14.	Announcements and adjournment		Chair Calvet

Upcoming meetings:

Board of Governors meetings	February 19, 2015 (Tallahassee Community College)
	March 18-19, 2015 (Florida A&M University)
UCF Foundation Retreat	March 20, 2015 (NorthView Student Housing)
Board of Trustees meeting	March 26, 2015 (FAIRWINDS Alumni Center)
AGB National Conference on Trusteeship	April 19-21, 2015 (Arizona Biltmore, Phoenix, AZ)

15. Tour of the College of Engineering and Computer Science labs to follow immediately after the meeting.

ITEM: EP-1

University of Central Florida
BOARD OF TRUSTEES

SUBJECT: Proposal to Establish a New Type I Campus

DATE: January 29, 2015

PROPOSED BOARD ACTION

Approval of concept for the Board of Governors, State University System of Florida Proposal to Establish a New Type I Campus.

BACKGROUND

As part of the extraordinary opportunity for UCF to develop an innovative living and learning environment that capitalizes on the economic, social, and cultural activity of downtown Orlando, UCF proposes a new UCF Downtown campus. The attached proposal outlines plans for UCF Downtown and the academic programs proposed for that location to accommodate student and program growth. The proposed programming builds on existing program strengths, partnership with Valencia College, and synergies with the Creative Village site.

Supporting documentation: Board of Governors, State University System of Florida Proposal to Establish a New Type I, II, or III Campus, or Special Purpose Center

Prepared by: Diane Chase, Executive Vice Provost

Submitted by: A. Dale Whittaker, Provost and Vice President for Academic Affairs

Edition 4/28/2014

BOARD OF GOVERNORS, STATE UNIVERSITY SYSTEM OF FLORIDA
PROPOSAL TO ESTABLISH A NEW TYPE I, II, OR III CAMPUS, OR SPECIAL PURPOSE CENTER

University of Central Florida **University Submitting Proposal**	UCF Downtown **Proposed Name of Educational Site**
UCF – site ID 0017 **Site ID**	Type I **Proposed Type of Educational Site** (Type I, II, or III Campus, or Special Purpose Center)
500 W. Livingston Street Orlando, FL 32801 **Physical Address of Educational Site** (US Site: address, city, state, zip) (International site: street address, number , city, county/province, country)	August 21, 2017 **Proposed Opening Date** (First date and term student instruction will be offered at the site)

The submission of this proposal constitutes a commitment by the university that, if the proposal is approved, the necessary financial resources and the criteria for establishing or relocating an educational site have been met prior to the initiation of the first course offerings.

Date Approved by the University Board of Trustees	**President**	**Date**
Signature of Chair, Board of Trustees	**Vice President for Academic Affairs**	**Date**

Under Projected Enrollment, provide headcount (HC) and full-time equivalent (FTE) student enrollment estimates by level from Table 1 in Appendix A for Years 1 and 5, or the Final Year of implementation if it exceeds five. Under Projected Costs, provide revenues and expenses from Table 2 and capital project costs from Table 3 for Years 1 and 5, or the Final Year if it exceeds five.

Projected Site Enrollment* (from Table 1)

		HC	FTE
Undergraduate	**Year 1**	73	56
	Year 5	4802	4014
Graduate	**Year 1**	127	89
	Year 5	250	168

Projected Costs (from Tables 3 and 4)

	Operational			
	E&G Funding	**Other (Contracts & Grants, Auxiliary)**	**Capital Projects**	**Total Cost**
Year 1	3,536,398	0	57,750,000	61,286,398
Year 2	29,074,901	10,539,438	77,717,324	117,331,663
Year 3	29,778,424	10,674,229	0	40,452,723
Year 4	30,297,841	10,988,047	0	41,285,888
Year 5	30,651,456	11,489,149	0	42,140,605

**These are UCF enrollment projections. See Table 1 for additional information on Valencia College enrollment projections.*

Note: This outline and the questions pertaining to each section must be reproduced within the body of the proposal to ensure that all sections have been satisfactorily addressed. Tables 1 through 4 are to be included as Appendix A and not reproduced within the body of the proposals because this often causes errors in the automatic calculations.

1

For consideration and approval in concept by the UCF Board of Trustees, January 29, 2015.

I. Introduction

A. Provide a short description of the project and rationale for the request to establish an educational site, including the main purpose for this site (research, instruction, administration, student services, etc.).

The University of Central Florida, along with our educational partner, Valencia College, proposes to expand our downtown Orlando presence into a Type I campus that will focus on student instruction and services. The new campus will transform our current downtown offerings by relocating programs on our main campus to downtown. By doing so, we will create a world-class, best-in-the-nation site for learning emerging animation, digital media, communications, and film.

The Board of Governors has already conveyed UCF degree-granting authority on this site.

This expanded new campus will allow us to significantly enhance the academic experience for our students. The only programs that will move from our main campus to downtown are those that will better serve students' educational and workforce needs by being downtown. The university perceives UCF Downtown as a four-phase, long-term project to first incorporate academic programs focused on the site's existing strengths (arts and digital media), with the desire to add programs in the areas of health and public affairs, which would also benefit from synergies in the downtown location. This proposal covers the first two phases of the project.

The campus also will be home to an extremely inclusive pilot program that will provide opportunities for students with intellectual disabilities to achieve meaningful higher education credentials, prepare for future employment, and participate in all the resources and experiences available to UCF students.

Learning and Working Environments

The expanded new campus would be located on approximately 15 to 20 acres that are designated for higher education in downtown Orlando. Because of their downtown location, relocated programs will create industry and community partnerships not possible at our main campus.

For example, our Center for Emerging Media features the nation's second-ranked graduate video game design and development school, the Florida Interactive Entertainment Academy (FIEA). Working in partnership with local industry, FIEA graduates designers, programmers and digital artists with an 85 percent job placement rate and average salary of more than $50,000 (Source: *Florida Interactive Entertainment Academy website*, http://www.fiea.ucf.edu).

Our proposal moves downtown those programs that will complement FIEA, such as digital media, film, and art. Located in downtown, these programs will prepare students for creative and high-tech careers in an environment that integrates learning and working.

The relocation of WUCF TV, Central Florida's public broadcasting station, to the new campus will provide opportunities that will be designed to launch downtown as a new national model. Additionally, the *Orlando Sentinel* and several other professional media outlets are located

within walking distance of our downtown campus. UCF and *Sentinel* leaders are working to determine how to leverage proximity to create enhanced learning and job opportunities for students in Journalism, Radio/Television, and Advertising/Public Relations. We expect that similar professional opportunities downtown will be made available to students in academic programs that could later relocate to the downtown campus, such as Public Affairs, Public Administration, Social Work, Criminal Justice, Legal Studies, Health Management Informatics, Communication Sciences and Disorders, and Urban and Regional Planning.

We know that students who gain practical experience while in college are more likely to land jobs in their fields upon graduation. More than 20,000 of our students engage in co-ops, internships, and service-learning projects annually. We expect these opportunities to significantly increase in downtown Orlando, which *Forbes Magazine* recently ranked as the No. 1 city in America for job growth.

Expanding UCF's Commitment to STEM

UCF awarded nearly 2,000 baccalaureate degrees in STEM fields in 2013-14, the second-largest number in the State University System. Through relocating programs downtown, we will open space to expand STEM on the main campus, with a strategic focus on engineering programs.

Due to space shortage, UCF currently houses academic programs in approximately 240,000 square feet of leased space near the main campus. Our downtown campus will allow us to use vacated space to expand our programs of strategic emphasis – and to house the 200 new faculty members we expect to hire in the next two years.

The downtown campus represents a "double win" for students: the programs that move will better serve students by being downtown while opening up space on the main campus for growth in STEM-related students and faculty.

Transforming Lives

Around the country, many great metropolitan downtowns have strong higher education presences. This opportunity in downtown Orlando – the nation's 13th fastest-growing city according to *Forbes* – will connect students with diverse businesses, government entities, and nonprofits.

Our history shows that UCF knows how to leverage location-based education to drive student success. It is why we built the Rosen College of Hospitality Management in the heart of Orlando's tourism industry and why nearly 90 percent of Rosen College undergraduates secure jobs before graduating.

UCF's expansion of our downtown Orlando campus is another extraordinary opportunity to develop an innovative learning and working environment for students. With more than 74,000 jobs downtown, the potential opportunities for students and graduates are tremendous.

UCF Downtown is the ideal example of how a university can shape not only the lives and livelihoods of its students, but also its community.

B. Provide a short narrative assessment of how the establishment of the educational site supports the university mission and the goals incorporated into the university strategic plan and Board of Governors State University System Strategic Plan.

The establishment of a new UCF Downtown Campus site will support the university's mission and strategic plan, as well as the Florida Board of Governors State University System Strategic Plan.

As part of the mission of UCF as a public, metropolitan, multi-campus entity, this expanded campus will endeavor to meet the economic, cultural, intellectual, and societal needs of the community. The campus will provide experience-based learning environments resulting in high quality, relevant, and broad-based education.

This effort will support three of UCF's five goals of the university.

- Goal 1 – To offer the best undergraduate education in Florida.
- Goal 4 – To become more inclusive and diverse.
- Goal 5 – To become America's leading partnership university.

It supports UCF's strategic plan by pioneering the next generation of educational initiatives and fostering an inclusive and respectful campus dedicated to providing opportunity and access for all students – regardless of their intellectual abilities. This expansion also will rely heavily on a living-learning environment, steeped in the creation of partnerships with public, private, and nonprofit entities aimed at the common goal of addressing pressing local, state, national and international issues. UCF Downtown will actively develop innovative learning communities that will enhance our cultural competency, promote student engagement in real world experiences, and better serve the needs of the central Florida city-state.

Finally, the UCF Downtown campus will advance the goals of the Board of Governors Strategic Plan for the State University System in the following ways.

- By promoting excellence in teaching and learning and increasing degree productivity and efficiency by partnering with Valencia through our DirectConnect to UCF program.
- The relocation of programs to the downtown Creative Village site will allow for several academic programs to be moved from currently leased space and for the expansion of Engineering and STEM strategic emphasis areas on to the main campus as programs move downtown.
- The expanded campus downtown will also enhance community and business engagement.

C. Provide a timetable of critical benchmarks that must be met for full implementation which can be used to monitor progress (planning, design, funding, construction, etc.). The timetable should also include ensuring

appropriate accreditation of the proposed educational site and any proposed programs requiring specialized accreditation, if required.

UCF's leadership team has been conceptualizing the downtown campus as a multi-phase project since May 2014. Together, with our consulting, community, educational, and business partners, the university has embarked on a comprehensive planning effort for UCF Downtown.

The following timeline documents work to date and expected benchmarks.

- October 2014 – Ongoing: Academic Program Planning for Phases I and II
- November 2014 – July 2017: Master Planning
- April 2015 – April 2016: Facilities Design
- June 2016 – July 2017: Construction of Phases I and II
- August 2017 – Phases I and II open for students and academic programs begin

UCF has verified that since the university already offers degree programs at two SACSCOC-approved educational sites downtown, including within the area of the proposed UCF Downtown enhancement, the expansion of activities is not considered to be a substantive change to the scope of UCF's accreditation and does not require additional SACSCOC reporting or approval. No programs with discipline accreditation are planned to move to the downtown campus during the first two phases of the project; thus, no additional notification to discipline accreditors is necessary at this time.

II. Need and Demand Assessment

A. Provide a detailed assessment of unmet local student demand for access to academic programs in the vicinity of the proposed educational site. Complete Table 1 in Appendix A to enrollment projections for unduplicated student headcount and FTE by degree program and level.

Through 2017, the Orlando region is projected to have the second-fastest employment growth in Florida with a 3 percent annual growth rate and the second-highest population growth rate at 2 percent (Source: *Florida and Metro Forecast – March 2014*, Institute for Economic Competitiveness, College of Business Administration, University of Central Florida). As the demand for degree attainment grows with the projected population increase, UCF is poised to meet these needs with its proposed downtown campus academic programs – in the areas of digital media, art, and communications – and its programs offered on the main campus.

UCF currently projects greater than 2 percent annual enrollment growth for the university through 2019-20. This projection is based on statewide and regional population growth projections, high school graduation projections, current student continuation rates, and semester-to-semester transition ratios. This growth rate has been applied to all programs expected at UCF Downtown, as listed in Appendix A, Table 1.

Degree attainment for the downtown area of Orlando is lower than the averages of the surrounding area. While downtown Orlando matches the U.S. figure, the degree attainment of that specific area lags behind the county and the city surrounding it. See Table 2A below. Downtown Orlando includes zip codes 32801 and 32805, as identified by the Downtown Development Board. UCF Downtown will increase access to educational opportunities for downtown Orlando and nearby residents, helping to meet our region's growing demand for degree attainment.

Table 2A: Degree Attainment At Different Scales

2012 Degree attainment	Percentage
United States	28.8%
Florida	26.4%
Orange County, FL	30.1%
Orlando, FL	32.9%
Downtown Orlando, FL	28.8%

Sources: http://quickfacts.census.gov/qfd/index.html and Census Bureau report

B. Provide a detailed data-driven assessment that describes unmet local and regional workforce need for programs and services to be offered at the proposed educational site. In the appendices, provide letters of support from the local community and business interests.

Employment demand is strong and growing fast in the Orlando region. UCF proposes the relocation of additional digital media, art, and communications-related programs to UCF Downtown. It does so with support from the City of Orlando, whose letter is attached in Appendix B, and details the City's contributions toward the downtown campus.

In May 2013, the U.S. Bureau of Labor Statistics released its Metropolitan and Nonmetropolitan Area Occupational Employment and Wage Estimates for the Orlando-Kissimmee-Sanford, Florida metropolitan statistical area. The report includes a Location Quotient figure detailing the ratio of the area concentration of occupational employment to the national average concentration. The majority of the fields with academic programs proposed for UCF Downtown exceed the national average, indicating a greater than average regional employment opportunity in that field – with fine arts more than tripling the national average and film and video editing twice exceeding it. Details by major and sub-field can be found in Table 2B below.

Table 2B: Area Concentration of Occupational Employment

Occupation title and code	Location quotient	Annual mean wage
Public relations specialists (27-3031)	0.86	$57,090
Radio and television announcers (27-3011)	1.27	$56,170
Reporters and correspondents	1.29	$51,280

(27-3022)		
Multimedia artists and animators (27-1014)	0.97	$49,480
Arts, design, entertainment, sports, and media occupations (27-0000)	1.23	$42,530
Fine artists, including painters, sculptors, and illustrators (27-1013)	3.44	$37,030
Film and video editors (27-4032)	2.09	$32,390

Source: May 2013 Metropolitan and Nonmetropolitan Area Occupational Employment and Wage Estimates: Orlando-Kissimmee-Sanford, FL program, U.S. Department of Labor, U.S. Bureau of Labor Statistics

Additionally, two of the fields (multimedia artists and animators and public relations specialists) are included on the 2014-15 Regional Demand Occupations List for the local counties of Lake, Orange, Osceola, Seminole, and Sumter counties, as indicated in an annual report released by the Florida Department of Economic Opportunity (Workforce Region 12). The two fields also qualified for the "High Skill/High Wage" designation with mean wages in excess of $21.03 hourly and entry wage in excess of $13.42 hourly. Public relations specialists are also listed as an Enterprise Florida, Inc. targeted industry.

These programs are expected to remain in demand. The U.S. Department of Labor's Bureau of Labor Statistics projects a 7 percent increase in the major occupation field of Arts, Design, Entertainment, Sports, and Media through 2022. Additional projections of sub-fields can be found in Table 2C below.

Table 2C: Percent Increases in Occupation Fields

2012 National Employment Matrix title and code	**Percent change, 2012-22**
Arts, design, entertainment, sports, and media occupations (27-0000)	7.0%
Artists and related workers (27-1010)	5.3%
- Fine artists, including painters, sculptors, and illustrators (27-1013)	3.8%
- Multimedia artists and animators (27-1014)	6.3%
Media and communication workers (27-3000)	8.3%
- Public relations specialists (27-3031)	12.0%

III. Academic Programs and Courses

A. Provide a list of the degree programs, partial programs, or college credit certificates and courses to be offered at the proposed educational site by year five or the Final Year of implementation if different, using Table 1 in Appendix A. The proposed degree programs must be identified by six-digit CIP Code, by program title, and degree level.

Programs currently offered in their entirety at the downtown location (in the Center for Emerging Media) are at the graduate level and include:

M.S. in Interactive Entertainment (50.0102)
M.A. in Digital Media (50.0102)
M.F.A. in Emerging Media (50.0702)

Undergraduate course offerings also are available in art, digital media, and film.

The following programs are proposed for Phases I and II at UCF Downtown:

Florida Interactive Entertainment Academy
M.S. in Interactive Entertainment (50.0102)

School of Visual Arts and Design
B.A. in Art (50.0701)
B.F.A. in Art (50.0702)
B.A. & B.F.A. in Film (50.0602)
B.A. in Digital Media (50.0102)
M.A. in Digital Media (50.0102)
M.F.A. in Emerging Media (50.0702)

Nicholson School of Communication
B.A. in Advertising/Public Relations (09.0903)
B.A. in Human Communication (09.0101)
B.A. in Journalism (09.0401)
B.A. in Radio/Television (09.0701)
M.A. in Communication (09.0102)
Graduate Certificate in Corporate Communication (09.0102)

College of Education and Human Performance
Ph.D. in Education, Track in Exceptional Education (13.0101)

We anticipate adding additional programming in subsequent phases following further analysis of potential student, university, and community benefits; as such programs were referenced in this proposal's introduction.

B. Provide an explanation as to how the proposed degree programs and courses will be affiliated with similar programs offered on the central campus and/or

other educational sites of the university. Will they be independent or an extension of existing programs? (Please see BOG regulation 8.011 (5))

The degree programs proposed for the UCF Downtown campus are either currently offered at that location (e.g. M.S. in Interactive Entertainment, M.A. in Digital Media, and M.F.A. in Emerging Media) or will be relocated from the UCF main campus to UCF Downtown. Select courses within the general education program will be offered on both campuses to meet student need and graduation requirements, as we do now on the campus of our Rosen College of Hospitality Management (see below).

In conjunction with UCF Downtown, UCF plans to expand enrollment to include a group of students with intellectual disabilities. This educational opportunity is needed in Central Florida and will provide valuable educational experience for graduate students enrolled in existing exceptional education degree programs at UCF.

C. Provide an assessment, supported with data, that justifies any duplication of degree programs and services that might already be provided by an existing state university or Florida College System campus in the vicinity of the proposed educational site. Describe any discussions that have taken place with affected colleges and universities and provide letters of support or letters of concern in the appendices.

Degree programs and services will not be duplicated.

Valencia College, a proposed partner in the downtown campus, will initially offer A.S. programs and support students participating in DirectConnect to UCF (see attached letter of support from Valencia College in Appendix C). In addition to Valencia general education offerings, UCF will offer a limited and streamlined selection of general education courses downtown as another option for UCF Downtown Campus FTIC students. UCF students may also supplement their education with UCF online offerings and UCF main campus offerings. A limited number of courses in the program areas being relocated to UCF Downtown will continue to be offered at the UCF main campus in Orlando as a service to other majors (e.g., speech).

IV. Administration and Student Support Services

A. Describe the administrative structure of the proposed educational site and how it will relate to the central administration of the university. Include any necessary funding in the financial plan outlined in Table 2 of Appendix A.

The UCF Downtown campus will be part of Academic Affairs led by the Provost and Vice President of Academic Affairs. We are not creating a separate administrative structure. For example, an administrator who leads one of the academic programs assigned to UCF

Downtown will provide oversight for the daily operational aspects of all entities housed on the campus providing coordination, communication, and collaborative leadership.

All faculty members assigned to UCF Downtown will report to department chairs and deans of academic colleges. Student support services will be aligned to the division of Student Development and Enrollment Services (SDES) within Academic Affairs. Staff members will report to their department directors with oversight provided by an existing senior-level SDES administrator to coordinate activities and services, and to create a commitment to operational excellence. The offices of safety, security, physical plant, facilities, business services, and other operational functions will similarly report to the leadership of their respective entities in the central administration of the university.

B. Describe how the proposed site will provide student services, either onsite or online from the central university campus.

Student Services Center

Comprehensive student services will be collectively integrated and representative of all students and academic support services available to other students on its UCF campuses. The Office of Student Services will be an extension of all SDES functional services. It will also support the services of academic colleges and other academic-support units, including DirectConnect to UCF, library services, undergraduate research, experiential learning, and other offices. Furthermore, where feasible, co-location and shared services and staff with Valencia College will enhance and strengthen these partnership initiatives, promoting student success, retention, progression, and graduation. Startup costs will be absorbed in the university's existing budget.

The proposed Student Services Center will serve as a one-stop service center comprised of key student services departments to provide exceptional "front door" customer service and to promote a seamless transition between Valencia College and UCF. It will be reflective of the dynamic and innovative campus environment of the downtown community. It will also be student centered with intentionally designed state-of-the-art technologies to provide innovative means of communications and services. The Student Services Center will be staffed by full-time staff and supplemented with cross-functional trained frontline staff serving as generalists. Student ambassadors along with work-study and graduate assistants will respond to questions and issues that students cannot resolve through online or Web services. Staff will be accessible at non-traditional hours of operation to accommodate students' needs. They will also be equipped with the technology required to access data bases, student records, and systems that are vital to resolve students' questions.

