- **Competitiveness**, demonstrated by world rankings

The background of the slide features a vibrant, glowing sun with numerous sharp rays emanating from its center. To the right of the sun is a detailed globe of the Earth, showing continents and latitude/longitude lines. The scene is set against a dark, starry space background with several small, distant stars visible. The overall color palette is dominated by the warm yellows and oranges of the sun, contrasting with the cool blues and greens of the globe and the deep blacks of the space.
