SUBJECT: Public Notice to Approve Amendment to Board of Governors Regulation 9.006 University Personnel Definitions and Compensation

PROPOSED BOARD ACTION

Public Notice to Approve Amendment to Board of Governors Regulation 9.006

AUTHORITY FOR BOARD OF GOVERNORS ACTION

Article IX, Section 7, Florida Constitution; Regulation Development Procedures

BACKGROUND INFORMATION

Senate Bill 72 includes a requirement that:

“The legislative budget request must also include five-year trend information on the number of faculty and administrators at each university and the proportion of FTE dedicated to instruction and research compared to administration. The Board of Governors, by regulation, shall define faculty and administrator classifications and shall also report the definitions in the legislative budget request.”

This regulation is being amended to reflect a name change from ‘Remuneration of Presidents and Administrative Employees’ to ‘University Personnel Definitions and Compensation’. It also defines faculty and administrator classifications based on a workgroup of university staff that included Data Administrators and Human Resource professionals. These definitions allow for a consistent collection and reporting of personnel data. These definitions will also satisfy a State Auditor finding in report number 2017-048 and repeated in report number 2020-032 that the Board did not have the authority to define faculty in this regulation.

No public comments were received during the notice period.