Intellectual Disabilities

UCF also is committed to designing and implementing an inclusive and comprehensive postsecondary program for students with intellectual disabilities who could not traditionally access the opportunities that a college educational experience provides. This program will have

a vital presence on both the main UCF campus location and UCF Downtown campus by connecting with the wide array of resources and community experiences. The purpose of this program is to seamlessly immerse students with intellectual disabilities in the university academic and campus life culture. This program will provide students an opportunity to participate in a vast option of courses, have access to campus resources, participate in internships and/or job experiences, and engage in peer mentoring, all of which are the types of experiences available to any enrolled UCF student.

In addition to the benefit for students with intellectual disabilities, many UCF students in other degree programs will benefit from the hands-on experiences the intellectual disability program will offer to its enrolled students. As example, students in the existing UCF Education-Exceptional Education PhD Track and Communicative Sciences and Disorders, Physical Therapy, and Social Work programs can benefit from the unique opportunity the intellectual disability program will offer our campus community. Online and on-site educational resources will be available through this newly developed program that will serve as a clearinghouse for parents and communities.

Student Outreach Services

The existing office of Student Outreach Services attracts, motivates, and prepares underrepresented middle and high school students from the local area to pursue and to complete a college education. A variety of opportunities and programs for students from grades 6 through 12 and their families are designed to assist in the navigation of the college admissions, financial assistance, and career preparedness processes.

Students and parents engage in monthly enrichment activities, college campus visits, brain bowl competitions, academic skills workshops, leadership development forums, community service projects, and career exploration modules. Parents are encouraged to participate and engage in all aspects of the university's programming because they are an integral part of the planning and because they provide a key ingredient to developing the support structure necessary for students to be successful. It is anticipated that the Office of Student Outreach Services will be relocated to UCF Downtown to fulfill the university's commitment to be *in* the community and *of* the community.

The staffing structure of the Student Support Services will be as follows.

An existing senior-level SDES administrator (.5 FTE) will provide oversight for staff, facilities, academic college liaison, Valencia College partnership liaison, communication, and collaboration working with the administration of the downtown campus.

The UCF Downtown project will require the following staffing that totals 10.0 FTE.

1. Financial aid, full-time coordinator
   (49K – 1.0 FTE)
2. Undergraduate admissions, full-time coordinator
   (49K - 1.0 FTE)

3. Registrar, academic services, and veteran services, shared full-time coordinator (49K – 1.0 FTE)
4. Career readiness (career development, employability, and internships) shared full-time coordinator (45.5K –1.0 FTE)
5. Intellectual disabilities, full-time director (100K- 1.0 FTE)
6. Support services, part-time staff (91K -2.0 FTE)
    a. Generalist for counseling (32K – .5 FTE), disability-accessibility and testing services (23K – FTE .5), Student Rights and Responsibilities (23K – FTE .5), and Learning support Services (23K --.5 FTE)
    b. Volunteer UCF will relocated to UCF Downtown and a Civic Engagement Center will be created to include engagement and involvement, leadership, service learning (transfer of existing position)
    c. The Office of Student Outreach Services will relocate to UCF Downtown and three existing positions will be transferred there.
    d. Orientation staff will facilitate orientations as required (existing staff).
7. Pre-advising and academic coaching, full-time staff (46K – 1.0 FTE)
8. Clerical staff, two full-time positions (64K – 2.0 FTE)

Total Personnel Cost $493,000.

Space in the Student Services Center will be required for the eight full-time and four part-time positions listed above. Testing, tutoring, math, writing, supplemental instruction, and study spaces will also be considered. Private spaces will be required for counseling and disability-accessibility intakes. Services will be enhanced as the campus develops. The integration into UCF Downtown of the Health Services unit along with the Recreation and Wellness Center will be determined at a later date.

Safety and Security

For the safety and security of our students, faculty, and staff, the university will provide a UCF Police Department presence in UCF Downtown. The downtown force will be supported by the university's existing command structure, dispatch, motor pool, and financial operations. The downtown staffing will consist of 15 police officers providing service seven days a week and 24 hours a day. Staffing will include two clerical staff members, a technical staff person for cameras, electronic locking systems, and communications gear, and four hourly employees to monitor security cameras.

The specific spaces and square footage requirements for the police force are as follows.

- Briefing room 500 square feet
- Administration office 145 square feet
- Staff office 120 square feet

- Interview room 80 square feet
- Technical room 120 square feet
- Supply room 120 square feet
- Restrooms 200 square feet

The total square-footage requirement is 1,285 square feet.

The briefing room will be the general meeting space for the patrol officers at shift change, as well as for meetings with the Orlando police and other constituencies. The administration office will be used by the shift officer in charge of the downtown operations, and the staff office will be for administrative support overall. The interview room will be used in questioning suspects or other interviews where privacy is important. The technical room will include equipment and work space devoted to maintaining the downtown campus electronic locking systems, cameras, and communications gear that will include emergency notification systems. The supply room will be for all supplies and will include a secure evidence locker and a gun locker. Two restrooms will be needed, one for public use and one for the police officers with lockers and a shower.

Salary and benefits are estimated to be $1,425,000. The expense of vehicles, equipment, and training will come from existing budgets.

Additionally, security will be enhanced through the strategic placement of cameras and "blue light" emergency telephones, and doors will utilized an electronic access control system. A public safety distributed antenna system will ensure complete campus coverage of public safety (police and fire) radio frequencies. Electronic signage will facilitate downtown campus communication, wayfinding, and emergency notification.

C. Provide a plan to provide library services and other instructional resources that will support the proposed programs. Include any necessary funding in the financial plan outlined in Table 2 of Appendix A.

Library Services and Resources for the UCF Downtown Campus

The UCF Downtown Library will offer facilities, services and resources to support the needs of students, faculty, and the surrounding community. These services and resources will align with the guiding principles of UCF Downtown, and grow over time as needed to support the expanding population of students, program offerings, and university partnerships. Most library resources will be available in electronic formats; however, a core collection of essential print materials will also be provided. A courier between the downtown and main campuses will provide downtown students with ready access to materials held at the main campus. Interlibrary loan services will make available to downtown students for items held in any academic library. Ubiquitous access to mobile devices and high-speed wireless networks will permit students and faculty to access electronic library resources in both interior and exterior spaces throughout the downtown campus and beyond.

On-site library services and facilities will include the following.

- Reference, Research & tutoring consultation
- Instruction
- Digital production lab
- Technology Lending
- Circulation
- Interlibrary Loan
- Courier
- Student Lockers

Telecommunications and IT Resources for UCF Downtown

UCF Downtown will be connected to the main UCF campus via redundant fiber optic circuits, delivering 10 gigabits/second data speeds, upgradeable to 100 gigabits/second in the future. These fiber optic circuits will also provide UCF downtown with commodity Internet service and access to Florida LambdaRail and Internet2. All campus spaces will be equipped with gigabit speed wired network service. High-speed WiFi service will be ubiquitous in both interior and exterior spaces.

UCF Downtown will emphasize mobile, wireless technology enabling students, faculty, and staff to have immediate access to instructional and information resources at any time, and any location. Mobile devices of all types (smartphones, tablets, laptops) will be supported, and will provide access to information, collaboration tools, and unified communication services. All instructional spaces will have high-density wireless coverage, enabling every student in a classroom, auditorium, or laboratory to have a fully functional wireless connection.

IT services for UCF Downtown will operate on a shared services model, with equipment and services supported from the main campus Shared Services Center. A very limited set of redundant servers will be housed in the main Telecom distribution room, to provide on-site redundancy for critical services such as Active Directory and DHCP so that basic downtown network services can continue to function in the event of a loss of external network services. IT staff supporting UCF Downtown will be divided between the downtown and main campuses, with downtown staff providing direct support to students and faculty members, and main campus staff supporting the "back-end" shared services utilized by the downtown campus.

UCF Downtown students, faculty, and staff will utilize the university's Unified Communications system (voice, video, and data over IP, Lync, voicemail, etc.), PeopleSoft business systems, Exchange email service, and Canvas learning management system, ensuring that all core network services are available to UCF students and faculty members at all UCF locations.

V. Budget and Facilities

A. Provide a projected operational budget using Table 2 in Appendix A that includes revenues and expenses out to year five, or the final year of implementation if different. Provide a narrative that explains the cost

assumptions reflected in Table 2. Include the operational costs on the proposal cover page.

The UCF Downtown campus projected operational budget is set forth in Appendix A, Table 2. Year 1 includes ongoing campus planning and anticipated completion of the first of two buildings, as shown in Appendix A, Table 3.

The operational budget beginning in Year 2 reflects full occupancy of both buildings, as shown in Appendix A, Table 3. Tuition and fee revenue assumes student enrollment of approximately 4,500 undergraduate UCF students, 230 graduate, professional and certificate UCF students. Other projected revenue includes UCF's current recurring downtown campus state appropriation of $2,000,000, existing general appropriations of $2,000,000 and an anticipated physical plant new space appropriation of $3,600,000. Additional revenue sources designed to support the downtown campus include state and private grants, community donations and other miscellaneous revenue. Non-appropriation revenue sources are projected to increase approximately 2 percent per year for the first five years of operation.

The UCF Downtown campus expenditures are projected based on existing costs. Faculty and academic costs associated with the programs relocating to downtown are included in compensation and employee benefits, equipment, contractual services, and other operating expenses using existing costs per student credit hour in those academic departments. Existing operational costs for WUCF TV and WUCF-FM radio also are included. Incremental costs for security and safety, telecommunications, instructional IT resources, and student support services are included based upon assumptions described in Section IV B and C.

Financial aid for the downtown campus is estimated to be consistent with current average institutional awards. Plant operations and maintenance costs are estimated based on current state formulas for utilities, operations and maintenance of two new buildings described in Appendix A, Table 3. Library costs for the downtown campus are based on the plan provided in Section IV C.

Local fees that support auxiliary services, including transportation, health services, and student activities will be transferred to the applicable auxiliary to allow for those areas to provide student services to the downtown campus. These expenditures are reflected in Appendix A, Table 2 as a transfer to auxiliaries. Main campus support from administrative areas, such as human resources, purchasing, finance and accounting, compliance ethics and risk management, general counsel etc. as well as main campus Academic Affairs support is reflected as shared services on Appendix A, Table 2. Operating expenses are projected to increase 2 to 3 percent per year to support the anticipated enrollment growth in the first five years of operation.

B. Use Table 3 in Appendix A, to identify each facility or facilities required to establish the proposed educational site, and any additional facilities that will be required once the site has reached its expected size and enrollments. Include capital facility costs on the proposal cover page.

See detailed information requested in Appendix A, Table 3.

C. Describe ownership of the new location and provide documentation of ownership or lease agreements, to include any special clauses, easements, or deed restrictions. If the property is a gift, provide the gift agreement. Please provide information on the type of ownership if the site is leased or owned (if leased please provide information on the duration of the lease and the entity that owns the lease). If the site is joint-use please provide the name of the other entity in the joint agreement as well as the total number of students this site will serve from year 1 through year 5.

Contingent upon the approval for the UCF Downtown expansion by the Florida Board of Governors, the City of Orlando will provide 15-20 acres of land, valued at $20-22 million and within the Creative Village, to UCF at a zero-dollar land cost. This property is located south of the realigned Livingston Street, east of North Parramore and north of Florida Central Railroad tracks. The property transferred will be used for educational purposes or will revert to the city.

Moreover, the city will transfer title of the UCF Center for Emerging Media facility, located at 500 W. Livingston Street and valued at $22.5 million, to the UCF Foundation. The city will execute this transaction at any time, subject to the customary land closing requirements.

The agreements and further details of ownership and facilities documentation are outlined in Appendix B.

D. Are the facilities owned or leased by the University?

(X) Owned *(See Appendix B for details.)* **( ) Leased**

VI. Addendum for International Campuses and Special Purpose Centers

If the proposed site is international, include a copy of any MOU or other agreements related to the site as an appendix

(X) The University certifies that all requirements of BOG Regulation 8.009(3)(f) have been met.

UCF Downtown Proposal for Florida Board of Governors

UCF Downtown Proposal for Florida Board of Governors

Appendix B

City of Orlando Letter & Documentation

CITY OF ORLANDO

OFFICE OF
BUDDY DYER
MAYOR

January 26, 2015

Dr. John Hitt
President
University of Central Florida
P.O. Box 160002
Orlando, FL 32816-0002

Dear Dr. Hitt,

The City of Orlando is pleased to commit to assist in facilitating the expansion of the University of Central Florida in Downtown Orlando within the Creative Village area. Given the long-term economic benefits of a major investment in education within the Downtown core, and contingent upon approval for the Downtown expansion from the State of Florida Board of Governors, the City is prepared to affirm its role as a contributor of property toward this effort.

The City will stand behind its obligation to transfer title of the UCF Center for Emerging Media facility, located at 500 W. Livingston Street, to the University of Central Florida Foundation, Inc. The facility is valued at approximately $22.55 million. Our commitment to this action was memorialized in the Expo Centre Lease Agreement dated October 12, 2004 (attached). The City is prepared to execute this transaction at any time that UCF is ready to move forward, subject to all customary requirements of a land closing.

In addition to previous commitments, the City will pursue all necessary modifications to the Creative Village Master Development Agreement and Purchase Option Agreement in order to provide the 15+/- acres of educational lands, valued at $20-22 million, within the Creative Village development to UCF at a zero-dollar land cost. These lands, generally located south of realigned W. Livingston Street, east of N. Parramore Avenue, and north of the Florida Central Railroad tracks, are shown and described in the PD zoning ordinance in Exhibits E and F (attached). Modifications to these agreements will require City Council approval, and if the City is successful in modifying the agreements, as part of the ultimate transfer of the educational lands to UCF, the deed will include a reverter clause, consistent with the language on the same matter contained within the Expo Centre Lease Agreement, which will require the property transferred to be used for educational purposes or title to the property will revert to the City.

We look forward to working with you throughout this exciting endeavor.

Sincerely,

Mayor Buddy Dyer

1 Ancillary retail/commercial space allowed

2 Existing Recreation Center shall remain unless an alternate facility is available.

3 The height limit shall be 75 feet facing Parramore Ave for a distance of 150 feet from the block face, and shall transition up to a maximum of 200 feet facing Terry Ave.

4 Lot H faces three Primary Streets and a park. The site plan and building elevations shall treat all four sides of the building as primary facades.

5 Up to 0.35 FAR total non-residential uses are allowed as a secondary use. This includes education, office, and/or ground floor retail/commercial.

6 Existing Tennis Courts shall remain unless an alternate facility is available.

7 At the time the first building on Block 1 is proposed for development, a Master Plan for the entire Block 1 shall be submitted and reviewed to ensure that all uses on Block 1 continue to function adequately.

8 Existing Bob Carr Performing Arts Center shall remain until Stage II of the new Dr. Phillips Center for the Performing Arts is operational.

9 Suitable alternative parking shall be made available to UCF within the CV site, as redevelopment of the surface parking area leased to UCF proceeds.

10 Existing Nap Ford School shall remain unless an alternate facility is available.

EXPO CENTRE
LEASE AGREEMENT

THIS LEASE AGREEMENT is made and entered into this 12th day of October, 2004, by and between the **City of Orlando, Florida**, a municipal corporation organized and existing under the laws of the state of Florida (hereinafter referred to as the "CITY"), the **University of Central Florida,** on behalf of its Board of Trustees, for the benefit of the UCF School of Film & Digital Media and the UCF Florida Interactive Entertainment Academy (hereinafter referred to as "UCF"), the **University of Central Florida Foundation, Incorporated**, a Florida not for profit and 501 ©(3) corporation, (hereinafter referred to as the "Foundation"),and the **Community Redevelopment Agency of the City of Orlando**, a special taxing district organized under the laws of the State of Florida (hereinafter referred to as "CRA").

WHEREAS, the City-owned and operated Expo Centre in downtown Orlando is an underutilized facility that has been operating at a deficit and is in need of renovation and redevelopment; and

WHEREAS, UCF is seeking a downtown location for its School of Film & Digital Media (SFDM) and the Florida Interactive Entertainment Academy (FIEA), the SFDM and FIEA being hereinafter sometimes collectively referred to as the "Schools"; and

WHEREAS, the City, in an effort to develop and facilitate the presence of UCF's educational facilities and the digital media and interactive entertainment industries in downtown Orlando, desires to lease the Expo Centre to UCF for the operation of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs; and

WHEREAS, UCF desires to lease and redevelop the Expo Centre for the purpose of locating and operating the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs therein pursuant to the terms of this Lease Agreement; and

WHEREAS, the CRA was created as a public body corporate and agency of the City of Orlando for the purpose of, among others, carrying out the community redevelopment purposes of Ch. 163, Part III, Florida Statutes; and

WHEREAS, pursuant to the Downtown Community Redevelopment Area Plan (Downtown Outlook) the operation of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs at the Expo Centre will help to achieve the CRA's goals of redeveloping the Expo Centre with multiple uses, including educational facilities; and

City Council Meeting: 10-11-04
Item: 71 Documentary: 041011701

WHEREAS, CRA has agreed to provide certain funds to UCF in order to fund a portion of the cost for the redevelopment of the Expo Centre; and

WHEREAS, the operation of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs at the Expo Centre will increase the academic and collegiate presence in downtown Orlando and assist in the growth of the high wage digital media industry in Orlando; and

WHEREAS, the creation of a digital media technology cluster and university presence in downtown Orlando are critical factors in the revitalization of downtown Orlando; and

WHEREAS, the location of UCF in downtown Orlando will provide significant economic benefits to the City and its residents, and will serve as a catalyst for economic development in downtown Orlando; and

WHEREAS, City's and CRA's participation in the lease and redevelopment of the Expo Centre to provide educational facilities related to the high-tech digital media and interactive entertainment industries serves a valid public purpose; and

WHEREAS, the parties desire to memorialize their understanding regarding the lease and renovation of the Expo Centre.

NOW THEREFORE, in consideration of the mutual promises and covenants contained herein and given one party to the other, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Recitals. The above recitals are true and correct and are incorporated herein, by reference.

2. Leased Premises. The City does hereby lease to UCF, and UCF does hereby let as tenant from the City, the real property and improvements located at 500 West Livingston Street, Orlando, Florida, as more particularly shown in Exhibit "A", attached hereto and incorporated herein, by reference (the "Leased Premises"). The Leased Premises consist of the approximately 112,770 square foot, 3-story building commonly known as the Expo Centre (the "Building"), which shall be leased to UCF in phases according to the following schedule (the "Lease Schedule"):

A. Commencing on October 12, 2004 and continuing until the expiration or earlier termination of the Lease, the Leased Premises shall consist of the entire 2nd and 3rd Floors of the Building, including all bathrooms and common areas located thereon, and the administrative offices on the 1st floor;

B. Commencing on February 1, 2005 and continuing until the expiration or earlier termination of the Lease, Hall # 400 and 500 on the 1st floor shall be added as part of the Leased Premises;

C. Commencing on August 1, 2005 and continuing until the expiration or earlier termination of the Lease, Hall # 600 and 700 on the first floor shall be added as part of the Leased Premises; and

D. Commencing on March 1, 2007 and continuing until the expiration or earlier termination of the Lease, Hall # 200 and 300 on the first floor shall be added as part of the Leased Premises so that as of March 1, 2007 the Leased Premises shall include the entire Building.

The City and UCF may mutually agree in writing to modify the Lease Schedule. UCF shall only have the lease and use of those portions of the building that are part of the Leased Premises according to the Lease Schedule. In addition, UCF shall have the use of all elevators, stairways, hallways, bathrooms, walkways and other common areas (the "Common Areas") necessary for the operation, use and maintenance of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs provided that such use of the Common Areas does not interfere with the Expo Events described below. The previously scheduled events identified in Exhibit B attached hereto and incorporated herein, by reference (the "Expo Events") shall be held as scheduled in those portions of the Building identified in Exhibit B, and the Expo Events shall be allowed the use of parking and Common Areas necessary for the proper functioning of the Expo Events. UCF shall take all reasonably appropriate steps to insure that the construction of the Renovations and UCF's use of the Leased Premises does not interfere with the Expo Events.

3. Term of Lease. The term of the Lease shall be forty (40) years (the "Term") beginning on October 12, 2004 (the "Lease Commencement Date") and ending on October 11, 2044 (the "Expiration Date"), unless such Lease is extended or terminated as provided herein.

4. Renewal of Lease. Provided that UCF is not in breach or default of the Lease, the term of the lease may be renewed for two (2) additional, ten (10) year terms upon the mutual, written agreement of the parties.

5. Use of Leased Premises. UCF shall use, lease and renovate the Leased Premises solely for the operation and maintenance of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs and the administrative offices associated therewith.

A. Attendance Goals. The Schools and, when necessary to achieve the Attendance Goals, other UCF instructional programs shall make best effort to comply with the Attendance Goals contained in Exhibit C attached hereto and incorporated herein, by reference (the "Attendance Goals"), and UCF shall submit to the CITY an annual accounting or statement relating to the operation of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs at the Leased

Premises during the previous year which demonstrates UCF's compliance thereof. It is acknowledged that the Attendance Goals contained in Exhibit C require that additional space be made available for the FIEA no later than the beginning of year 4 of the lease in order to allow for the expansion of instructional activities required to serve all undergraduate students enrolled in SFDM. Without additional space it may be necessary to limit undergraduate enrollment to upper division; i.e., years 3 and 4, students. In order to properly serve lower-division; i.e., years 1 and 2 undergraduate students it will be necessary to provide adequate student support services and co-curricular activities on-site. Otherwise, it may be necessary to limit undergraduate enrollment to upper division courses. Until SFDM student enrollment meets the Attendance Goals described in Exhibit C, it may be necessary to conduct other UCF instructional activities in the Building.

B. UCF Programs/Activities. UCF shall strive to provide the following programs and activities:

1. To the extent resources allow, UCF will encourage its SFDM to work with the Downtown Development Board in sponsoring and hosting an annual Downtown Film Festival reflective of the SFDM's program.

2. The SFDM will look for opportunities to provide educational outreach to member schools of the Consortium of Downtown Orlando Schools.

3. The SFDM will make a good faith effort to provide educational outreach/career development to underserved populations.

4. To the extent space and resources allow, the SFDM will continue to operate a Downtown Media Arts Center/Screening room within the Downtown Community Redevelopment Area for as long as the SFDM is located within the Building.

5. UCF will recognize the City and CRA partnership in a permanent way at the Leased Premises, visible to visitors and the general public.

6. If a film auditorium is created through future renovations of the Building, then UCF will provide such auditorium for use by the Orlando International Fringe Festival at no charge on an annual basis. The Orlando International Fringe Festival shall be responsible for the operation, maintenance, and repair costs associated with its use of the auditorium and for any repair costs associated with damage to the Building attributable to the Orlando International Fringe Festival.

6. Parking. The City will provide UCF with a total of 300 parking spaces in the Centroplex Parking Lot #1 pursuant to the following schedule:

A. Commencing November 1, 2004.....75 parking spaces

B. Commencing January 1, 2005.....100 parking spaces

C. Commencing April 1, 2005.....200 parking spaces

D. Commencing August 1, 2005.....300 parking spaces

The City and UCF shall cooperate and make every reasonable effort to accommodate each party's respective needs for parking, including the execution of a parking agreement which sets forth the rights, duties and responsibilities of the parties with respect to UCF's use of the parking spaces. If UCF's use of the above parking spaces, or any portion thereof, would interfere with the City providing parking for an Expo Event or event at the TD Waterhouse Center, the City may relocate up to one-half of the parking spaces to another City parking facility in close proximity to the Expo Centre. The parking spaces referenced above shall be provided for UCF's use until such time as the City and UCF mutually agree on a long-term parking plan for the Leased Premises.

7. Rent. UCF shall pay rent in the amount of one dollar ($1.00) per year payable annually on the Lease Commencement Date and each anniversary thereof.

8. Building Renovation.

A. Renovations. UCF shall improve the Leased Premises by renovating the Building pursuant to the Scope of Work attached hereto and incorporated herein, by reference, as Exhibit D (the "Renovations"). Construction of the Renovations shall commence within ten (10) days of the Lease Commencement Date. If construction of the Renovations has not commenced within such ten (10) day period, then the City may continue to hold events within any portion of the Building, including the Leased Premises, until such time as construction has commenced. UCF shall use its best efforts to construct and install the Renovations on or before July 31, 2005 (Construction and Fixture Period), but in any event, the Renovations must be complete and a Certificate of Occupancy for the Building issued no later than one (1) year from the Lease Commencement Date. UCF shall be responsible for securing all local, state, and federal permits required for the Renovations. UCF shall furnish the CITY with two (2) sets of As-Built Drawings of the Renovations within thirty (30) days of final completion. In addition to the Renovations, UCF may make additional renovations and improvements to the Building at its sole cost and expense pursuant to plans and specifications approved in advance by the City in accordance with subsection B below.

B. Design. UCF shall procure the services of Florida licensed professional architects, landscape architects, surveyors, engineers, and other needed professionals (the "Consultants") to design the Renovations. The design shall be in accordance with the City Code and requirements of any other governmental agencies having jurisdiction. The design plans and specifications (the "Plans") for all aspects of the Renovations shall be subject to the review and approval of the City not to be unreasonably withheld, conditioned or delayed. UCF shall provide the City with Plans in paper and electronic formats at 30%, 60%, 90% and 100% completion for review and approval by the City and CRA. The requirements of this paragraph are in addition to the other design

approvals required by the City Code. No change shall be made to City approved Plans without the prior written approval of the City.

C. **Construction.** UCF shall procure a Florida licensed general contractor (hereinafter referred to as "Contractor") reasonably acceptable to the City who shall perform the construction of the Renovations. The construction shall be performed in accordance with the City-approved Plans and in accordance with all applicable federal, state and local laws, ordinances, rules and regulations.

D. Change Orders.

1. **Unforeseen Conditions.** During the course of construction of the Renovations, if the City, CRA or UCF, through itself or its Contractor or Consultants, observe, or otherwise become aware of, any utility conflicts, unforeseen site conditions or other similar events not resulting from negligent or wrongful acts or omissions of the Contractor, Consultants or any entities for which such Contractor or Consultants may be responsible, each party shall immediately notify the other party of such conflicts, conditions or events. The City and UCF agree that time is of the essence in making any decisions, interpretations and/or changes with respect to design, materials and other matters pertinent to the work covered by the construction contract so as to not materially delay the work of the Contractor. If the City determines that a change is necessary to the construction contract in order to complete the Renovations, the City shall provide such proposed change to UCF for review and approval, which approval shall not be unreasonably withheld, conditioned or delayed. Upon approval of such change by UCF, UCF shall process a change order with the Contractor. In the event that UCF determines a change is necessary to the construction contract in order to complete the Renovations, UCF shall provide to the City a copy of the proposed change order for review and approval by the City which approval shall not be unreasonably withheld, conditioned or delayed. UCF shall issue a change order to the Contractor for any change requested by either party which are approved by both parties. Each party shall notify the other party within seven (7) days of receipt of the proposed change order of its approval or rejection, or of any modifications to the change order. If the parties reach an impasse over any change order, the objection shall be heard by a committee composed of the Public Works Director, a UCF representative, and a third member selected by the other two, which committee shall make the final determination as to whether the change can be implemented. Such committee shall make a good faith effort to resolve any such issues as expeditiously as possible and any such issues shall be resolved within three (3) days from the time the committee first considers it, unless a majority of the committee agrees otherwise. UCF and the CRA shall be jointly responsible for the payment of all approved change orders, regardless of whether the City or UCF initiated the request, such cost to be shared pro-rata based upon their respective financial contributions toward the Renovations pursuant to Exhibit D; provided, however, that neither the City nor CRA shall be responsible for the payment of any change order relating to tenant improvements, which cost shall be the sole responsibility of UCF.

2. **UCF-Initiated Change Orders.** During the course of construction of the Renovations if UCF requests a change order other than those change orders described in subsection 1 above which modifies the Plans approved by the City pursuant to subsection 8.B above, then UCF shall provide to the City a copy of the proposed change order for review and approval by the City which approval shall not be unreasonably withheld, conditioned or delayed. UCF shall issue a change order to the Contractor for any such change that is approved by both parties. UCF shall not issue any change order to the Contractor that has not been approved by both parties. UCF shall be responsible for the payment of all approved change orders requested by UCF pursuant to this subsection.

3. **City-Initiated Change Orders**. During the course of construction of the Renovations if the City requests a change order other than those change orders described in subsection 1 above which modifies the Plans approved by the City pursuant to subsection 8.B above, then the City shall provide to UCF a copy of the proposed change order for review and approval by UCF which approval shall not be unreasonably withheld, conditioned or delayed. UCF shall issue a change order to the Contractor for any such change that is approved by both parties. UCF shall not issue any change order to the Contractor that has not been approved by both parties. The City shall be responsible for the payment of all approved change orders requested by the City pursuant to this subsection.

E. Funding of Renovations.

1. **By CRA**. The estimated cost of the Renovations is $6,333,171.00 as detailed in the Scope of Work (Exhibit D). The CRA agrees to pay UCF Four Million Three Hundred Eighty Four Thousand Six Hundred and Three Dollars ($4,384,603.00; the "Redevelopment Funds") towards the cost of constructing the Renovations payable as provided below, which amount includes the CRA's funding of a portion of the design cost of the Renovations pursuant to the Funding Agreement for Professional Design Services Related to the Orlando Expo Centre Conversion effective September 29, 2004 between the CRA, UCF and the Foundation. The CRA shall disburse payments to UCF only after receipt of invoices and certification from UCF that the work for which payment is sought has been satisfactorily completed. UCF shall submit to the City's Public Works Director or his designee a single invoice each month, in a format mutually agreeable to the parties, incorporating the costs for construction of the Renovations incurred during the previous month. Such invoice shall be accompanied by copies of the invoices submitted to UCF by the Contractor which encompass UCF's invoice, and which clearly distinguish between costs of the Renovations and the costs of other improvements to the Leased Premises not included within the Scope of Work (Exhibit D). Each UCF invoice shall clearly document the work for which payment is sought. To receive payment, the construction must be performed in accordance with the City-approved Plans. Disbursement of the Redevelopment Funds will be made to UCF only after the City's approval of submitted invoices and verification of work completed in accordance with this Agreement. UCF shall provide to the City partial releases of lien from the Contractor, subcontractors, and suppliers for the portion of the work for which payment

is sought and UCF's performance of its obligations must be in compliance with the terms of this Agreement.

The CRA is providing the Redevelopment Funds to UCF for the express purpose of facilitating the redevelopment of the Expo Centre for the operation of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs, and the CRA's payment of such funds is contingent upon UCF's operation of the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs in substantial compliance with the Attendance Goals in Exhibit C, substantial compliance being defined as compliance with no less than 75 % of the Attendance Goals. If UCF fails to operate the Schools and, when necessary to achieve the Attendance Goals, other UCF instructional programs, in substantial compliance with the Attendance Goals for a period of two (2) consecutive years, then, the City and CRA may immediately terminate the Lease, and UCF shall be required to reimburse the CRA, pursuant to the following repayment schedule, a prorated portion of $1,169,846.00, which amount represents the portion of the Reimbursement Funds paid by the CRA to UCF for the tenant improvements directly benefiting the Schools:

(a) If UCF fails to operate the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs in substantial compliance with the Attendance Goals during the first five (5) years of the Term, then UCF shall reimburse the CRA an amount equal to 80% of the Reimbursement Funds;

(b) If UCF fails to operate the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs in substantial compliance with the Attendance Goals during years 5 through 10 of the Term, then UCF shall reimburse the CRA an amount equal to 60% of the Reimbursement Funds;

(c) If UCF fails to operate the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs in substantial compliance with the Attendance Goals during years 10 through 15 of the Term, then UCF shall reimburse the CRA an amount equal to 40% of the Reimbursement Funds;

(d) If UCF fails to operate the Schools and, when necessary to achieve Attendance Goals, other UCF instructional programs in substantial compliance with the Attendance Goals during years 15 through 20 of the Term, then UCF shall reimburse the CRA an amount equal to 20% of the Reimbursement Funds;

(e) After year 20 of the Term UCF shall have no further obligation to reimburse the CRA for any portion of the Reimbursement Funds.

2. By UCF. UCF shall pay One Million Nine Hundred Forty Eight Thousand Five Hundred and Sixty-Eight Dollars ($1,948,568.00) toward the costs of the Renovations.

3. **By City**. The City shall pay for the cost of permit and impact fees relating to the construction of the Renovations by means of credits, waivers, and/or direct payments.

F. **Retention.** UCF agrees that the CRA shall retain ten percent (10%) of each monthly invoice submitted for payment pursuant to subsection E above (the "Retention"). The Retention shall be withheld until the following conditions have been met:

(i) final completion and acceptance of the Renovations by the City;

(ii) City's receipt of the one-year warranty from the contractor;

(iii) Releases of liens from the Contractor, subcontractors and suppliers;

(iv) Receipt by the City of As-built drawings of the Renovations;

(v) Issuance of a Certificate of Occupancy for the renovated Expo Centre; and

(vi) UCF's full compliance with all the terms and conditions contained in this Agreement relating to the design and construction of the Renovations.

G. **Access and Inspections**. In addition to personnel of the City's Permitting and Code Enforcement Division and Public Works Department, the City and CRA may have inspectors on-site observing the performance of the construction. They shall have complete access to the construction site at all times. Any construction work discovered or observed to be defective by either the City, CRA, UCF or the Contractor, as applicable, which is defective or otherwise non-conforming to the requirements of the City-approved Plans shall be promptly removed by UCF, through the Contractor, and replaced with conforming work. City and CRA personnel shall not, however, during such visits to the site or as a result of such observations of the construction work, supervise, direct or have control over the construction work, nor shall they have authority or responsibility for the means, methods, techniques, sequences or procedures of construction, or for safety measures and programs incident to the construction.

H. **Copies**. UCF shall provide copies and/or make available at City Hall for inspection, as required by the City, Plans, schedules, correspondence, change orders, reports, field transmittals, job logs, shop drawings, samples, testing data and reports and any other design or construction documents requested by the City.

I. **Insurance**. UCF shall require the Contractor to provide and maintain the following insurance with minimum coverage as stated during the term of construction and including the one year warranty period:

a. General Liability $2,000,000

b. Automobile Liability	$ 500,000
c. Worker's Compensation	STATUTORY LIMIT

UCF shall require the Consultants who design the Renovations to provide and maintain professional liability insurance in the minimum amount of $1,000,000 during the term of design and construction including the one-year warranty period. UCF shall require the Contractor to include the City and CRA as an additional insured on the general liability and automobile liability insurance and to provide a waiver of subrogation in favor of the City on the worker's compensation insurance. The City and CRA shall be listed as a certificate holder and the insurance certificates shall provide that the insurance coverage shall not be cancelled without at least 30 days prior written notice having been given to the City and CRA.

J. **Payment and Performance Bonds**. Prior to beginning construction of the renovations, UCF shall require the Contractor to obtain Performance and Payment Bonds with the minimum penal amount of each bond equal to the construction cost of the Renovations work on bond forms reasonably acceptable to the City. The surety must be authorized to issue surety bonds in Florida and must be listed in the current United States Department of the Treasury's "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in the Federal Register. The City and UCF shall be listed as co-obligees on each bond. Since the Renovations are to be constructed upon public property, construction liens cannot be placed or filed upon the Leased Premises, and, if a claim of lien is filed, UCF shall take all actions necessary to remove the lien. The City shall not accept the Renovations, nor shall final payment by the CRA hereunder be made, until all such liens are removed.

K. **Final Inspection**. Upon completion of the construction of the Renovations, UCF shall conduct a final inspection with the Executive Director of the CRA and the Public Works Director of the City, or their respective designees. If the City and UCF both believe that all construction work is completed in conformance with the City-approved Plans, UCF shall submit a final completion certification to the City, accompanied by complete as-built drawings acceptable to the City Surveyor, a one year warranty from the Contractor on the labor and materials commencing upon the date of final completion and acceptance by City, and waivers and lien releases from OHA, the Contractor, subcontractors, and suppliers.

L. **Warranty**. UCF shall require the Contractor to provide a standard one-year warranty for the Renovations.

M. **No Waiver of Regulatory Authority**. UCF acknowledges that the City is the entity responsible for issuing building permits and certain other types of permits and performing inspections which will be required in connection with the construction of the Renovations, and further acknowledges that nothing in this Agreement constitutes or is intended to operate as a waiver of such regulatory authority.

N. **Books and Records**. UCF shall keep complete books and records, including, but not limited to all invoices, receipts, statements of costs and records of payment and other supporting records relating to the renovation of the Building in auditable form in accordance with generally accepted accounting principles for no less than five (5) years after the date payment of all cost by the CRA to UCF have been made as provide herein. The City and CRA shall have the right, at their own expense, to conduct an audit of the foregoing records during normal business hours at the office at UCF where the records are stored and maintained. If, as a result of any such audit, it is established that the CRA has overpaid or paid for items outside the Scope of Work, UCF shall forthwith refund the amount owing the CRA, with interest thereon at a rate of eight percent (8%) per annum from the date such amount was overpaid.

9. Transfer of Title to the Leased Premises to Foundation/Option to Purchase.

A. **Transfer of Title to the Leased Premises to Foundation.** Provided that UCF complies with all terms and conditions of this Lease Agreement, including but not limited to, the completion and City approval of the Renovations, and the operation of the Schools within the Leased Premises in substantial compliance with the Attendance Goals, the City shall transfer fee simple title to the Leased Premises to the Foundation after the Schools are operating at full capacity, but no earlier than March 1, 2007. The City shall transfer title via a Special Warranty Deed recorded in the public records of Orange County, Florida. Such deed shall contain a reverter clause that requires that the property transferred be used for educational purposes or title to the property reverts to the City. At such time as title to the Leased Premises is transferred to the Foundation, this Lease Agreement shall automatically terminate and the parties shall be released of their obligations hereunder.

B. **Option to Purchase.** At any time prior to the City's transfer of title to the Leased Premises to the Foundation as provided in subsection A above, the Foundation shall have the option to purchase the Leased Premises from the City at a price mutually agreed to by the parties, and the Foundation may exercise such option by giving written notice of such exercise to the City (the "Notice of Exercise"). The City shall transfer title via a Special Warranty Deed recorded in the public records of Orange County, Florida. Such deed shall contain a reverter clause that requires that the property transferred be used for educational purposes or title to the property reverts to the City. At such time as title to the Leased Premises is transferred to the Foundation, this Lease Agreement shall automatically terminate and the parties shall be released of their obligations hereunder. Notwithstanding the foregoing sentence, UCF and the Foundation acknowledge the City's intent to lease Hall #200 and 300 to Expo Hotel Associates, Ltd., its successors or assigns, or other third party until such time as Hall #200 and #300 become part of the Leased Premises on March 1, 2007 pursuant to the Lease Schedule. Therefore, if the Foundation purchases the Leased Premises prior to March 1, 2007, then such purchase shall be subject to any then existing lease, license or similar agreement for the use of Hall #200 and 300. The term of any such lease, license, etc. shall expire on February 28,

2007, and the Foundation and UCF shall honor such lease, license, etc. up to such termination date. This provision shall survive the termination of this Lease Agreement.

10. Personal Property, Furniture and Equipment. In addition to the Renovations, UCF shall also furnish and install, at its sole cost and expense, any personal property, furniture and equipment reasonably necessary for the operation of the Schools (the "PPF & E"). UCF shall keep the PPF & E in good condition and repair, normal wear and tear excepted. The PPF & E shall remain the property of UCF during the term of the Lease. If the Lease expires or is terminated prior to UCF taking title to the Leased Premises as provided in section 9 above, UCF shall remove the PPF & E from the Leased Premises and shall repair any damage to the Leased Premises resulting from such removal. Any PPF & E not removed within thirty (30) days after UCF's receipt of a written request from the City to remove such PPF & E, shall be considered abandoned and automatically become the property of the CITY.

11. Repairs and Maintenance.

A. **By City**. For the period of time from the Lease Commencement Date to the earlier of March 1, 2007 or the Foundation's ownership of the Leased Premises, (the "City Maintenance Period"), the CITY, at its sole cost and expense, shall be responsible for the repair and maintenance of (i) the exterior walls, roof, and foundation, of the Building; and (ii) those portions of the Building not part of the Leased Premises according to the Lease Schedule. All items that the City is required to maintain and repair shall be maintained and repaired in a good, safe and sanitary condition during the City Maintenance Period, normal wear and tear excepted.

B. **By UCF**. During the City Maintenance Period, UCF, at its sole cost and expense, shall be responsible for the cost of repair and maintenance of the interior of the Leased Premises. At the end of the City Maintenance Period any and all repairs and maintenance of the interior and exterior of the Leased Premises shall be performed by UCF at its sole cost and expense. . All items that UCF is required to maintain and repair shall be maintained and repaired in a good, safe and sanitary condition throughout the term of the Lease, normal wear and tear excepted.

C. **Common Area Maintenance (CAM) Expenses.** During the City Maintenance Period, the City shall maintain and repair the Common Areas, plumbing, HVAC, electrical, doors, windows, plate glass, carpet, fixtures, fire extinguishers, sprinkler systems, exterior grounds and landscaping, and exterior and Common Area lighting. In addition, the City will provide or arrange for refuse collection, security, janitorial service to the Common Areas, utilities to the Common Areas, and pest control (except within UCF's food service areas). UCF shall reimburse the City a percentage of the cost of the services enumerated in this subsection based upon the ratio of the square footage of the Leased Premises compared to the gross leaseable area of the Building. To the extent that UCF receives Plant, Operations and Maintenance funds from the legislature for the Leased Premises, such funds shall be the first source of payment for the items described herein.

D. City Inspection. During the Lease term, the City shall be entitled to inspect the Leased Premises and Renovations twice per year and provide UCF with a written list of items requiring repair by UCF. UCF shall have thirty (30) days from its receipt of the list to repair all items on the list, unless the nature of such repair is such that it cannot be accomplished within 30 days, in which case UCF shall be allowed a reasonable period of time to make such repairs, provided UCF promptly and diligently pursues such repairs. The failure of UCF to repair the items within such time period shall be a breach of this Lease. The failure of the City to provide a list of repairs to UCF shall not relieve UCF of its maintenance and repair obligations.

12. Utilities. UCF shall be responsible for the cost of utilities for the Leased Premises. The cost of utilities for the Common Areas shall be jointly paid by the City and UCF as CAM expenses pursuant to section 11.C above.

13. Janitorial Service. UCF, at its sole cost and expense, shall provide janitorial service to the Leased Premises. During the City Maintenance Period the City shall provide janitorial service to the Common Areas, the cost of which shall be jointly paid by the City and UCF as CAM expenses pursuant to section 11.C above.

14. Pest Control. If UCF establishes food service at the Leased Premises, UCF, at its sole expense, shall engage exterminators to control vermin and pests on a monthly basis in all areas where food is prepared, dispensed or stored and in all areas where trash is collected and deliveries are made.

15. Grease Traps and Recycling. If UCF establishes food service at the Leased Premises, UCF shall comply with the CITY's Oil and Grease Management Program per section 30.15 of the Orlando City Code (Code). UCF shall be responsible for the professional removal of grease to avoid spillage and for grease recycling of shortening. Grease Traps shall be provided and pumped in compliance with section 30.15 of the Code.

16. Signage. UCF may install appropriate signage to identify the Schools. All signage is subject to the sign regulations of the CITY and the Downtown Development Board (DDB) (if applicable). Since the Leased Premises is public property owned by the City, political campaign signs are prohibited on the Leased Premises pursuant to section 64.252.

17. Exclusive Use. UCF shall be entitled to exclusive possession and enjoyment of the Leased Premises, subject to the terms described herein.

18. Living Wage. During construction of the Renovations, UCF shall pay to all of its employees, Contractors and Consultants providing construction-related services to the Renovations, a living wage for the time spent providing such services (this provision does not include general administrative personnel). "Living wage" means compensation for employment of not less than $8.50 per hour for straight time, exclusive of FICA,

unemployment taxes, and workers compensation insurance and employee benefits. Necessary payroll documentation shall be provided to confirm compliance with this provision or UCF shall allow the City to audit (at their place of business) its payroll records to determine if compliance has been achieved.

19. MBE/WBE Participation. To the extent allowed by Florida law, UCF shall use its best efforts to encourage its Contractor and Consultants to meet the City's minimum goals for participation of City-certified minority business enterprises ("MBEs") and City-certified women business enterprises ("WBEs") in the design and construction of the Renovations in accordance with Articles II and III of Chapter 57 of the Orlando City Code. The City encourages UCF and its Contractor and Consultants to exceed the minimum MBE/WBE goals referenced above, and the City will assist in such effort to exceed the goals. UCF shall require its Contractor and Consultants to submit quarterly reports in a format acceptable to the City and the MBE/WBE Department, documenting MBE/WBE firms used, their scopes of work, dollar value of contracts, work performed to date, and dollar amounts paid to date. The initial report shall be submitted to the City's MBE Director within forty-five (45) days of the Effective Date.

At the City's sole risk and expense, a City MBE/WBE Compliance Officer may visit the job site and may interview firms and employees in order to observe and document participation by MBE/WBE firms and minority and women employees.

20. Termination. This Lease Agreement may be terminated:

A. By UCF if the City fails to perform any of its obligations under this Lease, and does not remedy the failure within thirty (30) calendar days after receipt by the City of written demand from the UCF to do so;

B. By the City or CRA if UCF fails to perform any of its obligations under this Lease, and does not remedy the failure within thirty (30) calendar days after receipt by UCF of written demand from the City to do so;

If the Lease expires or is terminated prior to the City's transfer of fee simple title to UCF as provided in section 9 above, then UCF shall peacefully deliver up to the City possession of the Leased Premises together with the Building and other improvements thereon, in good condition and state of repair, reasonable wear and tear excepted, which Building and other improvements shall become the property of the City.

21. Indemnification.

A. UCF's Indemnification of City. To the extent provided by Florida law, UCF hereby agrees to indemnify, defend and hold harmless without limit the City, its' officers, agents, employees, and elected and appointed officials, from and against any and all liability, claims, demands, damages, fines, fees, expenses, penalties, suits, proceedings, actions and cost of actions, including reasonable attorney's fees before and at trial and on appeal, of any kind and nature arising or growing out of or in any way

connected with UCF's use of the Leased Premises, operation of the Schools, construction of the Renovations, or performance of this Lease, caused by, resulting from or arising out of any act or omission of UCF, it's agents, or employees.

B. City's Indemnification of UCF. To the extent provided by Florida law, the City hereby agrees to indemnify, defend and hold harmless UCF, its' officers, agents, and employees, from and against any and all liability, claims, demands, damages, fines, fees, expenses, penalties, suits, proceedings, actions and cost of actions, including reasonable attorney's fees before and at trial and on appeal, of any kind and nature arising or growing out of or in any way connected with the City's failure to comply with its obligations under this Lease caused by, resulting from or arising out of any act or omission of City.

22. Insurance

A. UCF, at its own expense, shall keep in force and at all times maintain State Self Insurance as provided by law and shall provide City with a statement of insurance evidencing such self insurance.

B. During the City Maintenance Period, the City shall provide property/casualty insurance for the full value of the Building through its self-insurance program and shall provide UCF with a statement of insurance evidencing such insurance.

23. Compliance With Laws

A. UCF shall comply with all applicable present and future federal, state, and local laws, ordinances, rules, and regulations relating to the its use and maintenance of the Leased Premises, the operation of the Schools, and the design and construction of the Renovations pursuant to this Lease, including, but not limited to, the Florida Building Code (FBC), and the Americans With Disabilities Act (ADA). The payment of any penalties or fines arising out of or in any way connected with the violation of, or non-compliance with, the foregoing shall be UCF's responsibility.

B. The City shall comply with all applicable laws, rules and regulations imposed upon it as the owner of the Leased Premises.

C. UCF shall obtain all certificates, permits, and other approvals that may be required by any federal, state, or local authority for the operation of the Schools and the construction of the Renovations. The payment of any penalties or fines arising out of or in any way connected with the violation of, or non-compliance with, the foregoing shall be UCF's responsibility.

24. Taxes and Assessments. The payment of all applicable real estate and personal property taxes relating to the portion of the Building that are part of the Leased Premises according to the Lease Schedule, including any taxes on the Leasehold, improvements and PPF&E, shall be the sole responsibility of UCF, subject to any

exemptions or immunity from the payment of such taxes under Florida Law. The City shall be responsible for the payment of the annual City Stormwater Utility Fee imposed upon the Leased Premises during the City Maintenance Period.

25. Damage or Destruction of Leased Premises. If the Leased Premises or any portion thereof are destroyed or damaged the City shall immediately take such action as is necessary to assure that the Leased Premises (or any portion thereof) do not constitute a nuisance or otherwise present a health or safety hazard. If the destruction or damage is such that it materially hinders effective use of the Leased Premises as a School, then UCF may elect to either (1) require the City to repair or reconstruct the Leased Premises using the insurance proceeds of the City's self-insurance if the damage is a covered loss, or (2) repair or reconstruct the Leased Premises using the insurance proceeds of UCF's self-insurance or at UCF's sole cost and expense if the damage is not covered by the City's self-insurance, or (2) terminate this Lease by giving thirty (30) days written notice to the City.

In the event that UCF elects to terminate the Lease, then UCF shall promptly remove the PPF&E from the Leased Premises and vacate the Leased Premises. If UCF chooses terminate the lease, then the CITY, as the named insured, shall retain any insurance proceeds payable as a result of such damage or destruction under policies required by section 20 of this Lease. After the first twenty (20) year term, the City shall have no obligation to reconstruct or repair damage to the Leased Premises

26. Condemnation.

A. Total Condemnation. If all of the Leased Premises, and the improvements located thereon, are taken by the exercise of the power of eminent domain, this Lease shall terminate as of the date the condemnor takes possession, and all payments due pursuant to the provision of this Lease shall be prorated accordingly. The entire compensation award attributable to the Leased Premises taken shall belong to the Landlord. UCF shall have the right to claim and recover from the condemning authority, such compensation as may be separately awarded or recoverable by UCF in UCF's own right on account of any and all damage to UCF's business by reason of any condemnation and for or on account of any cost or loss to which UCF might be put in removing or relocating UCF's business, PPF & E.

B. Partial Condemnation. If more than twenty-five percent (25%) of the Leased Premises at the time, are taken by the exercise of the power of eminent domain (herein referred to as "**Partial Condemnation**"), UCF shall have the right to terminate this Lease if the remaining portion of the Leased Premises not condemned (including the improvements located thereon) are such that their continued use for the purpose for which the same were being used immediately prior to such taking is reasonably impractical or economically imprudent. The option to terminate herein granted shall be exercised in writing by UCF within sixty (60) days after UCF shall have received written notice of the date of the taking of possession by the applicable condemning authority. Termination shall be effective on the date of the taking. Upon termination, all payments due pursuant to the provisions of this Lease shall be prorated accordingly. The entire

compensation award attributable to the Leased Premises taken shall belong to the Landlord. UCF shall have the right to claim and recover from the condemning authority, such compensation as may be separately awarded or recoverable by UCF in UCF's own right on account of any and all damage to UCF's business by reason of any condemnation and for or on account of any cost or loss to which UCF might be put in removing or relocating UCF's business, PPF & E.

C. **Cooperation in Making Claims**. The City and UCF shall, in connection with any eminent domain proceedings, cooperate in making all claims for damages and bringing suit or action.

27. Advertising and Promotion. UCF and City shall not use the other's name or logo in advertising or promoting the Schools without the other's prior, written consent

28. Mortgage By UCF.

A. **Mortgage**. UCF may, provided that UCF is not then in default hereunder, execute a leasehold mortgage upon UCF's interest in the Leased Premises pursuant to this Lease through an institutional lender (Lender) as security for the payment of a note, and any renewal or extensions thereof, or substitution of lenders or refinancing, to be executed by UCF upon the following terms and conditions:

(i) the CITY shall not be obligated for the payment of any such loan or any part thereof.

(ii) the note and mortgage shall provide that in the event of any default as to the terms and provisions of the note and mortgage which would permit the Lender to accelerate the loan balance, the Lender shall be obligated to give the CITY written notice of such default at least ten (10) days prior to any action to foreclose against the mortgage.

(iii) the proceeds of the loan shall be used solely to pay for development and construction costs, loan expenses and other related costs with respect to the Renovations or other improvements to be made upon the Leased Premises.

B. **Notice and Right to Cure**. The City shall give simultaneous written notice to Lender of any default by UCF under this Lease and shall give the Lender the same period of time to cure the default as is granted to UCF under the Lease. All notices to Lender shall be sent in the same manner as required by section 31 below to such address as the Lender may designate in writing to the City. If the Lender forecloses its mortgage and acquires UCF interest in the Leased Premises, then the Lender shall become "UCF" under the Lease. Nothing contained herein shall obligate the Lender to cure any default of UCF.

29. Estoppel Certificate. Either party shall at any time and from time to time upon not less than ten (10) days prior request by the other party deliver to the requesting party a statement in writing certifying whether (a) the Lease is in full force or has been

36. No Partnership or Joint Venture. Nothing contained in this Agreement shall constitute or be construed to be or create a partnership or joint venture between the CITY and UCF.

37. Non-Waiver; Remedies Cumulative. Failure of either party to complain of any act or omission on the part of the other party, no matter how long the same may continue, shall not be deemed to be a waiver by said party of any of its rights hereunder. No waiver by either party of any breach of any provision of this Lease shall be deemed a waiver of a breach of any other provision of this Lease or a consent to any subsequent breach of the same or any other provision. If any action by either party shall require the consent or approval of the other party, the other party's consent to or approval of such action on any one occasion shall not be deemed a consent to or approval of said action on any subsequent occasion or consent to or approval of any other action on the same or any subsequent occasion. Any and all rights and remedies which either party may have under this Lease or by operation of law, either at law or in equity upon any breach, shall be distinct, separate and cumulative and shall not be deemed inconsistent with each other; and no one of them, whether exercised by said party or not, shall be deemed to be in exclusion of any other, and any two or more or all of such rights and remedies may be exercised at the same time.

38. Construction of Language. The language in all parts of this Lease shall in all cases be construed as a whole according to its fair meaning. Each party has participated extensively in the negotiations concerning and drafting of this Lease, and each has been represented by legal counsel.

39. Business Day. Should any due date hereunder fall on a Saturday, Sunday or legal holiday, then such due date shall be the first business day following such Saturday, Sunday or legal holiday.

40. Commission. The City, CRA, and UCF represent and warrant to each other that neither party has engaged, employed nor dealt with any broker in connection with this Lease.

41. Miscellaneous.

A. The CITY and UCF represent that each, respectively, has full right, power, and authority to execute this Lease.

B. This Lease constitutes the entire agreement and understanding of the parties and supersedes all offers, negotiations, and other agreements of any kind. There are no representations or understandings of any kind not set forth herein

C. This Lease shall be construed in accordance with the laws of the State of Florida. The location for the settlement of any disputes arising out of this Lease shall be Orange County, Florida.

D. If any term of this Lease is found to be void or invalid, such invalidity shall not effect the remaining terms of this Lease, which shall continue in full force and effect.

E. This Lease may be amended or modified at any time during the term of the Lease by the mutual, written agreement of the parties.

F. Time is of the essence with respect to all provisions of this Lease, including the performance of all obligations of the parties provided for herein.

This Lease has been executed by the parties as of the date set forth above.

UCF Downtown Proposal for Florida Board of Governors

Appendix C

Valencia College Letter of Support

VALENCIA COLLEGE

January 27, 2015

John Hitt, Ph.D.
President
University of Central Florida
4000 Central Florida Boulevard
Orlando, FL 32816

Dear John:

I would like to provide a brief update on Valencia's planning for the partnership campus in downtown Orlando.

First, we are delighted to be partnered with you in this important work and especially take to heart the responsibility to bring services to residents already in and near the proposed site.

We are planning with your team to provide the bulk of the lower division and general education coursework and the services that wrap around them, although we recognize there may be baccalaureate programs where it will be appropriate for UCF to offer a course in the major even at the sophomore level. Together, we will build advising, registration, and other "intake" services that will present a single system interface to the students.

Signature programs in planning for relocation to the downtown site include computer graphics and interactive design and the Walt Disney World Center for Hospitality and Culinary arts, comprising a suite of majors related to hospitality management and, obviously, high level culinary training. Slightly more than 2,000 students are currently enrolled in these programs. Additionally, while not relocating them, we plan to expand programming in arts and entertainment to the site, including film technology, music recording technology, etc.

Our short- and long-term programmatic plans for the downtown site do not duplicate academic programs planned to be offered by UCF. We will continue our longstanding commitment to offer complementary programs that complete high-demand academic and workforce pathways in Central Florida and to extend residents a broader on ramp to high education.

All of these decisions have been vetted with Valencia's Board of Trustees, and the college already has approval for a downtown campus from the State Board of Education going back many years – the authority under which our Downtown Center operated on the corner of Orange Avenue and Church Street.

Valencia College
Post Office Box 3028
Orlando, FL 32802-3028
407 299 5000
valenciacollege.edu

Please know that Valencia will continue to work vigorously in partnership with the university to fulfill the vision of this important investment in the future of Orlando.

Yours truly,

Sanford C. Shugart, Ph.D.
President

COLLEGES & CAMPUS NEWS

UCF's Top Stories of 2014

BY GENE KRUCKEMYER '73 | DECEMBER 23, 2014

UCF's Cyber Defense Team at the Raytheon National Collegiate Cyber Defense Competition.

From announcing a new downtown campus, to pursuing a smart-sensors research center, to winning a major bowl game and whipping up an engineering miracle for a 6-year-old boy born without one of his arms, UCF has been in the headlines all year.

Here's a look at 10 of the year's top stories for the nation's second-largest university:

Downtown campus

President John C. Hitt announced in September that UCF and Valencia College will build a joint downtown campus for 10,000 to 13,000 students. The university is seeking state funding and working with the City of Orlando and other partners to develop the campus on 68 acres adjacent to Interstate 4 and the Parramore Community. No decisions have been made about which programs would move downtown to complement the community and provide opportunities for students. One new academic program to be developed will be for students with disabilities to allow them to attend classes and participate fully in college life. https://www.ucf.edu/news/game-changer-ucf-pursue-expansion-downtown-orlando/

A new arm

A group of students led by engineering doctoral student Albert Manero used their free time to design and build an arm for Alex Pring, 6, of Groveland, who was born with one arm. The team uploaded the design, which cost under $350 to make on a 3-D printer, to the Internet so anyone can download the blueprints and help others. https://www.ucf.edu/news/fulfilling-6-year-olds-dream-ucf-students-design-build-arm/

Cyber defense

UCF's Cyber Defense Team won the Raytheon National Collegiate Cyber Defense Competition in April. The challenge, sponsored in part by the U.S. Department of Homeland Security, included teams from the Air Force Academy, University of California and Rochester Institute of Technology. The national champs met Vice President Joe Biden at the White House as part of their victory trip. https://www.ucf.edu/news/cyber-defense-team-takes-first-nation-victory-photo-displayed-times-square/

Top inventor

Optics researcher S.T. Wu was inaugurated into the Florida Inventors Hall of Fame for his work advancing liquid-crystal displays. He holds more than 80 patents on devices used in computer monitors, smart phones and TV screens. The hall's six inaugural inductees included Thomas Edison, air conditioning pioneer John Gorrie and Gatorade inventor Robert Cade. https://www.ucf.edu/news/ucf-inventor-lcd-technologies-named-new-florida-inventors-hall-fame/

New hires

UCF has started a hiring drive to add 200 faculty members by the end of next year. One hundred of the hires will fill new positions; the others will fill vacancies. The hires are being made in every college, with emphasis in STEM and programs that are in high student demand. https://www.ucf.edu/news/presidents-faculty-welcome-salary-increases-new-hires/

Top-notch students

More National Merit Scholars chose to attend UCF than another other Florida university this year. The university's overall enrollment of National Merit Scholars is 275 – 28 more than last year. Incoming freshmen also set UCF records, with average SAT scores of 1256 and an average GPA of 3.91. https://www.ucf.edu/news/ucf-students-start-new-year/

Winning student-athletes

Not only did the Knights football team win the 2014 Fiesta Bowl and back-to-back American Athletic Conference championships, the team's graduation rate ranks No. 3 among public universities in the nation. In all sports, UCF's student-athlete graduation rate is the nation's best among public schools. https://www.ucf.edu/news/ncaa-graduation-rate-ucf-1-among-public-institutions/

Low-income and first-generation students

UCF this year helped create the national University Innovation Alliance, a coalition to help low-income and first generation students attain an affordable college degree. Ten other universities joined the partnership, including Arizona State, Ohio State and Michigan State. The alliance received a $5.7 million grant from the Ford, Gates, Kresge, Lumina, Markle and USA Funds foundations. https://www.ucf.edu/news/ucf-ohio-state-texas-among-11-schools-developing-national-playbook-higher-ed/

Metropolitan consortium

UCF, University of South Florida, and Florida International University – which together serve 63 percent of the state's population – formed the Florida Consortium of Metropolitan Research Universities to leverage resources. The group's goal is to work together to improve graduation rates and increase the number of graduates employed in the state. https://www.ucf.edu/news/state-rewards-ucf-usf-fiu-collaboration-8-5-million-grants/

Smart sensors

UCF joined with Osceola County, Florida High Tech Corridor Council, Orlando Economic Development Commission, and the State of Florida to develop a smart sensor research and manufacturing center. Analysts predict the industry could top $1 trillion in the near future for the products that help computers run faster, improve air-travel safety, detect cancer sooner and provide other benefits. The center is expected to be open in 2017. https://www.ucf.edu/news/new-smart-sensors-research-partnership-aims-boost-florida-growing-industry/

Minutes
Board of Trustees Meeting
University of Central Florida
January 29, 2015

Chair Olga Calvet called the meeting of the Board of Trustees to order at 1:00 p.m. in the Fairwinds Alumni Center on the UCF Orlando campus.

The following board members attended the meeting: Chair Olga Calvet, Weston Bayes, Clarence Brown, Richard Crotty, Robert Garvy, Ray Gilley, Marcos Marchena, Alex Martins, Reid Oetjen, and John Sprouls. Trustee Jim Atchison attended via teleconference call.

WELCOME

Calvet reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

She welcomed the board members and called on Rick Schell, Associate Corporate Secretary, to call the roll. Schell noted that a quorum was present.

Calvet welcomed public comment from William Shaffner, Director of Business Development & Government Relations at the Missouri Higher Education Loan Authority, and Christine Wydra, an alumna of UCF.

Calvet called for approval of the November 20, 2014, board meeting minutes, which were approved.

Calvet called on John C. Hitt for remarks and introductions.

REMARKS

President Trevor Colbourn

Hitt announced that UCF's second president, Trevor Colbourn, died earlier this month. Hitt stated that Dr. Colbourn was a trailblazer who left behind an enduring legacy of service to UCF and to Central Florida. Hitt extended condolences to Beryl, Dr. Colburn's wife of 66 years, and to his family. Hitt announced services were scheduled for Monday, February 2, 2015, at 2:30 p.m., at the All Saints Episcopal Church in Winter Park.

Carnegie Community Engagement Classification

Hitt announced that UCF has earned the 2015 Carnegie Community Engagement Classification, which is based upon the extent and depth of our engagement with local, national, and global communities.

UCF was the first university in the State University System to receive full classification in 2006, and it is one of six universities in the Florida system to be designated a "community-engaged institution" and one of only twenty-five public universities in the nation designated both a "very high research" university and "a community engaged institution" by the Carnegie Foundation. Hitt referred the board members to their FYI materials for a copy of the application for reclassification and suggested they share these examples with legislators, donors, and friends. Hitt reported that Beth Barnes, Vice President *Emerita* and Special Assistant to the President, chaired the team of faculty members and administrators who completed the Carnegie application. Hitt thanked Barnes and those team members who were present.

Hitt referred the board members to the Board of Governors' 2013-14 System Accountability Report included in their meeting materials, and he asked that they review the report at their convenience.

INTRODUCTIONS

Hitt congratulated the following staff members.

A. Employee of the Month

The Employee of the Month for October was Michael McCombes, a computer specialist with Regional Campuses.

The Employee of the Month for November was Fran Ragsdale, a program assistant in the UCF Center for Success of Women Faculty.

The Employee of the Month for December was Coral Rojas, a program assistant for Academic Affairs.

REPORTS

Hitt announced that Trustee *Emerita* Dr. Phyllis Klock previously chaired the committee that prepared a report on the UCF Presidential Selection Plan, a policy which had been in place for several years. Calvet stated that the plan was acknowledged by the Association of Governing Boards as being a national model for such policies. Calvet called on Klock to provide her report.

Klock gave a report on the UCF Presidential Selection Plan Report and she reminded the board of the need to update it annually.

Dale Whittaker, Provost and Vice President, presented a report on UCF Downtown.

Schell noted that the proposal form for UCF Downtown requires support letters from the community and business interests. He welcomed the board to submit support letters to him by February 10, 2015.

CONSENT AGENDA

A motion was made to accept the consent agenda, and members of the board unanimously approved the following action.

- FF-1 2014-15 UCF Convocation Corporation Amended Budget—Approval of the amended 2014-15 operating budget for the UCF Convocation Corporation.

ADVANCEMENT COMMITTEE REPORT

Rich Crotty, Chair of the Advancement Committee, reported the highlights from the committee meeting held earlier in the day.

- Dan Holsenbeck, Vice President for University Relations, presented a summary of the Governor's current budget recommendations relative to higher education. Holsenbeck indicated that the Board of Governors was scheduled to meet on February 19, 2015, for a special session to discuss university requests, including the UCF Downtown proposal.
- Robert Holmes, Vice President for Alumni Relations and Development and Foundation CEO, gave a fundraising update and reported that the Foundation exceeded the December 31, 2014, campaign milestone, and he advised that UCF had secured an additional $40 million in commitments for the first half of the fiscal year. Holmes announced that the Alumni Association hosted a "Share the Knight" event in Naples, where Hitt, members of the Alumni Board, Foundation Board, and staff engaged with UCF Alumni to discuss the university and ask for their support of UCF Downtown. Holmes reminded the committee of the March 20, 2015, joint workshop between the board of trustees and the Foundation board.
- Grant Heston, Vice President for Communications and Marketing, introduced Patrick Burt, Interim Associate Vice President for Marketing and Communications, who gave a presentation about including the name of the city of Orlando in the UCF branding and marketing campaigns.
- Heston reported that parking revenue collected from parking Garage H on UCF game days exceeded $130,000 this past football season and $400,000 total since the program started. These donations were contributed to the First Generation Scholarship Fund.

AUDIT, OPERATIONS REVIEW, COMPLIANCE, AND ETHICS COMMITTEE REPORT

Jim Atchison, Chair of the Audit, Operations Review, Compliance, and Ethics Committee, reported the highlights of the committee meeting held earlier in the day.

- Robert Taft, Chief Audit Executive, provided an update on completion of the Board of Governors' Performance-Based Funding Data Certification Report. He acknowledged Kathy Mitchell, Associate Director of University Audit, and Chaynae Price, Senior Auditor of University Audit, for spearheading the work of the audit report. He also acknowledged Paige Borden, Assistant Vice President for Institutional Knowledge Management, and her team for providing support in completing the audit.

- Taft gave updates on external audits and future audit plans.
- Rhonda L. Bishop, Chief Compliance and Ethics Officer, gave an update on the university's conflict of interest and outside activities disclosure process.
- She reported that on October 16-17, 2014, the U.S. Department of State visited UCF for inspection of its export control program. During the exit meeting, the Department of State noted that they would be using UCF's program as a model as they review other export control programs around the country.
- Bishop gave an update on the State University System Compliance Consortium program, which was started in 2013.
- Bishop provided an athletics compliance program update.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Robert Garvy, Chair of the Educational Programs Committee, reported the highlights from the committee meeting held earlier in the day.

- Dale Whittaker, Provost and Vice President for Academic Affairs, gave a presentation on a proposal to establish a New Type I Campus in downtown Orlando, and he recommended its approval.

  Garvy presented the following item for board approval.

  EP-1 Proposal to Establish a New Type I Campus—A motion was made and unanimously passed by the board approving the proposal to establish a New Type I Campus.

- Whittaker reviewed the success of the initiative to hire 100 new faculty members. To complement this initiative, the university has launched a national media campaign with the goals of recruiting faculty candidates and promoting the university.
- Paige Borden, Assistant Vice President for Institutional Knowledge Management, presented data about the percentage of undergraduate student credit hours taught by instructor type. She also provided data about the university's student to faculty ratio.

FINANCE AND FACILITIES COMMITTEE REPORT

Marcos Marchena, Chair of the Finance and Facilities Committee, reported highlights from the committee meeting held on December 3, 2014, and earlier in the day.

He noted the item approved in the consent agenda, and he presented the following item for board approval.

- FF-2 UCF Convocation Corporation Transfer of Funds to the Golden Knights Corporation—A motion was made and unanimously passed by the board approving the UCF Convocation Corporation transfer of funds to the Golden Knights Corporation.

- William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, reported on the UCF Convocation Corporation transfer of funds to the Golden Knights Corporation. He announced that the purpose of the transfer was to fund the construction of the East Side Club.

ANNOUNCEMENTS AND ADJOURNMENT

Chair Calvet announced the following upcoming meetings:

Board of Governors meetings	February 19, 2015 (Tallahassee Community College)
	March 18-19, 2015 (Florida A&M University)
UCF Foundation Retreat	March 20, 2015 (NorthView Student Housing)
Board of Trustees meeting	March 26, 2015 (FAIRWINDS Alumni Center)
AGB National Conference on Trusteeship	April 19-21, 2015 (Arizona Biltmore, Phoenix, AZ)

Calvet advised that the tour of the College of Engineering and Computer Science labs would immediately follow the meeting.

Calvet adjourned the board meeting at 1:57 p.m.

Respectfully submitted: _____ Date: _____

Mayor Dyer working to get state funding for soccer stadium, UCF downtown campus

By News 13 Florida | Orange County
PUBLISHED February 17, 2015 @11:00 AM

SHARE

Orlando Mayor Buddy Dyer is headed to Tallahassee as part of the 2015 Florida Legislative session. Dyer is hoping to advance the City of Orlando's priorities, including securing state funding for the new MLS soccer stadium and funding for UCF's downtown campus.

Leaders said they need $30 million in order to complete the stadium project as intended.

The Mayor's Office says that if Dyer and his team don't secure the funding for the stadium that they're seeking, the project may have to be scaled back.

Last year, professional sports organizations in Florida submitted proposals asking for taxpayer money. They had to show the economic impact their project would bring to the region, citing facets from job creation to utilization of local companies for construction.

The NFL's Jacksonville Jaguars and Miami Dolphins and the Daytona International Speedway all asked for expansion money. Orlando City Soccer was the only new franchise to request funding.

When economists ranked their proposals, Orlando City Soccer came in first among the applicants.

“We have done economic studies that show for every dollar that the state government is going to invest, there will be a dollar and a half return from activities associated with the stadium," said Dyer of the project. "The city, the team itself and the counties are funding partners.”

Dyer told News 13 that he's confident that they will secure the necessary funding to complete the stadium.

“We have gone through the process that they set up last year. We were ranked number one among the applicants, so we feel like we’ve touched every base, and that we ought to be in good shape with the legislative budget committee.”

Orlando's Mayor is also lobbying for the new UCF and Valencia College shared campus in downtown Orlando. Project leaders are considering the Creative Village area of Downtown, situated on the former Amway Arena site; 68 acres were freed up when the Orlando Magic moved its arena.

The proposed campus is estimated to cost just over $200 million, and would be funded over multiple years.

While Mayor Dyer is focused on getting the money for these major projects this week, it will be up to the legislature to decide if they’ll grant the money in the upcoming session.

UCF may have tough time getting state funds for downtown Orlando campus

UCF wants to open its downtown Orlando campus in 2017.

Construction
Topic

The University of Central Florida wants $57.8 million in state funding to kick-start its 600,000-square-foot campus in downtown Orlando, but it may have a tough time getting the

to the state Legislature in spring. But because there is less cash this time designated by the state to pay for school construction and the fact that UCF's downtown campus is viewed as an economic development project rather than a traditional learning facility, the project is being pushed down the long list of campus construction projects, the Orlando Sentinel reports.

UCF, which announced earlier this year that it will officially become part of downtown Orlando's tech hub in the making, Creative Village, has said it would cost $200 million to complete its downtown Orlando campus by 2017. The campus would bring 10,000 students to the downtown area.

For more on this story, check out the Orlando Sentinel.

Scott's budget vetoes include $15M for UCF's downtown campus project

Updated: Jun 23, 2015 - 3:25 PM

TALLAHASSEE - Florida Gov. Rick Scott signed a new state budget into law on Tuesday, but not before vetoing nearly $500 million from the spending plan.

Scott vetoed $15 million that was earmarked for the University of Central Florida's downtown Orlando campus project.

Scott signed the roughly $78 billion budget in his office on Tuesday. State government would have been partially shut down if a new budget had not been in place by July 1.

PDF: List of Scott's vetoes

The money was earmarked for designing and planning the new UCF downtown campus, which already has a location a few blocks from the Amway Center.

UCF has been looking to expand its footprint and attract more high-tech students. The downtown campus would have incorporated urban living, while focusing on cutting-edge career fields.

In a veto statement, Scott said he cut the project because it didn't go through the Board of Governors, the state board that is in charge of universities.

"We want to make sure the investment that the state makes is a good investment and is good for our students and is good for the taxpayers," Chairman Mori Hosseini previously said.

The board in February unanimously approved the first steps of the plan, but not the entire $15 million, which would have come in September.

Instead, the governor cut it.

http://twitter.com/CHeathWFTV/status/613354813129125888

Orlando Mayor Buddy Dyer said he had no knowledge of Scott's plans.

"Well, obviously it's disappointing. That's probably the biggest catalyst project for our downtown viability. We project 4,000 jobs there, so it's extremely disappointing," said Dyer.

The Republican governor noted that legislators had increased money for public schools and services for the disabled and set aside money for tax cuts.

Scott also used his line-item veto power to ax $461.4 million in spending from the budget. It is believed to be a record amount for budget vetoes.

Provost's Update: The Future of UCF Downtown

Earlier today, Florida Governor Rick Scott vetoed nearly $500 million from the state budget. Included in those vetoes were funds for several UCF projects, including UCF Downtown.

While we are disappointed, we are not giving up. And we're thankful for the groundswell of support from local and state leaders who remain confident in our plans to build this campus.

Together with Valencia College and the City of Orlando, we will determine our next steps, then share them in the next several weeks.

With our partners — and the 150-plus members of our UCF Downtown Task Force — we have planned a campus that will provide our community access to first-class education, prepare our workforce of tomorrow and invest in the transformational future of our city and the Parramore community.

Today, Gov. Scott also vetoed funding for:

- UCF's high-tech manufacturing research center for sensors in Osceola County, which is a partnership between educational institutions, industry and government;
- and, the Florida Center for Students with Unique Abilities, which would provide parents of students with intellectual disabilities with information about programs and opportunities throughout the state.

Despite the veto, our pilot program for students with intellectual disabilities will still begin this fall on our main campus. This program will allow a select number of students to earn meaningful higher education credentials that will prepare them for more employment opportunities and fully participate in college life — living in dorms, joining clubs and making friends with their peers.

UCF projects approved in the state budget signed by Gov. Scott are:

- nearly $15 million in new funds based on UCF's academic performance, its students' graduation and retention rates, and bachelor's and master's degrees awarded, among other metrics set by the Florida Board of Governors;
- and, $20 million for the Partnership Complex in the Central Florida Research Park, which will help to permanently house Department of Defense and UCF simulation and training organizations, contributing to one of our state's largest industries.

I echo President Hitt and many others at UCF in our sincere appreciation for your support and the efforts of those across Central Florida to advance these projects. We know they are important to students, our economy and the community, and we will continue working on moving them forward.

Best wishes,

A. Dale Whittaker, Ph.D.
Provost and Vice President
Professor, Department of Civil, Environmental, and Construction Engineering

September 24, 2015 Board of Trustees Meeting Transcript

Speaker	Dialogue
17:38 - 38:14	
GARVY	[*clears throat*] Next we had an update from, uh, Dr. Dale Whittaker, the Provost and Executive Vice President of UCF, regarding the th-, uh, the Campus, uh, the Type I Campus Proposal changes. Uh, as part of the ongoing plans to establish a campus in downtown Orlando, UCF leadership made several updates to its Type I Campus Proposal that the Board of Trustees approved in January of 2015. Uh, this Type I Proposal is required by the Florida, uh, Board of Governors to establish a larger campus presence. Uh, the UCF presented updates to the proposal that included academic programs mix and facilities for the downtown campus. As, uh, they outlined in the presentation, the updates include a new academic building, renovation of the existing Center for Emerging Media [*clears throat*], and a revised mix of academic programs at the downtown site. Uh, UCF requested approval of the update to the previous Type I Campus Proposal for C-, UCF downtown, with the academic mix and associated buildings as outlined [*clears throat*] in their presentation and the committee approved that update. [*clears throat*] The, uh, next item, uh, dealt with the state university system and a- annual status report on, uh, market tuition. It was information only. But pursuant to Regulation 7.001, each university approved to offer market rate tuition rates-, market tuition rates, shall provide an annual status report on the implementation of those market tuition rates. This annual status report we provided the Board of Governors in November of 2015. UCF's market tuition rate degree programs include Executive and Professional Master in Business Administration, uh, Professional Master of Science and Management, Professional Master of Science [*clears throat*] in Real Estate. All three of those were approved in, uh, in March of 2011. [*clears throat*] Then there's the Master of Science and Health Care Informatics, uh, Master of Science in Engineering Management, both approved in, uh, November of 2012. And then Graduate Health Information Administration Certificate, Master of Social Work, Master of Science and Management Business Analytics, approved 11 of '14. Uh, finally in the Provost update, [*clears throat*], we had a number of items that were covered. Some of them that were quite, uh, notable, though, include, um, some, uh, improvement in the UCF online, uh, processes, along with some statistics regarding fall enrollment that were, uh, that were impressive. Uh, for the fall we'll have 63,370 students at UCF, a new all-time record, with an average SAT score of 1261 and an average GPA of

September 24, 2015 Board of Trustees Meeting Transcript

Speaker	Dialogue
	entering freshman of 4.0.
MARCHENA	Stop there a second. 'Cause I heard that this morning. And we just, you know, we, we become accustomed to hearing [*background clearing of throat*] those statistics and we just sorta read 'em, listen, just move on. But let's think about that for a moment, OK? Um, 1261 average SAT and 4.0 average GPA. Uh, I, I, you know, I used to hear once in a while, as you said, during your presentation, Dr. Hitt, UCF is big, but they need to focus on quality. Um, obviously, uh, since I became Chairman, I've, I've spent a lot of hours reading information to a new depth than I did, uh, before I became Chairman, and, um, I'm very, very excited about the level of quality, uh, that UCF is, uh, is getting in the students that are coming in, and the level of quality in the graduates that we're putting out. Can we do better? Absolutely. Everybody can, and we're gonna continue to do better. [*background clearing of throat*] But each of us needs to learn those statistics, so the second you get that casual comment of, UCF needs to do better, you can very nicely and diplomatically and directly let them know what those statistics are, uh, and make sure they understand we are doing very, very well. Um, so, thank you very much.
GARVY	Thank you, Mr. Chairman, and they can add to those statistics, uh, in the Burnett, uh, Honors College, um, uh, SAT scores of 1400, uh, and an average GPA of 4.4. So these are, these are tremendous, uh, statistics and ones that we, we, uh, for sure, wanna make the community aware of. Uh, also I think noteworthy in his report, 43% of our student body is minority. I know, re-, responding to, uh, President Hitt's, uh, comments early, 24% of which I believe are Hispanic. Uh, these are also, uh, uh, showing that we are achieving one of the five goals of, of UCF to be, uh, highly diverse, uh, uni-, and offering, uh, opportunity for diversity, uh, to students in America.
MARCHENA	Thank you, sir. Is that the end of the report?
GARVY	That concludes the, uh, Educational Programs Committee report.
MARCHENA	Alright. Let's go ahead. We do have one [*background clearing of throat*], uh, non-consent agenda action item coming out of the Educational Programs Committee. Uh, it is the update to Type I Campus Proposal for downtown. Uh, since not all of us were here for the committee meeting this morning, I've asked, uh, Dr. Whittaker and Bill Merck to come up and, uh, give us that briefing once again.
WHITTAKER	Sure. Thank you. It's a, uh, pleasure to be here. And for some of you, you've heard this, so I'm gonna go, uh, back through the presentation in a way that hopefully everybody can hear the same thing.

September 24, 2015 Board of Trustees Meeting Transcript

Speaker	Dialogue
	In January, this Board of Trustees approved a new Type 1 Campus Proposal for UCF downtown, that's required for the Florida Board of Governors', uh, Educational, uh, to establish a modified educational site. And with your approval, we also agreed that we would bring back to this Board any substantive or material modifications to that proposal before its formal submission to the Board of Governors this year. So since presenting to this Board in January, the project has evolved. And as you know, we were allocated funding by the state legislature, and that funding was not sustained during the executive office review of the budget. In the months since that time, we've worked very carefully with faculty, staff, student leaders, our partners at Valencia, City of Orlando. We've weighed different options, we've explored new resources, and we've, t-, uh, sharpened our pencils and refined our plans. So what we're presenting to you here, uh, incorporates the feedback that we've received from members of our Board of Trustees, from the Board of Governors, and from, uh, the Board of Governors' staff. Since January, we made updates to the proposal that, uh, involve one academic building [*background cough*], rather than multiples. Uh, in addition the revint-, the renovation of the existing building on the site. And then we've modified the mix of academic programs, uh, for when the campus would open. So we're proposing a full-service campus, uh, on Day One, that would provide for a critical mass of students in an innovative urban learning environment with, uh, opportunities that just aren't possible on this campus. The vision you see here on the screen, has guided our plans for the downtown campus, that provides a rich learning environment for our students. In our Type I proposal in January, we stated that the only programs that would go downtown, would-, that would move from our main campus to downtown, would be those that specifically would better serve students' educational and workforce needs by being in that environment. That remains true today. We know that living and learning downtown could provide thousands of our students with internships and job opportunities within walking distance and reinforce what they learn in the classroom. We also know that engagement through internships, research, and service learning is a driver of student success, uh, often called high-impact pedagogies. And in fact, that's the key reason that we selected the programs that we did. These criteria outline, uh, what our recommendations for re-, relocating programs, uh, downtown were based on. So you've heard us talk about ramping up to a critical mass of students during the first few years of the campus opening, but this modification to the proposal outlines an enrollment strategy of 7,300 students from UCF and Valencia combined, uh, in the first year when the campus opens, with

September 24, 2015 Board of Trustees Meeting Transcript

Speaker	Dialogue
	the construction of just one academic building. We've also, uh, refined our plans to inclo-, -clude, nine academic programs of strategic emphasis, as defined, and strategic emphasis as desi-, defined by the Board of Governors, to meet workforce gaps in Florida, and that's six more in year one than the proposal you saw in January. We've shifted the program mix to include more community facing programs from our College of Health and Public Affairs, which previously had been slated to relocate downtown in later phases. We're again addressing student services, parking, housing, recreation space in year one, to make sure that these students immediately have a robust full campus experience. We also looked more closely at program synergies between academic departments that could flourish and innovate because of their co-location. As well as looking at Valencia's academic programs and those that would complement, uh, and provide four-year pathways to students seeking four-year degrees from UCF at that campus. A proposed new academic building would be the keystone of the downtown campus. This 165,000 square foot building would house the programs listed on the screen. This is a slightly different mix than what we presented in January to relocate from the main campus in year one. This proposal focuses more on health technology, community facing programs, and you'll see in the next slide, digital media. The large program mix you see on the screen is also made possible because we'll be incorporating collaborative and shared space in the new academic building. This is a 60 million dollar building with a third, a third, a third funding structure that's split between a request for state funds, one third; non-E&G university resources, one third; and philanthropy, one third. [*papers turning*] The new academic building would be on the same site as the existing Center for Emerging Media [*background coughs*], which currently houses the nationally recognized Florida Interact-, Interactive Entertainment Academy. This space would be renovated using already-allocated university resources to con-, convert the, uh, unused space into classrooms, labs, and offices, which you see results in 1330 students, uh, i-, in the renovated space. It also allows for UCF and Valencia's digital media to co-locate, and again it makes a highly effective use of the existing facility. Now, this, uh, one new building and the renovation then trigger off enough students to, uh, justify these additional developments. So you see that we are working with our partners on plans for housing and parking at UCF downtown. Uh, we intend to construct our own 300-bed housing and 600-space parking garage, to be complemented by housing built by a private developer that operated by UCF and more than 600 spaces in the city-owned parking garage. Private developer space will also house Valencia's culinary and hospitality program, bringing, uh, an additional 1,700 students to the campus. We see the

September 24, 2015 Board of Trustees Meeting Transcript

Speaker	Dialogue
	new academic building as being a key catalyst for this additional development and for the renovation. Now lastly you can see the academic return on the investment in, uh, the year, in year one. Our changes to the proposal since you saw it in January include 13 UCF academic programs, nine of which are in, uh, areas of strategic emphasis as defined by the Board of Governors, 1600 UCF degrees awarded annually, and 7,300 students. Now, if you compare that to the document in January, that's increasing the number of academic programs by one, adding six more, uh, programs that are of strategic emphasis, and adding 300 more UCF students, uh, on day one of, uh, the campus opening. And this does not increase, uh, this does not include the increase in Valencia students with the addition of their digital media and their health information technology degrees. All of these increases are the result of this Board's feedback, feedback from the Board of Governors to refine our plans so that we're proposing one academic building and the renovations for the Center for Emerging Media. Now these next few slides, you-, I don't believe you've seen yet, and these, uh, show the current and, uh, proposed development on the site downtown, the UCF downtown site, starting with the exenter-, this existing Center for amer-, Emerging Media. Uh, blue here indicates academic buildings. So to orient you, I-4 is to the north and west on that, well, to the top and left on the slide [*laughs*]. Across from the Center for Emerging Media is the proposed new academic building, as well as the space for, you'll see in the private developer space there, for Valencia's Culinary and Hospitality Program. Uh, lastly, you'll see additional development on the campus including parking, student services, and both UCF- and private developer-built student housing. All of this together offers an engaging and full-campus experience for 7,300 students, uh, on the day of opening. Now to summarize, ultimately what we're asking you for, is to consider and approve today the updates to the Type I Campus Proposal that you approved in January, which include one academic building, as opposed to multiple phases, coupled with the renovation of the Center for Emerging Media facility, and the new mix of academic programs that we believe will benefit our students and our faculty by being downtown when the campus opens. This strategy provides us with critical mass, uh, on day one, in programs that offer new learning opportunities and partnerships that lay the foundation for what [*background cough*] we believe will be a sustainable and successful downtown campus over the long run, that will thrive and grow to meet our region's demands for higher education and a talented workforce. And with that, we're, uh, happy to be here and happy to answer your questions this morning.
MARCHENA	Thank you very much. Um, I, I, I know that was a lot of information to hear again for some of us, but since not all of us were here this

September 24, 2015 Board of Trustees Meeting Transcript

Speaker	Dialogue
	morning, this is a, uh, a very, uh, significant project, and I wanted everyone to hear the presentation. Uh, it is very different than what we heard in January. As I said this morning, I've spent a lot of time working with Dr. Hitt, and the rest of the staff, in, in, um, uh, analyzing this in light of some of the comments that we've received over the past several months. Uh, I've had several meetings with members of the Board of Governors, uh, and others, and, um, I, I think that, um, the, the approach taken here, uh, is a conservative approach, it is a cost-effective approach, it requires that we bring community funding to the table to make this project go forward. It provides for a student that does all four years at this downtown campus, um, uh, spending $6,000 less in tuition and fees than a student that does all four years here. Why? Because we're partneting-, partnering with Valencia. They will do all the general education, uh, work at Valencia. But more than that, we're integrating all of the core services in the downtown campus with Valencia, so they will be some overall cost savings, uh, as part of that project. Um, are there any other questions or comments on this particular item?
GARVY	Mr. Chairman, I have a comment or two.
MARCHENA	Yes sir.
GARVY	Um [*clears throat*], we might, uh, note also that the financing changes for this in the 60 million will be, uh, 20 million from, uh, the state, 20 million from UCF, and 20 million from, uh, the, the, uh, i-, uh, community, uh, support. I think the, uh, the project has been, uh, greatly enhanced. Uh, and as I mentioned to Dr. Whittaker, you know, sometimes the obstacles we face [*laughs*] turn out to be, uh, helpful in clarifying thinking, uh, giving you the opportunity and others the opportunity to inter-, interact with the Board of Governors and those that will be important in, in a positive decision. Uh, but I, I commend, uh, the staff and, uh, uh, yourself, and, uh, look forward to, to approval of this, uh, of this change.
MARTINS	I, I just like to go, uh, Trustee Garvy's comments, um, you know, the, the fact that we were able to add additional programs of emphasis that the Board of Governors is, is looking for and, you know, certainly enhanced the overall, uh, financial outlook of this, and, um, you know, they have a saying in my business, is sometimes the best trades that you make are the ones that you don't make. And the fact that, uh, you know, this challenge that we had earlier this year, uh, I appro-, I agree, Trustee Garvy, it's make, made the whole program stronger and, um, certainly will, uh, benefit the students, you know, in a greater way, so, I, I fully support this, Mr. Chair.
MARCHENA	Any other comments? Hearing none, we'll entertain a motion to, um, approve the proposed, or the proposed changes to the Type I Campus …
UNIDENTIFIED MALE	[*inaudible*][*simultaneous speaking*]
MARCHENA	… for downtown Orlando. There's a motion. [*inaudible*] a second. Uh, any further discussion? Hearing none, all of those in favor of the motion, please signify by saying "aye."
MULTIPLE	Aye.

ITEM: CL-1

University of Central Florida
BOARD OF TRUSTEES
Compensation and Labor Committee

SUBJECT: Article 7: Wages, Article 8: Hours of Work, Article 19: Non-Discrimination, Article 23: Grievance Procedure, and Article 27: Labor Management Committee of the Collective Bargaining Agreement with the American Federation of State, County, and Municipal Employees (CLC-1)

DATE: January 7, 2016

PROPOSED BOARD ACTION

Ratify the reopened articles of the Collective Bargaining Agreement between the University of Central Florida Board of Trustees and the American Federation of State, County, and Municipal Employees.

BACKGROUND INFORMATION

Article 7: Wages, Article 8: Hours of Work, Article 19: Non-Discrimination, Article 23: Grievance Procedure, and Article 27: Labor Management Committee of the Collective Bargaining Agreement with the American Federation of State, County, and Municipal Employees will be presented to the unit employees for ratification on December 15, 2015. The Collective Bargaining Committee appointed to represent the University of Central Florida Board of Trustees recommends the approval of the revised articles, with the implementation to be contingent on the ratification by the unit employees.

Supporting documentation: Article 7: Wages and Article 8: Hours of Work, Article 19: Non-Discrimination, Article 23: Grievance Procedure, and Article 27: Labor Management Committee

Prepared by: Shelia Daniels, Interim Associate Vice President and Chief Human Resources Officer

ITEM: BOT-1

University of Central Florida
BOARD OF TRUSTEES

SUBJECT: Memorandum of Understanding on UCF Downtown

DATE: January 7, 2016

PROPOSED BOARD ACTION

Approval of Memorandum of Understanding on UCF Downtown.

Supporting documentation: Attachment A: Memorandum of Understanding on UCF Downtown.

Prepared by: Rick Schell, Vice President and Chief of Staff

Submitted by: Rick Schell, Vice President and Chief of Staff

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding is entered into this 8th day of January, 2016, by and between **RICK SCOTT, Governor of the State of Florida**, and **THE UNIVERSITY OF CENTRAL FLORIDA**, a public university serving the State of Florida.

RECITALS

A. Governor Scott is focused on ensuring a higher education system that graduates students who can excel in high paying jobs in their respective fields of interest.

B. UCF supports Governor Scott's efforts and is always identifying opportunities to provide a high quality education to the students and make its education product more affordable.

C. UCF has identified an opportunity referred to as the UCF Downtown Campus that will allow UCF to provide students in specific degrees a more focused education, with more opportunity for hands-on practical experience and, by partnering with Valencia College, at a lower cost to the student.

D. UCF has requested Governor Scott's support of the UCF Downtown project including support for funding of $20 million from State funds covering a portion of the cost of the building to be constructed by UCF for the Downtown Campus.

E. Governor Scott has indicated a willingness to consider supporting the project but is requesting UCF's commitment on certain matters.

NOW, THEREFORE, UCF commits to the following conditions with respect to the proposed UCF Downtown Campus.

1. The UCF Downtown Campus will not include dormitories constructed or funded by the University of Central Florida or any of its direct support organizations. UCF Housing intends to contract to manage dormitories near the Downtown Campus if so requested by the owners of the dormitories. The management will be performed consistent with other UCF managed housing that includes rules of conduct, resident advisors, and an atmosphere conducive to learning.

2. There will be no further State of Florida investment for the UCF Downtown Campus beyond the current request of $20 million prior to fiscal year 2018-2019.

3. The UCF Downtown Campus will be focused on degree programs for which there are significant employment opportunities in the State of Florida. As the programs develop, the UCF Downtown Campus will continue to identify and terminate low productivity, low demand degree programs and invest in high-skill, high-wage majors.

4. The UCF Downtown Campus will only offer degrees that are linked to the needs of the local and state workforce.

5. The UCF Downtown Campus will continue to utilize UCF's outstanding distance learning programs in order to minimize the need for infrastructure investment. While the percentage of the type of instruction is generally determined by the registration of students, it is expected that the instructional model at UCF Downtown will be approximately: traditional classroom instruction-46%, blended and hybrid instruction-38%, and virtual instruction-16% (based on Fall 2015 main campus behaviors).

6. The UCF Downtown Campus will implement programs that will assist all graduates in the two most popular degree programs in the Downtown Campus, who are interested in full time employment and who are not pursuing post-graduate education, to obtain full-time employment within a year of graduation.

JOHN C. HITT, Ph.D. President	MARCOS R. MARCHENA, Chairman UCF Board of Trustees

Minutes
Board of Trustees Teleconference Meeting
University of Central Florida
January 7, 2016

Chairman Marcos Marchena called the teleconference meeting of the Board of Trustees to order at 8:13 a.m. in the President's Boardroom, Millican Hall, on the UCF Orlando campus.

The following board members attended the teleconference meeting: Chairman Marcos Marchena, Vice Chair Robert Garvy, Trustees Clarence Brown, Olga Calvet, Joseph Conte, Alan Florez, Robert Garvy, Ray Gilley, Keith Koons, Alex Martins, Beverly Seay, and Cait Zona.

Marchena welcomed the board members and called on Rick Schell, Associate Corporate Secretary, to call the roll. Schell noted that a quorum was present.

Marchena called on Shelia Daniels, Interim Associate Vice President and Chief Human Resources Officer, who reported on CL-1: Article 7: Wages, Article 8: Hours of Work, Article 19: Non-Discrimination, Article 23: Grievance Procedure, and Article 27: Labor Management Committee of the Collective Bargaining Agreement with the American Federation of State, County, and Municipal Employees.

A motion was made and unanimously passed by the board to approve CL-1.

Marchena called on Youndy Cook, Deputy General Counsel, who reported on CL-2: Amendment to University Regulation UCF-3.0124 Discipline and Termination for Cause of Non-unit Faculty and A&P Staff Members, University Regulation UCF-3.040 Benefits and Hours of Work, and University Regulation UCF-10.010 Discipline and Termination for Cause of Faculty and A&P Staff Members of the College of Medicine.

Cook asked that UCF-3.014 and UCF-10.010 be removed from this meeting's consideration.

A motion was made and unanimously passed by the board to approve CL-2 as modified.

Marchena called on A. Dale Whittaker, Provost and Executive Vice President, who reported on BOT-1: Memorandum of Understanding on UCF Downtown, Revised Attachment A.

A motion was made and unanimously passed by the board to approve BOT-1.

ADJOURNMENT

Marchena adjourned the board meeting at 8:36 a.m.

Respectfully submitted: _____ Date: January 7, 2016
John C. Hitt
Corporate Secretary

ITEM: EP-3

University of Central Florida
BOARD OF TRUSTEES

SUBJECT: Update to Type I Campus Proposal

DATE: September 24, 2015

PROPOSED BOARD ACTION

Approval of update to Type I Campus Proposal to the Board of Governors, State University System of Florida.

BACKGROUND

As part of the extraordinary opportunity for UCF to develop an innovative living and learning environment that capitalizes on the economic, social, and cultural activity of downtown Orlando, the university proposes updates to its Type I campus proposal for UCF Downtown. The attached presentation outlines updates to the plan for UCF Downtown and the academic programs proposed for that location to accommodate student and program growth. The proposed programming builds on existing program strengths, partnership with Valencia College, and synergies with the Creative Village site.

Minutes
Board of Trustees Meeting
University of Central Florida
September 24, 2015

Chairman Marcos Marchena called the meeting of the Board of Trustees to order at 1:00 p.m. in the *Fairwinds* Alumni Center on the UCF Orlando campus.

The following board members attended the meeting: Chairman Marcos Marchena, Trustees Clarence Brown, Alan Florez, Robert Garvy, Keith Koons, Alex Martins, Beverly Seay, John Sprouls, William Yeargin, and Cait Zona. Trustee Ray Gilley attended via teleconference.

WELCOME

Chairman Marchena reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

He welcomed the board members and called on Rick Schell, Associate Corporate Secretary, to call the roll. Schell determined that a quorum was present.

Marchena called for approval of the July 23, 2015, meeting minutes, which were approved.

Marchena called on President John C. Hitt for remarks and introductions.

REMARKS

Hitt announced two trustees were leaving the board. Hitt thanked Trustee Jim Atchison for his five years of service as a member of the board and presented him with a certificate.

Hitt welcomed new board member, Trustee Bill Yeargin, president and CEO of Correct Craft and presented him with a gold UCF Pegasus pin.

Hitt congratulated Dr. Joel Hartman, a 20-year University of Central Florida professional, on his promotion to vice president for information technologies and resources. Hitt noted that Hartman will continue to oversee UCF's library, computing, networking, telecommunications, media services, and distributed-learning activities, and he will now also supervise the Department of Space Planning, Analysis, and Administration.

Hitt announced that Amy Swinford will leave as the charter staff member to our board of trustees after 14 years of service. Hitt stated Swinford will remain a member of the of the President's office. Hitt and Marchena thanked Amy for her contributions to the board and presented her with a certificate.

Hitt introduced and welcomed Cindy Hawks, who has assumed Amy Swinford's position working with the board.

Hitt stated that UCF's success was featured in an article that appeared in the *Washington Post.* The article begins:

> *A small state school launched here in the 1960s to develop employees for the space program has morphed into one of the nation's largest universities, using accessible admission policies and online instruction to fuel extraordinary growth in an era when many public universities face fiscal uncertainty.*

Hitt noted that the article was included in the trustees' FYI meeting materials.

Hitt stated that according to *U.S. News & World Report*'s "Best Colleges 2016 Guide," UCF ranks with Harvard, MIT, Stanford, and Duke among the most innovative universities in the country. UCF was tied with Georgia Tech and the University of Southern California as the 13th "Most Innovative School."

Hitt announced that Valencia College president Sandy Shugart and he were named two of the ten most innovative college presidents in America, according to *Washington Monthly*'s annual college guide. The guide credits UCF's DirectConnect Program, created in 2005, for keeping our two institutions in the spotlight 10 years later.

Hitt referred the board to the case study *Breaking the Iron Triangle at The University of Central Florida* included in their FYI meeting materials, and asked that they review it at their convenience.

INTRODUCTIONS

Hitt congratulated the following faculty member.

A. Faculty

Dr. Timothy Sellnow, a professor of Human Communications in the Nicholson School of Communication, was selected to receive the National Communication Association's 2015 Gerald M. Phillips Award for Distinguished Applied Communication Scholarship. Only one of these national awards is conferred each year.

Hitt noted the importance of the Board of Governors Trustee Summit on November 4-5 at Florida International University, and he urged the trustees to attend.

ADVANCEMENT COMMITTEE REPORT

Clarence Brown, Chair of the Advancement Committee, reported the highlights from the committee meeting earlier in the day.

- Grant Heston, Vice President for Communications and Marketing, announced that UCF is launching a multi-media branding campaign entitled *Impact* that will include outdoor, radio, online, and print media. The campaign is anticipated to run three to six months and

expects to generate approximately 130 million impressions. The goals of the campaign are to increase UCF's brand awareness and loyalty, and to set the stage for the public launch of UCF's comprehensive campaign. Heston also showed three television commercials that aired during nationally televised UCF football games.

- Michael Morsberger, Vice President for Alumni Relations and Development and Foundation CEO, gave a presentation providing the committee with a comprehensive overview of alumni and development efforts over the past ten years. He also discussed where he and his team are headed as they prepare the public launch of UCF's comprehensive campaign.
- Dr. Dan Holsenbeck**,** Senior Vice President for University Relations**,** gave a legislative update, reporting that his team had started their individual meetings and conferences earlier this year due to the regular legislative session beginning in January rather than March. He stated that the top three priorities include proceeding with the plans for UCF downtown, completing the process to acquire the Partnership IV building in Research Park, and continuing to promote the Florida Advanced Manufacturing and Research Center. In addition, Holsenbeck reported on a gun bill that has been introduced into the legislature.

COMPENSATION AND LABOR AD HOC COMMITTEE REPORT

John Sprouls, Chair of the Compensation and Labor Ad Hoc Committee, reported highlights from the committee meeting held earlier in the day.

- Shelia Daniels, Interim Associate Vice President and Chief Human Resources Officer, reported on the Collective Bargaining Agreement between the University of Central Florida and the Police Benevolent Association.
- Daniels and Youndy Cook, Deputy General Counsel, reported on the revision to University Regulations UCF-3.026 USPS Sick Leave Pool, and UCF-3.0261 Faculty and A&P Sick Leave Pool.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Robert Garvy, Chair of the Educational Programs Committee, reported the highlights from the committee meeting held earlier in the day.

- Dr. Dale Whittaker, Provost and Executive Vice President, gave a report on the 2015 Equity Accountability Program. He provided an update on the Type I Campus proposal for UCF Downtown. Whittaker gave the State University System Annual Status Report on Market Tuition.
- Whittaker reported that UCF set a new record in its fall enrollment with 63,370 students. The average SAT score is 1261 and the average freshman GPA is 4.0. Whittaker stated that Burnett Honors College students have an average SAT score of 1400 and 4.4 GPA. He stated 43% of the UCF student body is minority and 24% is Hispanic.
- Youndy Cook, Deputy General Counsel, reviewed the amendments to Chapter 5 of the university regulations which relate to the student conduct and conduct review processes. They were amended to update the procedures for handling of sexual misconduct cases,

update definitions of bullying and sexual misconduct, and outlined the community reengagement and education development program. Other amendments included changes to the regulations on academic misconduct and academic appeals.

Garvy presented the following item for board approval.

- EP-3 Update to Type I Campus Proposal—A motion was made and unanimously passed by the board approving the update to Type I Proposal to the Board of Governors, State University System of Florida.

FINANCE AND FACILITIES COMMITTEE REPORT

Alex Martins, Chair of the Finance and Facilities Committee, reported highlights from the committee meeting held earlier in the day and presented the following items for board approval.

- FF-1 Market Tuition Rate Proposals—A motion was made and unanimously passed by the board approving the request to establish market tuition rates.

- FF-2 Refinancing of UCF Stadium Corporation Certificates of Participation Series 2006A and B—A motion was made and unanimously passed by the board approving the UCF Stadium Corporation, formerly known as Golden Knights Corporation's, requesting approval to refinance the outstanding certificates of participation Series 2006A and 2006B.

- FF-3 Acquisition of Partnership IV Facilities from Leidos and Cowperwood—A motion was made and unanimously passed by the board approving the purchase and sale agreements and subsequent acquisition of the property located at 12809 Science Drive, Orlando, Florida, for the Partnership IV facility to further enhance the government modeling and simulation technology expansion, subject to satisfactory due diligence investigation and completed conditions contained within the agreements.

STRATEGIC PLANNING COMMITTEE REPORT

Alan Florez, Chair of the Strategic Planning Committee, commented that earlier in the year the board approved a strategic planning process to set the university's trajectory for the next 20 years. He restated that the dimensions are value, philosophy, and distinctive impact. Florez noted that between October 26, 2015, and January 12, 2016, a series of meetings and five stakeholders' sessions will occur.

INFORMATION

Marchena noted the following informational item.

- INFO-1 Revised Board Committee and Direct Support Organization Assignments
- INFO-2 2016 Revised Finance and Facilities Committee Meeting Dates

CONSENT AGENDA

A motion was made to accept the consent agenda, and members of the board unanimously approved the following actions.

- CL-1 Collective Bargaining Agreement between the University of Central Florida Board of Trustees and the Police Benevolent Association—Ratification of a three-year collective bargaining agreement between the University of Central Florida Board of Trustees and the Police Benevolent Association.
- CL-2 Revision to University Regulations UCF-3.026 USPS Sick Leave Pool and UCF-3.0261 Faculty and A&P Sick Leave Pool—Approval of amendments to existing university regulations UCF-3.026 and UCF-3.0261.
- EP-1 2015 Equity Accountability Program—Approval of the 2015 Florida Equity Report.
- EP-2 Amendment to Chapter 5 University Regulations—Approval to amend Chapter university regulations.
- FF-4 Revision to University Regulation UCF-7.130 Administration and Finance; Purchasing—Approval of amendments to existing university regulation UCF 7.130 Administration and Finance; Purchasing.
- FF-5 Minor Amendment to 2015 Campus Master Plan—Laboratory and Environmental Support Facility Expansion—Approval of a minor amendment to the University of Central Florida Campus Master Plan for an expansion of Building 48, the Laboratory and Environmental Support Facility.

NEW BUSINESS

Grant Heston, Vice President for Communications and Marketing, reported that the Federal Communications Commission (FCC) allows WUCF to broadcast PBS because our license allows us to own broadband spectrum. He reported that next spring, the FCC is conducting the broadband spectrum auction that is designed to move spectrum from television broadcasters to wireless companies. He showed a video on the broadcast television process incentive auction.

ANNOUNCEMENTS AND ADJOURNMENT

Chair Marchena announced the following upcoming meetings:

State of the University Address	September 30 (3:00 p.m. Pegasus Ballroom)
Diversity Breakfast	October 12 (Pegasus Ballroom)
Board of Governors meeting and Trustee Summit	November 4-5 (Florida International University)
Board of Trustees meeting	November 19 (NorthView)

Marchena introduced his assistant, Martha Spradley.

Marchena invited the trustees to join him at the Victory Knight for the trustees' annual photo.

He adjourned the board meeting at 2:21 p.m.

Respectfully submitted: _____ Date: _____
John C. Hitt
Corporate Secretary

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding is entered into this 8th day of January, 2016, by and between **RICK SCOTT, Governor of the State of Florida**, and **THE UNIVERSITY OF CENTRAL FLORIDA**, a public university serving the State of Florida.

RECITALS

A. Governor Scott is focused on ensuring a higher education system that graduates students who can excel in high paying jobs in their respective fields of interest.

B. UCF supports Governor Scott's efforts and is always identifying opportunities to provide a high quality education to the students and make its education product more affordable.

C. UCF has identified an opportunity referred to as the UCF Downtown Campus that will allow UCF to provide students in specific degrees a more focused education, with more opportunity for hands-on practical experience and, by partnering with Valencia College, at a lower cost to the student.

D. UCF has requested Governor Scott's support of the UCF Downtown project including support for funding of $20 million from State funds covering a portion of the cost of the building to be constructed by UCF for the Downtown Campus.

E. Governor Scott has indicated a willingness to consider supporting the project but is requesting UCF's commitment on certain matters.

NOW, THEREFORE, UCF commits to the following conditions with respect to the proposed UCF Downtown Campus.

1. The UCF Downtown Campus will not include dormitories constructed or funded by the University of Central Florida or any of its direct support organizations. UCF Housing intends to contract to manage dormitories near the Downtown Campus if so requested by the

owners of the dormitories. The management will be performed consistent with other UCF managed housing that includes rules of conduct, resident advisors, and an atmosphere conducive to learning.

2. There will be no further State of Florida investment for the UCF Downtown Campus beyond the current request of $20 million prior to fiscal year 2018-2019.

3. The UCF Downtown Campus will be focused on degree programs for which there are significant employment opportunities in the State of Florida. As the programs develop, the UCF Downtown Campus will continue to identify and terminate low productivity, low demand degree programs and invest in high-skill, high-wage majors.

4. The UCF Downtown Campus will only offer degrees that are linked to the needs of the local and state workforce.

5. The UCF Downtown Campus will continue to utilize UCF's outstanding distance learning programs in order to minimize the need for infrastructure investment. While the percentage of the type of instruction is generally determined by the registration of students, it is expected that the instructional model at UCF Downtown will be approximately: traditional classroom instruction-46%, blended and hybrid instruction-38%, and virtual instruction-16% (based on Fall 2015 main campus behaviors).

6. The UCF Downtown Campus will implement programs that will assist all graduates in the two most popular degree programs in the Downtown Campus, who are interested in full time employment and who are not pursuing post-graduate education, to obtain full-time employment within a year of graduation.

JOHN C. HITT, Ph.D.
President

Bill and Dale,

Attached is a schedule Dale asked me to put together for the two of you to discuss with Dr. Hitt. I'm still confirming with Paul the cost of renovation of the FIEA building (John thought it was $5-$8 million), but I wanted to get your edits/input in the meantime. Look it over and let me know what you think.

Thanks.

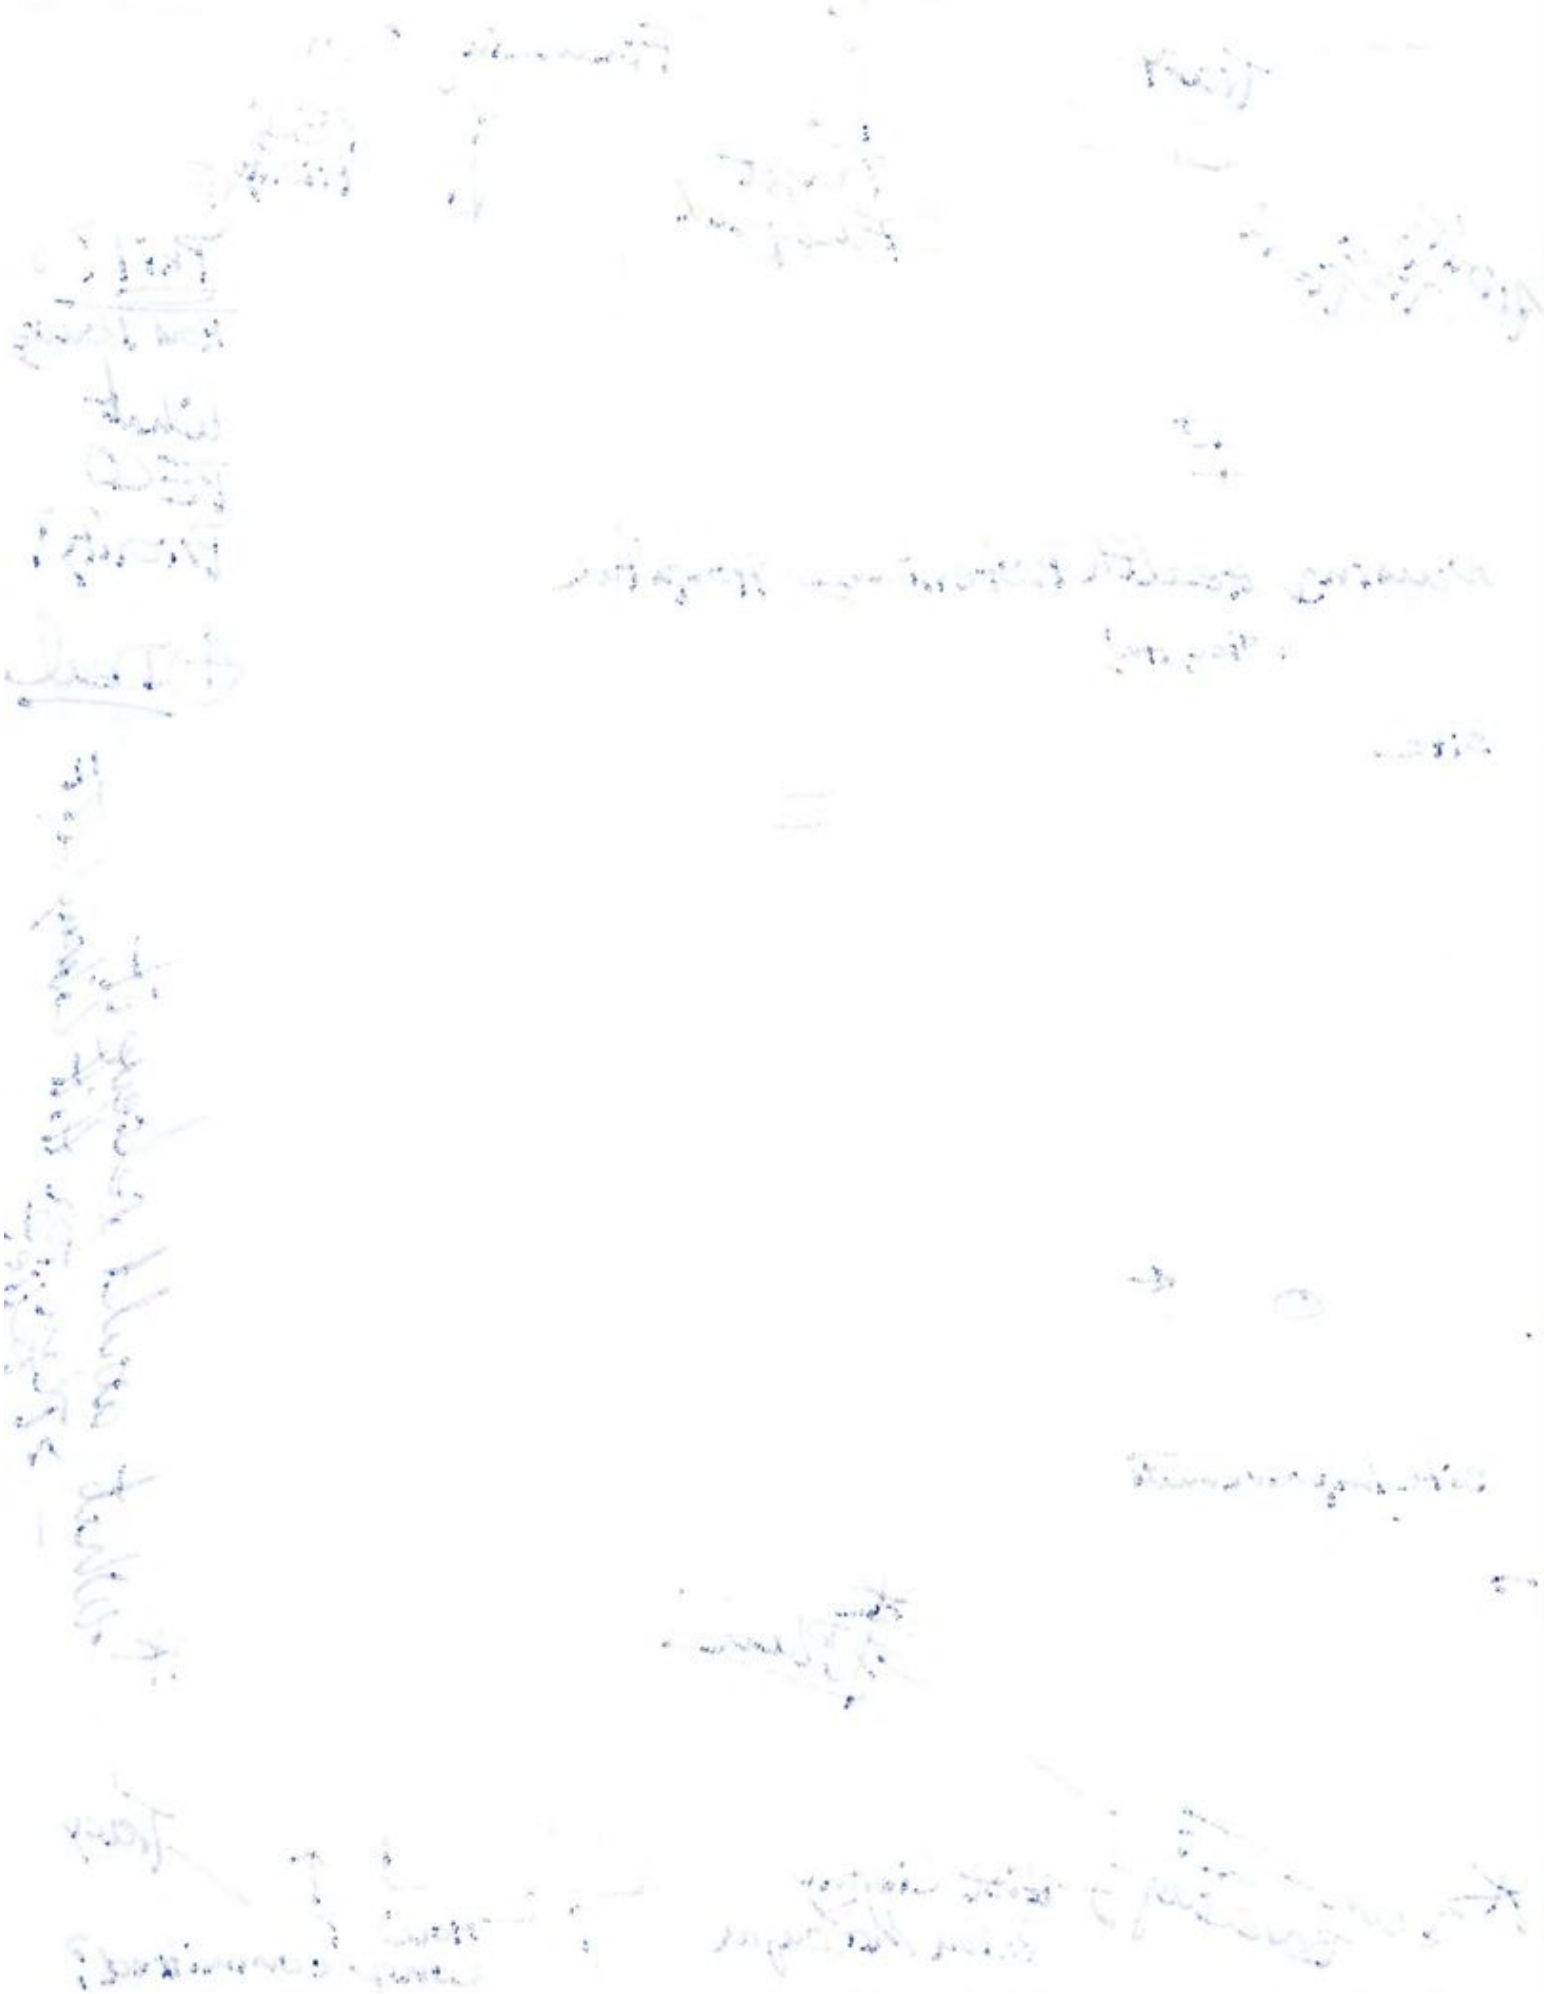
Hi Tracy,

Dale would like to discuss some follow-ups (to-do's) after today's meeting with Dr. Hitt. If you are around and can chat with him before 1:00 pm today, please give me a call at 3-2303.



Otherwise, please check-in with us and we'll schedule some time for the two of you to chat – he said a phone call would be great.

Thanks!

Subject: Declined: Tracy Clark, Bill Self, and Dale Whittaker: Capital Projects - Follow-up
When: Friday, March 25, 2016 9:30 AM-9:45 AM (UTC-05:00) Eastern Time (US & Canada).
Where: MH 338D (Please let me know if you will come in person or if you will call in)

I will be in a visit from UNLV on the EAB initiative so I will send Dale a synopsis instead

3(23

Synopsis of meeting on capital projects (Hitt, Whittaker, Merck, Morsberger, Schell, Self)

- Initial general discussion of what is on the list – and what the columns mean
- Suggestion from Hitt ("plate of h'orderves" for philanthropy and naming rights of some projects that fall outside of the larger items)
- Question about E&G column on academic space – not E&G money (from other sources)
- Some discussion of recent $400 million dollars 'bonded' in latest state budget – thus maybe the door is opening
- Discussion of having John C. Hitt library as one of the possible items to have Dan H. explore in the coming year for this 'bonding' or CITE bonding – probably find out from Kim McDougal
- Confirmation that the items on the lower half are projects that have been committed to build
- Discussion of generally the kinds of funds (central aux, investment gains/losses) that are being used to fund many of these projects based on good recent investments and existing aux accounts

Detailed discussions on (*definitely not in any given order – just as I remember them*)…

- The various plans to put a road in (ranging from gravel to a full blown road with updated utilities) for the band practice field; also the possibility of buying the band lights (not using police lights) or even building Musco light poles (expensive)
- Discussion of the possibility of buying/taking over the golf course (Twin Rivers) and the possible benefits to UCF Athletics, Hotel, retirement community etc. – 'community involvement'. Discussion of the current possible plans for the course to be developed – this is the likely reasoning the city of Oviedo wants to have UCF take it over (alongside HOA?). Various discussion of the golf course potential/costs. Also a suggestion from Dr. Hitt to be sure to have a good real estate lawyer carefully review the costs/repairs etc. on the course if we consider (and a suggested person – can't remember the name)
- Recognition that the Nursing bldg. and Teaching Hospital are not on the list on the top half; brief update on the Chicago firm that wants to build the building and 'rent' it to us – ongoing talks with Deb German, etc on this project
- Discussing the downtown electrical situation – OUC really wants to build and serve as utility, but long term benefit of building out our own utilities likely far outweighs this – maybe find out what they can do ("build a better mousetrap" let's see what they offer) – they likely want to be prominent in their own neighborhood
- Discussion of the Gateway and its relatively high cost – perhaps spreading that out over several years to diminish the impact on more pressing issues (lab space etc)
- Discussion of longer term (hope) that when PECO returns we need to have our ducks in a row on what we need – there will be lots of pent up demand for these dollars.

- A question (from Whittaker) on about how long the current list of projects will be dominating the funds from auxiliary and investment gains – answer from Merck about five years
- Discussion of what can be prioritized to go after from philanthropy (new column – in Dale's notes)

Importance: High

Budget Office,

Please process a temporary budget transfer for $5 million from the E&G carryfroward reserve to A&F's carryforward reserve contingency category, and from there to Facilities carryforward (02800703), construction category. This is to fund the renovation of the Center for Emerging Media (CEM) at UCF Downtown. Attach the PDF as support for the transfer.

Once the budget transfer is complete, move the funds from Facilities carryforward 02800703 to construction project 92010040. This will be an Acutals entry. Let me know if you have any questions.

Thank you,

Rebeca B. Richards
Assistant Controller | UCF Budget, Planning, & Administration

Hi Rebeca,

No objection to transferring the budget to the below referenced department.

Per our discussion you will also be transferring the funds to the project as well.

Thanks,
LaShanda

Hi Lashanda,

Any objections to us transferring the budget to 02800703 and from there to the Project?

Thank you,

Rebeca B. Richards

Hi LaShanda – We should be able to get the $5m for CEM over to you on Monday. I will need more time on the infrastructure funding.

Bert – go ahead and set up the CEM renovation with a budget of $5m and the downtown infrastructure with a budget of $295,533. Please send me the project numbers once established.

Thanks,
Christy

Hi Christy,

Facilities & Safety would like to request the funds to support the Center for Emerging Media (CEM) Renovation and the civil, infrastructure, landscape, and hardscape project related to UCF Downtown.

The total project cost for the CEM project is estimated to be around $5,000,000 (budget attached). Currently we need budget in the amount of $318,057 to encumber the A/E's contract for design services.

The total project cost for the civil, infrastructure, landscape, and hardscape project is estimated at $5,000,000 (budget sheet attached). Currently we need budget in the amount of $295,533 to encumber the A/E's contract for design services.

Bert,

Upon authorization of the budget, can you please create project numbers for the referenced:

UCF 578A-CEM Renovation
UCF 578B- Civil, Infrastructure, Landscape, & Hardscape

Thanks,
LaShanda

Good afternoon Gina. Hope this finds you doing exceedingly well!

I'm looking for the status of a PO)see below), can you point me to this or the right person to check with on this?

My thanks!

- Allen

Gents
Just checking back to see if the PO has been approved for the CEM and infrastructure? Per our schedule we are planning on starting the CEM building forensics this week and will need an actual survey. I appreciate your assistance.

Take care,

Daniel Tarczynski, AIA, Partner / Design

Allen and Jeremy,
We have not received a PO for both the site infrastructure and the CEM building on downtown UCF, see email below. Our plan was to start the CEM building forensics this week. Can you assist on getting these two PO's processed?

Thanks

You are welcome.

At this time, the only thing you can bill is for the Academic Building, as that is all that is encumbered on your PO ($3,554,853.93).

I have request and will forward a copy of signed PO.

Thanks.
Janice

Elizabeth,

This isn't as complicated as you think.

The PO issued (N999598) is only for the Academic Building in the amount of $3,554,853.92. There will be new PO's issued (2) for each of the other two project phases – Infrastructure and CEM Building Renovation.

So the invoice you are setting up right now is strictly for Academic Building and can be set up just like you are accustomed to doing.

If you have further questions please don't hesitate to contact me.

Thanks.
Janice

Hi Janice

Can you please help with this?

I am getting ready to set up the UCF Downtown project. Since this project is more complex than usual, I need your help.

Please let me know how you want the invoice to be set up.

For example:
How do you want the three sections (Academic Building, Site Infrastructure, and Building Renovation) spread out on the invoice?
Should the Additional Services be at the bottom, or immediately following the section to which they belong?

Thanks,

- Discuss phases of design/construction/hold/completed
- Discuss active projects

- Discuss projects by cost
- Almost 60% under $50K
- 80% under $200K
- 95% under $2M

University of Central Florida
Status of Projects – April 2017
SAMPLE
MINOR
PROJECTS
UCF

RESEARCH – CREOL Lab Buildout

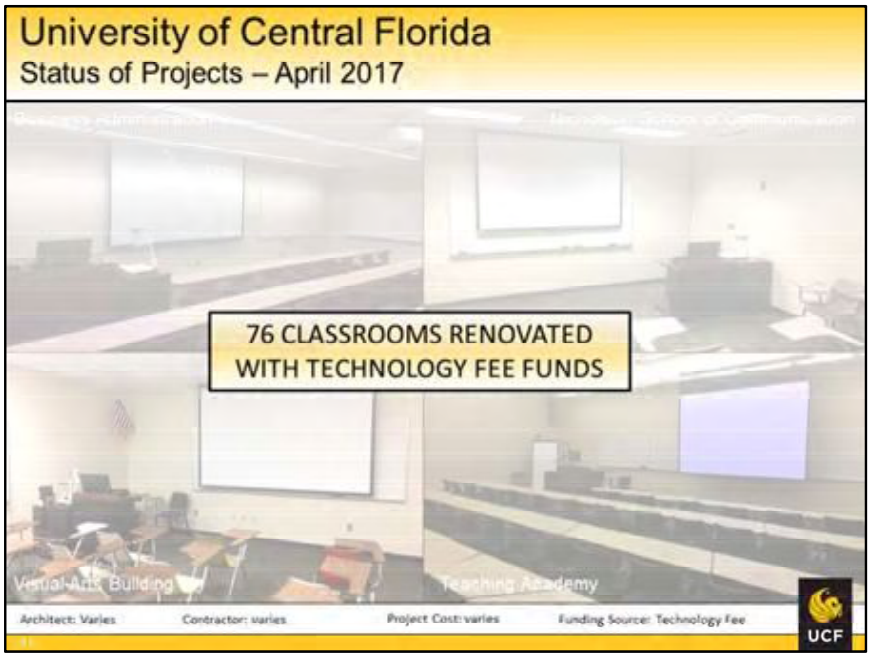
- Seven labs and support spaces
- Substantially complete (in-use)

RESEARCH

- $3K outlet and ventilation – small project
- Liquid Nitrogen Tank and Piping - medium project
- Important for equipment use and research success

INTERIOR

- Large interior renovation
- Drywall, power, paint, carpet, handrails
- Modern image for Business Administration



INTERIOR

- Many small projects
- Critical for faculty, staff, and student success

PARTNERSHIP

- Siemens Digital Grid Lab
- Classroom to Computer Lab conversion

TECHNOLOGY FEE

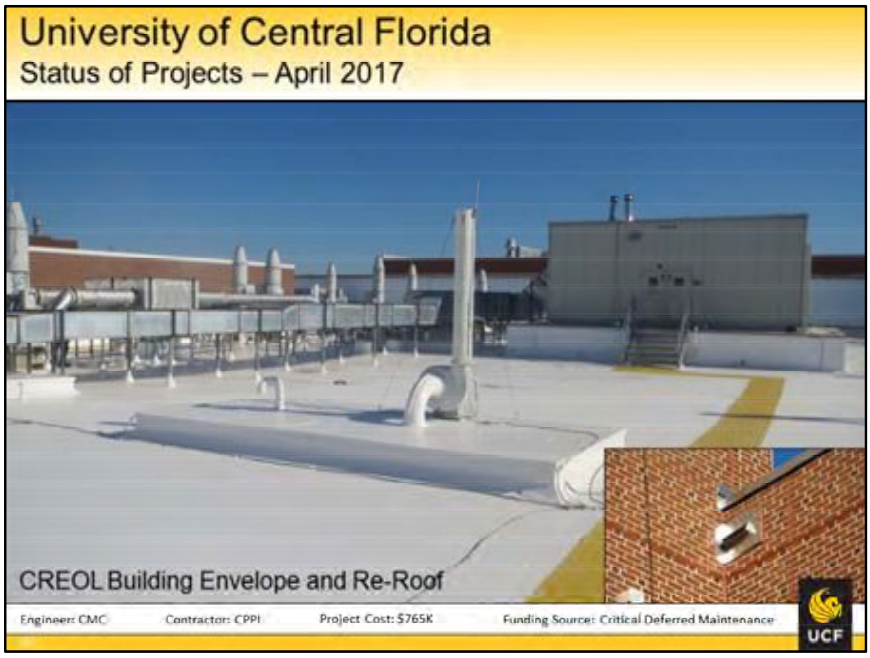
- 76 projects in 17 different buildings
- Another 46 projects planned for summer 2017

ATHLETICS

- Temporary HVAC to the practice field
- Supports football practice program

ATHLETICS

* New flooring, nutrition station, finishes



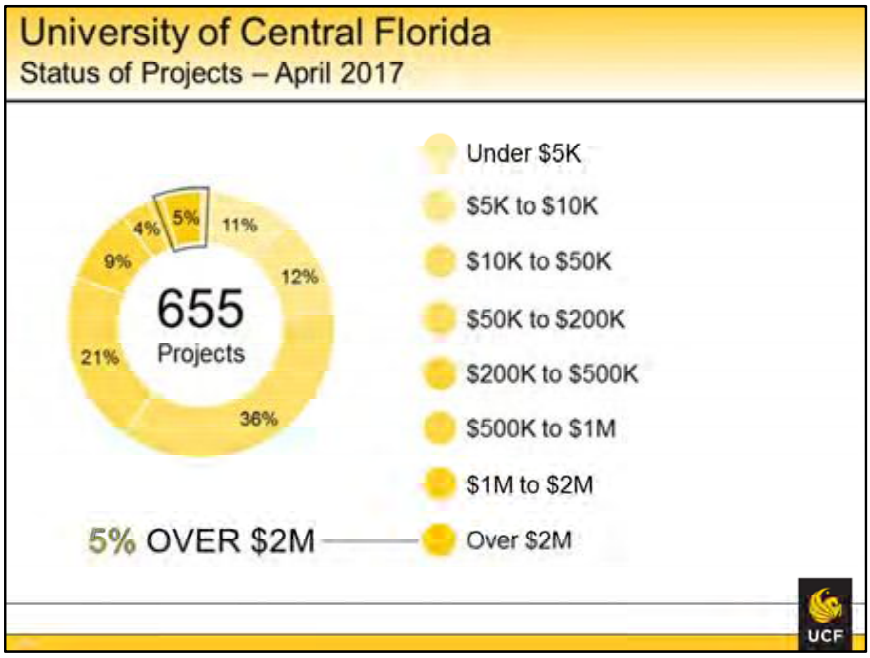
RECREATION & WELLNESS

- Three new recreation fields
- Supports student recreation and intramurals

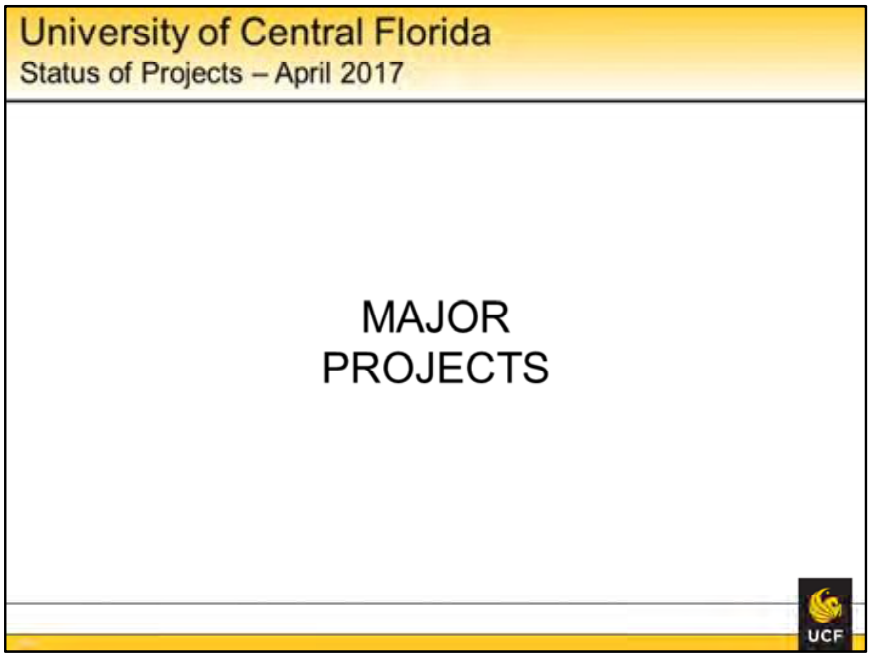
CAMPUS WIDE PROJECTS

- Building signs for wayfinding
- Only vehicular directional remain

DEFERRED MAINTENANCE



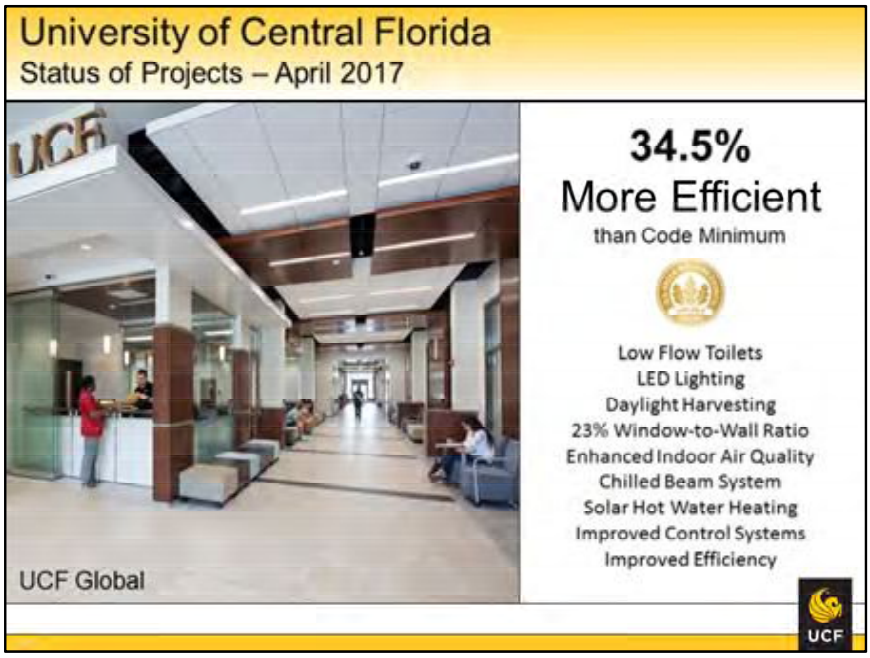
* Roof replacements, building envelope repair
* One of 14 roof projects that we worked on over the last year



DEFERRED MAINTENANCE

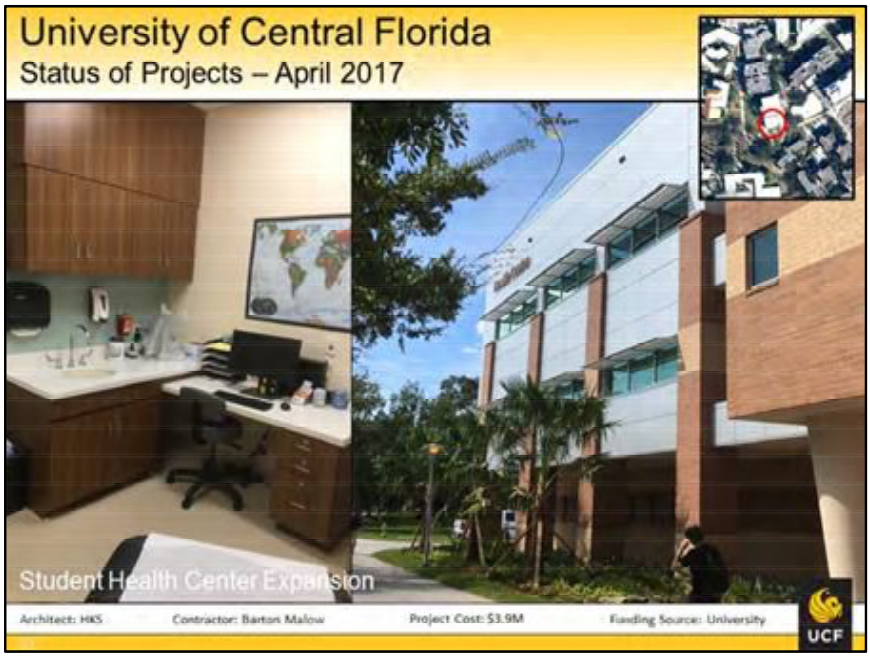
- Pump replacements
- Generator replacements and additions
- Air handler replacements
- Building control systems

PROJECTS SHOWN REPRESENT 3% OF THE MINOR PROJECTS THAT WE WORK ON IN A GIVEN YEAR



The rest – 5% projects over $2M

University of Central Florida
Status of Projects – April 2017
MAJOR
PROJECTS
UCF

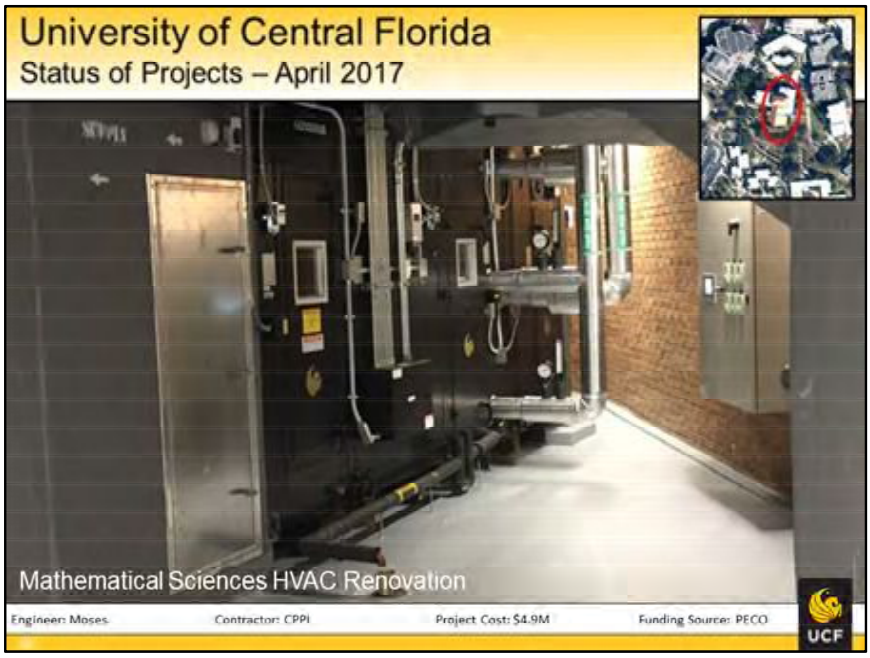


- Project occupied since March 2016
- Florida Educational Facilities Planners Association – Outstanding Design Award
- United States Green Building Council – LEED New Construction Project of the Year
- Orange County – Sustainable Project of the Year

- LEED Gold
- 34.5% more efficient than a code minimum building!
- Best performing building on campus
- Systems have an up-front cost, but result in long-term savings to the university, as well as occupant benefits

- Expansion to offset loss of parking by UCF Global and Research I
- Adds 600 cars to Garage C
- Completed in August 2016 for the Fall 2016 school year

- 2 story, 10,400 sf addition over existing functional pharmacy
- State of the art programs serving student needs related to international health, travel medicine, and immunizations
- Includes space for psychiatry, substance abuse counseling, biofeedback, and dieticians
- Building expansion includes:
    - Reception, 15 patient rooms, 15 provider offices, records rooms, conference room, marketing suite, storage
    - Upgraded building HVAC controls



BHNS LED scoreboard

- 114 feet wide x 36 feet tall
- Enhanced audio
- Completed for 2016 football season
- Working on LED ribbon board and camera platform for 2017 football season

CFE Arena Scoreboard

- Video board, ribbon board, courtside boards, and new controls equipment
- Completed for 2016 basketball season

University of Central Florida
Status of Projects – April 2017
Knights Plaza Renovation
Architect: TLC and Morris Contractor: Barton Malow and Wharton Smith Project Cost: $3.9M Funding Source: University and DSO
UCF

- First PECO project
- Three of four air handlers replaced over winter 2016 break
- Project had remaining funds, so fourth air handler replaced over winter 2017 break
- Commissioning is being finalized

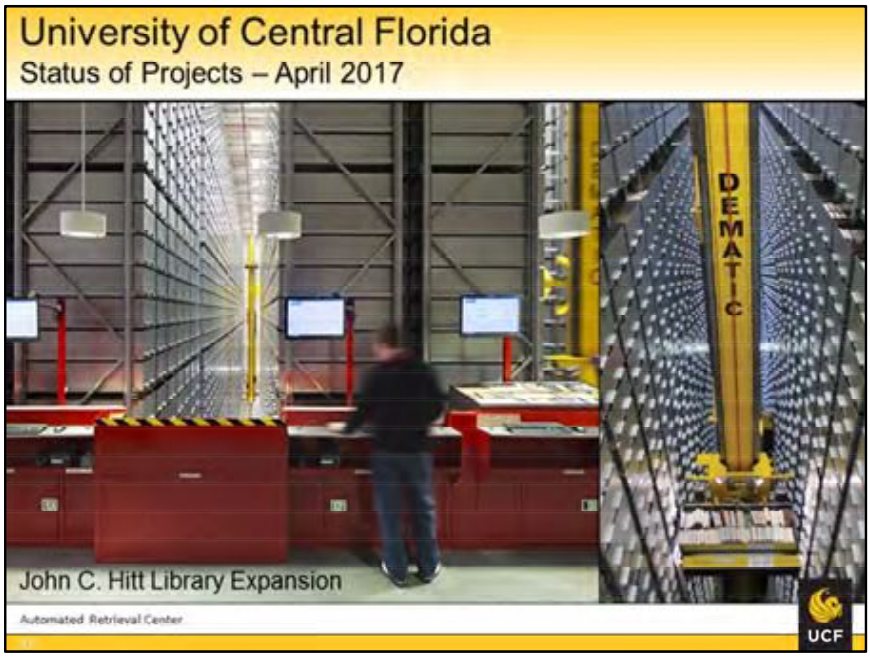
- Stand alone foodservice facility to house Pollo Tropical and Café Buscelo
- Provides a foodservice venue in an area of campus near housing with little food options
- Thousands of student foot traffic per day going from housing to main campus and recreation area
- Project open

- 4,000 gsf interior, 7,200 gsf covered exterior
- Provides shelter from the elements, instrument storage, restrooms, and a covered practice area

* 99,000 gsf building (63,000 gsf phase 1, 36,000 gsf phase 2)

- 30 research/incubator labs, 20 materials characterization rooms, conference rooms, offices, ancillary spaces
- Programs include:
    - Materials Characterization Facility
    - NanoSciences Technology Center
    - Sustainable Coastal Systems Cluster
    - Energy Converstion and Propulsion Cluster
    - Resiliant, Intelligent, and Sustainable Energy Systems (RISES) Cluster
    - Cybersecurity and Privacy Cluster
    - Human Augmentation Cluster

- Occupants decided mid-construction, so re-design is occurring mid-construction
- Targeting December 2017 completion



Phase 1A – stand alone ARC building

- Automatic Retrieval Center (3 aisles of robot)
- Sprinklering existing building
- ADA restroom upgrades to existing building
- Exit stair handrail replacement at existing building
- 7,500 sf renovation of existing library fifth floor for a new study area

Phase 1B – Connector building

- Connects ARC back to main library
- Provides new entrance to the north side of the library facing the Student Union
- Finishes fourth floor reading room over ARC
- Upgrades electrical service to building

ARC Statistics

- Accommodates 2.25M volumes of material
- Request for materials from any device with internet access
- Automatic crane locates materials and delivers to pick-up station
- 5-10 minutes for entire process

- Phase 1A – complete December 2017
- Phase 1B – complete Fall 2019
- Subsequent floors to be renovated one at a time, as CITF funds become available

- Adds additional warehouse capacity for surplus & storage
- Hard drive shredder
- Postal pack & ship in support of surplus program
- Revenue generation – roughly $250K in sales annually
- Under construction, anticipated completion August 2017

- Adds additional chilled water capacity for future growth and redundancy on the campus
- Adds 2 chillers, with room for expansion for 2 additional chillers
- Project is visible from Gemini road, so must be visibly pleasing
- Construction has started!
- Completion December 2017

- Replace Air Handlers
- Life Safety Upgrades
- Upgrade Electrical System
- GMP Approved, phased construction to align with building availability

- 135,000 gsf new construction
- Houses current Occupants of Colbourn Hall
    - English
    - Writing & Rhetoric
    - History
    - Modern Languages
    - Texts and Technology
    - Judaic Studies
    - College of Arts and Humanities Advising Office
    - University Writing Center
    - Center for Humanities and Digital Research
    - Graduate Student Center
    - 7 classrooms
    - Conference rooms, ancillary space
- Additional Programs
    - Student Development and Enrollment Services
- Construction Anticipated to Start May 2017
- Completion Fall 2018

- 8,200 gsf addition
- New labs, offices, and shell auditorium
- Bidding – May 2017
- Construction Start August 2017
- Construction Complete September 2018
- Construction Complete

- Expanded and consolidated offices for Athletics staff
- Support spaces for Athletics programs
- Initial design – shell construction only - $2M
- Advertisement under review for Architect/Engineer on the interior build-out
- Two associated projects for utility relocation work and chilled water line extension to support this project and future growth of this part of campus
- Shell construction complete December 2018

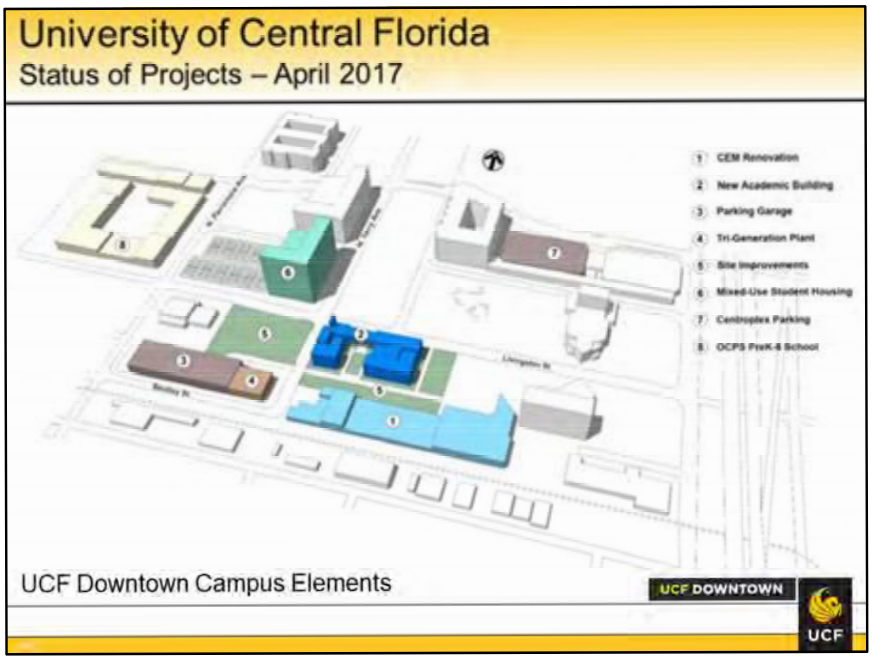
- 100 shaded seats
- 300 seat club with air-conditioned lounge
- Expanded concessions
- Distributed sounds system
- Press box renovation
- Children's activity area behind third-base line

- Renovation of the UCF Football Recruiting Lounge
- Adds kitchens, serving stations, and restrooms
- Currently in design
- Targeting Spring 2018 completion

Building expansion

- Adds 700 dining seats
- Five new foodservice concepts
- Back of house kitchen and dishwasher upgrades
- Fourth floor – student government space

Multi-phased project – food court renovation to start May 2017, followed by the full building expansion



Partnership project

- Primarily military tenants – PEO STRI
- Schematic Design in progress – concept plan changes and furniture layouts are under review
- Several parts and pieces of the project, including the purchase of a second building, which affect the Partnership IV scope
